Re: S31 Grant Determination Letter for Children's Social Care Innovation Programme Grant (2014-16) CSDSD62/2015

This Determination is made between:

- (1) **The Secretary of State for Education** and
- (2) **The local authorities listed at Annex A**

Purpose of the Grant

This grant is an addition to grant CSDSD61/2014 and CSDSD 04/2015. It reflects Innovation Programme funding which was finalised in January 2016.

Alongside CSDSD61/2014 and CSDSD 04/2015, this grant is intended to support the projects local authorities have requested to undertake relating to innovation in children's social care. They may, however, choose how to spend the money in order to best meet local need.

The Children's Social Care Innovation Programme supports the development, testing and spreading of more effective ways of supporting children and families who need help from children's social care services. It has two main focus areas:

- Rethinking children's social work – improving the quality and impact of children's social work;
- Rethinking support for adolescents in or on the edge of care – improving the quality and impact of services which provide a stable effective launch pad for adolescents to transition successfully into adulthood.

The Innovation Programme will provide valuable lessons about how to secure better outcomes for our most vulnerable children and how best to structure and resource the work we do with them. The Programme is seeking to inspire whole system change so that in five years' time we achieve:

- Better life chances for children receiving help from the social care system;
- Stronger incentives and mechanisms for innovation, experimentation and replication of successful new approaches; and
- Better value for money across children's social care.

Local authorities are undertaking a range of projects to test new ideas.

Details of payments to local authorities in grant CSDSD61/2014 and CSDSD 04/2015 will not change and this grant agreement allocates funds in addition to CSDSD61/2014 and CSDSD 04/2015 grant agreements.
