Corrosion, www.uk-brazil-corrosion.net

UK Brazil Integrity & Corrosion Control Network

Welcome to the **UK Brazil Integrity & Corrosion Control Network**. The Network will give access to the most up to date, innovative and progressive research in corrosion prevention and control, asset integrity management and sensor and monitoring pertinent to oil and gas production.

The site can be used to find about the **Network**, a diverse range of oilfield integrity and corrosion related activities at **UK universities**, **how one can get involved** and how one can seek information on any specific topic.

Feedback from visitors on how the services, the site, or the objectives can be improved is very valuable and much appreciated. Please contact by **email**.
