Issues paper
This report is for information

This is the fourth HEFCE report on staff employed at HEFCE-funded HEls and builds on the findings reported in 2006 (see HEFCE 2006/31) by including information of staff in academic year 200506. This update provides information on staff employed in English higher education institutions (HEls), with further detail given by separating the staff into academic, and professional and support staff.

## Executive summary

## Purpose

1. This report is the fourth HEFCE report on staff employed at HEFCE-funded higher education institutions (HEIs) and builds on the findings reported in 2006 (see HEFCE $2006 / 31$ ) by including information on staff in academic year 2005-06. This update provides information on staff employed in English HEls, with further detail given by separating the staff into academic, professional and support staff.

## Key points

2. In this report we give an overview of trends in staff at English HEls from 1995-96 to 2005-06. It shows the following aspects.

## Numbers

3. The total number of staff rose 6 per cent between 2003-04 and 2005-06.

## Contracts

4. There was an increase in the proportion of academic, professional and support staff with permanent contracts between 2003-04 and 2005-06.

## Age profile

5. There has been relative stability in the proportions of permanent academic staff in different age brackets. There is similar stability in the professional and support staff categories.

## Disability

6. There was a rapid increase in the number of permanent academic staff reported as declared disabled between 2000-01 and 2003-04. Across the whole period studied, numbers have risen from around 550 in 1995-96 to around 1,600 in 2005-06. For
professional and support staff, the numbers declared as disabled have risen from around 3,500 in 2003-04 to 3,750 in 2005-06.

## Ethnicity

7. The number of permanent academic staff from a non-white ethnic background steadily rose from 1997-98 to 2005-06. For professional and support staff, there has been a rise in the number from a non-white ethnic background from around 9,700 in 2003-04 to 11,750 in 2005-06.

## Sex

8. Between 1995-96 and 2005-06, there has been a consistent increase at all grades in the proportions of permanent academic staff who are female. For professional and support staff, the trend in the proportion who are female varies depending on their primary function of employment ${ }^{1}$.

## Nationality

9. The number of non-UK nationals on the permanent academic staff has risen from 4,000 in 1995-96 to around 10,000 in 2005-06. The proportion of professional and support staff who are non-UK nationals increased throughout the three-year period between 2003-04 and 2005-06.

## Salary

10. Twelve thousand permanent academic staff were earning over $£ 50,000$ in 2005-06 compared to around 2,000 staff in 1995-96. For professional and support staff there have been substantial increases in the proportion earning salaries greater than £35,000 for all primary function of employment groups ${ }^{1}$.

## Action required

11. No action is required in response to this document.
[^0]
## Introduction

12. The structure of this document differs from the last 'Staff employed at HEFCEfunded HEls: update' (HEFCE 2006/31). Previous reports have focused on academic staff. However in this report we aim to provide a more complete and concise analysis of all staff in the English higher education sector, and this report has been restructured accordingly.
13. The 2006 report 'Staff employed at HEFCE-funded HEIs: update' (HEFCE 2006/31) began with an overview of 2004-05 staff which included a comparison of staff in English HEls compared with the rest of the UK. Since HEFCE's focus is staff in English institutions, this information can now be found in Annex $B$ of this report.
14. The analysis of PhD starters and qualifiers has also been omitted from this report; analyses of PhD students are undertaken by HEFCE elsewhere and their inclusion in this document is now superfluous ${ }^{2}$.
15. In this report we firstly examine the numbers of staff; overall and by type of institution. For both of these areas we consider three different categories of staff employed in English HEls:
a. All staff.
b. Academic staff.
c. Professional and support staff.
16. In our examination of overall numbers of academic staff we provide a more indepth analysis of these staff. When we consider this category of staff in the later stages of this report we present information split by the grade and subject area of the staff. Before we begin to use these attributes to split the academic workforce they are examined in their own right.
17. We have taken a similar approach for professional and support staff and we provide analysis of these staff by their function area when we consider overall staff numbers.
18. We then look at the characteristics and attributes of the workforce. The categories of staff detailed above are examined in terms of a variety of attributes to provide an extension to the trends and profiles identified in the earlier reports (HEFCE 2002/43, HEFCE 2005/23 and HEFCE 2006/31).
19. The revised structure is intended to provide a more comprehensive analysis of the higher education sector in a more readable, easier to interpret document. The overview

[^1]of staff numbers provides context for any trends identified within individual characteristics and highlights areas where further analysis and explanation may be necessary.

## Data source

20. Data are drawn from the Higher Education Statistics Agency (HESA) individualised staff records for 1994-95 to 2002-03, and the HESA new individualised staff records for 2003-04 to 2005-06.
21. The HESA new individualised staff records, introduced in 2003-04, extend to professional and support staff as well as academic staff, and also include contracts with a full-time equivalence (FTE) of less than 25 per cent. The transition from the old record to the new makes it difficult to establish a completely consistent time series. The main problems are as follows:
a. Although every effort has been made to extract a comparable population with regard to FTE, the time series of academic staff may be affected by the extension of the data collection to a wider population of staff. Therefore, any notable changes between 2002-03 and 2003-04 should be treated with caution.
b. In the new record, there are larger numbers of unknown or default entries in several fields, due to changes in data validation rules. This especially affects salary and subject area.
22. In 2002-03 a new method of coding subject areas, using the Joint Academic Coding System, was introduced to replace the HESA code system. While we have sought to map subject groups equivalently, this may also affect the continuity of the time series.
23. In consideration of staff data, in order to compare to current and historical data we need to be able to classify academic staff with reference to the historical grades: professor; senior lecturer/researcher; lecturer; or researcher. The method we have previously used to generate these classifications is based on grade information returned by the institution. The expected substantial rise in the use of locally determined grades for academic staff between 2004-05 and 2005-06 has caused us to revise our methods of staff classification in terms of grade: details of which are given at Annex A of this report. While every effort has been made to classify staff equivalently, the consistency of the time series may be affected. For all years we now use this revised approach and hence figures can and will vary from previous reports.

## Terminology

24. Throughout this document we refer to, and analyse, several different populations, as described in Table 1. For clarity we have given each one a code as well as a name. Population definitions remain largely consistent with those described in Annex A of HEFCE 2005/23.

## Table 1 Definition of populations

| Population | Description | Code |
| :--- | :--- | :--- |
| All staff in English HEls | All staff who are actively employed in an English <br> HEI on the census date of 1 December | Pop A |
| Staff with academic <br> roles | All staff in Pop A, who are actively employed in <br> an English HEl on the census date of 1 <br> December, having an academic contract at <br> some point during the academic year | Pop B |
| Staff with academic <br> roles excluding very low <br> activity and inactive <br> contracts | All staff in Pop B who have at least one active <br> academic contract of at least 25 per cent on the <br> census date of 1 December. | Pop B* |
| Academic and assistant <br> academic staff | All staff in Pop B who have at least one active <br> academic contract of at least 25 per cent on the <br> census date and a total FTE of 40 per cent or <br> more. This population includes medicine and <br> dentistry staff. | Pop C |
| Permanent and <br> academic staff | All staff in Pop C who have permanent contracts <br> and are at lecturer level or above | Pop D |
| Research assistants | Not used in this report (see previous reports for <br> definition). | Pop E |
| Staff with <br> professional/support <br> roles | All staff in Pop A who have a <br> professional/support contract at some point <br> during the academic year | Pop F |
| Professional and <br> support staff | All staff in Pop F who have a total FTE of at <br> least 40 per cent | Pop G |

Notes: * denotes a modified population where staff with no contract of at least 25 per cent are excluded.

## Overview of staff in English HEls

25. The following tables and charts provide an analysis of staff in the English higher education sector. As well as the overall numbers of staff we look at the numbers of staff by type of institution. In each area we examine the three categories of staff detailed above; all staff, academic staff, and professional and support staff.
26. In terms of academic staff, those on individual contracts of less than 25 per cent FTE have been excluded. In contrast to previous reports we do not exclude medicine and dentistry staff when we consider academic staff.
27. The definitions of academic staff (professors, senior lecturers, senior researchers and lecturers) and 'assistant academic staff' (academic staff on lower grades) remain
consistent with previous reports but the way in which professors, senior lecturers, senior researchers, and lecturers are defined has changed (see Annex A for further details).
28. When we consider professional and support staff we consider four key function areas; managers and professionals, technicians, support administrators, and other professional and support roles. The function area of 'Other' professional and support roles includes those staff employed in, for example, catering, maintenance, retail and so on. Since it is possible for a staff member to have more than one function within an institution, we have taken 'primary professional/support function' to mean the function in which they spend the most time (according to FTE) ${ }^{3}$.
29. In this section of the report we examine the three-year period from 2003-04 to 2005-06 for the three categories of staff above ${ }^{4}$. The HESA staff record has only collected information on professional and support staff since 2003-04 and this is the first opportunity to generate the appropriate time series. However, there is evidence that a large part of the observed changes in the numbers of these staff is due to improvements in their identification and classification. Any conclusions relating to year-on-year changes in professional and support staff should therefore be drawn with caution.

## Overall staff numbers

## All staff

30. In Table 2 we look at the total numbers of staff in English higher education institutions. Table 2 shows that across all English HEls there has been a rise of 3 per cent in the number of staff between 2004-05 and 2005-06. This follows a rise of the same proportion between 2003-04 and 2004-05.
31. In this report, as in its two immediate predecessors, we look separately at staff with academic roles and staff with professional and support roles. Table 2 shows that the number of staff falling into both categories has further increased in 2005-06 to 7,740 and now accounts for 3 per cent of all staff. There is evidence to suggest that this may be due to differences and improvements in the way data concerning functions of staff have been returned in the period examined.
[^2]Table 2 Staff in English HEls by role

| Role | 2003-04 <br> Number |  | 2004-05 <br> of staff |  | $\%$ | 2005-06 <br> of staff |  | $\%$ | Number <br> of staff | \% |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | :---: | :---: | :---: | :---: |
| Academic role only | 121,723 | $44 \%$ | 130,010 | $46 \%$ | 132,414 | $45 \%$ |  |  |  |  |
| Professional/support and academic roles | 2,904 | $1 \%$ | 6,385 | $2 \%$ | 7,740 | $3 \%$ |  |  |  |  |
| Professional/support role only | 150,497 | $55 \%$ | 148,240 | $52 \%$ | 152,279 | $52 \%$ |  |  |  |  |
| Total with academic roles | 124,627 | $\mathrm{~N} / \mathrm{A}$ | 136,395 | $\mathrm{~N} / \mathrm{A}$ | 140,154 | $\mathrm{~N} / \mathrm{A}$ |  |  |  |  |
| Total with professional/support roles | 153,401 | $\mathrm{~N} / \mathrm{A}$ | 154,625 | $\mathrm{~N} / \mathrm{A}$ | 160,019 | $\mathrm{~N} / \mathrm{A}$ |  |  |  |  |
| Total | $\mathbf{2 7 5 , 1 2 4}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{2 8 4 , 6 3 5}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{2 9 2 , 4 3 3}$ | $\mathbf{1 0 0 \%}$ |  |  |  |  |

Notes: The 'Total with academic roles' and 'Total with professional/support roles' headcounts overlap by the headcount of staff with professional/support and academic roles. Pop A.

## Academic staff

32. Table 3 gives the breakdown of staff with academic roles. It shows that the total number of staff with academic roles has increased by 3 per cent from 2004-05, to over 140,000 in 2005-06.

Table 3 Staff in English HEls with academic roles

| Staff type | 2003-04Number <br> of staff |  | 2004-05  <br> Number <br> of staff $\%$ |  | 2005-06 <br> Number of staff <br> \% |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Academics | 73,311 | 59\% | 74,718 | 55\% | 78,417 | 56\% |
| Assistant academics | 26,165 | 21\% | 27,149 | 20\% | 26,303 | 19\% |
| Low activity (total FTE less than 40\%) | 4,421 | 4\% | 4,519 | 3\% | 4,691 | 3\% |
| Very low activity and inactive contracts | 20,730 | 17\% | 30,009 | 22\% | 30,743 | 22\% |
| Total | 124,627 | 100\% | 136,395 | 100\% | 140,154 | 100\% |

Notes: Contracts equating to an FTE of less than 25 per cent have been excluded from all categories except for 'very low activity and inactive contracts'. 'Inactive contracts' refers to staff with a professional/support contract active on 1 December and an academic contract at some point over the academic year, but not active on 1 December of that academic year. Pop B. Relates to Table 6 of HEFCE 2006/31.
33. Table 3 shows that the growth in the number of staff with academic roles between 2004-05 and 2005-06 follows a substantial increase between 2003-04 and 2004-05. Much of the earlier increase is accounted for by the large increase in numbers of very low activity staff. Numbers of such staff appear to have stabilised in 2005-06 at around 31,000 and it is likely that the increase in 2004-05 was due to differences in the way data were returned by institutions. The 2004-05 academic year was the second time data were collected for this group of staff and so the data for 2004-05 and 2005-06 are likely to be more detailed and accurate than the data returned in 2003-04.
34. The 2006 update of staff employed at HEFCE-funded HEls reported that numbers of academic staff had been rising continuously since 1997-98 while numbers of Assistant academic staff had stabilised (HEFCE 2006/31, paragraph 24). Figure 1 confirms that these trends continue when we consider 2005-06 data. The number of academic staff
has continued to rise and now approaches 80,000. The number of Assistant academic staff remains relatively stable.

Figure 1 Numbers of academic and assistant academic staff in English HEls

Notes: Relates to Figure 1 of HEFCE 2006/31. Pop C.
35. When considering staff occupying an academic role we are able to assign them to both a grade and a subject area in which they are active ${ }^{5}$. Later stages of this report present information on academic staff split by these attributes and here we examine them in their own right to provide context for their later use.

## Academic staff numbers by grade

36. The profile of staff with academic roles is shown in Table 4 and Figure 2, split by grade.

Table 4 Staff in English HEls with academic roles by grade

| Grade | $\begin{aligned} & \text { 2003-0 } \\ & \text { Number } \\ & \text { of staff } \\ & \hline \end{aligned}$ | \% | 2004-0 <br> Number of staff | \% | 2005-06 Number of staff | \% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Professors | 10,747 | 10\% | 12,072 | 11\% | 12,897 | 12\% |
| Senior lecturers/researchers | 23,197 | 22\% | 22,395 | 21\% | 24,491 | 22\% |
| Lecturers | 43,036 | 41\% | 44,023 | 41\% | 45,001 | 41\% |
| Researchers | 26,917 | 26\% | 27,896 | 26\% | 27,022 | 25\% |
| Total | 103,897 | 100\% | 106,386 | 100\% | 109,411 | 100\% |

Notes: Pop B*.

[^3]Figure 2 Staff in English HEls with academic roles by grade

Notes: Pop B*.
37. Table 4 and Figure 2 show that there has been a steady increase in the numbers of professors and lecturers across the 11-year period. For researchers and senior lecturers the story is more mixed with numbers of varying between 20,000 and 25,000 across the period for these two grades of staff.

## Academic staff numbers by subject area

38. Table 5 shows the changes in numbers of academic staff by the subject area of their highest qualification since 2003-04. Most subject areas have continued to experience growth in numbers, with 'Creative arts/design’ having the largest increase in numbers at 15 per cent.
39. The subject areas of 'Unknown and combined subjects' and 'Veterinary sciences/agriculture/related subjects' are the only two to show a decline in numbers, although analysis suggests that this decline is slowing. For example, although Unknown and combined subjects staff numbers have declined by 4 per cent between 2003-04 and 2005-06, this subject area saw staff numbers decline by 3 per cent between 2003-04 and 2004-05. The decline between 2004-05 and 2005-06 is less at only 1 per cent.

Table 5 Academic staff by subject area

|  |  |  |  | \% change <br> $\mathbf{2 0 0 3 - 0 4}$ to |
| :--- | ---: | ---: | ---: | ---: |
| Subject area | $\mathbf{2 0 0 3 - 0 4}$ | $\mathbf{2 0 0 4 - 0 5}$ | $\mathbf{2 0 0 5 - 0 6}$ | $\mathbf{2 0 0 5 - 0 6}$ |
| Biological sciences | 14,277 | 14,751 | 15,402 | $8 \%$ |
| Business/administrative studies | 4,961 | 5,261 | 5,423 | $9 \%$ |
| Computer science/librarianship/info science | 4,583 | 4,714 | 4,800 | $5 \%$ |
| Creative arts/design | 4,642 | 5,018 | 5,351 | $15 \%$ |
| Education | 4,600 | 4,919 | 5,108 | $11 \%$ |
| Engineering/technology/building/architecture | 8,227 | 8,308 | 8,359 | $2 \%$ |

| Subjects allied to medicine | 8,442 | 8,806 | 9,019 | $7 \%$ |
| Unknown and combined subjects | 14,011 | 13,538 | 13,402 | $-4 \%$ |
| Veterinary sciences/agriculture/related |  |  |  |  |
| Subjects | 983 | 962 | 966 | $-2 \%$ |
| Total | $\mathbf{1 0 3 , 8 9 7}$ | $\mathbf{1 0 6 , 3 8 6}$ | $\mathbf{1 0 9 , 4 1 1}$ | $\mathbf{5 \%}$ |

Notes: Pop B*.

## Professional and support staff

40. The number of professional and support staff in English HEls are shown in Table 6, split by their primary function. The number of such staff has risen by 3 per cent between 2004-05 and 2005-06.
41. Following a fall between 2003-04 and 2004-05, the proportion of managers and professionals rose by one percentage point between 2004-05 and 2005-06. Figure 3 shows that there has been continued growth in the proportion of support administrators. As mentioned earlier, these variations may be due to differences in the way data were returned by HEls in the different years. It is anticipated that data returned in the more recent collections have a greater level of accuracy.

Table 6 Professional and support staff in English HEls by primary function

| Primary <br> professional/support <br> function | 2003-04 <br> Number <br> of staff |  | 2004-05 <br> Number <br> of staff |  | 2005-06  <br> Number <br> of staff $\%$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Managers and | 33,827 | 22\% | 30,006 | 19\% | 32,344 | 20\% |
| Technicians | 21,464 | 14\% | 21,549 | 14\% | 21,702 | 14\% |
| Support administrators | 62,469 | 41\% | 67,234 | 43\% | 70,617 | 44\% |
| Other | 35,641 | 23\% | 35,836 | 23\% | 35,356 | 22\% |
| Total | 153,401 | 100\% | 154,625 | 100\% | 160,019 | 100\% |

Notes: Pop F. Relates to Table 20 of HEFCE 2006/31.

Figure 3 Professional and support staff in English HEls by primary function

Notes: Pop F.

## Staff numbers by type of institution

42. As in previous reports, we have used institutional data to classify each English higher education institution as one of the following ${ }^{6}$ :
a. Research-orientated university (37 institutions).
b. Other university (38 institutions).
c. General college or specialist HEI (56 institutions).
43. In this section we look at the numbers of staff in English HEls, split by the type of institution.

## All staff

44. Table 7 shows that 53 per cent of all staff in English HEIs in 2005-06 were employed at research-orientated universities. The distribution of staff employed at other universities remains consistent in each year and accounts for the smallest proportion of staff (16 per cent).
45. Table 8 shows that the distribution of institutions by total staff FTE remains similar to the distribution seen in 2004-05. The majority of institutions have less than 2,500 but 10 institutions have more than 5,000.

[^4]46. The median FTE for English institutions has increased by 6 per cent from 1,389 in 2004-05 to 1,467 in 2005-06. This is in excess of the 3 per cent growth in staff numbers in the sector from 2004-05 to 2005-06.

Table 7 Staff in English HEls by role and type of institution

| Type of institution | Role | 2003 <br> Number of staff | \% | 200 <br> Number of staff | \% | 2005 <br> Number of staff | \% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Researchorientated universities | Academic role only | 63,457 | 23\% | 68,446 | 24\% | 69,789 | 24\% |
|  | Professional/support and academic roles | 1,355 | 0\% | 3,916 | 1\% | 4,872 | 2\% |
|  | Professional/support role only | 84,071 | 31\% | 78,830 | 28\% | 79,873 | 27\% |
|  | Total in researchorientated universities | 148,883 | 54\% | 151,192 | 53\% | 154,534 | 53\% |
| Other universities | Academic role only | 20,239 | 7\% | 20,322 | 7\% | 20,108 | 7\% |
|  | Professional/support and academic roles | 401 | 0\% | 919 | 0\% | 1,018 | 0\% |
|  | Professional/support role only | 23,414 | 9\% | 24,282 | 9\% | 26,104 | 9\% |
|  | Total in other universities | 44,054 | 16\% | 45,523 | 16\% | 47,230 | 16\% |
| General colleges/spec ialist HEls | Academic role only | 38,027 | 14\% | 41,242 | 14\% | 42,517 | 15\% |
|  | Professional/support and academic roles | 1,148 | 0\% | 1,550 | 1\% | 1,850 | 1\% |
|  | Professional/support role only | 43,012 | 16\% | 45,128 | 16\% | 46,302 | 16\% |
|  | Total in general colleges/specialist HEls | 82,187 | 30\% | 87,920 | 31\% | 90,669 | 31\% |
| Total |  | 275,124 | 100\% | 284,635 | 100\% | 292,433 | 100\% |

Notes: Pop A.
Table 8 Numbers and total FTE of staff in English HEIs, 2005-06

| Type of institution | Number | Number of staff |  |  | Total staff FTE |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
|  |  | Median | Max | Min | Median | Max | Min |
| Research-orientated universities | 37 | 3,211 | 10,936 | 862 | 2,545 | 7,285 | 747 |
| Other universities | 38 | 2,476 | 4,134 | 800 | 1,730 | 3,168 | 691 |
| General colleges / specialist HEls | 55 | 566 | 9,612 | 84 | 413 | 8,565 | 69 |
| Total | $\mathbf{1 3 0}$ | $\mathbf{1 , 9 5 9}$ | $\mathbf{1 0 , 9 3 6}$ | $\mathbf{8 4}$ | $\mathbf{1 , 4 6 7}$ | $\mathbf{8 , 5 6 5}$ | $\mathbf{6 9}$ |

Notes: The maximum and minimum numbers of staff and FTEs respectively do not necessarily relate to the same institution. Pop A. Equivalent to Table 5 of HEFCE 2006/31.

## Academic staff

47. Table 9 shows the numbers of staff with academic roles, split by their grade and type of institution. It shows few changes in the distribution between 2004-05 and 200506 . The majority of staff occupying an academic role are employed at a researchorientated university and this proportion remains the same as 2004-05 at 54 per cent.

Table 9 Staff in English HEls with academic roles by grade and type of institution

| Type of institution | Grade | 2003-04 |  | 2004-05 |  | 2005 Number | \% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Researchorientated universities | Professors | 6,786 | 7\% | 7,756 | 7\% | 8,406 | 8\% |
|  | Senior |  |  |  |  |  |  |
|  | lecturers/researchers | 14,161 | 14\% | 12,879 | 12\% | 14,290 | 13\% |
|  | Lecturers | 14,757 | 14\% | 14,161 | 13\% | 14,715 | 13\% |
|  | Researchers | 21,446 | 21\% | 22,400 | 21\% | 21,362 | 20\% |
|  | Total in researchorientated universities | 57,150 | 55\% | 57,196 | 54\% | 58,773 | 54\% |
| Other universities | Professors | 2,434 | 2\% | 2,598 | 2\% | 2,749 | 3\% |
|  | Senior lecturers/researchers | 5,924 | 6\% | 6,422 | 6\% | 6,845 | 6\% |
|  | Lecturers | 20,848 | 20\% | 21,810 | 21\% | 22,211 | 20\% |
|  | Researchers | 2,285 | 2\% | 2,139 | 2\% | 2,291 | 2\% |
|  | Total in other universities | 31,491 | 30\% | 32,969 | 31\% | 34,096 | 31\% |
| General colleges / specialist HEls | Professors | 1,527 | 1\% | 1,718 | 2\% | 1,742 | 2\% |
|  | Senior |  |  |  |  |  |  |
|  | lecturers/researchers | 3,112 | 3\% | 3,094 | 3\% | 3,356 | 3\% |
|  | Lecturers | 7,431 | 7\% | 8,052 | 8\% | 8,075 | 7\% |
|  | Researchers | 3,186 | 3\% | 3,357 | 3\% | 3,369 | 3\% |
|  | Total in general colleges/specialist HEls | 15,256 | 15\% | 16,221 | 15\% | 16,542 | 15\% |
| Total |  | 103,897 | 100\% | 106,386 | 100\% | 109,411 | 100\% |

Notes: Pop B*.
48. Table 9 also shows that the proportions of professors and senior lecturers/researchers employed at a research-orientated university, and the proportion of professors employed at other universities have all increased by one percentage point. The proportions of lecturers at each of the three types of institution have all decreased by one percentage point.
49. The distribution of institutions by academic staff numbers and FTE is shown in Table 10. It shows that the distribution remains broadly equivalent to that observed in 2004-05 in terms of both staff numbers and FTE.

Table 10 Numbers and academic FTE of staff in English HEls with academic roles, 2005-06

|  |  | Number of staff |  |  | Total staff FTE |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Type of institution | Number | Median | Max | Min | Median | Max | Min |
| Research-orientated universities | 37 | 1,488 | 7,763 | 383 | 1,119 | 3,787 | 335 |
| Other universities | 38 | 1,162 | 2,041 | 368 | 840 | 1,413 | 315 |
| General colleges / specialist |  |  |  |  |  |  |  |
| HEls | 55 | 239 | 4,034 | 35 | 151 | 3,629 | 29 |
| Total | $\mathbf{1 3 0}$ | $\mathbf{9 0 4}$ | $\mathbf{7 , 7 6 3}$ | $\mathbf{3 5}$ | $\mathbf{6 2 5}$ | $\mathbf{3 , 7 8 7}$ | $\mathbf{2 9}$ |

Notes: The maximum and minimum numbers of staff and FTEs respectively do not necessarily relate to the same institution. Pop B. Relates to Table 7 of HEFCE 2006/31.
50. Table 10 shows that the median number of academic staff has increased to 904 , from 901 in 2004-05, while the median FTE has increased from 616 to 625 . Most institutions have less than 1,200 total FTE academic staff, although there are now 13 institutions with more than 2,000 (compared to 10 in 2004-05).

## Professional and support staff

51. The numbers of professional and support staff are shown in Table 11, split by their primary function and type of institution. Once again the distribution of staff in 2005-06 remains similar to that of the previous year.

Table 11 Professional and support staff in English HEls by primary function and type of institution

| Type of institution | Primary professional/support function | 2003-04Number <br> of staff |  | 2004-05 <br> Number of staff |  | 2005-06$\begin{gathered}\text { Number } \\ \text { of staff }\end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Researchorientated universities | Managers and professionals | 21,221 | 14\% | 16,322 | 11\% | 17,551 | 11\% |
|  | Technicians | 13,074 | 9\% | 13,006 | 8\% | 12,920 | 8\% |
|  | Support administrators | 30,875 | 20\% | 33,259 | 22\% | 34,359 | 21\% |
|  | Other | 20,256 | 13\% | 20,159 | 13\% | 19,915 | 12\% |
|  | Total in researchorientated universities | 85,426 | 56\% | 82,746 | 54\% | 84,745 | 53\% |
| Other universities | Managers and professionals | 4,758 | 3\% | 5,103 | 3\% | 5,711 | 4\% |
|  | Technicians | 3,088 | 2\% | 3,236 | 2\% | 3,344 | 2\% |
|  | Support administrators | 10,582 | 7\% | 11,332 | 7\% | 12,716 | 8\% |
|  | Other | 5,387 | 4\% | 5,530 | 4\% | 5,351 | 3\% |
|  | Total in other universities | 23,815 | 16\% | 25,201 | 16\% | 27,122 | 17\% |
| General colleges / specialist HEls | Managers and professionals | 7,848 | 5\% | 8,581 | 6\% | 9,082 | 6\% |
|  | Technicians | 5,302 | 3\% | 5,307 | 3\% | 5,438 | 3\% |
|  | Support administrators | 21,012 | 14\% | 22,643 | 15\% | 23,542 | 15\% |
|  | Other | 9,998 | 7\% | 10,147 | 7\% | 10,090 | 6\% |
|  | Total in general colleges/specialist HEls | 44,160 | 29\% | 46,678 | 30\% | 48,152 | 30\% |
| Total |  | 153,401 | 100\% | 154,625 | 100\% | 160,019 | 100\% |

Notes: Pop F. The reduction in managers and professionals at research-orientated institutions between 2003-04 and 2004-05 is accounting for because of a change in reporting procedures at a particular HEI.
52. Table 12 shows the distribution of institutions by professional and support staff numbers and FTE. The distribution is similar to that of 2004-05.

Table 12 Numbers and professional/support FTE of professional and support staff in English HEls

|  |  | Number of staff |  | Total staff FTE |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Type of institution | Number | Median | Max | Min | Median | Max | Min |
| Research-orientated universities | 37 | 2,023 | 6,167 | 480 | 1,397 | 3,958 | 414 |
| Other universities | 38 | 1,258 | 2,133 | 432 | 939 | 1,788 | 376 |
| General colleges / specialist HEls | 55 | 289 | 5,745 | 52 | 216 | 5,072 | 45 |
| Total | $\mathbf{1 3 0}$ | $\mathbf{1 , 0 1 1}$ | $\mathbf{6 , 1 6 7}$ | $\mathbf{5 2}$ | $\mathbf{8 1 5}$ | $\mathbf{5 , 0 7 2}$ | $\mathbf{4 5}$ |

Notes: The maximum and minimum numbers of staff and FTE respectively do not necessarily relate to the same institution. Pop F.

## Staff and employment attributes

53. In the following sections we examine trends and profiles of the workforce according to a variety of attributes. We look at the three categories of staff in terms of the following seven characteristics:
a. Activity.
b. Age.
c. Disability.
d. Ethnicity.
e. Sex.
f. Nationality.
g. Salary.
54. When we consider the overall numbers of staff it is appropriate to first look at all staff in order to provide some context. In terms of these trends and profiles however, we look first at academic staff, followed by professional and support staff. Our analysis of all staff will come last, providing an opportunity to compare and contrast trends and profiles identified in academic and professional and support staff.

## Activity profile of the workforce

55. This section of the report focuses on the activity profile of the workforce and the basis on which staff are employed; permanent or non-permanent contracts, low activity (those with a total FTE of less than 40 per cent), full-time or part-time.

## Academic staff

56. Table 13 shows the proportion of academic staff split by their grade who are fulltime. It shows that the proportions for all grades of staff are relatively stable across the three years.

Table 13 Academic staff by full-time employment

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Number | \% full- | Number | \% full- | Number | \% full- |
| of staff | time | of staff | time | of staff | time |  |
| trofessors | 10,747 | $92 \%$ | 12,072 | $93 \%$ | 12,897 | $92 \%$ |
| Senior lecturers/researchers | 23,197 | $91 \%$ | 22,395 | $90 \%$ | 24,491 | $89 \%$ |
| Lecturers | 43,036 | $74 \%$ | 44,023 | $74 \%$ | 45,001 | $73 \%$ |
| Researchers | 26,917 | $83 \%$ | 27,896 | $86 \%$ | 27,022 | $86 \%$ |
| Total | $\mathbf{1 0 3 , 8 9 7}$ | $\mathbf{8 2 \%}$ | $\mathbf{1 0 6 , 3 8 6}$ | $\mathbf{8 3 \%}$ | $\mathbf{1 0 9 , 4 1 1}$ | $\mathbf{8 2 \%}$ |

Notes: Pop B*.
57. The proportion of academic staff who are low activity ${ }^{7}$ is shown in Table 14. It shows that there has been a slight increase in the proportion of higher grades (professor or senior lecturer) who hold low-activity contracts (ie working the equivalent of two or less days a week) with the proportions in the lower grades remaining relatively stable.

Table 14 Proportion of academic staff that is low activity

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Number | \% low | Number | \% low | Number | \% low |
| of staff | activity | of staff | activity | of staff | activity |  |
| Professors | 10,747 | $1.9 \%$ | 12,072 | $2.0 \%$ | 12,897 | $2.4 \%$ |
| Senior lecturers and researchers | 23,197 | $1.6 \%$ | 22,395 | $1.8 \%$ | 24,491 | $1.9 \%$ |
| Lecturers | 43,036 | $7.2 \%$ | 44,023 | $7.1 \%$ | 45,001 | $7.1 \%$ |
| Researchers | 26,917 | $2.8 \%$ | 27,896 | $2.7 \%$ | 27,022 | $2.7 \%$ |
| Total | $\mathbf{1 0 3 , 8 9 7}$ | $\mathbf{4 . 3} \%$ | $\mathbf{1 0 6 , 3 8 6}$ | $\mathbf{4 . 2 \%}$ | $\mathbf{1 0 9 , 4 1 1}$ | $\mathbf{4 . 3} \%$ |

Notes: Pop B*.
58. It is possible or even likely that low-activity staff will have individual and unusual profiles in terms of their mode of employment, contract terms and so on. For this reason, given that the number and proportions of such staff are small, we have excluded them from the analysis presented in the following tables.
59. Figure 4 shows how the numbers of full-time and part-time academic and assistant academic staff has varied over the 11 -year period studied. The only group of staff that has seen a decline in recent years are those on part-time contracts at assistant academic grades.

[^5]Figure 4 Numbers of full-time and part-time academic and assistant academic staff

Notes: Pop C.
60. Table 15 shows the trends in staff holding permanent and non-permanent contracts between 2003-04 and 2005-06. Figure 5 provides an extended time series of these trends for 1995-96 through to 2005-06. The series shows that there has been a recent decline in the numbers of staff (for both academic and assistant-academic) who are holding non-permanent contracts with institutions.

Table 15 Numbers and FTE of academic and assistant academic staff by type of contract

| Grade | Contract | 2003-04 |  | 2004-05 |  | 2005-06 |  |

Notes: The FTE figures are obtained by summing academic contracts over all staff included in this table.
Pop C. Relates to Table 8 of HEFCE 2006/31.

Figure 5 Numbers of academic staff by grade and type of contract

Notes: Relates to Figure 4 of HEFCE 2006/31. Pop C.
61. Table 16 shows that the proportions of staff on permanent contracts are high among academic staff (ie those on lecturer grades or above). These proportions are seen to increase each year, and in 2005-06 ranged from 81 per cent for lecturers to 93 per cent for professors.

Table 16 Academic staff by type of contract

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% on permanent contracts | Number of staff | \% on permanent contracts | Number of staff | $\begin{array}{r} \% \text { on } \\ \text { permanent } \\ \text { contracts } \end{array}$ |
| Professors | 10,540 | 90\% | 11,827 | 93\% | 12,589 | 93\% |
| Senior lecturers |  |  |  |  |  |  |
| /researchers | 22,816 | 86\% | 21,984 | 88\% | 24,019 | 89\% |
| Lecturers | 39,955 | 78\% | 40,907 | 79\% | 41,809 | 81\% |
| Researchers | 26,165 | 9\% | 27,149 | 14\% | 26,303 | 14\% |
| Total | 99,476 | 63\% | 101,867 | 65\% | 104,720 | 67\% |

Notes: Pop C.
62. Figure 6 shows that the overall proportion of academic staff that hold a permanent contract has increased by one percentage point between 2004-05 and 2005-06, to 85 per cent in 2005-06.

Figure 6 Proportion of academic staff that are permanent

Notes: Relates to Figure 2 of HEFCE 2006/31. Pop C.
63. Following an increase of five percentage points between 2003-04 and 2004-05, Table 16 shows that the proportion of researchers (or assistant academic staff) that hold a permanent contract remained at 14 per cent in 2005-06. Clearly this proportion is substantially lower than observed for academic staff and suggests that the profiles and distributions of assistant academic and academic staff are very different.
64. Due to the nature of non-permanent contracts it is possible or even likely that these staff will have different profiles to permanent staff, with non-permanent staff displaying more atypical attributes and characteristics.
65. For these reasons, further analysis of academic staff by this report is based on a re-defined population. Unless otherwise stated, this document now presents information on academic staff holding a permanent contract of at least 40 per cent FTE when it considers staff occupying an academic role. This population is similar to that used in HEFCE $2006 / 31^{8}$ and enables us to update the results found in this report to include 2005-06.
66. Figure 7 shows that the number of permanent academic staff continues to rise and is approaching 70,000.

[^6]Figure 7 Numbers of permanent academic staff, 1995-96 to 2005-06

Notes: Relates to Figure 4 of HEFCE 2006/31. Pop D.
67. Figure 8 shows the proportion of permanent academic staff split by grade. It shows that there has been a steadily increasing proportion of professors in the permanent academic staff from 1995-96 through to 2005-06.

Figure 8 Grade distribution of permanent academic staff

Notes: Relates to Figure 7 of HEFCE 2006/31. Pop D.
68. Figure 9 shows that the numbers of full-time and part-time permanent academic staff have both been steadily increasing since 2000-01.

Figure 9 Numbers of full-time and part-time permanent academic staff

Notes: Relates to Figure 5 of HEFCE 2006/31. Pop D.

## Professional and support staff

69. Table 17 shows the profile of professional and support staff split by mode of employment. It shows that the profile in 2005-06 remained broadly similar to that observed in 2004-05, with 64 per cent of staff being employed full-time.

Table 17 Professional and support staff by mode of employment

| Mode of <br> employment | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Number <br> of staff | $\%$ | Number <br> of staff | $\%$ | Number <br> of staff | $\%$ |
| Full-time | 96,091 | $63 \%$ | 99,539 | $64 \%$ | 102,103 | $64 \%$ |
| Part-time | 36,310 | $24 \%$ | 36,649 | $24 \%$ | 37,543 | $23 \%$ |
| Low activity | 21,000 | $14 \%$ | 18,437 | $12 \%$ | 20,373 | $13 \%$ |
| Total | $\mathbf{1 5 3 , 4 0 1}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{1 5 4 , 6 2 5}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{1 6 0 , 0 1 9}$ | $\mathbf{1 0 0 \%}$ |

70. In Table 18 and Table 19 we look at the proportions of professional and support staff that are full-time and low activity respectively, within each primary function group.
71. Table 18 shows that 'Technicians' remains the group of professional and support staff with the highest proportion working full-time. This figure has fallen one percentage point from 83 per cent in 2004-05 to 82 per cent in 2005-06.
72. Rates of full-time working among the 'Managers and professionals' group are difficult to interpret and further illustrate the differences in the HESA returns of professional and support staff data since 2003-04.

Table 18 Proportion of professional and support staff that is full-time

| Primary | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| professional/support |  |  |  |  |  |  |
| function | Number | \% full- | Number | \% full- | Number |  |
| of staff | time | of staff | time | of staff | time |  |
| Managers and |  |  |  |  |  |  |
| professionals | 33,827 | $69 \%$ | 30,006 | $82 \%$ | 32,344 | $78 \%$ |
| Technicians | 21,464 | $83 \%$ | 21,549 | $83 \%$ | 21,702 | $82 \%$ |
| Support administrators | 62,469 | $63 \%$ | 67,234 | $62 \%$ | 70,617 | $61 \%$ |
| Other | 35,641 | $44 \%$ | 35,836 | $44 \%$ | 35,356 | $45 \%$ |
| Total | 153,401 | $\mathbf{6 3 \%}$ | $\mathbf{1 5 4 , 6 2 5}$ | $\mathbf{6 4 \%}$ | $\mathbf{1 6 0 , 0 1 9}$ | $\mathbf{6 4 \%}$ |

Notes: Pop F. Relates to Table 21 of HEFCE 2006/31.
73. Table 19 shows that in 2005-06 13 per cent of professional and support staff were returned with a total FTE of less than 40 per cent and are therefore classified as low activity. The highest proportion of such staff exists within the 'Other' group, at 19 per cent, compared with the lowest at 5 per cent for technicians.

Table 19 Professional and support staff by low activity employment

| Primary professional/support function | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% who are low activity | Number of staff | \% who are low activity | Number of staff | \% who are low activity |
| Managers and professionals | 33,827 | 20\% | 30,006 | 6\% | 32,344 | 10\% |
| Technicians | 21,464 | 4\% | 21,549 | 4\% | 21,702 | 5\% |
| Support administrators | 62,469 | 10\% | 67,234 | 13\% | 70,617 | 13\% |
| Other | 35,641 | 20\% | 35,836 | 20\% | 35,356 | 19\% |
| Total | 153,401 | 14\% | 154,625 | 12\% | 160,019 | 13\% |

Notes: Pop F.
74. Unless otherwise stated, further analysis of professional and support staff excludes low activity staff.
75. The proportions of professional and support staff on permanent contracts are shown in Table 20 split by primary function. It shows that the highest proportion is found in the Other group, at 93 per cent in 2005-06. The proportion of Technicians on permanent contracts remains the lowest but continues to increase, to 79 per cent in 2005-06.

Table 20 Professional and support staff by type of contract

| Primary professional/support function | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% on permanent contracts | Number of staff | \% on permanent contracts | Number of staff | \% on permanent contracts |
| Managers and professionals | 27,093 | 80\% | 28,246 | 81\% | 29,181 | 83\% |
| Technicians | 20,672 | 75\% | 20,628 | 76\% | 20,699 | 79\% |
| Support administrators | 56,099 | 82\% | 58,765 | 81\% | 61,207 | 83\% |
| Other | 28,537 | 93\% | 28,549 | 92\% | 28,559 | 93\% |
| Total | 132,401 | 83\% | 136,188 | 83\% | 139,646 | 84\% |

Notes: Low-activity staff excluded. Pop G. Relates to Table 22 of HEFCE 2006/31.

## All staff

76. Table 21 shows that the majority of staff in English HEIs in 2005-06 are employed on a full-time basis ( 65 per cent). The number of low-activity staff has increased in excess of the growth in staff numbers in the sector, rising 4 per cent between 2004-05 and 2005-06.

Table 21 Staff employed in English HEls by mode of employment

| Mode of employment | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% | Number of staff | \% | Number of staff | \% |
| Full-time | 180,675 | 66\% | 186,031 | 65\% | 190,213 | 65\% |
| Part-time | 36,310 | 13\% | 36,649 | 13\% | 37,543 | 13\% |
| Low activity | 58,139 | 21\% | 61,955 | 22\% | 64,677 | 22\% |
| Total | 275,124 | 100\% | 284,635 | 100\% | 292,433 | 100\% |

Notes: Pop A.
77. The proportions of staff on permanent contracts are shown in Table 22, split by mode of employment. It shows that staff employed on a part-time basis have the highest rates of permanent working; in 2005-06 80 per cent of part-time staff held permanent contracts. The proportions are significantly lower for low-activity staff.

Table 22 Proportion of staff on permanent contracts by mode of employment

| Mode of employment | \% on permanent contracts |  |  |
| :--- | ---: | ---: | ---: |
|  | 2003-04 | 2004-05 | 2005-06 |
| Full-time | $76 \%$ | $76 \%$ | $78 \%$ |
| Part-time | $79 \%$ | $77 \%$ | $80 \%$ |
| Low activity | $37 \%$ | $35 \%$ | $38 \%$ |
| Total | $\mathbf{6 8 \%}$ | $\mathbf{6 8 \%}$ | $\mathbf{6 9 \%}$ |

Notes: Pop A.
78. We also consider the proportions of staff on permanent contracts, split by the type of higher education institution. This information is shown in Table 23. We see that research-orientated universities have a below average rate of permanent working; 66 per
cent of staff in such HEls in 2005-06 held permanent contracts, whilst the average proportion was 69 per cent.

Table 23 Proportion of staff on permanent contracts by type of institution

| Type of institution | \% on permanent contracts |  |  |
| :--- | ---: | ---: | ---: |
|  | 2003-04 | 2004-05 | 2005-06 |
| Research-orientated universities | $64 \%$ | $64 \%$ | $66 \%$ |
| Other universities | $77 \%$ | $75 \%$ | $76 \%$ |
| General colleges / specialist HEls | $66 \%$ | $66 \%$ | $68 \%$ |
| Total | $68 \%$ | $68 \%$ | $69 \%$ |

Notes: Pop A.

## Age profile of the workforce

79. The 2002 report 'Academic staff: trends and projections' (HEFCE 2002/43) sought to determine whether the age profile of academic staff was such that an increasing number would be reaching retirement age. At the time the UK academic labour force had a high proportion of staff aged over 50 , and it was the proportion of staff falling into this age group that was of interest. This age group remained the focus of the 2005 report 'Staff employed at HEFCE-funded HEls: Trends, profiles and projections' (HEFCE 2005/23) and its update HEFCE 2006/31.
80. Although HEFCE 2002/43 identified an increase in the proportion of staff aged over 50 between 1995-96 and 2000-01, the later reports showed that in 2003-04 and 2004-05 this proportion remained about the same as in 2000-01. Analysis for this report has shown that in general the age profile remains broadly similar to that seen in 2004-05, which in turn were similar to those of 2003-04. While the change in the proportion of staff aged over 50 has been found to be minimal, changes in the proportion of staff aged over 60 are felt to be of greater interest and, as such, it is this proportion that is discussed in the following paragraphs.

## Academic staff

81. Table 24 shows the trend in age of academic staff between 2003-04 and 2005-06. It shows that there is relative stability at a sector level in the proportions of staff at different age brackets.

Table 24 Permanent academic staff by age

| Age Group | 2003-04 |  | 2004-05 |  | $\mathbf{2 0 0 5 - 0 6}$ |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Number <br> of staff | $\%$ | Number <br> of staff | $\%$ | Number <br> of staff | $\%$ |
|  | 1,224 | $2 \%$ | 1,359 | $2 \%$ | 1,451 | $2 \%$ |
| 30 to 39 | 13,208 | $22 \%$ | 13,418 | $21 \%$ | 14,227 | $21 \%$ |
| 40 to 49 | 20,825 | $34 \%$ | 21,813 | $35 \%$ | 23,668 | $35 \%$ |
| 50 to 59 | 21,309 | $35 \%$ | 21,806 | $35 \%$ | 22,610 | $34 \%$ |
| 60 and over | 3,904 | $6 \%$ | 4,290 | $7 \%$ | 4,928 | $7 \%$ |
| Total | $\mathbf{6 0 , 4 7 0}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{6 2 , 6 8 6}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{6 6 , 8 8 4}$ | $\mathbf{1 0 0 \%}$ |

Notes: Pop D.
82. Figure 10 shows the trend in the proportion of staff aged 60 or over by academic grade. It shows that there has been a rise in the proportion of professors aged 60 and over since 2002-03, to around 15 per cent. A similar rise is also seen in the proportion of lecturers who are aged 60 or over but the actual proportion of staff is at a much lower level (2 to 4 per cent).

Figure 10 Proportion of permanent academic staff aged 60 and over by grade

Notes: Relates to Figure 9 of HEFCE 2006/31. Pop D.
83. Table 25 shows the proportion of academic staff aged 60 or over split by the subject of the staff highest qualification for 2003-04 to 2005-06. It shows that those holding mathematical sciences qualifications have the highest level of staff aged 60 or over at 12 per cent in 2005-06.

Table 25 Proportion of permanent academic staff aged 60 and over by subject area

| Subject area | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Unknown and combined subjects | 5,652 | 7\% | 5,630 | 7\% | 6,174 | 7\% |
| Veterinary sciences/agriculture/related subjects | 548 | 7\% | 567 | 6\% | 587 | 7\% |
| Total | 60,470 | 6\% | 62,686 | 7\% | 66,884 | 7\% |

Notes: Relates to Table 11 of HEFCE 2006/31. Pop D.

## Professional and support staff

84. The age profile of professional and support staff remains broadly similar to that seen in 2004-05 and Other remains the group with the oldest age profile.
85. Table 26 shows the mean and median ages for staff within each primary function. The lowest median age is found among support administrators, at 40 . It also shows the proportion of staff in each primary function group who are aged 60 or over. Analysis has shown that these proportions are relatively constant from 2003-04 to 2005-06. The highest proportion is in the category Other at 13 per cent. Technicians and Managers and professionals are the groups with the lowest proportion, both at 4 per cent.

Table 26 Professional and support staff by age, 2005-06

| Primary <br> professional/support <br> function | Number <br> of staff | Number <br> with known <br> age | Mean <br> age <br> (years) | Median <br> age <br> (years) | $\%$ <br> aged <br> 60 or <br> over |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Managers and | 29,181 | 29,176 | 43 | 43 | $4 \%$ |
| professionals | 20,699 | 20,693 | 42 | 42 | $6 \%$ |
| Technicians | 61,207 | 61,192 | 40 | 40 | $4 \%$ |
| Support administrators | 28,559 | 28,551 | 46 | 47 | $13 \%$ |
| Other | $\mathbf{1 3 9 , 6 4 6}$ | $\mathbf{1 3 9 , 6 1 2}$ | $\mathbf{4 2}$ | $\mathbf{4 2}$ | $\mathbf{6 \%}$ |
| Total |  |  |  |  |  |

Notes: Low-activity staff excluded. Pop G. Relates to Table 23 of HEFCE 2006/31.

## All staff

86. The age profile of staff in English HEIs is shown in Table 27. It shows that the profile remains consistent from 2003-04 to 2005-06 and that the majority of staff fall between the ages of 30 and 60 . In each year the mean and median ages are 43 .

Table 27 Staff in English HEls by age

| Age group | 2003-04  <br> Number <br> of staff $\%$ |  | 2004-05  <br> Number <br> of staff $\%$ |  | Number <br> of staff $\%$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Below 30 | 42,806 | 16\% | 44,728 | 16\% | 46,887 | 16\% |
| 30 to 39 | 71,483 | 26\% | 73,472 | 26\% | 74,981 | 26\% |
| 40 to 49 | 71,912 | 26\% | 74,784 | 26\% | 77,175 | 26\% |
| 50 to 59 | 68,979 | 25\% | 70,847 | 25\% | 71,914 | 25\% |
| 60 and over | 17,731 | 6\% | 19,656 | 7\% | 20,934 | 7\% |
| Total with known age | 272,911 | 100\% | 283,487 | 100\% | 291,891 | 100\% |

| Low activity | $11 \%$ | $12 \%$ | $12 \%$ |
| Total | $6 \%$ | $7 \%$ | $7 \%$ |

Notes: Pop A.

## Disability profile of the workforce

88. In terms of their disability status, staff are returned on the HESA staff record in one of three ways:
a. Not known to be disabled.
b. Declared disabled.
c. Information not provided.

A staff's disability status is recorded on the basis of the staff member's own selfassessment.
89. In this section of the report we look at the number of staff returned in each status, with a focus on the proportion of staff declared disabled. Percentages are shown to one decimal place because of the small numbers of staff returned in this manner.
90. This information has not been analysed in previous reports.

## Academic staff

91. Figure 11 shows the trend in the number of permanent academic that are declared disabled. It shows a rapid increase in the number of staff reported as declared disabled between 2000-01 and 2003-04. It is unclear whether this is due to improved reporting methods or an actual increase in the number of declared disabled staff in the sector during this period.

Figure 11 Number of permanent academic staff declared disabled

## Notes: Pop D.

92. Figure 12 shows the proportion of permanent academic staff declared disabled, split by grade. It shows that there are broadly similar proportions of staff who are declared disabled in each of the grades and that the pattern of change between 1995-96 and 2005-06 is similar for each grade of academic staff.

Figure 12 Proportion of permanent academic staff that are declared disabled by grade

Notes: Proportions declared disabled are the proportion of the total number of staff with known disability status. Pop D.
93. Table 29 shows the proportion of permanent academic staff declared disabled, split by the subject area of their highest qualification for 2003-04 to 2005-06. It shows that all the subject areas have between around 1.5 per cent and 3.5 per cent of staff who have a declared disability.

Table 29 Permanent academic staff by disability status and subject area

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | declared disabled | Number of staff | declared disabled | Number of staff | declared disabled |
| Biological sciences | 5,553 | 2.4\% | 5,825 | 2.4\% | 6,431 | 2.4\% |
| Business/administrative studies | 3,647 | 3.0\% | 3,923 | 3.0\% | 4,092 | 3.1\% |
| Computer science/librarianship/info |  |  |  |  |  |  |
| science | 2,897 | 2.3\% | 2,984 | 2.6\% | 3,148 | 2.6\% |
| Creative arts/design | 3,169 | 2.5\% | 3,578 | 2.6\% | 3,854 | 2.5\% |
| Education | 3,201 | 3.0\% | 3,576 | 2.9\% | 3,812 | 3.2\% |

| Humanities | 3,061 | 3.2\% | 3,219 | 3.0\% | 3,478 | 3.2\% |
| Languages | 3,700 | 2.3\% | 3,828 | 2.4\% | 4,122 | 2.3\% |
| Law | 1,760 | 3.1\% | 1,758 | 3.0\% | 1,861 | 3.5\% |
| Mathematical sciences | 1,870 | 2.7\% | 1,908 | 2.7\% | 1,987 | 2.3\% |
| Medicine and Dentistry | 1,714 | 2.0\% | 1,670 | 2.3\% | 1,910 | 2.0\% |
| Physical sciences | 4,428 | 2.2\% | 4,473 | 2.2\% | 4,796 | 1.9\% |
| Social/political/economic studies | 6,437 | 3.0\% | 6,768 | 3.3\% | 7,150 | 3.0\% |
| Subjects allied to medicine | 4,911 | 3.5\% | 5,243 | 3.3\% | 5,567 | 3.1\% |
| Unknown and combined subjects | 5,146 | 2.5\% | 4,944 | 2.7\% | 5,670 | 2.5\% |
| Veterinary sciences/agriculture/related subjects | 495 | 2.2\% | 522 | 1.5\% | 548 | 1.5\% |
| Total with known disability status | 56,693 | 2.7\% | 58,910 | 2.7\% | 63,282 | 2.6\% |
| Not known/not given | 3,777 |  | 3,776 |  | 3,602 |  |
| Total | 60,470 |  | 62,686 |  | 66,884 |  |

Notes: Proportions declared disabled are the proportion of the total number of staff with known disability
status. Pop D

## Professional and support staff

94. In 2003-04 there were 3,540 professional and support staff with a declared disability which rose to around 3,748 in 2005-06 (3,730 in 2004-05). However, the continued rise in numbers is not reflected in the proportions of professional and support staff that are declared disabled. These proportions are shown in Table 30, split by primary function. We see that in each year this proportion is highest among Technicians. The group with the lowest proportion is that of Managers and professionals.

Table 30 Professional and support staff by disability status

| Primary professional/support function | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% <br> declared disabled | Number of staff | \% <br> declared disabled | Number of staff | \% <br> declared disabled |
| Managers and professionals | 25,300 | 2.5\% | 25,721 | 2.7\% | 27,626 | 2.5\% |
| Technicians | 18,711 | 3.6\% | 18,406 | 3.7\% | 18,954 | 3.6\% |
| Support administrators | 51,760 | 2.8\% | 54,092 | 2.9\% | 56,921 | 2.8\% |
| Other | 24,872 | 3.2\% | 25,455 | 3.2\% | 25,709 | 3.0\% |
| Total with known disability status | 120,643 | 2.9\% | 123,674 | 3.0\% | 129,210 | 2.9\% |
| Not known/not given | 11,758 |  | 12,514 |  | 10,436 |  |
| Total | 132,401 |  | 136,188 |  | 139,646 |  |

Notes: Low-activity staff excluded. Pop G.

## All staff

95. Table 31 shows the numbers and proportions of staff in English HEls that are declared disabled for the period 2003-04 through to 2005-06.

Table 31 Proportions of staff declared disabled

| Academic | Number of <br> staff | Number with <br> known <br> disability <br> status | Number <br> with <br> declared <br> disability | \% with <br> declared <br> disability |
| :--- | ---: | ---: | ---: | ---: |
| $2003-04$ | 275,124 | 247,139 | 6,404 | $2.6 \%$ |
| $2004-05$ | 284,635 | 255,722 | 6,783 | $2.7 \%$ |
| $2005-06$ | 292,433 | 267,762 | 6,941 | $2.6 \%$ |

Notes: Pop A.
96. For 2005-06 we see a further rise in the number of staff returned with a declared disability, to 6,941 . However, this continued rise is not reflected when we consider the proportions of staff returned in this manner. Following a rise in 2004-05 to 2.65 per cent, this figure then returns to the 2003-04 figure of 2.59 per cent in 2005-06.
97. Table 32 shows the proportion of staff declared disabled, split by mode of employment. In 2005-06 this proportion ranges from 2.4 per cent among low-activity staff to 2.9 per cent among those working part-time.

Table 32 Proportion of staff with declared disability, by mode of employment

| Mode of employment | \% with declared disability |  |  |
| :--- | ---: | ---: | ---: |
|  | $\mathbf{2 0 0 3 - 0 4}$ | $\mathbf{2 0 0 4 - 0 5}$ | $\mathbf{2 0 0 5}-\mathbf{0 6}$ |
| Full-time | $2.6 \%$ | $2.7 \%$ | $2.6 \%$ |
| Part-time | $2.9 \%$ | $3.0 \%$ | $2.9 \%$ |
| Low activity | $2.2 \%$ | $2.2 \%$ | $2.4 \%$ |
| Total | $\mathbf{2 . 6 \%}$ | $\mathbf{2 . 7 \%}$ | $\mathbf{2 . 6} \%$ |

Notes: Pop A.

## Ethnicity profile of the workforce

## Academic staff

98. Figure 13 shows the trend in the number of permanent academic staff from a nonwhite ethnic background between 1995-96 and 2005-06. It shows that since 1997-98 there has been a steady increase in the number of staff from a non-white ethnic background.

Figure 13 Number of permanent academic staff from a non-white ethnic background

Notes: Pop D
99. Figure 14 shows the proportion of permanent academic staff from a non-white ethnic background split by grade for the 11-year period between 1995-96 and 2005-06. It shows that there has been an increase in the proportion from a non-white ethnic background at all levels of academic grade across the period. It also shows that the lowest proportion of staff from a non-white ethnic background is at the professional grade.

Figure 14 Proportion of permanent academic staff from a non-white ethnic background by grade

Notes: Proportions that are non-white are the proportion of the total number of staff with known ethnic background. Pop D.
100. Table 33 shows the proportion of permanent academic who are from a non-white ethnic background, split by the subject of the highest qualification of the staff member. It shows that engineering, computer science, medicine and dentistry, and business studies have the highest levels of staff from a non-white ethnic background.

Table 33 Permanent academic staff by ethnic background and subject area

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Law | 1,727 | 7.8\% | 1,730 | 8.8\% | 1,819 | 9.2\% |
| Mathematical sciences | 1,831 | 6.2\% | 1,874 | 7.8\% | 1,946 | 8.0\% |
| Medicine and Dentistry | 1,605 | 10.0\% | 1,624 | 10.3\% | 1,833 | 11.3\% |
| Physical sciences | 4,348 | 4.9\% | 4,403 | 5.2\% | 4,671 | 5.4\% |
| Social/political/economic studies | 6,400 | 8.5\% | 6,702 | 8.6\% | 7,064 | 8.8\% |
| Subjects allied to medicine | 4,920 | 8.8\% | 5,258 | 8.9\% | 5,551 | 9.3\% |
| Unknown and combined subjects | 5,121 | 10.0\% | 4,918 | 9.7\% | 5,424 | 9.7\% |
| Veterinary sciences/agriculture related subjects | 528 | 3.8\% | 542 | 4.2\% | 566 | 5.1\% |
| Total with known ethnic background | 56,677 | 7.9\% | 58,631 | 8.1\% | 62,444 | 8.4\% |
| Not known/not given | 3,793 |  | 4,055 |  | 4,440 |  |
| Total | 60,470 |  | 62,686 |  | 66,884 |  |

Notes: Proportions that are non-white are the proportion of the total number of staff with known ethnic background. Pop D.

## Professional and support staff

101. Figure 15 and Table 34 show that the number of professional and support staff whose ethnic background is returned as being non-white continued to rise steadily between 2003-04 and 2005-06. In 2005-06 11,749 were returned as being from a nonwhite ethnic background; a rise of 8 per cent on 2004-05.

Figure 15 Number of professional and support staff from a non-white ethnic background

Notes: Low-activity staff excluded. Pop G.
102. Table 34 shows the proportions of professional and support staff from a non-white ethnic background, with the highest proportion in 2005-06 being Technicians and 'Other', both at around 10 per cent. Managers and professionals is the group with the highest proportion of white staff, at 93 per cent.

Table 34 Professional and support staff by ethnicity

| Primary professional/support function | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% non- <br> white <br> ethnic <br> group | Number of staff | \% nonwhite ethnic group | Number of staff | \% non white ethnic group |
| Managers and professionals | 25,486 | 6.2\% | 26,741 | 6.4\% | 27,659 | 6.7\% |
| Technicians | 18,324 | 9.2\% | 18,525 | 9.7\% | 18,600 | 10.0\% |
| Support administrators | 52,700 | 8.1\% | 55,459 | 8.9\% | 57,656 | 9.5\% |
| Other | 25,029 | 8.8\% | 25,264 | 9.7\% | 25,332 | 10.2\% |
| Total with known ethnicity | 121,539 | 8.0\% | 125,989 | 8.7\% | 129,247 | 9.1\% |
| Not known/not given | 10,862 |  | 10,199 |  | 10,399 |  |
| Total | 132,401 |  | 136,188 |  | 139,646 |  |

Notes: Low-activity staff excluded. Pop G. Relates to Table 25 of HEFCE 2006/31.

## All staff

103. The ethnicity profile of staff in English HEls is shown in Table 35 and in 2005-06 remains broadly similar to that seen in 2004-05.

Table 35 Staff in English HEls by ethnicity

| Ethnicity | 2003-04 <br> Number of staff | \% | $\begin{aligned} & 2004-05 \\ & \text { Number } \\ & \text { of staff } \end{aligned}$ | \% | 2005-06 <br> Number of staff | \% |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Asian/Asian British | 9,342 | 3.8\% | 10,170 | 4.0\% | 10,896 | 4.1\% |
| Black/Black British | 5,383 | 2.2\% | 5,828 | 2.3\% | 6,135 | 2.3\% |
| Chinese | 4,388 | 1.8\% | 4,795 | 1.9\% | 5,115 | 1.9\% |
| Mixed and other ethnic backgrounds | 4,869 | 2.0\% | 5,344 | 2.1\% | 5,732 | 2.2\% |
| White | 220,468 | 90.2\% | 229,439 | 89.8\% | 235,387 | 89.4\% |
| Total with known ethnicity | 244,450 | 100\% | 255,576 | 100\% | 263,265 | 100\% |
| Not known/not given | 30,674 |  | 29,059 |  | 29,168 |  |
| Total | 275,124 |  | 284,635 |  | 292,433 |  |

Notes: Pop A.
104. We see from Table 35 that the numbers of staff from non-white ethnic groups have continued to rise. Between 2004-05 and 2005-06 the number of staff from a white ethnic background increased in line with the 3 per cent growth in staff numbers in the sector. However, the rise in numbers is larger for each of the other ethnic groups; the number of 'Black/Black British' staff has increased by 5 per cent whilst numbers for all other ethnic backgrounds increased 7 per cent.
105. Table 36 further illustrates the growth in the proportion of staff from non-white ethnic backgrounds. These proportions are shown split by mode of employment. We see that the part-time staff category has the lowest proportion from non-white ethnic backgrounds.

Table 36 Proportion of staff from a non-white ethnic background, by mode of employment

| Mode of <br> employment | \% from non-white ethnic <br> group |  |  |
| :--- | :--- | :--- | :--- |
|  | $\mathbf{2 0 0 3 - 0 4}$ | $\mathbf{2 0 0 4 - 0 5}$ | $\mathbf{2 0 0 5 - 0 6}$ |
| Full-time | $10 \%$ | $10 \%$ | $11 \%$ |
| Part-time | $8 \%$ | $9 \%$ | $9 \%$ |
| Low activity | $11 \%$ | $11 \%$ | $12 \%$ |
| Total | $\mathbf{1 0 \%}$ | $\mathbf{1 0} \%$ | $\mathbf{1 1 \%}$ |

Notes: Pop A.

## Sex profile of the workforce

## Academic staff

106. Figure 16 shows the trend in the number of female permanent academic staff between 1995-96 and 2005-06. It shows a steady increase in the number of female staff between 1997-98 and 2005-06.

Figure 16 Number of female permanent academic staff

Notes: Pop D.
107. Figure 17 shows how the proportion of women in the permanent academic staff varies by grade for the period 1995-96 through to 2005-06. It shows that for all grades there is a consistent increase in the proportions of staff who are female. The highest proportion of women is seen in the lecturers category, where levels rose to around 45 per cent in 2005-06.
108. Table 37 shows the proportion of women in the permanent academic staff, split by the staff member's subject of highest qualification. It shows that education and subjects allied to medicine have the highest proportions of female staff when comparing across subjects, and their proportions are continuing to increase.

Figure 17 Proportion of permanent academic staff that are women by grade

Notes: Pop D.

| Total | 60,470 | 35\% | 62,686 | 36\% | 66,884 | 37\% |

Notes: Pop D.

## Professional and support staff

109. The number of female professional and support staff has increased between 200304 and 2005-06. In 2005-06 the number of women increased by 3 per cent from 2004-05 to 85,970 . The equivalent number of male staff is 53,676 .
110. The proportion of professional and support staff who are women is shown in Table 38 by the different primary function groups. We see that in 2005-06 62 per cent of professional and support staff are women. The highest proportion of women employed in the sector remains in the Support administrators group; it fell from 82 per cent in 2004-05 to 81 per cent in 2005-06. The lowest proportion is again in the Technicians group and has risen by one percentage point, to 33 per cent in 2005-06.

Table 38 Professional and support staff by sex
$\left.\begin{array}{|l|ll|ll|ll|}\hline \begin{array}{l}\text { Primary } \\ \text { professional/support } \\ \text { function }\end{array} & \begin{array}{llllll}\mathbf{2 0 0 3 - 0 4} & & \mathbf{2 0 0 4 - 0 5} \\ \text { Number } \\ \text { of staff }\end{array} & \text { \% } \\ \text { female }\end{array}\right)$

Notes: Low-activity staff excluded. Pop G. Relates to Table 24 of HEFCE 2006/31.

## All staff

111. Table 39 shows the number of staff in English HEls split by sex. It shows that the number of women has been rising steadily over the three-year period and accounted for 53 per cent of all staff in 2005-06.

Table 39 Staff in English HEls by sex

| Sex | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | \% | Number of staff | \% | Number of staff | \% |
| Female | 144,027 | 52\% | 150,042 | 53\% | 154,928 | 53\% |
| Male | 131,097 | 48\% | 134,593 | 47\% | 137,505 | 47\% |
| Total | 275,124 | 100\% | 284,635 | 100\% | 292,433 | 100\% |

Notes: Pop A.
112. The proportion of staff who are female is shown in Table 40 split by mode of employment. These proportions remain relatively constant throughout the three-year period. Staff working part-time have the highest proportion of women, at 83 per cent in 2005-06. Full-time staff have the lowest proportion of women at 46 per cent.

Table 40 Proportion of female staff by mode of employment

| Mode of employment | \% female |  |  |

| Part-time | 84\% | 83\% | 83\% |
| Low activity | 56\% | 56\% | 56\% |
| Total | 52\% | 53\% | 53\% |

Notes: Pop A.

## Nationality profile of the workforce

Academic staff
113. Figure 18 shows the trend in the number of permanent academic staff who are non-UK nationals between 1995-96 and 2005-06. Between 1997-98 and 2005-06 there has been a rise from 4,000 to around 10,000 non-UK staff across the sector.

Figure 18 Number of permanent academic staff who are non-UK nationals

Notes: Pop D.
114. Table 41 shows the breakdown of the different nationalities of the permanent academic staff in 2003-04, 2004-05 and 2005-06. It shows that after UK nationals, those from Western Europe and Scandinavia form the largest group of staff.

Table 41 Permanent academic staff by nationality

| Nationality | $\mathbf{2 0 0 3 -}$ <br> $\mathbf{0 4}$ | $\mathbf{2 0 0 4}$ <br> $\mathbf{0 5}$ | $\mathbf{2 0 0 5 -}$ <br> $\mathbf{0 6}$ | \% change <br> $\mathbf{2 0 0 3 - 0 4}$ to <br> $\mathbf{2 0 0 5 - 0 6}$ |
| :--- | ---: | ---: | ---: | ---: |

| Unknown | 1,451 | 1,570 | 1,765 | $\mathrm{~N} / \mathrm{A}$ |
| Total | $\mathbf{6 0 , 4 7 0}$ | $\mathbf{6 2 , 6 8 6}$ | $\mathbf{6 6 , 8 8 4}$ | $\mathbf{1 1 \%}$ |

Notes: Pop D. Relates to Table 14 of HEFCE 2006/31.
115. Figure 19 shows the trend in the proportion of non-UK nationals between 1995-96 and 2005-06, split by grade. It shows that there have been increases for all grades in the proportion of staff who are non-UK nationals in the period.

Figure 19 Proportion of permanent academic staff that are non-UK nationals by grade

Notes: Pop D.
116. Table 42 shows the proportion of non-UK national permanent academic staff split by the subject of their highest qualification in 2003-04, 2004-05 and 2005-06. It shows that Education has the lowest proportion of staff from a non-UK nationality ( 5 per cent in 2005-06). In all single subject areas, there was an increase in the proportion of non-UK nationals between 2003-04 and 2005-06.

Table 42 Permanent academic staff by nationality and subject area

| Grade | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Total with known nationality | 59,019 | 13\% | 61,116 | 14\% | 65,119 | 15\% |
| Not known/not given | 1,451 |  | 1,570 |  | 1,765 |  |
| Total | 60,470 |  | 62,686 |  | 66,884 |  |

Notes: Proportions of non-UK nationals are the proportion of the total number of staff with known nationality. Pop D.

## Professional and support staff

117. The nationality profile of professional and support staff in English HEls is shown in Table 43. It shows that the highest proportion of non-UK nationals is found in the Other group, whilst Managers and professionals have the lowest proportion.

Table 43 Professional and support staff by nationality

|  | $2003-04$ |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| \% who |  |  |
| Primary |  |  |
| professional/support |  |  |
| function |  |  |

Notes: Low activity staff excluded. Pop G.
118. In Table 43 we see that the proportion of staff who are non-UK nationals has continued to increase throughout the three-year period. Table 44 shows the growth in the numbers of non-UK national professional and support staff split by the primary function group. This growth is greatest among Support administrators; between 2004-05 and 2005-06 this number has increased by 15 per cent from 3,388 to 3,893 .

Table 44 Numbers of non-UK national professional and support staff by primary function

Notes: Low activity staff excluded. Pop G.

## All staff

119. Table 45 details the nationality profile of staff in English HEls. It shows that in 2005-06 it remains broadly similar to that seen in the previous years. The proportion of non-UK nationals has risen by one percentage point, to 14 per cent. The largest percentage change in numbers is seen among staff from Eastern and Central Europe; numbers increased by 16 per cent from 2004-05 to 2005-06.

Table 45 Staff in English HEls by nationality

| Total | $\mathbf{2 7 5 , 1 2 4}$ |  | $\mathbf{2 8 4 , 6 3 5}$ |  | $\mathbf{2 9 2 , 4 3 3}$ |  |

Notes: Pop A.
120. The continued growth in the proportion of non-UK national staff is further illustrated in Table 46. When split by mode of employment we see that the lowest proportion of nonUK nationals is found among part-time staff, at 8 per cent in 2005-06. For low-activity staff, where the proportion is highest, the figure is more than twice as much, at 17 per cent.

Table 46 Proportion of staff who are non-UK nationals by mode of employment

| Mode of employment | \% who are non-UK nationals |  |  |
| :--- | ---: | ---: | ---: |
|  | $\mathbf{2 0 0 3 - 0 4}$ | $\mathbf{2 0 0 4 - 0 5}$ | $\mathbf{2 0 0 5 - 0 6}$ |
| Full-time | $13 \%$ | $14 \%$ | $14 \%$ |
| Part-time | $7 \%$ | $8 \%$ | $8 \%$ |
| Low activity | $16 \%$ | $16 \%$ | $17 \%$ |
| Total | $\mathbf{1 3} \%$ | $\mathbf{1 3} \%$ | $\mathbf{1 4 \%}$ |

Notes: Pop A.
121. Table 47 shows the proportion of staff who are non-UK nationals, by the type of HEI. It shows that this proportion is highest at research-orientated universities and has increased by one percentage point each year during the three-year period. The rate of increase is slower in terms of other types of institution, and the proportion of non-UK nationals is lowest at other universities.

Table 47 Proportion of staff who are non-UK nationals by type of institution

| Type of institution | \% who are non-UK nationals |  |  |

| Total | $\mathbf{1 3} \%$ | $\mathbf{1 3} \%$ | $\mathbf{1 4 \%}$ |

Notes: Pop A.

## Salary profile of the workforce

122. The salaries of permanent academic staff have been considered in previous analyses of staff employed at HEFCE-funded HEls. In this section of the report we extend our analysis to that of all three categories of staff, providing for the first time information on the salaries of professional and support staff.
123. Earlier reports have looked at the proportions of permanent academic staff earning a salary greater than $£ 50,000$. However, analysis has shown considerable differences between academic, and professional and support staff, salaries, with the latter being, in general, far lower. For this reason we use different thresholds when we consider the different categories of staff. Analysis has shown that for academic staff $£ 50,000$ remains the most appropriate threshold. For professional and support staff we use $£ 35,000$ whereas for all staff $£ 30,000$ is the most suitable.

## Academic staff

124. The number of permanent academic staff earning a salary greater than $£ 50,000$ is given in Figure 20. It shows that in 1995-96 there were around 2,000 staff who were earning over $£ 50,000$ and that number had increased to around 12,000 in 2005-06.

Figure 20 Number of permanent academic staff earning more than £50,000

Notes: Pop D.
125. Table 48 shows the proportion of staff earning more than $£ 50,000$ in 2003-4, 200405 and 2005-06, split by the subject of their highest qualification. It shows that in all subject areas, apart from medicine and dentistry, there has been an increasing proportion of staff earning more than £50,000 in the period 2003-04 to 2005-06.

Table 48 Permanent academic staff by salary and subject area

| Subject | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of staff | earning $£ 50,000+$ | Number of staff | earning £50,000+ | Number of staff | earning £50,000+ |

| Not known/not given | 367 |  | 376 |  | 432 |  |
| Total | 60,470 |  | 62,686 |  | 66,884 |  |

Notes: Relates to Table 17 of HEFCE 2006/31. Proportions earning greater than £50,000 are the proportion of the total number of staff with known salary. Pop D.
126. Table 49 provides the median salary of permanent academic staff in 2003-04, 2004-05 and 2005-06 split by grade. It shows that all grades have seen an increase in median salaries with professors and lecturers seeing the largest increases of just under 10 per cent between 2003-04 and 2005-06.

Table 49 Median salary of permanent academic staff by grade

| Grade | Median salary |  |  | $\begin{array}{r} \hline \text { \% change } \\ 2003-04 \text { to } \\ 2005-06 \\ \hline \end{array}$ | $\begin{array}{r} \hline \text { \% change } \\ 2004-05 \text { to } \\ 2005-06 \\ \hline \end{array}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2003-04 | 2004-05 | 2005-06 |  |  |
| Professors | £54,930 | £57,700 | £59,670 | 9\% | 3\% |
| Senior lecturers/researchers | £41,530 | £42,040 | £42,920 | 3\% | 2\% |
| Lecturers | £32,770 | £34,910 | £35,550 | 8\% | 2\% |
| Total | £37,820 | £38,600 | £39,250 | 4\% | 2\% |

Notes: Median salary rounded to the nearest $£ 10$. Pop D.
127. Table 50 shows the median salary for men and women in 2005-06, split by the subject area of their highest qualification. The proportion of staff earning over $£ 50,000$ in each category is also reported. The table shows that for both men and women those staff
whose subject of highest qualification is medicine have the greatest median salaries with men earning around $£ 79,000$ and women earning around $£ 69,000$. The table also shows that the range of median salaries across subject areas is smaller for women than men.

Table 50 Salaries of permanent academic staff by subject area and sex

| Subject area | Median salary |  |  | $\begin{aligned} & \text { \% earning } \\ & \text { £50,000+ } \\ & \hline \end{aligned}$ |  |

| Veterinary sciences/agriculture/related subjects | £37,710 | £39,910 | £36,390 | 18\% | 5\% |
| Total | £38,770 | £41,290 | £37,520 | 23\% | 9\% |

Notes: Includes only staff with known salaries. Median salary has been rounded to the nearest $£ 10$.
Relates to Table 18 of HEFCE 2006/31. Pop D.

## Professional and support staff

128. The salary profile of professional and support staff is shown in Table 51. It shows significant changes in the salaries of professional and support staff between 2003-04 and 2005-06.
129. Table 51 shows that the proportion of professional and support staff earning more than $£ 35,000$ increased by two percentage points between 2004-05 and 2005-06, to 12.1 per cent. Table 52 , which shows the median salaries of professional and support staff by primary function, reveals that the median salary has increased by seven percentage points during this time, to $£ 20,110$. The extent to which promotion may contribute to these increases is not known, but analysis suggests that the main cause is the awarding of pay increases.
130. The increase in the proportion of staff earning salaries greater than $£ 35,000$ is substantial for all primary function groups. It is largest among Technicians, where the proportion increases by a third, from 4.9 per cent in 2004-05 to 6.5 per cent in 2005-06. Table 52 shows that the median salary for this group has increased by 6 per cent, to £22,930.
131. Table 51 also shows considerable variation between the four primary function groups in terms of salary. The large proportion of Managers and professionals with salaries higher than $£ 35,000$ indicates that this group has substantially larger salaries than all other professional and support staff. Table 52 shows that the median salary of this group of staff is $£ 10,000$ higher than that of any other primary function group, at £33,960 in 2005-06.

Table 51 Professional and support staff by salary

| Primary <br> professional/support <br> function | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| All primary/support staff | $£ 18,090$ | $£ 18,800$ | $£ 20,110$ | $\mathbf{1 1 \%}$ | $\mathbf{7 \%}$ |

Notes: Low activity staff excluded. Pop G.
132. The lowest salaries of professional and support staff are in the primary function of Other, where, in 2005-06, 0.3 per cent of staff earned salaries greater than $£ 35,000$.
Their median salary for 2005-06 of $£ 13,600$ has experienced the smallest percentage change from 2004-05, of two percentage points.

## All staff

133. The salary profile of all staff in English higher education institutions is shown in Table 53. We see that the vast majority of staff earn salaries of between $£ 10,000$ and £50,000.

Table 53 Staff in English HEls by salary

| Salary band | 2003-04 <br> Number <br> of staff |  | $\%$ | 2004-05 <br> Number <br> of staff |  | $\%$ |

| $£ 20,001$ to $£ 30,000$ | 69,705 | $27 \%$ | 75,266 | $29 \%$ | 79,185 | $30 \%$ |
| $£ 30,001$ to $£ 40,000$ | 49,201 | $19 \%$ | 54,233 | $21 \%$ | 63,633 | $24 \%$ |
| $£ 40,001$ to $£ 50,000$ | 19,978 | $8 \%$ | 21,647 | $8 \%$ | 26,914 | $10 \%$ |
| $£ 50,001$ to $£ 60,000$ | 5,871 | $2 \%$ | 6,401 | $2 \%$ | 7,538 | $3 \%$ |
| $£ 60,001$ to $£ 70,000$ | 2,533 | $1 \%$ | 2,936 | $1 \%$ | 3,554 | $1 \%$ |
| $£ 70,001$ and above | 3,941 | $2 \%$ | $\mathbf{4 , 7 3 5}$ | $2 \%$ | 5,737 | $2 \%$ |
| Total with known | $\mathbf{2 5 6 , 1 9 5}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{2 6 0 , 6 6 9}$ | $\mathbf{1 0 0 \%}$ | $\mathbf{2 6 7 , 6 7 1}$ | $\mathbf{1 0 0 \%}$ |
| salary | 18,929 |  | 23,966 |  | 24,762 |  |
| Salary not known | $\mathbf{2 7 5 , 1 2 4}$ |  | $\mathbf{2 8 4 , 6 3 5}$ |  | $\mathbf{2 9 2 , 4 3 3}$ |  |
| Total |  |  |  |  |  |  |

Notes: Pop A.
134. Table 53 shows that the number of staff in the salary band of ' $£ 30,001$ to $£ 40,000$ ' is steadily increasing. Indeed the proportion of staff earning salaries greater than $£ 30,000$ increased by eight percentage points between 2003-04 and 2005-06, to reach 40 per cent. This is shown in Table 54, which gives this proportion along with the median salary. We see that during this period the median salary has risen by almost $£ 3,500$, to $£ 26,360$ in 2005-06.

Table 54 Salary information for staff in English HEls, 2003-04 through 2005-06

| Academic | Number of <br> staff | Number <br> with known <br> salary | Median <br> salary | \% salaries <br> greater than <br> $£ 30,000$ |
| :--- | ---: | ---: | ---: | ---: |
| $2003-04$ | 275,124 | 256,195 | $£ 22,980$ | $32 \%$ |
| $2004-05$ | 284,635 | 260,669 | $£ 24,440$ | $35 \%$ |
| $2005-06$ | 292,433 | 267,671 | $£ 26,360$ | $40 \%$ |

Notes: Pop A.
135. When we consider the proportion of staff earning salaries greater than $£ 30,000$, split by mode of employment in Table 55 , we see a significant increase for all modes.
136. In contrast to other modes of employment, for low-activity staff the increase in this proportion is largest between 2003-04 and 2004-05, rising seven percentage points, from 22 per cent to 29 per cent. Between 2004-05 and 2005-06 the proportion further increased to 34 per cent.
137. Full-time staff show the larger increase in the proportion earning salaries greater than $£ 30,000$ between 2004-05 and 2005-06; the proportion increased by six percentage points following a smaller increase of 1 per cent between 2003-04 and 2004-05. Table 55 shows a similar pattern for part-time staff, although the overall increase is less substantial.

Table 55 Proportion of staff earning salaries greater than $£ 30,000$ by mode of employment

| Mode of | \% earning salaries greater than £30,000 |  |  |
| :--- | ---: | ---: | ---: |

| Total | $\mathbf{3 2 \%}$ | $\mathbf{3 5 \%}$ | $\mathbf{4 0 \%}$ |

Notes: Pop A.
138. Table 56 shows the proportion of staff earning a salary greater than $£ 30,000$, split by the type of institution. It shows that in other universities this proportion has been increasing at a steadier rate than in other types of institution; the proportion rose by two percentage points between 2003-04 and 2004-05 and then a further four percentage points between 2004-05 and 2005-06.
139. Research-orientated universities have experienced the largest increase in the proportion of staff earning salaries greater than £30,000; between 2003-04 and 2005-06 this rose by ten percentage points, to 41 per cent. The majority of this increase occurred between 2004-05 and 2005-06.

Notes: Pop A.

## Annex A

## Classification of academic staff with reference to historical grades Professors, Senior lecturers and researchers, Lecturers and Researchers

1. Analysis of staff data requires the ability to classify academic staff with reference to the historical grades: professor, senior lecturer/researcher, lecturer or researcher. The method we have previously used to generate these classifications is based on grade information. However, a significant increase in the proportions of staff at higher grades has become particularly evident in the past few years and the 2005-06 HESA new individualised staff records revealed an expected substantial rise in the use of locally determined grades for academic staff between 2004-05 and 2005-06.
2. The issues identified with grade information have prompted us to develop a new method of staff classification based on salary information returned in the HESA staff data collections. A stable subset of staff has been used to calculate salary band constraints that enable us to classify academic staff effectively in 2005-06. To obtain classifications for earlier years we apply similar bands to earlier salary data. However, in determining these earlier salary bands the inflation experienced each year in academic salaries must be considered.
3. The rate of inflation in academic salaries has been calculated for each year between 1994-95 and 2005-06. Analysis has shown variation in both salary bands and inflation rates according to the classification of staff and type of institution. Tables A1, A2 and A3 show the yearly variation in inflation rates for each classification of staff in each type of institution.

| 2002-03 to 2003-04 | $4.2 \%$ | $4.1 \%$ | $3.8 \%$ |
| 2003-04 to 2004-05 | $3.8 \%$ | $5.3 \%$ | $5.3 \%$ |
| 2004-05 to 2005-06 | $5.6 \%$ | $5.4 \%$ | $5.4 \%$ |
| Total increase 1998-99 to 2005-06 | $\mathbf{3 4 . 4 \%}$ | $\mathbf{3 6 . 4 \%}$ | $\mathbf{3 4 . 9 \%}$ |

Table A3 Inflation in lecturers and researchers salaries by institution type, 1994-95 to 2005-06

|  | Pre- <br> 1992 <br> HEls | Post- <br> 1992 <br> HEls | British <br> HEls |
| :--- | ---: | ---: | ---: |
| $1994-95$ to 1995-96 | $3.5 \%$ | $2.7 \%$ | $3.8 \%$ |
| $1995-96$ to 1996-97 | $5.9 \%$ | $5.9 \%$ | $5.9 \%$ |
| $1996-97$ to 1997-98 | $4.5 \%$ | $5.5 \%$ | $3.8 \%$ |
| $1997-98$ to 1998-99 | $5.4 \%$ | $6.5 \%$ | $6.1 \%$ |
| $1998-99$ to 1999-2000 | $6.0 \%$ | $6.3 \%$ | $6.5 \%$ |
| 1999-2000 to 2000-01 | $5.7 \%$ | $5.9 \%$ | $4.6 \%$ |
| 2000-01 to 2001-02 | $4.8 \%$ | $5.0 \%$ | $4.9 \%$ |
| 2001-02 to 2002-03 | $5.2 \%$ | $6.2 \%$ | $5.6 \%$ |
| 2002-03 to 2003-04 | $5.1 \%$ | $5.0 \%$ | $4.8 \%$ |
| 2003-04 to 2004-05 | $4.7 \%$ | $5.5 \%$ | $5.6 \%$ |
| $2004-05$ to 2005-06 | $5.8 \%$ | $5.6 \%$ | $5.2 \%$ |
| Total increase 1998-99 to 2005- |  |  |  |
| $\mathbf{0 6}$ | $\mathbf{3 7 . 3 \%}$ | $\mathbf{3 9 . 5 \%}$ | $\mathbf{3 7 . 2 \%}$ |

4. In the earliest years of staff data collection the reliability of salary information is somewhat questionable and extreme behaviour is seen in terms of inflation rates. For this reason our analysis and use of inflation rates is based on the period from1998-99 to 2005-06 where data quality and accuracy is better.
5. In determining the salary bands that enable the classification of academic staff for years prior to 2005-06 we work backwards and calculate the amount by which each band is reduced in each year according to the inflation experienced in academic salaries.
Given the inflation rates shown in the tables above and the nature of the salary band constraints, the year-on-year changes to the salary bands are calculated using an overall rate of inflation for each classification of staff in each type of institution. These overall rates are shown in Table A4 and are an average taken over 1998-99 to 2005-06.

Table A4 Overall rates of inflation for each classification of staff in each type of institution

| Classification of staff | Type of <br> institution | Average <br> rate of <br> inflation |
| :--- | :--- | ---: |
| Professors | Pre-1992 | $3.9 \%$ |
|  | Post-1992 | $4.5 \%$ |
|  | British | $4.4 \%$ |
| Senior lecturers and | Pre-1992 | $4.9 \%$ |
|  | Post-1992 | $5.2 \%$ |
| Lecturers and researchers | British | $5.0 \%$ |
|  | Pre-1992 | $5.3 \%$ |
|  | Post-1992 | $5.6 \%$ |
|  | British | $5.3 \%$ |

6. The rates of inflation shown in Table A4 have been used to determine salary band constraints for each year from 1994-95 through to 2005-06. These constraints have then been applied to salary data contained in the HESA individualised staff records to identify the classification of individual members of academic staff in each year.

## Annex B

## Overview of UK staff numbers

Table B1 Numbers of staff in English HEls compared with the rest of the UK

|  | 2003-04$\begin{gathered}\text { Number } \\ \text { of staff }\end{gathered}$ |  | 2004-05  <br> Number <br> of staff $\%$ |  | 2005-06$\begin{gathered}\text { Number } \\ \text { of staff }\end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| English HEIs | 275,124 | 82\% | 284,635 | 82\% | 292,433 | 82\% |
| Scottish, Welsh and Northern Irish HEls | $59,079$ | 18\% | 61,671 | 18\% | 62,957 | 18\% |
| Total | 334,203 | 100\% | 346,306 | 100\% | 355,390 | 100\% |

Notes: Equivalent to Table 2 of HEFCE 2006/31.

Table B2 Total FTE of staff in English HEls compared with the rest of the UK

|  | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | FTE | $\%$ | FTE | $\%$ | FTE | $\%$ |
| English HEIs | 214,365 | $81 \%$ | 221,288 | $81 \%$ | 226,220 | $81 \%$ |
| Scottish, Welsh and Northern Irish |  |  |  |  |  |  |
| HEIs | 48,844 | $19 \%$ | 50,634 | $19 \%$ | 51,403 | $19 \%$ |
| Total | 263,208 | $100 \%$ | 271,922 | $\mathbf{1 0 0 \%}$ | 277,623 | $\mathbf{1 0 0 \%}$ |

Notes: The FTE figures are obtained by summing all contracts over all staff included in this table.
Equivalent to Table 2 of HEFCE 2006/31.

Table B3 Numbers of academic staff in English HEls compared with the rest of the UK

|  | 2003-04 <br> Number of staff |  | 2004-05 <br> Number of staff |  | 2005-06  <br> Number <br> of staff $\%$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| English HEls | 124,627 | 83\% | 136,395 | 84\% | 140,154 | 84\% |
| Scottish, Welsh and Northern Irish HEls | 25,642 | 17\% | 26,830 | 16\% | 27,519 | 16\% |
| Total | 150,269 | 100\% | 163,225 | 100\% | 167,673 | 100\% |

Notes: Equivalent to Table 3 of HEFCE 2006/31.

Table B4 Total FTE of academic staff in English HEls compared with the rest of the UK

|  | 2003-04$\begin{gathered}\text { Number } \\ \text { of staff }\end{gathered}$ |  | 2004-05 Number of staff |  | 2005-06 <br> Number of staff |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| English HEIs | 95,058 | 82\% | 99,238 | 82\% | 101,423 | 82\% |
| Scottish, Welsh and Northern Irish HEls | 21,324 | 18\% | 21,888 | 18\% | 22,478 | 18\% |
| Total | 116,381 | 100\% | 121,126 | 100\% | 123,901 | 100\% |

Notes: The FTE figures are obtained by summing all contracts over all staff included in this table.
Equivalent to Table 3 of HEFCE 2006/31.

Table B5 Numbers of professional and support staff in English HEls compared with the rest of the UK

|  | 2003-04 <br> $\begin{array}{c}\text { Number } \\ \text { of staff }\end{array}$ |  |  |  | 2005-06 <br> Number <br> of staff$\quad \%$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| English HEIs | 153,401 | 82\% | 154,625 | 81\% | 160,019 | 82\% |
| Scottish, Welsh and Northern Irish HEIS | 33,772 | 18\% | 35,425 | 19\% | 36,061 | 18\% |
| Total | 187,173 | 100\% | 190,050 | 100\% | 196,080 | 100\% |

Table B6 Total FTE of professional and support staff in English HEls compared with the rest of the UK

|  | 2003-04 |  | 2004-05 |  | 2005-06 |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Number <br> of staff | \% | Number <br> of staff | \% | Number <br> of staff | $\%$ |
| English HEls <br> Scottish, Welsh and Northern Irish <br> HEls | 119,307 | $81 \%$ | 122,050 | $81 \%$ | 124,797 | $81 \%$ |
| Total | 27,520 | $19 \%$ | 28,746 | $19 \%$ | 28,926 | $19 \%$ |

Notes: The FTE figures are obtained by summing all contracts over all staff included in this table.

[^0]:    ${ }^{1}$ Managers and professionals; Technicians; Support administrators; and Other

[^1]:    ${ }^{2}$ Analyses of PhD student numbers can be found on the HEFCE web-site at http://www.hefce.ac.uk/research/postgrad/numbers.htm

[^2]:    ${ }^{3}$ In cases where an equal amount of time is devoted to two or more different functions, we have chosen the primary function according to the order in which they are listed in Table 3. ${ }^{4}$ Where appropriate we present information on staff occupying an academic role in consideration of the 11-year period from 1995-96 through to 2005-06.

[^3]:    ${ }^{5}$ See Annex A for discussion of grade allocation. Subject area defined by the subject of the staff's highest qualification.

[^4]:    ${ }^{6}$ The categorisation of institution is the same as used in HEFCE 2005/23 and HEFCE $2006 / 31$. It is based upon placing all institutions in order of the amount of research funding received in 2002-03, and the top half of institutions were classified as 'research-orientated'.

[^5]:    ${ }^{7}$ In other words, those staff that are returned on a contract of less than 40 per cent FTE.

[^6]:    ${ }^{8}$ The population of permanent academic staff used in HEFCE 2006/31 excluded medicine and dentistry staff. These staff are included in the results presented in this update.
