

# Publication of statistics on early years providers and places and inspection outcomes

Consultation document

---

This is a consultation document on Ofsted's proposals for revisions to the publication of statistics relating to early years inspections and the number of registered childcare providers and places. We are seeking the widest possible range of views to ensure that the revised publication format takes into account the needs and circumstances of all those who have an interest or expertise in early years. We are particularly keen to hear from people who have been directly involved with early years provision – including children, parents and carers and those who run and commission services.

The closing date for the consultation is 28 November 2014.

If you would like a version of this document in a different format, such as large print or Braille, please telephone 0300 123 1231 or email [enquiries@ofsted.gov.uk](mailto:enquiries@ofsted.gov.uk).

## About Ofsted

1. The Office for Standards in Education, Children's Services and Skills (Ofsted) regulates and inspects to achieve excellence in the care of children and young people, and in education and skills for learners of all ages.

## Purpose and background to the consultation

2. This consultation seeks your views on proposed new arrangements for the early years official statistics that are published by Ofsted. Your contribution will help to refine and develop these publications to meet users' needs.
3. Ofsted currently produces two early years official statistics: *Registered childcare providers and places in England* and *Early years and childcare registered providers inspections and outcomes*.
4. The *Registered childcare providers and places in England* release reports on the number of active providers currently on the early years and/or childcare registers, with the number of places they are eligible to offer. This release is published every six months on the Ofsted website: [www.ofsted.gov.uk/resources/20090002](http://www.ofsted.gov.uk/resources/20090002).
5. The *Early years and childcare registered providers inspections and outcomes* reports on the most recent inspection outcomes. This release is published quarterly on the Ofsted website: [www.ofsted.gov.uk/resources/20110015](http://www.ofsted.gov.uk/resources/20110015).

## The aim of the consultation

6. The aim of this consultation is to investigate how Ofsted can make the frequency and content of releases more useful.
7. This consultation is of particular relevance to users of early years statistical releases.
8. Responses will inform the review of the publication. The consultation closes on 28 November 2014 and results will be published in early 2015.

## Proposed new arrangements

### Introduction

9. We are proposing three key changes to the two early years official statistics, namely:
  - changing the frequency of the releases
  - combining the two releases together
  - streamlining the releases to make them more focused and user-friendly.

## Changing the frequency of statistical releases (question 1)

10. Ofsted currently publishes official statistics every quarter for the inspection outcomes release, with a six-monthly publication for providers and places.
11. We propose changing the frequency of these two early years publications by:
  - publishing information on inspection outcomes three times a year instead of quarterly (1 January – 31 March, 1 April – 31 August, 1 September – 31 December)
  - publishing information on provider and places three times a year instead of every six months (1 January – 31 March, 1 April – 31 August, 1 September – 31 December).

## Combining the two statistical releases together (question 2)

12. To allow for more joined-up reporting, we are considering combining the information from the two official statistics publications into one and renaming the publication.
13. The new publication will hold data on the number of registered providers, together with information on providers' inspection outcomes for the same reporting period.

## Streamlining the releases (questions 3–8)

14. We envisage making changes to the content of the registered provider data and the inspection outcomes information by:
  - simplifying the way we report on the early years and childcare registers – removing the monthly breakdown reporting and modifying the three charts that are presented in the official statistics release
  - removing some inspection tables and charts to focus more on the state of nation analysis and change the methodology of table 7
  - replacing current provider level inspection files with one comprehensive file containing registration and inspection information.
15. For the *Registered childcare providers and places in England* release, we would remove the register combination data currently shown and report only on the number of providers registered on the early years register (EYR) and the childcare (voluntary and compulsory) register (CCR) and an overall total number of providers registered. Currently we report on seven variations of register combination. (**Question 3**)
16. We would remove the monthly breakdown reporting from the providers and places publication and report on the numbers at the end of the latest reporting period for each release (for example, the number of providers registered at the end of March or the end of August). (**Question 4**)

17. With the introduction of Childminder Agencies (CMA) in September 2014, childminders can choose to register with Ofsted or with an agency. Those who choose an agency will no longer register with Ofsted and will be removed from the register. This change makes reporting on childminder trends, pre- and post-September 2014 unreliable. To address this, we would present childcare numbers over time only and remove childminders' information from charts 1–3. **(Question 5)**
18. The *Early years and childcare registered providers inspections and outcomes* release consists of 16 tables and five charts. We would like to identify and remove several tables and charts that we believe are not adding value or insight into the early years sector for users. **(Question 6)**
19. We would like to change the methodology of table 7 in the summary table file ('Actions issued at early years registered inspections') to report on the most recent inspections since September 2012 (the implementation of the current Early Years Framework) instead of the current method that reports on the latest inspection quarter only. **(Question 7)**
20. If the responses to this consultation supports the proposal of combining the two releases together, there is an opportunity to bring registration and inspection data together and report on them at the same point in time. We would improve the provider level files currently published to include registration data. This modified file would still contain all the inspection information we currently publish. **(Question 8)**

## **The consultation process and submitting your views**

21. We welcome your responses to this consultation paper. The consultation opens on 25 September and closes on 28 November 2014.
22. The information you provide us with will inform our changes to the publication of statistics on early years.
23. We will publish a response to the consultation in early 2015.
