# Statistics of Education: 

## Education and Training Statistics for the United Kingdom

## SYMBOLS USED

The following symbols have been used throughout the tables:
. = not applicable
.. = not available

- = nil or negligible
* = less than 10,000 in cell; estimate not shown

## ROUNDING OF FIGURES

Where figures have been rounded, there may be discrepances between the sum of constituent items and the totals shown.

## CONTACTS

The following is a list of contact numbers within the DfES which may be helpful if you have general enquiries about information contained in this publication, or require further information about the topics shown.

## GOVERNMENT STATISTICAL SERVICE

A service of statistical information and advice is provided to the Government by specialist staffs employed in the statistics divisions or branches of individual Departments. Statistics are made generally available through their publication, and further information and advice on them can be obtained from the Departments concerned.

## Introduction

This is the seventh edition of Education and Training Statistics for the United Kingdom and again provides an integrated overview of statistics on education and training in the UK. It largely follows the format of last year's volume; however, there have been a few changes in the 2003 volume:

- In Table 1.1 it is not possible to give education expenditure by function;
- HESA, 2001/02 higher education student data in Tables 3.6, 3.7, 3.9 and 3.12 are based on the July 'standard registration' count and are not directly comparable with previous data using the December 'annual snapshot' count;
- Table 3.10 is new, and gives a time-series of further and higher education students;
- The previous Table 3,15, covering Work-based learning for young people starts by sector, has been dropped, and has been replaced by former Table 3.10 covering participants in Work-based learning for young people programmes;
- It has not been possible to update the Work-based learning for young people data for England in Tables 3.13, 3.14 and 3.15;
- Table 4.4 now includes VCE A/AS and Double Award passes for young people, rather than Advanced GNVQs;
- Table 4.6 now covers success rates in LSC funded Work-based learning programmes;
- Table 4.7 has been updated to show progress towards selected national targets for England and for Wales;
- Table 5.1 now reports school leaver destinations for Wales, however the survey used is not classified as 'National Statistics';

## International Chapter

The international chapter (Chapter 7) largely reports data available from the Organisation for Economic Cooperation and Development (OECD) publication Education at a Glance 2003.

## Regional Analyses

Where regional analyses are given they are on the basis of Government Office Regions (GORs). These have been the primary classification for the presentation of regional statistics since April 1997.

## Contributions

The efforts of the statistics teams in DfES, National Assembly for Wales, Scottish Executive, Northern Ireland Department of Education and Northern Ireland Department for Employment and Learning, who have contributed data for the volume, are again greatly appreciated. In DfES the people responsible for bringing all the data together and producing the 2003 volume were the UK and Local Statistics Dissemination Unit within Analytical Services and, in particular, Martin Johnson, Graham Devonshire and Dave Walton.

## Chapter 1 Expenditure

## CHAPTER I: EXPENDITURE

## Key Facts

- Expenditure on education services by central and local government in the UK in 2001-02 was £49.4 billion, including $£ 2.8$ billion directly on under fives, $£ 29.1$ billion on schools, $£ 7.3$ billion on further education and $£ 6.0$ billion on higher education. £32.9 billion was spent by local education authorities and $£ 16.4$ billion by central government. (Table 1.1)
- Expenditure on education services by central and local government in the UK in 2001-02 represented 4.9 per cent of Gross Domestic Product - the same proportion as in 1995-96. (Table 1.2)
- In 2001-02, identifiable expenditure on education services in the UK represented $£ 841$ per head of population, compared with $£ 607$ per head in 1995-96. Identifiable expenditure ranged from £816 per head in England to $£ 1,048$ per head in Northern Ireland. (Table 1.3)

## CHAPTER 1: EXPENDITURE - LIST OF TABLES

1.1 Education expenditure on services by function, 2001-02
1.2 Summary of expenditure on education services time series
1.3 Identifiable expenditure on education services by country - time series

Source: HM Treasury - Public Expenditure Statistical Analysis

1 Expenditure on services is a definition of aggregate public spending consistent with Total Managed Expenditure (TME), where TME is a measure of public sector expenditure drawn from components in national accounts produced by the Office for National Statistics (ONS). It is the consolidated sum of current and capital expenditure of central and local government, and public corporations, but excludes net public service pension payments in Annually Managed Expenditure (AME), debt interest payments and other accounting adjustments.
2 Provisional.
3 Including general administrative expenses and purchases of goods and services which are not of a capital nature.
4 Comprising expenditure on new construction, the purchase of land, buildings and other physical assets, less the proceeds from sales of similar assets and the value of net changes in the level of stocks. Also includes grants to the private sector, nationalised industries and other public corporations.

| United Kingdom | 607 | 687 | 740 | 841 |

## Sources: HM Treasury - Public Expenditure Statistical Analysis

1 A small amount of expenditure cannot be disaggregated to individual country level. Therefore, the figures in this table are slightly different from those shown in Table 1.2.
2 Expenditure on services is a definition of aggregate public spending consistent with Total Managed Expenditure (TME), where TME is a measure of public sector expenditure drawn from components in national accounts produced by the Office for National Statistics (ONS). It is the consolidated sum of current and capital expenditure of central and local government, and public corporations, but excludes net public service pension payments in Annually Managed Expenditure (AME), debt interest payments and other accounting adjustments.
3 Incudes revised data.
4 Comparisons of expenditure per head between countries should be made with caution e.g. different countries have different proportions of young people within their population.

## Chapter 2 <br> Schools

## CHAPTER 2: SCHOOLS

## Key Facts

- There were 10.1 million full-time and part-time pupils in 34.6 thousand schools in 2002/03, compared with 9.3 million pupils in 34.6 thousand schools in 1990/91. (Tables 2.1, 2.2, 2.3)
- There were 296.9 thousand full-time and part-time pupils with statements of Special Educational Needs (SEN) in 2002/03, representing $2.9 \%$ of all pupils, with $63 \%$ of SEN pupils with statements being educated in mainstream schools. (Table 2.4)
- There were 507.3 thousand full-time qualified teachers in the United Kingdom in 2001/02, of which over two-thirds were female. Eighty-six per cent of full-time teachers were employed in maintained nursery, primary and secondary schools. (Table 2.5)
- There were, on average 43 pupils per maintained mainstream nursery school in 2002/03, 229 pupils per primary school and 933 pupils per secondary school. (Table 2.6)
- The average class size in primary schools in the United Kingdom in 2002/03 was 26.0 pupils. The average class size in secondary schools in England and Wales was 21.9 pupils. (Table 2.7)
- The average size of one-teacher classes in primary and secondary schools in England in 2002/03 was 26.3 pupils and 21.9 pupils respectively. (Table 2.7)
- The average pupil/teacher ratio in nursery schools in 2002/03 was 23.6 . In primary schools the ratio was 22.0 and in secondary schools it was 16.4 . The average pupil/teacher ratio for all schools was 17.6 compared to 17.3 in 1990/91. (Table 2.8)
- 70\% of boys and $80 \%$ of girls in England achieved Level 4 or above in the 2003 Key Stage 2 English test. $74 \%$ of boys and $84 \%$ of girls in Wales achieved Level 4 or above. (Table 2.9)
- $73 \%$ of boys and $72 \%$ of girls in England achieved Level 4 or above in the 2003 Key Stage 2 Maths test. $74 \%$ of boys and $76 \%$ of girls in Wales achieved Level 4 or above. (Table 2.9)
- In $2002 / 03,14.3 \%$ of pupils in maintained nursery \& primary schools were taking free school meals, compared with $14.0 \%$ in 1990/91. In maintained secondary schools, in 2002/03, $14.9 \%$ of pupils were known to be eligible for free school meals, but only $10.8 \%$ of pupils were taking free school meals. The proportion of pupils in maintained special schools taking free school meals was $31.4 \%$. (Table 2.10)

## CHAPTER 2: SCHOOLS - LIST OF TABLES

2.1 Number of schools, by type of school - time series
2.2 Full-time and part-time pupils by age, gender and school type, 2002/03
2.3 Full-time and part-time pupils by gender and school type - time series
2.4 Full-time and part-time pupils with Special Educational Needs (SEN) by type of school 2002/03
2.5 Qualified teachers by type of school and gender time series
2.6 Schools and pupils by size of school and school type, 2002/03
2.7 Average class size by Government Office Region time series
2.8 Pupil/teacher ratios by type of school and Government Office Region - time series
2.9 Proportion of pupils reaching or exceeding expected standards, by key stage, subject and gender - time series
2.10 School meal arrangements: time series

1 Figures for Scotland are estimates of the stage rolls.
2 In Scotland gender split is not collected by age but has been estimated according to figures collected in September 2002. In Northern Ireland a gender split is not collected by age but is available by year group and so this is used as a proxy. For example pupils in Year 1 are counted as age 4 , pupils in Year 2 are counted as age 5 etc.
3 Provisional.
4 Grant-aided schools in Northern Ireland.
5 Excludes 5,340 children ot voluntary and private pre-school centres in Northern Ireland in places funded under the Pre-School Expansion Programme which began in 1998/99.
Nursery schools figures for Scotland include pre-school education centres. The "All" figures indude nursery school pupils which cannot be split by gender.
Includes reception pupils in primary classes and, in Northern Ireland, pupils in preparatory departments of grammar schools.
8 England and Wales only. Figures exclude dually registered pupils.
9 Age 2-4 includes pupils less than 2 years of age in England.
101 July for Northern Ireland and 31 December for Scotland.
11 Includes the so-called rising five's (i.e. those pupils who became 5 during the autumn term).
12 Includes pupils with unrecorded gender and ages unknown for Wales and Scotland.

Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
1 Includes middle schools as deemed.
2 Figures for Northern Ireland include reception pupils and pupils in preparatory departments of grammar schools.
3 Great Britain only.
4 Figures shown for Wales and Scotland are calculated as the percentage of the day pupils present on the census day, therefore the percentage taking free school meals may exceed the percentage known to be eligible. Figures for England, Northern Ireland and the UK, however, are percentages of the numbers of pupils on the school roll.
5 Provisional. Figures for Wales refer to 2001/02.
6 For 2002/03, figures for England and its GORs include boarding pupils as well as solely and dually registered pupils.

## Chapter 3

Post Compulsory Education and Training
(a) Institutions and Staff
(b) Participation Rates
(c) Students and Starters
(d) Job Related Training

## CHAPTER 3: POST-COMPULSORY EDUCATION AND TRAINING

## Key Facts

## (a) INSTITUTIONS AND STAFF

- There were 89 universities, 60 other higher education institutions and 467 further education colleges (of which 103 were $6^{\text {th }}$ form colleges) in the UK in 2002/03. (Table 3.1)
- There were 78,000 full-time higher education academic staff and 57,000 full-time further education academic staff in the United Kingdom in 2001/02. (Table 3.1)
(b) PARTICIPATION RATES
- $73 \%$ of 16 year olds and $58 \%$ of 17 year olds were in post-compulsory education either at school or in full-time further education in 2000/01. (Table 3.2)
- In Spring 2003, $14 \%$ of people of working age had received job-related training in the last four weeks. Employees were more likely to receive job-related training than the self-employed, the unemployed or the economically inactive. (Table 3.3)

## (c) STUDENTS AND STARTERS

- There were 5.4 million further education students in the United Kingdom during the academic year 2001/02, compared with 2.2 million in 1990/91. Four-fifths of these students in 2001/02 were part time, a similar proportion as in 1990/91. (Tables 3.5, 3.10)
- There were 2.3 million [961,700 part-time] higher education students in the United Kingdom in the academic year 2001/02, compared with 1.1 million in 1990/91. Of the students in 2001/02, 472,400 were known to be postgraduate students, 1.1 million were first degree students and 747,800 were on other undergraduate courses. (Tables 3.6, 3.10)
- Amongst popular subjects studied were business \& financial studies, and social sciences, each with over 110,000 full-time first degree students enrolled. (Table 3.6)
- In $2001 / 02$, there were 188,400 students from overseas in total in full-time higher education in the UK. 23,300 of these students were from Greece, the highest of any overseas country. (Table 3.7)
- There were 5.1 million further education students in the first year of their course of study in 2001/02 of which 4.1 million were part-time. (Table 3.11)
- There were 1.1 million new entrants to higher education in 2001/02, of which just under half were part-time. (Table 3.12)

## Work-Based Learning for Young People (WBLYP)

## Advanced Modern Apprenticeships (AMAs)/ Modern Apprenticeships (MAs)

- There were 66,100 new starts on Advanced Modern Apprenticeship schemes (AMAs) in England \& Wales in 2001/02. In 2002-03, there were 6,400 new starts on Modern Apprenticeships in Wales. (Table 3.13)
- The overall number of participants in AMAs in March 2002 was 125,100 , and represented over $40 \%$ of work-based learning for young people participants. The proportion for Modern Apprenticeships in Wales in March 2003 was similar. (Table 3.15)

## Foundation Modern Apprenticeships (FMAs)/ National Traineeships (NTrs)

- There were 120,200 new starts on Foundation Modern Apprenticeships (FMAs) in England \& Wales in 2001/02. In 2002-03, there were 11,200 new starts on National Traineeships in Wales.
(Table 3.13)
- Male starts on FMAs in the period August October 2002 (55\% of total) outnumbered Female starts (45\%). (Table 3.14)
- FMA participants accounted for two-fifths of workbased learning for young people participants in March 2002. The proportion for National Traineeships in Wales in March 2003 was similar. (Table 3.15)

## Other Training (OT)

- As a result of increases in other schemes for young people, the number of new starts on Other Training (OT) programmes in England \& Wales in $2001 / 02$, at 48,600 , was under a fifth of new starts on WBLYP. (Table 3.13)
- The proportion of Ethnic minority OT starts, however, remained at $13 \%$ in 2001/02, an increase of four percentage points since 1998/99. In the period August - October 2002, the Ethnic minority proportion was 20\%. (Table 3.14)

## (d) JOB RELATED TRAINING

- In Spring 2003, people in Wales ( $15.2 \%$ ) were more likely to have received job-related training in the last four weeks than people in any other region. People in Northern Ireland (11.5\%) were least likely to receive training. (Table 3.16)
- $21.6 \%$ of Black or Black British employees, $18.0 \%$ of Chinese employees, and $14.1 \%$ of those of Asian or Asian British origin, had received job-related training compared with $15.5 \%$ of White employees. (Table 3.17)
- People with high levels of qualifications were much more likely than those with low or no qualifications to have received job-related training. (Table 3.17)
- In Spring 2003, 7.5\% of employees had received off-the-job training in the last four weeks, $4.9 \%$ had received only on-the-job training and $3.1 \%$ had received both types of training. (Table 3.17)
- Employees in public administration, education \& health were more likely than employees in other industries to have received job-related training. Those employed in agriculture, forestry \& fishing were least likely to have received training. (Table 3.18)
- Much of the job-related training received by employees is of short duration; in Spring 2003, over a third of the training received by employees and by the self-employed lasted for less than a week. (Table 3.21)
- The economically inactive tend to receive jobrelated training of a longer duration than that received by employees. (Table 3.21)
- A Further Education college or university is the most common location for off-the-job training. The employer's premises are another common location for employees' off-the-job training. (Table 3.22)
- In Spring 2003, young employees receiving training in the last week spent more hours in job-related training than older employees. Males spent more hours in training than females. (Table 3.23)
- In Spring 2003, $33.2 \%$ of employees in temporary employment had undertaken job-related training in the last thirteen weeks compared to $30.1 \%$ of permanent employees. $31.4 \%$ of full-time employees had undertaken job-related training compared with $26.4 \%$ of part-time employees.
(Table 3.24)
- In Spring 2003, 30.1\% of employees had received job-related training in the last thirteen weeks, $15.6 \%$ had received job-related training in the last four weeks, and $8.4 \%$ had received job-related training in the last week. $28.8 \%$ of employees had never been offered training by their current employer. (Table 3.25)
- In Spring 2003, 24.4\% of employees who were classed as both DDA disabled and work-limiting disabled had received job-related training in the last thirteen weeks, compared with $30.1 \%$ of all employees. (Table 3.26)

## CHAPTER 3: POST-COMPULSORY EDUCATION AND TRAINING LIST OF TABLES

(a) INSTITUTIONS AND STAFF
3.1 Number of establishments of further and higher education by type, and full-time academic staff by gender - time series
(b) PARTICIPATION RATES
3.216 and 17 year olds participating in postcompulsory education and Government supported training - time series
3.3 Participation in job-related training in the last four weeks - time series
3.4 Participation in job-related training in the last four weeks by economic activity and age, 2003
(c) STUDENTS AND STARTERS
3.5 Students in further education by country of study, mode of study, gender and subject group, during 2001/02
3.6 Students in higher education by level, mode of study, gender and subject group, 2001/02
3.7 Full-time students from overseas in higher education, by type of course, gender and country, 2001/02 and time series
3.8 Students in further education by country of study, mode of study, gender and age, during 2001/02
3.9 Students in higher education by level, mode of study, gender and age, 2001/02
3.10 Students in further and higher education - time series
3.11 Further education students in the first year of their course of study by country of study, mode of study, gender and age, 2001/02
3.12 New entrants to higher education by level, mode of study, gender and age, 2001/02
3.13 Starts in Government-Supported Work-Based Learning for Young People programmes by region time series
3.14 Work-Based Learning for Young People: characteristics of starts - time series
3.15 Participants in Government-Supported WorkBased Learning for Young People programmes by region - time series
(d) JOB RELATED TRAINING
3.16 Participation in job-related training in the last four weeks by economic activity and region, 2003
3.17 Participation by employees in job-related training in the last four weeks by type of training and a range of personal characteristics, 2003
3.18 Participation by employees in job-related training in the last four weeks by a range of economic characteristics, 2003
3.19 Participation by employees in job-related training in the last four weeks by type of training and a range of economic characteristics, 2003
3.20 Participation by employees in job-related training in the last four weeks by region and a range of personal and economic characteristics, 2003
3.21 Length of job-related training, 2003
3.22 Location of off-the-job training, 2003
3.23 Hours spent on job-related training in the last week, 2003
3.24 Participation by employees in job-related training in the last thirteen weeks by a range of personal and economic characteristics - time series
3.25 Employees of working age in the UK - summary of job-related training received, 2003
3.26 Participation by employees in job-related training in the last thirteen weeks by disability status and a range of personal characteristics, 2003

[^11]

[^12]1 Excuding higher education.
2 As a percentage of the estimated 16 year old and 17 year old population respectively. Population data does not include post-Census revisions.
3 Including sixth form colleges in England, and a small element of further education in higher education institutions in England, Scotland (from 1998/99) and Wales (from 2000/01).
4 Figures for England exclude overlap between full-time education and Government-supported troining.
5 Great Britain only up to 1999/00. For 2000/01, England \& Wales.
6 The estimates of 16 year olds at school exclude those pupils who leave school in the Winter term at the minimum statutory school-leaving age.
7 Figures shown for Government-supported training are not directly comparable with later years.
8 Includes revised data.
9 Parricipation in part-time FE should not be aggregated with full-time FE or schools activity due to the unquantifiable overlap with these activities.
10 Provisional.

## Source: Labour Force Survey, Spring of each yearlo

1 Job-related training includes both on and off-the-job training.
2 Working age is defined as males aged $16-64$ and females aged $16-59$.
3 Expressed as a percentage of the total number of people in each group.
4 Due to a change in the LFS questionnaire, data from Summer 1994 onwards are not comparable with earlier figures.
5 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
6 The split into employees and self-employed is based on respondents' own assessment of their employment status.
7 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
8 Unemployed according to the International Labour Organization (ILO) definition.
9 Economically inactive are those who are neither in employment nor ILO unemployed.
10 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
1 Further education (FE) institution figures are whole year counts except for Northern Ireland, which are collected on a snapshot basis. Higher education (HE) institution figures are based on the HESA July 'standard registration' count and are not directly comparable with previous years.
2 Full-time includes sandwich. Part-time comprises both day and evening, including block release.
3 Provisional.
4 Further education institution figures for England include colleges and LSC funded external institutions, but exclude Specialist designoted colleges. Figures for 2001/02 are not therefore directly comparable with those shown for 2000/01.
5 Figures for Scotland further education colleges are enrolments rather than headcounts. Due to a reclassification of subject groupings, subject categories for Scotland cannot be directly compared with previous years prior to 1999/00.
6 Including ITT and INSET.
7 Includes Combined and general categories, plus, for England further education institutions, Hotel and Catering and Basic Education.
8 Includes estimated breakdowns for further education students in UK higher education institutions, and in further education institutions in England.

Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
1 Higher Education Statistics Agency (HESA) higher education institutions indude Open University students. Part-time figures include dormant modes, those writing up at home and on sabbaticals.
2 Fullt-ime includes sandwich. Part-time comprises both day and evening, including block release and open/distance learning.
3 Revised to include HESA July 'standard registration' count data, and 2001/02 figures for HE students in FE institutions in Wales and Northern Ireland, and FE colleges in Scotland. FE institution figures for England also now exclude Specialist designoted colleges.
4 Figures for higher education (HE) institutions are based on the HESA July 'standard registration' count and are not directly comparable with previous years. Figures for further education (FE) institutions (other than in Scotland FE colleges) are snapshots counted at a particular point in the year [November for FE institutions in England and Northern Ireland, and December for FE institutions in Wales]. Students starting courses after these dates will not therefore be counted. Figures for Scotland, however, are whole year (not snapshot) enroments (rather than headcounts).
5 Includes data for higher education students in further education institutions in Wales which cannot be split by level. Figures for home, part-time UK higher education institution dormant modes, those writing up at home, and on sabbaticals, which cannot be identified by subject are also included in the 'Unknown' row, throughout the levels.
6 Including ITT and INSET.
7 Includes Combined and general categories, plus, for England further education institutions, Hotel and Catering and Basic Education.
8 Numbers in grouped countries do not sum to overall student numbers due to overlaps.

Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
1 Revised to include HESA July 'standard registration' count data, and 2001/02 figures for HE students in FE institutions in Wales and Northern Ireland, and FE colleges in Scotland. FE institution figures for England also now exclude Specialist designoted colleges.
2 Figures for higher education (HE) institutions are based on the HESA July 'standard registration' count and are not directly comparable with previous years. Figures for further education (FE) institutions (other than in Scotland FE colleges) are snapshots counted at a particular point in the year [November for FE institutions in England and Norrthern Ireland, and December for FE institutions in Woles]. Students starting courses after these dates will not therefore be counted. Figures for Scotland, however, are whole year (not snapshot) enrolments (rather than headcounts).
3 Includes North Korea and South Korea [South Korea was ranked 26 in 2000/01].
4 Data ore for 1981/82.
5 Except for 1980/81 Gibraltar is included in both EU and Commonwealth figures, and Cyprus and Malta are included in Other Europe and Commonwealth figures. Numbers in grouped countries do not sum to overall student numbers due to overlaps.
6 Estimated.
7 Includes those students whose country of domicile is not known.
3.8

Students in further education ${ }^{1}$ by country of study, mode of study ${ }^{2}$, gender and age ${ }^{3}$, during 2001/024,5

[^17]1 Home and overseas students.
2 Higher education (HE) figures include Open University students. Part-time figures include dormant modes, those writing up at home and on sabbaticals.
3 Full-time includes sandwich. Part-time comprises both day and evening, including block release and open/distance learning.
4 Further education (FE) figures are enrolments and are not comparable with later figures (other than for Scotland further education colleges) which are headcounts.
5 Includes students in Scotland whose gender is not recorded.
6 Estimated.
7 FE institution figures are whole year counts except for Northern Ireland, which are collected on a snapshot basis.
8 Figures for 2000/01 and 2001/02 indude data for FE institutions in Wales which cannot be split by level.
9 Includes 1994/95 higher education in further education institution data for England and for Wales.
10 Figures for students (other than in Scotland further education colleges) are snapshots counted at a particular point in the year [December for UK HE institutions and FE institutions in Wales, November for FE institutions in England and Northern Ireland]. Students starting courses after these dates will not therefore be counted. Figures for Scotland, however, are whole year (not snapshot) enrolments (rather than headcounts).
11 Figures for higher education (HE) institutions are based on the HESA July 'standard registration' count and are not directly comparable with previous years.

Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
1 Figures reflect those on a first year of study, i.e. not necessarily brand new entrants to higher education. Higher Education Statistics Agency (HESA) institution figures include Open University students.
2 Full-time includes sandwich. Part-time comprises both day and evening, including block release and open/distance learning.
3 Ages as at 31 August 2001 (1 July for Northern Ireland and 31 December for Scotland).
4 Figures for higher education (HE) institutions are based on the HESA July 'standard registration' count and are not directly comparable with previous years. Figures for further education (FE) institutions (other than in Scotland FE colleges) are snapshots counted at a particular point in the year [November for FE institutions in England and Northern Ireland, and December for FE institutions in Wales]. Students starting courses affer these dates will not therefore be counted. Figures for Scotland, however, are whole year (not snapshot) enrolments (rather than headcounts).
5 Revised to include HESA July 'standard registration' count data, and 2001/02 figures for HE students in FE institutions in Wales and Northern Ireland, and FE colleges in Scotland.
6 Includes data for HE students in FE institutions in Wales which cannot be split by level.

[^19]1 Work-Based Training for Young People in Wales. From 26 March 2001, responsibility for Work Based Learning for Adults (WBLA) in England transferred to the Employment Service (ES), which is now part of the Department for Work and Pensions (DWP). From April 2001, the National Council for Education and Training for Wales - ELWa, assumed responsibility for training programmes for Wales. WBLA figures are excluded from this table.
2 From 26 March 2001, the data source for England changed to the Learning and Skills Council's Individualised Learner Record, and there is a discontinuity in the fime series. The number of young people in learning on this date from the new data source was 2,000 lower for AMA, 3,000 lower for FMA and 4,000 lower for OT.
3 Includes financial year data for Wales.
4 Includes revised data.
5 Includes Advanced Modern Apprenticeships, Foundation Modern Apprenticeships, Other Training, and, from October 1999, Life Skills (LS) and Skill Build.
6 From 1995-96, figures for Work-Based Learning do not equate the sum of the starts on Modern Apprenticeships, National Traineeships and Other Training because they exclude conversions between programmes whereas the figures for individual programmes include conversions from other programmes.
7 Government Office Regions in England plus country totals for England and for Wales.
8 Figures may not be the sum of the components shown due to rounding.
9 For 1991, Eastern figures were included with East Midlands.
10 Known as Modern Apprenticeships in Wales (and formerly in England).
11 Known as National Traineeships in Wales (and formerly in England).
12 Other Training includes Youth Credits \& Youth Training.

[^29]1 Job-related training includes both on and off-the-job training.
2 Working age is defined as males aged $16-64$ and females aged 16 -59. These figures include unpaid family workers, those on government employment and training programmes, or those who did not answer, who are excluded from the Economic activity analyses below.
3 Expressed as a percentage of those in the group who received training in the last four weeks.
4 The total length of the course was recorded not just the part completed. For people engaged on day or block release, the total length of training is given. For people who dropped out of a course the time spent on the course, not the total length is recorded
5 Apart from rounding, figures may not sum to grand totals because of questions in the LFS which were unanswered or did not apply.
6 People of working age who received on or off-the-job training in the last four weeks.
7 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and troining programmes.
8 The split into employees and self-employed is based on respondents' own assessment of their employment status.
9 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
10 Unemployed according to the International Labour Organization (ILO) definition.
11 Economically inactive are those who are neither in employment nor ILO unemployed.
12 Government Office Regions in England and each UK country.
13 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

## POST COMPULSORY EDUCATION AND TRAINING: JOB-RELATED TRAINING

Location of off-the-job training', 2003

Source: Labour Force Survey, Spring 200312
1 Job-related troining includes both on and off-the-job training.
2 Working age is defined as males aged $16-64$ and females aged $16-59$. These figures include unpaid family workers, those on government employment and training programmes, or those who did not answer, who are excluded from the Economic activity andlyses below.
3 Expressed as a percentage of those in the group who received training in the last week, who specified a valid length of training.
Apart from rounding, figures may not sum to grand totals because of questions in the LFS which were unanswered or did not apply.
Those who specified a valid length of training.
Employees are those in employment excluding the seffemployed, unpaid family workers and those on government employment and training programmes.
The split into employees and self-employed is based on respondents' own assessment of their employment status.
Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
9 Unemployed according to the International Labour Organization (ILO) definition.
10 Economically inactive are those who are neither in employment nor ILO unemployed.
11 Government Office Regions in England and each UK country.
12 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

1 Job-related training includes both on and off-the-iob training.
2 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
3 Working age is defined as males aged 16-64 and females aged 16-59.
4 Expressed as a percentage of those in the group who received training in the last thirteen weeks.
5 Apart from rounding, figures may not sum to grand totals beccause of questions in the LFS which were unanswered or did not apply.
6 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

# Chapter 4 Qualifications 

## CHAPTER 4: QUALIFICATIONS

## Key Facts

## GCE, GCSE, SCE and Vocational qualifications

- In 2001/02, 38.5 per cent of young people in the United Kingdom achieved 2 or more GCE A level passes or equivalent in schools and FE colleges. At GCSE/Standard Grade level, of pupils in their last year of compulsory schooling:
- 52.5 per cent gained 5 or more passes at grades $\mathrm{A}^{*}-\mathrm{C} / 1-3$
- $\quad 23.7$ per cent gained 1-4 passes at grades A*-C/1-3
- $\quad 18.4$ per cent gained no passes at grades $\mathrm{A}^{*}-\mathrm{C} / 1-3$ but gained at least one grade $\mathrm{D}-\mathrm{G}$
- 5.4 per cent had no graded results. (Table 4.1)
- Over 5.9 million entries were made for GCSE/Standard Grade examinations by pupils in their last year of compulsory education in schools in the United Kingdom in 2001/02. $59 \%$ of all entries achieved passes at grade A*-C.
(Table 4.2)
- A total of 871,700 entries were made by young people for GCE A level/Higher Grade examinations in the United Kingdom in 2001/02. 67\% of all entries achieved grades $\mathrm{A}-\mathrm{C}$. (Table 4.3)
- Of the 72,500 Intermediate and Foundation GNVQ entries in England, Wales and Northern Ireland in 2001/02, 48\% achieved GNVQ Part One, and 24\% achieved a Full GNVQ. Of the VCE A/AS and Double Award passes in 2001/02, 33,900 were Double Awards, 25,800 were A level and 10,600 were AS passes. (Table 4.4)

## Subject Choice

- Most frequently studied subjects at GCE A level/Higher Grade were English (English 42,400, English Literature 64,300), Mathematics $(73,400)$, Social Studies (72,900), Biological Sciences $(60,600)$ and General Studies $(59,000)$. (Table 4.3)
- Of the 70,300 VCE A/AS and Double Award qualifications obtained in England, Wales and Northern Ireland in 2001/02, the largest subject areas were Business and Information Technology with 19,100 and 18,700 qualifications obtained respectively. (Table 4.4)

## Full Vocational Awards

- There were 408,000 NVQs awarded in the United Kingdom in 2001/02. Almost three-fifths ( $57 \%$ ) were awarded at level 2 . Almost 0.5 million
"Other" vocational qualifications were awarded in 2001/02, and around half of these ( $49 \%$ ) were awarded at level 1. (Table 4.5)

## National Learning Targets

- In Spring/Summer 2003, progress towards selected targets in England was:
- $75 \%$ of 11 -year-olds achieving level 4 or above in English (target 85\%)
- $73 \%$ of 11 -year-olds achieving level 4 or above in mathematics (target 85\%)
- $68 \%$ of 14 -year-olds achieving level 5 or above in English, $70 \%$ in mathematics, and $67 \%$ in ICT (target 75\%)
- $68 \%$ of 14 -year-olds achieving level 5 or above in science (target 70\%)
- $53 \%$ of 16 -year-olds gaining at least five GCSEs at grades $\mathrm{A}^{*}-\mathrm{C}$ (target: on average, a 2 percentage point increase each year between 2002 and 2006)
- $86 \%$ of 16 -year-olds gaining at least five GCSEs at grades $\mathrm{A}^{*}-\mathrm{G}(\operatorname{target} 92 \%)$
- $76 \%$ of 19 -year-olds with a "level 2 " qualification (target 85\%)
- $52 \%$ of 19 -year-olds with a "level 3 " qualification (target 55\%)
- $49 \%$ of adults with a "level 3 " qualification (target 52\%). (Table 4.7)
- In Summer 2003, progress towards selected targets in Wales was:
- 79\% of 11-year-olds achieving level 4 or above in English, $78 \%$ in Welsh (first language), $75 \%$ in mathematics, and $88 \%$ in science (target 80-85\%)
- $63 \%$ of 14 -year-olds achieving level 5 or above in English, 74\% in Welsh (first language), $68 \%$ in mathematics, and $69 \%$ in science (target 80-85\%)
- $51 \%$ of 15 -year-olds gaining at least five GCSEs at grades $\mathrm{A}^{*}-\mathrm{C}(\operatorname{target} 58 \%)$
- $85 \%$ of 15 -year-olds gaining at least five GCSEs at grades A*-G (target $95 \%$ ).
(Table 4.7)

## Higher Education Qualifications

- A total of 486,400 higher education qualifications were awarded in higher education institutions in
the United Kingdom in 2001/02. Of these, 83,100 were sub-degree qualifications, 267,100 were first degrees, 11,400 were PhD or equivalents and 124,800 were at Masters / other postgraduate level. $57 \%$ of these qualifications were awarded to women. (Table 4.8)

## Highest Qualification Held

- $44 \%$ of people of working age were qualified to NVQ level 3 equivalent or above in Spring 2003, with $25 \%$ of people of working age qualified to NVQ level 4 equivalent or above, and $15 \%$ having no qualification. (Table 4.9)
- Attainment levels vary by Government Office region, with London having a higher proportion of highly qualified people (i.e. qualified to NVQ level 4 and 5 or equivalent) than any other UK region in Spring 2003. (Table 4.9)
- Attainment levels varied greatly by economic activity with $31 \%$ of the economically inactive and $21 \%$ of the unemployed having no qualifications, compared to $10 \%$ of employees and $12 \%$ of the selfemployed. (Table 4.9)
- $90 \%$ of employees in professional occupations held two or more A levels, or a higher level qualification, compared with $62 \%$ of managers and senior officials, $22 \%$ of process, plant and machine operatives and $20 \%$ of those in elementary occupations. (Table 4.9)

## People Working Towards a Qualification

- In 2001/02, of the 206,700 LSC Work-based learning provision programme leavers in England, $36 \%$ met the requirements of their Modern Apprenticeship Framework or NVQ. The proportion for those aged 16-18 meeting these was $37 \%$, and for those aged 19 and over, $33 \%$.
(Table 4.6)
- $18 \%$ of all people of working age were studying towards a qualification in Spring 2003. Young people aged 16-24 were far more likely to be working towards a qualification than people in any other age group. (Table 4.10)
- People of non-white ethnic origin were far more likely to be studying towards a qualification than people of white ethnic origin; $27 \%$ compared to 17\%. (Table 4.10)

## CHAPTER 4: QUALIFICATIONS - LIST OF TABLES

4.1 GCE, GCSE, SCE and vocational qualifications obtained by pupils and students at a typical age, and students of any age - time series
4.2 GCSE and SCE Standard Grade entries and achievements for pupils in their last year of compulsory education in all schools by subject and gender by the end of 2001/02
4.3 GCE A level/SCE Higher Grade entries and achievements for young people in all Schools and Further Education Sector Colleges by subject and gender, 2001/02
4.4 GNVQ entries and results, and VCE A/AS and Double Awards qualifications obtained, by subject and gender, 2001/02
4.5 Full vocational awards by type of qualification, equivalent level and gender - time series
4.6 Success rates in Learning and Skills Council funded Work-Based Learning provision: by programme type and age group, 2001/02
4.7 Progress towards selected National Targets - time series
4.8 Students obtaining higher education qualifications by level, gender and subject group, 2001/02
4.9 Highest qualification held by people of working age, by gender, age, region and economic activity and, for employees of working age, by occupation, 2003
4.10 People currently working towards a qualification, 2003

Source: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
1 From 1999/00 National Qualifications (NQ) were introduced in Scotland but are not all shown until 2000/01. NQs include Standard Grades, Intermediate 1 \& 2 and Higher Grades. The figures for Higher Grades combine the new NQ Higher and the old SCE Higher and include Advanced Highers.
2 Pupils aged 15 at the start of the academic year, pupils in Year S 4 in Scotland.
3 Up to 1999/00, pupils in schools and students in further education institutions aged 16 -18 at the start of the academic year in England, Wales and Northern Ireland as a percentage of the 17 year old population. From 2000/01, pupils in schools and students in further education institutions aged $17-18$ at the start of the academic year in England, aged 17 in Wales, and aged 16 -18 in Northern Ireland, as a percentage of the 17 year old population. Pupils in Scotland generally sit Highers one year earlier and the figures relate to the results of pupils in Year $\mathrm{S} / \mathrm{S} 6$.
4 Standard Grades $1-3 /$ Intermediate $2 A-C /$ Intermediate $1 A-B$ in Scotland.
5 Grades D-G at GCSE and Scottish Standard Grades 4-6/Intermediate 1(C)/Access 3 (pass).
63 or more SCE/NQ Higher Grades/2 or more Advanced Highers/1 Advanced Higher with more than 2 Higher Passes in Scotland.
7 Includes Vocational Cerificates of Education (VCE) and, previously, Advanced level GNVQ/GSVQ, which is equivalent to 2 GCE A levels or AS equivalents/3 SCE/NQ Higher grades.
82 AS levels or 2 Highers/ 1 Advanced Higher or 1 each in Scotland, count as 1 A level pass. Includes those with 1.5 A level passes.
9 Includes GNVQ/GSVQ Intermediate Part 1, Full and Language unit which are equivalent to 2,4 and 0.5 GCSE grades A*-C/SCE Standard grades $1-3$ respectively. Figures include those with 4.5 GCSEs.
10 Indudes GNVQ/GSVQ Foundation Part 1, Full and Language unit which ore equivalent to 2,4 and 0.5 GCSE grades D-G/SCE Standard grades 4.7 respectively.
11 Figures for Scotland include students in Year S4 only.

GCSE and SCE Standard gradel entries and achievements² for pupils in their last year of compulsory education³, in all schools by subject and gender by the end of 2001/02

## Or equivalent.

2 Where a candidate attempted an examination in the same subject more than once, only the highest value pass has been counted. However, some double counting may occur if a student enters for more than one subject within a subject category.
3 Those in all schools who were 15 at the start of the academic year, i.e. 31 August 2001. Pupils in Year $S 4$ in Scotland.
4 Standard Grade in General Science in Scotland.
5 England and Wales only.
Incudes related subjects such as Statistics.
Includes Information Systems in England and Wales.
8 Craft and Design, Graphic Communications and Technological Studies in Scotland.
9 Welsh as a first language.
10 Includes Welsh as a second language.
11 Scotland only.
12 Includes combined syllabuses, Area studies, Gaelic, Welsh literature, Creative Arts and General Studies.
13 Science Double Award are counted twice in this row.
14 English or Welsh as a first language in Wales.
15 Only includes successful entries (grade $A^{*}-G$ ) in Wales so the number of entries is an underestimate.
16 Percentages are those achieving grades $A^{\star}-C$ or D-G respectively in all these subjects.
17 England and Scotland only.

GCE A level $1 /$ SCE Higher grade ${ }^{2}$ entries and achievements for young people ${ }^{3}$ in all Schools and Further Education Sector Colleges by subject and gender, 2001/02

1 Figures for Wales include Advanced Supplementary (AS), Advanced Vocational Cerrificates of Education (AVCEs) and Advanced Subsidiary Vocational Cerificates of Education (ASVCES). Each AVCE double award is counted as two entries, however a double oward is allocated two grades which may not be the same.
2 Includes the new Scottish qualification framework from 1999/00 which contains different subject categories to those previously used. The new Intermediate 1 and 2 qualifications (which overlap with Standard Grades and Highers) are not included in the table.
3 Pupils in schools and students in further education institutions aged $16-18$ at the start of the academic year in England and in Northern Ireland, and aged 17 in Wales. Pupils in Scotland generally sit Highers one year earlier and the figures relate to the result of pupils in Year $\mathrm{S} / \mathrm{S} 6$.
4 Compensatory Award in Scotland.
5 Includes Information Systems.
6 Craft and Design, Graphic Communication and Technological Studies in Scotland and Northern Ireland.
7 Includes Accounting, Management and Information Studies and Secretarial Studies in Scotland. Includes Business Studies and Accounting in Northern Ireland.
8 England and Wales only.
9 Woles only.
10 Includes Classical Greek and Latin.
11 Includes music.
12 Scotland only.

Source: Department for Education and Skills; Labour Force Survey, Spring Quarter of each yearr; National Assembly for Wales 9
1 There are further Spending Review 2002 targets in England, and BEST/ETAP targets in Wales which are not included in this table.
22003 figures against the targets for 11 -year-olds to 16 -year-olds are provisional and subject to change.
3 The attainment of those aged 19-21 is used as a proxy for achievement at age 19.
4 "level 2 " is defined here as 5 GCSEs ot grades $A^{*}$-C, an NVQ level 2 , an Intermediate GNVQ or equivalent.
5 Between 2002 and 2004 the proportion of 19 -year-Ids who get qualifications equivalent to 5 GCSEs at Grades $\mathrm{A}^{*}$ - C to rise by 3 percentage points.
6 "level 3 " is 2 A levels, an NVQ level 3 , an Advanced GNVQ or equivalent.
7 Adults consist of males aged 18-64 and females aged 18-59, who are in employment or actively seeking employment.
8 The percentage figures are those who have achieved "level 2 ".
9 More up-to-date information may be available through the DFES Research and Statistics Gateway 'www.dfes.gov.uk/ssgateway', or the National Assembly for Wales 'www.wales.gov.uk'.
10 Age ot the start of the academic year.
11 The corresponding figure for 1999 was 1,322 pupils and the target for 2004 is to reduce to 992 pupils.

Labour Force Survey, Spring Quarters 14,15
1 Working age is defined as males aged 16 -64 and females 16 -59. These figures include unpaid family workers, those on government employment and training programmes, or those who did not answer, who are excluded from the economic activity analyses below.
Includes Higher degrees and other qualifications ot Level 5
Includes First degree, Other degree and sub-degree higher education qualifications such as teaching and nursing certificates, HNC/HNDs, other HE diplomas and other qualifications at Level 4 .
4 Vocational qualifications include those with RSA Advanced Diploma, BTEC Nationals, ONC/ONDs, City and Guilds Advanced Craff or trade apprenticeships and other professional or vocational qualifications of Level 3 . Academic qualifications indude those with more than one GCE A level or SCE Highers/ Scotish Cerrificates of Sixth Year Studies (CSYS) at Level 3.
5 Vocational qualifications include those with RSA Diplomas, City and Guilds Craft, BTEC Firsts or trade apprenticeships and other professional or vocational qualifications at Level 2. Academic qualifications include those with one GCE A level, five or more GCSE grades $A^{\star}$-C or equivalent or AS examinations/SCE Highers/CSYS at Level 2.
6 Vocational qualifications include those with BTEC general certificates, YT certificates, other RSA qualifications, other City and Guilds or other professional or vocational qualifications at Level 1. Academic qualifications include those with one or more GCSE grade G or equivalent (but less than five ot grades $\mathrm{A}^{*}$-C) or AS examinations at Level 1 .
7 Apart from rounding, figures may not sum to grand totals because of questions in the LFS which were unanswered or did not apply.
8 Usual region of residence - Government Office Regions in England and each UK country.
9 Employees are those in employment excluding the self-employed, unppid family workers and those on government employment and training programmes.
10 The split into employees and self-employed is based on respondents' own assessment of their employment status.
11 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
12 Unemployed according to the International Labour Organization (ILO) definition.
13 People who are neither in employment nor ILO unemployed.
14 Users of these data should read the LFS entry Annex A, as it contains important information about the LFS and the concepts and definitions used.
15 More up-to-date information may be available through the DfES Research and Statistics Gateway 'www.dfes.gov.uk/sgoteway'.

Source: Labour Force Survey, Spring 2003"
1 Only those of working age; males aged 16 -64 and females aged 16-59. These figures include unpaid family workers, those on government employment and training programmes, or those who did not answer, who are excluded from the Economic activity andlyses below.
2 For those who are working towards more than one qualification the highest is recorded.
3 Expressed as a percentage of those in the group working towards a qualification.
4 Apart from rounding, figures may not sum to grand totals because of questions in the LFS which were unanswered or did not apply.
5 Expressed as a percentage of the total number of people in the group.
6 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
7 The split into employee and self-employed is based on respondents' own assessment of their employment status.
8 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
9 Unemployed according to the International Labour Organization (ILO) definition.
10 People who are neither in employment nor ILO unemployed.
11 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

# Chapter 5 <br> Destinations 

## CHAPTER 5: DESTINATIONS

## Key Facts

- The number of school leavers in the United Kingdom increased by 8,700 between 2001 and 2002 , to 711,500 . The proportion of pupils at the end of compulsory education continuing their education in England remained at 72\% - 11 percentage points higher than in 1991. In Northern Ireland, the proportion increased to 68\% in 2002-10 percentage points higher than in 1991. In Scotland the percentage of all school leavers continuing their education remained at $52 \%$ in 2002 , some 20 percentage points higher than in 1991. The percentage of school leavers continuing their education in Wales in 2002 fell to $73 \%$ - still 11 percentage points higher than in 1991 (Table 5.1)
- By 25th March 2001, $76 \%$ of leavers from Work-Based Learning for Young People in England were in a job 6 months after leaving the programme, compared to $70 \%$ in 1999/00. The proportion who were unemployed 6 months after leaving was $9 \%$ - a reduction of 2 percentage points from 1999/00. (Table 5.2)
- 120,300 first-degree graduates from the academic year 2001/02 were known to go into employment, 12,400 graduates were believed to be unemployed and 36,400 graduates continued their education/training. (Table 5.3)
- Of those with a known destination, $65.8 \%$ were in employment, $19.9 \%$ continued their education/training and $6.8 \%$ were believed unemployed. (Table 5.3)

Sources: School Leavers Destinations Surveys; Careers Service Activity Survey (England); Careers Wales Association Ltt; Scottish Executive; Northern Ireland Department of Employment and Learning
1 Figures may not sum to $100 \%$ due to rounding.
2 Including those who have employed status under Work-based training/learning for young people schemes.
3 Figures recorded in the table for Wales, after 1996, are not classitied as 'National Statistics'.
4 These figures cannot be directly compared with those for England, Wales and Northern Ireland as they cover the destinations of pupils from classes $\mathrm{S4} 4 \mathrm{S5}$ and S 6 who left Education Authority schools during or at the end of the years academic session. England and Wales figures relate to destinations of year 11 pupils leaving secondary school, while figures for Northern Ireland relate to year 12 pupils.
5 Other than for 1991, figures for 'unemployed' cannot be identified separately and are included within the 'other known destinations' category.

Sources: WBLYP trainee database
1 There was a discontinuity in the survey from which outcomes are derived affer March 2001, due to changes in response patterns and better identification of leavers.
2 Data are now collected on an academic year basis (1 August-31 July) rather than financial years (1 April-31March), as in previous editions.
3 Formerly known as Modern Apprenticeships. AMA was launched as an initiotive in September 1994 and was fully operational from September 1995.
4 Formerly known as National Traineeships; introduced nationally in September 1997. FMA follow up survey results are for leavers from November 1999 onwards.
5 In a positive outcome = in a job, full-time education or other Government Supported Training.
6 Leavers to September 1990 surveyed three months after leaving. Leavers in October and November 1990 surveyed in June 1991. Leavers from December 1990 surveyed six months after leaving.
7 From April 1995 the definition of Other Training leavers changed, no longer counting those making planned transfers from one training provider to another as leavers. Many of these transfering trainees will not have gained a job or qualification or completed their training. Therefore the change in definition will increase slightly the proportions with jobs and qualifications and those completing their training. The way that data on qualifications gained are collected was changed from August 1991 on. The effect appears to have been to decrease the proportion recorded as gaining full qualifications, but to increase by a similar amount the proportion gaining part qualifications. Data for 1990/91 are therefore not strictly comparable with those for later years.

# Chapter 6 <br> Population 

## CHAPTER 6: POPULATION

## Key Facts

- UK population aged 2 and over at January 2003 was 57.9 million ( 28.2 million males and 29.7 million females). (Table 6.1)
- UK working age population at Spring 2003 was 37.2 million, of which 24.4 million were Employees, 3.2 million were Self employed, 1.4 million were ILO unemployed and 8.0 million were Economically inactive. (Table 6.1)
- UK population aged 2 and over increased by 3.8 per cent between 1991 ( 55.7 million) and 2003 ( 57.9 million). Over the same period the working age population increased by 6.0 per cent, from 35.1 million to 37.2 million. (Table 6.2)
- Of people of working age, between 1991 and 2003, Employees increased by 11.4 per cent ( 21.9 million to 24.4 million), Self employed decreased by 1.1 per cent ( 3.3 million to 3.2 million), Economically inactive increased by 14.1 per cent ( 7.0 million to 8.0 million), and ILO unemployed decreased by over 40 per cent from 2.5 million to 1.4 million. (Table 6.2)

## Chapter 7

International Comparisons

## CHAPTER 7: INTERNATIONAL COMPARISONS

## Introduction

International comparisons of the functioning of education and training systems can help countries to identify their strengths and weaknesses and evaluate their performance against their main competitors. Governments are increasingly looking towards these comparisons as they develop and monitor education and training policies.

The United Kingdom participates in the continuing development of international comparisons of education and training. With help from the National Assembly for Wales, Scottish Executive, the Northern Ireland Department of Education and the Northern Ireland Department for Employment and Learning, DfES supply detailed statistics on education and training in the UK, drawn from this volume and other sources, to the Organisation for Economic Co-operation and Development (OECD), the Statistical Office of the European Union (EUROSTAT) and the United Nations Educational, Scientific and Cultural Organisation (UNESCO).

Based on information supplied by various countries to the international bodies, and the results of international studies, a range of 'indicators' is now available, seeking to compare different aspects of countries' education and training systems and their respective performance.

The comparative tables shown here draw from OECD's "Education at a Glance" (2003 Edition), which includes trends in international comparisons.

It is important to note, however, that international comparisons of education and training are very difficult and should therefore be treated with caution. In addition, some knowledge of the underlying systems in different countries is extremely useful in interpreting the data.

To ensure comparability, most educational activity in different countries has been assigned to 6 internationally-agreed "ISCED" (International Standard Classification of Education) levels of education. The best comparisons are based on such internationally agreed definitions and procedures, backed up by controls to ensure that each country meets these. Despite these efforts, there may still be comparability problems that persist - some of the more important ones are noted below:

## Notes:

## Classifying education

- Coverage of what is considered to be "education" may vary, especially at the pre-compulsory and post-compulsory level e.g. early childhood provision, apprenticeships, adult learning etc.

## Expenditure on education

- Where institutions cover more than one of the education levels (e.g. "lower" (age 11-13) and "upper" (age 14+) secondary school education in the UK), estimates are often required to assign expenditure figures between levels.
- The range of public and private provision varies considerably between countries. In Japan and Australia, private expenditure on educational institutions is almost one-third of that from public sources, and in the United States it is just under half. This figure for the UK is nearer onefifth.
- Public expenditure on education, as a percentage of GDP, is influenced by a number of factors. An obvious one is the proportion of the population of school age, which can vary widely between different countries.
- Expenditure coverage, especially at the HE level, differs according to the extent to which countries include elements such as student support and research and development.

## Participation in education

- Many of the measures shown are on the basis of headcounts, no distinction being possible between full-time and part-time study. Some countries do not even recognise the concept of part-time study, although many of their students would be classified as "part-time" in the UK.
- When comparing expected years of schooling in different countries, the length of the school year and the quality of education offered is not necessarily the same.
- The reasons why adults in some countries are so much less likely than others to participate in university-level education are varied. One important factor may be the extensive provision of vocational education and apprenticeships in continental Europe, likely to have reduced the perceived need to enrol in formal university-level studies as preparation for work.

## Teachers

- A clear definition of a "teacher", especially in higher education, has not been well established in international data collections. Some countries include professional staff such as guidance counsellors and school psychologists in their "teacher" counts.

## CHAPTER 7: INTERNATIONAL COMPARISONS

## Explanatory Note

In the following 'Key Facts' section the UK position is sometimes compared to the 'OECD average'. This 'average' is calculated as the unweighted mean of the data values of all countries for which data are available or can be estimated.

## Key Facts

- Public expenditure on all levels of education in the UK represented $4.8 \%$ of Gross Domestic Product in 2000, slightly below the OECD average of $5.2 \%$. This was higher than Japan (3.6\%) and Germany (4.5\%), but lower than the US (5.0\%), Australia (5.1\%), France (5.8\%), New Zealand (7.0\%) and all of the Scandinavian countries. (Table 7.1)
- In 2000, average expenditure per student per year at the pre-primary level (US\$6,677) was significantly above the OECD average (US\$4,137). The average expenditure per secondary level student (US\$5,991) was close to the OECD average (US\$5,957). Spending per student at primary level (US\$3,877) was below the OECD average (US\$4,381). (Table 7.2)
- Average expenditure per higher education student in the UK in 2000 (US $\$ 9,657$ ) was slightly above the OECD average (US\$9,571) however, the US spent over twice the amount per higher education student as the UK. (Table 7.2)
- The age range at which over $90 \%$ of the population are enrolled in education in the UK each year is $4-15$. In almost all other OECD countries, compulsory education does not start until age 6 or 7 , compared with age 5 in the UK. (Table 7.3)
- In 2001, given current conditions, a UK 5 year old could expect to enrol in 18.9 years of full-time and part-time education during their lifetime, compared with the OECD average of 16.9 years. Expected years in education in the UK increased by $10 \%$ between 1995 and 2001. They are currently highest in Australia, where a 5 year old can expect to enrol in 20.6 years of full-time and part-time education. (Table 7.3)
- The ratio of students to teaching staff in the UK was above the OECD average at all levels of education in 2001. (Table 7.4)
- In 2000, 15 year olds in the UK were above the OECD average in reading, mathematical and scientific literacy. (Table 7.5)
- In 2001, the UK graduation rate for all first degrees ( $37.4 \%$ ) was above the OECD average (30.3\%). The UK had the highest rate for medium term first degree programmes (3-5 years duration) and the $5^{\text {th }}$ highest for advanced research programmes. (Table 7.6)
- In 2001, the proportion of primary and secondary teachers in the United Kingdom aged less than 30 was well above the OECD average. (Table 7.7)

Source: OECD, Education at a Glance, 2003
1 Direct expenditure for institutions and public subsidies to households e.g. for tuition fees and living costs. The definition of "education expenditure" used by OECD is different from the definition used in Chapter 1 of this Volume.
2 Includes expenditure for early childhood education and other miscellaneous expenditure.
3 Post-secondary non-tertiary is included in 'higher' education and is excluded from 'primary and secondary' education.
4 Postsecondary non-tertiary is included in both 'primary and secondary' and 'higher' education.

[^41]1 Calendar year 2000. Where the financial year and/or school year do not match the calendar year, corresponding weightings are made.
2 Calculated by multiplying the expenditure per full-time equivalent student per year by the average number of years of duration of higher education studies. Includes students who do not complete their course.
3 Included in secondary education figure.
4 The duration of higher education studies is obtained by a special survey conducted in 1997 for the academic year 1995.
5 Public institutions only.
6 Included in primary education figure.
7 Public and Government-dependent private institutions only.
8 Public and independent private institutions only.

Sources: OECD, Education at a Glance, 2003; UNESCO Statistical Yearbook, 1999
1 Calculated as the sum of the net enrolment rates in education for each single year of age from age 5 onwards, divided by 100 .
2 Age at start of academic year.
3 Age at end of academic year.
4 Coverage of enrolments in further education has been expanded from a "snapshot" to a "whole year" count. This has had an effect on "school expectancy" figures which are not directly comparable with figures from before 1999.

Ratio of students to teaching staffl by level of education (based on full-time equivalents), 2001

Source: OECD, Education at a Glance, 2003

1 Includes head teachers and administrative personnel involved in teaching, pro-rata.
2 Includes only general secondary education programmes.
3 Public institutions only.
4 Incuded in primary education figures.

The ability to understand, use and reflect on written texts in order to achieve one's goals, to develop one's own knowledge and potential, and to participate effectively in society.
2 Concerns student's ability to recognise and interpret mathematical problems encountered in their world, to translate these problems into a mathematical context, to use mathematical knowledge and procedures to solve the problems within their mathematical context, to interpret the results in terms of the original problem, to reflect upon the methods applied, and to formulate and communicate the outcomes.
3 Reflects students' ability to use scientific knowledge, to recognise scientific questions and to identify what is involved in scientific investigations, to relate scientific data to claims and conclusions, and to communicate these aspects of science.
4 The OECD average score is set to 500 .
5 ' + ' indicates a mean score significantly above the OECD average, ' - ' indicates a mean score significantly below the OECD average.

Source: OECD, Education at a Glance, 2003
1 Calculated as the ratio of graduates to the population at the typical age of graduation, multiplied by 100 , except for Postgraduate.
2 "University-level" higher education refers to "largely theoretically based" courses with a minimum of 3 years full-fime-equivalent duration. In the UK, this comprises first and higher degrees. "Non university-level higher education" courses are "more practically-oriented and occupationally specific". In the UK, this level comprises "sub-degree" higher education courses, such as HNCs, HNDs, Dip HEs.
3 Calculated by summing the graduation rates by single year of age, except for France, Italy, Japan, Korea, Mexico, the Netherlands and the United States.
4 Three to less than 5 years duration.
5 Five or more years duration.

3 Included in secondary education figures.

## Annex A

## SOURCES OF EDUCATION AND TRAINING STATISTICS

This section gives details of the current major sources of education and training statistics used in this publication. Previous editions of "Education and Training Statistics for the United Kingdom" and its predecessors, and "Training Statistics", give earlier sources used.

## List of Sources

1 Education Expenditure
2 Further Education Statistics

3 Higher Education Statistics Agency (HESA)
4 Labour Force Survey (LFS)

5 Population
6 Public Examinations: GCSE/GNVQ, GCE, SCE Standard Grade and National Qualifications (NQ)

7 School Leaver Destinations
8 Schools Statistics

9 Government Supported Work-Based Learning for Young People (WBLYP)

10 Vocational Qualifications
11 International Comparisons

## 1 EDUCATION EXPENDITURE

HM Treasury provided education expenditure figures in Tables 1.1 and 1.2 from their Public Expenditure Statistical Analysis (PESA). Expenditure on services is a definition of aggregate public spending consistent with Total Managed Expenditure (TME), where TME is a measure of public sector expenditure drawn from components in national accounts produced by the Office for National Statistics (ONS). It is the consolidated sum of current and capital expenditure of central and local government, and public corporations, but excludes net public service pension payments in Annually Managed Expenditure (AME), debt interest payments and other accounting adjustments. Gross Domestic Product (GDP) figures and deflators are based on the September 2003 National Accounts release. Table 1.3 reports identifiable expenditure on education services by country, and is also derived from PESA.

## 2 FURTHER EDUCATION STATISTICS

In April 2001 the publication of data on further education in England became the responsibility of the Learning and Skills Council (LSC), which took over responsibility for funding the further education sector in England from the Further Education Funding Council (FEFC). The source used for the FE data for England is the Individualised Student Record (ISR). At the same time the National Council for Education and Training for Wales (ELWa) became responsible for collection of information in Wales - statistics are provided by the National Assembly for Wales (NAfW). Statistical information on further education students in Scotland are provided by the Scottish Executive, from the Scottish Further Education Funding Council (SFEFC), and institutes of further education provide data for Northern Ireland to the Department for Employment and Learning (DELNI). The Higher Education Statistics Agency (HESA) provides data on FE students in higher education institutions in the UK.

## 3 HIGHER EDUCATION STATISTICS AGENCY (HESA)

From the academic year 1994/95 onwards, the Higher Education Statistics Agency (HESA) has collected information for HE students within UK HE institutions. The data collected include enrolment numbers, qualifiers and first destinations (home and EU students only from 1999/00) of qualifiers. The 2001/02 HESA student figures in this volume are taken from the July 'standard registration' count and are not directly comparable with those previously recorded from the December 'snapshot' count.

## 4 LABOUR FORCE SURVEY (LFS)

## Please note that in the LFS tables some separate analyses will not sum to base figures shown

because of unpaid family workers, those on government-supported training and employment programmes, or those who did not answer, who are excluded from the separate analyses (see below for details).

The Labour Force Survey (LFS) was first carried out in the United Kingdom in 1973, as part of the UK's obligations as members of the European Economic Community, and was repeated every two years until 1983. Between 1984 and 1991, the survey was carried out annually, with results published relating to the March to May quarter.

From spring (March to May) 1992 the survey was carried out in Great Britain on a quarterly basis. In Northern Ireland the LFS was conducted in spring 1992 and spring 1993, and was then carried out quarterly from winter (December to February) 1994-95. For about the last nine years, there has been a quarterly survey covering the whole of the UK. The International Labour Organization (ILO) - an agency of the United Nations agrees the concepts and definitions used in the LFS.

The survey is based on a random sample throughout the whole of the United Kingdom. Every three months almost 65 thousand households are contacted and information is collected about the personal and work circumstances of everyone living in these households. As well as these private households, the survey covers two groups of people living in a type of accommodation called communal establishments. These two groups are students in halls of residence (whose parents usually answer the survey questions on the students' behalf) and people living in NHS accommodation (which used to be called nurses' homes). The survey does not sample people living in other forms of accommodation - for example, army camps, local authority homes, or hospitals.

The results of each survey are processed and 'grossed', to provide estimates that cover the whole population. This allows us to say that there are about 28 million people in employment, even though the sample itself has only identified about 60 thousand employed people.

In April 2002 ONS issued re-grossed figures revising LFS estimates back to the summer quarter 1998. This is reflected in time series data used in the 2002 and 2003 editions of Education and Training Statistics for the United Kingdom.

LFS data presented here have not been reweighted to post-2001 Census revised population estimates.

## CONCEPTS AND DEFINITIONS

## All People

This group includes everyone of working age (Males aged 16-64 and Females aged 16-59) and comprises; employees, the self-employed, those on government
supported programmes, unpaid family workers, the ILO unemployed and the economically inactive.

Economically active - people aged 16 and over who are either in employment (did some paid work in the reference week) or ILO unemployed.

Employees / Self-employed - the division between employees and self-employed is based on survey respondents' own assessment of their employment status.

Full-time / part-time - the classification of full-time and part-time is on the basis of self-assessment. People on Government-supported training and employment programmes who are at college in the survey reference week are classified, by convention, as part-time.

Temporary employees - in the LFS these are defined as those employees who say that their main job is nonpermanent in one of the following ways: fixed period contract; agency temping; casual work; seasonal work; other temporary work.

Government-supported training and employment programmes - This group comprises all people aged 15 and over participating in one of the Government's employment and training programmes administered by the Learning and Skills Councils in England, the National Council for Education and Training (ELWa) in Wales, local enterprise companies in Scotland, or the Training and Employment Agency in Northern Ireland. This group of people has been excluded from the separate economic analyses in the tables as the LFS generally undercounts the numbers involved. Administrative sources provide much more reliable information about this group (see separate source number 9).

Unpaid Family Workers - This group comprises persons doing unpaid work for a business they own or for a business that a relative owns. This group of people has been excluded from the separate economic analyses as it is relatively small (around 100,000 ) and when disaggregated many of the estimates fall below the publication threshold of 10,000 .

ILO unemployment - the International Labour Organization (ILO) measure of unemployment refers to people without a job who were available to start work in the two weeks following their LFS interview and who had either looked for work in the four weeks prior to interview or were waiting to start a job they had already obtained

Economically inactive - people who are neither in employment nor unemployed on the ILO measure. This group includes, for example, all those who were looking after a home or retired (as well as those aged under 16).

Industry - the classification of respondents' industry of employment is based on the Standard Industrial Classification 1992, SIC (92).

Occupation - the classification of respondents' occupations are based on the Standard Occupational Classification (SOC2000), introduced in spring 2001.

## 5 POPULATION

The population figures in Chapter 6 are estimated and projected numbers based on demographic data provided by the Office for National Statistics and the Government Actuary's Department, which incorporate post-2001 Census revisions. Data for the 'working age' category and sub-analyses, however, are taken from the Labour Force Survey (see source No 4 for further information), which do not incorporate post-2001 Census revisions.

## 6 PUBLIC EXAMINATIONS: GCSE/GNVQ, GCE, SCE STANDARD GRADE AND NATIONAL QUALIFICATIONS (NQ)

Data for England and Wales are produced from data provided by the GCSE and GCE examining boards and groups. GCSE and GCE data for Northern Ireland are derived from the Summary of Annual Examination Results and Further Education examination results. In Scotland pupils study for the SCE Standard grade (a two-year course leading to examinations at the end of the fourth year of secondary schooling) and Higher grade, which requires at least a further year of secondary schooling. The data source is the Scottish Qualifications Authority (formerly Scottish Examination Board). From 1999/00 additional new National Qualifications (NQ) were introduced in Scotland to allow greater flexibility and choice in the Scottish examination system. NQ include Intermediate $1 \& 2$ designed primarily for candidates in the fifth and sixth year of secondary schooling.

## 7 SCHOOL LEAVER DESTINATIONS

From 1996, information on the early destinations of year 11 pupils in England has been collected via the Careers Service Activity Survey. This replaced the former School Leavers Destination Survey, which collected information on the destinations of year 11 pupils in England and Wales. It provides data about the choices of around half a million young people finishing compulsory education each year. In Scotland, data on destinations of leavers of all ages are collated by Careers Scotland. School leaver information is provided by the Department for Employment and Learning in Northern Ireland. Data for school leavers in Wales are now provided by Careers Wales Association Ltd, and although included in Table 5.1, are not classified as 'National Statistics'.

## 8 SCHOOLS STATISTICS

The Department for Education and Skills carries out an annual Census of schools in England on the third Thursday in January. Data are collected on the number of schools by type; number of pupils by age and sex; number of admissions; pupils' school meal arrangements; number of teaching and non-teaching staff; course of study followed by pupils aged 16 and over;
number of classes as taught and number of pupils with statements of special educational needs. Data collected in January 2003 were published the following October in the publication Statistics of Education: Schools in England. From January 2002 onwards, maintained primary, secondary and special schools, as well as CTCs, have reported data at an individual pupil level. In January 2003, the pupil level coverage expanded to include non-maintained special schools and academies.

Corresponding annual schools census counts are also carried out in January for pupils in Wales (at individual pupil level from 2003) and October for pupils in Northern Ireland. The annual schools census count for pupils in Scotland is carried out in September (excluding information on school meals, which is collected in a separate survey in January) - although the course of study followed by pupils aged 16 and over is not collected, but examination results for each subject are received in August.

## 9 GOVERNMENT SUPPORTED WORK-BASED LEARNING FOR YOUNG PEOPLE (WBLYP)

The main Government supported work-based learning programmes for young people (aged 15-24) are Advanced Modern Apprenticeships (AMA) (Modern Apprenticeships in Wales, and formerly in England), Foundation Modern Apprenticeships (FMA) (National Traineeships in Wales, and formerly in England), Life Skills/Skill Build, and Other Training for Young People. The Department for Education and Skills funds these programmes in England, and in Wales they are funded by the National Assembly for Wales.

Modern apprenticeships (MAs) prepare young people for an economy based on high level skills. MAs aim to radically increase the supply of skills at craft, supervisory and technician (intermediate) level within industry. They provide quality work-based learning for young people to achieve qualifications at FMA (national vocational qualification level 2) and AMA (national vocational qualification level 3) levels.

Since September 2002, young people who are not ready for apprenticeship have joined a new high quality programme, called 'Entry to Employment', which replaces Other Training. This will give them the help they need to enter modern apprenticeships or other employment.

Until 25 March 2001, WBLYP was delivered through the network of Training and Enterprise Councils (TECs), however, since 26 March 2001, work-based learning for young people has been delivered through the Learning and Skills Council (LSC) in England and the National Council for Education and Training for Wales (ELWa), in Wales.

Until 25 March 2001, the statistics came from three sources: aggregate management information returns provided by TECs, certificates that training providers completed for each individual joining a programme (starts certificates) and a postal questionnaire sent to each trainee ${ }^{1}$ six months ${ }^{2}$ after leaving the programme, asking for information on whether they completed their training, usefulness of the training, their current activity and what qualifications they gained. While the questionnaires have changed several times since their introduction, the core questions have remained consistent. From 26 March 2001, the statistics for England come from the LSC-maintained Individualised Learner Record.

Since 1 April 2001, work-based learning for adults in England has been delivered through the Employment Service (ES) as an integral part of provision for long term unemployed adults. ES is now part of the newly formed Department for Work and Pensions (DWP) and data for work-based learning for Adults are no longer shown in this Volume.

Further details of WBLYP can be obtained from the Statistical First Releases (SFRs) at the websites shown in section 1.2 of Annex B.

## 10 VOCATIONAL QUALIFICATIONS

Information on awards of National Vocational Qualifications (NVQs)/Scottish Vocational Qualifications (SVQs), General National Vocational Qualifications (GNVQs) (up to 1999/00)/Advanced Vocational Certificates of Education (VCEs)/General Scottish Vocational Qualifications (GSVQs), and non-accredited full vocational qualifications outside the National Framework (Other VQs), and, for the first time, on Vocationally Related Qualifications (VRQs) made by UK awarding bodies has been taken from the National Information System for Vocational Qualifications (NISVQ) held by DfES. GNVQ figures for 2000/01 and 2001/02, based on the Secondary School and College Performance Tables, are not included in Table 4.5. As part of the NISVQ project, the Qualifications and Curriculum Authority (QCA) provides annual totals (October-September) of NVQ awards by framework area and level. This is used for grossing up the more detailed NVQ award information, collected from the awarding bodies who participate in NISVQ, in order to produce UKNVQ estimates. QCA's totals are based on quarterly returns sent by all NVQ awarding bodies. UK NVQ/SVQ estimates are based on grossed-up numbers of NVQs plus all SVQs.

NISVQ receives detailed information on awards made by four of the largest awarding bodies: City and Guilds, Edexcel, OCR and SQA. However, in 2000/01 the SQA were only able to supply a small amount of information on their qualifications, which meant that it was excluded from any analysis by level.

1 Apart from those known to have ceased training as a result of serious injury, serious illness or death.
2 In the past, follow-up surveys have been carried out 3 months after leaving up to December 1990 leavers for Employment Training and up to September 1990 leavers for Youth Training.

More detailed statistical information on the awards of Vocational Qualifications is presented in the DfES Statistical Bulletin: Vocational Qualifications in the UK 2001/02, which can be found on the DfES Research and Statistics Gateway (www.dfes.gov.uk/rsgateway).

## 11 INTERNATIONAL COMPARISONS

The tables in Chapter 7, International Comparisons, are taken from the Organisation for Economic Co-operation and Development (OECD) 2003 edition of the
publication Education at a Glance, the OECD PISA (Programme for International Student Assessment) 2000, and the UNESCO (United Nations Educational, Scientific and Cultural Organisation) Statistical Yearbook 1999. It is important to note, however, that international comparisons of education and training are very difficult and should therefore be treated with caution. In addition, some knowledge of the underlying systems in different countries is extremely useful in interpreting the data.

## Annex $B$

## UNITED KINGDOM EDUCATION AND TRAINING STATISTICS: OTHER REFERENCE MATERIAL

## 1

GENERAL
1.1 Various summaries of education and training statistics for all four parts of the United Kingdom are contained in the Annual Abstract of Statistics, Regional Trends and Social Trends publications prepared by the Office for National Statistics. Some education statistics also appear in the Digest of Welsh Statistics, Scottish Social Statistics and the Annual Abstract of Statistics, Northern Ireland.
1.2 Each of the home education departments also publishes statistics in a variety of press notices, bulletins and statistical volumes. The relevant websites are as follows:
England: http://www.dfes.gov.uk/rsgateway
Wales: http://www.wales.gov.uk/
Scotland: http://www.scotland.gov.uk
N. Ireland: http://www.deni.gov.uk
http://www.delni.gov.uk

## 2 OFFICE FOR NATIONAL STATISTICS (ONS) PUBLICATIONS

Social Trends is produced annually, No 332003 ( $£ 39.50$. ISBN 011621571 2) being the current edition. This publication brings together some of the more significant statistical series relating to social polices and conditions and presents a series of articles, followed by tables and charts. One chapter concentrates on education and training.

Regional Trends is also published annually, however, the latest edition, No 372002 was issued on 24th October 2002 as a web-based publication only. The publication brings together detailed information highlighting regional variations in the United Kingdom and covers a wide range of social, demographic and economic topics. One chapter concentrates on education and training. The publication can be accessed at http://www.statistics.gov.uk. Regional Trends No 38 is due for publication, in both hard copy and electronic versions, in February 2004.

UK 2004 (£37.50. ISBN 011621661 1), formerly known as The Britain Yearbook, is one of the best known and most respected reference works available on the UK. This $55^{\text {th }}$ Edition provides a mix of statistics, maps, photographs, tables and text covering all aspects of life in the UK. One chapter concentrates on education and training.

Guide to Official Statistics 2000 Edition (£32.00. ISBN 0 11621161 X ) is a comprehensive guide to UK statistics, listing all the statistical censuses, surveys, administrative systems, press releases, publications, databases, CD-ROMs, and other services, by industry sector. The information is also available on StatBase at: http://www.statistics.gov.uk.

Labour Market Trends (incorporating the Employment Gazette) is a monthly publication with over 70 pages of labour market statistical tables. It also contains regular analytical articles using Labour Force Survey data and every month includes an LFS Help Line feature, which presents information frequently requested by users of the LFS. The price per issue is $£ 9.50$ and it is available from The Stationery Office Bookshops.

The Office for National Statistics on behalf of The Government Statistical Service (GSS) has created StatBase ${ }^{\circledR}$ as an on-line access system for deposited official data. The data comes from a variety of individual sources throughout GSS. This can be accessed via the ONS website - the home page can be found at: http://www.statistics.gov.uk.

## 3. INTERNATIONAL STATISTICS

A number of publications providing comparative statistics and indicators on education and training in different countries are now available - some of the most important are listed below.

## Education at a Glance: OECD Indicators 2003.

Organisation for Economic Co-operation and Development. Stationery Office, 2003. $£ 31.00$. ISBN 9264102337.

Key Data on Vocational Training in the European Union: young people's. European Commission, Eurostat, CEDEFOP. Stationery Office, 2000. £13.25. ISBN 9282862151.

Key Data on Education in Europe 2002. Eurydice, Eurostat. Stationery Office, 2003. £12.00.
ISBN 928446358.

## Education across the European Union: Statistics

 and Indicators 1999. European Commission, Eurostat. Stationery Office, 2000. £28.00. ISBN 928279797 X.UNESCO Statistical Yearbook 1999. United Nations Educational, Scientific and Cultural Organisation. UNESCO Publishing and Bernan Press. $£ 65.00$ + VAT. ISBN 9230036358.

## INDEX (BY TABLE NUMBER)

## A

Advanced Modern Apprenticeships (AMAs)
characteristics of starts (3.14)
destinations of leavers (5.2)
new starts (3.13)
participation (3.15)
success rates of leavers (4.6)
Age
educational activities of 16 and 17 year olds (3.2)
full-time and part-time pupils (2.2)
further education students in the first year of their course of study (3.11)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age' (4.1)
GCE, GCSE, SCE and vocational qualifications obtained by students of any age (4.1)
highest qualification held by people of working age (4.9)
intermediate and foundation GNVQ entries and results for pupils aged 15 (4.4)
international comparisons of age distribution of teachers in primary and secondary education (7.7)
international comparisons of results in reading, mathematical and scientific literacy among 15 year olds (7.5)
job related training (3.4, 3.17, 3.20, 3.21, 3.22, 3.23, 3.24, 3.25, 3.26)
new entrants to higher education (3.12)
people currently working towards a qualification (4.10)
population at beginning of academic year $(6.1,6.2)$
students in further education (3.8)
students in higher education (3.9)
VCE A/AS and Double Award passes for young people (4.4)

D
Destination
destinations of full-time first-degree home and EU graduates (5.3)
of school leavers by country (5.1)
of work-based learning for young people: leavers (5.2)

## E

Ethnic origin
highest qualification held by people of working age (4.9)
job related training (3.17, 3.25)
people currently working towards a qualification (4.10)
work-based learning for young people starts (3.14)
Expenditure
identifiable expenditure on education services by country - time series (1.3)
international comparisons of expenditure on education (7.1, 7.2)
education expenditure on services by function (1.1)
summary of total expenditure on education services - time series (1.2)

F

Foundation Modern Apprenticeships (FMA)
characteristics of starts (3.14)
destinations of leavers (5.2)
new starts (3.13)
participation (3.15)
success rates of leavers (4.6)
Further education
full-time academic staff (3.1)
further education students in the first year of their course of study (3.11)
GCE A Level/SCE Higher grade entries and achievements for young people (4.3)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age' (4.1)
GCE, GCSE, SCE and vocational qualifications obtained by students of any age (4.1)
international comparisons of ratios of students to teaching staff (7.4)
number of establishments (3.1)
participation in post-compulsory education and Government supported training of 16 and 17 year olds (3.2)
students by country of study, mode of study and gender - time series (3.10)
students by country of study, mode of study, gender and age (3.8)
students by country of study, mode of study, gender and subject group (3.5)
VCE A/AS and Double Award passes for young people (4.4)

G
GCE, GCSE, SCE and vocational qualifications
GCE ALevel/SCE Higher grade entries and achievements by subject (4.3)
GCSE and SCE Standard grade entries and achievements by subject (4.2)
intermediate and foundation GNVQ entries and results (4.4)
obtained at a 'typical age' and by students of any age (4.1)

Gender
destinations of full-time first-degree home and EU graduates (5.3)
full-time and part-time pupils (2.2, 2.3)
full vocational awards (4.5)
further education students in the first year of their course of study (3.11)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age' and by students of any age (4.1)
GCE A Level/SCE Higher grade entries and achievements by subject (4.3)
GCSE and SCE Standard grade entries and achievements by subject (4.2)
highest qualification held by people of working age (4.9)
intermediate and foundation GNVQ entries and results (4.4)
job related training (3.3, 3.4, 3.16, 3.17, 3.18, 3.20, $3.21,3.22,3.23,3.24,3.25,3.26)$
progress towards selected national targets (4.7)
new entrants to higher education (3.12)
overseas students in higher education (3.6, 3.7)
people currently working towards a qualification (4.10)
population at beginning of academic year (6.1)
proportion of pupils reaching or exceeding expected standards, by key stage (2.9)
students achieving higher education qualifications (4.8)
students in further education $(3.5,3.8,3.10)$
students in higher education (3.6, 3.7, 3.9, 3.10)
VCE A/AS and Double Award passes for young people (4.4)
work-based learning for young people starts (3.14)
Government supported training programmes
participants by region (3.15)
starts (3.13)
work-based learning for young people: characteristics of starts (3.14)
work-based learning for young people: destinations of leavers (5.2)
work-based learning for young people: success rates of leavers (4.6)

## H

Higher education
destinations of full-time first-degree home and EU graduates (5.3)
full-time academic staff (3.1)
full-time students from overseas by country (3.7)
international comparisons of higher education participation and graduation (7.6)
international comparisons of ratios of students to teaching staff (7.4)
new entrants (3.12)
number of establishments (3.1)
students by level, mode of study and gender - time series (3.10)
students by level, mode of study, gender and age (3.9)
students by level, mode of study, gender and subject group (3.6)
students obtaining higher education qualifications (4.8)

I

International Comparisons
age distribution of teachers in primary and secondary education (7.7)
expenditure (7.1, 7.2)
higher education participation and graduation (7.6)
participation in education (7.3)
ratio of students to teaching staff (7.4)
results in reading, mathematical and scientific literacy among 15 year olds (7.5)

Job-related training
age (3.4, 3.17, 3.20, 3.21, 3.22, 3.23, 3.24, 3.25, 3.26)
disability status (3.26)
economic activity (3.3, 3.4, 3.16, 3.21, 3.22, 3.23)
employees of working age (3.17, 3.18, 3.19, 3.20, $3.24,3.25,3.26)$
employment status (3.18, 3.19, 3.24)
ethnic origin (3.17, 3.25)
full time/part time work (3.18, 3.19, 3.24, 3.26)
gender (3.3, 3.4, 3.16, 3.17, 3.18, 3.20, 3.21, 3.22, $3.23,3.24,3.25,3.26)$
highest qualification (3.15, 3.16, 3.19, 3.20, 3.21, $3.23,3.26)$
hours spent in last week (3.23)
industry (3.18, 3.19, 3.20, 3.21, 3.22, 3.23, 3.24, $3.25,3.26)$
length of job-related training received (3.21)
location (3.22)
occupation (3.18, 3.19, 3.20, 3.21, 3.22, 3.23, 3.24, 3.25, 3.26)
participation in (3.3, 3.4, 3.16, 3.17, 3.18, 3.19, 3.20, $3.21,3.22,3.23,3.24,3.25,3.26)$
people of working age (3.3, 3.4, 3.16, 3.21, 3.22, 3.23)
region (3.16, 3.17, 3.20, 3.21, 3.22, 3.23, 3.25)
type of training $(3.17,3.19)$

## K

Key stage tests
proportion reaching or exceeding expected standards (2.9)

I

Life Skills/Skill Build
new starts (3.13)
participation (3.15)

## M

## Mode of study

further education students in the first year of their course of study (3.11)
new entrants to higher education (3.12)
overseas students in higher education, by country (3.7)
students in further education (3.5, 3.8, 3.10)
students in higher education (3.6, 3.9, 3.10)
N
National Curriculum
key stage tests (2.9)
National Targets
progress towards selected national targets (4.7)
New entrants
to Government supported training $(3.13,3.14)$
to higher education by level, mode of study, gender and age (3.12)
work-based learning for young people: characteristics of starts (3.14)

0

Overseas students
full-time students in higher education by country (3.7)
in further education, by country of study, mode of study, gender and subject group (3.5)
in higher education, by level, mode of study, gender and subject group (3.6)

## P

## Participation

16 and 17 year olds in post-compulsory education and Government supported training (3.2)
full time and part time pupils (2.2, 2.3, 2.6)
Government supported training (3.13, 3.14, 3.15)
international comparisons of participation in education (7.3)
job related training (3.3, 3.4, 3.16, 3.17, 3.18, $3.19,3.20,3.21,3.22,3.23,3.24,3.25,3.26)$
people working towards a qualification (4.10)
pupils with special educational needs (2.4)
students in further education (3.5, 3.8, 3.11)
students in higher education (3.6, 3.7, 3.9, 3.12)
Population
at 1 January, 2003 by gender and age (6.1)
at 1 January - time series (6.2)
Pupils
average class size (2.7)
by age, gender and school type (2.2)
by gender and school type - time series (2.3)
by size of school and school type (2.6)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age' (4.1)
GCSE and SCE Standard grade entries and achievements by subject (4.2)
intermediate and foundation GNVQ entries and results (4.4)
proportion of pupils reaching or exceeding expected standards, by key stage and gender (2.9)
pupil/teacher ratio by region and school type (2.8)
with special educational needs (2.4)
school meal arrangements (2.10)

## Q

## Qualifications

full vocational awards (4.5)
GCE A Level/SCE Higher grade
entries and achievements by subject (4.3)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age'(4.1)
GCSE and SCE Standard grade entries and achievements by subject (4.2)
highest qualification held by people of working age (4.9)
intermediate and foundation GNVQ entries and results (4.4)
job related training by highest qualifications held
(3.17, 3.20, 3.21, 3.22, 3.23, 3.24, 3.25, 3.26)
people working towards a qualification (4.10)
progress towards selected national targets (4.7)
success rates of work-based learning for young people leavers (4.6)
students achieving higher education qualifications (4.8)

VCE A/AS and Double Award passes for young people (4.4)

R

Ratios
international comparisons of the ratio of students to teaching staff (7.4)
ratio of pupils/teachers (2.8)

S
Schools
average class size by region (2.7)
international comparisons of the ratio of students to teaching staff (7.4)
number of schools by school type (2.1)
number of schools by size of school and school type (2.6)
number of pupils by gender and school type (2.2, 2.3)
proportion of pupils reaching or exceeding expected standards, by key stage and gender (2.9)
pupil/teacher ratios by school type and region (2.8)
pupils with special educational needs by school type (2.4)
school meal arrangements (2.10)
Special needs
pupils with special educational needs (2.4)
work-based learning for young people starts: with special needs (3.14)
Students
from overseas (3.5, 3.6, 3.7)
GCE A Level/SCE Higher grade entries and achievements (4.3)
GCE, GCSE, SCE and vocational qualifications obtained at a 'typical age' (4.1)
GCE, GCSE, SCE and vocational qualifications obtained by students of any age (4.1)
higher education qualifications (4.8)
in further education (3.5, 3.8, 3.10)
in higher education (3.6, 3.9, 3.10)
intermediate and foundation GNVQ entries and results (4.4)

I

## Teachers

by type of establishment and gender (2.5)
international comparisons of the ratio of students to teaching staff (7.4)
pupil/teacher ratios (2.8)

## V

Vocational awards
VCE A/AS and Double Award passes for young people (4.4)
by gender, type and level of qualification (4.5)
W

Work-based learning for young people (WBLYP)
characteristics of starts (3.14)
destinations of leavers (5.2)
new starts (3.13)
participants (3.15)
success rates of leavers (4.6)

[^0]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
    Revised to include 2001/02 nursery schools data for Scotland.
    Nursery schools figures for Scotland prior to 1998/99 only include data for Local Authority pre-schools. Data thereafter include partnership pre-schools.
    From 1993/94, excludes sixth form colleges in England and Wales which were reclassified as further education colleges on 1 April 1993.
    Operational from September of the first year shown.
    All secondary schools are classed as Comprehensive.
    Excludes voluntary and private pre-school education centres (363 in total in 2002/03).
    7 From 1995/96, includes Preparatory Departments in Grammar Schools (20 in total in 2002/03).

[^1]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
    1 For Scotland, pupils with a Record of Needs including some who had an Individualised Educational Programme.
    2 Provisional.
    3 Includes new codes for recording SEN status following the introduction of a new SEN Code of Practice from January 2002. Data are not therefore directly comparable prior to 2001/02.
    4 Incidence of pupils - the number of pupils with statements within each school type expressed as a proportion of the total number of pupils on roll in each school type.
    5 Grant-Aided schools in Northern Ireland.
    6 Includes pupils in Voluntary and Private Pre-School Centres in Northern Ireland funded under the Pre-School Expansion Programme which began in 1998/99.
    7 Placement of pupils - the number of pupils with statements within each school type expressed as a proportion of the number of pupils with statements in all schools.
    8 Includes nursery classes (exceept for Scotland, where they are induded with Nursery schools) and reception classes in primary schools.
    9 England and Wales figures exclude dually registered pupils.
    10 Including general and hospital special schools.
    11 England and Wales only.

[^2]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
    From 1993/94 excludes sixth form colleges in England and Wales which were reclassified as further education colleges on 1 April 1993.
    Includes 1998/99 data for Northern Ireland.
    3 Includes revised data.
    4 Includes 1999/00 nursery data for Scotland.
    5 Includes 2001/02 data for Northern Ireland.
    6 Provisional.
    7 A gender breakdown of public sector teachers in England and Wales is only available from the Database of Teachers Records (DTR) where some in-service teachers may be shown as not in service because their service details are not recorded. A more complete coverage of teachers in England and Wales is available from the Form 618G survey, and published in "Statistics of Education: School workforce in England (including teachers pay for England and Wales)".

[^3]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
    School size on a pupil headcount basis.
    Provisional.
    3 Nursery schools figures for Scotland include pre-school education centres.
    4 Northern Ireland figures include 363 Voluntary and Private Pre-School Centres including 5,804 pupils, funded under the Pre-School Expansion Programme which began in 1998/99.
    5 Includes 20 preparatory departments attached to Grammor Schools in Northern Ireland.
    6 Includes Voluntary Grammar Schools in Northern Ireland.
    7 Incudes City Technology Colleges and Academies.
    8 Includes pupils in nursery classes in primary schools in Scotland.
    9 Includes pupils in nursery classes and reception classes, except for Scotland - see footnote 8.

[^4]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education

[^5]:    Source: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education

    1 Maintained schools only.
    2 Government Office Regions in England and each UK country.
    3 Includes classes where more than one teacher may be present.
    4 Figures throughout the table exclude sixth form colleges in England and Wales, which were reclassified as further education colleges from 1 April 1993.
    5 England and Wales.
    6 Excludes preparatory departments attached to Grammar schools, but includes reception pupils integrated into PI.
    7 Provisional.

[^6]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education
    Qualified teachers only for all countries.
    2 Includes fullt-ime equivalents of part-time pupils and teachers.
    Government Office Regions in England and each UK country.
    Includes preparotory departments attached to grammar schools in Northern Ireland.
    5 From 1993/94 excludes sixth form colleges in England and Wales which were reclassified as further education colleges from 1 April 1993.
    6 Excludes Pupil Referral Units as information on teachers is not collected for Wales.
    7 Includes revised data.
    8 Nursery schools figures for Scotland include pre-school education centres and are not therefore directly comparable with figures prior to 1999/00.
    Provisional. Includes 2001/02 primary and secondary schools data for Wales.

[^7]:    Sources: Department for Education and Skills; National Assembly for Wales; Northern Ireland Department of Education
    1 Percentage of pupils achieving level 2 or above.
    2 Percentage of pupils achieving level 4 or above.
    Percentage of pupils achieving level 5 or above.
    Indudes revised figures.
    5 Key Stage 1, Key Stage 2 and Key Stage 3 Assessment results in Northern Ireland were affected by industrial action in that some schools did not submit their results.
    6 From 2002, statutory assessment ot the end of Key Stage 1 in Wales is by means of teacher assessment only, following the discontinuation of the National Curiculum test//tasks.
    7 Figures for England are provisional.

[^8]:    Sources: Department for Education and Skills; National Assembly for Wales; Northern Ireland Department of Education

[^9]:    See previous page for footnotes

[^10]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education

[^11]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
    1 Includes revised data.
    2 Provisional.
    3 Includes 2001/02 UK higher education institution data and further education institution data for Wales.
    4 From 1993/94 includes former polytechnics and colleges which became universities as a result of the Further and Higher Education Act 1992.
    5 Figures for England relate to staff whose primary role is teaching, and do not include other staff whose primary role is supporting teaching and learning or other.
    6 Scotland figures include full-ime equivalent (rather than headcount) staff in academic departments only. Cross-college staff are excluded.
    7 Includes 1996/97 data for Wales.
    8 Excludes the Open University.
    9 Non-clinical academic staff paid wholly by the institution.

[^12]:    Source: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department of Education

[^13]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
    See previous page for footnotes.

[^14]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning

[^15]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
    1 Further education (FE) institution figures are whole year counts except for Northern Ireland, which are collected on a snapshot basis. Higher education (HE) institution figures are based on the HESA July 'standard registration' count and are not directly comparable with previous years.
    2 Full-ime includes sandwich. Parr-time comprises both day and evening, including block release and open/distance learning.
    3 Ages as at 31 August 2001 (1 July for Northern Ireland and 31 December for Scotland).
    4 Further education institution figures for England include colleges and LSC funded external institutions, but exclude Specialist designated colleges. Figures for 2001/02 are not therefore directly comparable with those shown for 2000/01.
    5 Figures for Scotland further education colleges are enrolments rather than headcounts.

[^16]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
    1 Higher Education Statistics Agency (HESA) higher education institutions include Open University students. Part-time figures include dormant modes, those writing up at home and on sabbaticals.
    2 Full-time includes sandwich. Part-ime comprises both day and evening, including block release and open/distance learning.
    3 Ages as at 31 August 2001 (1 July for Northern Ireland and 31 December for Scotland).
    4 Figures for higher education (HE) institutions are based on the HESA July 'standard registration' count and are not directly comparable with previous years. Figures for further education (FE) institutions (other than in Scotland FE colleges) are snapshots counted at a particular point in the year [November for FE institutions in England and Northern Ireland, and December for FE institutions in Wales]. Students starting courses after these dates will not therefore be counted. Figures for Scotland, however, are whole year (not snapshot) enrolments (rather than headcounts).
    5 Revised to include HESA July 'standard registration' count data, and 2001/02 figures for HE students in FE institutions in Wales and Northern Ireland, and FE colleges in Scotland.
    6 Includes data for HE students in FE institutions in Wales which cannot be split by level.

[^17]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning

[^18]:    Sources: Department for Education and Skills; National Assembly for Wales; Scottish Executive; Northern Ireland Department for Employment and Learning
    1 Further education (FE) institution figures are whole year counts except for Northern Ireland, which ore collected on a snapshot basis. Higher education (HE) institution figures are based on the HESA July 'standard registration' count and are not directly comparable with previous years.
    2 Full-time includes sandwich. Part-time comprises both day and evening, including block release and open/distance learning.
    3 Ages as at 31 August 2001 (1 July for Northern Ireland and 31 December for Scotland).
    4 Further education institution figures for England include colleges and LSC funded external institutions, but exclude Specialist designated colleges. Figures for 2001/02 are not therefore directly comparable with those shown for 2000/01.
    5 Figures for Scotland further education colleges are enrolments rather than headcounts.

[^19]:    Sources: TEC Management Information; LSC Individualised Learner Record; National Council - ELWa

[^20]:    Sources: WBLYP trainee database; LSC Individualised Learner Record (ILR)

    1 Data are collected on an academic year basis (1 August - 31 July).
    2 Formerly known as Modern Apprenticeships.
    3 Based on learner's self-assessment. For over half of those who started WBLYP in the last seven months of 2001/02, disability information was not recorded on the ILR. Data on people with disabilities has therefore been withdrawn ofter January 2002.
    4 Formerly known as National Traineeships.
    5 Other Training includes Youth Credits \& Youth Training.

[^21]:    Sources: TEC Management Information; LSC Individualised Learner Record; National Council - ELWa

    1 Work-Based Training for Young People in Wales. From 26 March 2001, responsibility for Work Based Learning for Adults (WBLA) in England transferred to the Employment Service (ES), which is now part of the Department for Work and Pensions (DWP). From April 2001, the National Council for Education and Training for Wales - ELWa, assumed responsibility for training programmes for Wales. WBLA figures are excluded from this table.
    2 From 26 March 2001, the data source for England changed to the Learning and Skills Council's Individualised Learner Record, and there is a discontinuity in the fime series. The number of young people in learning on this date from the new data source was 2,000 lower for AMA, 3,000 lower for FMA and 4,000 lower for OT.
    3 Includes revised figures.
    4 Includes Advanced Modern Apprenticeships, Foundation Modern Apprenticeships, Other Training, and, from October 1999, Life Skills (LS) and Skill Build.
    5 Government Office Regions in England plus country totals for England and for Wales.
    6 Figures may not be the sum of the components shown due to rounding.
    7 For 1991, Eastern figures were included with East Midlands.
    8 Known as Modern Apprenticeships in Wales (and formerly in England).
    9 Known as National Traineeships in Wales (and formerly in England).
    10 Other Troining includes Youth Credits \& Youth Training.

[^22]:    Source: Labour Force Survey, Spring 200310
    1 Job-related training includes both on and off-the-job training.
    2 Government Office Regions in England and each UK country.
    3 Working age is defined as males aged 16-64 and females aged 16-59.
    4 Expressed as a percentage of the total number of people in each group.
    5 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
    6 The split into employees and self-employed is based on respondents' own assessment of their employment status.
    7 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
    8 Unemployed according to the International Labour Organization (ILO) definition.
    9 Economically inactive are those who are neither in employment nor LLO unemployed.
    10 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

[^34]:    Source: Department for Education and Skills; National Assembly for Wales; Northern Ireland Department of Education

    1 Including attempts and achievements by these students in previous years.
    Those in all schools who were 15 at the start of the academic year, i.e. 31 August 2001.
    3 Pupils in schools and students in further education institutions aged 16 -18 at the start of the academic year (i.e. 31 August 2001) in England and in Northern Ireland, and aged 17 in Wales.
    4 Data for Wales are not included by gender.
    5 In Northern Ireland, Full Intermediate and Foundation GNVQ figures relate to pupils aged 16 and 17 in schools and FE colleges at the start of the academic year.
    6 England and Wales only. In England, GNVQ Language Units include French, German and Spanish, but the composition is not known for Wales.
    7 Includes subjects in England which are not specified in the table (e.g. Travel \& Tourism), and Language Units in Wales.

[^35]:    Source: National Information System for Vocational Qualifications/Qualifications \& Curriculum Authority (QCA)
    1 Based on all awards where the gender of the candidate is idenifified.
    2 Academic years from October to September.
    3 Includes revised data.
    4 Awards are excluded if the centre or qualification was not identified.
    5 Numbers may not add to column totals due to rounding.
    6 For 2000/01, numbers do not add to column totals because SVQ data are excluded from the respective individual levels.
    7 Numbers of Other VQ awards in 2001/02 indude VRQs for comparability with previous years.
    8 For Other Vocational Qualifications, notional NVQ levels are allocated by QCA for analytical purposes as part of the NISVQ project. Up to 1997/98, includes Other Vocational Qualifications made by City \& Guilds, Edexcel, OCR and Scottish Qualifications Agency (SQA) only, not UK estimates. From 1998/99-2000/01, numbers of awards are for City \& Guilds, Edexcel and OCR only. For 2001/02 numbers of awards are for 7 awarding bodies (see technical notes, paragraph 7 of the Statistical Bulletin 'Vocational Qualifications in the UK: 2001/02' available through the DfES Research and Statistics Gateway 'htrp://www.dfes.gov.uk/rsgateway')
    9 Number of awards are for ASDAN, OCR and City \& Guilds Only and are not full UK estimates.
    10 Prior to 1997/98 data available on gender for NVQs/SVQs was limited therefore this table may not be representative of the gender split for all NVQs/SVQs awarded nationally for these years.
    11 Percentage figures for 2000/01 are calculated excluding SVQ data.
    12 Due to limited data available, awards for VRQs and other non regulated vocational qualifications in this table may not be representative of the gender split for all other vocational qualifications awarded nationally.

[^36]:    Source: Learning and Skills Council (LSC)
    1 For Modern Apprenticeships: the proportion who either meet all the requirements of their apprenticeship framework, or achieve an NVQ required by the framework. For NVQ learning: the proportion of learners who achieved the NVQ.
    2 1st August 2001 to 31st July 2002.
    3 A set of requirements drown up by a National Iraining Organisation (NTO) which need to be fulfilled for the recognition of training as a modern apprenticeship in the sector concerned.
    4 Total leavers have been rounded to the nearest 100 .

[^37]:    1 Includes students on Open University courses.
    2 Excludes qualifications from the private sector.
    3 Includes higher education in higher education institutions in the United Kingdom only. Higher education qualifications in further education institutions (approximately $6 \%$ of the total number of students) are excluded. 4 Excludes students who successfully completed courses for which formal qualifications are not awarded.
    5 Including Law.
    6 Including ITT and INSET.

[^38]:    Source: Department for Education and Skills; Higher Education Statistics Agency (HESA)
    1 Home and EU students graduating from higher education institutions in 2002. As from 1999/00 the target population excludes non-EU overseas domiciled students, consequently direct comparisons with earlier years cannot be made.
    2 Destinations from the academic year 2001/02.
    3 Includes the self-employed.
    4 Home and overseas students.
    5 Continuing education/training in the United Kingdom or overseas
    6 Including students not available for employment.
    7 Includes those overseas graduates reported as returning overseas (no other information available).
    8 Includes known and unknown destinations.
    9 As a percentage of known destinations.

[^39]:    Sources: Department for Education and Skills; Labour Force Survey 10; Office for National Statistics; Government Actuary's Department
    1 Estimated and projected numbers based on demographic data provided by the Office for National Statistics (ONS) and the Government Actuary's Department (GAD). Population estimates incorporate post-2001 Census revisions.
    2 Age at 31 August 2002. For the Labour Force Survey economic data only, age is based on the age of respondents ot the time of the survey.
    3 Males and Females may not sum to All totals due to rounding.
    4 Working age is defined as moles aged 16-64 and females aged 16-59. These figures include unpaid family workers, those on government employment and training programmes, or those who did not answer, who are excluded from the separate analyses below.
    5 Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
    6 The split into employees and self-employed is based on respondents' own assessment of their employment status.
    7 Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
    8 Unemployed according to the International Labour Organization (ILO) definition.
    9 Economically inactive are those who are neither in employment nor ILO unemployed.
    10 Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.
