Technical completion notes for local authorities and schools

Post-16 collection – September 2014

Version 1.0

Audience

Headteachers of maintained secondary or middle schools, which will have Year 12 and/or Year 13 or higher pupils in 2013/14; local authorities; software suppliers.

Status

Technical completion notes

Date of issue

June 2014

Further information

These completion notes and further general post-16 collection information can be accessed from the Welsh Government's website at

www.wales.gov.uk/topics/educationandskills/schoolshome/schooldata/ims/datacollections/pupillevelannualschoolcensus/?lang=en

If an answer to your query cannot be found on the website then please contact:

Annex C: Post-16 PLASC providers in alphabetic order	67
Annex D: Post-16 PLASC providers in LA order	70
Annex E: Other learning providers	73

Overview

These notes are for use by maintained secondary schools, middle schools, and local authorities in completing the Post-16 Collection in September 2014. The reason for issuing these notes is so that schools and LAs are aware of the data items required by the Post-16 Collection, and to assist schools in providing those data items to common definitions.

This collection in September 2014 is asking for data concerning the learning which pupils undertook during the previous Academic Year from 1st September 2013 to 31st July 2014. This is different from previous September returns which were only able to collect the data about learning started during that month.

Only maintained secondary and middle schools with pupils in Year 12, 13 and/or 14 at any point during the previous academic year are required to complete the Post-16 Collection in September 2014. Special schools, independent schools, as well as maintained secondary schools with no Year 12, 13 or 14 pupils are **not** required to complete the Post-16 Collection.

Schools should work to the following timetable to ensure a return clean of all errors and as accurate as possible is with the WG by Monday 20 October 2014. After this date no more data submissions will be admissible.

Again unlike previous years DfES will not be reporting back to schools the data received. This will simplify the timetable below.

Timetable	
Date	Action
Tues 23 September 2014	DEWi opens for Post-16 Collection Data
LA defined	Return to LA
Monday 20 October 2014	Data Freeze

Following the Minister's decision to set aside the National Planning and Funding System (NPFS) and review the post-16 funding methodology, DfES have been considering the data collection requirements for school sixth forms.

In setting aside the NPFS for the three year period 2011-12 to 2013-14, DfES recognised that Post-16 Collection data will not be required to inform funding allocations for this period. However, the submission of timely and accurate data will be essential in order to review the NPFS and to inform allocations from 2014-15.

The 2014 collection will be the first which will collect data from the previous year. This decision follows discussions with key stakeholders, including the Association of Directors of Education Wales (ADEW) Finance Group, and the Software Development Forum who are supportive of the changes being proposed.

The structure of this document is that sections 1 to 3 provide introductory information on what is required in the Post-16 Collection return. Sections 4 to 6 and the Appendix describe each required item in detail, providing information where appropriate on:

- the nature of the data to be returned;
- the valid codes/categories to be used;
- why the data is required; and
- background information detailing any special caveats or situations that apply.

Sections 7 to 10 provide additional information on data scrutiny, validation and the timetable and procedure for submitting the return.

Major Changes from last year

- **Dates rolled forward (by a year)**
- **Collection covers learning which pupils undertook during the previous Academic Year**
- **Guided contact hours and learning hours will no longer be collected for the Post-16 Collection**
- **PLEASE NOTE: There are validation rules in place in the Post-16 Collection since 2012/13 that will result in a query for pupils without a valid ULN. Therefore, please ensure all ULN files are downloaded and exceptions dealt with prior to the Post-16 Collection.**

1. Introduction

- 1.1 Although the Post-16 Collection data is not required to inform funding allocations for this period, the submission of timely and accurate data will be essential in order to inform allocations from 2014-15.
- 1.2 Current arrangements for measuring performance in sixth forms and in further education/work-based learning are entirely separate. Having two separate regimes makes it impossible to measure and benchmark outcomes across the post-16 sector. The Review of Qualifications for 14 to 19-year-olds recommended the development of consistent performance measures for post-16 learning.
- 1.3 In order to meet this recommendation, the Collection data will be used to measure completion (what proportion of those who started their course completed it).
- 1.4 Analysis of the individual pupil and learning activity records from the Post-16 Collection, in conjunction with pupils' examination results, will provide schools, LAs and central agencies with a far greater range of information than was previously available.
- 1.5 This information will principally be used to support the more accurate targeting of funding, and the monitoring and development of policies. Under the National Planning and Funding System (NPFS) the Post-16 Collection data will be used to inform funding allocations. These allocations will be based on the relevant pupil and learning activity data, thus it is vital that the returns are completed on time and checked for accuracy.
- 1.6 The Post-16 Collection differs from the January all school PLASC in three ways:
- it is only collecting data relating to Year 12, 13 and 14+ pupils (whatever their age);
 - it includes data about all activities followed by any of these pupil during the **previous** academic year; and
 - the data required is at a learning activity (i.e. course) level and not only at the pupil level.
- 1.7 Much of the individual pupil and learning activity records for the Post-16 Collection will be generated automatically by your management information software and parts of them may not be editable manually. ***It is essential therefore that all relevant pupil data, and where appropriate all relevant class data, is entered into your system before the Post-16 Collection return is created.***
- 1.8 Once your Post-16 Collection return is generated it is essential that it be carefully checked before submission. Your MIS software should carry out an extensive set of validation checks on the Post-16 Collection return, and produce reports of errors and queries. ***All errors need to be corrected and queries checked before forwarding the return to your LA.*** If the return contains significant errors when it reaches the WG, then it may need to be corrected and re-

submitted (see section 7).

1.9 The stages for producing your Post-16 Collection return are therefore:

- (a) ensure that all relevant pupil (and where appropriate class) data have been correctly entered into your management information system;
- (b) generate the Post-16 Collection return, amending and supplementing any pupil learning activity data, which may have been generated by your management information system, based on default class information;
- (c) check the return for accuracy, studying reports of errors and queries, and resolving where necessary; and
- (d) obtain head teacher's authorisation and send the return to your Local Authority via the DEWi system.

1.10 These completion notes should be read in conjunction with any software specific Post-16 Collection documentation.

2. Data entry and data checking

2.1 These completion notes provide a full list of all the pupil, learning activity and school data items that must be entered into your system and submitted in your Post-16 Collection return. Please note that the data field references in this document reflect the data values and tags as contained in the data file that your software prepares for transmission to your LA and the WG. Be aware that these values and tags may not always coincide with the way the software holds the data internally or presents it to you on screen.

2.2 Your software may contain a series of “data checks” which will help you to identify and correct errors and inconsistencies in your data prior to generating your Post-16 Collection return. Please go through this process carefully as it will substantially reduce the number of validation errors in your return and the subsequent work that you will need to do to resolve these.

2.3 However neither these data checks, nor the validation rules the software subsequently applies to the Post-16 Collection return, can establish whether or not you have entered all the pupil or course data that should have been entered - for example, that all learning activities for each pupil are in your system.

2.4 So, although the data checks are very important, you cannot assume that successful completion of them guarantees that all necessary data are present, and that your Post-16 Collection return will be correct. Nor does the absence of any validation errors or queries guarantee that. ***You must therefore ensure that you have fully entered into your system all of the data items set out in this document.*** To assist you in ensuring complete data capture your software should have the facility to provide summary tables and/or reports. It is important that you use these tables and/or reports to verify that the data you are submitting is accurate.

2.5 **IMPORTANT NOTE:** Unless otherwise stated, all data items described in the following sections are mandatory for the Post-16 Collection 2014.

2.6 Changes in this year’s Completion notes

- Activities list and list of learning providers in the annexes have been updated.

3. Summary of data fields to be returned in September post-16 collection

School data

Field Name	Field Length	Field Type	Sample Data
LA Number	3	Alphanumeric	660
School Number	4	Alphanumeric	4099
School Name	100	Alphanumeric	Anglesey Comprehensive School
Phase	2	Alphanumeric	SS

Field Name	Field Length	Field Type	Sample Data
Survey/Data Extraction Type	5	Alphanumeric	P16
Survey Reference Date	10	Date	2014-07-31
Person Completing Survey	2	Alphanumeric	SS
Survey Completion Time	3	Alphanumeric	101

Individual pupil data (on-roll)

Pupil Identifiers

Field Name	Field Length	Field Type	Sample Data
UPN (Unique Pupil Number)	13	Alphanumeric	Z123456789012
ULN (Unique Learner Number)	10	Alphanumeric	4674810417
Former UPN	13	Alphanumeric	A123456789012
Surname	40	Alphanumeric	Jones
Forename	40	Alphanumeric	Marc
Middle Name(s)	40	Alphanumeric	Iwan Owen
Date of Birth	10	Date	1999-03-31
Gender	1	Alphanumeric	M

Pupil Status

Field Name	Field Length	Field Type	Sample Data
Enrolment Status	1	Alphanumeric	C
Date of Entry to Current School	10	Date	2012-09-01
Part-time Indicator	1	True/False	False
Pupil NC Year Group	2	Alphanumeric	12
Pupil Postcode	8	Alphanumeric	CF14 5DZ

Individual pupil learning activity data

Field Name	Field Length	Field Type	Sample Data
Learning Activity Identifier	2	Alphanumeric	01
Learning Activity Reference	8	Alphanumeric	3210001E
Date Commenced Learning Activity	10	Date	2013-09-03
Expected End Date of Learning Activity	10	Date	2014-07-16
Actual End Date of Learning Activity	10	Date	2014-07-12
LLDD indicator	1	Alphanumeric	0
Learning Activity Delivered Through the Medium of Welsh	1	Alphanumeric	C
Provider Delivering Learning	8	Alphanumeric	S0000000
Completion Status	1	Alphanumeric	1

4. School information

4.1 The following **school identification and contact details** are required:

LA number	consisting of three digits in the range 660-681
School number	consisting of four digits, in the ranges 4000-4999, 5400-5499, 5500- 5599, 5900-5901 It is essential for both these codes to be correct and up to date. Any error (including the provision of an old value of either code) is likely to lead to the rejection of your return by the WG.
School name	Enter in full.

5. Individual pupil data

5.1 Individual pupil data is required for all pupils at maintained secondary and middle schools enrolled in year groups 12, 13 or 14+ who were on the register during the year 01-09-2013 to 31-07-2014

5.2 ***Unless specifically stated as being optional, missing values (i.e. blanks) are not allowed for any data item, and, if present, will cause a validation failure.*** Where possible, “block-entry” or “flood-fill” facilities have been provided within your school management information system software. Please check the software specific documentation provided by your supplier, to see how to use this facility when completing the Post-16 Collection.

5.3 The code values shown in this section reflect the values contained in the data file that your software prepares for transmission to your LA and the WG. **Be aware that these values may not always coincide with the way the software holds the data internally or presents it to you on screen.**

How is pupil registration defined?

5.4 The registration of pupils is governed by the Education (Pupil Registration) Regulations 1995. Regulation 6 specifies the information that a school’s admission register should contain, and Regulation 9 the circumstances under which a pupil can be removed from the register.

5.5 Information should be provided only for pupils on the school’s admission register (in accordance with Regulation 6 of the Education (Pupil Registration) Regulations 1995) at any stage during the previous academic year (i.e. between 1 September 2013 and 31 July 2014).

5.6 Where a pupil is taught in some learning activities by another school or organisation, data about the learning should only be recorded by the school the pupil is registered at.

5.7 Pupils who are pupils dually registered with a special school or Pupil Referral Unit should be included in your return.

5.8 If a pupil transferred to or from another school during the academic year, each school should supply data for the period the pupil attended their school. If one of the schools is not required to submit a Post-16 Collection (e.g. Independent or outside Wales) this would not be possible, but the other school will still need to make a return for the time the pupil attended.

What pupil information is required?

5.9 For each pupil the information to be provided is:

Unique pupil number (UPN)

Must be a valid 13 character UPN. The software will check that no two (or more) pupils have the same UPN. Such errors must be resolved before the return

is submitted. If they are still present when the return is passed to the WG then it will be rejected.

Unique Learner Number Must be a valid ten digit number with zero not allowed as the first character. ULNs can only be obtained from the Learning Records Service Learner Register. Further information and guidance on ULNs can be found at:
<http://wales.gov.uk/topics/educationandskills/schoolshome/schooldata/ims/learnerregistration/?jsessionid=Njm3NTnRThJLz3JpDW811VtQr1jKnFJp7GghcPcVs3GgTh1cYhy3!-1726265782?lang=en>.

Former UPN Where the pupil has held another UPN **while at your school** (for example where a temporary UPN was allocated when the pupil was first admitted but this was subsequently replaced by a permanent UPN retrieved from a previous school). If no such former UPN exists, this field should be left blank.

Surname Full surname, as the school believes it to be.

Forename In full, not shortened or familiar versions.

Middle name(s) In full, not shortened or familiar versions. If the pupil has no middle name(s) then this field should be left blank. If the pupil has more than one middle name they should be separated by a single space, no other punctuation is necessary.

Date of birth In the format ccyy-mm-dd.

Gender **M** (male) or **F** (female).

Enrolment status The enrolment status of the pupil. Valid values are:

- C** Current (single registration)
- M** Current main (dual registration)
- G** Guest pupil

Ideally guest pupils should be excluded from your Post-16 Collection return since their details will be returned by the school at which they are registered. However if you have entered them into your management information system, it may be impossible for the software to omit them when it compiles the return. If that is the case then guest pupils need to be identified so they can be excluded when the data are analysed.

Date of entry to current school In the format ccyy-mm-dd. Must be a date before the end of the year for which data is being collected (i.e. before 2014-07-31).

Part-time Indicator **True or False**

Indicates whether a pupil is part-time or not.

National Curriculum year group

The year group in which the pupil *is taught* for the majority of their time, regardless of their chronological age.

The following values will apply:

- 12** year group 12;
- 13** year group 13;
- 14** beyond year group 13.

Home postcode

Please check that the postcode is accurate and the information provided is compatible with one of the valid postcode formats, which are:

- An nAA
- AAn nAA
- AnA nAA
- Ann nAA
- AAAn nAA
- AAnn nAA

Where 'A' denotes an upper case letter and 'n' a number from 0 to 9. Common mistakes when recording postcodes are to confuse letters with similar looking numbers (e.g. letter 'O' with number zero), to omit the central space, or include a trailing full stop. Any of these will cause the postcode to be rejected as invalid.

Your software should convert any 'O' at the start of the second postcode block to a 0 (zero), and to convert double spaces between postcode blocks to single spaces.

6. Individual pupil learning activity data

6.1 Each pupil entered on the Post-16 Collection (see section 5) will be engaged in one or more learning activities. Each learning activity on which a pupil was “enrolled” during the academic year is required to be included.

(Please refer to Annex A for a complete list of learning activity references).

6.2 As for the pupil level data described in section 5, ***unless specifically stated as being optional, missing values (i.e. blanks) are not allowed for any data item, and, if present, will cause a validation failure.*** Where possible, “block entry” or “flood fill” facilities have been provided within your school management information system software. Please check the software specific documentation provided by your supplier, to see how to use this facility when completing the Post-16 Collection.

6.3 The code values shown in this section reflect the values contained in the data file that your software prepares for transmission to your LA and the WG. **Be aware that these values may not always coincide with the way the software holds the data internally or presents it to you on screen.**

How is a learning activity defined?

6.4 A learning activity is defined as the course or programme of learning, which a pupil engages in with the aim of achieving a particular qualification, or unit of a qualification. For instance, if a pupil is enrolled in three classes, one designed to teach AS level French, another to teach AS level Mathematics and the third to teach GCSE Geology; then that pupil will have three learning activities in AS French, AS Mathematics and GCSE Geology respectively.

6.5 **Learning activities should only be recorded for learning which is intended to lead to an externally validated qualification. Physical Exercise (P.E.) lessons and Personal & Social Education (P.S.E.) lessons, for instance, should not be returned as learning activities (unless the lessons are designed to lead to assessment which is externally validated by an awarding body). It is important that only valid learning activities are returned and so if there is any doubt about whether a particular learning activity should be returned then please contact DfES Quality and Effectiveness Policy Branch (contact details are on page 3).**

6.6 We have removed the requirement to submit the Welsh Baccalaureate indicator. Schools delivering the Welsh Baccalaureate should record the core element of the Welsh Baccalaureate as a separate learning activity, 4900010E (Code listed amongst “other” codes).

6.7 Learning activity information will, where possible, be automatically extracted from your management information system. It is recognised that there will be some situations where class information has not been input for a pupil or where a pupil was attending a class but not aiming to achieve the qualification for which the

majority of the class were studying towards, but aiming to achieve a different qualification. For example, a pupil studying for a GNVQ but attending a class where most pupils were studying towards an AS level. In these situations, the Post-16 Collection return must be manually amended or supplemented after your software has automatically generated the initial compilation of your return.

6.8 If a school is delivering a learning activity for which no appropriate learning activity reference is available (see Annex A for full list), then the school must contact Quality and Effectiveness Branch for guidance on how to code the learning activity. This is to ensure that all learning activities can be identified and funding can be appropriately allocated. Therefore if a reference can not be found for a particular learning activity then please contact **Quality and Effectiveness Branch** for guidance (see contact details on page 3).

6.9 In addition, if it is necessary to use an “other” learning activity reference code to record a learning activity (e.g. 3539999E – other intermediate GNVQ (Part 1) subject) then you must e-mail post16.plasc@wales.gsi.gov.uk with details of the learning activity being delivered so as to ensure that funding is appropriately allocated. If you do not receive a reply confirming receipt of this email within 7 days please contact Quality and Effectiveness Branch again.

6.10 The additional information gained will also be used to ensure future learning activity reference lists are updated to include all learning that schools are delivering. A number of “Other” codes are provided in order to simplify the recognition of these codes.

6.11 For each learning activity being undertaken by a pupil the information to be provided is:

Learning Activity Identifier

Numeric code to easily identify each learning activity being undertaken by a pupil. Every learning activity taken by a pupil should have a different number starting with ‘01’ then incrementing by 1 for each additional learning activity.

Valid values are:

01, 02, 03.... up to 99

This numeric code should be automatically generated and you will not need to enter the information. Please check the software specific documentation provided by your supplier for further guidance.

Learning Activity Reference

Each learning activity is required to have a learning activity reference, which identifies the subject, qualification type and qualification level of the learning activity.

A full list of valid codes and the learning activities to which they refer can be found in Annex A.

	<p>The Quality and Effectiveness Branch should be notified of any learning activities for which no reference is available (see paragraph 6.9).</p>
<p>Date Commenced Learning Activity</p>	<p>In the format ccyy-mm-dd. Date entered should be that when the pupil first attended classes aimed at delivering the stated learning activity.</p> <p>It is anticipated that the majority of pupils will be engaged in one year or two year learning activities. In these cases if a precise commencement date is not known then a default of 2013-09-01 may be input for one or two-year learning activities commencing in the 2013/14 academic year, and a default of 2012-09-01 for two year learning activities commencing in the previous academic year.</p> <p>However, it is expected that schools, where possible, will provide actual commencement dates and not default values.</p>
<p>Expected End Date of Learning Activity</p>	<p>In the format ccyy-mm-dd. Date entered should be that when the pupil is expected to complete the classes aimed at delivering the stated learning activity. The date should be that when teaching is expected to be completed and not the date on which the pupil is expected to sit the exam.</p> <p>It is anticipated that the majority of pupils will be engaged in one year or two year learning activities. In these cases if a precise expected end date is not known then a default of 2014-07-31 may be input for one-year learning activities commencing in the 2013/14 academic year or two year learning activities commencing in the previous academic year. A default of 2015-07-31 should be used for two-year learning activities commencing in the 2013/14 academic year.</p> <p>However, it is expected that schools, where possible, will provide actual expected end dates and not default values.</p>
<p>LLDD Indicator</p>	<p>Learners with Learning Difficulties and/or Disabilities (LLDD) who are on discrete learning activities or mainstream learning activities. Valid values are:</p> <p>0 not LLDD 1 LLDD enrolled on discrete learning activity 2 LLDD enrolled on mainstream learning activity</p> <p>Code 1 should only be used where the learning activity relates to a pupil with a learning difficulty and/or disability who is accessing a learning environment where the pupils on the same learning activity also have learning difficulties and/or disabilities.</p>

Code 2 should be used where the learning activity relates to a pupil with a learning difficulty and/or disability who is accessing a learning environment where the majority of pupils on the same learning activity do not have learning difficulties and/or disabilities.

Learning Activity delivered through the Medium of Welsh

Whether a learning activity is delivered through the medium of Welsh, English or Bilingually. Valid values are:

E learning activity only delivered through English

C learning activity only delivered through Welsh

P learning activity delivered bilingually – formal bilingual model

R learning activity delivered through separate language groups in same class

E should only be used if all aspects of learning are through the medium of English.

C should be used if learning is solely through the medium of Welsh including written, oral and group work, and assessment/examination. There may be occasional and tightly controlled use of English terminology and key phrases to reinforce learning.

P should be used if both English and Welsh in a class are used alternatively in a planned manner for different modules or component parts of a module with the language being used entirely for that component irrespective of whether the work is written, oral, group work or assessment. Students are taught as a class with no separate language groups.

R should be used if separate English and Welsh language groups are taught in the same class simultaneously. The Welsh language group may use Welsh amongst its members and the teacher/tutor (if that person is bilingual) for the whole class discussion. Assessment is either language.

Provider Delivering Learning

In most cases it is anticipated that the learning activity will be taught by the school at which the pupil is registered (and therefore the school which is making the Post-16 Collection return). If this is the case then your software should complete the field with the default value of **S0000000**. This code identifies the home school as the one providing the tuition. **It is not necessary or helpful to enter the school's own code in this field.**

Where a learning activity is delivered through a partnership/ franchise or sub-contracted arrangement

with another school or college then a code relating to that school or college should be completed in this field.

Where a pupil is taught by another organisation:

The school registering the pupil will show the pupil's Enrolment Status as M - 'Main' and will supply data about the Learning Activities which they deliver internally with the code S0000000. They should also supply data about the Activities delivered by the other school showing that school's code.

A full list of valid codes and the schools/providers to which they refer can be found in Annex B, C and D. Please only use the codes beginning with "Z" if there is no other appropriate code in the lists.

If a pupil is undertaking a learning activity at a provider for which there is no code given then the school should contact the **Quality and Effectiveness Branch** (contact details on page 3) with details regarding the provider delivering the learning and will be advised on how to code the provider appropriately.

Actual End Date

Actual end date of learning activity in format ccyy-mm-dd.

If **Completion Status** is 1 then the actual end date should be set to:

9999-12-31 This would be expected when the pupil completed the first year of a two year course in the academic year

Where a pupil has left (i.e. **Completion Status** of 2, 3, 4) then the actual end date for the learning activity should be entered.

Completion Status

Completion status at end of learning activity:

1 – continuing the learning activity (the default)

2 – completed the learning activity

3 – withdrawn from the learning activity

4 – transferred to a new learning activity

7. Validation and error correction

7.1 Your software will provide a detailed report of validation errors and queries in your return. An **“error”** is the presence of an illegal character or value in a data item, or a logical inconsistency between data items or between different aspects of the return. An error reflects some inaccuracy in or omission from the return.

7.2 **“Queries”** are of two kinds:

- they may relate to an unusual feature of the data (for example that a pupil in year group 12 is less than 15 years of age), which suggests, but does not prove, the presence of some inaccuracy or omission; or
- they may be used as a prompt in areas where there seems a particularly high risk of errors occurring – pupil learning activities, for example. Some schools may have pupils following more than 6 activities of the same type, but these are exceptions and the software will query such cases.

7.3 Queries of either kind need to be investigated to establish whether or not there is an inaccuracy or omission, although the conclusion may be that the data are in fact correct.

7.4 It is essential for you to resolve all errors **before submitting the return** to your LA. It is also essential to investigate all queries, and to amend the data where it transpires that they are incorrect. **On arrival at the WG, returns which contain significant errors will be rejected and will have to be re-submitted.** The school will be required to amend the errors and upload the revised return file through DEWi, the online, secure data transfer system. **Returns will not be edited by WG after being submitted via DEWi.**

8. Sending the return to your LA

8.1 Once the return has been authorised by the head teacher it should be sent to your LA. The mechanics of the transmission process will vary from one authority to another, so please contact your LA for details.

8.2 *Returns will not be edited by WG after being submitted via DEWi.*

<u>Timetable</u>	
Date	Action
Tues 23 September 2014	DEWi opens for Post-16 Collection Data
LA defined	Return to LA
Monday 20 October 2014	Data Freeze

9. Further information

9.1 If you need further advice on the completion of any part of your Post-16 Collection return, please contact your LA in the first instance.

9.2 If there are questions which cannot be resolved in this way then you should contact the Quality & Effectiveness Policy **Branch**. Contact details can be found on page 3 of this document.

Annex A: Detailed completion notes by data field

The purpose of this Appendix is to provide full information on each Post-16 Collection data field in an easily digestible format. This is not intended to replace the information in Sections 4, 5 and 6 but is to complement the important information provided in those Sections, and to assist users of these completion notes when looking quickly for information about a specific field.

In this Appendix, each field specified in the September 2014 Post-16 Collection is listed on a separate page with the details regarding that field provided in a standard format. An explanation of what is included in each part of the field template is given below.

Format for Data Fields in Appendix

Data set	Name of dataset [School, Pupil or Learning Activity]	Field length	Length of field in terms of the number of characters
Field name	Name of field as used in XML file submitted to WAG by your software	Field type	Type of field [Alphanumeric, Numeric or Date]
CBDS Number	Code of field as defined in the Common Basic Data Set (CBDS)	Mandatory for	Which learners is the field required to be completed for [in the September 2014 return all fields are required for all learners]
Description	Description of the data required		
Reason required	Information on why this data is required and how it will be used		
Valid entries	List of values, and their descriptions, which may be returned within the data field. Note: these are the values required within the file submitted by your software system and they may differ to the way that the data is presented to you by your software.		
Notes	Any miscellaneous notes, as well as an example of valid data which may be returned in the field.		

LA Number

Data set	School	Field length	3
Field name	LA	Field type	Alphanumeric
CBDS Number	S1	Mandatory for	All learners

Description	LA Number
Reason required	To identify the local authority with which the returning school is associated.
Valid entries	Consisting of three digits in the range 660-681 660 – Anglesey 661 – Gwynedd 662 – Conwy 663 – Denbighshire 664 – Flintshire 665 – Wrexham 666 – Powys 667 – Ceredigion 668 – Pembrokeshire 669 – Carmarthenshire 670 – Swansea 671 – Neath Port Talbot 672 – Bridgend 673 – Vale of Glamorgan 674 – Rhondda Cynon Taff 675 – Merthyr Tydfil 676 – Caerphilly 677 – Blaenau Gwent 678 – Torfaen 679 – Monmouthshire 680 – Newport 681 – Cardiff

Notes	Sample Data: 660
-------	------------------

School Number

Data set	School	Field length	4
Field name	Estab	Field type	Alphanumeric
CBDS Number	S2	Mandatory for	All learners

Description School Number

Reason required To identify the returning school

Valid entries Consisting of four digits, in the ranges:

4000-4999	Secondary schools
5400-5499	Secondary schools
5500-5599	Middle schools
5900-5901	Secondary/Middle schools

Notes Sample Data: 4099

School Name

Data set	School	Field length	100
Field name	Name	Field type	Alphanumeric
CBDS Number	S5	Mandatory for	All learners

Description	School Name
Reason required	To identify the correct school name for the returning school so as to maintain up-to-date records.
Valid entries	The full name of the school

Notes	Sample Data: Anglesey Comprehensive School
-------	--

Unique Pupil Number

Data set	Pupil	Field length	13
Field name	UPN	Field type	Alphanumeric
CBDS Number	P1	Mandatory for	All learners

Description	Unique Pupil Number
Reason required	To uniquely identify each pupil
Valid entries	In format ALLLnnnnnnnnB A - are valid alphabetic characters LLL - valid LA code nnnnnnnn - numeric B - numeric or A-Z omitting I, O and S

Notes	<p>Must be a valid 13 character UPN. The software will check that no two (or more) pupils have the same UPN. Such errors must be resolved before the return is submitted. If they are still present when the return is passed to the WG then it will be rejected.</p> <p>If you have any queries regarding UPNs please discuss these with the WG (see contact details on page 3).</p> <p>Sample Data: C68012345678A</p>
-------	---

Unique Learner Number

Data set	Pupil	Field length	10
Field name	UPN	Field type	Alphanumeric
CBDS Number		Mandatory for	All learners where an ULN has been issued

Description	Unique Learner Number
Reason required	To uniquely identify each learner
Valid entries	In format nnnnnnnnnn nnnnnnnn - numeric

Notes	Must be a valid 10 character ULN. This data will be supplied by LRS see notes in annex E If you have any queries regarding ULNs please discuss these with the WG (see contact details on page 3). Sample Data 4674810417
-------	--

Former UPN

Data set	Pupil	Field length	13
Field name	FormerUPN	Field type	Alphanumeric
CBDS Number	P2	Mandatory for	

Description	Former UPN
Reason required	To identify pupils whose UPN has changed
Valid entries	Blank if no former UPN. Former UPNs should be recorded in the format ALLLnnnnnnnnB A - are valid alphabetic characters LLL - valid LA code nnnnnnnn - numeric B - numeric or A-Z omitting I, O and S

Notes	Where the pupil has held another UPN while at your school (for example where a temporary UPN was allocated when the pupil was first admitted but this was subsequently replaced by a permanent UPN retrieved from a previous school). If no such former UPN exists, this field should be left blank. Sample Data: C68012345678A
-------	---

Surname

Data set	Pupil	Field length	35
Field name	Surname	Field type	Alphanumeric
CBDS Number	P3	Mandatory for	All learners

Description	Surname
Reason required	To identify the pupil name
Valid entries	Any surname

Notes	Full surname, as the school believes it to be. Sample Data: Jones
-------	--

Forename

Data set	Pupil	Field length	35
Field name	Forename	Field type	Alphanumeric
CBDS Number	P4	Mandatory for	All learners

Description	Forename
Reason required	To identify the pupil name
Valid entries	Any forename

Notes	In full, not shortened or familiar versions. Sample Data: Marc
-------	---

Middle Name(s)

Data set	Pupil	Field length	35
Field name	MiddleNames	Field type	Alphanumeric
CBDS Number	P6	Mandatory for	

Description	Middle Name(s)
Reason required	To identify the pupil name
Valid entries	Blank or any middle names

Notes In full, not shortened or familiar versions. If the pupil has no middle name(s) then this field should be left blank. If the pupil has more than one middle name they should be separated by a single space, no other punctuation is necessary.

Sample Data: Iwan Owen

Date of Birth

Data set	Pupil	Field length	10
Field name	DOB	Field type	Date
CBDS Number	P7	Mandatory for	All learners

Description	Date of Birth
Reason required	To identify the age of the pupil. The age is used in a range of analysis
Valid entries	Valid date in the format ccyy-mm-dd.

Notes	Sample Data: 1999-03-31
-------	-------------------------

Gender

Data set	Pupil	Field length	1
Field name	Gender	Field type	Alphanumeric
CBDS Number	P8	Mandatory for	All learners

Description	Gender
Reason required	To identify the pupil gender
Valid entries	M (male) or F (female).

Notes	Sample Data: M
-------	----------------

National Curriculum Year Group

Data set	Pupil	Field length	2
Field name	NCYearActual	Field type	Alphanumeric
CBDS Number	P45	Mandatory for	All learners

Description	National Curriculum Year Group
Reason required	To identify the year group of the pupil so as to monitor complete cohorts of learners.
Valid entries	<p>The year group in which the pupil <i>is taught</i> for the majority of their time, regardless of their chronological age.</p> <p>The following values will apply:</p> <ul style="list-style-type: none">12 year group 12;13 year group 13;14 beyond year group 13.

Notes	Sample Data: 12
-------	-----------------

Date of Entry to Current School

Data set	Pupil	Field length	10
Field name	EntryDate	Field type	Date
CBDS Number	P37	Mandatory for	All learners

Description	Date of Entry to Current School
Reason required	To identify pupil enrolment dates and facilitate tracking of individuals
Valid entries	Valid date in the format ccyy-mm-dd.

Notes	Must be a date on or before the end of the relevant academic year 2014-07-31. Sample Data: 2012-09-01
-------	--

Enrolment Status

Data set	Pupil	Field length	1
Field name	EnrolStatus	Field type	Alphanumeric
CBDS Number	P34	Mandatory for	All learners

Description Enrolment Status

Reason required To differentiate between pupils registered at a school and guest pupils. For the purposes of funding Guest pupils will be excluded from calculations.

This field informs funding calculations. Only learners flagged as Current or Current main attract funding.

Valid entries The valid entries are :

- C** Current (single registration)
 - M** Current main (dual registration)
 - G** Guest pupil
-

Notes Ideally guest pupils should be excluded from your Post-16 Collection return since their details will be returned by the school at which they are registered. However if you have entered them into your management information system, it may be impossible for the software to omit them when it compiles the return. If that is the case then guest pupils need to be identified so they can be excluded when the data are analysed.

Sample Data: C

Postcode

Data set	Pupil	Field length	8
Field name	Postcode	Field type	Alphanumeric
CBDS Number	P81	Mandatory for	All learners

Description Postcode of domicile

Reason required The learner postcode is used for a wide variety of analysis

Valid entries Valid postcode formats are:

An nAA
AAn nAA
AnA nAA
Ann nAA
AAnA nAA
AAnn nAA

where 'A' denotes an upper case letter and 'n' a number from 0 to 9

Notes Common mistakes when recording postcodes are to confuse letters with similar looking numbers (e.g. letter 'O' with number zero), to omit the central space, or include a trailing full stop. Any of these will cause the postcode to be rejected as invalid.

Your software should convert any 'O' at the start of the second postcode block to a 0 (zero), and to convert double spaces between postcode blocks to single spaces.

Sample Data: CF14 5DZ

Learning Activity Identifier

Data set	LearningActivity	Field length	2
Field name	LearningActivityID	Field type	Alphanumeric
CBDS Number	P200	Mandatory for	All learners

Description	Learning Activity Identifier
Reason required	To identify uniquely each learning activity being undertaken by a pupil.
Valid entries	Valid values are: 01, 02, 03.... Up to 99

Notes	<p>Numeric code to easily identify each learning activity being undertaken by a pupil. Every learning activity taken by a pupil should have a different number starting with '01' then incrementing by 1 for each additional learning activity.</p> <p>This numeric code should be automatically generated by your MIS software and you will not need to enter the information. Please check the software specific documentation provided by your supplier for further guidance.</p> <p>Sample Data 01</p>
-------	---

Learning Activity Reference

Data set	LearningActivity	Field length	8
Field name	LearningActivity Reference	Field type	Alphanumeric
CBDS Number	P201	Mandatory for	All learners

Description	Learning Activity Reference
Reason required	<p>To identify the subject, qualification type and level of the learning activity being undertaken.</p> <p>This field informs funding calculations. Each Learning Activity Reference may attract a differing number of base CEUs., and hence a differing level of funding</p>
Valid entries	Refer to Annex A where full list is given
Notes	<p>Each learning activity is required to have a learning activity reference, which identifies the subject, qualification type and qualification level of the learning activity.</p> <p>A full list of valid codes and the learning activities to which they refer can be found in Annex A.</p> <p>A learning activity is defined as the course or programme of learning, which a pupil engages in with the aim of achieving a particular qualification, or unit of a qualification. For instance, if a pupil is enrolled in three classes, one designed to teach AS level French, another to teach AS level Mathematics and the third to teach GCSE Geology; then that pupil will have three learning activities in AS French, AS Mathematics and GCSE Geology respectively.</p> <p>Learning activities should only be recorded for learning which is intended to lead to an externally validated qualification.</p> <p>If a school needs to use one of the “other” codes then they should first contact Quality and Effectiveness Branch (contact details on page 3) to ensure that this is the only appropriate code to use and that the learning is a fundable learning activity and so should be recorded. The full list of “Other” codes can be found in Annex A</p> <p>For further details please refer to paragraphs 6.6 and 6.9.</p> <p>Sample Data: 3210001E</p>

Date Commenced Learning Activity

Data set	LearningActivity	Field length	10
	y		
Field name	LearningActivity StartDate	Field type	Date
CBDS Number	P202	Mandatory for	All learners

Description Date Commenced Learning Activity

Reason required To identify the start date of the learning activity and to be used with the end date to derive the duration of learning.
The start date, coupled with the expected end date, is used to inform the duration of learning. If a learning activity spans two academic years there would need to be a record in the following year's Post-16 Collection return to provide the remainder of the information.

Valid entries Valid date in the format ccy-mm-dd.

Notes Date entered should be that when the pupil first attended classes aimed at delivering the stated learning activity.

It is anticipated that the majority of pupils will be engaged in one year or two year learning activities. In these cases if a precise commencement date is not known then a default of 2013-09-01 may be input for one or two-year learning activities commencing in the 2013/14 academic year, and a default of 2012-09-01 for two year learning activities commencing in the previous academic year.

Where possible it is expected that schools will provide actual commencement dates and not default values.

Sample Data: 2013-09-10

Expected End Date of Learning Activity

Data set	LearningActivity	Field length	10
Field name	LearningActivity ExpectedEndDate	Field type	Date
CBDS Number	P203	Mandatory for	All learners

Description	Expected End Date of Learning Activity
Reason required	To identify the expected end date of a learning activity and so monitor early withdrawals or transfers. The start date, coupled with the expected end date, is used to inform the duration of learning. If a learning activity spans two academic years the funding is split accordingly over two years. The end of a two year course would need to be recorded in the following year's Post-16 Collection return to allow accurate calculation of performance.
Valid entries	In the format ccyy-mm-dd.

Notes	<p>In the format ccyy-mm-dd. Date entered should be that when the pupil is expected to complete the classes aimed at delivering the stated learning activity. The date should be that when teaching is expected to be completed and not the date on which the pupil is expected to sit the exam.</p> <p>It is anticipated that the majority of pupils will be engaged in one year or two year learning activities. In these cases if a precise expected end date is not known then a default of 2014-07-31 may be input for one-year learning activities commencing in the 2013/14 academic year or two year learning activities commencing in the previous academic year. A default of 2015-07-31 should be used for two-year learning activities commencing in the 2013/14 academic year.</p> <p>It is expected that schools, where possible, will provide actual expected end dates and not default values.</p> <p>Sample Data: 2014-07-06</p>
-------	--

Validation Rule(s)	4050	must be valid date format
	12582 Q	must be on or after 2013-09-20
	4070	must be later than LearningActivityStartDate

LLDD Indicator

Data set	LearningActivity	Field length	1
Field name	LLDDLearner	Field type	Alphanumeric
CBDS Number	P204	Mandatory for	All learners

Description LLDD Indicator

Reason required To monitor learners with learning difficulties and/or disabilities and whether they are learning in a discrete or mainstream environment.

This field may be used when calculating funding allocations.

Valid entries Learners with Learning Difficulties and /or Disabilities (LLDD) who are on discrete learning activities or mainstream learning activities. Valid values are:

- 0 not LLDD
 - 1 LLDD enrolled on discrete learning activity
 - 2 LLDD enrolled on mainstream learning activity
-

Notes Code 1 should only be used where the learning activity relates to a pupil with a learning difficulty and/or disability who is accessing a learning environment where the pupils on the same learning activity also have learning difficulties and/or disabilities.

Code 2 should be used where the learning activity relates to a pupil with a learning difficulty and/or disability who is accessing a learning environment where the majority of pupils on the same learning activity do not have learning difficulties and/or disabilities.

Sample Data: 0

Learning Activity Delivered Through the Medium of Welsh

Data set	LearningActivity	Field length	1
Field name	WelshMedium LearningActivity	Field type	Alphanumeric
CBDS Number	P205	Mandatory for	All learners

Description Learning Activity Delivered Through the Medium of Welsh

Reason required To monitor the medium of delivery of learning activities and if bilingually delivered the teaching model adopted.

This field informs funding calculations. Learning activities delivered through the medium of Welsh or Bilingually (Welsh Bilingual) may qualify for the Welsh Medium/Bilingual uplift (dependant on activity undertaken). Either of these uplifts attract a 25% uplift on the base or moderated CEU.

Valid entries Whether a learning activity is delivered through the medium of Welsh, English or Bilingually. Valid values are:

- E** learning activity only delivered through English
 - C** learning activity only delivered through Welsh
 - P** learning activity delivered bilingually – formal bilingual model
 - R** learning activity delivered through separate language groups in the same class
-

Notes **E** should only be used if all aspects of learning are through the medium of English.

C should be used if learning is solely through the medium of Welsh including written, oral and group work, and assessment/examination. There may be occasional and tightly controlled use of English terminology and key phrases to reinforce learning.

P should be used if both English and Welsh in a class are used alternately in a planned manner for different modules or component parts of a module with the language being used entirely for that component irrespective of whether the work is written, oral, group work or assessment. Students are taught as a class with no separate language groups.

R should be used if separate English and Welsh language groups are taught in the same class simultaneously. The Welsh language group may use Welsh amongst its members and the teacher/tutor (if that person is bilingual) for the whole class discussion. Assessment is either language.

Provider Delivering Learning

Data set	LearningActivity	Field length	8
Field name	LearningActivity Provider	Field type	Alphanumeric
CBDS Number	P206	Mandatory for	All learners

Description Provider Delivering Learning

Reason required To identify where learning is being delivered and so the extent of franchising/sub-contracting/partnership arrangements between schools and other learning providers.

Valid entries Please refer to Annex B, C or D for full list of valid codes

Notes In most cases it is anticipated that the learning activity will be taught by the school at which the pupil is registered (and therefore the school which is making the Post-16 Collection return). If this is the case then your software should complete the field with the default value of **S0000000**.

Where a learning activity is delivered through a partnership / franchise or sub-contracted arrangement with another school or college then a code relating to that school or college should be completed in this field.

Where a pupil is taught by another organisation the school registering the pupil will show the pupil's Enrolment Status as 'Main' and will supply data about the Learning Activities which they deliver and those by the other school.

A full list of valid codes and the schools/providers to which they refer can be found in Annex B, C and D.

If a pupil is undertaking a learning activity at a provider for which there is no code given then the school should contact Quality and Effectiveness Branch (contact details on page 3) with details regarding the provider delivering the learning and we will advise on how to code the provider appropriately.

Sample Data: S0000000

Actual End Date of Learning Activity

Data set	LearningActivity	Field length	10
Field name	LearningActivity EndDate	Field type	Date
CBDS Number	P210	Mandatory for	All learners

Description Actual End Date of Learning Activity

Reason required To identify the end date of the learning activity and to be used with the start date to derive the duration of learning.

This field informs funding allocations. Where this field is not completed with the default date in the September return this field replaces, and is used in the same manner as, the expected end date

Valid entries Valid date in format ccy-mm-dd.

If **Completion Status** is 1 then **actual end date** should be set to **9999-12-31**

Where a pupil has left (i.e **Completion Status** of 2, 3, 4) then actual leaving date should be entered.

Notes **In the September Post-16 Collection 2014 return it is expected that all two year learning activities will be continuing and so this field will be filled with the default of “9999-12-31: continuing the learning activity”, but it would be expected that one year learning activities will be completed and that they would usually have an end date in the summer term.**

Sample Data: 2014-07-29

Completion Status

Data set	LearningActivity	Field length	1
Field name	CompletionStatus	Field type	Alphanumeric
CBDS Number	P211	Mandatory for	All learners

Description Completion Status

Reason required To identify those learning activities for which pupils have successfully completed the required learning and those learning activities from which pupils have withdrawn or transferred.

Valid entries Completion status at end of learning activity:

- 1 – continuing the learning activity (the default)
 - 2 – completed the learning activity
 - 3 – withdrawn from the learning activity
 - 4 – transferred to a new learning activity
-

Notes **In the September Post-16 Collection 2014 return it is expected that two year learning activities will be continuing and so this field will be filled with the default of “1: continuing the learning activity”. It would be likely that one year learning activities will be completed.**

Sample Data: 1
