

SDR 74/2013

15 May 2013

Education Maintenance Allowances awarded in Wales – Update at end of April 2013

This monthly Statistical First Release presents information on the number of Education Maintenance Allowances (EMAs) awarded to students in further education in academic year 2012/13, as at the end of April 2013. The release is based on data provided by the Student Loans Company (SLC) and is correct as at 7 May 2013.

The EMA Wales scheme was introduced for 16 year olds in 2004/05 and extended to include 17 year olds in 2005/06 and finally to include 18 year olds in 2006/07. EMA is a weekly allowance, linked to satisfactory attendance, paid fortnightly to eligible students attending learning centres in Wales.

From the academic year 2011/12, the criteria for new EMA students receiving the £30 award changed, and the £10 and the £20 awards are no longer available. Students new to EMA may qualify for an award of £30 per week, depending on household income and family circumstances. Students who received EMA in 2010/11 who are returning to education and meet the same eligibility criteria as for 2010/11 will continue to get their EMA, be it for £10, £20 or £30 per week. The performance bonus payments (previously paid in September, January and July) were removed at the end of academic year 2010/2011, and are no longer paid out to any students.

Key results

As at 30 April 2013, approved applications were down 8 per cent on last year, whilst the total number of applications received was down by 6 per cent (*Charts 1 and 2*). As a result of some of the policy changes mentioned above, i.e. the removal of £10 and £20 awards for students new to EMA from academic year 2011/12, fewer students are eligible for this support. The number of students receiving the £30 award has decreased by 1 per cent compared to the same point last year. This is the sixth monthly data point available for applications for 2012/13, and it is too early to predict whether the percentage decreases seen this month will apply to final data.

- A total of 32,035 EMA Wales applications had been received for the academic year 2012/13 (*Table 1*).
- 30,210 (94 per cent) of applications received were approved, 1,075 (3 per cent) were rejected and 715 (2 per cent) were incomplete (*Chart 3, Table 1*).

Chart 1: Cumulative number of all EMA applications received, by month and year of study (a)

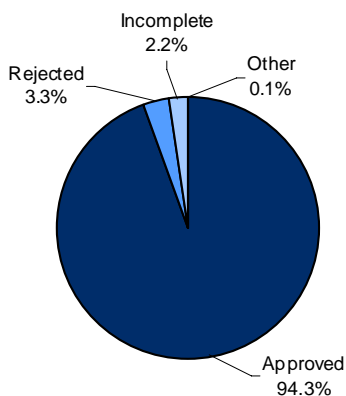

(a) Cumulative figures may fall for a number of reasons, such as applicants dropping out of college, colleges stopping payments for applicants not attending lessons, or applications being reclassified to a different scheme.

Chart 2: Cumulative number of approved EMA applications, by month and year of study (a)

(a) Cumulative figures may fall for a number of reasons, such as applicants dropping out of college, colleges stopping payments for applicants not attending lessons, or applications being reclassified to a different scheme.

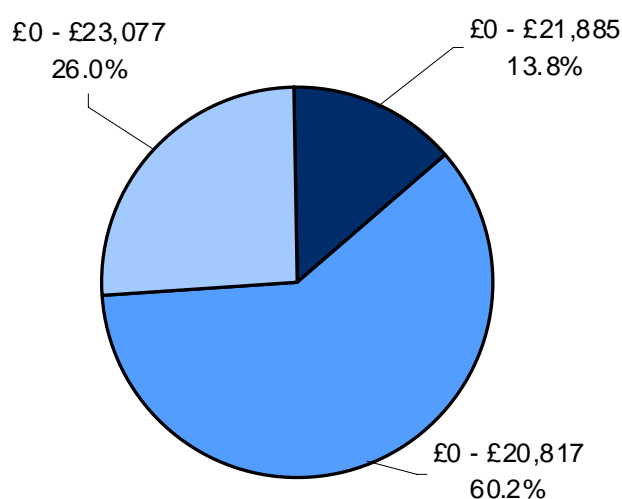

Chart 3: Total applications received by current work stage for academic year 2012/13, as at 30 April 2013 (b)

As at 30 April 2013, 94 per cent of EMA applications received had been approved and 3 per cent had been rejected (*Table 1*). The majority of the remaining applications received were incomplete. These are applications that are either “missing information” (e.g. no date of birth included) or “missing evidence” (e.g. no birth certificate attached).

(b) Current work stage denotes the status of the application at 7 May 2013, when the data was extracted from SLC’s database.

Chart 4: Approved applications, by EMA £30 award and threshold levels, as at 30 April 2013 (b)

As at 30 April 2013, £30 awards accounted for 98 per cent of all approved applications (Table 2). Of those entitled to a £30 award, 14 per cent of approved applications were from returning students with a household threshold income of £21,885 or less; 60 per cent were from new claimants with a household income of £20,817 or less (independent students / only child in household), and 26 per cent were from new claimants with a household income of £23,077 or less (with siblings aged 16 or under in the household / one or more siblings aged 20 or under in full-time education or training and eligible for child benefit in the household).

(b) Current work stage denotes the status of the application at 7 May 2013, when the data was extracted from SLC's database.
Note: The figures in Chart 4 and the commentary was revised on the 10 June 2013 as a result of data entry errors.

There were 25 claimants whose household income was 'unknown'.

Table 1: Applications by workstage, as at 30 April 2013

Current work stage	2007/08	2008/09	2009/10	2010/11	2011/12	2012/13
Approved	31,070	32,280	35,930	36,095	32,670	30,210
Rejected	840	840	905	935	905	1,075
Incomplete (a)	1,100	1,670	1,125	920	535	715
Other (b)	215	265	395	305	15	35
Total	33,230	35,055	38,355	38,255	34,120	32,035

(a) These include applications that have "missing information" (e.g. no date of birth included) or "missing evidence" (e.g. no birth certificate attached).

(b) These include applications that are in one of the following workstages: assessed; awaiting rejection; data capture incomplete; failed assessment; validated; verified (as defined by SLC).

Table 2: Approved applications for academic year 2012/13 by learning centre type, gender and value of EMA award, as at 30 April 2013

	£30	£20	£10	Total
Further Education College:	19,080	275	135	19,490
Males	9,355	130	60	9,545
Females	9,725	145	75	9,945
Secondary School:	9,990	55	30	10,075
Males	4,480	35	15	4,525
Females	5,510	20	20	5,550
Other Learning Centre:	630	10	5	650
Males	365	*	*	375
Females	265	5	*	275
All Learning Centres:	29,700	340	175	30,210
Males	14,200	165	80	14,445
Females	15,500	170	95	15,765

Annex 1: Notes

1. Context

1.1 Policy/operational context

Education Maintenance Allowance (EMA) is a scheme providing young people who wish to continue in education after school leaving age with an incentive to earn awards through good attendance and achieving agreed objectives. Changes to this scheme were introduced from September 2011, further details are provided here: <http://wales.gov.uk/docs/dcells/publications/101109emaen.pdf>

These monthly releases aim to provide high level operational updates on the EMA application process.

1.2 Eligibility criteria, 2012/13

A student has a general entitlement to receive an EMA if:

Student criteria

- the student is aged 16, 17 or 18 years old¹ on 31 August 2012.
- the student has a bank or building society current account.
- the student meets the nationality/residency criteria.

Course criteria

- the student is studying full-time at a school; or studying at least 12 guided hours a week at a recognised further education institution/other learning centre.
- the student is studying an academic or vocational course up to and including level 3. Eligible academic or vocational course include GCSEs, A-Levels, BTECs, NVQs, GNVQs and Basic Skills courses.
- the student is studying an eligible course that lasts at least 10 weeks.

Household income criteria

Evidence of household income in the prior tax year determines whether a student will be eligible for an EMA.

Students new to EMA in 2012/13 may qualify for an award of £30 per week. There are two different household income thresholds, which are based on the student's family circumstances. Students will not be able to receive EMA if their household income is above the threshold levels.

Students new to EMA from 2011/12 onwards (eligible for the £30 award only)

Family circumstances	Household income threshold
You are the only dependant child in the household	£0 - £20,817
You have one or more dependants aged 16 or under in the household	£0 - £23,077
You have one or more dependants aged 20 or under in full-time education or training and eligible for child benefit in the household	£0 - £23,077

Returning EMA students, who continue to meet the eligibility criteria for 2010/11 EMA scheme, will continue to get their EMA, be it for £10, £20 or £30 per week.

Returning EMA students in 2012/13 (who are still eligible for the £10, £20, and £30 awards)

Household Income (per annum)	Entitlement Amount (per week)
£0 - £21,885	£30
£21,886 - £26,840	£20
£26,841 - £32,400	£10
£32,401 or above	Nil

2. Data source

EMA applications and payments are administered by the Student Loans Company (SLC). Data held on EMA students is entered by SLC staff onto an administrative database for the purpose of assessing and paying EMA to students. This data is also stored in a management information data warehouse for the purpose of management reporting, operational performance reporting, audit of processes, statistics,

¹ Entitlement may be extended to 19 year olds if they have not already received 3 years of EMA.

future policy planning and forecasting. Further details of SLC's administrative sources will be published on [SLC's web page](#) later this year. Processes and systems which enable customer and application assessment data to be held electronically are subject to periodic audit and integrity checks. SLC Internal Audit ensure that the processes governing data entry and application assessment are adhered to. Data integrity validation rules are used to identify and correct errors in data. Management Information extracted from SLC systems are subject to quality assurances prior to distribution.

The data in this release were collected via the SLC management information system and were extracted on 3 May 2012. All information is based on applications received by 30 April 2013.

3. Definitions

3.1 Change in applicant circumstances

The data represented in this release refer to applicants' most recent learning agreement. Therefore if an applicant has attended more than one type of learning centre or has received different values of weekly payments, to avoid double-counting, they are only included under their most recent status.

4. Rounding strategy

Figures in this release have been rounded to the nearest 5. Due to rounding, the sums of some rows or columns may not add to the total figure given. Numbers less than 5, but not zero, are represented by '*'.

5. Key Quality Information

This section provides a summary of information on this output against five dimensions of quality: Relevance, Accuracy, Timeliness and Punctuality, Accessibility and Clarity, and Comparability.

5.1 Relevance

The statistics are used both within and outside the Welsh Government to monitor educational trends and as a baseline for further analysis of the underlying data. Some of the key users are:

- Ministers and the Members Research Service in the National Assembly for Wales;
- Officials in the Welsh Government;
- Other government departments;
- Further Education Institutions, Work-Based Learning providers, schools and local authorities;
- Wales Audit Office;
- Students, researchers, academics and universities;
- Individual citizens, private companies, and the media.

These statistics are used in a variety of ways. Some examples of these are:

- advice to Ministers;
- to inform and evaluate the education policy-making process in Wales;
- to forecast future expenditure of student support schemes in Wales.

5.2 Accuracy

Statisticians within the Welsh Government review the data and query any anomalies with the Student Loans Company before tables are published. The updated monthly figures for the current academic year are correct at the time of publication. They are subject to revisions following further SLC processing, for example due to applications being re-classified from EMA to "Pathways to Apprenticeships" or vice versa. See "Further Information" for more details.

5.3 Timeliness and Punctuality

For 2012/13 this is the sixth monthly publication on the number of EMA applications and relates to applications up until the end of April 2013. Monthly updates during a given academic year relate to data from the end of November each month until the end of July and are published as soon as possible, a few weeks following the end of a given month, and according to a planned and pre-announced series of publication dates. Final data for 2012/13 will be published in September 2013, and the final publication will include more detailed data tables.

5.4 Accessibility and Clarity

This statistical release is pre-announced and then published on the Statistics section of the Welsh Government website. It is accompanied by more detailed tables on StatsWales, a free to use service that allows visitors to view, manipulate, create and download data.

5.5 Comparability

For the academic year 2004/05 only students aged 16 at the start of the academic year were eligible to receive an EMA. The scheme was extended to 17 year olds for the 2005/06 academic year and finally 18 year olds in 2006/07. Therefore comparability between years varies, and before 2006/07 should be restricted to comparisons. Figures from 2006/07 onwards are comparable with each other.

The data used for the cumulative number of EMA Wales applications as reported on the StatsWales website are now taken from the SLC via their management information system, which are based on the same definitions used for the September Statistical First Release, which was not the case in years prior to 2009/10.

Data for 2011/12 will only be comparable with previous years' data from November onwards. This is due to a change in the Student Loans Company's procedure for renewing EMA applications for existing students, which first came into affect in academic year 2010/11.

From academic year 2011/12, students new to EMA can qualify for an award of £30 per week, depending on household income. Students who received EMA in 2010/11 who are returning to education and meet the same eligibility criteria as for 2010/11 will continue to get their EMA, be it for £10, £20 or £30 per week. No further bonus payments (previously paid in September, January and July) will be made to any students.

Northern Ireland and Scotland have their own EMA schemes. EMA closed to new applicants in England from 1 January 2011.

The reported number of academic year 2011/12 approved EMA applications dropped between March and April 2012. This is due to the annual exercise carried out by SLC to sample check a proportion of those returning EMA applicants who have chosen to self certify their income, and SLC will assess the application against the applicants' previous years income evidence. If the applicant later fails to provide evidence of household income (if requested), they will be assumed to be no longer be eligible for support.

6. Further Information

Updates providing the number of EMA applications during 2012/13 will be published monthly, and will be found on the [Statistics for Wales](#) website.

Comparable monthly data for previous academic years (similar to Table 1 of this Release) can be found in the StatsWales table on [cumulative totals of applications for EMA](#) (please note that monthly data for 2012/13 are subject to change – see “Revisions Policy” – and should be treated as provisional until final figures are published in September 2013). Please note that monthly 2009/10 data are confirmed as final (as at 31 August 2010) in [cumulative totals of applications for EMA](#) table, and will therefore differ slightly to what is seen in Table 1 of this Release, as these figures were those correct as at 31 July 2010.

Further detailed information on EMA applications for academic years 2004/05 to 2010/11 (similar to Table 2 of this Release) can be found in the StatsWales table on [approved EMA applications by LEA](#).

The latest final EMA Statistical First Release, for academic year 2011/12, was published in September 2012. The provisional Statistical First Release, which had previously been published in January, was discontinued due to more detailed data now being published within this monthly release. Please contact us if you have further queries on the data published.

Further information about the EMA scheme can be found at www.StudentFinanceWales.co.uk.
