for

## SPECIAL SCHOOLS

## INTRODUCTION

## PANDA INFORMATION FOR SPECIAL SCHOOLS

This is the 2004 PANDA for special schools produced by OFSTED. The PANDA provides you each year with your own school level data, and national (contextual) data. The national contextual data comes from a variety of sources, and can be used to compare your school with other schools and to help with your own self-evaluation. It also shares with headteachers the data that have been collected from schools and are currently held centrally by OFSTED. It is not part of the public reporting of schools, however, the Freedom of Information Act came into effect on $1^{\text {st }}$ January 2005, and from that date Ofsted may be required to disclose your PANDA report, or part of it, to members of the public on request.

The information provided relates to school outcomes (e.g. tests and examination results) and school processes (e.g. Pupil / Teacher Ratios). PANDAs produced for special schools are not formally part of the DfES' Autumn Package. We have not shown your data in direct comparison with national averages provided in the Autumn Package, because of the scope and nature of education provided in special schools and the relatively low number of establishments of each type. However, the information in this self-contained document is provided with guidance on how comparisons might be made. You may therefore find it useful to refer to the Autumn Package while reading this PANDA. The Autumn Package is available at the DfES's Standards website (http://www.standards.dfes.gov.uk/performance). Please see the Further Information section for further details.

The data given are for 2004 unless otherwise shown. Information is included for the main types of special schools, where there are at least ten schools schools mainly catering for pupils with:

Autism (AUT);
Emotional and Behavioural Difficulties (EBD);
Hearing Impairment (HI);
Moderate Learning Difficulties (MLD);
Physical Disabilities (PD);
Profound and Multiple Learning Difficulties (PMLD);
Severe Learning Difficulties (SLD);
Specific Learning Difficulties (SpecLD);
Speech and Language Difficulties (SD);
Hospital Schools (HOSP); and
Other (OTH) are also included as a separate grouping.
These category headings are the same as were used in the 2004 Annual school census and the 2003 PANDA for special schools. Schools where the main provision is Visual Impairment, Epilepsy, MSI, and other categories where there are less than ten schools, have been included in the OTHER category.

Comparisons with other schools of a similar type may be useful, but can have their limitations. It is important to remember that there can be large variations between special needs of the same type. For example, schools for children with physical difficulties can range between those where the children have physical, but few learning difficulties, to those where the children have both physical and severe learning difficulties.

Where data are only available for a small number of schools, information may not be shown because of difficulties in arriving at reliable and meaningful national estimates. If your school's type is not separately shown in this PANDA or in a particular section, you may still be able to make some valuable comparisons. For example, it might be appropriate for schools with delicate pupils to compare themselves with PD schools. Similarly, schools for pupils with hearing impairments who have few other learning difficulties might be helpfully compared to mainstream schools.

The 2004 Annual Schools' Census, Special Education Directory 2004 and an extract from DfES Edubase data, have been used as sources of information on the different types of special school to enable calculation of national data for this document. The school specific section was compiled using historical datasets of the above sources. All changes to historical data are due to corrections of errors in the data, or the calculation methods previously used.

This latest version of the PANDA does not include national data on Exclusions, Attendance, Curriculum, or Finance, due to a lack of available data or because data are no longer collated. Inspection summary data are also not shown due to the relatively small number of special schools inspected under the 2003 Framework for Inspection, and because direct inspection judgements from the new framework are not comparable to composite judgements from earlier frameworks.

Our intention is to provide as complete a picture of your school's comparative performance, as it is possible to draw. General enquiries about accessing this document should be directed to the RAI Helpdesk, on 02074216633. Enquiries on the content of his document can be directed to 02074216840. The scope of the statistics shown in this document is under continual review and development. The development of the PANDA for Special Schools from year to year has always been inspired by schools, and we continue to seek your formative comments. These should be addressed to:

## Attendance

- indicates no data available

## Inspection Evidence

Your school was inspected on $02 / 12 / 2002$ to the Framework for Inspection introduced in January 2000. As part of the inspection, inspectors completed a form which graded their judgements about the school against each of the criteria in the Ofsted Framework for Inspection. These judgements are on a scale from 1 (excellent) to 7 (very poor).

The school's improvement since its last inspection was graded very good on this scale.

For most schools, inspectors are called on to make over 80 judgements about the school as a whole and about the standards and quality of provision in the different key stages. From these judgements, Ofsted produces composite judgements concerning the three broad areas covered by inspection.

These composite judgements, where available for your school, are as follows:
The quality of education provided by the school was very good
The school's climate for learning was very good
The management and efficiency of the school were very good

The table on the left lists the possible composite grades and maps them to the grades that can be awarded for direct judgements.

| PRE-2003 <br> COMPOSITE <br> JUDGEMENT | POST-2003 <br> DIRECT <br> JUDGEMENT |
| :---: | :---: |
| Very Good | Excellent <br> Very Good |
| Good | Good |

## 1. SUMMARY OF SPECIAL SCHOOLS

### 1.1 Main type of SEN provision

In order to compile the tables and charts for this report, schools have been assigned to categories based on their main provision type for SEN, as indicated in the introduction. Table 1.1 below gives the numbers of each different type of special school as classified using the Special Education Directory 2004 and Edubase, the register of educational establishments.

There were 1239 special schools identified in total (of which, 1105 were maintained special schools). MLD and SLD schools are most numerous with 321 and 310 schools respectively. Hearing Impairment and Hospital schools are the least numerous with 21 schools.

Table 1.1: Special Schools ${ }^{\mathbf{1}}$ by Main Type of SEN Provision

| Special Needs Classification | SpecialNeeds <br> CODE | Number of <br> Schools |
| :--- | :---: | :---: |
| Autism | AUT | 56 |
| Emotional and Behavioural Difficulties | EBD | 247 |
| Hearing Impairment | HI | 21 |
| Hospital Schools | HOSP | 21 |
| Moderate Learning Difficulties | MLD | 321 |
| Physical Difficulties | PD | 76 |
| Profound and Multiple Learning Difficulties | PMLD | 27 |
| Severe Learning Difficulties | SLD | 310 |
| Specific Learning Difficulties | SpecLD | 51 |
| Speech and Language Disorders | SD | 27 |
| Other ${ }^{2}$ | OTH | 82 |
| Total |  | $\mathbf{1 , 2 3 9}$ |

1. Includes 'Grant Maintained Special', 'LEA Maintained Special', 'Non-Maintained Special', 'Independent School approved for SEN Pupils' and 'Other Independent Special School'
2. Schools classified as 'OTH' are catering for special needs outside of this scope (ie. Epilepsy or MSI); number fewer than 10, or were unable to be classified from the data available
3. Source of data: Special Education Directory 2004 and Edubase

### 1.2 Boarding provision

Table 1.2 below shows the percentage of schools with boarders for each type of special school. Tables in subsequent sections separately identify boarding and non-boarding schools.

Table 1.2: Special Schools by Boarding Provision ${ }^{1}$

| Special Needs Classification | Percentage of <br> Schools with <br> Boarders |
| :--- | :---: |
| Autism | 41 |
| Emotional and Behavioural Difficulties | 40 |
| Hearing Impairment | 52 |
| Hospital Schools | 0 |
| Moderate Learning Difficulties | 9 |
| Physical Difficulties | 22 |
| Profound and Multiple Learning Difficulties | 22 |
| Severe Learning Difficulties | 7 |
| Specific Learning Difficulties | 43 |
| Speech and Language Disorders | 41 |
| Other |  |
| All Special Schools | 26 |

1. Schools are classified as Boarding if they have 1 or more pupils boarding
2. Source of data: Special Education Directory 2004 and Edubase

Overall, $31 \%$ of special schools offered boarding provision. The highest proportion of schools with boarders was in the HI category ( $52 \%$ ).

## 2．BASIC CHARACTERISTICS

## 2．1 Pupils on roll

Tables 2．1．1 and 2．1．2 provide information that enables a comparison of numbers on roll by age range within schools of the same type．In Table 2．1．1，figures are shown for all pupils and for boys and girls separately．As an example，among MLD special schools，the average number of full time pupils aged 5 to 10 years was 41 ．

Table 2．1．1：Average Pupils on Roll by Age Range and Type of School

|  |  | $\begin{aligned} & \frac{5}{6} \\ & \frac{5}{5} \end{aligned}$ | $\begin{aligned} & \text { 号 } \\ & \text { 翤 } \end{aligned}$ | $\begin{aligned} & \underline{0} \\ & \frac{2}{\alpha} \\ & \underline{\alpha} \\ & \underline{\underline{\alpha}} \end{aligned}$ |  | 9 | 0 | 을 | $\frac{9}{6}$ |  | 8 | 등 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  | Full－Time Under 5 | 5 | 3 | 2 | 6 | 3 | 4 | 3 | 4 | 4 | 5 | 6 |
|  | Full－Time Aged 5 to 10 | 30 | 17 | 15 | 17 | 29 | 16 | 16 | 21 | 23 | 26 | 25 |
|  | Full－Time Aged 11 to 15 | 28 | 37 | 26 | 28 | 57 | 22 | 15 | 21 | 41 | 37 | 30 |
|  | Full－Time Aged 16 to 19 | 11 | 4 | 13 | 5 | 12 | 9 | 7 | 10 | 7 | 14 | 11 |
|  | Full－Time and Part－Time Aged 0 to 19 | 57 | 41 | 45 | 46 | 76 | 45 | 34 | 50 | 58 | 62 | 50 |
| $\begin{aligned} & \text { Nㅡㄴ } \\ & \hline 0 \end{aligned}$ | Full－Time Aged 0 to 19 | 16 | 8 | 32 | 46 | 36 | 30 | 17 | 27 | 19 | 20 | 25 |
|  | Full－Time Under 5 | 2 | 2 | 2 | 6 | 2 | 3 | 3 | 3 | 4 | 2 | 4 |
|  | Full－Time Aged 5 to 10 | 9 | 4 | 9 | 12 | 12 | 11 | 8 | 11 | 8 | 9 | 15 |
|  | Full－Time Aged 11 to 15 | 9 | 8 | 20 | 36 | 29 | 15 | 6 | 12 | 13 | 15 | 15 |
|  | Full－Time Aged 16 to 19 | 4 | 3 | 10 | 4 | 8 | 7 | 4 | 7 | 7 | 7 | 7 |
|  | Full－Time and Part－Tlme Aged 0 to 19 | 16 | 8 | 34 | 47 | 37 | 32 | 19 | 28 | 19 | 21 | 27 |

1．Averages include only those schools which have pupils in the appropriate age range
2．Averages for girls and boys may not sum to tolals due to rounding
3．Example：For EBD schools where there are some pupils within the age range of 11 to 15 Full－Time（more than 20 schools）the average number of
11 to 15 Full－Time pupils is 40
4．Source of data：Annual Schools＇Census，January 2004
Table 2．1．2 shows the national spread of pupils on roll again by school type and age range，represented by quartiles．This means that $25 \%$ of similar schools have pupil totals below the lower quartile， $50 \%$ above and below the median，and $25 \%$ above the upper quartile．As an example，an SLD school teaching 45 pupils in the＇full－time aged 5 to 10 ＇age range would be above the upper quartile（ 40 pupils）．That is，the school＇s pupils on roll figure in that age range would be in the top $25 \%$ of schools of the same type and age range．The table is therefore a simple method for indexing your school＇s size against schools of the same grouping and age range nationally．

Table 2.1.2: Pupil Totals in Special Schools by Age, Type; Median and Lower and Upper Quartiles

|  | AUTISM |  |  | EBD |  |  | HEARING |  |  | HOSPITAL |  |  | MLD |  |  |

1. Medians and Lower and Upper Quartiles include only those schools which have pupils in the appropriate age range
2. The median is the point at which $50 \%$ of schools lie above or below. while the lower and upper quartiles are the points at which $\mathbf{2 5 \%}$ of schools lie below
and above respectively
3. Source of data: Annual Schools' Census. January 2004

### 2.2 Statemented pupils by LEA

Table 2.2.1 shows for each LEA, the number of statemented pupils taught in mainstream primary schools and the number of pupils of primary school age taught in all types of special school in that LEA.

The figures give a basic indication of the prevalence of special needs pupils (as measured by statements) in each LEA and how these are divided between maintained primaries and all types of special school. There are variations in classification procedures for special educational needs, and in statementing practices, between different LEAs, and there are many pupils with significant special educational needs who are not statemented. Not surprisingly, the relative proportion of statemented pupils taught in mainstream schools and in special schools therefore differs widely between LEAs.

Table 2.2 .2 gives a similar analysis for statemented pupils in secondary schools and for pupils of secondary age in special schools.

Table 2.2.1: Statemented Pupils in Primary and Special Schools by LEA

### 2.3 Pupils by special educational need

Table 2.3 shows the incidence of pupils with different special needs in each school type. The table clearly illustrates that the group in which a special school is placed (see section 1.1) does not fully define the needs of pupils for whom they cater. For example, schools with SLD as the main provision may also cater for pupils with other special needs - e.g. Profound and Multiple Learning Difficulties.

Table 2.3: Distribution of Pupils' SEN by Type of School

|  | Percentage of Pupils |  |  |  |  |  |  |  |  |  |

1. Source of data: HEADTEACHER'S FORMS for schools inspected from April 1997 to July 2004
2.4 Ethnic composition and pupils whose first language is not / believed not to be English

Chart 2.4.1 draws on data from the Annual Schools' Census to give median (as explained in section 2.1) percentages of non-white pupils in each of the special school categories. It should be noted that "non-white pupils" includes returns from parents who preferred not give a response.

Table 2.4.2 gives the data underpinning Chart 2.4.1 but shows the upper and lower quartiles, and mean, as well as the median for each special school grouping.

## 3. ATTAINMENT

### 3.1 National Curriculum assessment

Tables 3.1.1 to 3.1.8 show national data for the outcomes of teacher assessments and tests at ages 7, 11 and 14 by special school grouping. This reflects the focus of information provided in PANDA Reports for mainstream schools. The national information may be used as a benchmark against which schools can compare their data on teacher assessments and tests while recognising that, as one would expect, there will be much variation between and within special school types. The data should though provide a useful focal point for debate and self-evaluation.

Most mainstream school pupils are expected to reach Level 2 at the end of Key Stage 1, level 4 at the end of Key Stage 2 and levels 5 or 6 at the end of Key Stage 3. You may wish to compare your pupils' attainment with national standards, although comparisons with performance among special schools in the same grouping may be more appropriate and more valid with respect to target setting.

The percentage attaining Level 2 or above (Key Stage One) in English TA was highest in Emotional and Behavioural schools at 23 per cent. The highest percentage in Mathematics, was in 35 per cent at Hearing Impairment schools. Emotional and Behavioural schools scored the highest in Science with 31 per cent. Naturally, there is wide variation in the levels of attainment of pupils across the different categories of special school.

No levels of achievement are given where pupils were either absent from the tests, exempt under statutory arrangements from all or part of the National Curriculum requirements, or failed to register a level for other reasons such as long term absence over the school year. Where pupils are shown as working towards a level, this indicates that assessments or test results were below level 1 for 7 -year-olds, level 2 for 11 -year-olds or level $2 / 3$ for 14 -yearolds.

Some schools with pupils with learning difficulties will inevitably not find the attainment figures as useful as others, especially where pupils are not achieving at the lowest "level" of attainment. "P-scales" are being more frequently used now by schools and may in future be incorporated in the PANDA for Special Schools to help give schools more relevant comparisons. This year, there are no Key Stage data available. Key Stage 2 test data are available, but there is no teacher assessment data. Finally, there are no Key Stage data available for Hospital schools, therefore, Hospitals are not shown in some tables.

More information is available in the DfES/QCA Report, Supporting the Target Setting Process: Guidance for Effective Target Setting for Pupils with Special Educational Needs (revised March 2001, Ref. No. DfES 0065/2001). This report gives performance criteria for children working towards level 1 and within levels 1 and 2 in language and literacy, and below level 1 in mathematics.

The report can be downloaded free of charge from the DfES website.

## 3．2 GCSE results

Table 3.2 shows the percentage of pupils，nationally，achieving five or more $\mathrm{A}^{*}-\mathrm{C}$ grades，five or more $\mathrm{A}^{*}$－G grades and one or more $\mathrm{A}^{*}$－G grades，as well as Average Total Points Scores for all pupils，boys and girls，by special school grouping．

The average total points score per pupil on roll is the most comprehensive single measure of pupils＇total GCSE attainment．It is taken from the DfES＇s pupil－based national database of GCSE／GNVQ results．Further information can be found in the Glossary of the secondary schools PANDA．

## 4．MANAGEMENT AND EFFICIENCY OF THE SCHOOL

## 4．1 Pupil Teacher Ratios

The Pupil／Teacher Ratio（PTR）of a school is calculated as the ratio of the number of pupils to the number of full－time equivalent qualified teachers．The calculation excludes staff and pupils in designated nursery units or classes．The tables in this section are based on analyses of information from the Annual Schools＇Census（2004）．

Chart 4．1．1 shows median PTR by school group．There is a substantial variation between different categories，ranging from Hearing schools with a median of 4.7 to MLD schools with a median of 8．0．

Table 4．1．2 presents national PTR quartiles by school group．The table allows schools to assess their PTR in relation to other schools．

Chart 4．1．1：Median Pupil Teacher Ratio

Table 4．1．2：Pupil Teacher Ratio

|  | $\frac{\sqrt{6}}{\frac{1}{5}}$ | $\begin{array}{r} 0 \\ \text { 邑 } \\ \hline \end{array}$ |  |  | 올 | Q | $\frac{\text { 星 }}{2}$ | 号 | $\begin{aligned} & \text { 肙 } \\ & \text { d } \\ & \text { in } \end{aligned}$ | 易 | $\underset{\sim}{\mathbf{I}}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Mean | 6.5 | 4.9 | 4.6 | 6.8 | 8.0 | 6.1 | 5.8 | 6.8 | 5.9 | 6.3 | 6.4 | 6.7 |
| Lower Quartile | 5.1 | 4.0 | 4.5 | 3.0 | 7.1 | 5.2 | 5.1 | 5.9 | 5.0 | 5.8 | 5.4 | 5.4 |
| Median | 7.0 | 4.9 | 4.7 | 5.6 | 8.0 | 5.9 | 5.1 | 6.7 | 5.9 | 6.3 | 6.1 | 6.6 |
| Upper Quartile | 7.8 | 5.9 | 5.5 | 9.3 | 9.0 | 6.5 | 5.1 | 7.6 | 6.7 | 7.0 | 7.4 | 7.9 |

1．Pupil Teacher Ratios are calculated for Full－Time Equivalent pupils
2．The median is the point at which $50 \%$ of schools lie above or below，while the lower and upper quartiles are the points at which $25 \%$ of schools lie below and above respectively
3．Source of data：Annual Schools＇Census，January 2004

## 4．2 Education Support Staff

Information about the number of education support staff，and their aggregate hours of work，appears at Section 6 of your Annual Schools＇Census（January 2004）．Some comparative national data are offered at Tables 4．2．1 to 4．2．3．These show the average number of hours worked per pupil by type of education support staff for each special school grouping．The number of hours worked by support staff is not comparable to previous years＇data，as the information was recorded in different categories．Figures are given as hours per pupil per week．

Table 4．2．1：Educational Support Staff，All Special Schools

－represents no hours
0.0 represents less than 0.05 hours per pupil

1．Hours are not included for any unpaid or voluntary work，any canteen staff．lunch time supervisors or premises related staff such as caretakers
2．Includes hours worked by Part－Time staff
3．Includes Welfare，learning mentors（employed at the school）
4．Boarding schools only
5．Includes Laboratory Assistants，Design Technology Assistants．Home Economics Assistants，Craft Technicians，end IT Technicians
6．Source of data：Annual Schools＇Census，January 2004
Tables 4．2．2 and 4．2．3 indicate a distinct difference between the average number of hours worked by educational support staff in boarding and non－boarding schools．Non－ boarding schools have less childcare provision．These differences reflect the extra attention provided for boarding school pupils after normal teaching hours．

## 4．3 Administrative and clerical staff

Information on the number of administrative and clerical support staff and their aggregate hours of work also appears at Section 6 of the Annual Schools＇Census （January 2004）．Some comparative national data based on this information are displayed in Table 4．4．

Table 4．3：Average Hours Worked by Administration and Clerical Staff Hours per pupil per week＇

|  | $\frac{5}{5}$ | $\begin{array}{r} \text { 㽞 } \\ \hline \end{array}$ |  |  | 를 | Q | $\frac{1}{\frac{1}{2}}$ | 品 | ㅁ 0 0 0 0 | 品 | 동 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Boarding Schools | 0.8 | 1.5 | 2.1 | － | 1.0 | 1.7 | 2.5 | 0.9 | 0.7 | 1.4 | 1.5 | 1.3 |
| Non－Boarding Schools | 0.9 | 1.3 | 1.5 | 0.8 | 0.7 | 0.9 | 1.0 | 0.9 | 0.8 | 0.7 | 0.9 | 0.8 |

－represents no hours
1．Includes hours worked by Part－Time staff
2．Source of data：Annual Schools＇Census，January 2004
The table clearly shows variations between boarding and non－boarding schools，and between the different special school categories within each group．For example， among non－boarding schools，the use of administrative and clerical staff is lowest in MLD and SD schools，and highest in Hearing schools．

## 5. FURTHER INFORMATION

- The introduction to this document makes mention of the PANDA reports that Ofsted produces for primary and secondary schools. There are many key differences between those documents and the PANDA for special schools. However there are also similarities in the approaches adopted with these documents.
- Anonymised versions of PANDA reports are available from our website: www.ofsted.gov.uk. Of particular interest will be the Glossary section at the back of the reports, which explains in some detail the terms 'quartile', 'mean' and 'median', and how these and other statistical concepts are applied to the National Contextual Data.
- Further detail on these subjects can also be found in the Autumn Package (2004 version) under the Guidance Section. This is available from the DfES's standards website: www.standards.dfes.gov.uk/performance.
- The 2004 National Summary Data Report (NSDR) containing national data relating to primary schools can be found on the website under 'Publications'. Earlier versions, relating to secondary schools are also available. The information in the NSDR covers broadly the same ground as the National Contextual Data here.
- The DfES's Autumn Package helpline (0207 925 6989) is available to you should you require further technical knowledge, background or detail on the data presented in the Autumn Package.
- If you experience any problems accessing your PANDA online, please contact the RAI Helpdesk on 0207421 6633. Should you require further information or detail on the data in your PANDA, please contact 0207421 6840. Please have your Unique Reference Number (printed at the beginning of your School Specific Information) to hand if you call the helpline.
