INTRODUCTION

This volume is the fifth in a series providing statistics about the post-16 learning sector (excluding sixth forms and excluding HE institutions apart from in a few specific tables) in Wales. The main purpose of the publication series is to provide an annual picture of learning which was undertaken in the post-16 learning sector in Wales.

The statistics in this volume complement previously issued Welsh Assembly Government statistical releases on the 2007/08 post-16 learning sector and summary data available via the StatsWales website (www.statswales.wales.gov.uk). The volume also provides a continuation to certain trend statistics provided in the former publication series *Higher Education, Further Education and Training Statistics in Wales* which was a series of publications produced jointly by the Higher Education Funding Council for Wales (HEFCW) and Education and Learning Wales (ELWa). Following the separation of HEFCW and ELWa the joint publication was no longer issued. In April 2006 ELWa was merged into the Welsh Assembly Government.

In 2003/04 ELWa introduced a new data collection system known as the Lifelong Learning Wales Record (LLWR), with the aim of collecting consistent and comparable data across the post-16 learning sector. This system has been continued by The Welsh Assembly Government's Department for Children, Education, Lifelong Learning and Skills (DCELLS). In its first year of operation the LLWR collected data from Further Education (FE) and Community Learning providers whereas Work-based Learning (WBL) providers continued to return data via existing funding systems. From its second year of operation the LLWR also collected data from the WBL sector. Therefore, all of the data in this publication is sourced from the LLWR, with the sole exception of data on learners at HE institutions.

Previous *Higher Education, Further Education and Training Statistics* publications included not only data regarding learners and the learning they had undertaken but also information on FE staff and FE institution finances. The current series by contrast only focuses on learners and their learning. FE staff and finance data is available separately and further details of these publications can be found in Appendix B.

Structure of the Volume

This volume is divided into three sections with two appendices at the end. Each section contains a series of tables (with brief accompanying notes and data caveats on coverage and data sources) and a short commentary which brings attention to key statistics from the section.

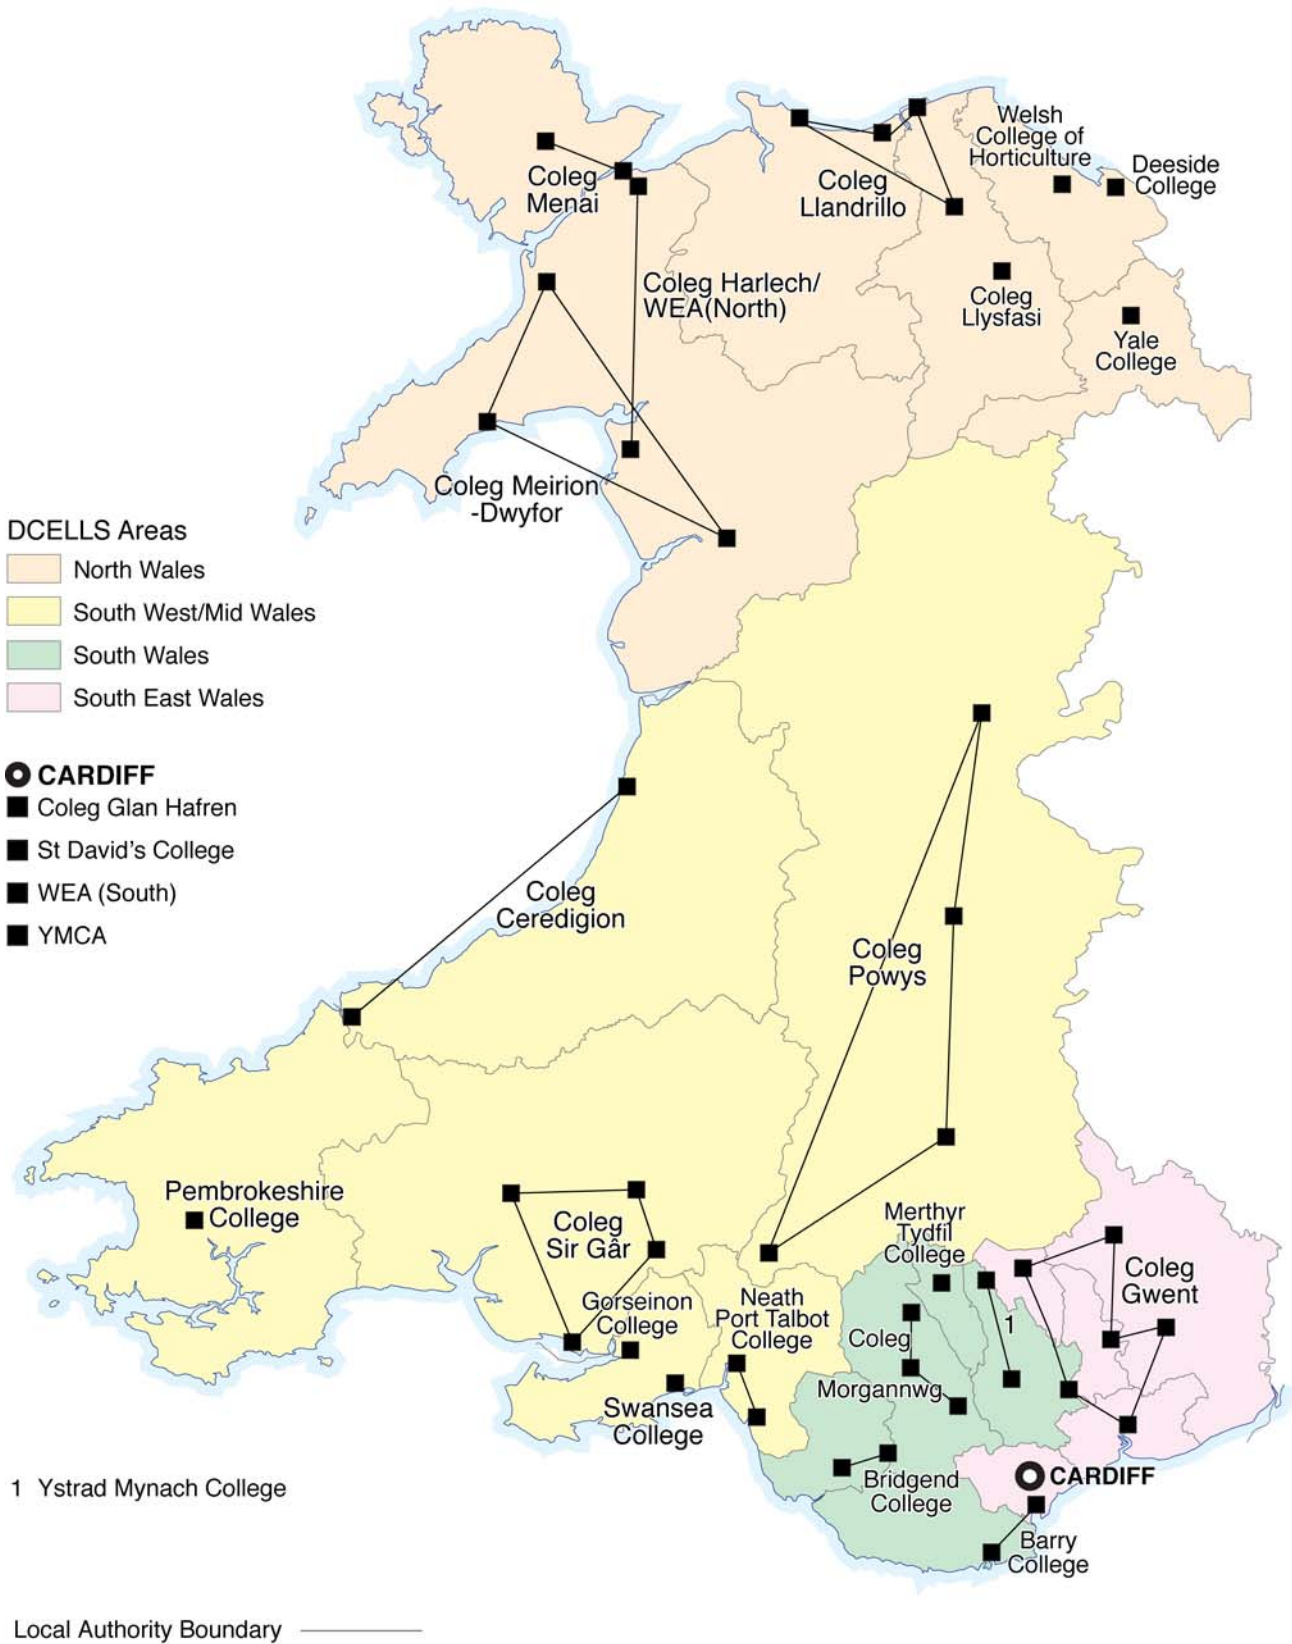

The sections are :

- Section A Further Education in Wales
- Section B Local Authority Community Learning in Wales
- Section C Work-based Learning in Wales

Appendix A provides fuller information on sources of data and notes on the definitions.

Appendix B provides a few further information sources relating to the learning sector in Wales.

Further Education Summary

- 217,550 distinct learners were enrolled at FE institutions (FEIs) in 2007/08.
- 154,745 learners were in-learning at an FE institution as at the week of 1 December 2007.
- There was a 1.6 per cent decrease in FE learner numbers at Further Education and Higher Education (HE) institutions between December 2002 and December 2007.
- 1,780 learners at FE institutions were enrolled on a designated HE programme (only) in 2007/08; however in total 5,785 provider learners pursued one or more qualifications at HE level within overarching FE, HE and work-based learning (WBL) programmes.
- Around 17,400 learners at HE institutions were enrolled on FE level courses. This figure has increased from 9,800 in 2006/07 because of the inclusion of Welsh for Adults learners in the figures from the five Welsh for Adults Centres based at HE institutions which had been included in the FEI figures up to 2006/07.
- 16,385 learners undertook Welsh for Adult learning activities, down from around 18,700 provider learners (18,295 unique learners) in 2006/07.
- 57 per cent of learners at FE institutions were female; this was only very slightly below the proportion of women at FEIs in the years 2003/04 to 2006/07 – virtually constant between 57 and 58 per cent.
- 20 per cent of learners at FE institutions were full-time (compared with 18 per cent in 2006/07), 74 per cent part-time (76 per cent in 2006/07) and 6 per cent work-based learners, as was also the case the previous year.
- 38 per cent of learners at FE institutions were aged under 25 (up from 36 per cent in 2006/07); 23 per cent were under the age of 19.
- 5 per cent of learners at FE institutions were of a non-white ethnic origin.
- 9 per cent of learners at FE institutions had a disability.
- 96 per cent of learners at FE institutions were domiciled in Wales.
- 683,655 learning activities were undertaken by learners at FE institutions;
- The two most popular subject areas were Care/Personal Development (including Basic Skills) (25 per cent) and Information Technology (16 per cent);
- 3.5 per cent of learning activities were undertaken bilingually and 0.4 per cent through the medium of Welsh;
- The most popular types of learning activities recorded (excluding the 'other' category) were Open College Network (OCN) credits (26 per cent) and key skills (21 per cent).

Note : all the percentages above are as a proportion of the total for which data were available

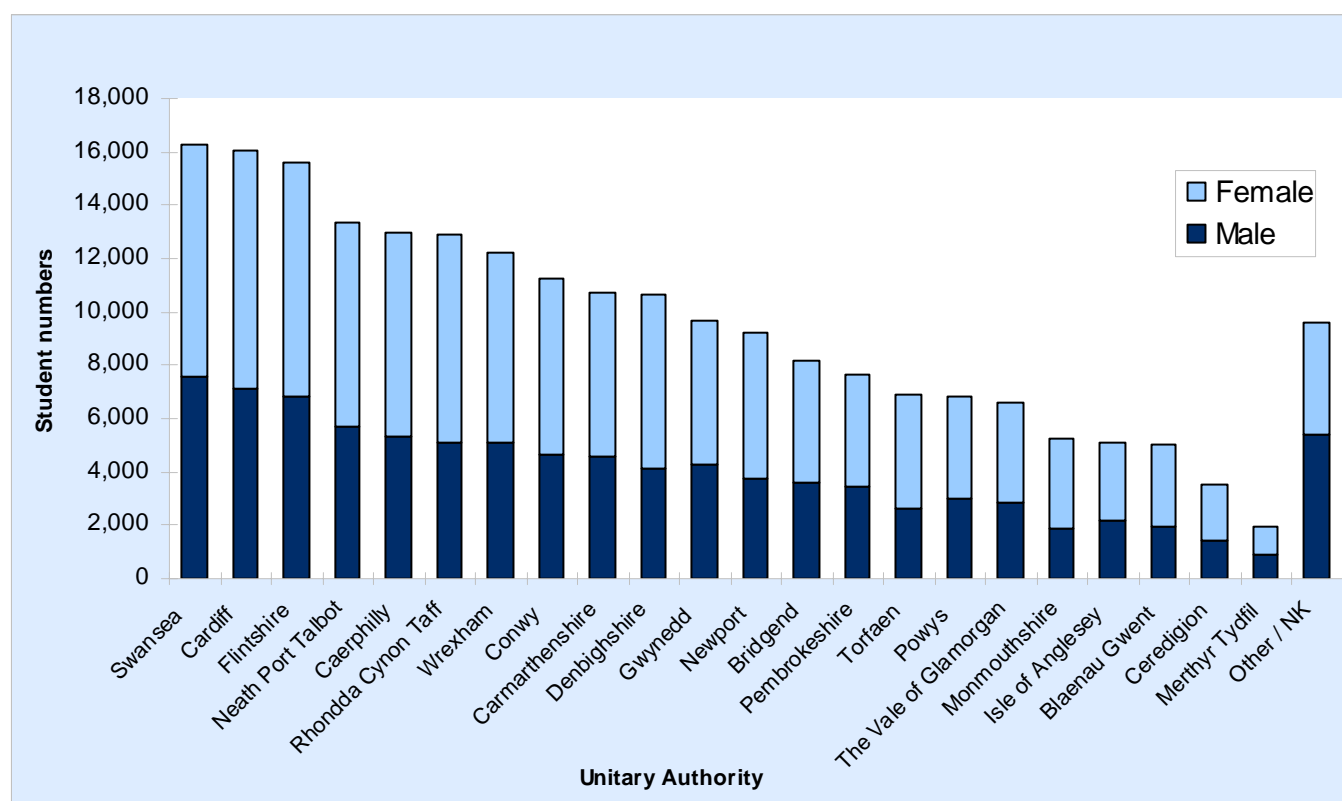

Learners [Tables F1.1 to F3.8]

There were 217,550 learners enrolled at FE institutions in 2007/08. These learners were enrolled at 25 Further Education institutions (FEIs) in Wales (including the work-based learning subsidiary of Merthyr Tydfil College). Most of their programmes of study were at the equivalent of NVQ Level 3 or below but 20 institutions enrolled some learners on higher education (HE) courses / learning activities. There were also around 17,400 learners at HE institutions enrolled on FE level courses. This figure has increased from 9,800 in 2006/07 because of the inclusion of Welsh for Adults learners in the figures from the five Welsh for Adults Centres based at HE institutions which had been included in the FEI figures up to 2006/07. 13,170 learners enrolled at FE institutions were pursuing work-based learning programmes and are also included within the counts of the work-based learning section C.

The introduction of the Lifelong Learning Wales Record (LLWR) data collection system has allowed individual learners to be tracked statistically. Previous data collection systems operating in the FE sector have only allowed unique instances of learners at specific FEIs to be counted. When duplicate instances of learners enrolled at more than one FE institution are included then the total number of learners enrolled at FEIs is 231,015 (the 'provider-learner' count) as compared with the count of unique learners in the sector which is 217,550.

Although 231,015 provider learners were enrolled at FE institutions, not all the learning was delivered by staff at FE institutions. 30,085 were taught by third parties (such as Local Education Authorities delivering community learning); conversely 5,850 learners were enrolled with HE institutions but undertook learning at FE institutions. Table F1.6 provides information on these third party arrangements. Those learners appearing within the FE institution figures who are taught by LEA community learning staff are identified in the appropriate tables of section B (Local Authority Community learning in Wales) in which they also appear.

Figure F1: Learners Enrolled at FE Institutions by Local Authority of Domicile 2007/08

Learning Activities [Tables F4.1a to F4.5]

Overall 683,655 learning activities (equivalent to courses / qualification aims) were followed by learners enrolled at FE institutions in 2007/08. The vast majority of these learning activities were at a level equivalent to NVQ level 1, 2 or 3.

0.4 per cent of the learning activities were delivered in the medium of Welsh and a further 3.5 per cent bilingually but all the remainder were delivered in the medium of English.

Aside from the 'other' category (which amalgamates a number of different types of qualification, including City & Guild certificates, ECDL and CLAIT), the most prevalent types of qualification undertaken were:

- Open College Network (OCN) credits (26 per cent)
- Key Skills (21 per cent)
- NVQs, or GNVQs (8 per cent)
- GCE A/AS levels or GCSEs (6 per cent)

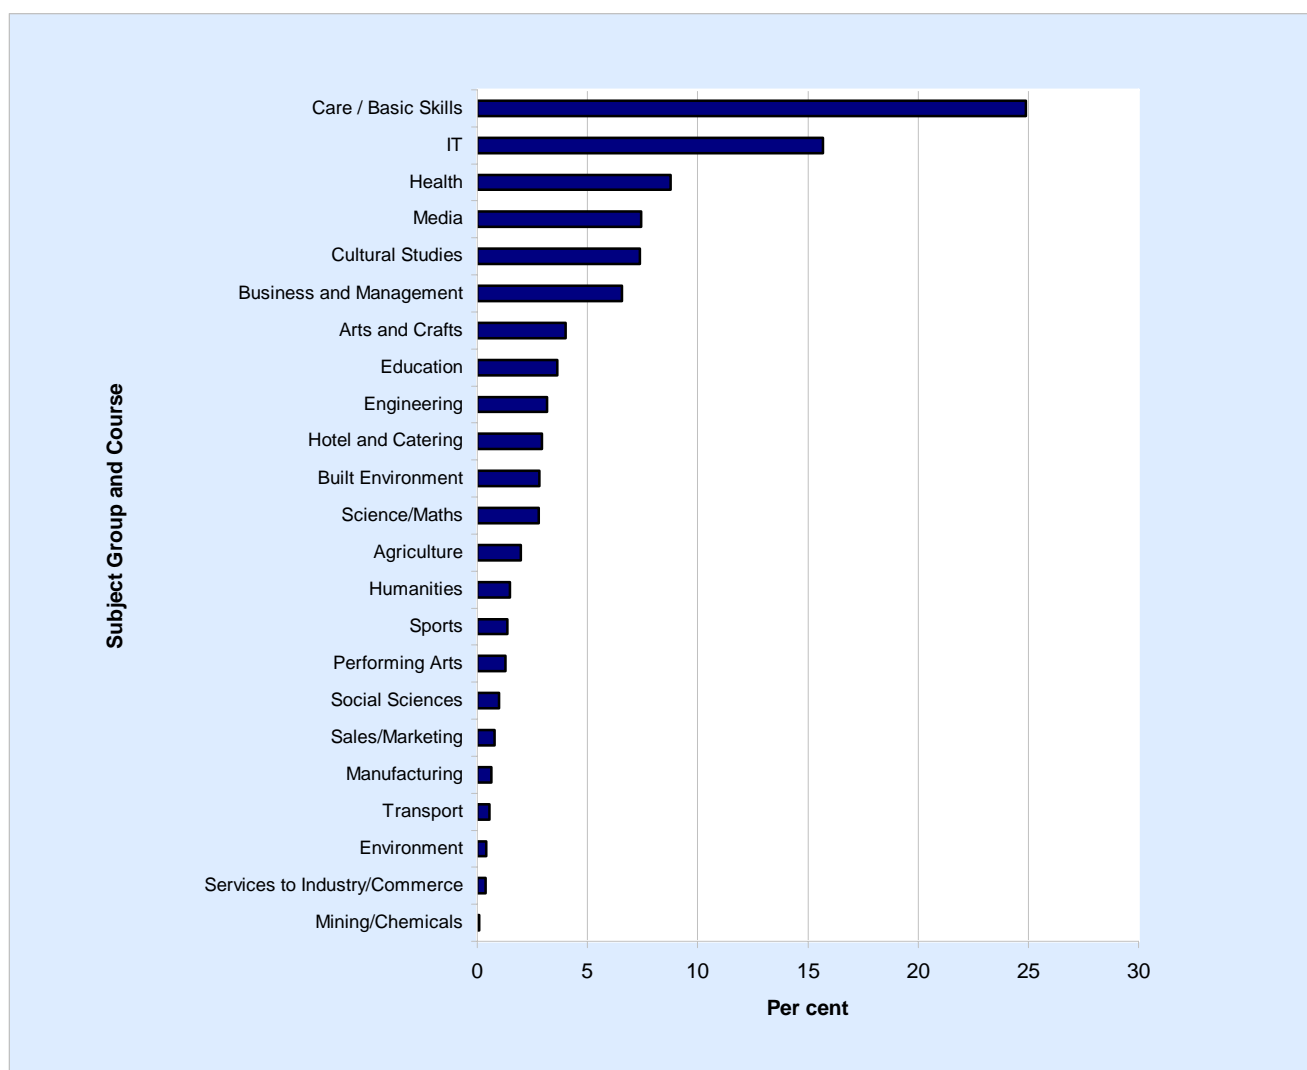

There was some variation in qualification type by learner age group with Key Skills, A/AS levels and GCSEs more popular with learners aged 18 and under than with the older cohort of learners.

The most popular subjects being undertaken by learners at FE institutions were (with their proportion of the total excluding unspecified subjects):

- Care/Personal Development (including Basic Skills) (25 per cent)
- Information Technology (16 per cent)
- Health/Care/Medicine/Health & Safety (9 per cent)
- Media/Communication/Publishing (7 per cent)
- Cultural Studies/Languages/Literature (7 per cent)

16,385 learners at FE and HE institutions undertook 21,875 Welsh for Adult course enrolments in 2007/08.

Figure F2: Subject of Study 2007/08

Completion Rates and Attainment Rates [Tables F4.2b and F4.2c]

Of the learning activities which ended in 2007/08 (i.e. those which were either completed or withdrawn from but which were not continuing at the end of the year) 88 per cent were completed. This indicates that the courses were completed, not that there were necessarily attained qualifications. Of those completed learning activities which included assessable awards, 76 per cent were successfully attained. Tables F4.2b and F4.2c split these figures by sector subject area (see also F4.2a).

Awards [Tables F4.6a and F4.2b]

360,150 individual awards were successfully attained by 147,915 learners in 2007/08. Tables 4.6a and 4.6b provide a breakdown by qualification type and learner age band.

Trends in Learning

Table F2.1 and Figure F3 on trends in learner numbers continue a series originally published by the Welsh Office, then the Welsh Funding Councils, ELWa and now the Welsh Assembly Government. From 2003/04 onwards, the source has been the Welsh Assembly Government's Lifelong Learning Wales Record (LLWR). In contrast to the population definition usually used in this publication, the count is of all FE (and WBL at FEI) students, including those at higher education institutions. The count is taken as at the week of 1 December and, for 2007/08, can be derived from the December counts of Table F1.5.

It should also be noted that when comparing more recent learner numbers with those of the years prior to 2003/04, provider-learner counts must be used because unique learner identifiers were not available in the pre-LLWR years.

Some care should be taken when comparing full-time and 'other' mode of learning figures for 2003/04 to 2007/08 with those of previous years as the learner mode definition changed with the advent of the LLWR data collection system. However, across the FE sector as a whole, the number of full-time and 'other' learners remained fairly stable over the transition years 2002/03 to 2003/04.

Between December 2002 and December 2007 there was a decrease in the total FE learner numbers at FE and HE institutions of 1.6 per cent. Previous volumes have noted the substantial growth in FE learner numbers between 1992/93 and 2002/03 which was primarily attributable to an increase in part-time learners. This pattern has subsequently changed and there was a decline in part-time learner numbers of 4.0 per cent between December 2002 and December 2007 but an increase in full-time FE learner numbers of 6.5 per cent over the same period.

- (a) Individual row counts are based on providers' own learner identifiers and their total includes some multiple-counting between providers.
- (b) The total unique learners row removes multiple-counting between providers by counting unique learner identifiers (ULIs).
- (c) 'Enrolled 1 Dec' is the population during the week of 1 December 2007; 'All' refers to the complete academic year.
- (d) Includes full-time, part-time and work-based learners.
- (e) A learner pursuing any WBL programme is designated as work-based learning.
- (f) Includes WBL subsidiaries of FE institutions.
- (g) A learner pursuing an HE learning programme but not also pursuing a WBL programme is designated as HE.
- (h) For the purpose of this table, HE refers only to programmes designated as higher education in their entirety.
- (i) Higher education excludes learners enrolled at HE institutions and franchised in to FE institutions.
- (j) Includes LEA community learning where there is a formal enrolment with an FE institution.
- (k) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

- (a) Counts are based on providers' own learner identifiers and therefore include some multiple-counting between providers.
- (b) 'Enrolled 1 Dec' is the population during the week of 1 December 2007; 'All' refers to the complete academic year.
- (c) Includes full-time, part-time and work-based learners.
- (d) Includes WBL subsidiaries of FE institutions.
- (e) In contrast to table F1.1, this table allocates learners to the HE columns if any of their learning activities is at HE level.
- (f) The allocation to FE level or HE level columns is made independently of the FE, HE or WBL overarching programme.
- (g) Includes LEA community learning where there is a formal enrolment with an FE institution.
- (h) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

- (a) FTE=Full Time Equivalent.
- (b) The student load methodology has been designed purely for the purpose of this volume and may not have wider applicability.
- (c) Merthyr Tydfil College is included in years up to and including 2005/06. However, following its merger into the University of Glamorgan in 2006, it is excluded from the figures for 2006/07 onwards.
- (d) Each learner's student load has been derived by dividing his or her guided contact hours for the year by the mean for a full-time learner, with the result capped to 1 FTE at most.
- (e) The calculation includes full-time and part-time learners at FEIs but excludes WBL learners.
- (f) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

- (f) This table excludes learning programmes designated as higher education in their entirety.
- (g) Includes LEA community learning where there is a formal enrolment with an FE institution.
- (h) Where an HE institution delivers Welsh for Adults (WfA) provision but no other FE learning, its figures are included under the learner count of the HEI-based WfA Centre reporting the statistics. North East Wales Institute of Higher Education and Trinity College Carmarthen therefore do not appear as separate rows in this table.
- (i) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

2007/08 HESA Student Record (f)

- (a) The Welsh for Adults Centres comprise five HE institution and one FE institution (Coleg Gwent).
- (b) The learner count for Coleg Gwent is based on unique learner identifiers and its enrolment count is of learning activities.
- (c) The type of learning programme (LP17) is used to separate Welsh for Adults programmes from othe Coleg Gwent data.
- (d) Learners and enrolments at the remaining five centres are derived from the HESA Student Record using the standard registration population.
- (e) Students on Welsh for Adults courses are included regardless of the age of the learner.
- (f) Excludes enrolments at the University of Wales Lampeter - no longer submitted to HESA.
- (g) The same learner may be enrolled on more than one course enrolment / learning activity.
- (h) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

- (a) Includes further education and higher education institutions in Wales.
- (b) Merthyr Tydfil College is included in all years (as part of FE at FEIs up to 2005/06 and as part of FE at HEIs from 2006/07).
- (c) Restricted to FE learners enrolled in early December of academic year. Includes learners enrolled at FE institutions who are on work-based learning programmes but excludes those on HE programmes.
- (d) Counts are based on providers' own learner identifiers and therefore include some multiple-counting between providers.
- (e) 'All Ages' totals and the 19 & over row include instances of unknown age.
- (f) Age is as at 31 August of academic year.
- (h) Includes LEA community learning where there is a formal enrolment with an FE institution.
- (i) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

- (a) Includes further education institutions in Wales, across full academic year (1 August to 31 July).
- (b) Merthyr Tydfil College is included in years up to and including 2005/06. However, following its merger into the University of Glamorgan in 2006, it is excluded from the figures for 2006/07 onwards.
- (c) Includes learners enrolled at FE institutions who are on work-based learning programmes but excludes those on HE programmes.
- (d) Counts in the six year block are based on providers' own learner identifiers and therefore include some multiple-counting between providers.
- (e) Counts in the four year unique learner numbers block are based on Unique Learner Identifiers to remove multiple-counting between providers.
- (f) 'All Ages' totals and the 19 & over row include instances of unknown age.
- (g) Age is as at 31 August of academic year.
- (h) Includes LEA community learning where there is a formal enrolment with an FE institution.
- (i) The figures from 2003/04 are not precisely comparable with those prior to 2003/04 as the ISR years used a slightly reduced standard population at the start of the academic year.
- (j) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

SECTION B LOCAL AUTHORITY COMMUNITY LEARNING IN WALES

Local Authority Community Learning Summary

- 44,660 learners undertook a Local Authority Community Learning activity in 2007/08;
- 32,490 learners were in-learning during the week of 1 December 2007;
- 9 per cent of learners in the full year were under the age of 25;
- 58 per cent of learners were aged between 25 and 59;
- 32 per cent of learners in 2007/08 as a whole (35 per cent as at December 2007) were aged 60 and over;
- 73 per cent of learners were female;
- 75,610 learning activities were undertaken in 2007/08;
- The most popular subject areas for learning activities were Cultural Studies/Languages/Literature (22 per cent), Arts and Crafts (19 per cent), Information Technology (19 per cent) and Care/Personal Development [including Basic Skills](18 per cent).

Note : all percentages are as a proportion of the total for which data were available

Learners

Sixteen of the twenty-two Local Education Authorities (LEAs) or equivalent departments at local authorities in Wales, directly or indirectly (excluding 'assisted' provision not returned via the LLWR), delivered community learning in 2007/08 within their authority. In total 44,660 learners were undertaking a local authority community learning programme. Some learners undertook community learning with more than one provider resulting in a total of 47,190 provider learner enrolments.

In 2007/08 there were three main ways that a learner could be engaged in a local authority community learning programme. They could have been:

- receiving community learning by local authority employed staff and enrolled at the LEA (maintained provision);
- receiving community learning by local authority employed staff but enrolled for the learning at an FE institution (contracted-in from FE institutions provision);
- receiving community learning by a third party but enrolled for the learning at the local authority (contracted-out from LEA provision).

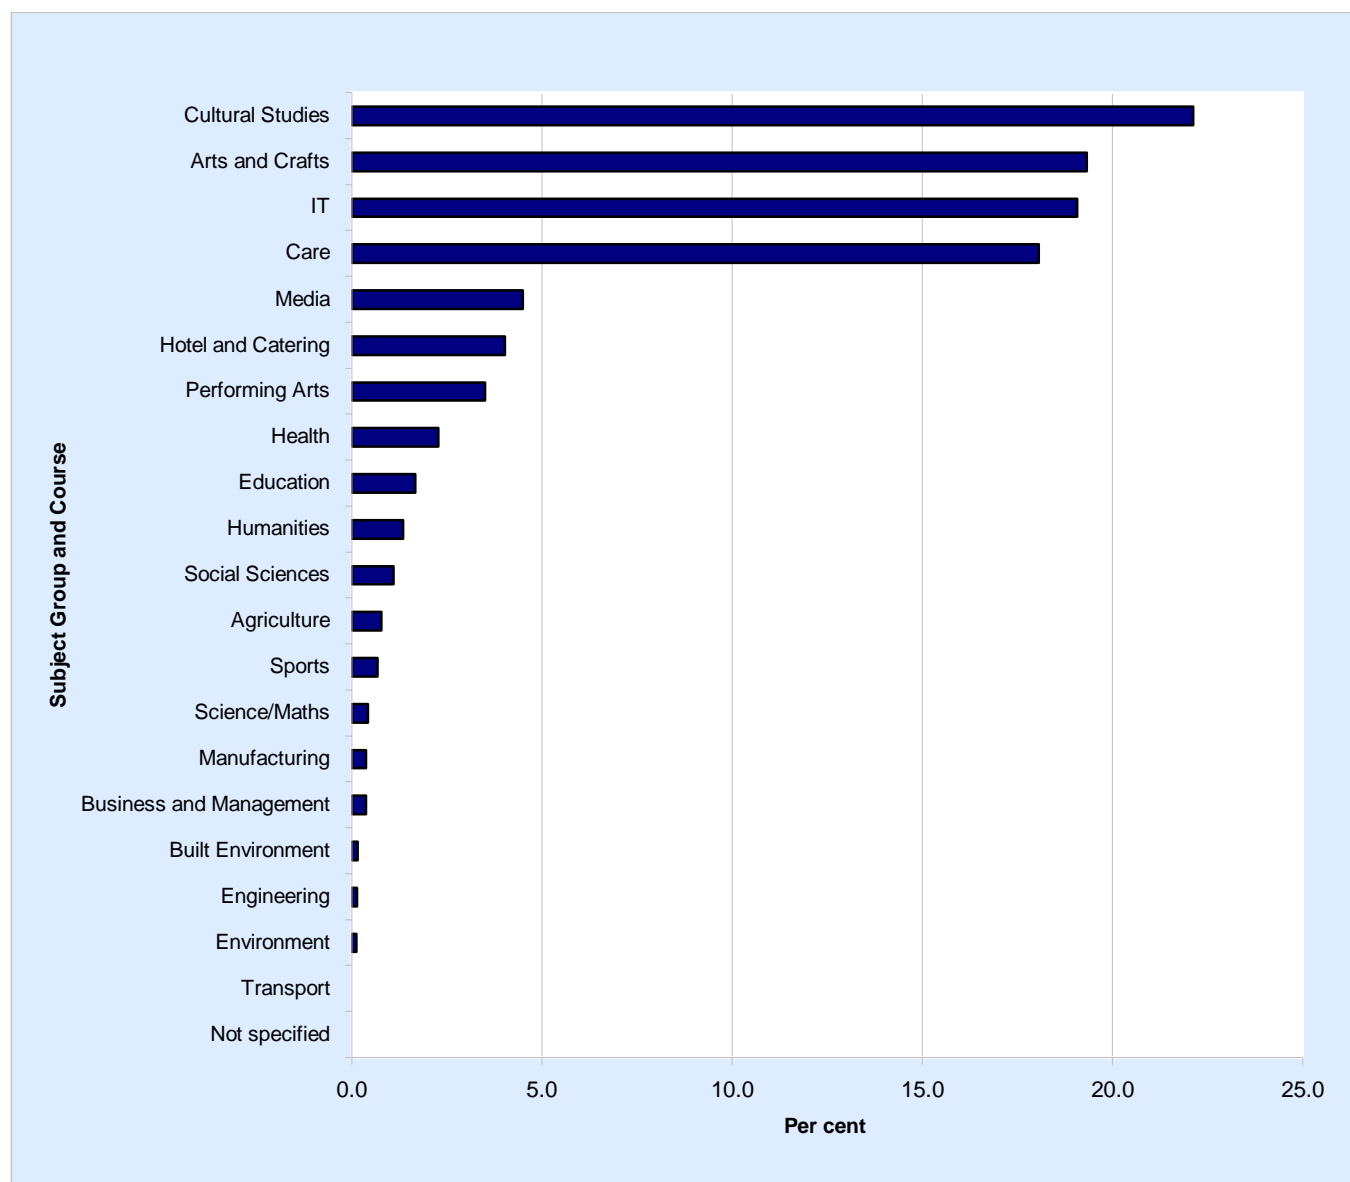

Only two local authorities contracted out community learning provision to a third party organisation, accounting for 2.5 per cent of the total number of community learning learners; another 45 per cent of learners were undertaking maintained provision and the remaining 53 per cent of learners were undertaking provision contracted-in from FE institutions.

Learning Activities

The 51,725 learners were undertaking 86,155 learning activities during 2007/08. These learning activities were in a number of different subject areas, with the largest numbers in:

- Cultural Studies/Languages/Literature (22 per cent)
- Arts & Crafts (19 per cent)
- Information Technology (19 per cent)
- Care/Personal Development (including Basic Skills) (18 per cent)

Trends in Learning

The first edition of this volume, produced by ELWa, covering 2003/04 recorded the number of learners in learning on the week of 1 December 2003 who were undertaking LEA Community Learning maintained provision to be 16,130 and the number undertaking contracted-in provision to be 25,830. The learner numbers in this edition, for the week of 1 December 2007, show a 9.6 per cent decline in learners on maintained provision since 2003/04 and a 30 per cent decrease in learners on contracted-in provision. However, most of the decrease in contracted-in provision took place between 2006/07 and 2007/08 and largely results from the transfer of Welsh for Adults learners to HEI-based centres.

- (a) Individual row counts are based on providers' own learner identifiers and their total includes some multiple-counting between providers.
- (b) The total unique learners row removes multiple-counting between providers by counting unique learner identifiers (ULIs).
- (c) 'Enrolled 1 Dec' is the population during the week of 1 December 2007; 'All' refers to the complete academic year.
- (d) Contracted-in learning also contributes towards figures in the FE institution tables, in particular the third party column of Table F1.5.
- (e) Excludes 'assisted' provision (e.g. a significant component of North Wales provision) not present on the LLWR.
- (f) Numbers greater than 0 and less than 5 have been replaced by *. Other figures are rounded to the nearest 5 and there may be slight discrepancies between the sums of constituent items and the independently rounded totals.

SECTION C

WORK-BASED LEARNING IN WALES

Work-based Learning Summary

- 58,600 learners undertook a WBL programme in 2007/08;
- Around 34,770 work-based learning programmes were pursued by 34,340 distinct learners as at the end of March 2008
- There was an 8 per cent increase in the number of distinct learners on WBL programmes between March 2004 and March 2008.
- 50 per cent of learners were under the age of 25 (compared with 52 per cent in 2006/07, 54 per cent in 2005/06 and 66 per cent in 2004/05) ; 26 percent under the age of 19
- 47 per cent (a declining proportion) of learners were male
- 2.7 per cent of learners were of a non-white ethnic origin
- 4.1 per cent of learners had a disability
- 74 per cent of learners were on a Modern Apprenticeship or Foundation Modern Apprenticeship programme
- 73 per cent of the learning activities taken were at a notional level of NVQ level 1 or 2; 10 per cent were at pre-entry level or entry level, 15 per cent were at level 3 and 2 per cent were at level 4 or above.
- 63 per cent of learning programmes finished were followed by (current or new) employment, with 68 per cent of learners leaving with employment as their destination.
- The most popular sector frameworks for MAs, FMAs and MSDs overall were Health and Social Care (17 per cent), Customer Service (9 per cent) and Management (9 per cent). The Management sector framework accounted for almost half (47.5 per cent) of Modern Skills Diploma learning programmes pursued in 2007/08.
- Around 213,600 learning activities were undertaken through work-based in 2007/08

Note : all percentages are as a proportion of the total for which data were available

Learners

The LLWR was introduced for work-based learning in 2004/05 and replaced the National Trainee Database (NTD). 58,600 learners undertook a work-based learning programme in 2007/08. Some learners undertook more than one training episode during the year resulting in a total of 63,675 individual learning programmes.

Programmes

In 2007/08 there were five main training programme types plus an 'other' category which included programmes such as bespoke programmes. The learning programme enrolments in each category comprised:

- Foundation Modern Apprenticeships (43 per cent)
- Modern Apprenticeships (29 per cent)
- Modern Skills Diploma (4 per cent)
- Pre-apprenticeship Learning (0.2 per cent)
- Skill Build (20 per cent)
- Other (3.8 per cent)

Overall 63,675 work-based learning programmes were taken by learners in 2007/08. Information on the sector framework of the trainees is available [Table T3.1] for Foundation Modern Apprenticeships, Modern Apprenticeships and Modern Skills Diplomas. 48,215 learning programmes were taken via these programmes with the largest numbers in:

- Health and Social Care (17 per cent)
- Customer Service (9 per cent)
- Management (9 per cent)
- Business Administration (7 per cent)

63 per cent of (known) learning programme destinations were 'employment', primarily current employment; 19 per cent were seeking work or unemployed; 14 per cent went on to further learning (including new programmes on LLWR in the same year). On a learner basis (taking only the final programme of the year) 68 per cent went into new or continued current employment, 19 per cent were seeking work or unemployed and 9 per cent went on to new learning [Tables T3.3 a/b].

Learning activities

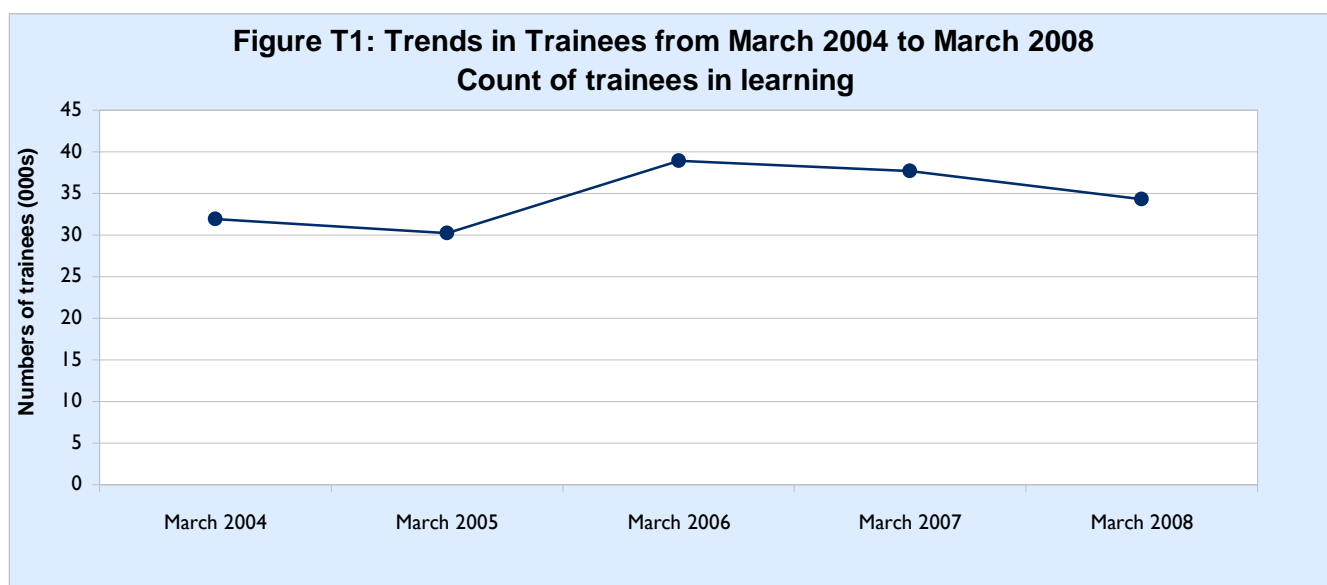

Overall 213,605 learning activities were followed by learners in work-based learning. The vast majority of these were at a level equivalent to NVQ level 1, 2 or 3 [Table T3.2].

The most popular subjects being undertaken by learners in work-based learning were:

- Care/Personal Development (including Basic Skills) (34 per cent)
- Media/Communication/Publishing (14 per cent)
- Business/Management (10 per cent)
- Health/Care/Medicine/Health & Safety (10 per cent)

Trends in work-based learning

The trend information in Table T2.1 on learner numbers continues a series published by the Welsh Assembly Government. From 2004/05, the source is the LLWR (Lifelong Learning Wales Record) which has replaced ELWa's National Trainee Database (NTD). Whereas most counts in this publication are for the full year, the count in the time series is of those in training at the end of March (and July) each year.

Within year figures at a variety of dates in 2007/08 are illustrated in Table T2.2 which also compares counts of learning programmes with those of unique learners by programme type.

APPENDICES

APPENDIX A : DATA SOURCES & DEFINITIONS

A1 DATA SOURCES

All data in Sections A and B, relating to Further Education institutions and Local Authority Community Learning, are sourced from the Lifelong Learning Wales Record (LLWR). The LLWR was introduced in the 2003/04 academic year as the new data collection system for Further Education (FE) and Local Authority Community Learning. It replaced the FE Individualised Student Record (ISR) and the LEA Adult Community Learning December census data collection.

All Work-based Learning (WBL) data in Section C are sourced from the Lifelong Learning Wales Record (LLWR). The LLWR was introduced for WBL in 2004/05 as the new data collection system to replace the National Trainee Database (NTD). The LLWR data collection system provides the evidence for WBL payments from 2004/05 onwards.

There is some overlap between the WBL and the FE data due to some FE institutions delivering WBL provision. For this reason figures from Section C of this publication should not be aggregated with those from Section A and B. Furthermore, although tables F1.1, F1.3c and F3.1 to F3.3 disaggregate those learners on WBL programmes at FE institutions it should be noted that these learners will not necessarily have been funded through the WBL payment system.

Further Education provision at Higher Education institutions has been included in tables F1.5, F1.7 and F2.1 using the 2007/08 HESA Student Record.

All data in this publication are consistent with the 2007/08 data previously published in the National Statistics First Release 'Further Education, Work-based Learning and Community Learning in Wales, 2007/08' (SDR68/2008).

A2 ROUNDING

All data in this publication have been rounded to the nearest 5. This convention may lead to some small discrepancies between an independently rounded total and its constituent parts. Where an asterisk (*) is shown it represents a number which is greater than 0 and less than 5.

A3 SECTIONS A, B & C : FURTHER EDUCATION, COMMUNITY LEARNING and WBL

A3.1 DATA COVERAGE FOR FE and CL

Section A details the learning delivered by the further education sector in Wales. The further education sector comprises a range of institutions providing part-time and full-time education. In 2007/08, 20 of these institutions were colleges of further education (including two land-based colleges) or tertiary colleges providing the greater part of post-16 education for their area. This number excluded Merthyr Tydfil College which merged into the University of Glamorgan in 2006 and (apart from its work-based learning provision) is included under the figures for FE at Higher Education institutions and excluded from the figures for Further Education institutions. The sector also included a denominational sixth form college, an adult residential college, two districts of the Workers' Educational Association (WEA), one of which (WEA-North) merged with Coleg Harlech in 2001/02, and adult education provision by the Young Men's Christian Association (YMCA).

Community Learning is a broad term that can encompass a wide range of provision. For instance it could include Adult Basic Education (ABE) and English for Speakers of Other Languages (ESOL) provision or learning delivered at outreach centres of FE institutions. However, Section B details only that Community Learning provision which is delivered by Local Authorities. To make the distinction

clear the term Local Authority Community Learning is used throughout this publication. In 2007/08, sixteen of the twenty-two Local Authorities in Wales delivered Community Learning either directly or in collaboration with FE institutions.

The majority of tables in Sections A and B are based on all learning undertaken within the 2007/08 academic year (1 August 2007 to 31 July 2007). In addition, certain tables (or parts of tables) include counts based on a census date of the week of 1 December 2007.

A3.2 DATA COVERAGE FOR WBL

Section C details the learning delivered by the work-based learning (WBL) sector in Wales. The time period (2007/08) on which training tables are based runs from 1 August 2007 to 31 July 2008, (as in Sections A and B). This population differs from the funding year approach adopted for WBL data in 'Higher Education, Further Education and Training Statistics in Wales' publications up to and including that for the 2002-03 funding year (i.e. April 2002 to March 2003). In addition, certain tables (or parts of tables) include counts based on a specific date or range of dates: the week of 1 December 2007 and the days 31 March 2008 and 31 July 2008.

The connection with individual trainees is through training providers. In some cases the training provider provides the learning experiences directly. In other cases, the training may be performed mainly by an employer with the learning overseen and assessed by the training provider.

A3.3 DATA COUNTS

The LLWR from which the data in all sections have been derived has datasets based on learners, their learning programmes, their constituent learning activities and an award dataset registering achievements.

Five different counts are used in the Tables:

- **Unique Learners**, based on the unique learner identifier (ULI) and counting any learner once only regardless of how many learning programmes they were pursuing with different learning providers;
- **Non-Unique Learners ('provider learners')**, based on the learning providers' own learner identifier and so leading to multiple counting of learners between providers; This count is used just for FE and CL.
- **Learning Programmes**, based on the number of learning programmes taken by the learner. This count is primarily used for Work-based learning.
- **Learning Activities**, based on the number of recorded enrolments on learning activities (i.e. learning aims) by learners.
- **Awards**, giving qualification achievements attained.

FE statistics published by ELWa and the National Assembly for learning prior to 2003/04 identified learners according to the learning providers' own learner identifier, as there was no ULI on the ISR. Therefore, when comparing 2003/04 to 2007/08 learner numbers with learner numbers from previous years the 'non-unique learner' count should be used.

Tables T1.1, T1.2, T1.4 and T1.5 are based on the total number of WBL learners receiving training at any time during 2007/08. Tables T1.3 and T3.1 are based on the number of learning programmes taken by learners. Table T3.2 details the number of learning activities by subject in 2007/08. Table T3.3a details the number of leavers of learning programmes and their destination and table T3.3b covers destinations by learner count.

A3.4 PROVISION TYPE DEFINITIONS (FE and Local Authority CL)

Learners at FE institutions are recorded as being engaged in FE, HE or WBL provision.

WBL : Learners on WBL programmes (in Tables F1.1 and F3.2) are defined as those learners at FE institutions who are enrolled on designated WBL programmes (e.g. modern apprenticeships, skills learning). All learners on WBL programmes have their mode of learning defined as being work-based learning (see A3.6). Note that this definition of WBL is different to that used for funding purposes. See A1 for more information about the differences between WBL data reported on in Section A and that reported on in Section C.

HE : Higher Education (HE) level learners are defined in the tables in two distinct ways. Tables F1.1 and F3.2, provide information on the number of learners undertaking designated HE programmes (e.g. HE degree, Foundation degree). A higher number of HE learners is recorded in Tables F1.2 and F1.3 based on recording a learner as studying at HE level if any one of their learning activities is at HE level (above NVQ level 3).

FE : Learners on FE programmes (in Tables F1.1 and F3.2) are defined as those learners at FE institutions who are not enrolled on designated WBL or HE programmes.

Learners engaged in local authority community learning can be enrolled (see Table L1.1) under maintained, contracted-out or contracted-in provision:

Maintained: Learners in maintained local authority provision are defined as those learners who the local authority delivers learning to and who are enrolled with the local authority.

Contracted-out: Learners in contracted-out local authority provision are defined as those learners who receive learning from a third party but who are enrolled with the local authority for that learning.

Contracted-in: Learners in contracted-in local authority provision are defined as those learners to whom the local authority delivers learning but who are enrolled with an FE Institution for that learning.

Note that the contracted-in provision is included both in tables in Section B (as it is delivered by a local authority) and in table in Section A (as the enrolment for the learning is with a FE institution).

A3.5 PROVISION TYPE DEFINITIONS FOR WBL

Tables T1.1, T1.2, T1.3 and T2.1 give information by programme type. Note that the categories are based on current programmes and certain former programmes continuing into 2007/08 have been re-categorised.

The programmes available were:

- Foundation Modern Apprenticeship;
- Modern Apprenticeship;
- Modern Skills Diploma;
- Pre-apprenticeship learning;
- Skill Build;
- Other programme: (Includes bespoke programmes delivered by selected providers.) This category includes all other WBL programmes delivered by FE institutions and all programmes not included above delivered by other training providers.

A3.6 MODE OF LEARNING DEFINITIONS

The mode of learning for a learner (i.e. full-time learner, part-time learner and work-based learner) has been derived using the guided contact hours. Guided contact hours are the number of teaching/instructional hours delivered by the provider to the learner. A full-time learner is one whose total guided contact hours across all their learning activities amounts to at least 450 hours; a part-time learner is one whose total guided contact hours amounts to less than 450 hours. As work-based learning cannot be classified using guided contact hours, as significant amounts of learning are undertaken at the workplace, a distinct work-based learning mode has been assigned to learners on WBL programmes.

FE statistics published by ELWa and the National Assembly for learning prior to 2003/04 used a different definition of mode (based on what was recorded by learning providers on the ISR). Therefore, 2004/05 mode of learning statistics are not directly comparable with data from previous years.

A3.7 DOMICILE / DEPRIVATION DEFINITIONS

The country of domicile information presented in Table F3.3 is based on information recorded directly on the LLWR. By contrast, the unitary authority of domicile (in Tables F3.4a and F3.4b) and deprivation areas (in Table F3.8) have been calculated from the home postcode recorded on the LLWR. Inconsistencies between the recorded country of domicile and home postcode account for the differences between these tables.

The areas of Wales considered to be deprived in Table F3.8 are the 100 most deprived wards in Wales according to the Welsh Index of Multiple Deprivation 2000. These 100 wards form the basis of the Welsh Assembly designated Community First areas. Other defined Community First areas which lie outside these 100 wards are not included in the deprivation area definition for Table F3.8. The methodology employed is that used for the 2006/07 volume and may differ slightly from other outputs.

A3.8 SUBJECT AND SECTOR SUBJECT DEFINITIONS

All subject of study area groupings are based on the LearnDirect Classification System (LDCS) which assigns a subject code to each qualification. The subject of study area groupings in Tables F4.1a/b, F4.3 and F4.4 are derived from the first letter of the LDCS code for the qualification being undertaken. The subject of study area groupings in Table F4.2a/b/c are the 15 first-tier sector subject areas in QCA's Sector Subject framework (www.qca.org.uk/qca_8488.aspx). These sector subject areas are derived from the LDCS code for the qualification being undertaken. Some modification has been made to the QCA sector subject area boundaries, as reported in Tables F4.2a/b/c, so as to be consistent with designations used in Estyn inspection statistics.

A3.9 QUALIFICATION LEVEL / TYPE DEFINITIONS

The qualification type and level (Tables F4.5 & F4.3 respectively) are allocated to learning activities using information recorded either on the Welsh Learning Aims database or directly on the LLWR. The 'not known / not applicable' credit level category is assigned where there was insufficient information to assign a qualification level to the learning activity. The 'other' qualification type category mainly consists of all qualification types not specifically listed (e.g. City & Guild certificates, ECDL, CLAIT), it may however also include some cases of the listed qualifications where there was insufficient information to assign them to the appropriate category.

A3.10 AGE

Where age groups are identified, the age is that at 31 August 2007. Learners whose date of birth is not recorded in the LLWR are dealt with in one of two ways. In tables with detailed age groupings the learner age is given as 'not specified'; where the table uses less detailed age groupings the learner is assumed to be aged 25 years or over and appropriately categorised.

A3.11 WBL SECTOR FRAMEWORKS

The sector groupings in table T3.1 reflect the type of work and training being undertaken by the learner and are directly related to the qualification being studied for. The most frequently occurring sector codes have been identified separately with the less common codes being identified as 'other'.
