Guidance	Associated legislation	Purpose of guidance	Change
Guidance on mandatory training for governors and clerks (2013)	Government of Maintained Schools (Training Requirements for Governors) (Wales) Regulations 2013	The guidance explains provisions in regulations relating to mandatory training for governors and clerks and the provision of a clerk to a governing body. It includes a section on understanding school performance data.	New guidance, titled 'Understanding Performance Data – School Governors in Wales Guidance', will no longer include references to teacher assessment data, data in the All Wales Core Data Sets and test data from the School Comparative Reports.
School development plans (2014)	The Education (School Development Plans) (Wales) Regulations 2014	The guidance on the associated School Development Plan regulations is intended to support schools in embedding a robust strategic planning approach to delivering improvements in learner outcomes.	The guidance will be updated to remove references to School Comparative Reports.
Performance management for headteachers (2012) <i>and</i> Performance management for teachers (2012)	The School Teacher Appraisal (Wales) Regulations 2011	The performance management guidance documents are intended to help schools by supporting practitioners and leaders to develop their professional skills. They provide a framework to review priorities and objectives in the context of the school's improvement planning.	The guidance will be amended to reflect the proposed changes to data availability and set out the requirements for self assessment using the school's own data and national level data.
Teachers' guides to self-evaluation (2015)	Non-statutory	Guidance packs for teachers working within all stages of the National Curriculum for Wales are designed to help teachers understand and use the data analyses the Welsh Government provides for self-evaluation. Each pack includes guidance on how to use the All Wales Core Data Sets and School	The guidance will be updated to reflect changes in the use of data.

		Comparative Reports.
