INTRODUCTION

This new edition of "Statistics of Schools in England" includes school data for the academic year 2000/01, which was collected in January 2001. This is the latest in a series of volumes produced annually and its value is as the main source of school statistics for England as a whole, allowing comparisons to be made over time.

Most of the school information in this volume is from the Annual Census of Schools Census which is undertaken in January each year. Key figures from this survey have already been published in a series of Statistical First Releases. More comprehensive analyses of these figures will be published in four bulletins between October 2001 and February 2002 in the Statistics of Education series (see paragraph 46 of the Explanatory notes 'Related publications').

Many of the tables provide information by Government Office Region (GOR). Local Authority breakdowns will be available separately from the DfEE and on the web-site www.dfes.gov.uk/statistics. Explanation of the definitions and categories used in this volume are given in the "Explanatory notes" section, together with details of how to obtain further information.

The team responsible for producing this volume were: Jen Beaumont, Paul Blackett, Jenny Cole, Nicola Edwards, Linda May, Marcia Merchant, Julie Park, Jo Platt, Zoe Raine, Ann Tailford, and Tony Wilson.

SUMMARY OF MAIN STATISTICS

◆ Pupils

- In January 2001 there were 8.4 million pupils in 25,700 maintained and independent schools in England. The total number of school pupils is affected by demographic trends and so varies from year to year (**Table 1**).
- 92 per cent of pupils were taught in maintained nursery, primary and secondary schools, 7 per cent of pupils attended independent schools and 1 per cent went to maintained and non-maintained special schools (**Table 3**).

◆ Teachers

- There were 410,000 full-time equivalent teachers employed in maintained nursery, primary and secondary schools in January 2001 (**Table 7a**).

◆ Pupil:Teacher Ratios

- In January 2001, there were 18.3 pupils for every teacher (including all teachers employed by LEAs) in maintained nursery, primary and secondary schools (**Table 7a**).

- The pupil:teacher ratio does vary from region to region. A comparison of Government Office Regions (GORs) shows that Inner London has the lowest pupil:teacher ratios for both primary and secondary schools (**Table 7a**).
- Pupil:teacher ratios in independent and special schools in England were 9.7 and 6.4 respectively, in January 2001 (**Table 7b**).

Tables 1-12 give general information about schools, pupils and teachers in all schools

◆ School meals

- The number of free meals taken by pupils in maintained nursery, primary, secondary and special schools decreased by 56,600, or 5%, to 1.01 million (**Tables 13,14 & 36**).

◆ Class Sizes

- The number of pupils in key stage 1 classes of 31 or more pupils taught by one teacher in January 2001 was 35,800 or 2 per cent (**Table 17b**).

◆ Non-teaching Staff

- In January 2001 there were nearly 189,000 full-time equivalent non teaching staff maintained nursery, maintained primary, maintained secondary, special schools and pupil referral units. This compares to nearly 129,500 in January 1996 (**Table 28**).

◆ Special Educational Needs

- 258,000 pupils, some 3 per cent of all pupils, had statements of special educational needs (**Table 32**). Estimates have been made for January 2001 because the data for SEN were known to be incomplete.

In January 2001, 61 per cent of pupils with statements were placed in maintained mainstream schools (nursery, primary and secondary), 35 per cent in either maintained special schools or pupil referral units (PRUs), and 4 per cent in either independent or non-maintained special schools (**Table 33**). Estimates have been made for January 2001 because the data for SEN were known to be incomplete.

◆ Minority Ethnic Pupils

- In maintained primary and secondary schools, 11 per cent of pupils were classified as belonging to a minority ethnic group (**Table 47**).
- 9.8 per cent of primary school pupils had English as an additional language (**Table 48**).

◆ **Permanent Exclusions**

- There were 7,000 permanent exclusions from primary, secondary and special schools in 1999/00 (**Table 49**).

◆ **Admission Appeals**

were lodged by parents against the non-admission of their children for 1999/00; the comparable figure for the previous year was 86,000 (**Table 51**).

Explanatory Notes

MAIN CATEGORIES OF SCHOOL

1. Schools may be divided administratively and financially into the following broad categories:

i. **Mainstream state schools**

Under the School Standards and Framework Act 1998, four new categories: *Community, Foundation, Voluntary Controlled and Voluntary Aided* replaced from 1 September 1999 the previous five categories of mainstream state school: county, controlled, special agreement, aided and grant-maintained (GM). Schools in all the four categories have a lot in common. They work in partnership with other schools and with local education authorities (LEAs), and they receive funding from LEAs. But each category also have its own characteristics.

Community schools Community schools are very similar to former county schools. The LEA employs the school's staff, owns the school's land and buildings and has primary responsibility for deciding the arrangements for admitting pupils.

Foundation schools At Foundation schools, the governing body employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are owned by the governing body or by a charitable foundation.

Voluntary Aided schools Voluntary Aided schools are similar to former aided schools. The governing body employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are normally owned by a charitable foundation. The governing body contribute towards the capital costs of running the school.

Voluntary Controlled schools Voluntary Controlled schools are very similar to former controlled schools. The LEA employ the school's staff and have primary responsibility for admission arrangements. The school's land and buildings are normally owned by a charitable foundation.

ii. **Direct grant schools.** The governing bodies of these schools are assisted by departmental grants, and a proportion of the pupils attending them do so free or under an arrangement by which local education authorities meet tuition fees. From October 1980 these schools, with the exception of three nursery schools, (one of which has subsequently closed) were re-classified as independent schools. (See paragraph 12 below.)

iii. **Independent schools.** These are schools registered under Section 465 of the Education Act 1996. (See paragraph 12 below.)

iv. **City Technology Colleges.** These take the form of a charitable company limited by guarantee. The sponsors constitute an educational trust and will own or lease the college and appoint their representatives to the Board of Governors. The members of a CTC will consist of nominees of the sponsoring company and the Secretary of State. When a CTC is opened it will be registered as an independent school and is included in the independent schools tables.

v. **Non-Maintained schools.** Non-maintained schools are run by voluntary bodies; they may receive some grant from the Department for capital work and for equipment, but their current expenditure is met primarily from the fees charged to the local education authorities for pupils placed in the schools.

MAIN TYPES OF SCHOOL

Nursery Schools

2 These provide education primarily for children below compulsory school age, i.e. under 5.

Primary Schools

3 Primary schools consist mainly of *infant schools* for children aged 5 to 7, *junior schools* for those aged 7 to 11 and *junior and infant* schools for both age groups.

4 In addition, *first schools* cater for ages from 5 to 8, 9 or 10. They are the first stage of a three-tier (first, middle and secondary) school system.

5 Many primary schools provide 'nursery' classes for children under 5. A 'nursery' class is one which includes amongst its staff a qualified nursery assistant.

Middle Schools

6 Middle schools take children from first schools and generally lead on, in turn, to comprehensive upper schools. They cover varying age ranges between 8 and 14. Depending on their individual age range they are deemed either primary or secondary and are counted accordingly in many statistics of primary, secondary and (within secondary) comprehensive schools.

Secondary Schools

7 Secondary education is provided mainly in three types of school, the *secondary modern*, the *secondary grammar* and the *comprehensive school*.

8 There are also small and decreasing numbers of *technical schools*.

9 Schools which do not fall into any of the categories already mentioned are classified as *other secondary schools*.

10 With effect from 1 April 1993 *Sixth Form Colleges* were no longer classified as schools but come under the control of the Further Education Funding Council. They are not, therefore, included in the statistics in this volume for 1994 onwards.

Independent Schools

11 An independent school is legally defined as any institution providing full time education for five or more pupils of compulsory school age which is not maintained by a local education authority nor a non maintained special school. All independent schools are initially inspected by HMI from Ofsted. Approximately just over half of all independent schools choose to belong to the professional associations constituting the Independent Schools Council (ISC). Since 1999, ISC schools have usually been inspected by the Independent Schools Inspectorate (ISI) on behalf of the Department.

12 Since January 1980, figures for independent schools have included direct grant schools.

Special Schools

13 Special schools, both day and boarding, provide education for children with special educational needs who cannot be educated satisfactorily in an ordinary school.

14 Maintained special schools are run by local education authorities who pay all the expenses of maintenance.

15 Non-maintained special schools are run by voluntary bodies; they may receive some grant from the Department for capital work and for equipment, but their current expenditure is met primarily from the fees charged to the local education authorities for pupils placed in the schools.

16 General hospital schools provide education for children who are spending a period in hospital. In previous years some of these children remained on the registers of their usual school and were, therefore, counted twice. Since 1991 only those children who were taken off the register of their usual schools whilst in the hospital have been recorded, thus avoiding double counting.

17 Children in special hospital schools are shown separately.

18 In addition to special schools, provision is also made for pupils with special educational needs to attend special classes in maintained nursery, primary, middle and secondary schools.

19 Special schools also provide for Dually Registered pupils. These are pupils whose lesson time, during the week, is split between a mainstream primary or secondary school and a special school. The pupils will be counted with the figures for primary or secondary schools and shown separately on the tables for special schools.

20 Some independent schools provide education wholly or mainly for pupils with special educational needs. These schools are not included with special schools in the tables but are included with independent schools.

City Technology Colleges

21 From January 1989, CTCs are included in relevant

independent schools' tables.

AGE OF PUPILS

22 Up to January 1979 the age groups of pupils corresponded to the calendar year birth groups (ie ages at previous 31 December). Since January 1980, the age groups have corresponded with ages at the beginning of the school year (ie ages at the previous 31 August). A change in the method of classifying pupils' ages was made because pupils are normally promoted from maintained primary schools to secondary schools, and move through the secondary school system, according to their ages on 31 August.

TEACHERS AND NURSERY STAFF

23 The figures for teachers are derived from returns submitted by individual schools at the same time as the count of pupils - that is in January of each year; they refer to teachers in post at the date of the return, including supply and relief teachers filling vacant posts, but excluding unfilled vacancies.

24 Prior to 1971 published figures for maintained primary, middle and secondary schools referred to all teaching staff. However, since 1971 figures have distinguished between *qualified teachers* and *other teaching staff* (see paragraphs 26 and 27).

25 Since 1974 figures for teachers in maintained and direct grant nursery schools and special schools have related only to *qualified teachers*; figures for 1974 and subsequent years are, therefore, not comparable with those published for earlier years.

26 *Qualified teachers* are those who have been awarded qualified teacher status (QTS) following the successful completion of an approved course of initial teacher training or via an alternative route.

27 *Other teaching staff* include:

- i.** Student teachers (persons over the age of 18 who intend to proceed to training for qualified teacher status);
- ii.** Instructors (persons who are employed to give instruction in a specialist skill where no qualified teacher is available).
- iii.** Foreign Language assistants (foreign students on exchange schemes or persons resident in this country whose mother tongue was a foreign language and who are employed to give conversational lessons in this language);
- iv.** Unqualified teachers (persons whose appointment to the assistant staff of a nursery school or to the staff of a nursery class has been approved under paragraph 4 of Schedule 4 to the Education (Teachers) Regulations 1982) and were employed immediately before 1 September 1989.
- v.** Graduate and registered teachers on Graduate/Registered Teacher Schemes (including those on Licensed or Overseas trained Teacher Schemes)

28 *Nursery staff* are persons appointed to help teachers in charge of nursery classes in addition to the teaching complement. They fall into two categories:

- i. Nursery assistants (persons who hold the certificate of the National Nursery Examination Board (NNEB) or some equivalent qualification, or have completed a similar course, or persons employed exceptionally);
- ii. NNEB students (who help part time in nursery classes as part of their course).

The equivalent of at least one full-time nursery assistant or two NNEB students should be appointed to each nursery class.

29 Part-time teachers are counted once for each school in which they teach. For the purpose of reckoning the full-time equivalent (FTE) of part-time (PT) teachers, each teacher's part-time service is evaluated as a proportion of a full school week. Following the change in Teachers Pay and Conditions with effect from 1 August 1987 the FTE of PT Qualified teachers in schools in 1988 has been calculated using the denominator of 32.5, this being taken as the average directed hours per week of a full-time teacher. This compares with the figure of 25 used previously. The FTE of part-time teachers in independent schools and City Technology Colleges has been calculated using the denominator of 26, as in previous years for independent schools. FTE of non-teaching staff has been calculated using the denominator of 37, except for nursery assistants where a denominator of 32.5 has been used.

30 The pupil:teacher ratio within schools is the ratio of all pupils on the school registers (counting each part-time pupil as 0.5) to all teachers (including the FTE of part-time teachers) employed in the schools on the day of the annual count. Since 1971 the ratios for maintained primary, middle and secondary schools have taken account of qualified teachers only; since 1974 the ratios for maintained and direct grant nursery schools and special schools have been calculated similarly.

PUPILS UNDER FIVE

31 *Part-time pupils*: These are pupils who do not attend school both morning and afternoon at least five days a week. They are counted in full, except when used to derive staffing ratios when each part-time pupil is counted as 0.5 full-time equivalents.

32 *Nursery classes*: These are classes in maintained primary schools that have been designated as nursery classes. Such classes normally include amongst their staff at least one qualified nursery assistant in addition to a qualified teacher.

33 *Number of maintained primary schools*: The figures quoted give the number of maintained primary schools which have designated nursery classes - not the total number of primary schools in England.

34 *Staffing of maintained nursery schools and nursery classes*: The number of staff includes the full-time equivalent number of part-time staff. The School Teachers' Pay and Conditions Document has, since 1987, required a full-time teacher to be available to undertake professional duties assigned to him or her by the head teacher for 1265 hours allocated reasonably throughout a working year of 195 days. The average "directed" hours per week of part-time teachers are converted to full-time equivalent teacher numbers by dividing by 32.5. This conversion factor is derived by dividing 1265 (directed hours per year) by 195 (working days per year) and multiplying by 5 (working days per week). This compares with the figure of 25 used previously to convert part-time teacher hours to full time equivalent teacher numbers.

Teaching staff refers to all qualified and other teaching staff actually employed in maintained nursery schools together with the qualified teachers and other teaching staff in maintained primary schools deployed to teach in designated nursery classes.

Adult staff includes all teaching staff together with nursery assistants in maintained nursery schools and nursery assistants in maintained primary schools deployed for service in designated nursery classes. Other categories of non-teaching staff are excluded.

Pupil:staff ratios relate the full-time equivalent numbers of teaching staff and adult staff to the total numbers of pupils in maintained nursery schools and designated nursery classes in maintained primary schools regardless of age and count each part-time pupil as 0.5 full-time equivalents. The ratios so calculated do not necessarily reflect the actual deployment of staff in any particular school or class nor the size of classes in which pupils are taught.

SCHOOL MEALS

35 Information is collected for the numbers of full and part time pupils (up to and including and above, minimum school leaving age) on each schools` register known to be eligible for a free school meal and those who took a free school meal.

36 In previous years, the numbers eligible for a free school meal were those pupils who had or whose parents had, satisfied the relevant authority that they were receiving Income Support *or* income based Jobseekers Allowance *or* support provided under Part 6 of the Immigration and Asylum Act 1999. For the 2001 census, this definition was expanded to only include pupils where parents had indicated that they wished their child to have a free meal *and* had confirmed benefit receipt with the LEA or school.

SIZES OF CLASSES

37 In tables 15, 16 and 17 information is given for classes or groups of pupils being taught together at a particular point in the school time-table. This information has been obtained from each school for one selected period on the day of enumeration (the third Thursday in January).

38 Primary and middle schools are sub-divided into three groups of equal size and the selected periods are those occurring one hour after the start of morning school, one hour before the end of morning school and one hour after the start of afternoon school. Secondary schools are sub-divided into five groups of equal size, and these groups make returns in respect of the 1st, 3rd, 4th, 5th and last periods of the day respectively.

39 At any selected period in the time-table there are some large teaching groups assembled for special purposes (physical education, religious instruction, choir practice, etc), mainly within the charge of two or more teachers.

40 The pupil figures do not include pupils engaged in private study, pupils on work experience, pupils attending courses at Further Education Colleges or pupils attending courses at other schools or establishments during the selected period.

ADMISSION APPEALS

41 *Admission authorities:* LEAs for County and Voluntary Controlled schools and governing bodies for Voluntary Aided, Special Agreement and the former Grant-Maintained schools, are required under the 1996 Education Act to constitute an independent appeals committee to hear appeals by parents against the non-admission of their child to a school for which they have expressed a preference.

ROUNDING OF FIGURES

42 Where figures have been rounded there may be discrepancies between the sum of constituent items and the total as shown.

REGIONAL ANALYSES

43 The regional figures cover the schools administered by the local education authorities in that region. For schools other than LEA-maintained, the figures cover schools located in that region. Regional statistics of pupils therefore refer to the pupils in such schools irrespective of the pupils' normal place of residence.

44 The regions used in this volume are Government Office regions which have been adopted across all Government Departments for use in all government statistics (Map).

RELATED PUBLICATIONS

45 The following publications also contain information about topics covered in this volume and other related statistics:

Statistical First Releases

All Statistical First Releases are available on the DfES website www.dfes.gov.uk/statistics. For paper copies please ring 01325 392682.

Class sizes: 'Class sizes in Maintained Schools in England: January 2001 (Provisional)' (14/2001, 6 April 2001) and

'Infant Class Sizes in England in September 2000 (available November 2000).

Pupil:teacher ratios: 'Pupil:Teacher Ratios in Maintained Schools in England - January 2001 (Provisional)' (15/2001, 6 April 2001).

Under 5s: 'Provision for children under five years of age in private, voluntary, independent and maintained sectors in England: January 2001 (Provisional)' (22/2001, 16 May 2001).

Overall pupil:teacher ratio (4,5)	17.2	18.6	18.9	18.8	18.6	18.3

1. For statistical purposes only, pupils who do not attend both morning and afternoon at least five days a week are regarded as part-time. Each part-time pupil is treated as 0.5 full-time equivalents.

2. Excluding all unqualified teachers and teachers providing short term cover as well as teachers absent for a term or more but including the latter's qualified replacements, if any.

3. The Schools Teachers' Pay and Conditions Document has, since 1987, required a full-time teacher to be available to undertake the professional duties assigned to him or her by the headteacher for 1265 hours allocated reasonably throughout a working year of 195 days. The "directed" hours per week of part-time teachers are converted to full-time equivalent teacher numbers by dividing by 32.5. This conversion factor is derived by dividing 1265 (directed hours per year) by 195 (working days per year) and multiplying by 5 (working days per week).

4. Excludes sixth form colleges.

5. Including qualified teachers (including those not in schools and teachers providing short term cover), student teachers, instructors and licensed teachers employed by local education authorities and grant-maintained schools.

6. Including instructors and student teachers, foreign language assistants, unqualified teachers, graduate or registered teachers, teachers entitled to qualify by service, teachers not recognised as qualified and all non-teaching staff excluding administrative and clerical staff.

7. The pupil:teacher ratio is calculated by dividing the total number of full-time equivalent pupils on roll in schools by the total number of full-time equivalent qualified teachers employed in schools.

8. The pupil:adult ratio is calculated by dividing the total number of full-time equivalent pupils on roll in schools by the total number of full-time equivalent qualified teachers and education support staff employed in schools.
