## **INTRODUCTION**

This statistical publication provides details of the extent of childcare and nursery education in England at 30 September 2005.

## **CONTENT**

This publication details the number of registered childcare providers at 30 September 2005, along with the number of places offered for children under 8. Figures are presented for each national childcare type and are given at England, government office region and local authority level.

## **SOURCE**

All data has been extracted from the Regulatory Support Application as at 06 October 2005.

## **FURTHER INFORMATION**

The content of this publication has been limited to data that is considered robust and of general public interest. However, a variety of other data are held as part of our early years regulatory and inspection function. These include data relating to: outcomes of childcare applications; time taken to registration decisions; actions and conditions imposed at registration and inspection; Childcare and Nursery Education inspections against each of the five children outcomes. While these, and other, data have not been presented in this publication, we will consider each request for additional information on an individual basis and will consider updates to the content of future publications every six months. We do, however, reserve the right to cost and charge for additional analyses that we cannot meet with available resource.

## **30 JUNE QUARTERLY CHILDCARE STATISTICS - A REVISION**

An error has been identified in the Quarterly Childcare Statistics relating to 30 June 2005 published on 28 July 2005. The effect of this error is an overestimate across all day care provision recorded at 30 June 2005 of approximately 0.3%. However, at Government Office Region and Local Authority level the effect is likely to vary. A revised June publication will be issued on the internet as soon as is practicable.

**POINTS OF CONTACT**

## Notes.

Figures are rounded to the nearest 10 if under 100, and to the nearest 100 if over 100. \* indicates 1 or more, but less than 5. Totals may not sum owing to rounding.

- (1) Childminder: a childminder is registered to look after 1 or more children under the age of 8 to whom they are not related on domestic premises for reward and for a total of more than 2 hours in any day.
- (2) Full Day Care: facilities that provide day care for children under 8 for a continuous period of 4 hours or more in any day in premises which are not domestic premises. Includes day nurseries and children's centres, and some family centres.
- (3) Sessional Day Care: facilities that provide day care for children under eight for a session which is less than a continuous period of four hours in any day in premises that are not domestic premises. Where two sessions are offered in any one day, individual children must not attend more than five sessions in a week.
- (4) Out of School Care: facilities that provide day care for children under eight which operate during one or more of the following periods: before school, after school, during the school holidays. The total care provided is for more than two hours in any day and for more than five days a year. Open Access Schemes are included.
- (5) Crèches: facilities that provide occasional care for children under 8 and are provided on particular premises on more than 5 days a year. They need to be registered where they run for more than 2 hours a day, even when individual children attend for shorter periods.
- (6) All: 2940 providers offer more than one type of day care, for example operating full day care and sessional day care. This provision is included separately under each of the headings in the table to reflect the total number of settings available for childcare.
- (7) Registered Providers: the number of settings offered by providers registered on the database at the time of the report. As not all providers inform Ofsted that they have ceased provision, this number is likely to be higher than the actual number of providers.
- (8) Registered Places: the number of children that may attend the provision at any one time. Registered places are not the number of places occupied, nor the number of children who may benefit from receiving places through providers offering sessions at different times of the day. The number of registered places is likely to be higher than the actual number of registered places as not all providers will immediately inform Ofsted that they have ceased their provision. For about 3.4% of providers, the database does not hold the number of registered places. In these cases, the number of places has been estimated and included in the figures shown.
