## How to find the learning aim website

The learning aim search is available on [the Hub](#) on the 'Learning Aims' tab (see the screenshot below). You do not need to log into [the Hub](#) as the site is publicly available.

The screenshot shows the HM Government Learning Aims search page. At the top, there is a navigation bar with 'Home' and 'Learning Aims' tabs. The 'Learning Aims' tab is highlighted with a red box. Below the navigation bar, there is a search form with the following fields and options:

- Keyword or code:

## Descriptions of the searches on the website

The sections in this document describe the search functions on the website along with the appropriate screenshots.

### Keyword or code

The first section at the top of the webpage allows you to search our database for any keyword or code you enter. If you are searching by a code then the following codes are valid: the learning aim reference, the apprenticeship framework number, the apprenticeship standard number or the unit reference number.

This screenshot shows a close-up of the search form on the Learning Aims page. It includes the navigation tabs 'Home' and 'Learning Aims', the breadcrumb 'You are here: Home > Learning Aims', and the 'Keyword or code:' search input field.

Under this section on the webpage there are multiple search options that can filter your results.

## Type of learning

This section allows you to search by a type of learning. The available types are apprenticeship frameworks (abbreviated to 'Frameworks' on the website), 'Qualifications', 'Units' or apprenticeship standards (abbreviated to 'Standards' on the website). The default option is set to 'All' learning types.

## Teaching year

This section allows you to filter the search by our funding years (01 August to 31 July). If you select a teaching year, the search result will show all the appropriate items but will only display the validity details for the selected period.

The search contains the following funding years:

- 2013 to 2014
- 2014 to 2015
- 2015 to 2016

The default selection is the current funding year (based on the time of the search).

Underneath the teaching year search is a section called 'Include' that allows additional filtering. It contains three main options which are highlighted below:

**Include:**  All Aims  All Funded Aims  
 Only the following Aims

<input type="checkbox"/> 16-19 EFA	<input type="checkbox"/> 24+ Loan
<input type="checkbox"/> Adult Skills	<input type="checkbox"/> Apprenticeships
<input type="checkbox"/> Community Learning	
<input type="checkbox"/> English qualification validity for EFA Funding condition	
<input type="checkbox"/> Maths qualification validity for EFA Funding condition	
<input type="checkbox"/> OLASS	<input type="checkbox"/> Other
<input type="checkbox"/> Unemployed Offer	

Start Date:   End Date:  

- **All aims** – the default option that returns all aims
- **All funded aims** – searches for aims that are linked to a funding category (for example, adult skills)
- **Only the following aims** – allows you to choose one or more validity categories (see the checkboxes below the main headings). These are used to show if an aim has been approved for funding for that programme

## Start and end date

This section allows you to refine the validity category search by changing the default dates within the funding year (01 August to 31 July).

This search is only available when selecting a validity category; it will be unavailable (and greyed out) when the ‘All aims’ and ‘All funded aims’ options are selected.

## Level

This section allows you to choose the notional level of the qualification or the unit as outlined by [Ofqual](#). Click on the ‘Select all’ checkbox and it will clear all the ticks from the boxes to allow a single selection.

<b>Level:</b>	<input checked="" type="checkbox"/> Select all:	<input checked="" type="checkbox"/> Level 1/2	<input checked="" type="checkbox"/> Level 2
	<input checked="" type="checkbox"/> Level 1	<input checked="" type="checkbox"/> Level 4	<input checked="" type="checkbox"/> Level 5

	<input checked="" type="checkbox"/> Entry Level		
	<input checked="" type="checkbox"/> Not Applicable/ Not Known		

## Awarding organisation code or name

This section allows you to search by the awarding organisation that created the aim.

Awarding Org code or name:	<input type="text"/>
-------------------------------	----------------------

For a full list of awarding organisations and associated codes used by the learning aim database use the downloadable database to access a table called ‘Awarding\_Organisations’ (see the Downloads section).

For more information about what the download contains please refer to our [LARS \(Learning Aims Reference Service\) Tables and fields definitions document](#).

## Additional filters

If you click on this section at the bottom of the webpage it reveals more filters (see the screen shot below). This applies to aims with a 'type of learning' of 'qualifications' and 'units'.

If the standard code is already known, then enter a standard code or title into the 'Keyword or code' search, then select the 'Type of Learning' of 'Standard'.

## Downloads

You can download the database via the 'View Current Downloads' link on the right side of the webpage (see the screen shot below). This directs you to the 'downloads' page.

From this page you can download the database in the following formats: pipe separated value (psv), comma-separated values (csv) or Access (mdb).

### New searches being developed

A new category search is being developed and will be available soon. This guidance will be updated in August 2015.

### Known issues

If we find any issues with the learning aim database or the website, we record them in the '[Known Issues](#)' document. This document contains an indication of when the issue will be resolved and if there is a work around in the meantime. The document is found under 'Links' section on the learning aim search page.

You will notice a change in the version number as updates are applied to the document.
