Who this guidance is for

This guidance is for parents and carers of children who attend:

- wraparound childcare (such as, breakfast and after-school clubs)
- holiday clubs
- tuition
- community activities
- [the DfE funded summer schools programme](#) other out-of-school settings for children and young people aged 5 and over

This guidance explains steps parents can take to help minimise the risk of transmission of COVID-19, when using these settings for their children.

Who can attend wraparound childcare and out-of-school settings

Out-of-school settings and wraparound childcare providers can accept all children, without restriction on the reasons for which they may attend.

Out-of-school settings include:

- tuition and learning centres
- extra-curricular clubs (for example sports, dance, art and drama clubs)
- uniformed youth organisations - for example, Scouts, Guides and cadet forces
- supplementary schools
- private language schools
- religious settings offering education - for example, madrassahs, yeshivas and Sunday schools

Providers should follow the relevant [guidance](#).

Children with health concerns

Clinically extremely vulnerable (CEV) people are no longer advised to shield, but may wish to take extra precautions to protect themselves, and to follow the practical steps set out in the [CEV guidance](#) to minimise their risk of exposure to the virus.

All CEV children and young people should attend their education and childcare settings unless they are one of the very small number of children and young people under paediatric or other specialist care who have been advised by their GP or clinician not to attend.

Choosing after-school clubs and out-of-school activities for your child

You should:

- keep a record of where and when your child attends a setting to help [NHS Test and Trace](#) identify contacts
- check with the provider that they are following the [relevant guidance](#) to reduce the risk of infection

For more information on choosing a setting for your child, please read the [guidance for parents and carers on safeguarding children in out-of-school settings](#).

Group sizes

Wraparound childcare and other organised activities for children may happen in groups of any number; and, at step 4 children are no longer advised to be kept in consistent groups.

Parent attendance at out-of-school settings and wraparound childcare

We no longer advise that providers limit the attendance of parents and carers at sessions. You should continue to ensure that the provider has your most up-to-date contact details in case of an emergency.

Performances

Providers can host sports events, performances and other events with an audience.

If attending an indoor or outdoor face-to-face performance or event in front of a live audience, you should follow the measures which providers have put in place to manage audiences and carry out performing arts safely. Providers should follow the latest advice in the [COVID-19: Organised events guidance for local authorities](#) and DCMS [performing arts](#) guidance.

Educational Visits

At Step 4, out-of-school settings and wraparound childcare providers may undertake educational visits in groups of any number and children will no longer need to be kept in consistent groups.

We continue to recommend that out-of-school settings and wraparound childcare providers do not go on any international visits before the start of the school autumn term. Providers can go on international visits that have previously been deferred or postponed and organise new international visits for the future from when the new school term starts.

Face coverings

From 19 July, face coverings will no longer be advised for children, parents, staff and visitors either in classrooms or in communal areas.

From 19 July, the Government is removing the requirement to wear face coverings in law but expects and recommends that they are worn in enclosed and crowded spaces where you may come into contact with people you do not normally meet. This includes public transport and dedicated transport to school or college.

If there is an outbreak in a setting, a director of public health might advise the setting that face coverings should temporarily be worn in communal areas or classrooms (by children, staff and visitors, unless exempt).

Asymptomatic testing

Testing remains important in reducing the risk of transmission of infection.

Over the summer, secondary age children should continue to test regularly if they are attending settings that remain open.

Schools will only provide tests for twice weekly asymptomatic testing for secondary age children over the summer period if they are attending school settings. However, testing remains widely available for everyone, with home test kits available for collection either from your local pharmacy or by ordering online: [Order coronavirus \(COVID-19\) rapid lateral flow tests - GOV.UK \(www.gov.uk\)](https://www.gov.uk/order-coronavirus-covid-19-rapid-lateral-flow-tests).

There is no need for primary age children (those in year 6 and below) to test over the summer period. They will be offered 2 tests at an Asymptomatic

Testing Site (ATS) at the beginning of the autumn term when they start at their secondary school as a new year 7. Schools may choose, however, to start testing year 6 pupils earlier, including in summer schools, depending on their local circumstances.

The asymptomatic testing programme does not replace the current testing policy for those with symptoms.

Confirmatory PCR tests

Anyone with a positive lateral flow (LFD) test result should self-isolate in line with the [stay at home guidance](#). They will also need to [get a free PCR test to check if they have COVID-19](#).

Whilst awaiting the PCR result, the individual should continue to self-isolate.

If the PCR test is taken within 2 days of the positive lateral flow test, and is negative, it overrides the self-test LFD test. In this situation, your child can return to their setting, as long as they do not have COVID-19 symptoms.

What to do if your child is displaying coronavirus (COVID-19) symptoms

Do not send your child to their out-of-school or wraparound childcare setting if they have [symptoms](#), however mild, or other reasons requiring them to stay at home, due to the risk of them passing on COVID-19 (e.g. they are required to quarantine or have a positive test).

If your child becomes unwell while at a setting, the provider should call you immediately to collect them. When you collect your child, you should take them straight home. Avoid public transport.

Follow the NHS guidance on [when to self-isolate and what to do](#), or contact NHS 119 by phone if you do not have internet access.

If your child tests positive, [NHS Test and Trace](#) may contact you or your child directly to ask for information on where your child has been recently and who they have been in close contact with. They will then speak directly to those that have been in contact with your child to offer advice, subject to the details provided to NHS Test and Trace.
