Funding Monitoring Reports: User Guide 2017 to 2018

Version 1

Guidance for using the funding monitoring reports for the
2017 to 2018 funding year (1 August 2017 to 31 July 2018)

December 2017

Of interest to colleges, training organisations and employers.

Understanding the terminology

1. The terms 'we' and 'ESFA' refer to the 'Education and Skills Funding Agency' and associated staff.
2. When we refer to 'you' or 'providers', this includes colleges, training organisations, local authorities and employers that receive funding from us, or Advanced Learner Loans (loans) payments from the Student Loans Company (SLC) on behalf of learners, to deliver education and training.

Introduction

3. We monitor the data reported to us in the Individualised Learner Record (ILR) as part of our assurance work. This includes reviewing data from other sources such as the Earnings Adjustment Statement (EAS), the apprenticeship service (AS), and Student Loans Company (SLC).
4. We review how the funding system and funding rules are operating to identify possible errors in funding claimed and areas requiring further investigation. The outcomes of this also allow us to confirm that policy specifications are working and achieving the desired outcome(s). As part of this process, we also aim to improve the overall quality of the data being reported to us.
5. We support colleges, training organisations and employers to resolve data issues throughout the funding year by:
 - a. Publishing articles in Update and Inform to draw attention to particular issues.
 - b. Producing technical guidance notes to advise on how you should record data in the ILR returns to reflect the evidence you hold.
 - c. Providing rule violation reports that you receive each time you make a data submission through [the Hub](#).
 - d. Contacting those providers who have the most issues, or the most issues in proportion to the volumes of learners they have, to better understand their processes and to offer advice and guidance where necessary.

6. The suite of funding monitoring reports we provide in BIRST (our business intelligence tool to produce and view interactive dashboards) supports the [2017 to 2018 monitoring plan](#). These reports do not replace the [provider data self-assessment toolkit \(PDSAT\)](#): you must continue to use the PDSAT to review data returns and correct any issues before your next ILR data submission. The two sets of reports are designed with some overlap to highlight any necessary corrections.

Useful links

7. For further information on our monitoring work, please refer to:
 - [ESFA financial assurance: monitoring the funding rules](#)
 - [Adult education budget funding rules 2017 to 2018](#)
 - [Advanced learner loans funding rules 2017 to 2018](#)
 - [Apprenticeship funding and performance management rules 2017 to 2018](#)
 - [Apprenticeship technical funding guide for starts from May 2017](#)
 - [ILR specification, validation rules and appendices 2017 to 2018](#)
 - [Provider support manual 2017 to 2018](#)
 - [Learner Registration Bodies user guide](#)

Purpose of this user guide

8. This user guide provides an introduction to BIRST and the suite of funding monitoring reports. It details specific guidance and the processes you must follow in order to ensure compliance with the funding rules for each area of the funding monitoring plan. For each report we have indicated the actions we will take if we are not satisfied your data is in compliance with the rules. Full details of the available reports are listed in [Annex B](#).
9. This user guide is for those who have a working knowledge of the funding rules and the key principles of funding. It also assumes a working knowledge of the ILR, including the field names and codes and their impact on funding.
10. If you require any further guidance, please contact the service desk. You can also access peer-to-peer support from the sector through the [FE Connect](#) forum.

How we will use this data

11. We monitor the data submitted through the ILR, and the other data collections noted earlier, throughout the funding year and share this with our auditors and intervention colleagues when appropriate.
12. If you have data errors following the closure of the R14 ILR return at the end of the funding year, we may:
 - recover funding where we are confident the claim has been made in error; and/or
 - conduct assurance visits for specific issues before the end-of-year reconciliation statements are issued.
13. If you have been subject to repeated action or a funding recovery, this will raise your risk profile with us and will increase the likelihood of your organisation being selected for audit.

What you must do

14. If we have identified records in a monitoring area, you must review this data to determine whether you need to make any data corrections in your next ILR submission. Details of actions you must take are contained in [Annex B](#).
15. You must also refer to the specific funding rules and ILR guidance relating to each report. This guidance is included in the monitoring plan and, in some cases, is explicit about what you must do, and what is ineligible for funding. For example, if you were reviewing issues in report 6 'Changes to 'Learning planned end date' between years', the monitoring plan references the [provider support manual](#) which states that you must not change this data between years. The support manual also tells you the process for correcting data errors after the hard close for the previous year, and the legitimate reasons for doing so.
16. Where there is an explicit statement of the action you must take within the funding rules, ILR guidance or this document, then you must comply with this guidance. Failure to do so may result in a funding recovery or additional assurance activities being undertaken to determine the eligibility of the funding claim.

17. If you have been contacted by us and are advised to correct data, or we have published technical guidance through channels such as Update or Inform, then you must ensure this is corrected by the close of the R14 ILR data return.
18. If you believe the data and funding claim are correct, you must ensure that you have the evidence to support this, ensuring any subcontractors also meet this requirement. We may ask you to present this evidence to us for assurance purposes; you must be prepared to provide this to us in a timely manner.
19. You must ensure that you have sufficiently robust processes in place to allow you to review the activity of any subcontractors, particularly where we have identified that learning may be duplicated across multiple providers or that your subcontractor delivered any previous learning to the learners in question.
20. You do not need to take any action for areas with 0 records identified on the summary page in the BIRST report. This means that we have not identified any records in that area of the monitoring plan.
21. A report indicating you have claimed £0 funding for the records identified may still need to be actioned as this may relate to components funded as part of an apprenticeship programme. If no funding is being claimed, the learning aim must be reported under funding model '99'.

Using the Learner Record Service (LRS)

22. When a learner enrolls with you and declares their prior attainment, you must validate this against the data in the personal learning record (PLR) on the LRS. If the LRS contradicts the self-declaration, you must question the information supplied by the learner as it does not automatically override the self-declaration.
23. The PLR is populated by three main sources:
 - national pupil database (NPD)
 - awarding organisations (AOs)
 - providers' ILR returns (ILR)

24. The LRS includes a 'participation end date' for data supplied from ILR returns, which can be used where no award date has been returned. This date will be the same as the 'learning actual end date' supplied by the provider in their ILR return.
25. If no award date is returned, you must still obtain evidence to confirm whether the learning was achieved. This could be by contacting the learner or the previous provider. If the learner does not grant you permission to view their record, you should seek alternative evidence to confirm the learning was not achieved.

Accessing the reports

26. Nominated users can access this suite of reports through the Hub using the 'BI Tools' tab; this takes you to BIRST. If you already have access to the Hub, you can request access to these reports through your nominated super user. If you are a user with access to qualification achievement rate (QAR) reports, you can already access the reports through your business intelligence dashboard user roles. For further guidance, please refer to [The Hub: Guide to User Roles](#).
27. You do not need to download any additional software to run these reports. Further guidance on using BIRST is available in the 'My BI guide to dashboards' page in BIRST (this is the first page you see when you open BIRST).
28. We will refresh reports each month once the ILR submission date passes and we have concluded our assurance processes on the data. The [ILR freeze schedule 2017 to 2018](#) indicates when we expect data to become available in BIRST each month.
29. Once you have logged into the Hub and clicked on the 'BI Tools' tab, you can access the reports by selecting 'Dashboards' from the default homepage. Once this has loaded, you can click on the title of the collection currently viewed, and select 'Funding rules monitoring 1718' from the menu ([Annex A: figure 1](#)).
30. We designed the reports to work with most internet browsers although we recommend Google Chrome or Mozilla Firefox for optimum viewing experience.

31. We have kept a separate dashboard if you need to refer to previous years' data.

Summary page

32. The summary page provides you with a list of all the areas of the funding rules monitoring plan for which a report has been produced. This list includes a summary of the data in each report including cash values ([Annex A: figure 2](#)). If a learning aim is recorded in multiple queries, we only count the aim and cash value once when calculating summary page data.

33. The top of the summary page includes the number of queries we identified compared to the total number of aim records you reported to us in that period.

34. The summary page now also shows you the number of queries identified compared to the number of valid learning aim records submitted for each funding line (previously this was accessed on a separate page).

35. The summary page defaults to show data from the most recent ILR return. Changing the return filter on the summary page also changes the data returned in each report. This allows you to track progress against areas of the monitoring plan throughout the year.

36. The 'Guidance' link takes you to a summarised version of the guidance for correcting data in this document.

37. We have numbered the reports as they appear in [Monitoring the funding rules 2017 to 2018](#). We group the reports by policy area so it is easier to investigate related issues.

Selecting a report to review

38. We have removed the links on the summary page following changes to improve the performance of the reports. However, users can continue to access individual reports' data by selecting from the drop-down menu at the top of the summary page (see [Annex A: figure 3](#)).

Report layout

39. Each report contains a set of fields, providing sufficient data for you to identify specific records within your own system. Some fields are common to all reports; you can sort and filter by any field (see [Annex A: figure 4](#)).
40. In most cases, the fields in the reports match the fields in the ILR specification. The data returned in these reports will be the data you submit each month.
41. Where you have not submitted any data in a particular field, the relevant cell(s) will show '(is missing)'. Once the data is exported to Excel, these cells will show as blank and are NULL values.
42. We have included year-to-date funding values in most reports, with some exceptions where funding is not calculated or reported in that way (for example, advanced learner loans). For some funding streams this value will be calculated on monthly profiled earnings, for others (such as apprenticeship starts since 1 May 2017) it represents the actual payments calculated and made.
43. We have included details of the outcome grade supplied by the previous provider in some reports where we are comparing existing provision to previous achievements. The definitions of these grades can be found in [ILR specification 2017 to 2018 appendix Q](#). In some cases, the report may specify an outcome grade of 'NA': this is where there is no grade because this data was not returned by the provider and therefore corresponds to a 'NULL' value in the ILR.
44. Where we have run an analysis using the generic programme aim ('ZPROG001') we have not included the funding associated with individual component aims, which may mean the funding value appears as £0 (for example, apprenticeship frameworks on funding model 35), unless funding is directly associated with that aim (for example, for apprenticeships starting after 1 May 2017).
45. Where it is relevant for particular reports, we have provided additional 'supplementary' fields. This is because we may have compared the data you submit to previous or other providers' returns, or have derived data in that particular analysis. The full list of fields and the reports are in [Annex C](#).

46. Each row in every report is assigned a row identifier to support your analysis and aid any discussions you may need to have with us.
47. You can select cells in the report to apply filters, for example where you want to view all data relating to a particular learner or filter on a particular funding line. Because of this feature, you cannot copy and paste directly from the BIRST report, but you can export the data by following the guidance elsewhere in this document.

Exporting data

48. To export data from a single report, or from the summary page tables, hover over the top right hand corner of the chart to see a curved downward arrow. Click on this to display 'Dashlet Actions'. Select 'Export As' then your chosen output type (see [Annex A: figure 5](#)). We recommend that you select 'Data to Excel' if you are going to compare report data to that held in your own systems.
49. The exported file will show all filtered rows. If no filter has been applied, the export will return all data in the report.

Further support

50. There are blue buttons on the top right of each report that allow you to navigate back to the summary page or access further guidance relating to each report.
51. Within the guidance section, we have included a brief description of why we have identified records, and described what action you need to take. We will ensure that the data in each report is sufficient to understand, investigate and resolve any identified issues.
52. If you cannot access your reports, or are unsure how to resolve any identified issues, please contact your provider management contact. You can also access support from the sector using the [FE Connect](#) forum. We will publish technical guidance periodically through [Inform](#) and [Update](#).

Data to Excel

Data to Excel (Details)

Annex B: The BIRST reports in detail

The following areas of the published monitoring plan have been included in the new suite of reports. We have identified the relevant dataset when using multiple sets of data.

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>1.</p> <p>Learners repeating a learning aim they have already achieved</p> <p>BIRST NAME: Repeat learning aims</p>	<p>All new or continuing learning aims where the following match:</p> <p>‘ULN’</p> <p>And ‘Learning aim reference’</p> <p>And the ‘Learning actual end date’ of the previous instance is on or after 01/08/2015</p> <p>And the ‘Learning start date’ is after the ‘Learning actual end date’ of the previous instance</p> <p>And the ‘Outcome’ of the previous instance is 1 (achieved)</p>	<p>Programme aims</p> <p>Non-regulated provision</p> <p>Generic ULNs (‘999999999’)</p> <p>GCSEs where outcome grade was not A* to C (or 4 to 9)</p>	<p>You should check that data such as the Learning aim reference or ULN has been recorded correctly. You must then use the LRS and check with the learner where they have not declared previous learning to you, retaining evidence of this.</p> <p>If you confirm the learner has achieved the learning aim in question, or we have identified a match between your UKPRN (or the reported partner UKPRN) and that reported for the previous instance of the learning aim, you MUST take the action specified:</p> <ul style="list-style-type: none"> • For apprenticeships starting on or after 1 May 2017, funds in digital accounts or government-employer co-investment must not be used for any identified errors. The negotiated price must reflect the prior learning identified. • For learning aims funded by an advanced learner loan, the learner should not have been required to take out a loan for a qualification they have already achieved. You must remove the ADL flag from the learning aim record and contact the SLC to cancel the loan if the learner was required to take out a loan in error. • For any other learning aims, this is a funding error and is ineligible. Qualifications that require periodic refreshing or contain different pathways are the responsibility of the employer or individual. You must correct this data by recoding the aims with Funding model code 99, or follow PSM guidance on correcting data errors after hard close or the previous year. 	<p>For apprenticeships starting after 1 May 2017, we may ask you to provide evidence that the total negotiated price reflects the learner’s prior learning. We may take further action if we are not satisfied the learner’s prior attainment has been taken into account.</p> <p>For other learning aims, failure to correct data where there is a UKPRN match will result in a funding recovery.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>2.</p> <p>Duplicate learning aims being delivered at 2 or more providers</p> <p>BIRST NAME: Duplicate learning aims</p>	<p>All learning aims where the following data matches between two providers:</p> <p>‘UKPRN’</p> <p>And ‘ULN’</p> <p>And ‘Learning aim reference’</p> <p>And the ‘Learning start date’ and ‘Learning actual end’ indicate learning has/is taking place simultaneously (overlap of provision)</p>	<p>Programme aims</p> <p>Non-regulated provision</p> <p>Generic ULNs (‘999999999’)</p>	<p>You should check that data such as learning start dates and/or learning actual end dates have been correctly reported and data is complete where learners have left learning.</p> <p>If you confirm the learner is undertaking the learning aim in question elsewhere, or we have identified a match between your UKPRN (or the reported partner UKPRN) and that reported for the overlapping instance of the learning aim, you MUST take the action specified:</p> <ul style="list-style-type: none"> • If you know that the learner(s) transferred or left learning with you, you must ensure withdrawals or transfers are reported to us in a timely manner, and report an accurate Learning actual end date. • You need to agree which learners belong to you and which belong to your subcontractors (or the other provider). For provision such as apprenticeships this should be identifiable from sources such as the contract for delivery between the provider and the employer. • You or the other provider must then agree who will correct records by coding the aims with Funding model code 99. If one of the providers cannot evidence that learning is being delivered, they must remove the learning aim record(s). • If a learner in receipt of an advanced learner loan changes provider during the learning aim they must inform the SLC and reapply to the SLC for a loan to continue their studies at the new provider. <p>Where the learners have transferred to you through action by us (for example, termination of previous provider’s contract) there is no action to take.</p>	<p>Where there is a UKPRN match, we may investigate issues and take steps to recover funding.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>3.</p> <p>Continuing learners from 2016 to 2017 who do not appear in the 2017 to 2018 ILR</p> <p>BIRST NAME: Continuance issues</p>	<p>There is no 2017 to 2018 ILR record where data is joined using: 'UKPRN' And 'ULN' And 'Learner reference number' And 'Learning aim reference' And 'Learning start date' And the 2016 to 2017 'Learning actual end date' is null And the 2016 to 2017 'Learning planned end date' is after 31 July 2017</p>	<p>UKPRNs who we no longer have a direct contract with</p>	<p>The 2017 to 2018 ILR must include aims that are continuing (Completion status = 1 and Learning actual end date is null). If data is found to be incorrect after hard close (R14) of the previous year and the data is incorrect due to an administrative error, then the data should be corrected and continue to be returned in 2017 to 2018.</p> <p>If the learner was reported as continuing in 2017 to 2018, but has since been identified as having withdrawn before 1 August 2017, you must record the Learning actual end date as the last day the learner was in learning (this date will be in the previous ILR year: do not use 1 August 2017).</p> <p>For traineeship and apprenticeship programmes, the ILR must include the programme aim and all the associated component aims, even if the component aims are completed and closed.</p> <p>As this report involves a match on learning start date, you must check this report in conjunction with report 7 (changes to learning start date across years) and action accordingly.</p>	<p>Continuance issues will have a negative impact upon qualification achievement rates.</p> <p>Changes to the learning start date will result in the reporting of duplicate records, which is likely to have a negative impact upon QARs.</p>
<p>4.</p> <p>Use of the 'Other funding adjustment' field</p> <p>BIRST NAME: Other funding adjustment</p>	<p>All learning aims where: The value in the 'Other funding adjustment' field is not null and does not equal 100</p>	<p>Former employer ownership pilot provision reported with the learning delivery monitoring code '351'</p>	<p>The 'Other funding adjustment' field must only be completed if agreed with us. If you cannot evidence being given permission by the ESFA to use this field, you must remove the data and ensure that any adjustment for prior learning is reported in the 'Funding adjustment for prior learning' field.</p>	<p>We will ask you to provide evidence of why any values over 100 have been reported, and will recover any over claim of funding if we are satisfied the adjustment has been reported in error.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>5.</p> <p>Changes to the 'Actual end date' between years</p> <p>BIRST NAME: Actual end date changes</p>	<p>All learning aims where: The 2016 to 2017 'Learning actual end date' reported at R14 is before 1 August 2017 And the 2016 to 2017 'Completion status' reported at R14 is 2 And the 2017 to 2018 'Learning planned end date' is after 31 July 2017 And the 2017 to 2018 'Learning actual end date' is null or after 31 July 2017</p>	<p>Programme aims</p> <p>Work placement aims</p> <p>Non-regulated aims</p>	<p>You must not change or update the Learning actual end date between years, as this may affect the funding claimed. You must record the Learning actual end date that was reported in the previous funding year.</p> <p>In the scenario where a learner undertakes an aim, finishes learning, takes the final assessment and fails, then this aim should be closed and recorded as not achieved. Where this learner is then identified as needing further support or additional learning in order to pass the assessment, then a new learning aim should be recorded as a restart with the 'Funding adjustment for prior learning' completed to account for the new learning required to pass the resit. You must not reopen a completed learning aim record.</p>	<p>We will recover all 2017 to 2018 on-programme funding and any additional achievement funding where applicable, as funding was earned in the year in which learning was originally recorded as complete.</p>
<p>6.</p> <p>Changes in the 'Learning planned end date' between funding years</p> <p>BIRST NAME: Planned end date changes</p>	<p>All learning aims where: The 2016 to 2017 'Learning actual end date' reported at R14 is null or after 31 July 2017 And the 2016 to 2017 'Learning start date' equals the 2017 to 2018 'Learning start date' And the 2016 to 2017 'Learning planned end date' does not equal the 2017 to 2018 'Learning planned end date' And the 2017 to 2018 'Learning actual end date' is null or after 31 July 2017</p>	<p>Programme aims</p> <p>Work placement aims</p> <p>Non-regulated aims</p>	<p>You must not change or update the Learning planned end date after the funding qualifying period has passed, even if the learner continues on the learning aim beyond that date, as this will affect the funding claimed. You must not change this data between funding years.</p> <p>If the planned end date has been identified after R14 as being significantly incorrect you must:</p> <ul style="list-style-type: none"> • Set the Completion status to code 3 'withdrawn' and complete the Withdrawal reason using code 40 'Learner has transferred to a new learning aim with the same provider'. • Record a Learning actual end date of 1 August 2017. <p>Record a new learning aim with the same Learning aim reference and a Learning start date of 1 August 2017 and the correct Learning planned end date. Record this aim as a restart (Learning Delivery Funding and Monitoring Type = RES), and complete the Funding adjustment for prior learning field with the percentage of learning that is still to be delivered.</p>	<p>We will recover any over claim of funding that has resulted from changes to this data.</p>

<p>24.</p> <p>Trainees who have previously achieved an apprenticeship or traineeship</p> <p>BIRST NAME: Traineeship programme exceptions</p>	<p>All new or continuing traineeship programme aims where the following match: 'ULN'</p> <p>And the 'Learning actual end date' of the previous apprenticeship or traineeship programme is on or after 01/08/2015</p> <p>And the 'Learning start date' of the traineeship programme is after the 'Learning actual end date' of the previous apprenticeship or traineeship programme</p> <p>And the 'Outcome' of the previous apprenticeship or traineeship programme is 1</p>	<p>16-19 funded traineeships (previously EFA-funded)</p> <p>Generic ULNs ('999999999')</p>	<p>You should check that data such as the Learning aim reference or ULN has been recorded correctly. You must then use the LRS and check with the learner where they have not declared previous learning to you, retaining evidence of this.</p> <p>If you confirm the learner has achieved the programme in question, or we have identified a match between your UKPRN (or the reported partner UKPRN) and that reported for the previous programme, you MUST correct this data by recoding the aims with Funding model code 99. Learners who have previously completed a traineeship or apprenticeship are deemed to be work ready and have sufficient employment experience.</p>	<p>Failure to correct data where there is a UKPRN match will result in a funding recovery.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>25.</p> <p>Loans learning not being recorded in ILR</p> <p>BIRST NAME:</p> <p>Loans reporting in ILR</p>	<p>There is no corresponding ILR record where ILR and SLC data is joined as: 'UKPRN' And 'ULN' And 'Learning aim reference' And the 'Learning actual end date' reported by SLC is on or after 01/08/2017 or is not returned And the 'Funding model' reported in the ILR is 99 And the ADL indicator is 1</p>		<p>You must ensure that you report loans-funded activity in the ILR with funding model 99 and the advanced learning loans indicator.</p> <p>You should check against the Learning Provider Portal for any data held for learners and ensure it is correct for any learners identified.</p>	<p>We may ask you to provide evidence to support the accuracy of the data returned in the ILR. If the loans funding is found to be ineligible and does not support the funding received from SLC, we will take steps that may affect your future loans facility.</p>
<p>26.</p> <p>Loans funding and AEB or apprenticeships funding claimed for the same learning aim</p> <p>BIRST NAME:</p> <p>Loans duplicate funding</p>	<p>There is corresponding ILR record where ILR and SLC data is joined on: 'UKPRN' And 'ULN' And 'Learning aim reference' And the 'Learning actual end date' reported by SLC is on or after 01/08/2017 or is not returned And (the 'Funding model' reported in the ILR is 35 or 36 Or the 'Funding model' reported in the ILR is 81 and the 'Programme type' is 25)</p>		<p>If a learning aim is being financed through a loan, the learning aim record must be reported in the ILR with Funding model 99 and ADL = 1.</p> <p>You should check against the Learning Provider Portal for any data held for learners and ensure it is correct for any learners identified.</p> <p>Learners who are already eligible for adult skills or apprenticeship funding should not be moved onto loans funding in order to preserve achievement rates.</p>	<p>We may ask you to provide evidence to support the data returned in the ILR. If we are satisfied that funding is ineligible, we will take steps to recover funding through SLC or recover any of our funding as appropriate.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>27.</p> <p>Loans where the ILR planned duration is longer than the planned duration of the loan</p> <p>BIRST NAME: Loans planned duration exceptions</p>	<p>All aims funded through a loan where:</p> <p>There is no 'Learning actual end date' in the ILR</p> <p>And</p> <p>The planned duration in the ILR is more than 30 days after the SLC planned duration</p> <p>And the 'Learning start date' in the ILR is within a week of the SLC start date</p>		<p>You must not change or update the learning planned end date after the funding qualifying period has passed, even if the learner continues on the learning aim beyond that date. You should not change this data between funding years.</p> <p>You must check this report in conjunction with report 6 (changes to planned end date across funding years) and action accordingly.</p> <p>You and the learner must confirm the information in the learner file is correct and, therefore, the information you have reported to the SLC through the Learning Provider Portal and to us in the ILR is correct. If the data in the ILR is correct (and you have followed the correct procedure for correcting any data recording errors), you must then ensure any changes are carried out on the SLC Learning Provider Portal with a change of circumstances form. This would ensure your payment profile is updated.</p>	<p>We may ask you to provide evidence to support the data returned in the ILR. If we are satisfied that loans funding is being drawn down too quickly, we will take steps to correct this through SLC.</p>
<p>28.</p> <p>19 – 23 learners and prior attainment</p> <p>BIRST NAME: Loans 19-23 eligibility</p>	<p>All aims funded through a loan where:</p> <p>The learner is aged 19 to 23</p> <p>And the learner's prior attainment is below level 3</p> <p>And there is no ILR record of the learner achieving a full level 3 qualification or higher in the last 2 years</p>		<p>You must be able to provide evidence of the learner assessment and enrolment that confirms if they had achieved a full level 3 qualification prior to commencing the loans-funded aim. If the learner had not achieved a full level 3, you must be able to provide evidence that the learner was made aware that they have an entitlement to funding through the adult education budget before applying for a loan.</p> <p>If you have an AEB funding agreement with us and the learner did not have a full level 3, you MUST withdraw the loan and fund the learner through the adult education budget and reduce their fee liability to zero.</p>	<p>We may ask you to provide evidence to support the application for a loan. If you have an AEB funding agreement and we are satisfied that the loan is ineligible, we will take steps to recover funding through SLC.</p>

Report number and name	Report logic	Exclusions	Action you must take	Action we will take
<p>29.</p> <p>Learners reported as withdrawn or on a break in learning where the loan is still reported by SLC as being active</p> <p>BIRST Loans withdrawals not reported to SLC</p>	<p>All aims funded through a loan where:</p> <p>The 'Completion status' in the ILR is 3 or 6</p> <p>And there are no future episodes of learning on the same aim in the ILR</p> <p>And the 'Learning actual end date' reported in the ILR is 3 months or earlier than the SLC planned or actual end date</p> <p>And the loan is still reported by SLC as 'in attendance'</p>		<p>If a learner's details or circumstances change, you must tell the SLC as soon as you are aware as this will reduce the risk of a learner becoming legally responsible for a loan for a qualification they are no longer studying.</p> <p>If a learner changes provider during their learning, you must inform SLC through the Learning Provider Portal and the learner must be marked as a withdrawal from your organisation.</p>	<p>Failure to notify SLC that the learner has left learning will result in us taking steps to recover funding through SLC.</p>

Annex C: A list of all the fields in the BIRST reports

Field type	Field name	Reference	Reports
Common	ILR return	ILR data collections timetable	All
Common	Report ID	Identifier applied to each report row	All
Common	UKPRN	ILR specification 2017 to 2018	All
Common	Organisation name	The organisation name as appears in the Hub	All
Common	Subcontracted or partnership UKPRN	ILR specification 2017 to 2018	All exc. 25
Common	Subcontracted or partnership name	The organisation name as appears in the Hub	All exc. 25
Common	Unique learner number	ILR specification 2017 to 2018	All
Common	Learner reference number	ILR specification 2017 to 2018	All exc. 25
Common	Learning aim reference	ILR specification 2017 to 2018	All exc. 25
Common	Aim sequence number	ILR specification 2017 to 2018	All exc. 25
Common	Software supplier aim identifier	ILR specification 2017 to 2018	All exc. 25
Common	Provider specified delivery monitoring	ILR specification 2017 to 2018	All exc. 25
Common	Provider specified learner monitoring	ILR specification 2017 to 2018	All exc. 25
Common	Funding line type	Funding calculation output	All exc. 25
Common	Funding model	ILR specification 2017 to 2018	All exc. 25
Common	Advanced Learner Loans indicator	ILR specification 2017 to 2018	All exc. 25
Common	Programme type	ILR specification 2017 to 2018	All exc. 25
Common	Apprenticeship standard code	ILR specification 2017 to 2018	All exc. 25
Common	Framework code	ILR specification 2017 to 2018	All exc. 25
Common	Apprenticeship pathway	ILR specification 2017 to 2018	All exc. 25
Common	Learning start date	ILR specification 2017 to 2018	All exc. 25
Common	Learning planned end date	ILR specification 2017 to 2018	All exc. 25
Common	Learning actual end date	ILR specification 2017 to 2018	All exc. 25
Common	Completion status	ILR specification 2017 to 2018	All exc. 25
Common	Outcome	ILR specification 2017 to 2018	All exc. 25
Common	Year to date funding	Funding calculation output	All exc. 3,10,25,27,28,29
Common	Employer levy paid	Funding calculation output	All exc. 3,10,25,27,28,29
Common	ESFA co-investment paid	Funding calculation output	All exc. 3,10,25,27,28,29
Common	Employer co-investment required	Funding calculation output	All exc. 3,10,25,27,28,29

Field type	Field name	Reference	Reports
Common	ESFA full funding paid	Funding calculation output	All exc. 3,10,25
Supplementary	UKPRN of previous/other provider	ILR specification 2017 to 2018	1,2,11,15,17,18,19,20,21,22,23,24
Supplementary	Subcontracted or partnership UKPRN of previous/other provider	ILR specification 2017 to 2018	1,2,11,15,17,18,19,20,21,22,23,24
Supplementary	Learning start date at previous/other provider	ILR specification 2017 to 2018	1,2,11,15,17,18,19,20,21,22,23,24
Supplementary	Learning actual end date at previous/other provider	ILR specification 2017 to 2018	1,2,11,15,17,18,19,20,21,22,23,24
Supplementary	UKPRN match	Derived field	1,2,11,15,17,18,19,20,21,22,23,24
Supplementary	Other funding adjustment	ILR specification 2017 to 2018	4
Supplementary	Learning actual end date in previous year	ILR specification 2017 to 2018	5
Supplementary	Learning planned end date in previous year	ILR specification 2017 to 2018	6
Supplementary	Learning start date in previous year	ILR specification 2017 to 2018	7
Supplementary	Length of break of learning	Derived field	10
Supplementary	Learning aim reference of previous/other aim	ILR specification 2017 to 2018	11,17,19,20,21,22,23,24
Supplementary	Programme type at previous/other provider	ILR specification 2017 to 2018	11,17,19,20,21,22,23,24
Supplementary	Apprenticeship standard code at previous/other provider	ILR specification 2017 to 2018	11,17,19,20,21,22,23,24
Supplementary	Framework code at previous/other provider	ILR specification 2017 to 2018	11,17,19,20,21,22,23,24
Supplementary	Apprenticeship pathway at previous/other provider	ILR specification 2017 to 2018	11,17,19,20,21,22,23,24
Supplementary	Delivery location postcode	ILR specification 2017 to 2018	12
Supplementary	Workplace location postcode	EDRS data	12
Supplementary	Employer identifier	ILR specification 2017 to 2018	12,14
Supplementary	Payments received	ILR specification 2017 to 2018	16
Supplementary	Refunds given	ILR specification 2017 to 2018	16
Supplementary	Net payments received	ILR specification 2017 to 2018	16
Supplementary	LPP reference	Learning provider portal	25,26,27,28,29
Supplementary	LPP application state	Learning provider portal	25,26,27,28,29
Supplementary	LPP start date	Learning provider portal	25,26,27,28,29
Supplementary	LPP end date to/from	Learning provider portal	25,26,27,28,29
