USE OF SCHOOL PREMISES FOR POLITICAL EVENTS – ADVICE

1. School Boards of Governors and school principals should note the regulations and procedures that govern the use of school premises for political events. School authorities will be expected to adhere to this advice, especially in the run up to the forthcoming NI Assembly election.
2. Regulation 6 of the Primary Schools: General Regulations (NI) 1973 and regulation 7 of the Secondary Schools (Grant Conditions) Regulations (NI) 1973 which apply to grant-aided schools state that:

“A school shall not be used for political meetings, the transaction of any political business or for any purpose connected directly or indirectly with Parliamentary, Assembly or Local Government elections except as polling booths on the requisition of the officer responsible in accordance with the statutes governing such elections.”

3. This is the current legal position which prohibits the holding of political meetings in a grant-aided school, including meetings which could be regarded as aimed at canvassing for votes for any particular political party or any particular political party election candidate. The only exception permitted is the use of schools as polling booths.
4. This advice is not intended to interfere with the practice of schools to invite politicians to address events related to the school curriculum and pupils' personal learning and development as young citizens. This applies particularly to sixth form pupils. However, there is a distinction to be made between events which are aimed at the learning and development of young people and those that might be seen to be electioneering activity through canvassing young people as future voters. School authorities should therefore ensure that such events adhere to the regulations governing the use of schools for political meetings.
