

Appendix 1

Links between the HESA 2005-06 student record and HESES05

1. We will use the HESA 2005-06 student record to monitor data returned on HESES05. The description in this appendix is for information only, and details the methods we intend to adopt when re-creating HESES05 data from the HESA 2005-06 student record. The most recent algorithms for generating a HESES re-creation are described in Appendix 1 of '2004-05 statistics derived from HESA data: guide to HEFCE web facility' (HEFCE 2005/32). We do not anticipate changing these methods substantially for the HESES05 re-creation. However, as a result of changes introduced for HESES05 a minor amendment will be made, as detailed below.

2. If we find, either through comparisons with HESA data or any audit, that erroneous data have resulted in institutions receiving incorrect funding allocations, we will adjust their funding accordingly (subject to the appeals process and the availability of funds).

Updates to the algorithms since HEFCE 2005/32

Dates

3. When linking data between years all date-based calculations detailed in Appendix 1 of HEFCE 2005/32 will be rolled forward by one calendar year, with the exception of references to 1998.

Fundability and residential status

4. The algorithm for identifying fundability and residential status has changed to reflect the treatment of postgraduate research students in HESES05.

HESTYPE

5. This field indicates the student's fundability and residential status.

Value	Description	Definition
HOMEF	Home and EC HEFCE funded	FUNDCODE = 1 and HESLEVEL ≠ PGR
HOMEIF	Home and EC independently funded	FUNDCODE = 4 and HESLEVEL ≠ PGR
HOMENF	Home and EC non-fundable	FUNDCODE = 2, 5, 7 and FEEELIG = 1, 3 or (INSTID = 0001 and DOMICILE = 7826 and FUNDCODE = 1) or (FUNDCODE = 1, 4 and HESLEVEL = PGR)
ISOV	Island and overseas	Otherwise
