The content for ancient languages GCSEs

Introduction

1. The GCSE subject content sets out the knowledge, understanding and skills common to all GCSE specifications in a given subject. Together with the assessment objectives it provides the framework within which awarding organisations create the detail of their specifications, so ensuring possibilities for progression to A level.

Subject aims and learning outcomes

2. GCSE specifications in ancient languages should provide a strong foundation in linguistic and cultural competence, enabling students to break the boundaries of time and space and access knowledge and understanding of the ancient world directly through reading and responding to its language and literature. They should prepare students to make informed decisions about further learning opportunities in school and higher education and career choices.

3. GCSE specifications in an ancient language should enable students to:

- develop and deploy their knowledge of vocabulary, morphology and syntax in order to read, understand and interpret the ancient language
- develop their knowledge and understanding of ancient literature, values and society through the study of original texts, adapted and abridged, as appropriate
- select, analyse and evaluate evidence to draw informed conclusions from the literature studied to:
 - demonstrate knowledge and understanding of the historical, literary and cultural context of a text and
 - identify and appreciate its literary form and impact on the reader
- develop and apply their critical, analytical and reflective skills to evaluate evidence from a range of sources

4. A GCSE in an ancient language should also encourage students to:

- develop insights into the relevance of an ancient language and of ancient literature and civilisation to our understanding of our modern world of diverse cultures
- deploy their knowledge and understanding of the ancient language to deepen their understanding of English and other languages
- relate their knowledge and understanding of the ancient world to other disciplines
- develop research and analytical skills which will empower them to become independent students and enquirers, equipping them for further study in arts, humanities and sciences.

Subject content

5. This content sets out the full range of content for GCSE specifications in ancient languages. Awarding organisations may, however, use any flexibility to increase depth, breadth or context within the specified topics or to consolidate teaching of the subject content.

6. The content of the GCSE specifications in ancient languages must fully reflect the aims and learning outcomes.

Prior learning

7. GCSE specifications in an ancient language should enable students without prior knowledge of its grammar and vocabulary to meet the requirements of the course.
