Open Data Guidance
for Learner Satisfaction 2015 to 2016

Contents

1. Introduction

1.1 Purpose

This FE Choices Learner Satisfaction open data guidance describes the formatting and
content of the Open Data files for Learner Satisfaction.

2. File Contents

2.1 Files Published

- **Provider File** - Displays summary information relating to the provider, such as the provider's overall score and comparison scores. Where data is not available, the file also contains missing score reason

- **Response File** – Displays the number of survey responses and the number of learners for each age range, level or subject area

- **Question File** – Displays the individual question scores for each age range, level or subject area

2.2 Format of the Provider File

Field Name	Description	Format	Length	Mandatory	Example Data
UKPRN	The UKPRN of the provider	Numeric	8	Yes	10000534
Provider_Name	The name of the provider	Text	255	Yes	A College

3   Suppression

3.1 Purpose

To protect the identity of individual learners participating in the survey we have had to suppress some of the values in the files. Where this is the case the "-" character is used instead of the original value. We do this to make sure no individual learning at a particular provider can be identified from the data we release.

Suppression is required in statistical publications to protect the possible identification of individuals' identities and thereby ensure compliance with the Data Protection Act. Suppression may also be used as a way of controlling the rigour of the statistics reported.
