Introduction

This is the final list of qualifications that have been approved by the Department for Education (DfE) for teaching to 16 to 19 year olds from September 2015. These qualifications will be reported in the **applied general qualification** category of the 2017 16-19 performance tables (to be published in early 2018). They will be reported alongside advanced (level 3) qualifications such as A Levels and tech levels, and technical certificates at level 2.

Qualifications that will be reported in performance tables for the first time in 2017 have an asterisk (*) after the title.

Qualifications that were added to the list in February 2015 are indicated with a hash symbol (#) after the title.

Applied general qualifications are rigorous advanced (level 3) qualifications that allow 16 to 19 year old students to develop transferable knowledge and skills. They are for students that want to continue their education through applied learning. Applied general qualifications allow entry to a range of higher education courses, either by meeting the entry requirements in their own right or being accepted alongside and adding value to other qualifications at level 3 such as A levels. Higher education institutions, such as universities, have pledged support for all approved applied general qualifications listed.

The list contains the qualification number and title and links to information about its purpose and value for further study and letters of support from higher education institutions. This will help students and parents decide which vocational qualifications best meet their learning needs and aspirations.

These links were correct on 17 December 2014. DfE cannot be held responsible for any omissions after this date. This is because the information is held on the website of the examination body offering the qualification. DfE will ensure that any omissions reported to them are corrected wherever possible. Please report any omissions to:

vq.reform@education.gsi.gov.uk

Please note: Schools and colleges may offer qualifications that are not included in the performance tables, if approved for teaching to 16-19 year olds, where this is in the best interests of each of their individual students.

Headline performance measures for 16-19 year olds

In 2013, DfE announced significant reforms to school and college performance tables. These affect the reporting of exam results taken in the summer of 2016 onwards. The new headline measures for school and college performance will be:

- progress;
- attainment;
- progress in English and maths (for students without a GCSE pass at A*-C in these subjects);
- retention; and
- destination.

From 2016, the progress measure in 16-19 performance tables will report the following categories of qualification: level 3 academic qualifications (such as A levels) and level 3 tech levels and applied general qualifications. From 2017, the measures will also report technical certificates at level 2. This may help students and parents decide which courses to take and then select a school or college which offers this course.

Further information can be found in the [16 to 19 accountability measures: technical guide](#).
