LOCAL AUTHORITY SUMMARY 67-82

BACKGROUND \& TECHNCAL NOTES 83-85

## Introduction

- The coverage of this bulletin is pupils living or attending maintained secondary schools (including middle deemed), City Technology Colleges and Academies in London.

## 1. Summary

- There are 425 of these schools in London. Local Authority maintained schools account for 373 of these. There are 51 Academies (up from 42 in 2009) and 1 City Technology College.
- $89.8 \%(340,005)$ of these pupils attend Local Authority maintained schools, compared to $91.5 \%(344,420)$ in 2009. $18.3 \%$ of the pupils attend a single gender school, $12.3 \%$ attend a faith school, and $10.5 \%$ attend a single gender faith school.
- There are 19 Grammar schools located in 7 Outer London Local Authorities. Pupils attending these schools account for $3.7 \%(14,151)$ of the school population.
- There are 51 Academies located in 20 London Local Authorities. The percentage of the pupils attending Academies has increased by 1.7 percentage points from $8.4 \%(31,758)$ in 2009 to 10.1\% $(38,407)$ in 2010.
- $0.1 \%$ (284) of the pupils attend the one City Technology College.
- $21.6 \%(82,799)$ of the pupils resident in London attend a school within another Local Authority, down from 21.8\% $(82,998)$ in 2009.
- $21.9 \%(16,232)$ of the Year 6 pupils moved across Local Authority boundaries between Year 6 and 7 (the transition from primary to secondary education). This is slightly down from 2009 when the figure was $22.0 \%(16,618)$ of Year 6 pupils.
- On average the pupils attending school in London travel 1.5 miles to school, the same as in 2009. Of the pupils attending school in London, pupils who reside and attend school within the same Local Authority travel an average of 1.2 miles. Pupils who attend a school within another Local Authority travel an average of 3.3 miles, an increase of 0.3 miles since 2009.
- $63.1 \%(241,524)$ of the pupils resident in London live in the $30 \%$ most deprived areas ${ }^{1}$ in England, the same percentage as in $2009(239,990) .10 .1 \%(38,567)$ of the pupils resident in London live in the 30\% least deprived areas in England.

## 2. Key Points

### 2.1. Destinations of pupils (Tables 1 and 2)

- Overall $78.4 \%(299,978)$ of the pupils reside and attend school within the same Local Authority, an increase of 0.2 percentage points from $2009(297,387)$. The percentage of the pupils resident in London Local Authorities attending schools outside London has remained constant at $2.7 \%$, whilst the percentage of the school population in London Local Authorities residing outside London has increased from $1.7 \%(6,325)$ to $2.0 \%(7,409)$.
- Of all the pupils resident in Inner London, $89.6 \%(112,560)$ are educated in Inner London (up from $89.5 \%(112,023)$ in 2009), $10.0 \%(12,624)$ in Outer London (down from $10.2 \%(12,743)$ in 2009) and $0.4 \%$ (492) are educated outside of London altogether. Inner London is a net exporter, exporting 3,736 more pupils than it imports. 11 out of $13^{2}$ Inner London Local Authorities have higher proportions of pupils residing and attending schools within the same Local Authority than in 2002, ranging from 1.7 percentage points more in Hackney to 14.7 percentage points more in Lambeth. Hammersmith and Fulham, and Wandsworth educate a lower proportion of their resident population than in 2002 with 1.6 and 0.9 percentage points

[^0]less respectively.

- Of the pupils resident in Outer London, $92.8 \%(238,145)$ are educated in Outer London (up from $92.6 \%(236,258)$ in 2009), $3.6 \%(9,220)$ in Inner London (constant from $2009(9,115)$ ) and $3.8 \%(9,736)$ are educated outside of London altogether. Outer London is a net exporter, exporting 345 more pupils than it imports from both Inner London and elsewhere. 8 out of 19 Outer London Local Authorities have higher proportions of pupils residing and attending school within the same Local Authority than in 2002, ranging from 0.2 percentage points more in Kingston upon Thames to 4 percentage points more in Brent and Havering. 11 Outer London Local Authorities educate a lower proportion of their resident population than in 2002, ranging from 0.8 percentage points less in Redbridge to 5.0 percentage points less in Greenwich.

Figure 2.1A:
Inner London - Percentage of the pupils residing and attending school within the same Local Authority ${ }^{1}$

[^1]Figure 2.1B:
Outer London - Percentage of the pupils residing and attending school within the same Local Authority ${ }^{1}$

### 2.2. Pupil inflows and outflows by school characteristics (Tables 3 \& 4)

Table 2.2: Local Authorities with the 5 highest inflows to single gender schools, Grammar schools and Academies

|  | Pupil Inflow |  |
| :---: | :---: | :---: |
| Local Authority | Percentage of all <br> inflow |  |
| Single gender schools ${ }^{\mathbf{1}}$ |  |  |
| Bromley |  |  |
| Sutton | 2,471 | 66.2 |
| Kingston upon Thames | 2,030 | 47.0 |
| Islington | 868 | 41.3 |
| Lewisham | 825 | 32.1 |
| Supils | 493 | 27.2 |
| Sutton |  |  |
| Kingston upon Thames | 2,269 | 52.5 |
| Bexley | 840 | 40.0 |
| Barnet | 1,309 | 32.3 |
| Enfield | 1,112 | 28.6 |
| Academies | 448 | 17.1 |
| Lewisham |  |  |
| Westminster | 663 | 36.6 |
| Southwark | 1,013 | 31.8 |
| Merton | 855 | 31.7 |
| Croydon | 515 | 23.2 |
|  | 692 | 20.8 |

[^2]Single gender and faith schools

- Single gender schools are a key driver of pupil imports in a number of Local Authorities. In Bromley $66.2 \%$ of pupils in single gender schools come from other Local Authorities. In Sutton the figure is $47.0 \%$ and in Kingston upon Thames it is $41.3 \%$.
- Bexley, which has 4 single gender schools, has the highest outflow of pupils to single gender schools, with $60.9 \%(1,185)$ of its resident population leaving the Local Authority to attend a single gender school in another Local Authority. Single gender Grammar schools account for $17.1 \%(14,131)$ of all outflow.
- A number of Local Authorities have high inflows into faith schools. In Brent, 54.0\% of pupils in faith schools come from other Local Authorities, and in Redbridge the figure is $44.2 \%$.
- Barnet (which has 5 faith only schools), Brent (2), Hillingdon (3) and Waltham Forest (2) all have outflows to faith only schools in other Local Authorities of over 30\%.

## Grammar schools

- Grammar schools continue to be a key driver of inflow and outflow across Local Authorities. In Sutton, where there are 5 Grammar schools, $52.5 \%(2,269)$ of pupils come from other Local Authorities.
- Bromley has the largest outflow of pupils to Grammar schools, with $31.0 \%$ (786) of its resident population leaving the Local Authority to attend a Grammar school in another Local Authority.

## Academies

- Lewisham, with 3 Academies, has the highest inflow of pupils coming from other Local Authorities to attend them at $36.6 \%$. For Westminster (4 Academies) the figure is $31.8 \%$ and for Southwark (9 Academies) it is $31.7 \%$.
- The City of London has the largest outflow to Academies with $35.6 \%$ of its pupils leaving the Local Authority to attend Academies in other Local Authorities, however, with only 73 resident pupils this figure should be taken with caution. Kensington and Chelsea has the second highest outflow with $29.6 \%$.

### 2.3. Number of schools and pupils by school characteristics (Table 5)

Table 2.3: Number of schools and pupils by school characteristics

|  |  |  |  |
| :--- | ---: | ---: | ---: |
| London | Number of schools | Number of pupils | \% of pupils |
| LA maintained excluding grammar schools |  |  |  |
| $\quad$ Single gender only schools | 65 | 57,760 | 15.3 |
| Faith only schools | 46 | 36,404 | 9.6 |
| Single gender and faith schools | 51 | 37,346 | 9.9 |
| Other schools | 192 | 194,344 | 51.3 |
| Grammar schools |  |  |  |
|  | 19 | 14,151 | 3.7 |
| Other schools |  |  |  |
| Academies | 51 | 38,407 | 10.1 |
| City Technology Colleges | 1 | 284 | 0.1 |

- The number of Local Authority maintained single gender only schools (excluding Grammar schools) has fallen from 67 in 2009 to 65 in 2010, and the percentage of pupils attending them has fallen from $15.7 \%(59,268)$ to $15.3 \%(57,760)$.
- The number of Local Authority maintained faith schools has risen from 45 to 46 , and the percentage of pupils attending them has increased from $9.5 \%(35,592)$ to $9.6 \%(36,404)$.
- The number of Academies has risen by 9, from 42 in 2009 to 51 in 2010 - 3 in Inner London and 6 in Outer London. The percentage of pupils attending the Academies has increased from $8.4 \%(31,758)$ in 2009 to $10.1 \%(38,407)$ in 2010.

### 2.4. Local Authority net inflows and outflows at the transition between Year 6 and Year 7 (Table 6)

- This table looks at the retention of pupils within Local Authorities between the end of KS2 (Year 6) in the 2008/2009 academic year (2009) and Year 7 in the 2009/2010 academic year (2010). Previously published figures suggest that the cross border movement of pupils tends to double between Years 6 and 7 in the transition from primary to secondary education.
- $21.9 \%(16,232)$ of the Year 6 pupils in 2009 crossed a border in the transition from Year 6 to Year 7 in 2010, compared with $22.0 \%(16,618)$ in the previous year.
- $20.0 \%(14,387)$ of the Year 7 pupils attending school in London in 2010 attended school in a different Local Authority in Year $6(2009)$, compared with $19.9 \%(14,669)$ in the previous year.
- The percentage of the Year 6 (2009) pupils residing and attending school in the same Local Authority in both Year 6 and Year 7 was $75.4 \%(55,937)$, up from $74.9 \%(56,525)$ in the previous year.
- The percentage of the Year 6 (2009) pupils attending a school within another Local Authority in both Year 6 and Year 7 was $4.8 \%(3,584)$, compared with $4.9 \%(3,701)$ in the previous year.

Table 2.4: Local Authorities with the 5 highest net inflows and outflows of school migration between Year 6 and Year 7

|  | Percentage <br> of Year 6 <br> pupils leaving <br> the LA at <br> Year 7 | Percentage <br> of Year 7 <br> pupils | entering the <br> LA | Number of <br> Pupils |
| :---: | :---: | :---: | :---: | :---: |
| Local Authority |  | Percent of <br> Year 7 <br> migration |  |  |
| Net inflows | 14.7 | 36.9 |  |  |
| Sutton | 14.2 | 26.1 | 423 | 25.6 |
| Bexley | 28.3 | 38.3 | 188 | 13.6 |
| Westminster | 29.0 | 37.7 | 160 | 13.5 |
| Camden | 8.4 | 18.3 | 320 | 10.8 |
| Havering |  |  |  |  |
| Net outflows | 29.9 | 13.5 | -484 | -24.3 |
| Haringey | 27.3 | 13.4 | -338 | -20.2 |
| Hackney | 32.2 | 18.8 | -417 | -19.9 |
| Greenwich | 35.6 | 24.9 | -354 | -18.8 |
| Lambeth | 30.3 | 17.5 | -402 | -18.8 |
| Lewisham |  |  |  |  |

- The 5 Local Authorities with the highest net inflows of pupils between Year 6 (2009) and Year 7 (2010), gained between $10.7 \%$ and $25.6 \%$ of their Year 7 pupil population. Sutton, which contains 5 Grammar schools and has $28.3 \%$ of its school population attending them, has seen an increase of 1.3 percentage points in Year 7 migration, up from 24.3\% in 2009. Bexley also has selective admission policies, with $22.9 \%$ of its school population in Grammar schools. Westminster, which has $41.4 \%$ of its school population attending Academies, has seen an increase in Year 7 migration of 5.5 percentage points since 2009.
- The 5 Local Authorities with the highest net outflows of pupils between Year 6 (2009) and Year 7 (2010) lost between $18.8 \%$ and $24.3 \%$ of their Year 7 pupil population. Harringey, which now has the highest net outflow, saw an increase of 4.1 percentage points in the proportion of Year 7 migration from the previous year. Hackney, which had the highest net outflow in the previous year, saw a fall in the proportion of Year 7 migration of 10.6 percentage points.

### 2.5. Distance travelled from home to school (Table 7)

- On average the pupils attending school in London travel 1.5 miles with $87.9 \%(332,971)$ of pupils travelling less than 3 miles, an increase from $87.8 \%(330,659)$ in 2009. Pupils residing and attending school within the same Local Authority travel an average of 2.1 miles less than pupils attending a school within another Local Authority. In 2009 the gap was 1.8 miles. The percentage of pupils travelling 5 or more miles was $3.2 \%(12,169)$, compared with $3.3 \%$ $(12,363)$ in 2009.

Table 2.5: Local Authorities with pupils travelling the 5 furthest and shortest average distances

| Local Authority | Average Distance |  |  | Percentage of pupils residing and attending school in LA ${ }^{2}$ |
| :---: | :---: | :---: | :---: | :---: |
|  | All Pupils | Pupils residing in LA | Pupils residing in other LA |  |
| Shortest average distance ${ }^{1}$ (Miles) |  |  |  |  |
| Hackney | 0.9 | 0.7 | 2.3 | 86.8 |
| Waltham Forest | 0.9 | 0.8 | 3.0 | 93.2 |
| Newham | 1.0 | 0.9 | 3.9 | 93.9 |
| Tower Hamlets | 1.1 | 0.7 | 3.4 | 86.5 |
| Haringey | 1.2 | 1.0 | 2.2 | 81.4 |
| Furthest average distance ${ }^{1}$ (Miles) |  |  |  |  |
| Hammersmith and Fulham | 2.3 | 1.0 | 3.6 | 50.2 |
| Kensington and Chelsea | 2.0 | 1.0 | 3.0 | 46.0 |
| Barnet | 2.0 | 1.4 | 4.0 | 77.0 |
| Merton | 1.9 | 1.7 | 3.0 | 71.8 |
| Kingston upon Thames | 1.9 | 1.2 | 3.8 | 72.2 |

1. Straight line distance
2. As a percentage of the school population

- Pupils attending school in Hackney and Waltham Forest on average travel the shortest distance, 0.9 miles. Both these Local Authorites have a relatively high proportion of pupils residing and attending school within the Local Authority, $86.8 \%$ and $93.2 \%$ respectively.
- Pupils attending school in Hammersmith and Fulham on average travel the furthest to school, 2.3 miles. Only $50.2 \%$ of pupils both reside and attend school within the Local Authority. Pupils attending schools in both Kensington and Chelsea, and Barnet on average travel 2.0
miles, but both have markedly differing proportions of pupils residing and attending school within the Local Authority, $46.0 \%$ and $77.0 \%$ respectively.

### 2.6. Mode of travel from home to school (Table 9)

- Mode of travel data was collected for the first time in 2007, and is provided at Local Authority level for the first time this year. In 2010, data was provided for $94.4 \%$ of the pupils attending schools in London (up from $86.8 \%$ in 2009) compared with $97.2 \%$ of pupils in England ${ }^{2}$ (up from $93.6 \%$ in 2009). Coverage for some Local Authorities is much lower than the London average though, in particular Westminster (68.8\%), Enfield (69.0\%), Southwark (81.9\%), Croydon (86.2\%) and Lewisham (87.7\%).
- Kensington and Chelsea has the highest proportion of its school population travelling to school by public transport (71.1\%) whilst Waltham Forest has the lowest (28.3\%).
- Newham (57.4\%) and Waltham Forest (57.3\%) have the highest proportion of their school population travelling to school by foot, whilst Westminster ${ }^{3}$ ( $17.2 \%$ ) and Enfield ${ }^{3}$ (17.7\%) have the lowest.
- Redbridge has the highest proportion of its school population travelling to school by car (18.3\%) whilst Southwark ${ }^{3}$ has the lowest with $1.9 \%$.
- Richmond upon Thames has the highest proportion of its school population travelling to school by bicycle with $6.1 \%$. Kingston upon Thames has the second highest with 3.4\%. Westminster ${ }^{3}$ has the lowest (0.1\%).

Table 2.6: Mode of travel from home to school

|  | Public <br> Transport | Walk | Car | Car share | Cycle | Other | Unknown |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| London 2009 | 40.7 | 32.2 | 9.5 | 1.4 | 1.1 | 2.0 | 13.2 |
| London 2010 | 44.8 | 34.8 | 10.3 | 1.6 | 1.1 | 1.9 | 5.6 |
| England 2009 | 30.7 | 40.5 | 15.9 | 2.3 | 3.0 | 1.1 | 6.4 |
| England 2010 | 32.0 | 42.4 | 16.3 | 2.4 | 3.1 | 1.1 | 2.8 |

- The table above gives the proportions of secondary school pupils attending schools in London and in England for each mode of travel from the data collected, for 2009 and 2010.
- In 2010, London has a slightly higher proportion of unknown mode of travel for its school population (5.6\%) than England overall (2.8\%). On average, pupils in London walk or cycle less than those in England. The proportion of pupils in England walking to school is 7.6 percentage points higher than in London, and the proportion cycling is 2.0 percentage points higher. However, the proportion of pupils in England taking the car to school is 6.0 percentage points higher than in London, whilst almost 45\% of pupils in London take public transport to school, compared with 32.0\% in England.

[^3]
### 2.7. Numbers of pupils by Income Deprivation Affecting Children Indices (IDACI) (Table 8)

- $63.1 \%(241,524)$ of the pupils resident in London live in areas classified as the $30 \%$ most deprived in England, the same as in $2009(239,990) .10 .1 \%(38,567)$ of the pupils resident in London live in areas classified as the 30\% least deprived in England, again the same as in $2009(38,452)$.
- Newham has the largest proportion of pupils living in the 30\% most deprived areas (100\%) closely followed by Tower Hamlets (99.6\%) and Hackney (96.7\%).
- Richmond upon Thames has the largest proportion of pupils living in the 30\% least deprived areas (40.0\%) followed by Bromley (39.2\%) and Sutton (36.7\%).

Figure 2.7A:
Inner London - Distribution of pupils IDACI score by Local Authority of residence, 2010

Figure 2.7B:
Outer London - Distribution of pupils IDACI score by Local Authority of residence, 2010

### 2.8. Cross border movement by pupil characteristics (Table 10)

- Over three quarters of the pupils reside and attend school within the same Local Authority. A slightly higher proportion of girls reside and attend school within the same Local Authority whilst a slightly higher proportion of boys cross a border.
- Pupils of Asian origin (in particular pupils of Bangladeshi origin) have a higher proportion residing and attending school within the same Local Authority when compared with other ethnic groups. $83.8 \%(58,327)$ of Asian pupils reside and attend school within the same Local Authority. Within the Asian school population the biggest proportions of pupils attending school in their home Local Authority are of Bangladeshi and Pakistani origin with 90.7\% $(16,429)$ and $87.3 \%(12,581)$ respectively. The most transient ethnic groups proportionally are pupils of unclassified and Chinese origin with only $59.0 \%(4,498)$ and $74.2 \%(2,086)$ residing and attending school within the same Local Authority.
- Pupils eligible for Free School Meals (FSM) are proportionally more likely to reside and attend school within the same Local Authority than their peers. $83.3 \%(80,203)$ of pupils eligible for (FSM) reside and attend school within the same Local Authority, compared with 75.1\% $(219,775)$ of those pupils not eligible for FSM.
- Pupils living in the $10 \%$ most deprived areas $^{4}$ are more likely to remain within the same Local Authority to attend school than their peers, including pupils living in the $10 \%$ least deprived areas ${ }^{4}$. Just under $30 \%(115,207)$ of pupils residing or attending school in London live in the $10 \%$ most deprived areas ${ }^{4}$, and $79.2 \%(91,224)$ of these remain within the same Local Authority to attend school. $3 \%(11,659)$ of pupils residing or attending school in London live in

[^4]the $10 \%$ least deprived areas $^{4}$ and of these pupils $72.4 \%(8,444)$ remain within the same Local Authority to attend school.

- Pupils whose first language is something other than English are proportionally more likely to reside and attend school within the same Local Authority than those whose first language is English. 81.3\% $(113,675)$ of pupils whose first language is one other than English reside and attend school within the same Local Authority, compared with $74.6 \%(182,000)$ of those whose first language is English. The proportion of pupils with unclassified language who reside and attend school within the same Local Authority is $85.3 \%$.
- Higher proportions of Pupils in Year 7 reside and attend school within the same Local Authority than pupils in higher Year Groups. $78.3 \%(59,324)$ of Year 7 pupils residing or attending school in London remain within the same Local Authority to go to school. The proportions gradually reduce in each subsequent year group and in $201075.2 \%(56,965)$ of Year 11 pupils remained within their home Local Authority to attend school.
- Pupils with Special Educational Needs ${ }^{5}$ (SEN) are proportionally more likely to reside and attend school within the same Local Authority than their peers. Over 4 out of 5 of pupils with statements and pupils classified as School Action or School Action Plus attend a school in their home Local Authority compared with $75.7 \%(214,519)$ of pupils with no identified SEN.

### 2.9. Distance travelled by pupil characteristics (Table 11)

- The average distance travelled to school by pupils residing or attending school in London is 1.6 miles. Over $86 \%$ travel less than 3 miles to school, and this figures rises to just under $95 \%$ for pupils residing and attending school within the same Local Authority. Travel patterns are different for pupils attending schools in other Local Authorities with only $58.7 \%$ of pupils in this group travelling less than 3 miles to school.
- Boys travel slightly further to school than girls, and this pattern is consistent when looking at pupils residing and attending school within the same Local Authority and those attending a school in another Local Authority. Girls on average travel shorter distances than boys with higher proportions of girls travelling less than 3 miles to school.
- Amongst ethnic groups, the average distance travelled to school is lowest for pupils of Asian origin, with over $90 \%$ of Asian pupils travelling less than 3 miles to school. This is particularly prevalent amongst Bangladeshi pupils where $96.1 \%(17,401)$ travel less than 3 miles to school. Almost all $(98.9 \%(16,248)$ ) Bangladeshi pupils residing and attending school in the same Local Authority travel less than 3 miles. For pupils attending a school in another Local Authority, pupils of Asian origin have lower proportions travelling less than 3 miles but on average they travel further - 3.6 miles compared to an average distance of 3.3 miles for all pupils.
- Pupils of Black origin and pupils of Chinese origin travel further to school on average, and have lower proportions travelling less than 3 miles to school. This trend is particularly evident amongst Chinese pupils attending a school within another Local Authority. These pupils travel an average of 3.8 miles to school even though around half of the pupils travel less than 3 miles.
- Pupils eligible for Free School Meals (FSM) travel a shorter distance on average than their peers. This is particularly evident amongst pupils attending a school within another Local

[^5]Authority. Over 90\% of pupils eligible for FSM travel less than 3 miles to school, compared with just over $85 \%$ of their peers. These trends are further enforced for pupils attending a school within another Local Authority, but less pronounced for pupils residing and attending school within the same Local Authority.

- Pupils residing in the most deprived areas travel a shorter distance on average than pupils residing in the least deprived areas. This is particularly evident amongst pupils attending a school in another Local Authority, where pupils in the least deprived areas $(3,215)$ travel an average of 4.1 miles, compared with pupils in the most deprived areas $(23,983)$ who travel an average of 2.9 miles. However, for pupils residing and attending school within the same Local Authority, there is no difference in the average distance travelled to school of 1.1 miles.
- Over $65 \%(15,651)$ of pupils who attend a school in another Local Authority and who live in the most deprived areas travel less than 3 miles to school. The figure for those living in the least deprived areas is $47.5 \%(1,527)$. Proportionally pupils living in the least deprived areas are more likely to travel more than 5 miles to schools - nearly 1 in 4 (23.5\%) compared with $11.8 \%$ of pupils living in the most deprived areas.
- Pupils whose first language is English on average travel further distances than those pupils whose first language is one other than English with 1.7 miles compared to 1.5 miles. A higher proportion of pupils whose first language is one other than English travel less than 3 miles than those whose first language is English.
- Pupils in Year 7 travel shorter distances to school than pupils in Year 11, and this is particularly evident amongst pupils attending a school within another Local Authority, where 61.5\% of Year 7 pupils travel less than 3 miles to school compared with $54.7 \%$ of Year 11 pupils. These Year 7 pupils travel on average 3.1 miles to school compared with their Year 11 peers who travel 3.6 miles.
- Pupils with no identified Special Educational Needs ${ }^{6}$ (SEN) travel further distances to school than their peers. This trend is particularly evident amongst pupils attending a school within another Local Authority; however, the pattern is different amongst pupils residing and attending school within the same Local Authority, where pupils with no identified SEN travel 1.2 miles on average compared with 1.3 miles for pupils with a statement of SEN.

### 2.10. Mode of travel by pupil characteristics (Table 12)

- Almost 4 out of 5 pupils residing or attending school in London walk (34.1\%) or take public transport (45.2\%) to school. This pattern remains consistent whether or not pupils are attending schools within their home Local Authority. However, proportions of pupils walking are higher amongst pupils residing and attending schools in the same Local Authority (40.4\% $(121,235)$ ) and the proportion of pupils using public transport is higher amongst pupils attending a school within another Local Authority $(65.0 \%(57,822)$ ). The use of cars is also more prevalent amongst pupils attending a school within another Local Authority.
- Cycling is more popular amongst boys than girls. Around 4 out of 5 cyclists are boys, and this pattern is consistent amongst pupils residing and attending school within the same Local Authority and for pupils attending a school within another Local Authority.
- A higher proportion of Asian pupils walk (43.1\%) rather than using other modes of travel including public transport (33.5\%). This is particularly evident amongst pupils of Bangladeshi

[^6]origin where almost twice as many pupils of Bangladeshi origin walk (56.9\%) to school than take public transport (28.9\%). Walking is even more prevalent amongst Asian pupils who reside and attend school within the same Local Authority (48.4\%) but far less prevalent amongst pupils who attend a school within another Local Authority. Only $15.5 \%(1,748)$ of Asian pupils who attend a school within anther Local Authority walk compared with $51.8 \%$ $(5,824)$ who use public transport and $27.4 \%(3,084)$ who travel by car $^{7}$. Car use is far more popular amongst this group than their peers who remain within their home Local Authority to attend school where $15.4 \%(8,976)$ travel to school by car?

- Over 80\% of pupils eligible for Free School Meals (FSM) take public transport (45.7\%) or walk to school (36.5.\%), compared with 78.4\% of their peers (45.1\%, 33.3\%). Higher proportions of FSM pupils either cycle or travel to school by car $^{7}$, with FSM pupils almost half as likely to travel to school in a car ${ }^{7} .7 .9 \%$ of pupils eligible for FSM travel to school by car ${ }^{7}$ compared with $13.6 \%$ of their peers.
- The distribution of pupils travelling by public transport varies by deprivation band ${ }^{8}$ and whether a pupil resides and attends school within the same Local Authority or not. Public transport is a more popular mode of travel amongst pupils living in the most deprived areas. Almost half (47.9\%) of pupils living in the most deprived areas ${ }^{8}$ take public transport to school, compared with $39.2 \%$ of those living in the least deprived areas ${ }^{8}$. Amongst pupils residing and attending school within the same Local Authority public transport is a far more popular mode of travel amongst pupils living in the most deprived areas ${ }^{8}$ than pupils living in the least deprived areas ${ }^{8}$. In almost all cases the proportion of pupils travelling by public transport decreases within each deprivation band. This pattern is less evident amongst pupils who attend a school within another Local Authority where over $60 \%$ of pupils in all deprivation bands use public transport. Car use ${ }^{7}$ and walking are proportionally more popular modes of travel amongst pupils living in the least deprived areas ${ }^{8} ; 17.9 \%$ and $37.2 \%$ of pupils living in the least deprived areas $^{8}$ travel by car ${ }^{7}$ or walk compared with $7.6 \%$ and $34.4 \%$ in the most deprived areas ${ }^{8}$. The popularity of walking and $\operatorname{car}^{7}$ use varies depending on whether a pupil is attending a school in their home Local Authority or not.
- A higher proportion of pupils whose first language is English take public transport to school than pupils whose first language is other than English, whilst a lower proportion walk to school. The same trend applies for pupils attending a school within another Local Authority, where the gaps are larger, but for pupils residing and attending school in the same Local Authority the pattern reverses, with a higher proportion of pupils whose first language is other than English taking public transport and a lower proportion walking than pupils whose first language is other than English. Cycling is more popular amongst pupils whose first language is English.
- Public transport becomes more popular the higher the Year Group (from Year 7 to Year 11). This pattern continues when looking at pupils residing and attending school within the same Local Authority, but for pupils attending a school within another Local Authority it is less evident. Amongst younger year groups car use and in particular walking are more popular modes of travel.
- Higher proportions of pupils with no Special Educational Needs $\left(\mathrm{SEN}^{9}\right)$ take public transport to school than their peers. Higher proportions of pupils with statements travel to school by car ${ }^{7}$ than their peers who are either School Action, School Action Plus or have no SEN. The pattern remains true for pupils residing and attending school within the same Local Authority, and is further reinforced for pupils who attend a school within another Local Authority, where 23.1\% (402) of pupils with a statement of SEN travel to school by car ${ }^{7}$.

[^7]
### 2.11. Cross border movement by school characteristics (Table 13 and 14)

- Higher proportions of pupils attending single sex schools, faith schools and schools that are both single sex and faith schools attend a school within another Local Authority compared with pupils who go to other schools, and these pupils account for over $55 \%$ of all pupils crossing a border to attend school. Over 37\% of pupils attending faith schools (including those that are single sex schools, grammar schools or both) attend a school within another Local Authority compared with $17.4 \%$ of pupils who attend a school with no gender or faith denomination. For pupils attending schools which are both single sex and faith schools the figure is even higher at 46.5\%.
- Pupils attending single sex schools (including those that are faith schools, Grammar schools or both) are more likely to attend a school within another Local Authority when compared with all pupils. However, once single sex faith and single sex Grammar schools are excluded, they are less likely to attend a school within another Local Authority, with only $17.2 \%$ compared with $22.9 \%$ overall.
- Pupils attending Grammar schools, including those which are single sex, faith or both single sex and faith schools, are more likely to attend a school in another Local Authority than their peers. $54.2 \%$ of pupils who attend Grammar schools live in a different Local Authority, compared with $21.5 \%$ of pupils who do not attend a Grammar school. Whilst Grammar school pupils account for $4.3 \%$ of the school population, they account for over $10 \%$ of pupils crossing a border and only $2.5 \%$ of pupils residing and attending school within the same Local Authority. A higher number of Grammar school pupils cross a border $(8,961)$ than attend a school within the same Local Authority $(7,586)$.
- Pupils attending Academies account for around 1 in 10 of the school population but only $8 \%$ of pupils crossing a border, with over $80 \%$ of pupils residing and attending school within the same Local Authority.

### 2.12. Distance travelled by school characteristics (Table 15 and 16)

- Pupils attending single sex schools, faith schools and schools that are both single sex and faith schools travel on average further than their peers. Pupils who attend single sex faith schools travel on average 2.6 miles compared with only 1.4 miles for pupils who attend schools with no gender or faith denomination. Over $90 \%$ of pupils attending neither a single sex or faith school travel less than 3 miles to school, whilst for pupils attending a single sex faith school the figure is under $70 \%$. More than 1 in 10 of pupils attending a single sex faith school travel more than 5 miles to school, and for pupils attending a school within another Local Authority this rises to more than 1 in 5 .
- Pupils attending Grammar schools, including those which are also single sex, faith or both single sex and faith schools, travel on average over twice as far as their peers. Only $53 \%$ of pupils attending Grammar schools travel less than 3 miles to school, compared with 88\% of pupils not in Grammar schools. The difference amongst pupils attending a school in another Local Authority is similar, with $62.3 \%$ for pupils in non Grammar schools compared to $26.9 \%$ for pupils attending Grammar schools.
- Over 80\% of pupils attending Academies reside and attend school within the same Local Authority, and over $90 \%$ of pupils attending Academies travel less than 3 miles to school. This rises to over $95 \%$ for pupils residing and attending school within the same Local Authority, and is still relatively high at $74.0 \%$ (compared with $58.7 \%$ for all pupils) for pupils attending a school within another Local Authority.

### 2.13. Mode of travel by school characteristics (Table 17 and 18)

- Coverage of mode of travel is around 95\% for pupils residing or attending school in London; however, it is relatively lower for faith schools (87\%) and Academies (80\%).
- Pupil transport is proportionally more popular amongst pupils attending single sex schools, faith schools, and in particular single sex faith schools, whilst walking is more popular amongst pupils attending schools with no gender or faith denomination. Over $70 \%$ of pupils attending a single sex faith school take public transport to school, compared with $45.2 \%$ overall, whilst only $12.4 \%$ walk (compared with $34.1 \%$ overall). The pattern is even more evident amongst pupils who attend a school within another Local Authority, where only $3.7 \%$ (699) of pupils attending a single sex faith school walk whilst over $80 \%$ take public transport. Over $42 \%$ of pupils attending schools with no gender or faith denomination walk to school, and they account for over $73 \%$ of pupils who walk to school, compared with only $3.8 \%$ for pupils attending single sex faith schools.
- Pupils attending Grammar schools are more likely to take public transport to school than their peers, and are much less likely to walk. Only $9.8 \%(1,615)$ of pupils attending a Grammar school walk to school, compared with $35.1 \%$ of their peers, and for pupils attending a Grammar school in another Local Authority only $1.5 \%$ (136) walk.
- More than twice the number of pupils travel to Grammar school by car ${ }^{10}$ than walk. $26.6 \%$ of those attending a Grammar school travel by car ${ }^{10}$, compared with $11.5 \%$ of their peers. The proportion of Grammar school pupils travelling to school by car ${ }^{10}$ stays the same whether attend school in their home Local Authority or not. However for pupils attending a school within another Local Authority they account for over $17 \%$ of pupils travelling to school by car whilst accounting for only $10.1 \%$ of the school population.

## Local Authority Summary

## Inner London

## City of London

In 2010

- There were no maintained mainstream secondary schools, City Technology Colleges or Academies in the City of London in 2010.
- As a consequence the City of London was a net exporter of pupils. All of the Local Authority's resident secondary school population attended schools in other Authorities. No change since 2002.
- The neighbouring authorities of Southwark and Tower Hamlets were the main importers of the City of London's resident secondary pupils, importing $35.6 \%$ and $30.1 \%$ respectively.

## Camden

In 2010

- Camden had 73.1\% (4,573), the 6th highest proportion in Inner London, of resident secondary pupils in attending schools in the Local Authority. This represents a decrease of 0.2 percentage points since 2009 and an overall increase of 6.8 percentage points since 2002 when there were 4,645 and 4,268 both living and attending school in the Local Authority respectively.
- Camden was a net importer of pupils. $38.3 \%$ of the Local Authority's secondary school population lived in other Local Authorities, an increase of $0.4 \%$ since 2009, but an overall decrease of 11.7 percentage points since 2002 when there were 4,262 and $50.0 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Camden were neighbouring Islington and Brent contributing $16.0 \%(1,187)$ and $6.1 \%(450)$ of Camden's school population respectively, down from $16.4 \%$ and up from $5.7 \%$ in 2009.
- The neighbouring authorities of Westminster and Islington were the main importers of Camden's resident secondary pupils, importing $10.2 \%$ (639) and $9.4 \%$ (590) respectively.
- Camden was a net importer of Year 7 pupils. $11.8 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Camden's school population travel an average of 1.3 miles to get to school, the same as last year with $94.6 \%$ of the school population travelling to school by public transport (45.9\%) or on foot (48.7\%)

## Hackney

In 2010

- Hackney had $64.2 \%(6,719)$, the fourth lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority, an increase of 2.9 percentage points from 2009, and an overall increase of 1.7 percentage points from 2002 when there were 6,380 and 6,572 both living and attending school in the Local Authority respectively.
- Hackney was a net exporter of pupils. $35.8 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities, a decrease of 2.9 percentage points from 2009 and 1.7 percentage points in 2002 when there were 3,940 and $37.5 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Hackney were neighbouring Islington and Tower Hamlets importing $13.0 \%(1,364)$ and $8.4 \%(882)$ of Hackney's resident population respectively, down from $13.9 \%$ and $10.1 \%$ in 2009.
- The neighbouring authorities of Haringey and Islington were the main exporters of pupils into Hackney's school population, exporting $4.7 \%$ (363) and $2.6 \%$ (201) respectively.
- Hackney was a net exporter of Year 7 pupils with an outflow of $20.2 \%$.
- Hackney's school population travel an average of 0.9 miles to get to school, a decrease of 0.1 down from 2009 with $85.7 \% \%$ of the school population travelling to school by public transport (37.6\%) or on foot (48.1\%).

## Hammersmith and Fulham

In 2010

- Hammersmith and Fulham had 54.6\% (2,822), the second lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. An increase of $1.2 \%$ percentage points since 2009, but an overall decrease of 1.6 percentage points since 2002 when there were 2,769 and 2,920 both living and attending school in the Local Authority respectively.
- Hammersmith and Fulham was a net importer of pupils. $49.8 \%$ of the Local Authority's secondary school population live in other Local Authorities, a decrease of $0.3 \%$ since 2009 and an overall decrease of 1.5 percentage points since 2002 when there were 3,076 and $51.3 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporter of pupils to Hammersmith and Fulham were neighbouring Kensington and Chelsea, and Wandsworth contributing $12.1 \%$ (680) and $7.6 \%$ (430) of Hammersmith and Fulham's school population, up from 12.0\% and unchanged at 7.6\% in 2009.
- The neighbouring authorities of Hounslow and Wandsworth were the main importers of Hammersmith and Fulham's resident secondary pupils, importing 14.0\% (722) and 7.9\% (408) respectively.
- Hammersmith and Fulham was a net importer of year 7 pupils. $5.0 \%$ of the authorities Year 7 population attended schools in other Local Authorities in Year 6.
- Hammersmith and Fulham's school population travel an average of 2.3 miles to get to school, the same as last year with $95.3 \%$ of the school population travelling to school by public transport (68.5\%) or on foot (26.8\%).

## Haringey

In 2010

- Haringey had $74.5 \%(8,800)$, the fourth highest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.2 percentage points since 2009, and an overall increase of 4.5 percentage points since 2002 when there were 8,860 and 8,310 both living and attending school in the Local Authority respectively.
- Haringey was a net exporter of pupils. $25.5 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of $0.2 \%$ since 2009 but an overall decrease of 4.5 percentage points in 2002 when there were 3,556 and $30 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Haringey were neighbouring Enfield and

Hackney receiving $12.3 \%(1,450)$ and $3.1 \%(363)$.of Haringey's resident population respectively, down from 12.5\% and up from $3.0 \%$ in 2009.

- The neighbouring authorities of Enfield and Hackney were the biggest exporters of pupils into Haringey's school population exporting 5.8\% (631) and 4.6\% (496) respectively.
- Haringey was a net exporter of Year 7 pupils with an outflow of $24.3 \%$.
- Haringey's school population travel an average of 1.2 miles to get to school, the same as last year with $83.7 \%$ of the school population travelling to school by public transport (41.1\%) or on foot (42.6\%).

## Islington

In 2010

- Islington had $67.7 \%(5,135)$, the $5^{\text {th }}$ lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.6 percentage points since 2009 and an overall increase of 8.5 percentage points since 2002 when there were 5,179 and 4,805 both living and attending school in the Local Authority respectively.
- Islington was a net importer of pupils. $33.4 \%$ of the Local Authority's secondary school population live in other Local Authorities, a decrease of $0.5 \%$ since 2009, and an overall decrease of 2.0 percentage points since 2002 when there were 2,635 and $35.4 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Islington was neighbouring Hackney and Camden, contributing $17.6 \%(1,364)$ and $7.6 \%(590)$ of Islington's school population respectively, down from $18.5 \%$ and up from $7.5 \%$ in 2009.
- The neighbouring authorities of Camden and Haringey were the biggest importers of Islington's resident secondary pupils, importing $15.6 \%(1,187)$ and $4.3 \%$ (325) respectively.
- Islington was a net exporter of Year 7 pupils with an outflow of $10.3 \%$.
- Islington's school population travel an average of 1.4 miles to get to school, the same as last year with $89.9 \%$ of the school population travelling to school by public transport (54.0\%) or on foot (35.9\%).

## Kensington and Chelsea

In 2010

- Kensington and Chelsea had $48.5 \%(1,425)$, the lowest proportion in inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 3.9 percentage points since 2009 and an overall increase of 8.0 percentage points since 2002 when there were 1,266 and 1,182 pupils both living and attending school in the Local Authority respectively.
- Kensington and Chelsea was a net importer of pupils. $54.0 \%$ of the Local Authority's secondary school population live in other Local Authorities. A decrease of $3.0 \%$ percentage points since 2009, and an overall decrease of 6.7 percentage points since 2002 when there were 1,829 and $60.7 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Kensington and Chelsea were neighbouring Westminster (13.7\%) and Hammersmith and Fulham contributing 13.7\% (424) and 12.1\% (375) of Kensington and Chelsea's school population respectively, down from $15.7 \%$ and $12.4 \%$ in 2009.
- The neighbouring authorities of Hammersmith and Fulham and Westminster were the main importers of Kensington and Chelsea's resident secondary pupils, importing 23.1\% (680) and $10.3 \%$ (303) respectively.
- Kensington and Chelsea was a net exporter of Year 7 pupils with an outflow of $3.8 \%$.
- Kensington and Chelsea's school population travel an average of 2.0 miles to get to school, a decrease of 0.1 miles from 2009 with $90.4 \%$ of the school population travelling to school by public transport (71.1\%) or on foot (19.3\%).

## Lambeth

In 2010

- Lambeth had $57.4 \%(6,583)$, the third lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 2.1 percentage points since 2009 and an overall increase of 14.7 percentage points since 2002 when there were 6,342 and 4,995 pupils both living and attending school in the Local Authority respectively.
- Lambeth was a net exporter of pupils. $42.6 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities, a decrease of 2.1 percentage points from 2009 and 14.7 percentage points in 2002 when there were 6,692 and $57.3 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Lambeth were neighbouring Wandsworth and Southwark receiving $12.0 \%(1,374)$ and $11.5 \%(1,322)$ of Lambeth's resident population respectively, down from $12.5 \%$ and $12.2 \%$ in 2009.
- The neighbouring authorities of Southwark and Croydon were the main exporters of pupils into Lambeth's school population, exporting $9.1 \%$ (814) and $6.6 \%$ (588) respectively.
- Lambeth was a net exporter of Year 7 pupils with an outflow of $18.8 \%$.
- Lambeth's school population travel an average of 1.5 miles to get to school, a decrease of 0.1 miles from 2009 with $88.6 \%$ of the school population travelling to school by public transport (62.9\%) or on foot (25.7\%).

## Lewisham

In 2010

- Lewisham had $71.7 \%(10,137)$, the $7^{\text {th }}$ highest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.3 percentage points since 2009 and an overall increase of 6.1 percentage points since 2002 when there were 10,064 and 8,212 pupils both living and attending school in the Local Authority respectively.
- Lewisham was a net exporter of pupils. $28.3 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.3 percentage points from 2009 and 6.1 percentage points in 2002 when there were 4,300 and $34.4 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Lewisham were neighbouring Greenwich and Bromley receiving $8.7 \%(1,232)$ and $8.0 \%(1,138)$ of Lewisham's resident population respectively, down from $9.5 \%$ and $8.1 \%$ in 2009..
- The neighbouring authorities of Southwark and Bromley were the biggest exporters of
pupils into Lewisham's school population, exporting 7.3\% (879) and 3.0\% (362) respectively.
- Lewisham was a net exporter of Year 7 pupils with an outflow of 18.8\%.
- Lewisham's school population travel an average of 1.4 miles to get to school, the same as last year with $75.7 \%$ of the school population travelling to school by public transport (46.3\%) or on foot (29.4\%).

## Newham

In 2010

- Newham had 92.1\% (16,501), the second highest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.2 percentage points since 2009 but an overall increase of 1.8 percentage points since 2002 when there were 16,665 and 16,141 pupils both living and attending school in the Local Authority respectively.
- Newham was a net exporter of pupils. 7.9\% of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 0.2 percentage points from 2009 and 1.8 percentage point decrease from 2002 when there were 1,742 and $9.7 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Newham were neighbouring Tower Hamlets and Redbridge both receiving 2.1\% (382 and 373) of Newham's resident population respectively, unchanged for Tower Hamlets but up from 2.0\% for Redbridge from 2009.
- The neighbouring authorities of Redbridge and Barking \& Dagenham were the biggest exporters of pupils into Newham's school population exporting 2.0\% (361) and 1.6\% (279) respectively.
- Newham was a net exporter of Year 7 pupils with an outflow of $8.0 \%$.
- Newham's school population travel an average of 1.0 miles to get to school, the same as last year with $88.9 \%$ of the school population travelling to school by public transport (31.4\%) or on foot (57.4\%).

## Southwark

In 2010

- Southwark had $76.2 \%(9,343)$, the third highest proportion in inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.2 percentage points since 2009 and an overall increase of 6.1 percentage points since 2002 when there were 9,356 and 8,006 pupils both living and attending school in the Local Authority respectively.
- Southwark was a net exporter of pupils. $23.8 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.2 percentage points from 2009 and 6.1 percentage points in 2002 when there were 3,410 and $29.9 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Southwark were neighbouring Lewisham and Lambeth receiving 7.2\% (879) and 6.6\% (814) of Southwark's resident population respectively, down from 7.4\% for Lewisham and unchanged for Lambeth for 2009.
- The neighbouring authorities of Lambeth and Lewisham were the biggest exporters of
pupils into Southwark's school population, exporting 10.9\% (1322) and 6.3\% (758) respectively.
- Southwark was a net exporter of Year 7 pupils with an outflow of $14.6 \%$.
- Southwark's school population travel an average of 1.4 miles to get to school, the same as last year with $76.7 \%$ of the school population travelling to school by public transport (50.1\%) or on foot (26.6\%).

## Tower Hamlets

In 2010

- Tower Hamlets had $94.3 \%(11,061)$, the highest proportion in inner London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.1 percentage points since 2009 and an overall increase of 2.8 percentage points since 2002 when there were 10,810 and 10,329 pupils both living and attending school in the Local Authority respectively.
- Tower Hamlets was a net importer of pupils. $13.5 \%$ of the Local Authority's secondary school population lived in other Local Authorities, a decrease of 1.5 percentage points since 2009, and an overall decrease of 5.6 percentage points since 2002 when there were 2,444 and $19.1 \%$ of the Local Authoritys secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Tower Hamlets were neighbouring Hackney and Newham contributing $6.9 \%$ (882) and $3.0 \%$ (382) of Tower Hamlet's school population respectively, down from 8.3\% and unchanged for Hackney for 2009.
- The neighbouring authorities of Hackney and Southwark were the main importers of Tower Hamlets' resident secondary pupils, importing $1.3 \%$ (155) and $1.1 \%$ (127) respectively.
- Tower Hamlets was a net exporter of Year 7 pupils with an outflow of $1.8 \%$.
- Tower Hamlet's school population travel an average of 1.1 miles to get to school, the same as last year with $89.1 \%$ of the school population travelling to school by public transport (34.4\%) or on foot (54.6\%).

## Wandsworth

In 2010

- Wandsworth had 71.0\% (5,982), the sixth lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. A decrease of 1.2 percentage points since 2009 and an overall decrease of 0.9 percentage points since 2002 when there were 5,952 and 5,738 pupils both living and attending school in the Local Authority respectively.
- Wandsworth was a net importer of pupils. $34.1 \%$ of the Local Authority's secondary school population lived in other Local Authorities, a decrease of 1.4 percentage points since 2009, and an overall decrease of 4.4 percentage points since 2002 when there were 3,598 and $38.5 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Wandsworth were neighbouring Lambeth and Merton contributing $15.1 \%(1,374)$ and $8.1 \%(737)$ of Wandsworth's school population respectively, down from $15.5 \%$ and up from $8.0 \%$ for Merton in 2009..
- The neighbouring authorities of Merton and Hammersmith and Fulham were the main importers of Wandsworth's resident secondary pupils, importing 9.3\% (781) and 5.1\%
(430) respectively.
- Wandsworth was a net exporter of Year 7 pupils with an outflow of $11.3 \%$.
- Wandsworth's school population travel an average of 1.7 miles to get to school, a decrease of 0.1 miles from 2009 with $81.4 \%$ of the school population travelling to school by public transport (55.0\%) or on foot (26.4\%).

## Westminster

In 2010

- Westminster had $74.5 \%$ (4,042), the joint fourth lowest proportion in Inner London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.9 percentage points since 2009 and an overall increase of 9.7 percentage points since 2002 when there were 3,798 and 2,897 pupils both living and attending school in the Local Authority respectively.
- Westminster was a net importer of pupils. $44.1 \%$ of the Local Authority's secondary school population lived in other Local Authorities, a decrease of 1.8 percentage points since 2009, and an overall decrease of 14.1 percentage points since 2002 when there were 4,036 and $58.2 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporter of pupils to Westminster were neighbouring Camden and Lambeth, contributing $8.8 \%$ (639) and $7.5 \%$ (545) of Westminster's school population respectively, down from 9.1\% and 8.3\% in 2009.
- The neighbouring authorities of Kensington and Chelsea and Brent were the main importers of Westminster's resident secondary pupils, importing 7.8\% (424) and 4.2\% (226) respectively.
- Westminster was a net importer of Year 7 pupils. $13.5 \%$ of the Authority's Year 7 population attended schools in other Local Authorities in Year 6.
- Westminster's school population travel an average of 1.7 miles to get to school, the same as last year with $65.0 \%$ of the school population travelling to school by public transport (47.8\%) or on foot (17.2\%).

## Outer London

## Barking and Dagenham

In 2010

- Barking and Dagenham had $82.1 \%(9,771)$, the ninth highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.8\% from 2009 and an overall decrease of 2.7 percentage points from 2002 when there were 9,794 and 8,925 pupils both living and attending school in the Local Authority respectively.
- Barking and Dagenham was a net exporter of pupils. $17.9 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 0.8 percentage points from 2009 and 2.7 percentage points in 2002 when there were 1,597 and $15.2 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Barking and Dagenham were neighbouring Havering and Redbridge receiving $9.3 \%(1,111)$ and $3.6 \%(425)$ respectively, up from $8.6 \%$ and up from $3.5 \%$ in 2009.
- The neighbouring authorities of Redbridge and Havering were the main exporters of pupils into Barking and Dagenham's school population, exporting 4.0\% (437) and 3.5\% (376) respectively.
- Barking and Dagenham was a net exporter of Year 7 pupils with an outflow of $11.9 \%$.
- Barking and Dagenham's school population travel an average of 1.2 miles to get to school, the same as last year with $85.2 \%$ of the school population travelling to school by public transport (32.8\%) or on foot (52.4\%).

## Barnet

In 2010

- Barnet had 80.5\% (13,011), the tenth highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.1 percentage points since 2009 and an overall decrease of 1.2 percentage points since 2002 when there were 12,720 and 12,026 pupils both living and attending school in the Local Authority respectively.
- Barnet was a net importer of pupils. $23.0 \%$ of the Local Authority's secondary school population live in other Local Authorities, a decrease of $0.4 \%$ since 2009, and an overall decrease of 7.8 percentage points since 2002 when there were 5,347 and $30.8 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Barnet were neighbouring Enfield and Brent, contributing $6.3 \%(1,062)$ and $6.2 \%(1,050)$ of Barnet's school population respectively, down from $6.4 \%$ and unchanged at $6.2 \%$ for Brent from 2009.
- The neighbouring authority of Brent and Local Authorities outside London were the main importers of Barnet's resident secondary pupils, importing $6.4 \%(1,036)$ and $3.3 \%$ (534) respectively.
- Barnet was a net importer of Year 7 pupils. $4.9 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Barnet's school population travel an average of 2.0 miles to get to school, the same as last year with $74.5 \%$ of the school population travelling to school by public transport (50.3\%) or on foot (24.2\%).

## Bexley

In 2010

- Bexley had 86.8\% (12,794), the third highest proportion in Outer London, of resident secondary pupils in Bexley attending schools in the Local Authority. An increase of 0.1 percentage points since 2009 and an overall increase of 1.9 percentage points since 2002 when there were 12,752 and 12,322 pupils both living and attending school in the Local Authority respectively.
- Bexley was a net importer of pupils. $24.1 \%$ of the Local Authority's secondary school population live in other Local Authorities, an increase of $0.4 \%$ since 2009, and an overall increase of 2.3 percentage points since 2002 when there were 3,432 and $21.8 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Bexley were neighbouring Greenwich and Local Authorities outside London contributing $16.5 \%(2,797)$ and $3.6 \%(601)$ of Bexley's school population respectively, up from $16.2 \%$ and down from $3.7 \%$ in 2009.
- The neighbouring authorities of Greenwich and Bromley were the main importers of Bexley's resident secondary pupils, importing 4.4\% (651) and 4.2\% (615) respectively.
- Bexley was a net importer of Year 7 pupils. $13.6 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Bexley's school population travel an average of 1.7 miles to get to school, the same as last year with $75.8 \%$ of the school population travelling to school by public transport (41.8\%) or on foot (34.0\%).

## Brent

In 2010

- Brent had $75.0 \%$ (11,157), the fifth lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of $0.2 \%$ since 2009 but an overall increase of 4.0 percentage points from 2002 when there were 11,030 and 9,964 pupils both living and attending school in the Local Authority respectively.
- Brent was a net exporter of pupils. $25.0 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 0.2 percentage points from 2009 but an overall decrease of 4.0 percentage points since 2002 when there were 4,069 and $29.0 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Brent were neighbouring Barnet and Harrow receiving $7.1 \%(1,050)$ and $4.4 \%(652)$ of Brent's residential population respectively, unchanged and down from 4.7\% in 2009.
- The neighbouring authorities of Barnet and Harrow were the main exporters of pupils into Brent's school population exporting $7.2 \%(1,036)$ and $5.7 \%(812)$ respectively.
- Brent was a net exporter of Year 7 pupils with an outflow of $3.9 \%$.
- Brent's school population travel an average of 1.7 miles to get to school, the same as last year with $77.2 \%$ of the school population travelling to school by public transport (48.6\%) or on foot (28.6\%).

## Bromley

In 2010

- Bromley had 84.2\% (13,576), the seventh highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.4 percentage points since 2009 and an overall decrease of 3.4 percentage points since 2002 when there were 13,695 and 13,334 pupils both living and attending school in the Local Authority respectively.
- Bromley was a net importer of pupils. $21.6 \%$ of the secondary school population lived in other Local Authorities, an increase of 0.3 percentage points since 2009 but an overall decrease of 3.4 percentage points since 2002 when there were 4,447 and $25 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Bromley were neighbouring Lewisham and Croydon contributing $6.6 \%(1,138)$ and $5.3 \%$ (922) of Bromley's school population respectively, unchanged and up from 5.2\% in 2009.
- The neighbouring authority of Croydon and Local Authorities outside London were the main
importers of Bromley's resident secondary pupils, importing 5.1\% (818) and 3.8\% (611) respectively.
- Bromley was a net importer of Year 7 pupils. $6.0 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Bromley's school population travel an average of 1.8 miles to get to school, the same as last year with $81.5 \%$ of the school population travelling to school by public transport (51.6\%) or on foot (29.9\%).

## Croydon

In 2010

- Croydon had 75.7\% (15,115), the sixth lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of $0.4 \%$ from 2009 and an overall decrease of 3.0 percentage points from 2002 when there were 14,821 and 14,947 pupils both living and attending school in the Local Authority respectively.
- Croydon was a net exporter of pupils. $24.3 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.4 percentage points from 2009 but an overall increase of 3.0 percentage points since 2002 when there were 4,045 and $21.3 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Croydon were neighbouring Sutton and Bromley, receiving $8.4 \%(1,688)$ and $4.6 \%(922)$ of Croydon's resident pupils respectively, down from $8.7 \%$ and unchanged at $4.6 \%$ in 2009.
- The neighbouring authorities of Lambeth and Bromley were the biggest exporters of pupils into Croydon's school population, exporting $4.5 \%$ (836) and $4.4 \%$ (818) respectively.
- Croydon was a net exporter of Year 7 pupils with an outflow of $6.3 \%$.
- Croydon's school population travel an average of 1.9 miles to get to school, the same as last year with $69.0 \%$ of the school population travelling to school by public transport (46.2\%) or on foot (22.8\%).

## Ealing

In 2010

- Ealing had $78.6 \%$ (12,848), the ninth lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of $0.1 \%$ from 2009 and an overall increase of 1.0 percentage point from 2002 when there were 12,684 and 11,748 both living and attending school in the Local Authority respectively.
- Ealing was a net exporter of pupils. $21.4 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.1 percentage points from 2009 and 1.0 percentage points in 2002 when there were 3,388 and $22.4 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Ealing were neighbouring Hounslow and Hillingdon receiving $8.1 \%(1,321)$ and $4.6 \%(751)$ of Ealing's resident population respectively, down from $8.3 \%$ and $4.7 \%$ in 2009.
- The neighbouring authorities of Hillingdon and Brent were the main exporters of pupils into

Ealing's school population, exporting 4.1\% (610) and 2.8\% (409) respectively.

- Ealing was a net exporter of Year 7 pupils with an outflow of $16.6 \%$.
- Ealing's school population travel an average of 1.3 miles to get to school, the same as last year with $85.7 \%$ of the school population travelling to school by public transport (45.9\%) or on foot (39.8\%).

## Enfield

In 2010

- Enfield had $86.0 \%(15,744)$, the fourth highest proportion in Outer London of resident secondary pupils in Enfield attending schools in the Local Authority. A decrease of 0.1 percentage points since 2009 but an overall increase of 0.4 percentage points since 2002 when there were 15,612 and 14,544 pupils both living and attending school in the Local Authority respectively.
- Enfield was a net importer of pupils. $14.6 \%$ of the Local Authority's secondary school population lived in other Local Authorities, a decrease of $0.3 \%$ since 2009, and an overall decrease of 3.1 percentage points since 2002 when there were 3,118 and $17.7 \%$ of the Local Authority's secondary school population living in other Local Authorities.
- The biggest exporter of pupils to Enfield was neighbouring Haringey and Barnet, contributing $7.8 \%(1,450)$ and $2.8 \%(512)$ of Enfield's school population respectively, down from $8.1 \%$ and up from $2.7 \%$ in 2009.
- The neighbouring authorities of Barnet and Haringey were the main importers of Enfield's resident secondary pupils, importing $5.8 \%(1,062)$ and $3.4 \%(631)$ respectively.
- Enfield was a net importer of Year 7 pupils. $3.4 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Enfield's school population travel an average of 1.6 miles to get to school, the same as last year with $54.8 \%$ of the school population travelling to school by public transport (37.1\%) or on foot (17.7\%).

## Greenwich

In 2010

- Greenwich had $68.5 \%(8,890)$, the second lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 1.0 percentage point from 2009 and 5.0 percentage points since 2002 when there were 9,047 and 9,619 pupils both living and attending school in the Local Authority respectively.
- Greenwich was a net exporter of pupils. $31.5 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 1.0 percentage point from 2009 and 5.0 percentage points since 2002 when there were 3,461 and $26.5 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Greenwich were neighbouring Bexley and Bromley receiving $21.5 \%(2,797)$ and $5.2 \%(669)$ of Greenwich's resident population respectively, up from $20.8 \%$ and $5.0 \%$ in 2009.
- The neighbouring authorities of Lewisham and Bexley were the main exporters of pupils into Greenwich's school population, exporting $10.9 \%(1,232)$ and $5.8 \%(651)$ respectively.
- Greenwich was a net exporter of Year 7 pupils with an outflow of 19.9\%.
- Greenwich's school population travel an average of 1.7 miles to get to school, the same as last year with $83.0 \%$ of the school population travelling to school by public transport (63.2\%) or on foot (19.8\%).

## Harrow

In 2010

- Harrow had 71.6\% (7,649), the third lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.2 percentage points from 2009 and 2.8 percentage points since 2002 when there were 7,632 and 7,579 pupils both living and attending school in the Local Authority respectively.
- Harrow was a net exporter of pupils. $28.4 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 0.2 percentage points from 2009 and 2.8 percentage points since 2002 when there were 2,603 and $25.6 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Harrow were neighbouring Brent and Hillingdon receiving $7.6 \%$ (812) and $6.5 \%$ (689) of Harrows resident population respectively, down from $7.8 \%$ and up from $6.4 \%$ in 2009.
- The neighbouring authorities of Brent and Ealing were the biggest exporters of pupils into Harrow's school population, exporting $7.4 \%$ (652) and $1.8 \%$ (156) respectively.
- Harrow was a net exporter of Year 7 pupils with an outflow of $18.4 \%$.
- Harrow's school population travel an average of 1.4 miles to get to school, the same as last year with $73.2 \%$ of the school population travelling to school by public transport (37.5\%) or on foot (35.6\%).

## Havering

In 2010

- Havering had $90.3 \%(12,954)$, the highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.6 percentage points from 2009 and 4.0 percentage points since 2002 when there were 13,048 and 12,581 pupils both living and attending school in the Local Authority respectively.
- Havering was a net importer of pupils. $15.7 \%$ of the Local Authority's secondary school population lived in other Local Authorities. An increase of 0.5 percentage points from 2009 but a decrease of 1.2 percentage points since 2002 when there were 2,556 and $16.9 \%$ of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Havering were neighbouring Barking and Dagenham and Local Authorities outside of London, contributing 7.2\% (1,111) and 5.9\% (907) of Havering's school population respectively, up from 6.6\% and up from 5.8\% in 2009.
- The neighbouring authority of Barking and Dagenham and Local Authorities outside of London were the main importers of Havering's resident secondary pupils, importing 2.6\% (376) and 5.5\% (796) respectively.
- Havering was a net importer of Year 7 pupils. 10.7\% of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Havering's school population travel an average of 1.7 miles to get to school, the same as last year with $80.2 \%$ of the school population travelling to school by public transport
(45.4\%) or on foot (34.8\%).

## Hillingdon

In 2010

- Hillingdon had $84.7 \%(12,919)$, the sixth highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.3 percentage points from 2009 but an overall decrease of 2.2 percentage points since 2002 when there were 12,802 and 12,392 pupils both living and attending school in the Local Authority respectively.
- Hillingdon was a net exporter of pupils. $15.3 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.3 percentage points from 2009 but an increase of 2.2 percentage points since 2002 when there were 1,869 and $13.1 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Hillingdon were neighbouring Ealing and Local Authorities outside of London, receiving 4.0\% (610) and 6.3\% (968) of Hillingdon's resident population respectively, down from $4.4 \%$ and unchanged from $6.3 \%$ in 2009.
- The neighbouring authorities of Ealing and Harrow were the biggest exporters of pupils into Hillingdon's school population, exporting $5.0 \%$ (751) and 4.6\% (689) respectively.
- Hillingdon was a net exporter of Year 7 pupils with an outflow of $1.6 \%$.
- Hillingdon's school population travel an average of 1.5 miles to get to school, the same as last year with $74.3 \%$ of the school population travelling to school by public transport (35.1\%) or on foot (39.2\%).

## Hounslow

In 2010

- Hounslow had $75.9 \%(9,536)$, the seventh lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.2 percentage points from 2009 and 2.9 percentage points since 2002 when there were 9,555 and 9,685 pupils both living and attending school in the Local Authority respectively.
- Havering was a net importer of pupils. $27.9 \%$ of the Local Authority's secondary school population lived in other Local Authorities. An increase of 0.1 percentage point from 2009 and since 2002 when there were 3735 and $27.8 \%$ of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Hounslow were neighbouring Ealing and Richmond upon Thames, contributing $10.0 \%(1,321)$ and $5.6 \%(742)$ of Hounslow's school population respectively, down from $10.1 \%$ and up from 5.3\% in 2009.
- The neighbouring authorities of Richmond upon Thames and Local Authorities outside of London were the main importers of Hounslow's resident secondary pupils, importing 9.4\% $(1,176)$ and $9.1 \%(1,148)$ respectively.
- Hounslow was a net importer of Year 7 pupils. $9.6 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Hounslow's school population travel an average of 1.7 miles to get to school, the same as last year with $78.0 \%$ of the school population travelling to school by public transport (47.5\%) or on foot (30.5\%).

## Kingston upon Thames

In 2010

- Kingston upon Thames had $78.1 \%(5,462)$, the eighth lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. The same as in 2009 and an increase of 0.1 percentage points since 2002 when there were 5,359 and 5,410 pupils both living and attending school in the Local Authority respectively.
- Kingston upon Thames was a net importer of pupils. $27.8 \%$ of the Local Authority's secondary school population lived in other Local Authorities, the same as in 2009 and an increase of 2.2 percentage points since 2002 when there were 1,861 and $25.6 \%$ of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Kingston upon Thames were neighbouring Merton and Local Authorities outside of London, contributing 5.7\% (435) and 7.7\% (583) of the Kingston upon Thames school population respectively, both unchanged at 5.7\% and 7.7\% in 2009.
- The neighbouring authorities of Richmond upon Thames and Local Authorities outside of London were the main importers of Kingston upon Thames' resident secondary pupils, importing $7.3 \%$ (510) and $6.9 \%$ (485) respectively.
- Kingston upon Thames was a net importer of Year 7 pupils. $5.7 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Kingston upon Thames's school population travel an average of 1.9 miles to get to school, the same as last year with $83.4 \%$ of the school population travelling to school by public transport (52.4\%) or on foot (31.1\%).

## Merton

In 2010

- Merton had $65.3 \%(5,637)$, the lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.1 percentage points from 2009 and an overall decrease of 4.3 percentage points since 2002 when there were 5,683 and 5,132 pupils both living and attending school in the Local Authority respectively.
- Merton was a net exporter of pupils. $34.7 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. An increase of 0.1 percentage point from 2009 and 4.3 percentage points since 2002 when there were 2,240 and $30.4 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Merton were neighbouring Sutton and Wandsworth, receiving $13.3 \%(1,144)$ and $8.5 \%(737)$ of Merton's resident population respectively, up from 13.0\% and unchanged from 8.5\% in 2009.
- The neighbouring authorities of Wandsworth and Sutton were the biggest exporters of pupils into Merton's school population, exporting $9.9 \%$ (781) and $4.6 \%$ (363) respectively.
- Merton was a net exporter of Year 7 pupils with an outflow of $12.4 \%$.
- Merton's school population travel an average of 1.9 miles to get to school, the same as last year with $82.5 \%$ of the school population travelling to school by public transport (64.5\%) or on foot (18.0\%).

## Redbridge

In 2010

- Redbridge had $85.7 \%(13,853)$, the fifth highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.1 percentage points from 2009 and 0.8 percentage points since 2002 when there were 13,817 and 12,605 pupils both living and attending school in the Local Authority respectively.
- Redbridge was a net importer of pupils. $15.4 \%$ of the Local Authority's secondary school population lived in other Local Authorities, an increase of 0.2 percentage points from 2009 but a decrease of 1.4 percentage points since 2002 when there were 2,540 and $16.8 \%$ of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Redbridge were neighbouring Waltham Forest and Local Authorities outside of London, contributing $5.7 \%$ (930) and $3.3 \%$ (539) of the Redbridge school population respectively, up from $5.4 \%$ and down from $3.5 \%$ in 2009.
- The neighbouring authority of Barking and Dagenham and Local Authorities outside of London were the main importers of Redbridge's resident secondary pupils, importing 2.7\% (437) and 6.1\% (993) respectively.
- Redbridge was a net importer of year 7 pupils. $3.5 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Redbridge's school population travel an average of 1.4 miles to get to school, the same as last year with $77.4 \%$ of the school population travelling to school by public transport (33.6\%) or on foot (43.8\%).

## Richmond upon Thames

In 2010

- Richmond upon Thames had $74.6 \%(4,293)$, the fourth lowest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. A decrease of 0.2 percentage points from 2009 and 4.7 percentage points since 2002 when there were 4,265 and 4,417 pupils both living and attending school in the Local Authority respectively.
- Richmond upon Thames was a net importer of pupils. $35.5 \%$ of the Local Authority's secondary school population lived in other Local Authorities, a decrease of 0.8 percentage points from 2009 and 4.8 percentage points since 2002 when there were 2,981 and 40.3\% of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Richmond upon Thames were neighbouring Hounslow and Kingston, contributing $17.7 \%(1,176)$ and $7.7 \%(510)$ of the Richmond upon Thames' school population respectively, down from 18.0\% and up from 6.8\% in 2009.
- The neighbouring authorities of Hounslow and Kingston upon Thames were the main importers of Richmond upon Thames' resident secondary pupils, importing 12.9\% (742) and $3.8 \%$ (220) respectively.
- Richmond upon Thames was a net exporter of Year 7 pupils with an outflow of 1.4\%.
- Richmond upon Thames's school population travel an average of 1.5 miles to get to school, a decrease of 0.1 miles from 2009 with $86.5 \%$ of the school population travelling to school by public transport (50.8\%) or on foot (35.7\%).

## Sutton

In 2010

- Sutton had 82.3\% (9,009), the eighth highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.7 percentage points from 2009 and 0.5 percentage points since 2002 when there were 8,922 and 8,540 pupils both living and attending school in the Local Authority respectively.
- Sutton was a net importer of pupils. $32.4 \%$ of the Local Authority's secondary school population lived in other Local Authorities, the same as in 2009 and an increase of 1.7 percentage points since 2002 when there were 3,785 and $30.7 \%$ of the secondary school population living in other Local Authorities.
- The biggest exporters of pupils to Sutton were neighbouring Croydon and Merton, contributing $12.7 \%(1,688)$ and $8.6 \%(1,144)$ of the Sutton school population respectively, down from $13.0 \%$ and up from $8.5 \%$ in 2009.
- The neighbouring authority of Croydon and Local Authorities outside of London were the main importers of Sutton's resident secondary pupils, importing 4.0\% (441) and 6.4\% (698) respectively.
- Sutton was a net importer of Year 7 pupils. $25.6 \%$ of the Authority's Year 7 population attended school in other Local Authorities in Year 6.
- Sutton's school population travel an average of 1.7 miles to get to school, the same as last year with 79.3\% of the school population travelling to school by public transport (39.3\%) or on foot (40.1\%).

## Waltham Forest

In 2010

- Waltham Forest had $87.9 \%(12,637)$, the second highest proportion in Outer London, of resident secondary pupils attending schools in the Local Authority. An increase of 0.3 percentage points from 2009 and an overall increase of 1.2 percentage points since 2002 when there were 12,063 and 11,745 pupils both living and attending school in the Local Authority respectively.
- Waltham Forest was a net exporter of pupils. $12.1 \%$ of the Local Authority's resident secondary school population attended schools in other Local Authorities. A decrease of 0.3 percentage points from 2009 and 1.2 percentage points since 2002 when there were 1,805 and $13.3 \%$ of the resident population attending schools in other Local Authorities.
- The biggest importers of resident pupils from Waltham Forest were neighbouring Redbridge and Newham, contributing $6.5 \%$ (930) and $1.5 \%$ (211) of the Waltham Forest school population respectively, up from 6.3\% and up from $1.4 \%$ in 2009.
- The neighbouring authorities of Hackney and Newham were the biggest exporters of pupils into Waltham Forest, exporting $2.0 \%$ (267) and $1.6 \%$ (220) respectively.
- Waltham Forest was a net exporter of Year 7 pupils with an outflow of $6.5 \%$.
- Waltham Forest's school population travel an average of 0.9 miles to get to school, the same as last year with $85.7 \%$ of the school population travelling to school by public transport (28.3\%) or on foot (57.3\%).

## Background

The purpose of the bulletin is to bring together and make available to a wider audience a single comprehensive picture of the supply and demand of secondary school places across London using data from the School Census undertaken in January 2010. From January 2002 onwards maintained primary, secondary and special schools, as well as City Technology Colleges, have reported data at an individual pupil level. In January 2003 the pupil level coverage expanded to include non-maintained special schools and Academies.

## Technical Notes

## Data Collection

1. The information in this bulletin is derived from the School Census returns made to the Department in January 2010. More information about the School Census can be obtained from the following website: www.teachernet.gov.uk/management/ims.

## Validation and quality assurance

2. The School Census data go through various levels of checking. Schools input the data into their Management Information Systems (MIS). The MIS software has built in validation ensuring data are input in a consistent format. The validated School Census returns are submitted to the Department via the Department's data collection system known as COLLECT. Validation software routines, including checks against previous terms' returns to ensure historic consistency, are applied by the Department, before the return is finalised and accepted. Queries flagged by the validation checks are referred back to the Local Authority/school to be resolved.

## Coverage

3. This publication includes solely registered pupils and main registration of dually registered pupils, in National Curriculum Year Groups Reception to Year 11, who attend maintained mainstream secondary schools (including middle deemed secondary), City Technology Colleges and Academies. It does not cover pupils attending other schools in the independent sector. Pupils reported to be boarders are excluded and pupils with missing or invalid postcodes are excluded where noted
4. All Academies are classed as secondary schools, including those that cater for primary and secondary age ranges.
5. School Census information for January 2010 has already been published, and detailed information on coding of ethnicity, Free School Meals (FSM), language and Special Educational Needs provision (SEN) can be found in the technical notes of that Statistical First Release, published at www.dcsf.gov.uk/rsgateway/DB/SFR/s000925/index.shtml

Income Deprivation Affecting Children Indices (IDACI)
6. IDACI is provided by the Department for Communities and Local Government (DCLG). The index is based on Super Output Areas (SOAs) in England. Each SOA is given a rank between 1 and 32,482 where 1 is the most deprived SOA.
7. IDACI is a subset of the Income Deprivation Domain of the Index of Multiple Deprivation 2007. Each SOA is given a score showing the percentage of children aged under 16 that live in families that are income deprived, i.e. they are in receipt of certain benefits and their equivalised income is below $60 \%$ of median before housing costs. Further information about

IDACI can be found on the DCLG website
at: www.communities.gov.uk/publications/communities/indiciesdeprivation07
8. IDACI bands for 2008 and 2009 are based on 2007 IDACI scores. Care should be taken when comparing to IDACI tables for 2007 and earlier, which are based on 2004 IDACI scores.

## Geographic Referencing

9. The pupil home postcode data collected via the School Census were used in the geographic referencing carried out by the DfE. The May 2010 extract of the Office for National Statistics' (ONS') National Statistics Postcode Directory (NSPD) was used to reference the data. This product links postcodes to the codes of administrative geographies in England and Wales.
10. The results from the geographic referencing were as follows:

## England Figures

- Total number of pupils in National Curriculum Year Groups Reception to Year 11 attending secondary schools: 2,863,906
- Number of records matched: 2,856,850 (99.75\%)
- Number of records with missing postcodes: 72 (0.0025\%)
- Number of records with invalid postcodes: 6,984 (0.24\%)

## London Figures

- Total number of pupils in National Curriculum Year Groups Reception to Year 11 attending secondary schools: 390,186
- Number of records matched:

388,924 (99.68\%)

- Number of records with missing postcodes:

11 (0.003\%)

- Number of records with invalid postcodes:

1,251(0.32\%)
11. Unmatched records (with missing and invalid postcodes) are not included within the figures in this bulletin. The only exception to this is in Table 6 (pupil retention in the transition between primary and secondary school) where pupils are included so long as they have a matched postcode for one of the years (2009 or 2010). Pupils with missing or invalid postcodes in both years are excluded.

## Statistical Disclosure Control

12. The National Statistics Code of Practice requires that reasonable steps should be taken to ensure that all published or disseminated statistics produced by the DfE protect confidentiality. Whilst this bulletin is not a National Statistics publication the information presented complies with the National Statistics Code of Practice and associated protocols.
13. Every effort has been made to ensure the data do not allow the identification of individuals. To protect confidentiality the following conventions have been used throughout this publication:

- Low counts have been suppressed and replaced by (x).
- Negligible percentages, those less than $0.05 \%$, have been suppressed and replaced by a hyphen (-).
- 0 is shown only when the true value is 0

## Enquiries

14. Enquires about the figures in this bulletin should be addressed to Jonathan Souppouris, Department for Education, Sanctuary Buildings, Great Smith Street, London, SW1P 3BT; telephone number: 0207340 8043; email: Jonathan.Souppouris@education.gsi.gov.uk
15. Press enquiries should be addressed to the Department's Press Office, Department for Education, Sanctuary Buildings, Great Smith Street, London, SW1P 3BT; telephone: 0207925 6789.

[^0]:    ${ }^{1}$ As defined by IDACI (Income Deprivation Affecting Children Indices)
    ${ }^{2}$ This does not include the City of London, which does not have any maintained secondary schools and therefore the entire resident population is educated outside the Local Authority.

[^1]:    ${ }^{1} 2002$ and 2007 figures in figure 2.1A and 2.1 B are based on pupils aged 11 to 15

[^2]:    1. Includes LA maintained single gender schools, academies and grammar schools.
[^3]:    ${ }^{3}$ It should be noted that Westminster, Enfield, Southwark, Croydon and Lewisham have coverage lower than 90\%
