# 1 Online v Traditional Marking

## Introduction

In order to fulfil our regulatory and accreditation functions as set out in the Apprenticeships, Skills, Children and Learning Act 2009<sup>1</sup>, we require awarding organisations to provide exams delivery data for regulated qualifications.

## When will data be collected?

Data will be collected according to the reporting schedule which is agreed and maintained by Ofqual's Data Services team.

## What data will be collected?

Online v Traditional Marking will be collected for GCE and GCSE. The figures should include applied subjects, short courses and overseas entries. Two lines of data should be reported, one for GCSE and one for GCE.

## How will the data be collected?

Awarding Organisations will need to login to the secure FTP site and upload a CSV file to the relevant folder, e.g. T5\_Online\_TraditionalMarking.

In each folder, there will also be two sub folders called **Valid** and **Invalid**. Every time a file is uploaded, the validation process will generate a report, either confirming the file is valid or invalid.

This report will then be placed in the **Valid** or **Invalid** folder for reference. When an invalid report has been generated, a notification e-mail will be sent to AOs and the invalid CSV file will be removed from the folder it was placed in so that a replacement file can be uploaded.

## General completion guidelines

- This template should be country specific. Awarding organisations should enter a row of data for each country i.e. England, Wales, Northern Ireland, Other UK Regions and Non UK.
- Numeric values must not have any formatting.
