## Introduction

The *Specification of Apprenticeship Standards for England (SASE)* sets out the minimum requirements to be included in a recognised English framework. Compliance with the SASE is a statutory requirement of the Apprenticeships, Skills, Children and Learning (ASCL) Act. This is the fourth version of the statutory SASE. *It incorporates modifications to the specification of qualifications from the Regulated Qualifications Framework (RQF).* It will be brought into effect by order issued by the Secretary of State.

## Intermediate Level Apprenticeship Frameworks

### Qualifications Related to the Sector

	ASCL Reference
1. An Intermediate Level Apprenticeship framework must specify the total number of credits which an apprentice must attain for a qualification on the Regulated Qualifications Framework (RQF). This must be at a minimum of 37 credits.	Section 27 (2) (a)
2. An Intermediate Level Apprenticeship framework must identify the competencies qualification which must be achieved by the apprentice to qualify for an Apprenticeship certificate, and which is the qualification required to demonstrate competence in performing the skill, trade or occupation to which the framework relates. The competencies qualification must be <i>at Level 2 of the RQF</i> ; underpinned by National Occupational Standards (NOS); and be approved by the relevant Sector Skills Council (SSC) or Sector Body. To avoid duplication of frameworks in the same skill, trade or occupation, each framework must have a different competencies qualification.	Section 27 (2) (c) ( iii)
3. An Intermediate Level Apprenticeship framework must identify a technical knowledge qualification which must be achieved by the apprentice to qualify for an Apprenticeship certificate. A technical knowledge qualification is the qualification required to demonstrate achievement of the technical skills, knowledge and understanding of theoretical concepts and knowledge and understanding of the industry and its market relevant to the skill, trade or occupation to which the framework relates. The technical knowledge qualification must be underpinned by National Occupational Standards (NOS); and be approved by the relevant Sector Skills Council (SSC) or Sector Body.	Section 27 (2) (c) (ii)
