## INTRODUCTION

This new edition of "Statistics of Schools in England" includes school data for the academic year 1999/00, which was collected in January 2000. This is the latest in a series of volumes produced annually and its value is as the main source of school statistics for England as a whole, allowing comparisons to be made over time.

Most of the school information in this volume is from the Annual Census of Schools which is undertaken in January each year. Key figures from this survey have already been published in a series of Statistical First Releases. More comprehensive analyses of these figures will be published in five bulletins between October 2000 and February 2001 in the Statistics of Education series (see paragraph 44 of the Explanatory notes 'Related publications').

Many of the tables provide information by Government Office Region (GOR). Local Authority breakdowns will be available separately from the DfEE and on the website [www.dfes.gov.uk/statistics](http://www.dfes.gov.uk/statistics). Explanation of the definitions and categories used in this volume are given in the "Explanatory notes" section, together with details of how to obtain further information.

The team responsible for producing this volume were: Jen Beaumont, Michael Bennett, Jenny Cole, Dave Collinge, Jim Foley, Phil Heaviside, Paul Lavery, Marcia

Merchant, Julie Park, Zoe Raine, Lisa Smith, Ann Tailford, Gary Watson and Tony Wilson.

## SUMMARY OF MAIN STATISTICS

### Pupils

- In January 2000 there were 8.3 million pupils in almost 26,000 maintained and independent schools in England. The total number of school pupils is affected by demographic trends and so varies from year to year (Chart 1 and Table 1).
- 92 per cent of pupils were taught in maintained nursery, primary and secondary schools, 7 per cent of pupils attended independent schools and 1 per cent went to maintained and non-maintained special schools (Table 3).

### Teachers

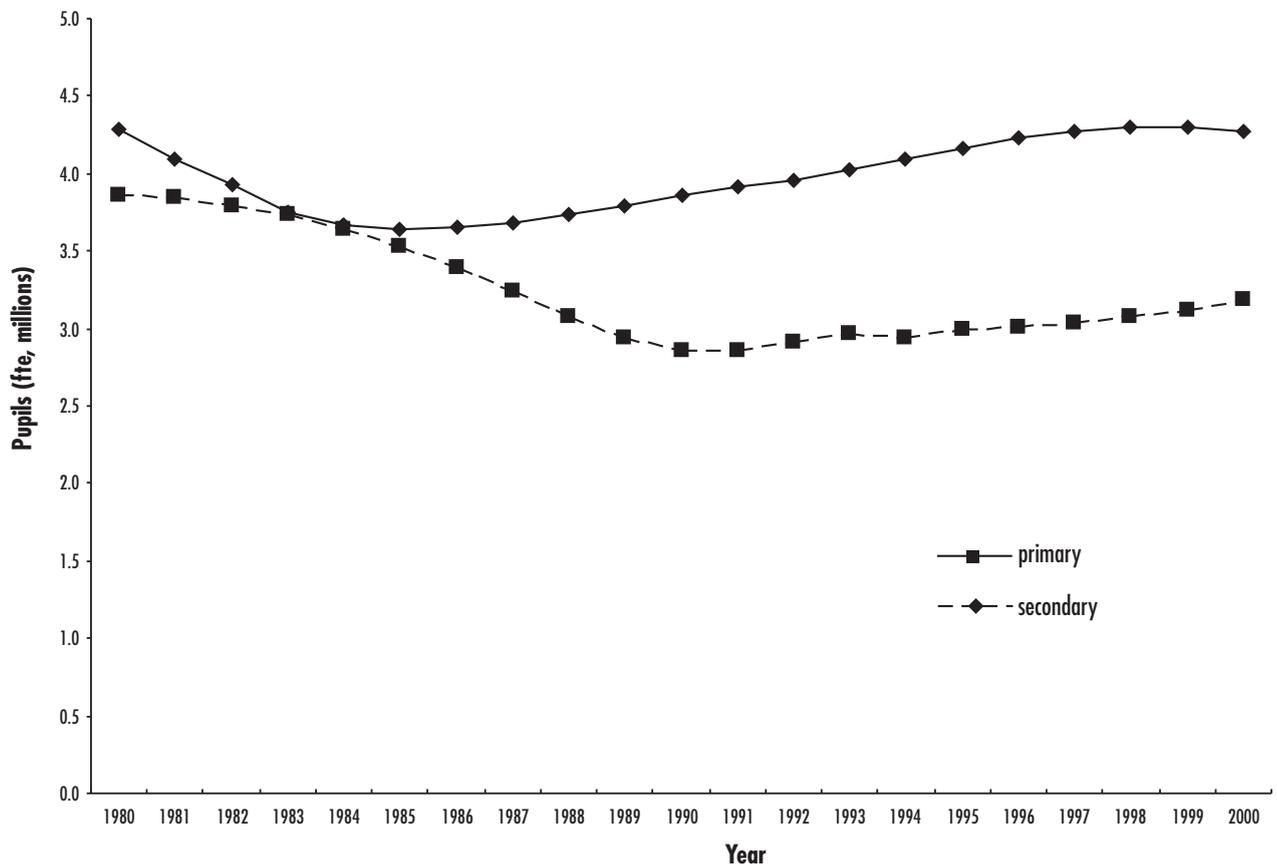

- There were 402,000 full-time equivalent teachers employed in maintained nursery, primary and secondary schools in January 2000 (Table 7a).

### Pupil:Teacher Ratios

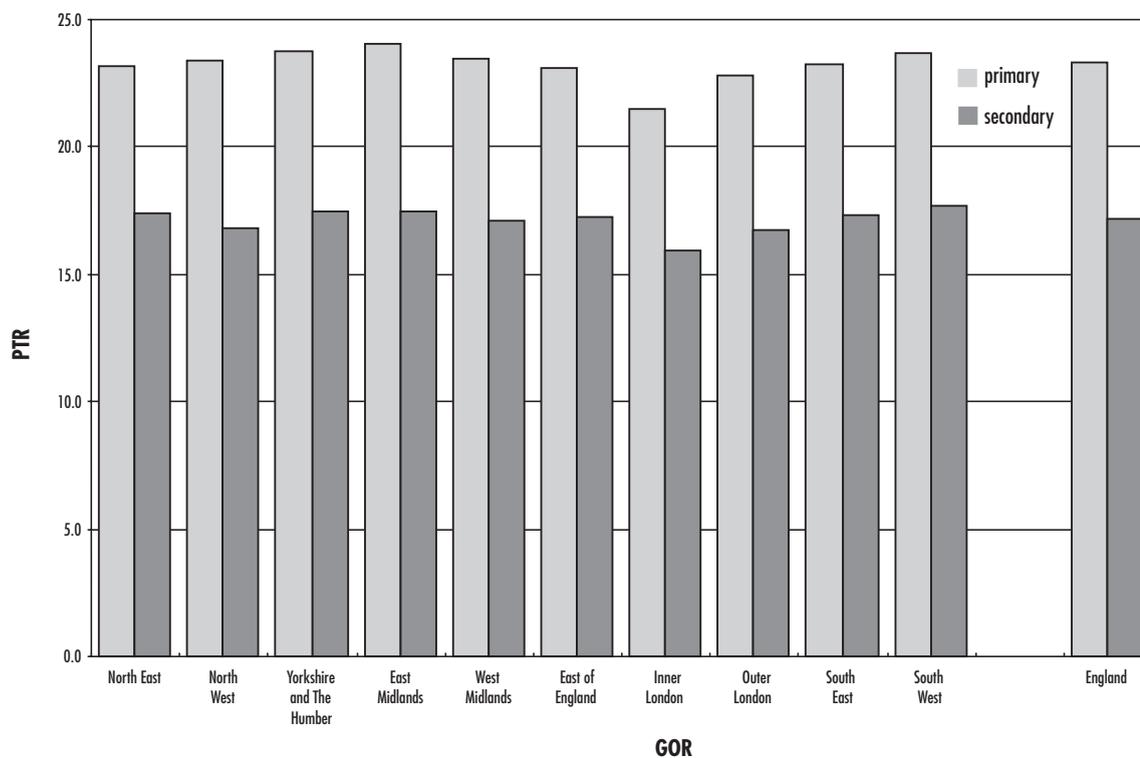

- In January 2000, there were 18.6 pupils for every teacher (including all teachers employed by LEAs) in maintained nursery, primary and secondary schools (Table 7a).
- The pupil:teacher ratio does vary from region to

## CHART 1:

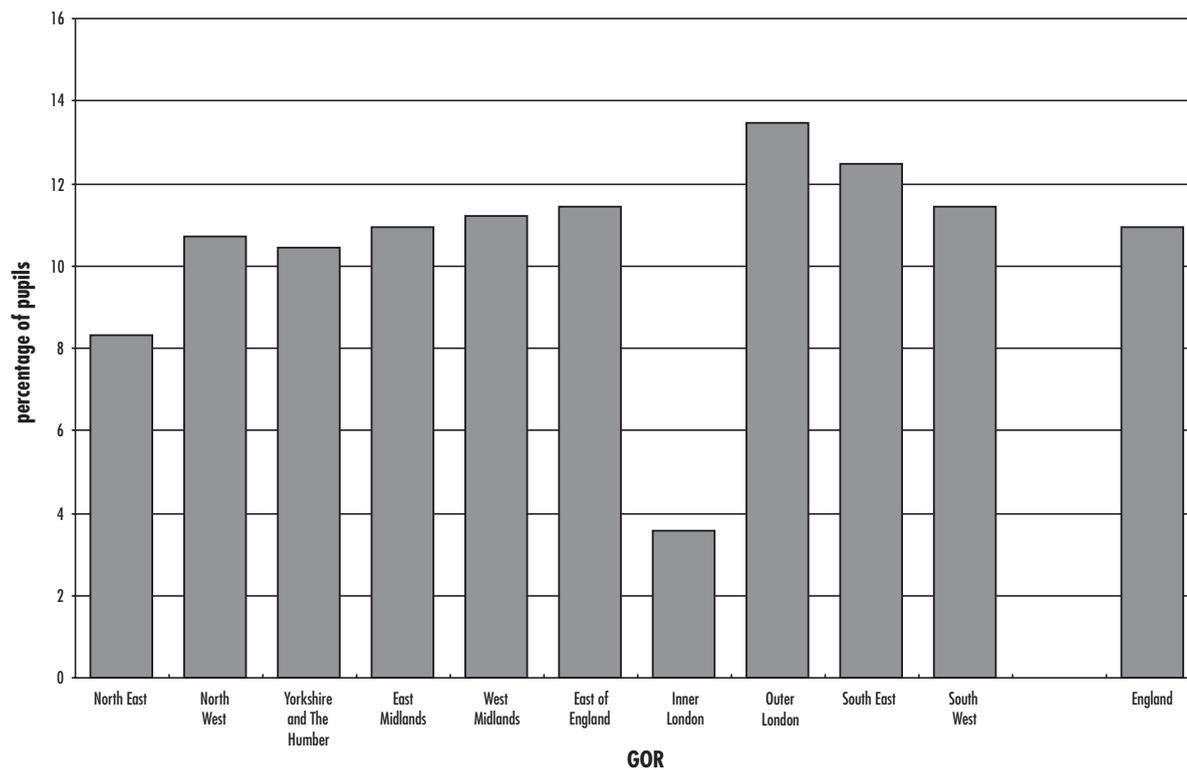

Full-time equivalent numbers of pupils in maintained primary and secondary schools: January 1980:2000

**CHART 2:**  
Pupil:teacher ratios (PTRs) within maintained primary and secondary schools by Government Office Region (GOR) in England: January 2000

**CHART 3:**  
Percentage of pupils in key stage 1 classes of 31 or more pupils taught by one teacher in maintained primary schools by Government Office Region (GOR) in England: January 2000

region,. A comparison of Government Office Regions (GORs) shows that Inner London has the lowest pupil:teacher ratios for both primary and secondary schools (Chart 2 and Table 7a).

- Pupil:teacher ratios in independent and special schools in England were 9.9 and 6.5 respectively, in January 2000 (Table 7b).

*Tables 1-12 give general information about schools, pupils and teachers in all schools*

#### **School meals**

- The number of free meals taken by pupils in maintained nursery, primary, secondary and special schools decreased by 19,100, or 2%, to 1.07 million (Tables 13-14).

#### **Class Sizes**

- The number of pupils in key stage 1 classes of 31 or more pupils taught by one teacher in January 2000 was 177,000 or 11 per cent (Table 17b).
- The proportion of pupils in key stage 1 classes of 31 or more pupils varied considerably from region to region (Chart 3).

#### **Non-teaching Staff**

- In January 2000 there were nearly 143,600 full-time equivalent education support and administrative/clerical staff in maintained nursery, primary and secondary schools and nearly 21,000 in special schools and pupil referral units. This compares to around 104,700 and 17,000, respectively, in January 1995 (Table 28).

#### **Provision for children under five in maintained schools**

- 58 per cent of children under five years of age were in maintained nursery and primary schools in January 2000, about half of these were in nursery

schools and nursery classes within maintained primary schools (Table 29) .

#### **Special Educational Needs**

- 253,000 pupils, some 3 per cent of all pupils, had statements of special educational needs (Table 32).
- In January 2000, 60 per cent of pupils with statements were placed in maintained mainstream schools (nursery, primary and secondary), 35 per cent in either maintained special schools or pupil referral units (PRUs), and 5 per cent in either independent or non-maintained special schools (Table 33).

#### **Minority Ethnic Pupils**

- In maintained primary and secondary schools, 12 per cent of pupils were classified as belonging to a minority ethnic group (Table 49).
- 8.7 per cent of primary school pupils had English as an additional language (Table 50).

#### **Permanent Exclusions**

- There were 10,400 permanent exclusions from primary, secondary and special schools in 1998/99 (Table 51).

#### **Courses of study**

- 76 per cent of pupils aged 16 and over in maintained secondary schools and 87 per cent of pupils in independent schools were studying for A levels as their highest level of study (Table 53).

#### **Admission Appeals**

- 86,000 appeals were lodged by parents against the non-admission of their children for 1998/99; the comparable figure for the previous year was 77,000 (Table 54).

# Explanatory Notes

## MAIN CATEGORIES OF SCHOOL

1 Schools may be divided administratively and financially into the following broad categories:

### i Mainstream state schools

Under the School Standards and Framework Act 1998, four new categories: *Community, Foundation, Voluntary Controlled and Voluntary Aided* have replaced from 1 September 1999 the previous five categories of mainstream state school: county, controlled, special agreement, aided and grant-maintained (GM). Schools in all the four categories have a lot in common. They work in partnership with other schools and with local education authorities (LEAs), and they receive funding from LEAs. But each category also has its own characteristics.

*Community schools* Community schools are very similar to former county schools. The LEA employs the schools' staff, owns the school's land and buildings and has primary responsibility for deciding the arrangements for admitting pupils.

*Foundation schools* At Foundation schools, the governing body employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are owned by the governing body or by a charitable foundation.

*Voluntary Aided schools* Voluntary Aided schools are similar to former aided schools. The governing body employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are normally owned by a charitable foundation. The governing body contribute towards the capital costs of running the school.

*Voluntary Controlled schools* Voluntary Controlled schools are very similar to former controlled schools. The LEA employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are normally owned by a charitable foundation.

ii **Direct grant schools.** The governing bodies of these schools are assisted by departmental grants, and a proportion of the pupils attending them do so free or under an arrangement by which local education authorities meet tuition fees. From October 1980 these schools, with the exception of three nursery schools, (one of which has subsequently closed) were re-classified as independent schools. (See paragraph 12 below.)

iii **Independent schools.** These are schools registered under Section 70 of the Education Act 1944 and are

subject to inspection by HM Inspectors of Schools. (See paragraph 12 below.)

iii **City Technology Colleges.** These take the form of a charitable company limited by guarantee. The sponsors constitute an educational trust and will own or lease the college and appoint their representatives to the Board of Governors. The members of a CTC will consist of nominees of the sponsoring company and the Secretary of State. When a CTC is opened it will be registered as an independent school and is included in the independent schools tables.

iv **Non-Maintained schools.** Non-maintained schools are run by voluntary bodies; they may receive some grant from the Department for capital work and for equipment, but their current expenditure is met primarily from the fees charged to the local education authorities for pupils placed in the schools.

## MAIN TYPES OF SCHOOL

### Nursery Schools

2 These provide education primarily for children below compulsory school age, ie under 5.

### Primary Schools

3 Primary schools consist mainly of *infant schools* for children aged 5 to 7, *junior schools* for those aged 7 to 11 and *junior and infant schools* for both age groups.

4 In addition, *first schools* cater for ages from 5 to 8, 9 or 10. They are the first stage of a three-tier (first, middle and secondary) school system.

5 Many primary schools provide 'nursery' classes for children under 5. A 'nursery' class is one which includes amongst its staff a qualified nursery assistant.

### Middle Schools

6 Middle schools take children from first schools and generally lead on, in turn, to comprehensive upper schools. They cover varying age ranges between 8 and 14. Depending on their individual age range they are deemed either primary or secondary and are counted accordingly in many statistics of primary, secondary and (within secondary) comprehensive schools.

### Secondary Schools

7 Secondary education is provided mainly in three types of school, the secondary modern, the *secondary grammar* and the *comprehensive school*.

8 There are also small and decreasing numbers of *technical schools*.

**9** Schools which do not fall into any of the categories already mentioned are classified as *other secondary schools*.

**10** With effect from 1 April 1993 *Sixth Form Colleges* were no longer classified as schools but come under the control of the Further Education Funding Council. They are not, therefore, included in the statistics in this volume for 1994 onwards.

### **Independent Schools**

**11** Up to January 1978, independent schools were divided into two main groups: 'recognised as efficient' and 'others'. Arrangements for recognition as efficient were terminated in April 1978. Since January 1979 independent schools have been classified as a single group and exclude nursery establishments where there are fewer than 5 children of compulsory school age. Such nurseries are required to be registered with their local Social Services Departments.

**12** Since January 1980, figures for independent schools have included direct grant schools.

### **Special Schools**

**13** Special schools, both day and boarding, provide education for children with special educational needs who cannot be educated satisfactorily in an ordinary school.

**14** *Maintained special schools* are run by local education authorities who pay all the expenses of maintenance.

**15** *Non-maintained special schools* are run by voluntary bodies; they may receive some grant from the Department for capital work and for equipment, but their current expenditure is met primarily from the fees charged to the local education authorities for pupils placed in the schools.

**16** *General hospital schools* provide education for children who are spending a period in hospital. In previous years some of these children remained on the registers of their usual school and were, therefore, counted twice. Since 1991 only those children who were taken off the register of their usual schools whilst in the hospital have been recorded, thus avoiding double counting.

**17** Children in special hospital schools are shown separately.

**18** In addition to special schools, provision is also made for pupils with special educational needs to attend special classes in maintained nursery, primary, middle and secondary schools.

**19** Special schools also provide for Dually Registered pupils. These are pupils whose lesson time, during the week, is split between a mainstream primary or secondary school and a special school. The pupils will be

counted with the figures for primary or secondary schools and shown separately on the tables for special schools.

**20** Some independent schools provide education wholly or mainly for pupils with special educational needs. These schools are not included with special schools in the tables but are included with independent schools.

### **City Technology Colleges**

**21** From January 1989, CTCs are included in relevant independent schools' tables.

### **AGE OF PUPILS**

**22** Up to January 1979 the age groups of pupils corresponded to the calendar year birth groups (ie ages at previous 31 December). Since January 1980, the age groups have corresponded with ages at the beginning of the school year (ie ages at the previous 31 August). A change in the method of classifying pupils' ages was made because pupils are normally promoted from maintained primary schools to secondary schools, and move through the secondary school system, according to their ages on 31 August.

### **TEACHERS AND NURSERY STAFF**

**23** The figures for teachers are derived from returns submitted by individual schools at the same time as the count of pupils - that is in January of each year; they refer to teachers in post at the date of the return, including supply and relief teachers filling vacant posts, but excluding unfilled vacancies.

**24** Prior to 1971 published figures for maintained primary, middle and secondary schools referred to all teaching staff. However, since 1971 figures have distinguished between *qualified teachers* and *other teaching staff* (see paragraphs 26 and 27).

**25** Since 1974 figures for teachers in maintained and direct grant nursery schools and special schools have related only to *qualified teachers*; figures for 1974 and subsequent years are, therefore, not comparable with those published for earlier years.

**26** *Qualified teachers* are those who have been awarded qualified teacher status (QTS) following the successful completion of an approved course of initial teacher training or via an alternative route.

**27** *Other teaching staff* include:

- i** Student teachers (persons over the age of 18 who intend to proceed to training for qualified teacher status);
- ii** Instructors (persons who are employed to give instruction in a specialist skill where no qualified teacher is available).

- iii Language assistants (foreign students on exchange schemes or persons resident in this country whose mother tongue was a foreign language and who are employed to give conversational lessons in this language);
- iv Unqualified teachers (persons whose appointment to the assistant staff of a nursery school or to the staff of a nursery class has been approved under paragraph 4 of Schedule 4 to the Education (Teachers) Regulations 1982) and were employed immediately before 1 September 1989.
- v Licensed teachers are unqualified teachers who are appointed under Schedule 4 of The Education (Teachers) Regulations 1989 as amended.

**28** *Nursery staff* are persons appointed to help teachers in charge of nursery classes in addition to the teaching complement. They fall into two categories:

- i Nursery assistants (persons who hold the certificate of the National Nursery Examination Board (NNEB) or some equivalent qualification, or have completed a similar course, or persons employed exceptionally);
- ii NNEB students (who help part time in nursery classes as part of their course).

The equivalent of at least one full-time nursery assistant or two NNEB students should be appointed to each nursery class.

**29** Part-time teachers are counted once for each school in which they teach. For the purpose of reckoning the full-time equivalent (FTE) of part-time (PT) teachers, each teacher's part-time service is evaluated as a proportion of a full school week. Following the change in Teachers Pay and Conditions with effect from 1 August 1987 the FTE of PT Qualified teachers in schools in 1988 has been calculated using the denominator of 32.5, this being taken as the average directed hours per week of a full-time teacher. This compares with the figure of 25 used previously. The FTE of part-time teachers in independent schools and City Technology Colleges has been calculated using the denominator of 26, as in previous years for independent schools. FTE of non-teaching staff has been calculated using the denominator of 37, except for nursery assistants where a denominator of 32.5 has been used.

**30** The pupil:teacher ratio within schools is the ratio of all pupils on the school registers (counting each part-time pupil as 0.5) to all teachers (including the FTE of part-time teachers) employed in the schools on the day of the annual count. Since 1971 the ratios for maintained primary, middle and secondary schools have taken account of qualified teachers only; since 1974 the ratios for maintained and direct grant nursery schools and special schools have been calculated similarly.

## PUPILS UNDER FIVE

**31** *Part-time pupils*: These are pupils who do not attend school both morning and afternoon at least five days a week. They are counted in full, except when used to derive staffing ratios when each part-time pupil is counted as 0.5 full-time equivalents.

**32** *Nursery classes*: These are classes in maintained primary schools that have been designated as nursery classes. Such classes normally include amongst their staff at least one qualified nursery assistant in addition to a qualified teacher.

**33** *Number of maintained primary schools*: The figures quoted give the number of maintained primary schools which have designated nursery classes - not the total number of primary schools in England.

**34** *Staffing of maintained nursery schools and nursery classes*: The number of staff includes the full-time equivalent number of part-time staff. The School Teachers' Pay and Conditions Document has, since 1987, required a full-time teacher to be available to undertake professional duties assigned to him or her by the head teacher for 1265 hours allocated reasonably throughout a working year of 195 days. The average "directed" hours per week of part-time teachers are converted to full-time equivalent teacher numbers by dividing by 32.5. This conversion factor is derived by dividing 1265 (directed hours per year) by 195 (working days per year) and multiplying by 5 (working days per week). This compares with the figure of 25 used previously to convert part-time teacher hours to full time equivalent teacher numbers.

*Teaching staff* refers to all qualified and other teaching staff actually employed in maintained nursery schools together with the qualified teachers and other teaching staff in maintained primary schools deployed to teach in designated nursery classes.

*Adult staff* includes all teaching staff together with nursery assistants in maintained nursery schools and nursery assistants in maintained primary schools deployed for service in designated nursery classes. Other categories of non-teaching staff are excluded.

*Pupil:staff ratios* relate the full-time equivalent numbers of teaching staff and adult staff to the total numbers of pupils in maintained nursery schools and designated nursery classes in maintained primary schools regardless of age and count each part-time pupil as 0.5 full-time equivalents. The ratios so calculated do not necessarily reflect the actual deployment of staff in any particular school or class nor the size of classes in which pupils are taught.

## SIZES OF CLASSES

**35** In tables 15–19 information is given for classes or groups of pupils being taught together at a particular point in the school time-table. This information has been obtained from each school for one selected period on the day of enumeration (the third Thursday in January).

**36** Primary and middle schools are sub-divided into three groups of equal size and the selected periods are those occurring one hour after the start of morning school, one hour before the end of morning school and one hour after the start of afternoon school. Secondary schools are sub-divided into five groups of equal size, and these groups make returns in respect of the 1st, 3rd, 4th, 5th and last periods of the day respectively.

**37** At any selected period in the time-table there are some large teaching groups assembled for special purposes (physical education, religious instruction, choir practice, etc), mainly within the charge of two or more teachers.

**38** The pupil figures do not include pupils engaged in private study, pupils on work experience, pupils attending courses at Further Education Colleges or pupils attending courses at other schools or establishments during the selected period.

## COURSES OF STUDY

**39** Information on the courses studied by pupils aged 16 and over was first collected in 1986. Where pupils are taking a combination of courses they are recorded once only at the highest level of course.

## ADMISSION APPEALS

**40** *Admission authorities:* LEAs for County and Voluntary Controlled schools and governing bodies for Voluntary Aided, Special Agreement and the former Grant-Maintained schools, are required under the 1996 Education Act to constitute an independent appeals committee to hear appeals by parents against the non-admission of their child to a school for which they have expressed a preference.

## ROUNDING OF FIGURES

**41** Where figures have been rounded there may be discrepancies between the sum of constituent items and the total as shown.

## REGIONAL ANALYSES

**42** The regional figures cover the schools administered by the local education authorities in that region. For schools other than LEA-maintained, the figures cover schools located in that region. Regional statistics of

pupils therefore refer to the pupils in such schools irrespective of the pupils' normal place of residence.

**43** The regions used in this volume are Government Office regions which have been adopted across all Government Departments for use in all government statistics (Map).

## RELATED PUBLICATIONS

**44** The following publications also contain information about topics covered in this volume and other related statistics:

### Statistical First Releases
