Table 7: Annualised servicing costs of long-term borrowing

Institution:

UKPRN:

If a nil return then please choose "nil return" from the drop down menu:

Please review the long-term borrowing information returned to HEFCE in December 2010 and update to provide information on the ASC of all long-term borrowings in place as at 31 July 2011. In particular please review and update the Capital sum owed (column E), the Interest rate (column K) and the Annualised servicing costs (column N).

The data returned in this table is used to review compliance with the Financial Memorandum in relation to the level of annualised servicing costs (ASC) of long-term financial commitments. We also use these data to review and update the borrowing consent limits and to understand the borrowing behaviour in the sector. Guidance on calculating the ASC of long-term borrowing is provided in Annex F of the Financial Memorandum (HEFCE 2010/19).

Where any information on an existing loan is incorrect please ovewrite the existing data and then choose a reason for changing the data from the drop-down menu in column O. Any changes to the pre-filled data will be highlighted as red text; this is to aid HEFCE's use of the data.

If a loan has terminated, please delete the data in columns B to N and choose "Repaid" or "Expired" in column O.

If you have taken out a new loan please enter the information about this loan on a new row and choose "New Loan" in column O. New loans will be highlighted as red text; this is to aid HEFCE's use of the data.

Please review the validation checks for Table 7 on the "Validation" worksheet.
