Statistical Bulletin<br>Number 04/2000

## GCSE/GNVQ and GCE A/AS Level and Advanced GNVQ Examination Results 1998/99 - England

# GCSE/GNVQ AND GCE A/AS LEVEL \& ADVANCED GNVQ EXAMINATION RESULTS 1998/99 ENGLAND 

## Introduction

1 A database of GCSE/GNVQ and GCE A/AS level \& Advanced GNVQ examination results for each candidate has been assembled for the publication of secondary school and college performance tables for England in November 1999. This bulletin presents further analyses of this database. Full details of the sources and definitions of the data in this bulletin are given at the end of the text. The convention of referring to ages at the beginning of the academic year has been used to be consistent with the performance tables themselves. The results shown in this bulletin take account of any amendments notified by secondary schools and colleges and agreed since publication of the performance tables and the Statistical First Release (SFR35/1999) in November 1999. Final 1998/99 figures for each Local Education Authority are included in this bulletin updating the data published in November 1999.

## Key Points

2 The tables show that:
I. The percentage of 15 year old girls in schools with 5 or more GCSEs at grades $\mathrm{A}^{*}-\mathrm{C}$ or the GNVQ equivalent has increased from 51.5 per cent in 1997/98 to 53.4 per cent in 1998/99. Achievements of girls remained well above those of boys, whose percentages with 5 or more grades A*-C or the GNVQ equivalent increased from 41.3 per cent in 1997/98 to 42.8 per cent in 1998/99. (Table 1)
II. 88.5 per cent of 15 year old pupils gained at least five GCSEs at grades A*-G or the GNVQ equivalent in 1998/99, 90.6 per cent of girls and 86.5 per cent of boys. (Table 1)
III. 94.0 per cent of 15 year old pupils gained at least one GCSE at grades A*-G or the GNVQ equivalent in 1998/99, 95.0 per cent of girls and 93.0 per cent of boys. (Table 1)

IV $\quad 95.0$ per cent of 15 year old pupils in schools were entered for one or more GCSEs or the GNVQ equivalent in 1998/99 and 90.4 per cent were entered for five or more. On average, fifteen year old pupils attempted 8 or 9 GCSEs. (Tables 1 and 6)
V. More than 34 per cent of the 17 year old population achieved 2 or more GCE
A/AS/Advanced GNVQ passes in 1998/99, 37.9 per cent of women and 30.9 per cent of men. (Table 18)
VI. GCE A level pass rates (i.e. achievement at grades A-E) in school sixth forms were slightly higher than in sixth form colleges, 90.8 per cent and 88.9 per cent respectively. Pass rates at other Further Education sector colleges were 79.4 per cent for students aged 18 or below and 69.9 per cent for students aged 19 or above. The pass rate for all establishments was 88.9 (excluding candidates aged 19 or over in Further Education sector colleges). (Table 10)
VII. The average number of GCE A/AS/Advanced GNVQ passes per 17 year old candidate was 2.7 in comprehensive schools and 2.9 in sixth form colleges, compared with 2.0 in other Further Education sector colleges. When all establishments were looked at as a whole, the average number of passes was 2.8. (Table 11)
VIII. Overall 15.8 per cent of 17 year old male candidates achieved a score of at least 30 compared with 14.4 per cent of female candidates. However, women in modern schools, independent schools and sixth form colleges outperformed their male counterparts in this 30 plus category. (Table 12)

## GCSE/GNVQ attempts and achievements by 15 year old pupils

3 Some 42.8 per cent of boys aged 15 in all schools (including special schools), had achieved 5 or more higher grades at GCSE or the GNVQ equivalent by 1998/99 compared with 53.4 per cent for girls. The increase in percentage points over 1997/98 was higher for girls (1.9) than for boys (1.5). Maintained selective schools had the highest percentage of pupils aged 15 gaining 5 or more grades $\mathrm{A}^{*}$-C by 1998/99, with 96.4 per cent achieving this level, compared with 80.9 per cent in independent schools, 45.0 per cent in comprehensive schools and 32.8 per cent in modern schools. (Table 1)

4 Chart 1 shows how the distribution of all schools (excluding special schools and schools with less than 20 pupils aged 15) by the percentage of 15 year old pupils achieving 5 or more GCSE grades $\mathrm{A}^{*}-\mathrm{C}$ or the GNVQ equivalent, has changed between 1997 and 1999. The chart shows that the number of schools with 50 per cent or more pupils achieving 5 or more GCSE grades A*-C has tended to increase over the years while those with pupils achieving less has tended to decrease. There has been a large reduction in the number of schools with 10-29 per cent of 15 year old pupils achieving 5 or more GCSE grades A*-C or the GNVQ equivalent. There has been a counterbalancing increase in the number of schools with 60-79 per cent of 15 year old pupils achieving 5 or more GCSE grades $\mathrm{A}^{*}-\mathrm{C}$ or the GNVQ equivalent.

CHART I:
Number of schools (excluding special schools and schools with less than 20 pupils aged 15) analysed by percentage of 15 year old pupils achieving 5 or more GCSE grades $\mathrm{A}^{*}-\mathrm{C}$

5 The proportion of pupils aged 15 gaining five or more grades $\mathrm{A}^{*}-\mathrm{C}$ or the GNVQ equivalent varied between LEAs and between regions. The average for the Inner London boroughs, at 35.0 per cent, was lower than non London metropolitan areas, which ranged from 37.7 per cent for South Yorkshire to 43.4 per cent for Greater Manchester. These were in turn lower than the shire counties which varied from 39.0 per cent in Durham to 62.6 per cent in Buckinghamshire. In each type of authority, girls achieved better results than boys. The Outer London authorities had lower GCSE/GNVQ achievements than the shire counties, but better than the non London metropolitan districts. The only LEA where the percentage of boys achieving five or more GCSE grades $\mathrm{A}^{*}-\mathrm{C}$, or the GNVQ equivalent, was higher was Kensington \& Chelsea. (Tables 2 and 3)

6 Table 3 shows for each LEA, the distribution of maintained schools (excluding special schools) by various ranges of the percentage of 15 year old pupils gaining 5 or more grades $\mathrm{A}^{*}-\mathrm{C}$ or the GNVQ equivalent. For example, in Knowsley (Merseyside) only 9 per cent of schools had 40 per cent or more 15 year old pupils gaining 5 or more grades A*-C, whereas in Shropshire (West Midlands Region) the proportion was 95 per cent. In England as a whole, the proportion of maintained schools with 40 per cent or more 15 year old pupils gaining 5 or more grades A*-C at GCSE or the GNVQ equivalent was 59 per cent, compared with 55 per cent in 1997/98 (Statistical Bulletin 8/99 published in May 1999). It should be noted, however, that the frequency of selective schools in an LEA will affect the numbers of schools where high proportions of pupils gain five or more A*-C grades. (Table 3)

7 There was a considerable difference in the standard of achievement of girls and boys in modern languages, with 47 per cent of girls aged 15 achieving a GCSE grade $\mathrm{A}^{*}-\mathrm{C}$ in a modern language, compared with 31 per cent of boys. A higher proportion of girls also achieved GCSE grades A*-C in English - 61 per cent compared with 45 per cent of boys. The proportion of boys achieving a grade $\mathrm{A}^{*}-\mathrm{C}$ in geography was 23 per cent compared with 21 per cent for girls. A higher proportion of boys also achieved GCSE grades $\mathrm{A}^{*}-\mathrm{C}$ in physics, chemistry, biology, information technology and physical education. (Table 5) The achievements by subject refer to full GCSE courses and take no account of the GCSE short courses.

8 Seventy six per cent of the 15 year olds in schools attempted the GCSE double science award - a much higher proportion than the single science award or the individual subjects of physics, chemistry or biology.
(Tables 4 and 5)
9 Eighty nine per cent of pupils aged 15 attempted a GCSE in English, mathematics and a science, and 36 per cent achieved a grade $A^{*}-\mathrm{C}$ in all three subjects. Very few pupils only attempt two of these three subjects with forty per cent achieving a grade $\mathrm{A}^{*}-\mathrm{C}$ in both English and mathematics and 39 per cent achieving a grade A*-C in both mathematics and science. The proportion of 15 year old pupils in schools achieving a grade A*-C in English, mathematics, a science and a modern foreign language was 34 per cent of girls and 24 per cent of boys. Chart 2 shows how the proportion of 15 year old boys and girls in schools achieving grades A*-C in these subject combinations has changed over the last 3 years. (Table 5)

CHART 2:
Percentage of 15 year old pupils in schools achieving GCSE grades A $^{*}$-C in each subject of selected combinations

## GCSE achievements by students aged 16+ in schools and colleges

10 Table 6 shows the numbers of GCSE candidates by age, and the proportions with different achievements at GCSE in schools and colleges. Just under 100,000 students aged 16 entered one or more GCSE examinations in the academic year 1998/99. Forty six per cent were in maintained schools and most of the remainder were in sixth form colleges and other Further Education sector colleges. There were also around 95,000 students aged 17 and over at all types of establishment that were entered for 1 or more GCSEs in 1998/99. Nearly 97 per cent of those attempting GCSE achieved at least one pass. (Table 6)

## Analysis of individual GCSE/GNVQ subjects by grades or types

11 For GCSE full courses, in the majority of subjects in 1998/99, the most common grade obtained by 15 year old candidates was grade C. In biology, chemistry and physics the most common grade was A (including $\mathrm{A}^{*}$ ) whereas in other science and physical education it was $D$. There were over 4,700,000 GCSE full course examination entries in 1998/99, of which 205.6 thousand resulted in the $\mathrm{A}^{*}$ grade. There has been a significant increase in the numbers of 15 year olds taking GCSE short courses, from under 19,000 in 1996/97 to nearly 237,000 in 1998/99. The most popular subjects taken as GCSE short courses were religious education, computer studies, design \& technology and French. The GNVQ results of 15 year old pupils in schools show that business and health \& social care were the most popular subjects at both GNVQ Part 1 and full GNVQ. (Table 7, 8 and 9).

12 Chart 3 shows the distribution of full GCSE grades obtained by 15 year old candidates by 1998/99 for English, mathematics, double award science and French. (Table 7).

## GCE A level and AS examination passes in 1998/99

13 The proportion of GCE A level candidates who achieved 2 or more passes in the academic year 1998/99 was higher at schools ( 82.4 per cent) and at sixth form colleges ( 77.2 per cent), than at other Further Education sector colleges ( 52.0 per cent of candidates aged 18 and under). This partly reflects the large numbers in Further Education who are aged 18 and who are retaking single subjects, and partly those in Further Education who are taking vocational qualifications in combination with one GCE A level, or who are taking the GCE A level on a part-time course. It may also be affected by the selection and examination entry policies of the institutions. (Table 10)
1478.1 per cent of 17 year old GCE A/AS level \& AGNVQ candidates at Further Education sector colleges had achieved two or more passes at GCE A/AS level \& AGNVQ by 1998/99, compared with 88.3 per cent of all schools, 85.5 per cent in comprehensive schools, 96.1 per cent in selective schools and 73.5 per cent in modern schools. (Table 11)

15 The average point score of 17 year old GCE A/AS \& Advanced GNVQ candidates in 1998/99 was 17.2, and was higher for women (17.4) than for men (17.0). More than 15 per cent of 17 year old candidates achieved a score of at least 30 points. This statistic varied considerably between different types of establishment, from 1.4 per cent of

CHART 3:
Distribution of GCSE grades in selected subjects - 1998/99

candidates in maintained modern schools, to 31.0 per cent in independent schools. The differences were due in part to the varying nature of what may be studied in schools and FE sector colleges and the qualifications of students on entry to colleges and schools, reflecting different policies on access to GCE A/AS level and Advanced GNVQ courses, and entry for examinations. (Table 12) The last point is explained in more detail in Statistical Bulletin 01/00, entitled ‘GCSE/GNVQ and GCE A/AS performance of candidates attempting two or more GCE A levels or AS equivalents - 1998/99'. This bulletin shows how the GCE A/AS results of 17 year old candidates compare with their GCSE/GNVQ results. An electronic version of this document is available on the DfEE's website; http://www.dfee.gov.uk/news/spn/spn.htm

16 Differences in A/AS/AGNVQ average point scores were also apparent between different Local Education Authority areas. The North West GOR had the highest average score of 18.2 and the North East had the lowest at 16.1, compared with 17.2 for England as a whole. (Table 13)

## Success rates in selected subjects at GCE A/AS level

17 Women of all ages entered for GCE A levels in mathematics, physics, and technology had higher success rates than men, although a much greater number of 17 year old men entered and passed these subjects. The opposite was true of history and French at GCE A level. Two of the most common subjects at GCE A level were English and mathematics, and women who entered them had a slightly higher pass rate than men. The proportions of the age group entering and passing English were much higher for women than men (15.6
per cent compared with 6.1 per cent), with the position reversed for mathematics ( 5.5 per cent compared with 8.8 per cent). (Tables 15 and 16)

## Analysis of individual GCE A/AS level achievements of 17 year olds analysed by subject and grades

18 There were nearly 603,000 GCE A level entries made by 17 year old candidates, of which over 110,000 resulted in A grades. English, mathematics, social studies and general studies were the most popular subjects at GCE A level. The most common grade achieved in mathematics was A with a considerable difference between the numbers achieving grades A and B. Biology, French and Economics had a fairly even distribution with nearly equal numbers gaining grades A, B, C and D. (Table 17)

19 Chart 4 shows the grade distribution for GCE A level chemistry, mathematics, geography, English and French for 17 year old candidates in 1998/99. (Table 17)

## Proportion of young people achieving a GCE A/AS/Advanced GNVQ pass in selected subjects.

20 Chart 5 shows how the proportion of young people passing GCE A/AS level in selected subjects (as a percentage of the 17 year old population) has changed from 1996/97 to 1998/99. The proportion of young people (aged 18 and under) passing GCE A/AS level in physics has risen slightly over the years from 1996/97 to 1998/99. The proportion passing English and mathematics has decreased whereas biology and

CHART 4:
Distribution of GCE A level grades in selected subjects - 1998/99

CHART 5:
Proportion of young people achieving a GCE A/AS/Advanced GNVQ pass in selected subjects - 1996/97 to 1998/99

chemistry have remained constant over the three year period. (Tables 15 and 16)

## Time series of GCE A/AS level \& Advanced GNVQ results of students aged 18 and under from 1996/97 to 1998/99

21 Table 18 shows the number of candidates aged 18 or under who achieved their GCE A/AS level (or AGNVQ equivalent) passes for the first time in each of the relevant years. In 1998/99, 210,400 young people in schools and Further Education sector colleges had achieved two or more GCE A/AS (or AGNVQ equivalent)
passes ( 34.3 per cent of the 17 year old population) compared with 212,200 ( 34.2 per cent) in 1997/98. In 1998/99, some 73,100 (11.9 per cent) achieved this level in Further Education sector colleges (Table 18) compared with 12.3 per cent in 1997/98.

## Advanced GNVQ achievements of candidates in 1998/99

22 Advanced level GNVQs continue to be popular along side the traditional GCE A levels. Besides the 267 thousand young people that attempted GCE A levels in 1998/99, there were nearly 23 thousand 17 year old
candidates who completed an Advanced GNVQ. Of these candidates 41 per cent achieved a merit pass, 25 per cent achieved a distinction and 20 per cent achieved a basic pass. The distribution of awards is similar to last year. A full Advanced GNVQ award is broadly equivalent to 2 GCE A level passes. The most popular subjects taken were Business studies, leisure \& tourism, health \& social care, Art \& Design and Information Technology. (Table 17A)

## National Learning Targets

23 The GCSE/GNVQ and GCE A/AS level \& Advanced GNVQ results described in this bulletin make a major contribution - but only a contribution - to the achievement of the National Learning Targets for England for the year 2002. The targets (revised in March 1999) are:

By age 16 :

- at least $50 \%$ to achieve 5 or more higher grade ( $\mathrm{A}^{*}-\mathrm{C}$ ) GCSEs or the equivalent
- at least $95 \%$ to achieve 1 or more GCSE or the equivalent

By age 19 :

- at least $85 \%$ to achieve a level 2 qualification i.e. 5 GCSEs at grade C or above, an Intermediate GNVQ or an NVQ level 2

By age 21 :

- at least $60 \%$ to achieve a level 3 qualification i.e. 2 GCE A levels, an Advanced GNVQ or an NVQ level 3. Note: AS examinations count as half a GCE A level.

24 The denominators used for these targets are the total population who are in the relevant age range. It should be noted that other denominators are used in this publication such as the attainment of candidates entered for an examination and the attainment of 15 year olds on roll in all schools.

25 National monitoring of progress towards these targets, taking account of all academic and vocational qualifications gained by the target ages, is based on data from the Labour Force Survey (LFS). The latest estimates for Autumn 1999 show that within England, 75 per cent of 19 year olds had a level 2 qualification or above and 53 per cent of 21 year olds had a level 3 qualification.

26 Note that the targets for 21 year olds cannot be compared directly with the attainment of 17 year olds in 1998/99 given in Table 11 however, because they relate to an older cohort. The bulk of the difference between A/AS/AGNVQ attainment by 17 year olds and level 3 attainment by age 21 is accounted for by vocational qualifications, although a small proportion of young people do achieve A/AS/AGNVQs between the ages of 18 and 21 .

27 The substantial increases in GCSE and GCE A level attainment since 1992/93, with the percentage of 15 year olds with 5 or more GCSE grades A*-C up by 6.7 percentage points (from 41.2 per cent to 47.9 per cent), and the percentage of 17 year olds with 2 or more GCE A levels (or equivalent) up by 10 percentage points (from 24 per cent to 34 per cent), will feed through into further progress towards the National Targets over the next four years. However, significant increases in the proportion of young people gaining vocational qualifications are also needed if the targets are to be achieved.

## Definitions and Sources

28 The data on examination entries and passes were obtained from the GCSE/GNVQ and GCE A/AS \& AGNVQ examination boards and groups. After further processing by the Department's contractors, the data were used to publish the Secondary school and the Secondary school and college (16-18) performance tables, under the Parent's Charter. The data for schools and Further Education sector colleges were checked by the institutions concerned before being used in the performance tables. Results for GCSE/GNVQ candidates aged 15 and GCE A/AS \& AGNVQ candidates aged 17 (but not for other ages) were accumulated from entries made by the candidates in the previous academic years. Results for pupils in the 16-18 age range were taken over the 1998/99 academic year only.

29 The results for 15 year olds show their overall achievements in GCSEs, GCSE (Short Courses), Part One GNVQs (Foundation and Intermediate), full GNVQs (Foundation and Intermediate) and the GNVQ Language Units. GCSE (Sort Courses) are of the same academic standard as a full GCSE but have half the content. GCSE (Short Courses) and GNVQ awards have been reported on the basis of the following broad equivalencies:

| Qualification |  | Number of GCSEs | GCSE grades |
| :--- | :--- | :---: | :---: |
| GNVQ Part One | Intermediate | 2 | A $^{*}-C$ |
|  | Foundation | 2 | D-G |
| GNVQ Full | Intermediate | 4 | $A^{*}-C$ |
|  | Foundation | 4 | D-G |
| GNVQ Language unit | Intermediate | $1 / 2$ | A |
|  | Foundation | $1 / 2$ | D |
| GCSE Short Course |  | $1 / 2$ | same grade |

The figures for those achieving 1 or more GCSE grade A*-G or the GNVQ equivalent also include those 15 year olds that achieved at least one pass in a GCSE short course or GNVQ language unit.

30 Where a candidate had attempted an examination in the same subject more than once, only the highest value
pass was counted. A GCE A level pass was always taken in place of an AS examination pass in the same subject, regardless of the AS grade. A GCSE full course pass was always taken in place of the GCSE short course in the same subject.

31 The pupil population aged 15 is taken from the annual schools census carried out in January 1999, as modified by schools when they were consulted in October about the information to be published in the performance tables. The estimates of the 17 year old population in Table 11 and 18 use the GAD source. A pupil's age is that at the start of the academic year (i.e. 31 August 1998). Fifteen year olds are therefore in the last year of compulsory education and seventeen year olds are in the second year of post compulsory education.

32 GCSE/GNVQ point scores are determined by totalling pupils' individual GCSE/GNVQ results as follows:

GCSE: grades A to G count as 7 to 1 points respectively, with $A^{*}$ counting as 8 ; GCSE Short Courses grades A to G count as $31 / 2$ to $1 / 2$ respectively, with $\mathrm{A}^{*}$ counting as 4 .

GNVQ: grades $\mathrm{D}, \mathrm{M}$ and P count as 712,6 and 5 points respectively at Intermediate level, and 4, 3 and $11 / 2$ point respectively at Foundation level. These points need to be multiplied by 2 for GNVQ Part One and by 4 for GNVQ Full.

32 GCE A/AS/AGNVQ point scores are derived as follows: an A level pass and an AS examination pass are classified as grade E or above. Each grade at AS examination is counted as half that grade at A level. Scores are calculated as shown below:

|  | A level |  | AS examination | Advanced |  |
| :--- | ---: | :---: | :--- | :--- | ---: |
|  |  |  |  |  |  |
| A | 10 | A | 5 | Distinction | 18 |
| B | 8 | B | 4 | Merit | 12 |
| C | 6 | C | 3 | Pass | 6 |
| D | 4 | D | 2 |  |  |
| E | 2 | E | 1 |  |  |

34 The National Targets for Education and Training were launched in 1991, based on proposals first made by the CBI. In 1993, an independent body - the National Advisory Council for Education and Training Targets (NACETT) - was set up by Government to monitor and report on progress towards the Targets, to advise Government on policies likely to promote progress, and to increase commitment to the Targets by education and training providers and employers. The Targets include
"Foundation" and "Lifetime" Targets, the first relating to levels of attainment by young people, and the second to levels in the workforce as a whole. In July 1994 NACETT initiated a review of the Targets, resulting in a revised set of Targets, which were announced and endorsed by the Government in the second Competitiveness White Paper in May 1995. The discussion in paragraphs 23-26 above relates to these revised Targets.

35 Rounding has been used in tables to aid clarity. It is therefore possible that some totals may differ slightly from the sum of their constituent parts.

36 Table 19 gives the final 1998/99 figures for Local Education Authority areas, updating the information published in the Secondary school and the Secondary school and college (16-18) performance tables published in November 1999.

## Further Information

37 Enquiries on the contents of this bulletin should be addressed to Analytical Services Branch, Level 5B, Department for Education and Employment, Caxton House, 6-12 Tothill Street, London SW1H 9NF (Tel: 0207 273 5938). An electronic version of this document is available on the DfEE's website; http://www.dfee.gov.uk/ news/spn/spn.htm The combined Secondary school and College performance tables are available on disk. The disks can be used on PCs with Microsoft Windows version 3.1 or later. The disks are available, free of charge, from the DfEE Publications Centre, PO Box 5050, Sherwood Park, Annesley, Nottingham NG15 0DJ (Telephone 0845602 2260). Booklets for schools in individual local education authorities are also available from this source. The Secondary school and college performance tables for the years 1994-99, are also available on the Internet on http://www.dfee.gov.uk/perform.shtml

(1) Including both GCE A level and AS examination passes with each AS pass counted as half of an A level pass and AGNVQ as 2 passes - total passes are rounded down to the nearest whole number.
(2) Excluding special schools.
(3) Including attempts and passes by these students in previous academic years (possibly at other institutions).

| - as \% of those attempting A/AS/AGNVQ exams | 89.0 | 90.9 | 90.1 | 86.8 | 89.6 | 88.4 | 88.1 | 90.2 | 89.3 |
| - as \% of the 17 year old age group(4) | 9.4 | 13.5 | 11.4 | 11.9 | 16.3 | 14.1 | 11.7 | 15.8 | 13.7 |
| Students with 2 or more GCE A-level |  |  |  |  |  |  |  |  |  |
| - as \% of those attempting A/AS/AGNVQ exams | 70.9 | 73.8 | 72.5 | 75.6 | 78.7 | 77.3 | 76.5 | 78.8 | 77.8 |
| - as \% of the 17 year old age group(4) | 7.5 | 10.9 | 9.2 | 10.4 | 14.3 | 12.3 | 10.1 | 13.8 | 11.9 |
|  |  |  |  |  |  |  |  |  |  |
| - as \% of those attempting A/AS/AGNVQ exams | 52.5 | 55.5 | 54.2 | 42.5 | 47.7 | 45.4 | 44.1 | 49.2 | 46.9 |
| - as \% of the 17 year old age group(4) | 5.6 | 8.2 | 6.9 | 5.8 | 8.7 | 7.2 | 5.8 | 8.6 | 7.2 |

Schools and FE Sector Colleges

| Candidates with 1 or more GCE A-level (or AS/AGNVQ equivalent) pass | 94.6 | 108.6 | 203.1 | 109.0 | 126.4 | 235.3 | 108.4 | 124.8 | 233.2 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| - as \% of those attempting A/AS/AGNVQ exams | 93.5 | 94.5 | 94.0 | 92.7 | 94.2 | 93.5 | 93.3 | 94.3 | 93.8 |
| - as \% of the 17 year old age group(4) | 30.6 | 37.1 | 33.8 | 34.2 | 41.8 | 37.9 | 34.5 | 41.8 | 38.0 |
| Candidates with 2 or more GCE A-level |  |  |  |  |  |  |  |  |  |
| (or AS/AGNVQ equivalent) pass | 81.5 | 94.2 | 175.7 | 97.7 | 114.5 | 212.2 | 97.2 | 113.2 | 210.4 |
| - as \% of those attempting A/AS/AGNVQ exams | 80.5 | 82.1 | 81.3 | 83.1 | 85.3 | 84.3 | 83.6 | 85.6 | 84.7 |
| - as \% of the 17 year old age group(4) | 26.3 | 32.2 | 29.2 | 30.7 | 37.9 | 34.2 | 30.9 | 37.9 | 34.3 |
| Candidates with 3 or more GCE A-level |  |  |  |  |  |  |  |  |  |
| (or AS/AGNVQ equivalent) passes | 64.6 | 74.6 | 139.2 | 68.9 | 81.6 | 150.4 | 69.2 | 82.2 | 151.4 |
| - as \% of those attempting A/AS/AGNVQ exams | 63.8 | 64.9 | 64.4 | 58.6 | 60.8 | 59.7 | 59.5 | 62.1 | 60.9 |
| - as \% of the 17 year old age group(4) | 20.9 | 25.5 | 23.1 | 21.6 | 27.0 | 24.2 | 22.0 | 27.5 | 24.7 |

(1) Each GCE AS attempt or pass counts as half of a GCE A-level and each AGNVQ as 2 attempts or 2 passes
(2) Figures are derived from the number of candidates aged 18 or under who achieved the stated resulf for the first time, in the relevant year, in all Schools and Further Education Sector Colleges.
(3) Figures for 1998/1999 include the Advanced GNVQ which is equivalent to two GCE A levels.
(4) The GAD estimates of the population aged 17 at 31 August are:

|  | 1996/1997 | 1997/1998 |  |  |  | 1998/1999 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Males | Females | Total | Males | Females | Total | Males | Females | Total |
| 309.4 | 292.4 | 601.8 | 318.5 | 302.5 | 621.0 | 314.7 | 298.7 | 613.5 |
