Foreword

This document sets out the revised national curriculum for Welsh in Wales.

The structure of the national curriculum

The national curriculum applies to pupils of compulsory school age in maintained schools. It is organised on the basis of three key stages, which are broadly as follows*:

<table>
<thead>
<tr>
<th>Key Stage 2</th>
<th>Pupils’ ages</th>
<th>Year groups</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>7–11</td>
<td>3–6</td>
</tr>
<tr>
<td></td>
<td>11–14</td>
<td>7–9</td>
</tr>
<tr>
<td></td>
<td>14–16</td>
<td>10–11</td>
</tr>
</tbody>
</table>

In Wales, the following subjects are included in the national curriculum at the key stages shown:

<table>
<thead>
<tr>
<th>Key Stage 2</th>
<th>Subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>English, Welsh, mathematics, science, design and technology, information and communication technology, history, geography, art and design, music and physical education.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Key Stage 3</th>
<th>Subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>As at Key Stage 2, plus a modern foreign language.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Key Stage 4</th>
<th>Subjects</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>English, Welsh, mathematics, science and physical education.</td>
</tr>
</tbody>
</table>

For each subject, in each of the key stages listed above, programmes of study set out what pupils should be taught and, for Key Stages 2 and 3, attainment targets set out the expected standards of pupils’ performance.

At the end of Key Stages 2 and 3, standards of pupils’ performance are set out in eight level descriptions of increasing difficulty, with an additional description above Level 8 to help teachers in differentiating Exceptional Performance.

At Key Stage 4, external qualifications are the main means of assessing attainment in the national curriculum. The Welsh Assembly Government publishes annually the list of qualifications that, under Section 96 of the Learning and Skills Act 2000, are approved for use with pupils of compulsory school age.

* The key stages are defined precisely in Section 103 of the Education Act 2002.
Including all learners

The revised national curriculum contains a section on including all learners which clarifies learner entitlement and schools’ responsibilities.

Implementation dates

The revised programmes of study and attainment targets for Welsh become legal requirements by means of an Order made by the Welsh Assembly Government and come into effect on:

Welsh

• 1 August 2008 for Years 3, 4 and 5 and Years 7 and 8
• 1 August 2009 for Year 6 and Year 9
• 1 August 2010 for Year 10 in Key Stage 4
• 1 August 2011 for Year 11 in Key Stage 4

Welsh second language

• 1 August 2008 for Years 3, 4 and 5 and Years 7 and 8
• 1 August 2009 for Year 6, Year 9 and Year 10 in Key Stage 4
• 1 August 2010 for Year 11 in Key Stage 4.

From these dates the existing national curriculum for Welsh is superseded.

Including all learners

Responsibilities of schools

Under the United Nations Convention on the Rights of the Child and the Welsh Assembly Government’s overarching strategy document *Rights to Action*, all children and young people must be provided with an education that develops their personality and talents to the full. The Education Act 2002 further strengthens schools’ duty to safeguard and promote the welfare of all children and young people.

The equal opportunities legislation which covers age, disability, gender, race, religion and belief and sexual orientation further places a duty on schools in Wales towards present and prospective learners to eliminate discrimination and harassment, to promote positive attitudes and equal opportunities and encourage participation in all areas of school life.

Schools should develop in every learner a sense of personal and cultural identity that is receptive and respectful towards others. Schools should plan across the curriculum to develop the knowledge and understanding, skills, values and attitudes that will enable learners to participate in our multi-ethnic society in Wales. Schools should develop approaches that support the ethnic and cultural identities of all learners and reflect a range of perspectives, to engage learners and prepare them for life as global citizens.

Schools must work to reduce environmental and social barriers to inclusion and offer opportunities for all learners to achieve their full potential in preparation for further learning and life. Where appropriate, schools will need to plan and work with specialist services to ensure relevant and accessible learning experiences.

For learners with disabilities in particular, they should:

- improve access to the curriculum
- make physical improvements to increase participation in education
- provide information in appropriate formats.

Schools should seek advice regarding reasonable adjustments, alternative/adapted activities and appropriate equipment and resources, which may be used to support the full participation of all learners including those who use a means of communication other than speech.

For learners whose first language is neither English nor Welsh, schools should take specific action to help them learn both English and Welsh through the curriculum. Schools should provide learners with material that is appropriate to their ability, previous education and experience, and which extends their language development. Schools should also encourage the use of learners’ home languages for learning.
Learner entitlement

Schools in Wales should ensure that all learners are engaged as full members of their school communities, accessing the wider curriculum and all school activities and working wherever possible alongside their peers. Schools should teach all programmes of study and frameworks in ways appropriate to learners’ developing maturities and abilities and ensure that learners are able to use fully their preferred means of communication to access the curriculum. In order to extend their learning, learners should experience a variety of learning and teaching styles.

To enable all learners to access relevant skills, knowledge and understanding at an appropriate level, schools may use content from earlier phases or key stages within the curriculum. Schools should use material in ways suitable for the learners’ age, experience, understanding and prior achievement to engage them in the learning process.

For learners working significantly below the expected levels at any key stage, schools should use the needs of the learner as a starting point and adapt the programmes of study accordingly. Sufficient flexibility exists within the curriculum to meet the needs of learners without the need for disapplication. In exceptional cases, individual learners may be disapplied, usually on a temporary basis, but group or large-scale disapplications should not be used.

Where it is not possible to cover the content of all of the programmes of study for each key stage, the statutory requirement to provide a broad, balanced curriculum can be met by selecting appropriate topics/themes from the curriculum as contexts for learning.

For more-able and talented learners working at higher levels, schools should provide greater challenge by using material in ways that extend breadth and depth of study and opportunities for independent learning. The level of demand may also be increased through the development and application of thinking, and communication, ICT and number skills across the curriculum.

Schools should choose material that will:

- provide a meaningful, relevant and motivating curriculum for their learners
- meet the specific needs of their learners and further their all-round development.

Learners of all abilities should have access to appropriate assessment and accreditation.
Skills across the curriculum

A non-statutory Skills framework for 3 to 19-year-olds in Wales has been developed in order to provide guidance about continuity and progression in developing thinking, communication, ICT and number for learners from 3–19.

At Key Stages 2 and 3, learners should be given opportunities to build on skills they have started to acquire and develop during the Foundation Phase. Learners should continue to acquire, develop, practise, apply and refine these skills through group and individual tasks in a variety of contexts across the curriculum. Progress can be seen in terms of the refinement of these skills and by their application to tasks that move from: concrete to abstract; simple to complex; personal to the ‘big picture’; familiar to unfamiliar; and supported to independent and interdependent.

For 14–19 learners, the framework should provide the basis for making effective progress in these skills, which can be assessed through a range of qualifications, including Key Skills.

**Developing thinking**

Learners develop their thinking across the curriculum through the processes of planning, developing and reflecting.

In Welsh, learners explore, plan, develop and consider ideas through speech, reading and writing, responding to their own work as well as that of others. They analyse, structure and organise their work; use language creatively; use errors and unexpected outcomes to develop their learning; use their knowledge of language to explain and predict; describe links and similarities in language; identify patterns and formulate rules; discuss how they learn language and evaluate their success.

**Developing communication**

Learners develop their communication skills across the curriculum through the skills of oracy, reading, writing and wider communication.

In Welsh, learners communicate through oracy, reading and writing, developing these skills through evaluating their own work and that of others. In doing so, they learn how to communicate effectively for a range of purposes and with a range of audiences. They deal with extended and increasingly complex language in order to develop as independent and confident users. Their communication skills in Welsh support and enhance the development of skills in other languages.
Developing ICT

Learners develop their ICT skills across the curriculum by finding, developing, creating and presenting information and ideas and by using a wide range of equipment and software.

In Welsh, learners develop their ICT skills by communicating and sharing information and by using technology to research, develop and present their work.

Developing number

Learners develop their number skills across the curriculum by using mathematical information, calculating, and interpreting and presenting findings.

In Welsh, learners develop their number skills through activities which include number rhymes, using ordinal and cardinal numbers, placing events in chronological order, using measures, gathering information in a variety of ways, including questionnaires; accessing, selecting, recording and presenting data in a variety of formats.
Learning across the curriculum

At Key Stages 2 and 3, learners should be given opportunities to build on the experiences gained during the Foundation Phase, and to promote their knowledge and understanding of Wales, their personal and social development and well-being, and their awareness of the world of work.

At Key Stage 4, learners' knowledge and understanding should be developed and applied within the contexts of their individual 14–19 pathways including the Learning Core.

Curriculum Cymreig (7–14) and Wales, Europe and the World (14–19)

Learners aged 7–14 should be given opportunities to develop and apply knowledge and understanding of the cultural, economic, environmental, historical and linguistic characteristics of Wales. Learners aged 14–19 should have opportunities for active engagement in understanding the political, social, economic and cultural aspects of Wales as part of the world as a whole. For 14–19 learners, this is part of their Learning Core entitlement and is a requirement at Key Stage 4.

Welsh contributes to the Curriculum Cymreig by giving learners an awareness of the literary and cultural heritage through the study of all kinds of texts, and it gives them the opportunity to use Welsh as a natural means of communication. It gives those learning Welsh as a second language an unique opportunity to learn the language of Wales and to become bilingual.

Personal and social education

Learners should be given opportunities to promote their health and emotional well-being and moral and spiritual development; to become active citizens and promote sustainable development and global citizenship; and to prepare for lifelong learning. For 14–19 learners, this is a part of their Learning Core entitlement and is a requirement at Key Stage 4.

Welsh contributes to learners’ personal and social education by developing their awareness of the role and differing contributions of minority and global languages within society. By developing their appreciation of two cultures, they are better able to appreciate other cultures, and be sympathetic to them. They work cooperatively and respect the role of others. The exploration and appreciation of texts dealing with a range of themes can encourage the development of self-knowledge, emotional maturity and empathy with the human condition.
Careers and the world of work

Learners aged 11–19 should be given opportunities to develop their awareness of careers and the world of work and how their studies contribute to their readiness for a working life. For 14–19 learners, this is a part of their Learning Core entitlement and is a requirement at Key Stage 4.

Welsh contributes to careers and the world of work by enabling learners to benefit from the increasing opportunities to work in areas where bilingual skills are required, and to take advantage of the expanding use of Welsh in the workplace. It also enables learners to interact in workplaces with those who are bilingual.
Progression in Welsh

Language, Literacy and Communication Skills in the Foundation Phase

Children are immersed in language experiences and activities. Their skills develop through talking, signing/communicating and listening. They should be encouraged to communicate their needs, feelings and thoughts, retell experiences and discuss individual and group play. Some children will communicate by means other than speech. Children refer to their intentions by asking questions, voicing/expressing opinions and making choices through a variety of media, and by building on previous experiences. They should be encouraged to listen and respond to others, to the variety of life experiences that their peers bring to the learning environment and to a range of stimuli, including audio-visual material and ICT interactive software. They should have opportunities to choose and use reading materials, understand the conventions of print and books and be given a wide range of opportunities to enjoy mark-making and writing experiences. They should be helped to develop an awareness of Wales as a country with two languages, and to show positive attitudes to speakers of languages other than Welsh and English. Language skills learned in one language should support the development of knowledge and skills in another language.

Welsh at Key Stage 2

At Key Stage 2, learners build on the skills, knowledge and understanding acquired during the Foundation Phase. This progress is achieved through an integrated programme of oracy, reading and writing. Learners are presented with experiences and opportunities that interrelate the requirements of the Skills and Range sections of the programmes of study.

Learners become confident, coherent and engaging speakers, working as individuals and as members of a group. The experiences presented to them include opportunities to take part in drama and role-play activities. They develop as active and responsive listeners in a wide range of situations. Throughout the key stage, they experience a progressively wide range of demanding texts, for enjoyment and information, so that they can develop into fluent and effective readers. They become competent writers, writing clearly and coherently in a range of forms and for a range of purposes. They acquire a growing understanding of the need to adapt their language to suit purpose and audience. They work with increasing accuracy and become reflective and evaluative in relation to their own and others’ achievements.
Welsh at Key Stage 3

At Key Stage 3, learners build on the skills, knowledge and understanding acquired at Key Stage 2. This progress is achieved through an integrated programme of oracy, reading and writing. Learners are presented with experiences and opportunities that interrelate the requirements of the Skills and Range sections of the programmes of study.

Oral activities ensure that learners’ abilities as listeners, viewers and speakers are developed and extended. The experiences presented to them include opportunities to take part in drama and role-play activities. They read widely for pleasure and interest, developing an articulate and informed personal opinion about their reading. They respond to the content and style of texts, discussing a varied selection of literary, information and media texts. Learners write in a range of forms and styles. They adapt their language to suit purpose and audience using an appropriate level of formality. They work with increasing accuracy and become reflective and evaluative in relation to their own and others’ achievements.

Welsh at Key Stage 4

At Key Stage 4, learners build on the skills, knowledge and understanding acquired at Key Stage 3. This progress is achieved through an integrated programme of oracy, reading and writing. Learners are presented with experiences and opportunities that interrelate the requirements of the Skills and Range sections of the programmes of study.

Learners develop to become effective and confident oral communicators. They read fluently for pleasure and to extract for meaning. They adapt their language to suit purpose, audience and form. Their work becomes increasingly accurate, and they become reflective and evaluative in relation to their own and others’ achievements.

Level descriptions

The following level descriptions describe the types and range of performance that pupils working at a particular level should characteristically demonstrate. In deciding on a pupil's level of attainment at the end of a key stage, teachers should judge which description best fits the pupil's performance. Each description should be considered in conjunction with the descriptions for adjacent levels.

By the end of Key Stage 2, the performance of the great majority of pupils should be within the range of Levels 2 to 5, and by the end of Key Stage 3 within the range 3 to 7. Level 8 is available for very able pupils and, to help teachers differentiate Exceptional Performance at Key Stage 3, a description above Level 8 is provided.

Attainment target 1: Oracy

Level 1

Pupils talk about familiar matters as individuals and in groups. Their speech is understandable and they respond appropriately to simple phrases, instructions and questions. With support, they communicate simple information, respond to stimuli and include some details.

Level 2

The national curriculum outcomes describe the types and range of performance that pupils working at a particular outcome should characteristically demonstrate. In deciding on a pupil’s outcome of attainment at the end of a key stage, teachers should judge which description best fits the pupil’s performance. Each description should be considered in conjunction with the descriptions for adjacent outcomes.
Oracy

**Outcome 1**

Pupils understand and use objects of reference, symbols, signs or single words for familiar objects, events and feelings. They respond to simple requests which contain one or two key symbols, signs or words in familiar contexts.

**Outcome 2**

Pupils combine two or three key symbols, signs or words to communicate meaning to a range of familiar people. They respond to simple questions (‘what?’, ‘where?’) and follow instructions containing two or three key symbols, signs, or words.

**Outcome 3**

Pupils use up to four key symbols, signs or key words to organise their thinking and communicate information or stories to others – including some who are less familiar. They ask and answer questions (‘who?’, ‘why?’) and follow instructions which contain three or four key symbols, signs or words. Pupils take part in one-to-one discussions and small group discussions and role-play activities, and listen to stories for increasing periods of time.
Reading

Outcome 1

Pupils listen and respond to familiar stories and rhymes. They show some understanding of how books work (e.g. turning pages). They match objects to pictures and symbols.

Outcome 2

Pupils recognise symbols or words linked to their personal interests and begin to distinguish between these and pictures. Pupils match letters and short words.

Outcome 3

Pupils follow a left-right sequence, join in rhymes and fill in gaps in familiar or repetitive narrative text. They recognise some letters of the alphabet (by shape, name or sound) and a growing number of everyday words and symbols. Pupils understand the conventions of reading and know that print carries meaning. They begin to discriminate between particular sounds and may link these sounds to letter patterns.
Writing

**Outcome 1**

Pupils begin to understand that marks and symbols convey meaning. They make marks or symbols in their preferred mode of communication.

**Outcome 2**

Pupils produce some meaningful print or symbols linked to their own interests. They trace, overwrite, then copy lines and shapes and begin to produce recognisable letters or symbols, often linked to their own name.

**Outcome 3**

Pupils group letters and leave spaces between them, as though writing words. They begin to use pictures, symbols and familiar words in sequence to communicate meaning and show a growing awareness of the different purposes of writing. They write a few familiar words, usually using upper and lower case letters appropriately.
Key Stage 4

Learning Pathways 14–19

For learners at Key Stage 4, Welsh will be part of each individual’s learning pathway. The course of study followed should be designed to encourage both the abilities of young people as learners and their desire to access future learning opportunities. In particular, the course should contribute as widely as possible to the four aspects of learning as identified in the 14–19 Learning Core.

Welsh at Key Stage 4

At Key Stage 4, pupils build on the skills, knowledge and understanding acquired at Key Stage 3. This progress is achieved through an integrated programme of oracy, reading and writing. Learners are presented with experiences and opportunities that interrelate the requirements of the Skills and Range sections of the programmes of study.

Learners become effective and confident oral communicators. They are fluent in both reading for pleasure and reading for meaning. They are able to suit their writing to purpose, audience and form. Their work becomes increasingly accurate, and they become reflective and evaluative in relation to their own and others’ achievements.

Progression in Welsh second language

Welsh Language Development in the Foundation Phase

During the Foundation Phase, children should learn to use and communicate in Welsh to the best of their ability. Children should listen to Welsh being spoken and respond appropriately in familiar situations, using a range of patterns. They should be encouraged to communicate their needs in Welsh and should be increasingly exposed to Welsh. Skills are developed through communicating in a range of enjoyable, practical planned activities, and using a range of stimuli that build on and increase children’s previous knowledge and experiences, in safe and stimulating indoor and outdoor learning environments. The children’s oral experiences should be used to develop their reading skills and they should be encouraged to choose and use Welsh reading materials. They should listen to a range of stimuli, including audio-visual material and ICT interactive software in Welsh. Children should be given a range of opportunities to enjoy mark-making and develop their writing skills in Welsh. Language skills learned in one language should support the development of knowledge and skills in another.

Key Stage 4

Learning Pathways 14–19

For learners at Key Stage 4, Welsh second language will be part of each individual's learning pathway. The course of study followed should be designed to encourage both the abilities of young people as learners and their desire to access future learning opportunities. In particular, the course should contribute as widely as possible to the four aspects of learning as identified in the 14–19 Learning Core.

Welsh second language at Key Stage 4

At Key Stage 4, learners build on the skills, knowledge and understanding acquired at Key Stage 3. This progress is achieved through an integrated programme of oracy, reading and writing. Learners are presented with experiences and opportunities that interrelate the requirements of the Skills and Range sections of the programmes of study.

Learners become effective and confident oral communicators. They read more stimulating texts, including authentic material, which promote interest and enthusiasm. They write in a range of forms, matching their writing to purpose and audience. Their work becomes increasingly accurate, and they become reflective and evaluative in relation to their own and others’ achievements.
