Universities and Further Education

- [IP Tutor](#) is an online tool covering the basics of IP. It comprises modules for Law, Business and Accounting, STEM, Creatives and Humanities and a library of resources for use in further education and higher education
- [IP Tutor Plus](#) follows on from IP Tutor and helps lecturers to engage with students on IP, covering commercialisation and the relevance and importance of IP to students' courses and future careers
- [IP for Research](#) provides a series of tools for researchers to improve their knowledge of IP and research commercialisation
- The [Lambert Toolkit](#) provides a set of collaboration agreements which help facilitate contract negotiations between universities and businesses
- The [Intellectual Asset Management Guide](#) helps university management to make the most out of their IP portfolio, which is important to a sound business strategy
- [University case studies](#) and [business case studies](#) demonstrate the relevance and importance of IP in education, research and business
- The [Future Innovators Toolkit](#) (FIT) is a comprehensive resource pack is to help teachers get their A Level (level 3) STEM students thinking about IP, how to protect it and where it fits in their future careers.

Primary and Secondary

- The [Cracking Ideas website](#) provides free education resources, competitions and lesson plans to help teachers and their pupils to discover IP. They include clearly-structured, curriculum-linked sessions to help you explain and explore IP across a range of subjects
- The [Think Kit](#) resource pack is specifically designed to help teachers of GCSE or NQ Business Studies, Media Studies, Design Technology or Music get students thinking about innovation and how they can protect and benefit from their ideas
