Introduction

This statistical publication provides details of the quality of childcare in England. It presents the most recent inspection grade of active childcare provisions as at 31 December 2007. Childcare provisions include all provisions which offer care for children under the age of 8 for a specified duration and are thus inspected under the Childrens Act.

Content

Figures are presented for each national childcare type and are given at England, government office region and local authority level. Where the number of inspections is small care should be taken when interpreting the data as it may be that any apparent differences between local authority and England figures are not statistically significant. Please note that the percentages may not sum to 100% due to rounding.

Source

All data has been extracted from the Regulatory Support Application as at 02 January 2008.

Further information

The content of this publication has been limited to data that is considered robust and of general public interest. However, a variety of other data are held as part of our early years regulatory and inspection function. These include data relating to: outcomes of childcare applications; time taken to registration decisions; actions and conditions imposed at registration and inspection; Childcare and Nursery Education inspections against each of the five children outcomes. While these, and other, data have not been presented in this publication, much of this is available in the accompanying Local Authority Early Years Profiles which can be viewed on Ofsted's website - www.ofsted.gov.uk. If further data is required we will consider each request for additional information on an individual basis and will consider updates to the content of future publications every six months. We do, however, reserve the right to cost and charge for additional analyses that we cannot meet with available resource.
