About this document

This document is part of a suite of documents which sets out the regulatory requirements for awarding organisations offering GCSE qualifications (graded from 9 to 1) in 2021.

We have developed these requirements with the intention that GCSE qualifications (graded from 9 to 1) should provide:

- evidence of students' achievements against demanding and fulfilling content
- a strong foundation for further academic and vocational study and for employment
- a basis for schools and colleges to be held accountable for the performance of all of their students, if required

Requirements set out in this document

This document sets out the GCSE Subject Level Conditions for Geography (2022). These conditions will come into effect at 09:30 on 12 November 2021 for all GCSE qualifications (graded from 9 to 1) in Geography for Learners completing the qualification in 2022, except where the General Qualifications Alternative Awarding Framework applies.

It also sets out our requirements in relation to:

- interpretation of the content document - an awarding organisation must comply with these requirements under Condition GCSE(Geography)1.1(c)
- assessment objectives for GCSE qualifications in Geography. Awarding organisations must comply with these requirements under Condition GCSE(Geography)1.2
- assessment – awarding organisations must comply with these requirements under Condition GCSE(Geography)3.1

With respect to GCSE qualifications (graded from 9 to 1) in Geography in 2022, awarding organisations must also comply with:

- our [General Conditions of Recognition](#), which apply to all awarding organisations and qualifications
- our [GCSE Qualification Level Conditions](#)
- all [relevant Regulatory Documents](#)

With respect to GCSE qualifications in Geography taken by Learners completing the qualification in 2023 and after, an awarding organisation must continue to comply with the [GCSE Subject Level Conditions and Requirements for Geography](#).
