*Skills in England 2004* is presented in four volumes. Volume 1 provides key messages and an overview of the research findings in the other three volumes. Volume 2 is the main research report. It contains separate chapters on the demand for and supply of skills as well as mismatches between demand and supply. Finally, Volumes 3 and 4 provide evidence related to industrial sector, and regional and local trends respectively.

*Skills in England 2004* has been produced by the Learning and Skills Council (LSC) in partnership with the Department for Education and Skills (DfES) and Sector Skills Development Agency (SSDA)
