## 1. Action: budget forecast return 3 year

The budget forecast return 3 year (BFR3Y) is now live for users to complete their trust's return by Tuesday 30 July 2019. For help completing the return, please see our [BFR3Y guidance](#).

The [online form](#) is now open and ready for you to begin filling in the return. We would recommend accessing the form early.

If you're struggling to access the form please read the [registration guidance](#).

We will be hosting Skype dial-in sessions every Wednesday at 1pm to answer questions about the return or workbook. Joining instructions are on the [BFR page](#).

We would like to remind trusts that the BFR3Y is in scope of ESFA's policy on publishing the names of any academy trusts who are late, or do not submit, two or more financial returns in each academic year. We strongly recommend all users allow enough time for all checks to be completed and approved by the deadline of Tuesday 30 July 2019.

## 2. Information: academies phishing alert

We are aware of an increase in reports of cyber-attacks against education providers, which indicates a concerted and targeted attack on educational institutions. These attacks have resulted in financial losses to those that fall victim.

Recent intelligence suggests a sophisticated phishing technique has been used to gain entry to education providers' email systems.

The technique uses the title of a genuine email that the user has recently replied to in order to trick them into believing it is authentic. The email contains a link which, when clicked, takes user to a website, but in the process requests user credentials. The fraudster uses these credentials to send out harmful emails from the user's account. On mobile devices, the email sometimes appears with a coloured button saying 'Display Message'.

The fraudster then requests a bank account change from Department for Education (DfE)/ESFA (or other payment providers) often using multiple official email addresses to help create the illusion of legitimacy. Potentially, if undiscovered, a payment may be made to the fraudulent account, the account emptied and a new victim targeted.

You should:

- familiarise yourself with our guidance [on reducing any risk of financial irregularities](#), and take any necessary action to improve your counter fraud arrangements
- ensure that you have robust processes in place to protect your organisation, such as firewalls, antivirus software and strong passwords
- be alert to emails containing seemingly legitimate or secure links
- check the sender of an email is genuine before, for example, sending passwords, data or payment
- alert us at [Fraud.REPORTS@education.gov.uk](mailto:Fraud.REPORTS@education.gov.uk) if you become aware of any phishing attempts

### 3. Information: updated high needs operational guide

We will make grant payments covering September 2019 through to March 2020 to local authorities at the end of October 2019, and to academies in early November 2019.
