Introduction

1. This booklet presents for Wales and each local authority area the 2001 A/AS level results. It completes the range of published information for each Key Stage.
2. The data is derived from the information provided by the Welsh Education Database and returned to schools in the autumn of 2001 for checking.

Access to Information

3. Schools are required to report all examination results to parents, and where appropriate the national comparative information.
4. Schools are also required to include in their prospectuses and governors' annual reports a range of information which the National Assembly provides on the RE2 form. This booklet highlights some of that information at a local level. In particular performance in GSE A levels grades A-C and A-E. The booklet also presents the relative performance of boys and girls which supports the national target of halving the extent to which boys under perform girls by 2002.

Content of Booklet

5. This booklet gives a results summary of:
 - Average point score for 17-year-olds entering 2 or more A levels or equivalent.
 - Average point score for 17-year-olds entering less than 2 A levels or equivalent.
 - Percentage of 17-year-olds entering 2 or more A levels grade A-C or equivalent
 - Percentage of 17-year-olds entering 2 or more A levels grade A-E or equivalent.

This data is shown for all 17-year-olds and, separately, the performance of girls and boys.
