Introduction

1. Families of Schools: the sixth edition

Families of Schools continues to be well received in London. We have been working with schools and education professionals across London to develop this sixth edition for 2011. As with previous years, this edition includes Key Stage 2 results, a Contextual Value Added (CVA) measure and contextual families focussing on English as an Additional Language (EAL) and mobility.

2. How have families been grouped?

Schools are grouped into families on the basis of an average of their prior attainment data and context data.

Prior attainment data is the average Key Stage 1 (KS1) attainment, measured by the Average Point Score (APS) at KS1, for all pupils in Year 3 to Year 6 who have been matched to Key Stage 2 (KS2) data.

Context data includes:

- Income Deprivation Affecting Children Index (IDACI) data, calculated by linking individual pupil postcodes to IDACI data and compiling an average figure for each school.¹
- The proportion of pupils eligible to receive Free School Meals (FSM).
- The IDACI and FSM school averages are combined to give an overall indicator for the School Environment (SE).
- The percentage of pupils whose first language is known or believed to be other than English (EAL).
- A mobility measure, defined as the percentage of pupils in Year 5 or Year 6 who have joined the school within the last 2 years (L2Y).

The factors are used in proportion to their impact upon Key Stage 4 (KS4) outcomes, with weightings being:

- APS (66%)
- SE (20%)
- EAL (10%)
- L2Y (4%).

When developing the 2011 families an overall aim was to retain existing families where possible although some families have changed to accommodate new

¹ The IDACI is a measure that takes account of different dimensions of deprivation such as housing, education and health. The school IDACI measure reflects the proportion of children living in low income households in the areas that the pupils live in. This is calculated by matching the individual pupil postcodes of children attending each school to the IDACI, which measures the scale of deprivation in each postcode in the country, and compiling an average IDACI figure for each school.

4 Families of Schools

schools and to allow schools to move families if they had become outliers within their existing family.

An outlier is defined as having a KS1 APS measure that is more than one standard deviation from the mean KS1 APS for the family, thus ensuring that all schools within the family differed by less than two standard deviations.

Schools which were identified as outliers within their existing families, together with new schools, were then allocated to families using the following process:

- An overall score for each school was calculated using the weightings outlined earlier.
- Selecting from families with less than 22 schools (the maximum family size), schools that needed a new family were allocated to the same family as the school with the overall score closest to their own.
- In addition to the above, a school would normally be allocated to a family where the distance from the geographical centre of the family was less than 10 kilometres.

Following this allocation process a small number of schools remained as outliers on APS within their allocated family.

The data used for this publication is based on the schools that were open in January 2010. This means that it includes some schools that subsequently closed and does not include a small number that have opened since then.

3. Contextual families

Contextual families bring together schools in London with the highest proportions of mobile pupils and highest proportions of pupils with EAL, enabling schools to compare themselves and share their experiences with others in a similar way to the main families. Schools within these families also tend to have similar Free School Meal and prior attainment statistics. The creation of these families simply recognises that schools providing for large proportions of pupils with these characteristics are likely to share some issues and experiences and may benefit from making links with other similar schools.

4. Suppressed data

All 2010 attainment data has been suppressed for those schools that did not participate in the Key Stage 2 tests in 2010.

Using the Families of Schools document

The data presented here enables you to compare the outputs of your school against the outputs of other London schools with statistically similar pupil intakes. There are many ways in which you can analyse and use the data.

1. Finding a school

To locate your school, you should refer to the list of schools in Annex 2 at the back of this document. All schools are listed in alphabetical order in a grid that shows which family the school belongs to.

Data for your school will be shown on the appropriate family pages.

2. Making comparisons with other schools

The Families of Schools document is designed to enable you to compare the data about your school's characteristics, improvement and performance with that for other schools. When making comparisons, you are encouraged to look at the schools within your family and also at neighbouring families. This is particularly relevant to schools appearing in the middle families.

3. What does the data show me?

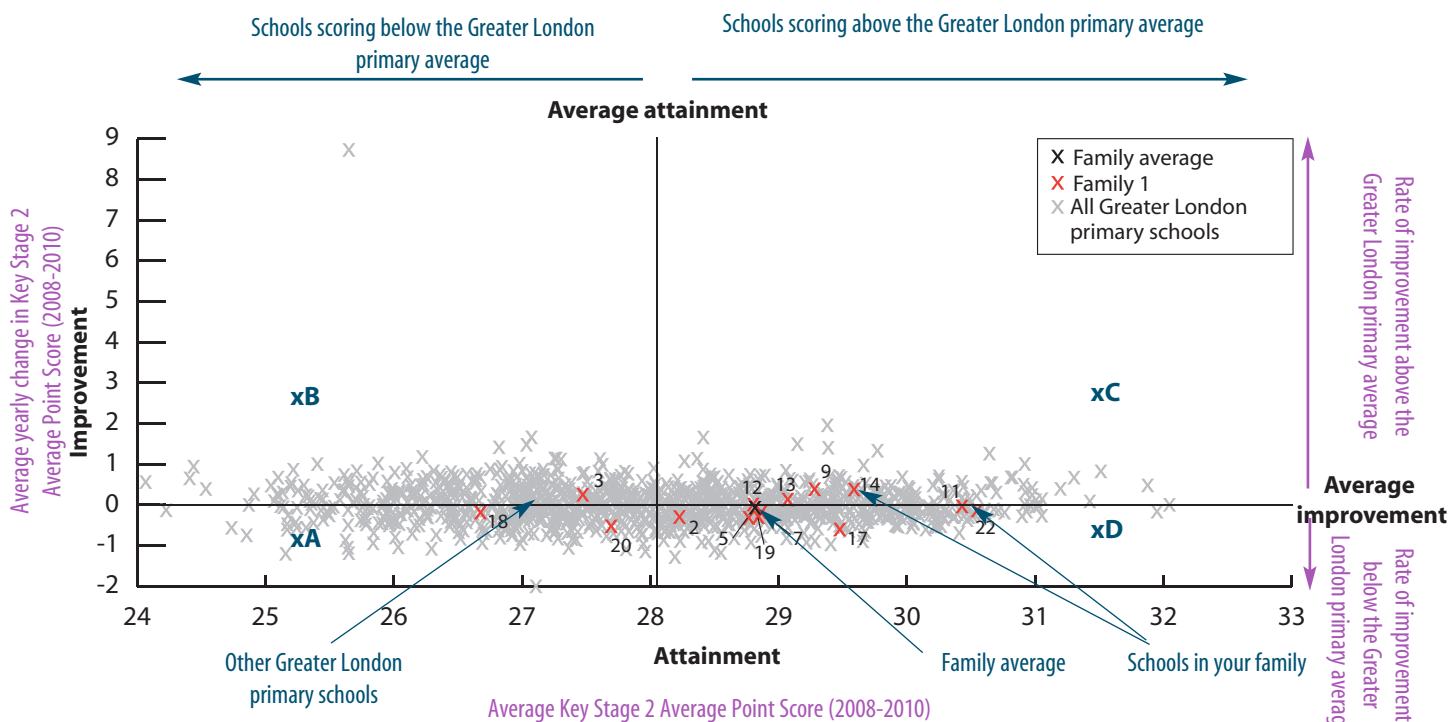

i. School characteristics

The 'school characteristics' table shows how the characteristics of the pupil population in individual schools compare across the family.

CHARACTERISTICS OF SCHOOLS AND THEIR PUPILS											
School Designation		C	C	C	C	VA	C	C	C	VA	
Gender		M	M	M	M	M	M	M	M	M	
Number of full-time pupils		532	211	626	627	210	419	348	228	435	
Boys as a percentage of full-time pupils		53	50	50	54	50	53	51	56	47

% of pupils with EAL		40	23	40	38	17	52	69	22	40	
% of pupils with SEN with statements or on SAP		4	6	13	4	7	5	5	7	5	
% of pupils with SEN supported at School Action		14	11	16	9	11	17	12	6	16	

ii. Tracking schools' improvement over time using the performance map

Within each family page, a 'performance map' presents schools' average attainment and improvement over three years. The rate of improvement is based on the average yearly change over three years (using Average Point Scores) and the attainment figure is an average of the schools' Average Point Scores over the last three years. Schools with less than four years of data will not be shown on the performance map. Four years of data (2006-07, 2007-08, 2008-09 and 2009-10) are needed to calculate improvement rates over the three years, if the required data is not available the school will not be plotted on the performance map. Schools with high levels of attainment and high rates of improvement can be found in the top right hand corner of the performance map.

A fully labelled performance map is shown above.

- School A is a school with **below** average attainment and **below** average improvement.
- School B is a school with **below** average attainment but with **above** average improvement.
- School C is a school with **above** average attainment and **above** average improvement.
- School D is a school with **above** average attainment and **below** average improvement.

iii. School attainment data

This table should be used to compare attainment levels, Contextual Value Added and absence rates for schools in each family. You can begin to look at historic attainment data to see where schools in your family have recorded sustained improvement in their performance and whether there are lessons to be learnt.

SCHOOL ATTAINMENT DATA							
Key Stage 2 Average Point Score (all subjects)	2008	26	27	26	28	27	27
	2009	25	29	27	27	27	27
	2010	27	27	25	28	28	27
Key Stage 1-2 Contextual Value Added		99	98	97	99	99	100
% of 11 year olds in school for 4 years or more		76	86	78	86	87	85
% of 11 year olds in school for 2 years or more		100	86	100	88	88	86
Percentage total absence		6	6	5	5	6	5
Percentage persistent absence		0	0	2	1	1	0

Alternatively, you may find that your own school has good practice to offer to other schools either within your family or in other families.

For example, a much greater percentage of pupils in School 1 achieved 5 or more grades A*-C at GCSE, including English and maths, than School 2.

iv. Breakdown of attainment data

Attainment data is also broken down by pupil characteristics, showing variations in attainment between schools for pupils eligible to receive Free School Meals and by ethnicity and gender. For example, data in the sample family table to the right allows us to compare attainment between School 1 and School 2. Although the schools are in the same family, and therefore have similar intakes, pupils with Special Educational Needs (SEN) supported at school action in School 2 perform better than similar pupils in School 1.

BREAKDOWN OF ATTAINMENT DATA								
Key Stage 2 Average Point Score (all subjects)	FSM	All pupils not eligible for FSM	80	81	79	83	85	83
		All pupils eligible for FSM	81	69	64	72	79	69
	Girls	All girls	82	80	75	84	82	82
		All girls not eligible for FSM	83	81	79	85	88	82
		All girls eligible for FSM	78	-	68	-	71	-
	Boys	All boys	78	79	73	80	83	80
		All boys not eligible for FSM	77	81	79	82	83	84
		All boys eligible for FSM	-	69	58	-	84	-
	Ethnicity	White British pupils	81	-	73	81	84	-
		Indian pupils	N/A	-	-	-	82	N/A
		Pakistani pupils	N/A	-	N/A	N/A	-	N/A
		Bangladeshi pupils	N/A	N/A	N/A	N/A	79	-
		Black Caribbean pupils	N/A	N/A	-	-	-	N/A
	Mobility	Black African pupils	N/A	N/A	-	N/A	N/A	N/A
		Pupils in school for less than 2 years	71	-	-	69	-	-
	SEN	Pupils in school for 2 or more years	81	79	74	83	83	81
		Pupils with SEN supported at school action	69	69	61	66	-	70
	EAL	Pupils with SEN with statements or on School Action Plus	-	-	45	-	-	44
		Pupils with EAL	-	-	-	-	83	-
		Pupils without EAL	80	79	74	82	83	82
				School 1			School 2	

N/A = 0 pupils, data unavailable or has been suppressed
 - = fewer than 5 pupils in this group

v. Key Stage 2 subject information

The KS2 subject information can be used to compare subject level performance within families. The table shows the number of pupils entered for each subject and the percentage achieving Level 4+ and Level 5+ in English and maths.

KEY STAGE 2 SUBJECT INFORMATION														
Combined English & Maths	Number	58	74	44	35	40	29	82	59	32	101	34	36	33
	% Level 4+	88	91	80	86	95	86	89	85	97	90	94	92	94
	% Level 5+	34	34	39	40	28	34	50	42	38	37	29	39	48
English	Number	58	74	44	35	40	29	82	59	32	101	34	36	33
	% Level 4+	95	93	86	94	100	93	95	93	97	92	97	92	94
	% Level 5+	48	41	50	63	35	55	72	59	50	44	62	42	55
Maths	Number	58	74	44	35	40	29	82	59	32	101	34	36	33
	% Level 4+	91	93	84	91	95	90	89	88	97	93	94	92	94
	% Level 5+	41	46	52	51	55	34	55	49	63	59	44	64	52
		School 1				School 2				School 3				

This table also shows that School 2 and School 3 have different strengths in English and maths. Although broadly similar proportions of pupils achieve Level 4+ in English in both schools (95% in School 2 and 92% in School 3), the proportion of pupils achieving Level 5+ is significantly higher in School 2 (72%) compared with School 3 (42%). By contrast, School 3 has a higher percentage of pupils achieving L5+ in maths (64% in School 3 compared to 55% in School 2). Schools 2 and 3 could therefore explore ways to exchange their expertise in maths and English.

vi. Contextual families

The two contextual families group schools with high proportions of pupils who speak English as an Additional Language (EAL) and schools with a high proportion of mobile pupils. The data contained in these family pages will hopefully be used by schools to identify high performing schools with similar intakes and to make links with schools to share best practice.

In this example, taken from the contextual family for schools with a high percentage of mobile pupils, School 1 and School 2 both recorded an Average Point Score (APS) of 24 at Key Stage 2 in 2008. Between 2008 and 2010 the APS for School 2 increased by 5 points to 29 in 2010. A slower rate of improvement was recorded by School 1, from an APS of 24 in 2008 to an APS of 26 in 2010.

		School 1	School 2	School 3	School 4
SCHOOL ATTAINMENT DATA					
Key Stage 2 Average Point Score (all subjects)	2008	24	24	28	29
	2009	25	27	27	29
	2010	26	29	29	30

In the 'breakdown of attainment data' table, performance data for mobile pupils can be compared across schools in the contextual family. In School 2, APS scores are not affected by the length of time the child has spent at the school, whereas the attainment of mobile pupils in School 3 is, on average, 5 points below that of other pupils.

		School 1	School 2	School 3	School 4
BREAKDOWN OF ATTAINMENT DATA					
Mobility	Pupils in school for less than 2 years	N/A	29	22	23
	Pupils in school for 2 or more years	30	29	27	30

London in context

The tables and charts on these pages show how London compares with other metropolitan areas in England. This data helps set the information presented about each school and each family in the national context.

The **area characteristics** table shows the total number of full-time primary school pupils in the Black Country, Greater Manchester, London and all other metropolitan areas combined. It also shows how the characteristics of primary school pupils compare between the areas.

The **area performance** table shows the different levels of attainment and value added in London and other metropolitan areas in England, once again, highlighting data for the other Families of Schools regions.

The **area subject information** table shows how the total number of pupils entered for each subject and the percentage of those pupils who achieved Level 4+ and Level 5+ in combined English & maths, English and maths differ between London and the other metropolitan areas in England in the national context.

Maintained mainstream schools in England

The latest data shows that attainment at Key Stage 2 in combined English and maths improved in London between 2009 and 2010 by over 2.5 percentage points. This increase is greater than the national improvement and means that attainment in London is now over 2 percentage points above the national average.

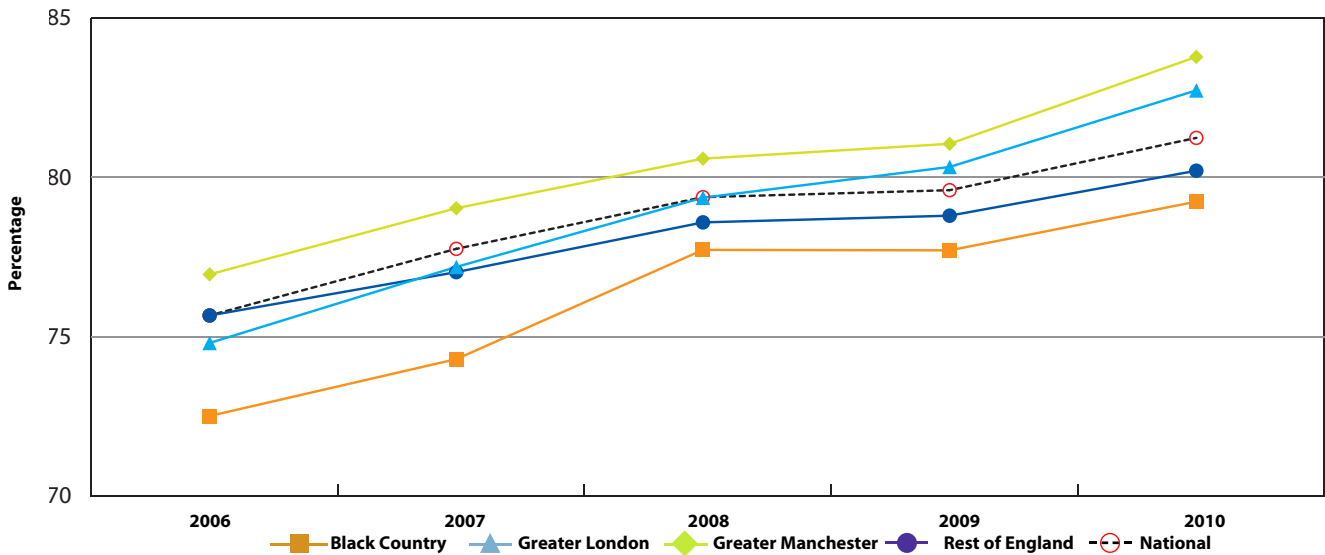

Percentage of pupils achieving Level 4 or above in KS2 Combined English & Maths

Percentage of pupils achieving Level 4 or above in KS2 English

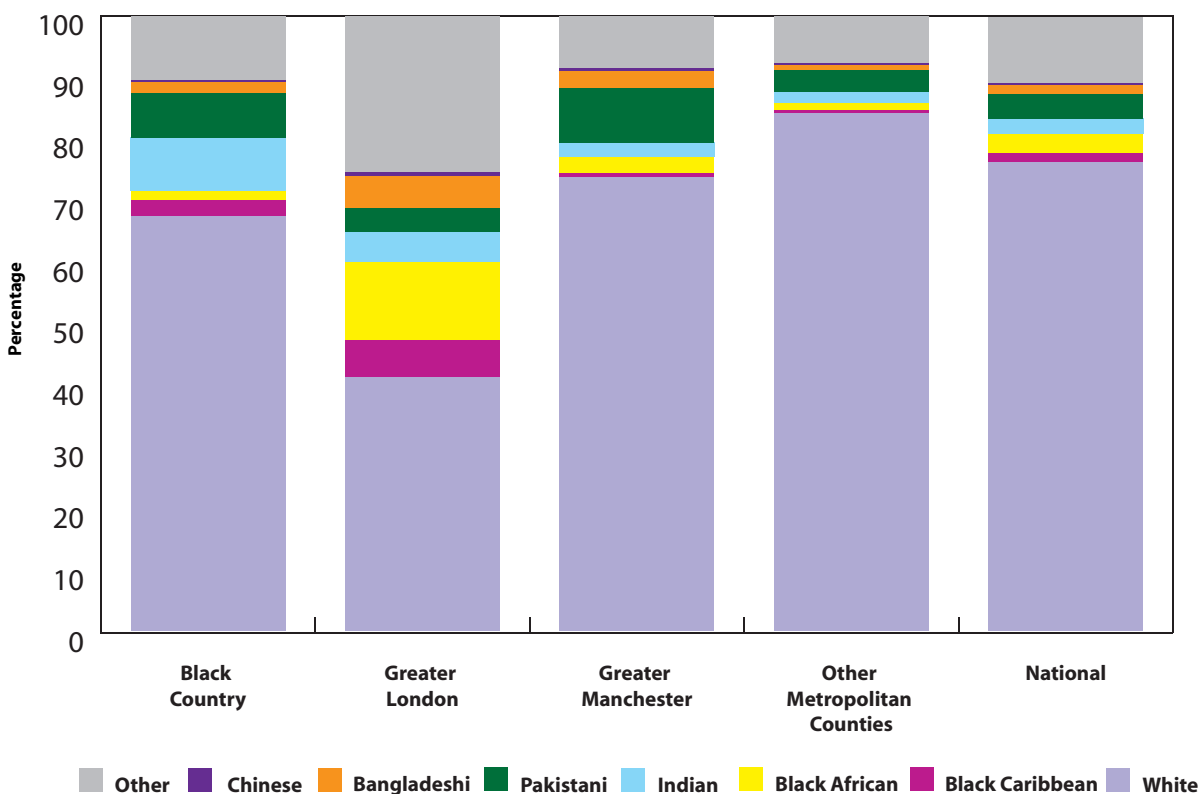

Percentage of pupils achieving Level 4 or above in KS2 Maths

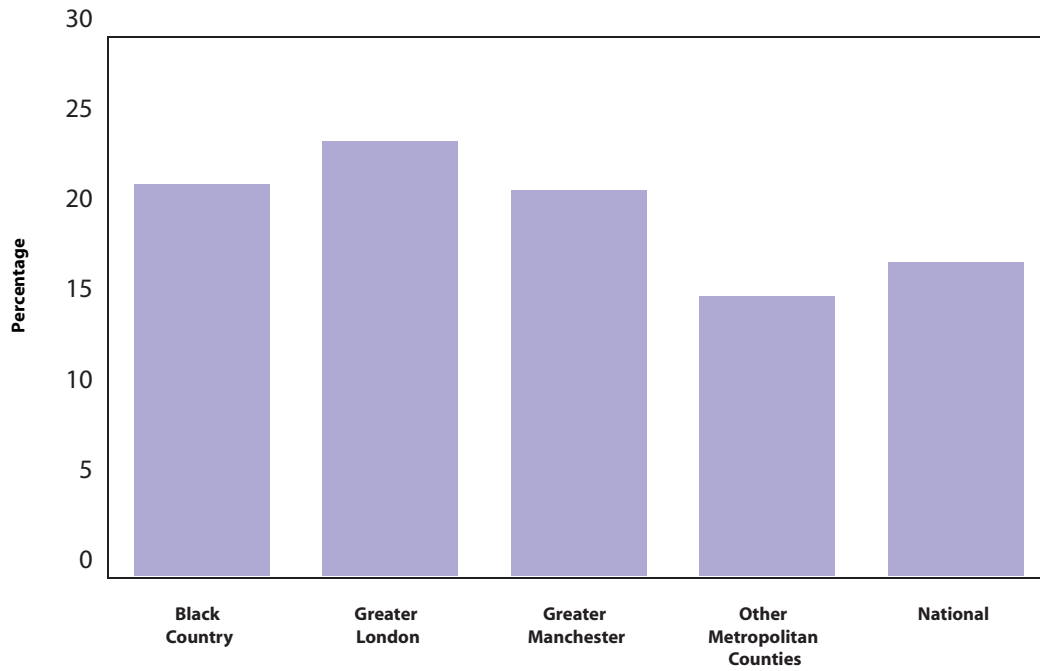

Over half of primary school pupils in Greater London are non-White with particularly high proportions of pupils of Black African and Black Caribbean origins relative to other areas. Around one in four pupils are in the Other ethnic groups' category, which includes pupils from mixed ethnic backgrounds.

Ethnicity of primary school pupils

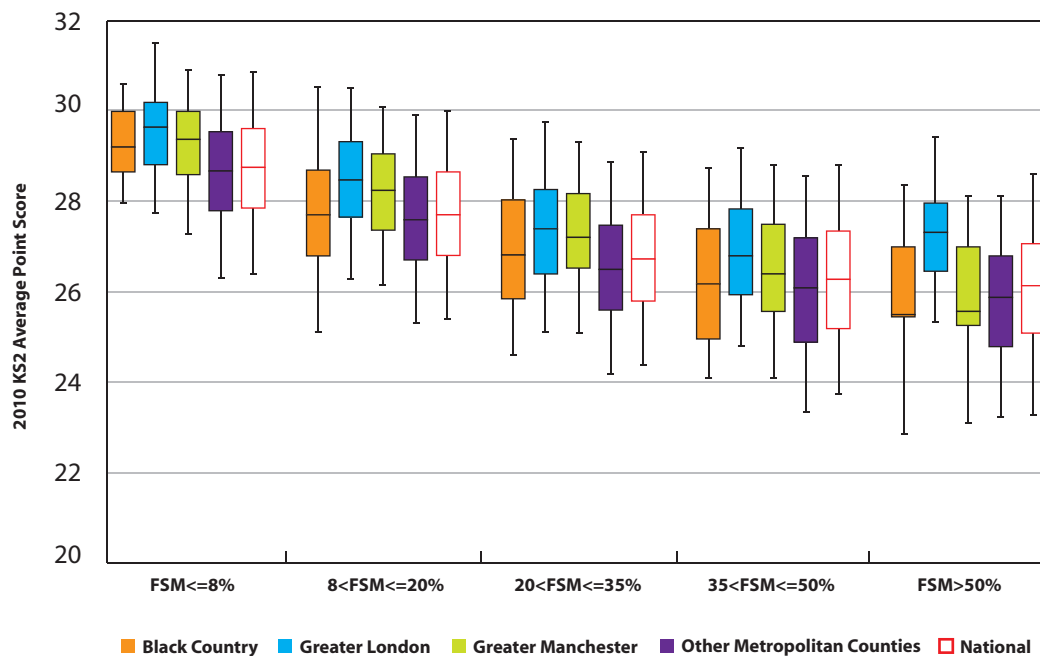

Data on eligibility for Free School Meals highlights that Greater London, in common with other urban areas, has a higher concentration of low income households than the national average.

Percentage of primary school pupils eligible for Free School Meals

This chart shows the range of attainment outcomes in Greater London primary schools, broken down by Free School Meal Band and compared with other urban areas. A full explanation of this chart is available in Annex 1.

PERFORMANCE MAP

Annex 1

What it all means – footnotes and explanations

How have families been grouped?

Schools are grouped into families on the basis of an average of their prior attainment data and context data.

Prior attainment data is the average Key Stage 1 (KS1) attainment, measured by the Average Point Score (APS) at KS1, for all pupils in Year 3 to Year 6 who have been matched to Key Stage 2 (KS2) data.

Context data includes:

- Income Deprivation Affecting Children Index (IDACI) data, calculated by linking individual pupil postcodes to IDACI data and compiling an average figure for each school.¹
- The proportion of pupils eligible to receive Free School Meals (FSM).
- The IDACI and FSM school averages are combined to give an overall indicator for the School Environment (SE).
- The percentage of pupils whose first language is known or believed to be other than English (EAL).
- A mobility measure, defined as the percentage of pupils in Year 5 or Year 6 who have joined the school within the last 2 years (L2Y).

The factors are used in proportion to their impact upon Key Stage 4 (KS4) outcomes, with weightings being:

- APS (66%)
- SE (20%)
- EAL (10%)
- L2Y (4%).

When developing the 2011 families an overall aim was to retain existing families where possible although some families have changed to accommodate new schools and to allow schools to move families if they had become outliers within their existing family.

¹ IDACI is a measure that takes account of different dimensions of deprivation such as housing, education and health. The school IDACI measure reflects the proportion of children living in low income households in the areas that the pupils live in. This is calculated by matching the individual pupil postcodes of children attending each school to the IDACI, which measures the scale of deprivation in each postcode in the country, and compiling an average IDACI figure for each school.

An outlier is defined as having a KS1 APS measure that is more than one standard deviation from the mean KS1 APS for the family, thus ensuring that all schools within the family differed by less than two standard deviations.

Schools which were identified as outliers within their existing families, together with new schools, were then allocated to families using the following process:

- An overall score for each school was calculated using the weightings outlined earlier.
- Selecting from families with less than 22 schools (the maximum family size), schools that needed a new family were allocated to the same family as the school with the overall score closest to their own.
- In addition to the above, a school would normally be allocated to a family where the distance from the geographical centre of the family was less than 10 kilometres.

Following this allocation process a small number of schools remained as outliers on APS within their allocated family.

Contextual families

Contextual families bring together schools in London with the highest proportions of mobile pupils and highest proportions of pupils with EAL, enabling schools to compare themselves and share their experiences with others in a similar way to the main families. Schools within these families also tend to have similar Free School Meal and prior attainment statistics. The creation of these families simply recognises that schools providing for large proportions of pupils with these characteristics are likely to share some issues and experiences and may benefit from making links with other similar schools.

London in context

The tables and charts on these pages show how the City Challenge areas compare with other metropolitan areas in England. This data helps set the information presented about each school and each family in the national context. Unless otherwise stated the national data is an average for England and the coverage for the tables and charts is all maintained mainstream schools including CTCs and Academies. All averages are weighted averages.

The chart titled 'Attainment by Free School Meal Band' shows the range of attainment outcomes in primary schools in each City Challenge area, broken down by school Free School Meal (FSM) Band. Here is a guide to interpreting this chart:

- The first blue box on the chart (and the whiskers at the top and bottom of the box) show the full range of KS2 Average Point Score outcomes for London primary schools with low FSM rates (schools with less than or equal to 8% of pupils eligible for FSM).
- The line in the middle of the blue box shows the median KS2 APS for London schools in this FSM band (if you ranked all schools in this FSM band on the

basis of their KS2 APS, the median school would be the school exactly in the middle of the list). Although not strictly an average, it is often referred to as the average KS2 APS for this group of schools.

- The top of the blue box represents the KS2 APS for the London school on the upper quartile (25th percentile) of the ranked APS distribution.
- The bottom of the blue box represents the KS2 APS for the London school on the lower quartile (75th percentile) of the ranked APS distribution.
- The top point of the whisker marks the KS2 APS of the school on the 5th percentile of the ranked KS2 APS distribution and the bottom of the whisker below the blue box shows the KS2 APS of the London school on the 95th percentile of the ranked KS2 APS distribution within this FSM band.
- The chart highlights that, for example, in the lowest FSM band London primary schools tend to have higher KS2 APS scores and a wider range of scores compared to Black Country primary schools.
- Looking at the national data (the white boxes with red frames), the chart also shows a wide range of outcomes for schools with very high FSM rates. The top whisker on the box at the far right of this chart shows that there are some schools with very deprived intakes performing better than schools with very low levels of deprivation.

Prior attainment bands

For each school, the prior attainment of pupils has been calculated by looking at the Key Stage 1 attainment of pupils matched to Key Stage 2 outcomes in the last 3 years (2008 to 2010). In calculating prior-attainment we have taken account of the Key Stage 1 Average Points Score (APS) based upon attainment in Reading, Writing and Mathematics.

Each school has then been allocated to a prior attainment band as follows:

- Band 1 – Schools with KS1 APS greater than or equal to 0 and less than 12
- Band 2 – Schools with KS1 APS greater than or equal to 12 and less than 14
- Band 3 – Schools with KS1 APS greater than or equal to 14 and less than 16
- Band 4 – Schools with KS1 APS greater than or equal to 16 and less than 18
- Band 5 – Schools with KS1 APS greater than or equal to 18 and less than 100.

Percentage of pupils known to be eligible for Free School Meals

This data shows the percentage of pupils on the school roll who are entitled to receive a Free School Meal. This data was collected in the 2010 Pupil Level Annual Schools Census (PLASC). The figures are based on all current full-time or mainly enrolled pupils, below minimum compulsory school age, and all pupils current or mainly enrolled aged 5-15 inclusive.

Each school has been allocated to a Free School Meal (FSM) band as follows:

Band 1 – Schools with greater than or equal to 0% and less than 5% of all pupils eligible for Free School Meals

Band 2 – Schools with greater than or equal to 5% and less than 9% of all pupils eligible for Free School Meals

Band 3 – Schools with greater than or equal to 9% and less than 13% of all pupils eligible for Free School Meals

Band 4 – Schools with greater than or equal to 13% and less than 21% of all pupils eligible for Free School Meals

Band 5 – Schools with greater than or equal to 21% and less than 35% of all pupils eligible for Free School Meals

Band 6 – Schools with greater than or equal to 35% and less than 50% of all pupils eligible for Free School Meals

Band 7 – Schools with greater than or equal to 50% and up to a 100% of all pupils eligible for Free School Meals.

The ethnic origin of pupils

This data shows the ethnicity of all pupils of compulsory school age and above in each school. The data has been taken from the 2010 Pupil Level Annual Schools Census (PLASC).

Due to the very small numbers of pupils from the Gypsy/Roma and Traveller of Irish Heritage groups in last year's edition, these pupils have now been incorporated into the Any Other White Background category. Data will not be shown for schools where there are fewer than five pupils in a category.

Pupil characteristics data

Data showing the pupil characteristics below has been taken from the 2010 Pupil Level Annual Schools Census (PLASC).

- Percentage of pupils on roll whose first language is known or believed to be other than English (EAL).
- Percentage of pupils on roll with Special Educational Needs (SEN) with Statements or on School Action Plus (SAP).
- Percentage of pupils on roll with Special Educational Needs (SEN) at School Action level.

School performance data

The data in this document is consistent with that published in the Primary School Achievement and Attainment Tables (it is post-errata data).

Level 4 or above at KS2

Families of schools shows the percentage of pupils achieving Level 4 or above in the KS2 tests for combined English and maths, English and maths. Level 4 is the level expected of most 11 year olds. This percentage is based on all eligible pupils, including those who were absent at the time of the tests or working at the level of the tests but unable to access them and, therefore, did not achieve a result.

National Curriculum tests in Science for all pupils were discontinued after the 2009 academic year. From 2010, Key Stage 2 science at school level has been assessed by teacher assessment only - teacher assessment data are not included in Families of Schools publications therefore all references to science attainment have been removed. In order to monitor national standards in science, a new externally marked, sample test has been introduced. The proportion of pupils attaining level 4 or above and level 5 in this sample test was published in a Statistical Release on 10 August 2010.

Level 5 or above at KS2

The percentage of pupils achieving Level 5 or above in the KS2 tests for combined English and maths, English, and maths is also shown. This percentage is based on all eligible pupils, including those who were absent at the time of the tests or working at the level of the tests but unable to access them and, therefore, did not achieve a result.

KS2 Average Point Score (APS)

The APS for a school provides a fuller picture of the KS2 achievements of pupils of all abilities. Two schools with similar percentages of pupils achieving Level 4 or above may have different APSs. The APS values the achievements of pupils below the Level 4 threshold, by taking account of whether pupils attain Level 3 or not.

The APS is calculated by awarding each pupil a number of points, according to their level of attainment. The total points in maths and English are added together and divided by the total number of eligible pupils for each subject. This gives you the Average Point Score for the school.

The APS calculation does not include those pupils that were absent at the time of the tests or working at the level of the tests but unable to access them.

Contextualised Value Added (CVA)

CVA aims to take account of other factors that are related to, and influence, the progress that pupils make in a school, such as levels of deprivation or Special Educational Needs (SEN). The 2008 to 2010 models for Contextualised Value Added include the following attainment and contextual factors:

- Pupil prior attainment
- Gender
- Special Educational Needs
- First language
- Ethnicity
- Measures of deprivation
- Measures of pupil mobility
- Age
- An 'In care' indicator.

Mobility measures

This data shows, respectively, the percentage of 11 year old pupils in the school that have been on roll for:

- Four years or more
- Two years or more.

Percentage total absence

The percentage of the total possible sessions (half days) missed due to absence (authorised and unauthorised).

Percentage persistent absence

The percentage of pupil enrolments who are persistent absentees. Persistent absentees are defined as having more than 63 sessions of absence (authorised and unauthorised) during the year, typically over 20 per cent overall absence rate.

Annex 2

School contact details

The following contact details have been sourced from Edubase. If your school's details are listed incorrectly here, it means they will be listed incorrectly on Edubase. Please ensure that the most up to date contact details for your school are registered on Edubase, and updated when necessary.
