<u>Destination.measures@education.gsi.gov.uk</u>

### Internet

https://www.gov.uk/governme nt/organisations/departmentfor-education/series/statisticsdestinations These are experimental statistics.

#### INTRODUCTION

This Statistical Release on Destination Measures shows the percentage of students progressing to further learning in a school, Further Education or 6th Form College, Apprenticeship, work based learning provider or Higher Education Institution. It also shows, for the first time, the percentage of students moving into employment/training, recorded as Not in Education, Employment or Training (NEET) or accepting a deferred offer into Higher Education (including gap year students). Two destination measures are being published to show the destinations of young people the year after KS4 and the year after taking A level or other level 3 qualifications (KS5):

- The Key Stage 4 Measure is based on activity at academic age 16 (i.e. the year after the young person finished compulsory schooling)
- The Key Stage 5 Measure is based on activity in the year after the young person took their A Level or other level 3 qualification/s

To be included in the Measure, young people have to show <u>sustained</u> participation in an education or employment destination in all of the first two terms of the year after they completed KS4 or took A level or other level 3 qualifications. The first two terms is defined as October to March.

The statistics are published as "Experimental Statistics" and do not display the National Statistics Logo. They are still being evaluated and remain subject to further testing to determine their reliability and ability to meet customer needs. The figures should be treated with caution as this is the first year for which employment, young people NEET and deferred HE offer data have been produced. As improvements are made to the methodology, data quality will be assessed to establish whether the statistics meet the quality standards for National Statistics.

# DESTINATIONS IN THE YEAR AFTER TAKING KEY STAGE 4, 2010/11, National (Table: KS4 National)

 89% of young people were recorded as being in a sustained education or employment/training destination in the year after Key Stage 4.

Education

- 86% of young people were recorded as being in a sustained education destination
  - School Sixth Form (37% of young people) and Further Education College (33%) were the most popular destinations
  - o 12% of young people were studying in a Sixth Form College

- 5% were taking an Apprenticeship in these institutions
- The proportion of young people recorded as being in a sustained education destination has remained fairly constant since 2009/10 with a rise of one percentage point from 85% during that period

#### Employment/Training

2% of young people were recorded as being in sustained employment and/or training

#### Not included in the Measure

- 7% of young people did not remain in education or employment/training for the required two terms
- The proportion of young people who did not remain in a destination for the required two terms and had more than 2 months recorded NEET was 3%. This also includes young people who have no activity recorded except for an indication of being NEET (see technical note for full definition)
- 2% of young people were not captured in the destination data. These young people may have been attending an independent college or school, a Scottish or Welsh college or school, have left the country, been in custody or their whereabouts are not known

# Local Authority (Table: KS4 LA)

- Isles of Scilly (95%) and Harrow, Slough, Sutton and Redbridge (93%) had the highest percentage of young people recorded as being in a sustained destination in the year after KS4
- These same Local Authorities also had the highest percentage of young people recorded as being in a sustained education destination, all of them over 92%
- Newcastle upon Tyne and Nottingham had the lowest percentage of young people recorded as being in a sustained destination, at 82%
- Wakefield had the lowest percentage of young people recorded as being in an education destination, at 78%

# DESTINATIONS IN THE YEAR AFTER TAKING A LEVEL OR OTHER LEVEL 3 QUALIFICATIONS, 2010/11, National (Table: KS5 National)

• 69% of young people were recorded as being in a sustained education or employment/training destination in the year after they took their A Level or other level 3 qualification/s (KS5):

#### Education

- 62% of young people were recorded as being in a sustained education destination
  - 8% were studying in a Further Education College, with a further 3% studying in a School Sixth Form or Sixth Form College
  - 3% were taking an Apprenticeship in these institutions
  - o 48% went to a Higher Education Institution, with 14% studying at the Top Third of HEIs (see

technical note for a list of these universities and how they are calculated). Included within this Top Third, the University of Oxford and Cambridge attracted 1% and The Russell Group of Universities 8% (see Technical Note for a list of these universities)

 The proportion of young people being recorded as being in a sustained education destination, 62%, compared to 64% in 2009/10

### Employment/Training

• 6% of young people were recorded as being in sustained employment and/or training

#### Not included in the Measure

- Just under 1 in 10 (8%) of young people, in our cohort, did not remain in education or employment/training for the required two terms
- The proportion of young people who did not remain in a destination for the required two terms and had more than 2 months recorded NEET is 2%. This also includes young people who have no activity recorded except for an indication of being NEET (see technical note for full definition)
- One fifth (20%) of young people were not captured in the destination data. These young people
  may have been attending an independent college or school, a Scottish or Welsh college or school,
  have left the country, been on a gap year, in custody or their whereabouts are not known
- Of those young people not in sustained participation or not captured in the data, 3% were recorded as having accepted a deferred offer of Higher Education; this includes students on gap years

# Local Authority (Table: KS5 LA)

- St.Helens and Enfield had the highest percentage of young people recorded as being in a sustained destination in the year after their A level or other level 3 qualifications/s, at 81%
- Enfield had the highest percentage of young people recorded as being in sustained education, at 76%
- Norfolk had the lowest percentage of young people recorded as being in a sustained destination, at 56%
- City of Bristol had the lowest percentage of young people recorded as being in sustained education, at 48%.

### **TABLES**

**KS4 National** Percentage of 2009/10 KS4 cohort going to, or remaining in, an

education or employment/training destination in 2010/11, England.

**KS4 LA** Percentage of 2009/10 KS4 cohort going to, or remaining in, an

education or employment/training destination in 2010/11, Local

Authority.

**KS5 National** Percentage of students in 2009/10, who entered an A Level or other

level 3 qualification going to, or remaining in, an education or

employment/training destination in 2010/11, England.

**KS5 LA** Percentage of students, in 2009/10, who entered an A Level or other level 3

qualification going to, or remaining in, an education or employment/training

destination in 2010/11, Local Authority.

#### **Additional Information**

Supplementary tables showing figures at institution level are available on the DfE statistics website

**KS4 NE – KS4 SW** Percentage of 2009/10 KS4 cohort going to, or remaining in, an

education or employment/training destination in 2010/11, Institution.

**KS5 NE – KS5 SW** Percentage of students, in 2009/10, who entered an A Level or other level 3

qualification going to, or remaining in, an education or employment/training

destination in 2010/11, Institution.

In order to improve data accessibility, underlying data will be published on 20 June 2013 in the 'Publication's Underlying Data' section. This will include the numbers going to an education or employment/training destination at National, LA and Institution level for KS4 and KS5.

Additional information and underlying data will be published at:

https://www.gov.uk/government/organisations/department-for-education/series/statistics-destinations

# **EVALUATION OF THE DATA (by 1 October 2013)**

In order for the Department to meet user needs it is essential that we capture feedback from those who access the data. One approach we use to obtain the views and opinions from our users is the Evaluation questionnaire.

This questionnaire provides the opportunity for our users to share their views on how the release of Key Stage 4 and Key Stage 5 Education and Employment/Training Destination Measures has met their needs and how the Statistical First release/technical note could be developed. The link to the questionnaire is below. Please complete before **1 October 2013**.

#### **TECHNICAL NOTES**

A detailed technical note is published alongside the Statistical First Release at

https://www.gov.uk/government/organisations/department-for-education/series/statistics-destinations

#### Experimental Statistics

 This is the first publication on Destination Measures that includes employment/training, young people NEET and accepted deferred HE offers and is classified as experimental statistics as the data are still being evaluated and remain subject to further testing in terms of their reliability and ability to meet customer needs. The data should be treated with caution as this is the first year for which such data have been produced.

#### Cohort

2. This SFR reports on young people in Key Stage 4 (KS4) and Key Stage 5 (KS5) in the 2009/10 academic year and identifies their education and employment/training destinations in the 2010/11 academic year.

#### KS4

The 2009/10 cohort is obtained from the published Performance Tables (PT) where

Young people are identified as being at the end of KS4. In the majority of schools, pupils in Year
 11 in the 2009/10 academic year were at the end of KS4, but some may have completed this Key Stage in an earlier or later year group.

The base cohort includes students in English state-funded mainstream schools only.

#### KS5

The 2009/10 cohort is obtained from the published Performance Tables where

 Young people aged 16, 17 or 18, were entered for A levels or other level 3 qualifications during the 2009/2010 academic year; this is otherwise referred to as 'Key Stage 5'.

The qualifications included in the tables are A level and other level 3 qualifications of a similar size and challenge. An 'AS' is a Level 3 qualification but students only get included in the cohort if they have undertaken a qualification of similar size to an A-level.

The Destination Measures KS5 cohort is for state-funded mainstream schools plus the addition of Further Education Colleges and Sixth Form Colleges.

#### Time Lag

3. Creation of the Destination Measures requires higher education (HESA) data to be matched to the pupil data in the National Pupil Database. The HESA data used in this Release are for the academic year 2010/11 and these are the most recent data to have been matched. This publication is therefore reporting on 2009/10 KS4 and KS5 (A level or other level 3 qualification/s) students who went on to education destinations in 2010/11.

#### Data sources

- 4. For this publication, data from the National Pupil Database (NPD) has been used. The NPD is a longitudinal database linking pupil/student characteristics (e.g. age, gender, ethnicity) to school and college learning aims and attainment information for children in schools in England. Three administrative data sources used in compiling the NPD have been used to determine the education destinations, namely:
  - Higher Education Statistics Agency (HESA) covering United Kingdom Higher Education Institutions
  - Individualised Learner Record (ILR) covering English colleges and Further Education providers
  - School Census (SC) covering English schools

In addition, the following data sources have been used to compile the employment/training, recorded young people NEET and accepted deferred HE offers

- National Client Caseload Information System (NCCIS) covering English local authorities
- Universities & Colleges Admissions Service (UCAS) covering United Kingdom Higher Education Institutions

# Comparison with previous year

5. Some of the differences between 2009/10 and 2010/11 destinations may be attributable to the tightening of methodology or the improvements in data matching so comparisons with previous years should be treated with caution.

#### Top Third Selective Higher Education Institutions

6. The Top Third Selective HEIs, calculated according to mean UCAS A level tariff score of entrants, 2010/11, comprised:

**Aston University** 

**Cardiff University** 

City University

Courtauld Institute of Art

Edinburgh College of Art

Glasgow School of Art

Goldsmiths College

Guildhall School of Music and Drama

Heythrop College

Imperial College of Science, Technology and Medicine

Kings College London

London School of Economics and Political Science

Loughborough University

Queen Mary and Westfield College

Queens University of Belfast

Royal Academy of Music

Royal College of Music

Royal Holloway and Bedford New College

Royal Northern College of Music

Royal Scottish Academy of Music and Drama

Royal Veterinary College

School of Oriental and African Studies

School of Pharmacy

St Georges Hospital Medical School

University College London

University of Aberdeen

University of Bath

University of Birmingham

University of Bristol

University of Cambridge

University of Dundee

University of Durham

University of East Anglia

University of Edinburgh

University of Exeter

University of Glasgow

University of Lancaster

University of Leeds

University of Leicester

University of Liverpool

University of Manchester

University of Newcastle-upon-Tyne

University of Nottingham

University of Oxford

University of Reading

University of Sheffield

University of Southampton

University of St Andrews

University of Surrey

University of Sussex

University of Warwick

University of York

#### Russell Group Universities

# 7. The Russell Group, as at June 2010, comprised:

University of Birmingham

University of Bristol

University of Cambridge

**Cardiff University** 

University of Edinburgh

University of Glasgow

Imperial College London

King's College London

University of Leeds

University of Liverpool

London School of Economics & Political Science

University of Manchester

**Newcastle University** 

University of Nottingham

University of Oxford

Queen's University Belfast

University of Sheffield

University of Southampton

University College London

University of Warwick

#### Suppression

8. For any institutions where the total number of students in the 2009/10 cohort is fewer than 6, all data have been suppressed. For breakdowns of students, any numbers of fewer than 3 have been suppressed, being replaced in the table by an 'x'. Where the numerator of a percentage is fewer than 3, this has been suppressed and replaced by an 'x'. All totals have been rounded to the nearest 10 and all breakdowns have been rounded to the nearest 5 to ensure individuals can not be identified. Where any number is shown as zero (0), the original figure was also zero. Where proportions are less than 0.5% and would therefore be rounded down to zero, they are shown by the symbol '-', to differentiate them from real zeros.

#### Symbols used in the publication

The following symbols have been used in this publication:

- (0) zero
- (x) small number suppressed to preserve confidentiality
- (\*) 0,1,2 suppressed in UCAS data only
- (-) positive % less than 0.5
- ( . ) not applicable

# **Enquiries**

- 1. Enquiries (non-media) or feedback about information contained in this document should be addressed to Product Development Unit, Department for Education, Sanctuary Buildings, Great Smith Street, London SW1P 3BT or e-mail <a href="mailto:Destination.measures@education.gsi.gov.uk">Destination.measures@education.gsi.gov.uk</a>
- 2. Media enquiries about information contained in this Statistical First Release should be made to the Department's Press Office at DFE, Sanctuary Buildings, Great Smith Street, London, SW1P 3BT or telephone 020 7783 8300.

# KS4 National: Percentage of 2009/10 KS4 cohort going to, or remaining in, an education or employment destination in 2010/11

1-15. See separate KS4 Footnotes sheet

#### **KS4** Footnotes

- 1. Number of students in the 2009/10 KS4 cohort.
- 2. Sustained for the first two terms. October to March.
- 3. Includes students who have been in a sustained education, a sustained employment/training or a sustained education/employment/training combination destination for the first two terms. October to March.
- 4. Individual lines may not add up to totals as there is a small number of students who were identified in more than one destination.
- 5. Other Further Education Providers includes students undertaking Further Education provision at a Higher Education Institution.
- 6. All Apprenticeships are also reported in the Further Education College, Other Further Education Provider, School Sixth Form and Sixth Form College lines. Apprenticeships are identified where any qualifying learning has occurred at any time during the October to March participation period.
- 7. Education combination destinations include students who fulfilled the October to March participation criteria but through more than one type of education destination.
- 8. Employment/Training destinations include all types of employment and training activity recorded in the NCCIS for the first two terms, October to March.
- 9. Employment with Training incorporates all work that has training included (level 2 NVQ or above).
- 10. Other Employment includes part time, temporary and full time w ork. Some full time w ork may contain training to level 1 NVQ.
- 11. Other Training includes all training recorded in the NCCIS data.
- 12. Education/Employment/Training combination means the student fulfilled the October to March participation criteria but through a combination of education and employment/training destinations.
- 13. 'Destination not sustained' means the student was recorded as having education or employment participation in the year September to August but did not have continuous participation from October to March. The student may have had a maximum of 2 months recorded NEET in the participation period October to March.
- 14. Destination not sustained/Recorded NEET' means the student was recorded as having education or employment participation in the year September to August but did not have continuous participation from October to March. The student had between 3 and 6 months (inclusive) recorded NEET in the participation period October to March.
  - the student had no record of education, employment or training but was recorded as NEET at some point in the year September to August.
- 15 Activity not captured in data' means the young person was not found in an education, employment or a recorded NEET destination. Possible reasons for this could be that the young person was attending an independent college or school, a Scottish or Welsh college or school, they have left the country, are in custody or their whereabouts are not known.
  - "x" means the data has been suppressed as the school or college has few er than 6 students in the cohort, or small numbers (1's and 2's) in the reporting lines. Results are not shown because of the risk of an individual student being identified. All totals have been rounded to the nearest 10. Zeros are shown as zeros. All remaining breakdowns have been rounded to the nearest 5. Suppression of small numbers is reflected in the associated percentages. See Technical Note for further detail.
  - "." means that there are no pupils in the cohort.
  - "-" means the percentage is less than 0.5% but greater than 0%.

Percentage going to a sustained employment and/or training

Percentage not recorded in the

Percentage going to a sustained<sup>4</sup> education destination

<sup>1-20.</sup> See separate KS5 footnotes sheet.

#### KS5 Footnotes

- 1. These are students who are mostly academic age 17. There is also a small number of students of academic age 16 and 18 in the cohort.
- 2. This includes all level 3 qualifications ie. general or applied A levels, AS examinations or other level 3 qualifications.
- 3. Number of students in the 2009/10 KS5 cohort.
- 4. Sustained for the first two terms. October to March.
- 5. Includes students who have been in a sustained education, a sustained employment/training or a sustained education/employment/training combination destination for the first two terms, October to March.
- 6. Individual lines may not add up to totals as there is a small number of students who were identified in more than one destination.
- 7. Other Further Education Providers includes students undertaking Further Education provision at a Higher Education Institution.
- 8. All Apprenticeships and Other Work Based Learning are also reported in the Further Education College, Other Further Education Provider, School Sixth Form and Sixth Form College lines.

  Apprenticeships and Other Work Based Learning are identified where any qualifying learning has occurred at any time during the October to March participation period.
- 9. Top third of Higher Education Institutions (HEIs) as at 2010 includes the HEIs shown in the Technical Note. A list of Russell Group institutions is also in the Technical Note.
- 10. Other Higher Education Providers includes students undertaking Higher Education provision at a Further Education College.
- 11. Education combination destinations include students who fulfilled the October to March participation criteria but through more than one type of education destination.
- 12. Employment/Training destinations include all types of employment and training activity recorded in the NCCIS for the first two terms, October to March.
- 13. Employment with Training incorporates all work that has training included (level 2 NVQ or above).
- 14. Other Employment includes part time, temporary and full time work. Some full time work may contain training to level 1 NVQ.
- 15. Other Training includes all training recorded in the NCCIS data.
- 16. Education/Employment/Training combination means the student fulfilled the October to March participation criteria but through a combination of education and employment/training destinations.
- 17. 'Destination not sustained' means the student was recorded as having education or employment participation in the year September to August but did not have continuous participation from October to March. The student may have had a maximum of 2 months recorded NEET in the participation period October to March.
- 18. Destination not sustained/Recorded NEET means the student was recorded as having education or employment participation in the year September to August but did not have continuous participation from October to March. The student had between 3 and 6 months (inclusive) recorded NEET in the participation period October to March.

  OR
  - the student had no record of education, employment or training but was recorded as NEET at some point in the year September to August.
- 19. 'Activity not captured in data' means the young person was not found in an education, employment or a recorded NEET destination. Possible reasons for this could be that the young person was attending an independent college or school. a Scottish or Welsh college or school, they have left the country, are in custody or their whereabouts are not known.
- 20. This is an estimate of those who have been accepted through the UCAS system for entry into the following academic year (many of those taking a 'gap year' before entering Higher Education will be accepted through UCAS in this way). Not all such deferred acceptances will translate into entrants and young people may enter HE that year through other routes, including applying in another UCAS application cycle. These figures are modified where necessary to prevent disclosure of individually identifiable outcomes. Deferred acceptances are not reported as a distinct destination so could also be included in the 'Destination not sustained', 'Destination not sustained', Recorded NEET' and 'Activity not captured in data' reporting lines.
  - "x" means the data has been suppressed as the school or college has few er than 6 students in the cohort, or small numbers (1's and 2's) in the reporting lines. Results are not shown because of the risk of an individual student being identified. All totals have been rounded to the nearest 10. Zeros are shown as zeros. All remaining breakdowns have been rounded to the nearest 5. Suppression of small numbers is reflected in the associated percentages. See Technical Note for further detail.
  - Member of sixth-form centre/consortium
  - "." means that there are no pupils in the cohort
  - "-" means the percentage is less than 0.5% but greater than 0%.
  - "\*" means the data has been suppressed for all zeros. 1's and 2's applicable to deferred accepted HE offers (UCAS data) only. No other data has this form of suppression.
