About this document

1. This document (highlighted in the figure below) is part of a suite of documents which sets out the regulatory requirements for awarding organisations offering GCE qualifications.

2. We have developed all our requirements for GCE qualifications with the intention that AS and A level qualifications should fulfil the purposes set out in the table below:

A levels	AS qualifications
<ul style="list-style-type: none"> □ define and assess achievement of the knowledge, skills and understanding which will be needed by students planning to progress to undergraduate study at a UK higher education establishment, particularly (although not only) in the same subject area; □ set out a robust and internationally comparable post-16 academic course of study to develop that knowledge, skills and understanding; □ permit UK universities to accurately identify the level of attainment of students; □ provide a basis for school and college accountability measures at age 18; and □ provide a benchmark of academic ability for employers. 	<ul style="list-style-type: none"> □ provide evidence of students' achievements in a robust and internationally comparable post-16 course of study that is a sub-set of A level content; □ enable students to broaden the range of subjects they study.

GCE AS and A Level subject content for art and design

Introduction

1. AS and A level subject content sets out the knowledge, understanding and skills common to all AS and A level specifications in art and design.

Aims and objectives

2. AS and A level specifications in art and design must encourage students to develop:
- intellectual, imaginative, creative and intuitive capabilities
 - investigative, analytical, experimental, practical, technical and expressive skills, aesthetic understanding and critical judgement
 - independence of mind in developing, refining and communicating their own ideas, their own intentions and their own personal outcomes
 - an interest in, enthusiasm for and enjoyment of art, craft and design
 - the experience of working with a broad range of media
 - an understanding of the interrelationships between art, craft and design processes and an awareness of the contexts in which they operate
 - knowledge and experience of real world contexts and, where appropriate, links to the creative industries
 - knowledge and understanding of art, craft, design and media and technologies in contemporary and past societies and cultures
 - an awareness of different roles, functions, audiences and consumers of art, craft and design

Subject content

3. AS and A level specifications in art and design must specify that the student engages in integrated critical, practical and theoretical study in art and design.

4. At A level, specifications must allow for greater depth of study than the AS specifications. This might be achieved by, for example:

- greater specialisation in a particular medium or process

- extended development of particular themes, ideas or issues
- further theoretical research and increased requirement to demonstrate understanding through integrated practical and written forms, and other means of communication
- more rigorous exploration of an interdisciplinary or multidisciplinary approach

5. Students may enter for more than one title as described in paragraphs 9 and 10.

Knowledge, understanding and skills

6. AS and A level specifications must require students to develop practical and theoretical knowledge and understanding of:

- relevant materials, processes, technologies and resources
- how ideas, feelings and meanings can be conveyed and interpreted in images and artefacts
- how images and artefacts relate to the time and place in which they were made and to their social and cultural contexts
- continuity and change in different genres, styles and traditions
- a working vocabulary and specialist terminology

7. AS and A level specifications must require students to develop the skills to:

- record experiences and observations, in a variety of ways using drawing or other appropriate visual forms; undertake research; and gather, select and organise visual and other appropriate information
- explore relevant resources; analyse, discuss and evaluate images, objects and artefacts; and make and record independent judgements
- use knowledge and understanding of the work of others to develop and extend thinking and inform own work
- generate and explore potential lines of enquiry using appropriate media and techniques
- apply knowledge and understanding in making images and artefacts; review and modify work; and plan and develop ideas in the light of their own and others' evaluations
- organise, select and communicate ideas, solutions and responses, and present them in a range of visual, tactile and/or sensory forms

8. Students can work entirely in digital media or entirely in non-digital media, or in a mixture of both, provided the aims and assessment objectives are met.

Titles

9. All art and design specifications must offer a broad-based course in:

- Art, craft and design: Exploring practical and critical/contextual work through a range of 2D and/or 3D processes and media

10. All art and design specifications may also offer one or more of the endorsed titles listed below.

- Art and design (fine art): for example painting, drawing, mixed-media sculpture, ceramics, installation, printmaking and photography
- Art and design (critical and contextual studies): for example areas of study across art, craft and design
- Art and design (textile design): for example fashion, printed and/or dyed fabrics, constructed textiles and installed textiles and digital textiles
- Art and design (graphic communication): for example illustration, web and app design, advertising, packaging, design for print, multimedia, animation and game design.
- Art and design (three-dimensional design): for example jewellery, body ornament, ceramics, theatre design, exhibition design, film-set design, interior design, product and/or environmental design, architectural design and 3D digital design
- Art and design (photography): for example portraiture, landscape photography, still life, documentary, photojournalism, fashion photography, experimental imagery, photographic installation and moving image (video, film, animation)
