

Progress is about the young person's capability rather than eligibility. When ready, a YP should progress to the next level rather than progress sideways with more engagement, according to their needs. (Some may require more engagement whereas others may be ready for L1 or L2 programmes of study or Traineeships after just a bit of engagement).

A YP can therefore engage with other programmes at the same time as TM, but providers are urged to consider the potential for duplication of services. Local Employment Partnership (LEP) area strategies will set out how the YEI will be used to tackle youth unemployment in their areas alongside existing Government provision. The YEI could be used to build on and enhance existing provision, or develop new innovative programmes.
