1. Introduction

1.1. Purpose of this document

This document provides preparation instructions and a guide for staff in children's services of local authorities (LAs) so that they:

- understand the rationale behind, and purpose of, the School Workforce (SWF) Census,
- are able to prepare for the school workforce census,
- are able to complete the school workforce census for centrally employed school workforce staff in autumn 2014.

It is envisaged that this document will be used as a handbook for entering data for centrally employed staff into LA HR/payroll systems throughout the year, rather than just as a guide for the collection itself.

A similar document has been produced for staff employed by schools ("school employed staff") which will enable schools or LAs, depending on how LAs are choosing to source the data, to make returns for these staff. In order to make a complete school workforce census return, LAs need to provide data for both school employed and centrally employed members of the school workforce. LAs will therefore need to refer to this second document which is also published on the department's website.

Advice for LAs on the submission and approval of data for both school employed and centrally employed staff is given in Section 2 of this document.

1.2. Main changes since school workforce census 2013

The most significant changes from last year's specification result from the School Teachers Pay and Conditions Document 2014 which removes nationally standardised pay spines and points. As a result the provision of 'Base Pay' has been made mandatory, except where daily rate is supplied instead.

Changes have also been made to the QTS route data field (see below).

Pupil Referral Units were treated unusually in the 2013 SWF as staff became the responsibility of the PRU part-way through the academic year. For 2014 PRU staff will be treated the same way as staff of other schools and so will not need to be included in a central return.

1.2.1 Pay

The School Teachers' Pay and Conditions Document (STPCD) 2014 removes national pay spines for leadership teachers, in line with the changes made previously for classroom teachers. Base Pay will therefore need to be reported for all centrally employed staff.

In the 2013 census schools and LAs were asked to record leading practitioners using the excellent teacher data field. For the 2014 census these teachers should be recorded as Leading Practitioners.

1.2.2 QTS route

The scope of the field 'QTS route' has been altered. Schools are now asked to fill this in for all staff who have taken up their first position since qualifying as a teacher.

In addition two new items have been added to the codeset; School Direct and School Direct (salaried). Schools were previously asked to use the Flexible Routes field to record this data item but can now record it under the correct category.

1.2.3 Post

Changes have been made to the post codeset, see section 4.2.5.

1.2.4 Validation rules

Several changes have been made to validation rules to improve the quality of data. The following are the main changes to validation rules for this year.

- New validation rule queries have been added to check that:
 - birth dates are not defaulting to 1 January (rule 4195)
 - salaries are above the minimum wage for apprentices and, for support staff, below the local government maximum (rules 4545 and 4565Q)
 - staff are not recorded as working more than 48 hours per week (rule 4745)
- The following validation rule errors have been changed:
 - the removal of the 'Advanced Skills Teacher' and 'Excellent Teacher' pay scales has led to the removal of one validation rule (4500) and changes to three others (4505 now checks that leading practitioners are paid on the appropriate pay scale, 4470 and 4480 check that QT Status and post are appropriate to the pay scale)
 - rule 4200 has been altered to make the minimum age for a member of staff 13. This more correctly reflects the legal position
 - rule 4310 has been altered to make provision of contract type mandatory whenever a contract
 - Rules 4540 and 4490 have been changed because of the new rules on pay, they now ensure that base pay is provided and that pay scale for leadership teachers is correct *if present*

- query 4995 has had its message changed to emphasise that working days lost must be supplied for sickness absences, but can be supplied for other absences
- rule 6520 has been removed and rule 6530 downgraded to a query. These rules checked that no staff had an FTE of greater than 1.5
- rule 7005 has been added to ensure that a vacancy post is provided for each vacancy

For details of validation rules please see the school workforce census [webpage](#).

1.2.6 Clarifications

This section contains a list of additions to the guidance for the purpose of clarification, ie where there is no substantive change in the collection from previous years but where improved guidance has been included in response to questions from data providers or to improve data quality.

Guidance has been added to ask that all contracts have pay and hours data (section 1.7)

The importance of timely submission of data has been re-emphasised (section 2.1)

Further instruction in the use of notes to clear queries has been added in section 2.7.1

Information on credibility checks has been added in section 2.7.3

Contracts with no hours data are discussed in sections 4.2 and 4.2.15

1.3. Rationale behind the school workforce census

The following factors constitute the rationale behind the school workforce census:

- consistency with departmental policy:
 - data should be collected once and used many times;
 - collection of data should be automatic;
 - data collected should be that which a well prepared LA or school uses themselves or be justified with a clear business case;
- it assumes that many of the data are already held in school MIS or LA HR/payroll systems ready for transfer during the collection period and so the need for data entry for the collection itself is kept to a minimum;
- given that the majority of the data collected on the workforce are those which a well managed school or LA uses themselves, the data should be updated by the school or LA as soon as it is aware of any change and hence the burden of collection by the department should not be high; and
- the majority of data collected are as defined in the Common Basic Data Set ([CBDS](#)).

The submission of the school workforce census return, including a set of individual staff records, is a statutory requirement on schools and LAs by virtue of regulations SI2007/1264 and amendment SI2009/2266 made under Sections 113 and 114 of the Education Act 2005. Putting the school workforce census on a statutory basis should:

- mean that although schools and LAs must meet their obligations to data subjects under the Data Protection Act, they do not need to obtain consent for the provision of information from individual members of the workforce (see Section 2.3 below);
- ensure that schools and LAs are protected from any legal challenge that they are breaching a duty of confidence to staff members; and
- help to ensure that returns are completed by schools and LAs.

1.4. Structure of the school workforce census

1.4.1 School workforce and LA levels

The school workforce census for centrally employed staff is divided into two levels – School Workforce and Local Authority. Each level comprises modules of data items that relate to a single theme or topic. The modules and the data items included in each module are listed in Section 3.

1.4.2 One collection a year

Data are collected in the school workforce census once a year, in the autumn.

1.4.3 Historical as well as snapshot data

Many of the data to be collected represent some characteristics of a member of staff at a point in time, eg their role, pay or qualified teacher status. Some historical items will also be collected, for example for staff who have left the LA during the previous academic year or been issued with a new contract. **For the purposes of the school workforce census, the academic year is defined as the period from 1 September to 31 August.**

It is anticipated that a new contract would be issued when promotions have taken place, eg a deputy head teacher was promoted to a head teacher, but not where a current contract is extended or changes have been made to the pay or hours worked. If local practices are different from this, then local practices should be followed.

Routines from LA systems may have been developed for the school workforce census to extract the relevant snapshot and historical data. To enable this, it is important that information is kept up to date on an on-going basis, for example that contract end dates have been entered for those staff members that have left the LA.

The collection of historical data over successive collections will enable a continuous picture of certain aspects of the school workforce to be built up. This will help inform policies and strategies around for example sickness absence, recruitment and retention.

1.4.4 Data supply

Data for centrally employed staff will need to be provided by LAs. The required data are likely to be held on human resources (HR) or payroll systems. LAs should check with the software providers of their system(s) what provision has been made in their systems to comply with the requirements of the school workforce census. Systems need to be able to hold the required data items and to be able to export them in the specified XML format.

Technical information on the format of the data required can be found in Annex D of the Technical Specification published on the department's [website](#).

1.5. Centrally employed staff to be included

The school workforce census covers full- and part-time **teachers, teaching assistants and other support staff** employed by the LA.

“**Teaching Assistants**” comprises those support staff based in the classroom for learning and pupil support, eg HLTAs, teaching assistants, special needs support staff, nursery officer/assistant, minority ethnic pupils support staff and bilingual assistants.

“**Other support staff**” comprises those support staff that are not classroom based, eg matrons / nurses / medical staff, librarians, IT technicians, technicians, administrative officers / secretaries, bursars and other administration/clerical staff, premises and catering staff. *For the purposes of the school workforce census please note that advisory teachers are categorised as ‘other support staff’.*

The flow diagram on page 12 should help LAs decide which centrally employed staff should be included in the school workforce census and the level of data required: individual or headcount. Further details about staff for whom school workforce (individual) and LA level (headcount) data are required are given in the following section.

1.6. Staff for whom school workforce level data is required

School workforce level data is required for all centrally employed teachers and advisory teachers, and for those centrally employed support staff that spend the majority of their time in schools. The majority of their time means they spend more than half the time they work, ie more than 50%, in schools. Only those in **regular service** should be included. Staff are said to be in regular service if they have completed service of 28 days or more with the LA or are expected to do so before the end of their contract.

Each contract should have base pay (or daily rate) and hours recorded. Contracts with neither recorded should be regarded as occasional employment and should be recorded in the school level module if the member of staff is present on census day.

Each member of staff employed by the LA for whom school workforce level data is required should be engaged to work for the LA under a contract. A contract record represents the situation where the arrangement is between the member of staff and the LA. If the member of staff is not employed directly by the LA, but via a third party, then they should not be included in the return from the LA. Workforce level data is not required for centrally employed staff engaged under service agreements, though headcount data may be required, see section 1.7.

Specifically, the following staff employed direct by the LA should be included:

- teachers. This includes:
 - peripatetic teachers - teachers who normally cover a number of schools each week on a regular timetable, usually because they possess some specialist knowledge;
 - teachers working in other non-school education, for example teachers providing education by reason of SEN under Section 319 of the Education Act 1996, staff employed as teachers in institutions other than schools and PRUs, eg teachers in hospitals or centres run by social services, or those providing home tuition; and,
 - if the LA acts like a supply agency providing teachers to schools on a fixed term or temporary basis, then the LA should submit contract records for those teachers that have been in regular service during the previous academic year.
- advisory teachers - often qualified teachers that carry out a range of duties including training staff, helping develop and implement school policy and classroom support. For the purposes of the school workforce census, advisory teachers should be treated as other support staff rather than teachers in terms of the data items that need to be provided. This is regardless of whether or not they are employed on Teachers' Pay and Conditions. Note, however, that they have their own post of Advisory Teacher and this should be used rather than the post of Support Staff.
- support staff, including teaching assistants, who spend the majority of their time in schools and whose role is one of those listed in the role code set, eg cleaners, catering staff, and ICT technicians. Staff working in extended school service provision should be excluded from the school workforce census but staff engaged in the normal running of the school, such as cleaners, should be included regardless of when they work, eg before, after or during the normal school day.

To be included in the school workforce census, there should also be a role identifier code that equates to the job of a particular individual. If such a role cannot be found then LAs may wish to check with the EDD Helpdesk that the individual does not need to be included in the school workforce census.

Individual level data is **not** required for:

- educational psychologists – legal advice has indicated that as educational psychologists do not spend the majority of their time in schools and do not provide or support the provision of education directly then it is not appropriate for the department to collect individual level data on them. Headcount information will be collected on educational psychologists – see Section 1.7 below.
- teachers only engaged in the One to One Tuition Programme. This is an initiative to help children gain more confidence and understanding in English and maths. It complements classroom teaching by addressing barriers to learning that are personal and particular to each child, and it can take place at the child’s school or in a town centre location such as a library.
- staff paid according to Teachers’ Pay and Conditions but not falling in any of the categories above. The fact that someone is paid according to Teachers’ Pay and Conditions does not automatically mean they should be included in the school workforce census. An example might be a former teacher now working as a senior manager with the LA.

If LAs are unsure about which staff they should include in the school workforce census they should check with the EDD [Helpdesk](#).

1.7. Staff for whom LA level data is required

LA level (headcount) rather than school workforce level (individual) data is required for educational psychologists that

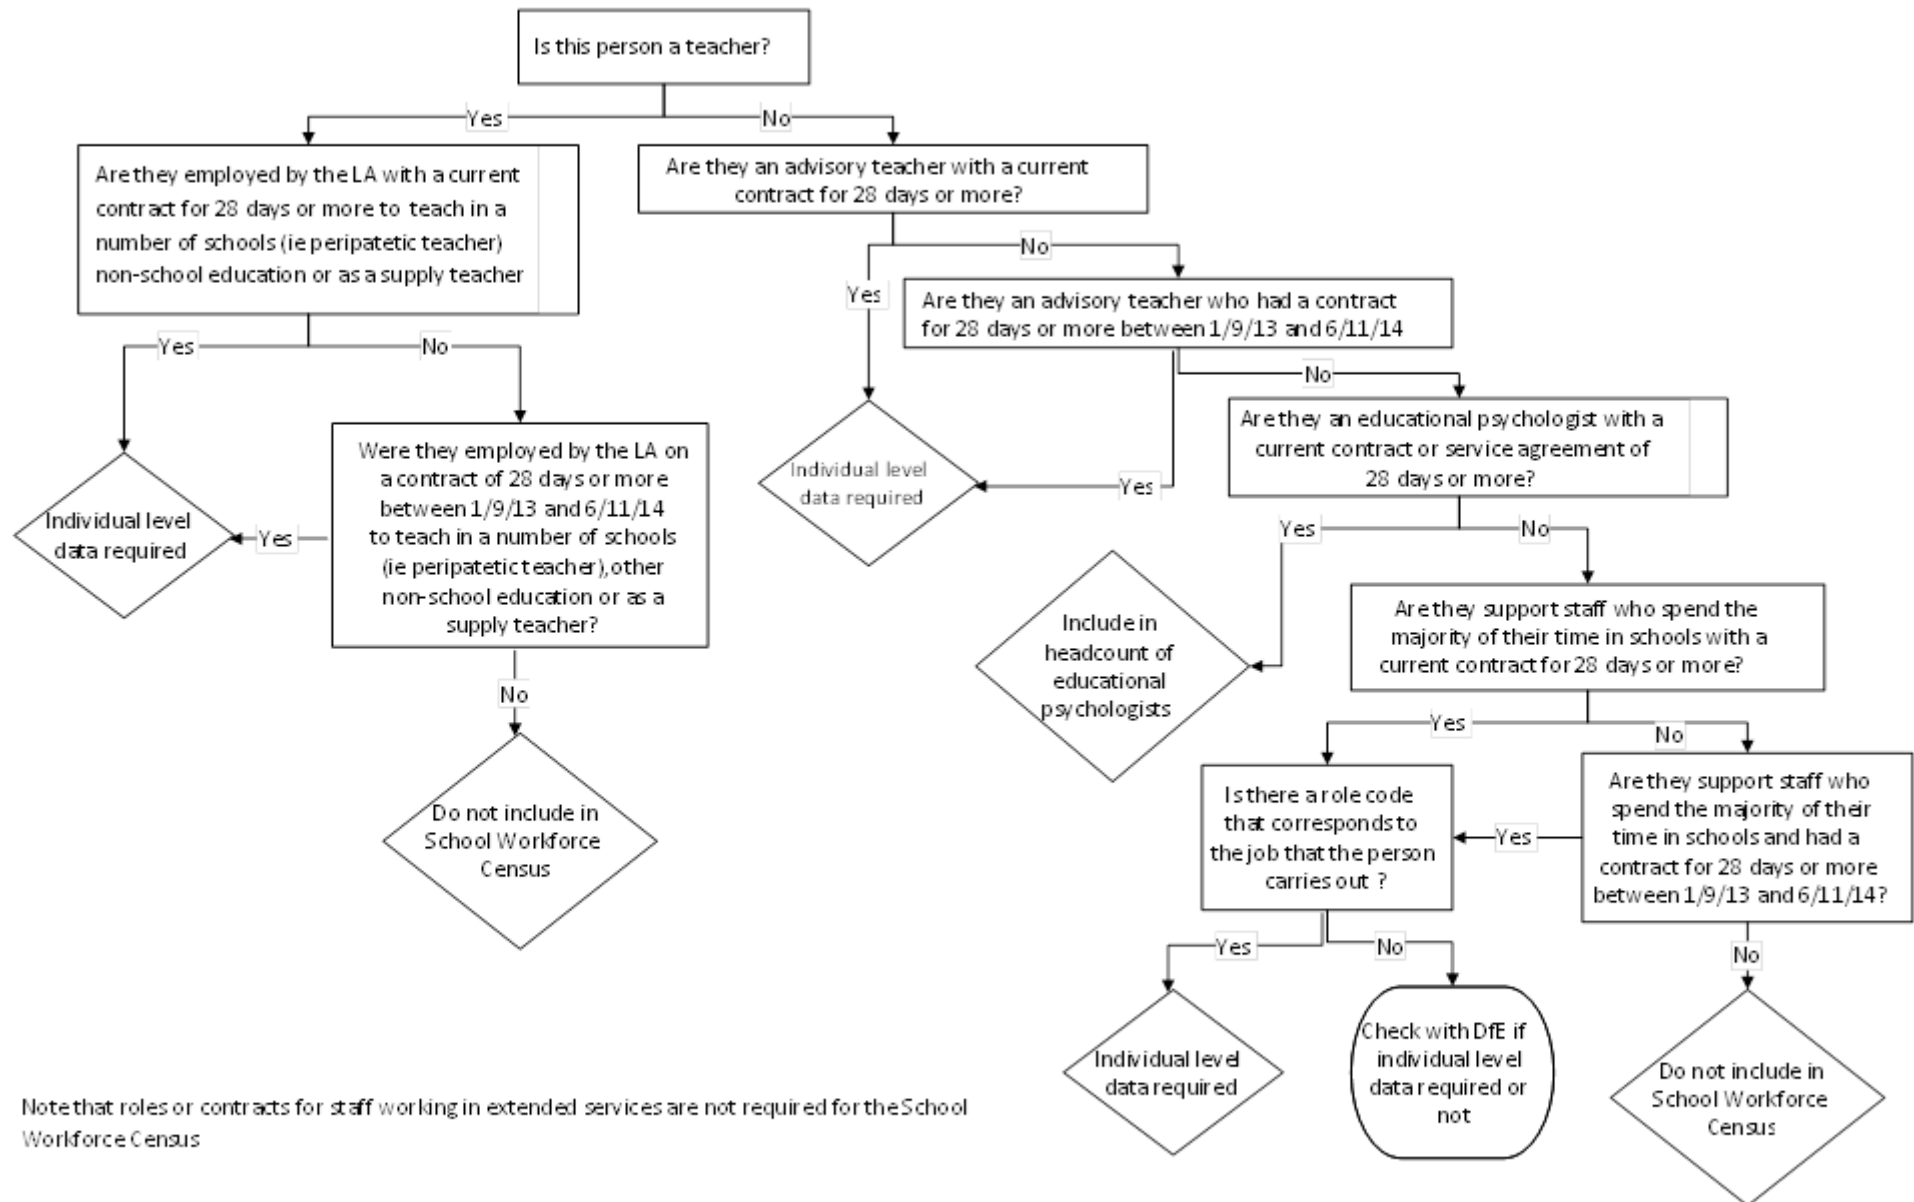

- have a current contract, for 28 days or more, with the LA on the Census day, or
- are employed at the LA for 28 days or more via a current service agreement with another LA or agency on the Census day.

1.8. Multiple contracts

It is possible that more than one contract could be returned for an individual member of the centrally employed staff in the school workforce census. A member of staff might undertake two separate roles for which separate contracts have been provided. For example, a member of support staff might be directly supporting a number of individual

pupils for which he/she has been issued a separate contract in respect of each pupil. In such a case both contracts should be returned.

Flow diagram to help local authorities decide which centrally employed staff should be included in the School Workforce Census

Note that roles or contracts for staff working in extended services are not required for the School Workforce Census

2. Guide: completing the school workforce census

2.1 Census date

Data will be collected in the school workforce census annually in the autumn. The Census date for 2014 is the first Thursday in November, ie 6 November 2014. The collection period closes on 5 December.

It is essential that a return for every academy school and local authority must be submitted by the 5 December to allow the completion of error correction, authorisation and credibility checking to take place before the collection closes. LAs will advise their schools of the file return date in order to meet the department's final deadline.

Our Customer Services team will assess returns as soon as possible after authorisation and inform you if there are any issues. We will aim to provide this feedback where required within two weeks of the return being authorised on COLLECT. For each local authority the assessment will normally be made once the vast majority of schools' returns have been authorised. Feedback may be delayed if there is a large volume of returns. It is essential that the submission deadline of 5 December is adhered to in order that this process can take place.

The [blade for the school workforce census](#) will be available on the live site. Each collection, eg school workforce census 2014, school census summer 2014, school census autumn 2014, has its own blade for COLLECT and the correct one must be accessed.

2.2 Update systems with current data

It is anticipated that the individual staff records for the school workforce census will be extracted automatically by the HR or payroll system. Also, although strenuous data validation will take place within your software, missing data on teachers or support staff and some incorrect data may not flag up any errors or queries. It is essential therefore that all relevant data have been entered and updated in systems before the school workforce census return is created.

Central systems should be set up to extract data on staff in regular service with contracts current as at the Census day and those whose contracts finished since the beginning of the previous academic year (01/09/2013 to 7/11/2014). However, LA level information on educational psychologists may need to be

collected on the Census day and manually entered into the return – see Section 2.6.

2.3 Data protection and security

Data kept on staff (in any medium, including within school MIS) are personal data. The data must be managed in accordance with the requirements of the Data Protection Act 1998. All staff with access to personal data should be aware of their responsibilities under the Act.

LAs are asked to make all centrally employed staff for whom data will be submitted in the school workforce census, aware of the Privacy Notices on their and the department's website. The Privacy Notices inform staff of the purposes for which their personal data may be held and used by the LA, the department and other organisations. The department's website contains suggested text for a [Privacy Notice](#) and suggested information for LAs/schools to include locally or on their respective websites is also given.

2.4 Snapshot information

As long as systems are kept up to date and they have been developed appropriately, snapshot information should automatically be extracted for the school workforce census for the following modules:

- Staff Details
- Contract / Service Agreement
- Qualifications

The school workforce census generation software should include all staff currently employed by the LA by looking at contract records where there is a start date and no end date, or the end date is later than that of the Census date.

The software should also generate the Staff Details module and appropriate contract data items to accompany any data provided for staff that left during the previous academic year.

If the software has not been developed to automatically extract relevant staff, they may need to be selected manually through for example ticking a check box for those that should be included in the school workforce census return.

2.5 Historical data

Historical data will be submitted in the contract / service agreement. The school workforce census generation software will extract the required non-pay contract / service agreement information data for staff whose contracts / service agreements finished in the period 1 September 2013 to 6 November 2014.

Historical data can legitimately be included for staff that left before the census day.

2.6 Census specific data

Local Authority Level (headcount) information on educational psychologists is required and may not be generated automatically by the software in HR/payroll systems. It will need to be entered manually at the point of completing the school workforce census return. The data provided will need to reflect those educational psychologists with current contracts, or employed under a service agreement, on the Census day.

2.7 Validation

School workforce census data are used by the department's policy divisions, other government departments, LAs, external agencies and educational researchers. Accuracy of data is therefore paramount.

The department expects there to be zero errors on the school workforce census return. However, if a software bug generates an error that cannot be fixed or circumvented then an agreement would be reached between the LAs and the department that the error is acceptable.

2.7.1 Errors and queries

When the data are validated in COLLECT for the school workforce census, a validation *Error* is generated when data rules are broken, for example, an illegal character is entered, a value may be out of range, or totals do not add up correctly. Validation errors **must** be corrected. If a validation error cannot be corrected, please contact your software support provider.

A *Query* is reported in COLLECT where the data are unusual or unexpected, reflecting a potential inaccuracy or omission in the underlying data in the MIS, or entry to the school workforce census form. For example, where a destination code has been provided for a member of staff but no end date for their contract is returned. All outstanding queries should have an explanatory note. Notes

deemed to be acceptable in order for a number of queries to be cleared will be published in a separate document on the department's website nearer to the date of the Census. For any other query, free text should be entered to explain the reason for the query.

NB: By entering a note, data providers are agreeing that the errors specified have been checked and that the information provided is correct or there is a valid reason why it is not available.

Some queries can be cleared only by return level notes.

2.7.2 Validation in LA systems

LA HR/payroll software should report queries that should be investigated. As the department will challenge queries it is also essential to investigate all queries, and amend or annotate that data as necessary.

HR and payroll systems should report most validation errors and queries. However, if the department makes late changes to validations then commercial software suppliers may not be able to include these changes in their software releases.

In previous years some users have reported significant differences between the numbers of errors reported in LA systems and the numbers reported in COLLECT. The following factors may have contributed to these differences:

- There are some validation checks that are only produced in COLLECT so an LA may see an "error on load" even though nothing is shown where validated in the HR/payroll system. The department aims to keep these differences to a minimum but cannot guarantee that there will be none as technical fixes may need to be made at short notice.
- As data for an LA's school may be sent to the department from several different sources the validation within school systems will not always check for the *presence* of data items, but instead check that the data, where present, meet appropriate conditions. This may result in more errors being reported in COLLECT than in the LA system.
- COLLECT reports the number of errors for a whole return, rather than the number for an individual file. Therefore, if a school loads a file to COLLECT after an LA file has been loaded then the number of errors reported in COLLECT may be considerably higher than reported in the LA system.

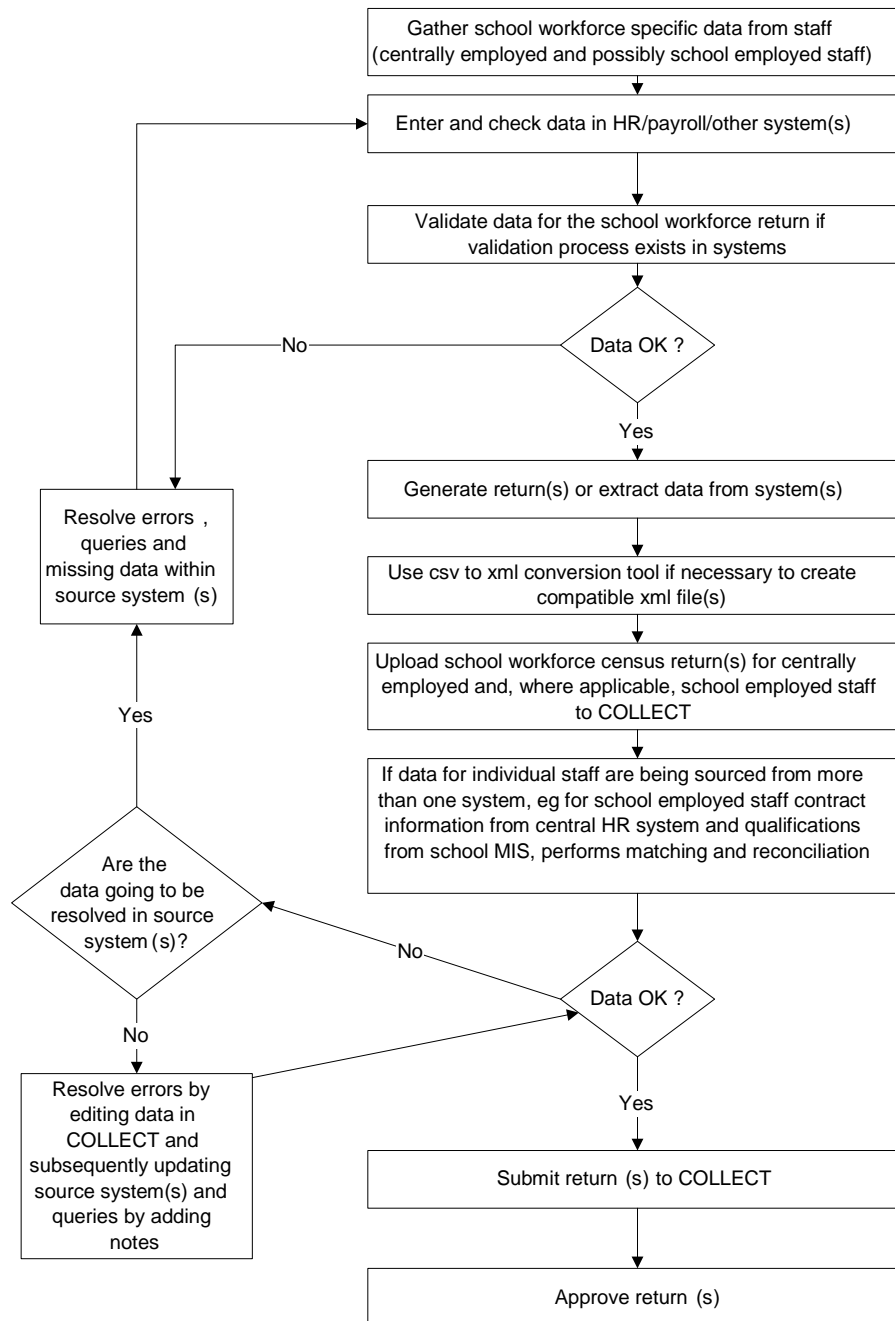

2.7.3 Credibility checks

Once a return is authorised it will be subject to further checks to ensure that the data provided is complete and credible. The following is an incomplete list of the checks which may be applied and which may require further investigation by data providers. Please consider a rough guide to the checks that will be implemented as others may be added:

- Duplication checks:
 - There are no duplicate records ie the same staff member / contract appearing more than once in a single return..
- There is at least one valid contract for each staff member listed.
- All open contracts, except those paid on a daily rate, have the FTE Hours per week and Hours Worked Per Week entries of greater than zero.
- Where the Hours Worked Per Week is less than the FTE Hours Per Week for an open contract, the Hours Worked Per Week is less than 99 per cent of the FTE Hours Worked Per Week. (For example if the FTE Hours Per Week are 32 and the Hours Per Week are less than 32 hours they must also be less than 31.68 hours).
- 90 per cent of teachers have Pay Scale or Base Pay provided rather than the Daily Rate indicator set.
- Where Base Pay is provided for full-time qualified teachers, it is in the range £20,000 to £200,000.
- More than 90 per cent of the teachers have Qualified Teacher Status. **(It is crucial that all teachers with qualified teacher status are recorded as such.)**
- Fewer than 20 per cent of the ethnicity data for staff in the school are recorded as 'Not Obtained' (NOBT).

2.8 Process diagram

The process diagram below shows the steps that need to be taken to produce, check and send school workforce census returns from school MIS.

2.9 Generating the school workforce census return and data checks

These completion notes should be read in conjunction with any software specific school workforce census documentation provided by software suppliers.

The software may contain a series of “data checks” which will help to identify and correct errors and inconsistencies in the data prior to generating the school workforce census return. Please go through this process carefully as it will substantially reduce the number of validation errors in the return and the work that will need to be done subsequently to resolve these.

2.10 Submitting the school workforce census return

LAs will as a minimum need to submit data for their centrally employed staff in the school workforce census. Depending on where the data are being sourced, the LA may also need to submit data for school employed staff.

For the centrally employed staff, LAs will need to upload the file directly in the department’s secure web-based collection system, COLLECT.

If the LA has decided to source all or some of the data from its central systems for school employed staff, then the LA will also need to upload this data to COLLECT. Note that the LA must provide one file per school and not one file covering all school employed staff. For each school the LA will need to enter the appropriate Estab Number and select ‘S’ in the LASchoolLevel field.

If the LA has decided that schools should transfer the data for school employed staff to the LA via the authority’s secure network or data transfer facilities, then the LA will need to upload the files into COLLECT on schools’ behalf.

For information on submitting returns see Part 1 of the COLLECT training manuals on the department’s [website](#).

If information for an individual member of staff is being provided from school and LA systems, eg contract information from a LA payroll system and qualifications information from a school MIS, then this information will need to be matched and reconciled by the LA within COLLECT. There are four stages to matching and reconciliation:

- Matching (running): this identifies potential matched records, ie records identified as potentially being for same person, using a predefined set of business rules.

- Matching (resolving): this process allows the potential matches within a return to be viewed and decisions to be made on whether the records identified should in fact be matched.
- Reconciliation (running): this process will produce one distinct record for each member of staff which can be automatically reconciled and identify others (un-reconciled records) which have to be manual reconciled.
- Reconciliation (resolving): this process allows the un-reconciled records to be viewed and decisions to be made on which records should be copied across into the 'Master' return.

After matching and reconciliation has been completed, one master source record which will contain the definitive set of data for the return will be produced.

Once matching and reconciliation has been completed, the complete return must be revalidated.

If an uploaded file contains the same source organisation details, either for a school or LA, as one that has previously been submitted, and the software code is the same, COLLECT will treat the file as a resubmission and overwrite the contents of the previous submission with the new one. LAs should be aware that this will mean any matching and reconciliation updates will be overwritten and so will need to be reapplied. Therefore, if there are only minor changes to be made after matching and reconciliation has occurred, the LA may wish to consider applying the required changes online within COLLECT, and if necessary, requesting that the changes are also applied in the source MIS system. This may be preferable to generating a full refresh from the source MIS system, uploading the new file and then reapplying any matching and reconciliation updates

For information on how to perform matching and reconciliation see the COLLECT training manuals on the department's [website](#).

Please note LAs only need to run matching and reconciliation if they have partial returns for a school eg if a partial return from the school has been uploaded and a partial return from the LA for that school has been uploaded. If there is only one return for a school (that single return could either be from the LA or from the School) then there is no need to run matching and reconciliation for that school.

2.11 Approval of the return by the LA

Once the data for centrally employed staff are complete, the LA will mark it as approved on COLLECT at which point the data will be available to the department.

The LA also has responsibility for approving the data submitted for school employed staff. Once it has been submitted to COLLECT, LA data teams may undertake further processing and validation of the data. If data are being provided from more than one source for school employed staff, eg contract data from a central HR/payroll systems and qualifications from school MIS, then the LA will need to undertake matching and reconciliation – see above. LAs and schools may also choose to implement further sign-off methods, such as printing and signing a summary of the data. These procedures will be defined according to local needs.

In order to carry out checks on the data the LA may wish to download the data from COLLECT into an Access database or similar system. The department will be providing an Access database for LAs to use with data submitted in the autumn collection. The department is aiming to make this available from the department's website during the summer.

For information on approving returns see Part 1 of the COLLECT training manuals on the department's [website](#).

2.12 Authorisation of the return by the department

Staff at the department will look at the return prior to finally authorising it. In some cases this process may also result in questions about the data, with the possibility of final amendments being made in consultation with the LA.

All data providers are strongly encouraged to use the reports available to check their returns for completeness and credibility.

2.13 Further information

For further information about the school workforce census, please visit the department's [website](#).

For further advice on the completion of any part of the school workforce census return, please contact the Education Data Division Helpdesk for further advice using the [request form](#).

3. Preparation: data items required

This section of the guide provides information on all the data items that are required for centrally employed staff for the school workforce census.

Most of the data items collected in the school workforce census are those which a LA, or other employer, would be expected to use for its own purposes. The majority of items should therefore be kept up to date as part of normal business processes.

Data items that are going to be collected in the 2014 school workforce census have been grouped into modules as follows:

School Workforce Level (Section 4)	Local Authority Level (Section 5)
Staff Details	Educational Psychologists
Contract/Service Agreement	
Qualification	

LAs are urged to take a look at the data items to be collected in the school workforce census in advance of the collection to ensure data are entered correctly within their MIS. Schools should note that software suppliers have included validation on data entry so in many instances it should not be possible to enter data that is in the wrong format or that does not comply with the specified codeset. This should ensure a higher quality of data entered and fewer validation errors to be checked when the data are extracted in the school workforce census.

Codesets for individual data items are given in section 6 and reference to the appropriate codeset is made against the associated data item.

3.1 School workforce level data required

Different school workforce level data items are required for the three categories of staff required for centrally employed staff: 1) teachers, 2) teaching assistants and 3) other support staff. More data items are required for teachers and teaching assistants than other staff. However, LAs may choose to record all the data items for all categories of staff should they wish to do so but need to be aware that these may be returned to the department in their school workforce census return.

For contracts that finished during the period 1 September 2013 to 6 November 2014 only a subset of the data items is required: the Staff Details and non-pay items in the Contract/Service Agreement modules.

3.1.1 Non pay data items in the contract

The non-pay items in the Contract/Service Agreement module are: contract / agreement type, start date, end date, date of arrival in school, post, role identifier, destination, origin, hours worked per week, FTE hours worked per week, weeks per year. Which of these will need to be returned depends on the category of staff.

3.1.2 Mandatory, optional and not applicable data items

The following table shows which data items are mandatory (✓) for each of the staff categories, which are optional (#) and which are not applicable (X). Schools/LAs may wish to hold the optional items on their MIS and this information should automatically be filtered out from the school workforce census return when it is generated. There may be instances where optional information is not filtered out, eg if contract information is being provided by the LA, and schools will need to be aware that the data may be forwarded to the department and used for research and statistical purposes.

Software in LA HR/Payroll systems should automatically generate the Staff Details module for those staff that have left the LA during the previous academic year or for whom old contract information is being reported. *Staff may need to be selected manually through, for example, ticking a check box for those that should be included in the school workforce census return.* Software suppliers should be able to advise how this should be done.

The information in the table applies to those staff with current contracts, or employed via a current service agreement, for 28 days or more on the Census day.

3.2 Local authority level data required

LA level data (headcount) is required on educational psychologists employed by the LA on the Census day, via a contract or service agreement with another LA or an agency. Headcounts of full-time and part-time educational psychologists are required, together with the total FTE of all part-time educational psychologists.

4. School workforce level

4.1 Staff details module

All data in this module should be maintained as changes occur. This module will be collected for all LA staff meeting the criteria given in section 1.7. Note that this is *likely to include some staff that left the LA during the academic year prior to the collection, for whom contract information is being provided.*

	Teachers	Teaching Assistants	Other support staff	Notes

√ Mandatory data item for this type of staff

Optional data item for this type of staff

4.1.1 Teacher Number

This is the seven-digit department's Teacher Reference Number allocated to:

- all teachers with Qualified Teacher Status (QTS)
- people who enter their final or only year of teaching training but who do not qualify
- people working towards QTS on employment based training schemes and
- those without QTS who participate in the Teachers' Pension Scheme.

If a member of staff has an English Teacher Number then this should be provided. Welsh Teacher Numbers, which are eight digits long, are now accepted (in previous years COLLECT truncated these to seven digits). This field is used for matching purposes and for tracking individuals over time so that statistics can be produced on length of service, turnover etc. Temporary or Scottish Teacher Numbers or made up numbers such as 0000001 or 1234567, should **not** be provided as these are not useful for these purposes and the field should be left blank. If as a consequence a query is generated in COLLECT then a note will need to be written against the query to explain why a Teacher Number has not been submitted.

People with Qualified Teacher Learning and Skills status are recognised as qualified to teach in schools. They will require a teacher number if they wish to be part of the teachers' pension scheme. However it is not essential that they have a Teacher Number, in which case this field should be left blank.

Teacher Numbers need to be accurate for the department's tracking of teacher movements and for turnover statistics. Therefore LAs should make every effort to ensure Teacher Numbers are provided accurately for qualified teachers, if an accurate number cannot be ascertained then the data item should be left blank. Without a Teacher Number qualification information provided by the National College for Teaching and Leadership cannot be matched with information collected in the school workforce census. So if it is not possible to provide the Teacher Number for a qualified teacher, then LAs are asked to make an extra effort to complete the qualifications module for that teacher.

4.1.2 Family Name

This should be the full family name (surname).

Employers should have verified the name of their staff as part of the checks with the Disclosure and Barring Service, formerly the Criminal Records Bureau. If staff are provided by a third party, then their identity should have been checked through sight of a birth certificate, driving licence or passport combined with evidence of address. For guidance around identity checking see [Keeping children safe in education](#).

4.1.3 Given Name

The given name includes forename and middle name(s), not shortened or familiar versions. More than one given name can be entered for each staff member. Suppliers and users are welcome to use a "known as" field locally, but the department is not collecting it because standardising on the legal name gives a firm basis for matching.

4.1.4 Former Family Name

Please record and provide as many former family names as you are aware of for teachers and teaching assistants. Former family names are not required for other support staff. LAs may choose to record former family names on their systems for these staff but should be aware that these may be returned to the department if they do so.

4.1.5 National Insurance Number

National Insurance (NI) Numbers should be provided for all staff in regular service. This field is used for matching purposes and for tracking individuals over time so that statistics can be produced on length of service, turnover etc. LAs should make every effort to ensure a NI number can be provided for each member of staff. However, if one is not available, then the field should preferably be left blank. If your system does not allow you to leave the field blank it may be populated with a temporary number as advised by your software supplier. Leaving the field blank or providing a non-standard NI number will generate a query and a note will need to be added to the return to explain why no NI number has been provided.

4.1.6 Gender (Gender codeset)

The gender of the member of staff should be provided. The codeset is e-GIF compliant and so includes the values “not known” and “not specified”.

4.1.7 Date of birth

This is the date of birth of the staff member using the format CCYY-MM-DD (eg for 23 January 1963 = 1963-01-23). LAs must enter the correct date of birth for the staff member. Dates of birth are used in matching workforce census data from different establishments and from different years so it is important that this data is correct.

4.1.8 Ethnic Code (Ethnicity codeset)

This is the ethnicity of the staff member using the codes from the 2001 National Population Census. Data on ethnicity needs to be handled with appropriate sensitivity. The key point is that ethnicity data should be supplied by the staff members themselves and if they wish they can refuse to provide it. There are therefore options in the codeset for “refused” and “information not yet obtained”.

LAs can choose to use either the department’s extended Codes or Main Codes, the latter are given in the codeset in section 6.

Please note that the codeset differs slightly from that for pupil ethnicity. “Traveller of Irish Heritage” and “Gypsy/Roma” are available for pupils, however these values are not currently in use for workforce ethnic monitoring and so have not been included. An entry of “Any other White Background” may be used instead.

4.1.9 Disability (Disability codeset)

It is for LAs to decide how best to collect this information and for staff themselves to decide whether they want to declare they have a disability. It will be important to assure and convince staff that the information they disclose will be handled sensitively and confidentially and used to improve opportunities and outcomes for them. 45,000 public bodies across Great Britain are covered by the Public Sector Equality Duty, which came into force under the Equality Act 2010. The duty is meant to ensure that all public bodies - such as central or local government, schools, health trusts or emergency services – pay 'due regard' to the advancement of equality of opportunity for disabled people in every area of their work. The Equality and Human Rights Commission produced a range of information on the [public sector equality duty](#). Disability information should be provided by the staff member themselves and they can refuse to provide it. There are therefore options in the codeset for “refused” and “information not yet obtained”.

4.1.10 QT Status (true/false)

This data item is required for all teachers and teaching assistants and indicates whether or not they have either Qualified Teacher Status (QTS) or Qualified Teacher Learning and Skills (QTLS) status. The fact that a person has a Teacher Number does not necessarily mean that they have QTS. Teachers without QTS can still be members of the Teachers' Pension Scheme, eg those who did not successfully complete a teacher training course. Any queries about a person's QTS should be checked with the National College for Teaching and Leadership – see section 4.3 for contact details.

NB. Please note that teachers with QTLS status should have their QTS status recorded as 'True'.

Please note that the QTS data is required for all teachers included in the return – even if their contract is not current on census reference day.

4.1.11 HLTA Status (true/false)

This indicates if a member of staff has acquired HLTA (Higher Level Teaching Assistant) status or not. If a person has HLTA status but is not currently working as an HLTA, then the status should still be returned as “True”. ***HLTA status refers to a person's status rather than if they are currently working as an HLTA.*** To achieve HLTA status an individual undergoes assessment to ensure they fulfil the HLTA standards.

Please note that the HLTA data is required for all teachers and teaching assistants included in the return – even if their contract is not current on census reference day.

4.1.12 QTS Route (QTS route codeset)

This data item is only required for staff who have taken up their first teaching post since the previous census or who are working towards QTS, though it can be returned for other staff as well. **This data item does not have to be back filled for staff who were employed as teachers and had QTS before the last school census.**

Members of staff on an employment based QTS route, excluding School Centred Initial Teacher Training (SCITT), should be given the code of the route or programme they are undertaking. *Information on student teachers on teaching practice or who are participating in SCITT is not required for the school workforce census since this is a college rather than classroom based QTS route.* Teachers on the Overseas Trained Teacher Programme should be given the code OTTP - Overseas Trained Teacher Programme. However Overseas Trained Teachers who have not yet signed up for the programme should be given the code OTTN - Overseas Trained Teacher, not yet on Programme.

Two new items have been added to the codeset – School Direct and School Direct (salaried), previously teachers on the School Direct programme were recorded under the heading of ‘Flexible Routes’.

4.2 Contract / service agreement module

All data in this module should be maintained as changes occur. The data items in this module provide details of either contracts or service agreements as defined in section 1.7.

Please note that validation rule 6530 will raise a query if the total FTE for all open contracts held by any individual staff member on census day is greater than 1.5. For technical reasons it has not proved possible to have this rule apply to contracts that closed before census day. Schools and LAs are therefore asked to take care that, where there are multiple contracts for a single staff member, these do not total more than 1.5 FTE except in exceptional circumstances.

NB: Several returns in previous years had very low levels of hours worked per week. While there may be cases where hours worked per week are very low the department asks all establishments returning the census to ensure that hours

worked per week are recorded accurately. Contracts have been returned with no hours worked per week and the department's helpdesk has had to contact schools in the past to determine if these contracts should be removed from the return. Please note that the hours data required in the census is the number of hours worked in a normal week. Staff members who have been employed for more than 28 days should be recorded as working the number of hours worked in a normal week.

Current Contracts/Service Agreements (ie those open on census reference day) should be included if the contract has lasted 28 days or is permanent or has a Contract End date 27 days or more after the Contract Start date.

Contracts/Service Agreements not open on census reference day should be included if they ended in the period 1 September of the previous year to census reference day (ie for 2014 census contracts/service agreements ending in the period 1/9/2013 to 6 November 2014).

For the 2013 SWF census, staff in PRUs were treated as centrally employed up until 1 April and as employees of the PRU after that date. For this census those staff will be treated as employed by the PRU for the full academic year, therefore PRU staff should not be included in central returns.

Please note that validation rule 4085Q checks that there is at least one contract record in the data return. This is to ensure that data suppliers are aware that this data is not included in their return and the supplier should ascertain that this is correct (ie the data is being supplied from a different source) before submitting.

Please also note that care should be taken to ensure that contract or service agreement data is being supplied for all members of staff in regular service.

- √ Mandatory data item for this type of staff
- # Optional data item for this type of staff
- X Data item not applicable for this type of staff

4.2.1 Contract / agreement type (Contract type codeset)

Information is only collected on centrally employed staff who are or have been employed direct by the LA. Information is not required on those employed via a service agreement. One of following values should be selected from the codeset: permanent, fixed term, or temporary. Fixed term should be used for contracts with an agreed length of time and a fixed end date. Temporary should be used for any non-permanent contracts, eg cover, without a fixed end date.

The following codes apply to school employed staff only and should not be selected for centrally employed staff: service agreement with LA, service agreement with an agency, or service agreement with other source.

4.2.2 Start Date

The date the contract started should be provided.

4.2.3 End Date

The date the contract ended will normally be entered after the contract has finished. However, for fixed term contracts the end date must be entered when the contract is set up.

4.2.4 Post (Post codeset)

Post is used to identify at a high level which category a member of staff falls in: teacher, teaching assistant or other support staff.

For teachers the following posts are available: executive head teacher, head teacher, deputy head, assistant head, teachers upper, teachers main and leading practitioners. This codeset has changed from last year to reflect the abolition of the excellent teacher and advanced teacher posts. The teachers main and teachers upper posts should be used to distinguish between teachers who have passed the threshold. Unqualified teachers should be recorded in the post of teachers main. For teachers with job titles not included in the codeset the post that best reflects the level of their post should be selected. For example, a principal in an academy should be assigned the post of head teacher.

The post of executive head teacher should be used for a head teacher who directly leads two or more schools in a federation or other partnership arrangement. The school that holds the contract for the executive head teacher will be expected to return information on the executive head in the school workforce census. The other school(s) in the federation led by the executive

head will not be expected to report information on him/her. The department will deduce from information about which schools comprise the federation which other school(s) the executive head leads.

Support staff based in the classroom for learning and pupil support should be assigned the post of Teaching Assistant. Examples include Higher Level Teaching Assistants (HLTA), Teaching Assistants (TA), special needs support staff, minority ethnic support staff and bilingual assistants.

Note that the post of “Educational Psychologist” may be available in some systems but school workforce level data is not required for these staff. Headcount data will be collected on these staff– see section 5.

4.2.5 Role identifier (Role codeset)

A member of staff may have more than one role in the LA. At least one role per member of staff must be provided. Ideally where systems allow, all roles included in the contract or service agreement should be provided. If the system does not allow more than one role per contract/service agreement to be recorded please contact the EDD Helpdesk and they will advise what should be returned.

For staff with roles not included in the codeset the role that reflects the function of the staff member should be selected. If it is not possible to find an appropriate role it may be that such staff should not be included in the school workforce census, eg clerk to the governors, school crossing patrol staff and school improvement partners. LAs may wish to check with the department about staff for whom they cannot find roles to check whether or not they should be included in the return.

The role identifier of executive head teacher should be used for a head teacher who directly leads two or more schools in a federation or other partnership arrangement.

Teaching roles for school employed staff will normally be from the following list, but any of the roles in the codeset can be used:

Executive Head Teacher	Head of House
Head Teacher	Head of department
Deputy Head	SEN co-ordinator
Assistant Head	Language support
Classroom Teacher	Minority ethnic support
Head of Year	LA Supply pool

Teachers of ethnic minorities should be assigned the role of “minority ethnic support” and teachers of English as a foreign language should be assigned the role of “language support”.

Support staff, teaching assistants or other support staff, should not be assigned any of the roles in the above list, except SEN co-ordinator, language support or minority ethnic support. Many different job titles are used for support staff and examples are given below of how some of these might map to the roles in the codeset.

Role identifier	Job title
Teaching Assistant	Classroom Assistant
	Individual Support Assistant
	Learning Support Assistant
	Special Support Assistant
Other Pupil Support	Cover Manager
	Exams Secretary
	Guidance Manager
	Resources Support Staff
Other Pupil Welfare	Counsellor
	Family Worker
	Intervention Assistant
	Outreach Worker
	Residential Care Worker
	Student and Family Support
Other School Admin	Clerical Assistant
	Director of Technology
	Senior Admin Officer
	SENCO Assistant
Other Technician	Art Technician
	Creative and Media Technician
	Display Assistant
	Music Technician
	Performing Arts Technician
Other Premises Staff	Ground Staff
	Maintenance Staff

Note that the role identifier of “Educational Psychologist” may be available in some systems but school workforce level data is not required for these staff. Headcount data will be collected on them – see section 5.

4.2.6 Origin (Origin codeset)

The codeset is at a high level and indicates what teachers and teaching assistants were doing immediately prior to taking up their first post with the LA, eg whether they are new to the education sector or have come from another post within education.

If a teacher or teaching assistant has a new contract within the same LA, the code “Not Applicable – Change of Contract” should be used. This code should also be used where staff move from a service agreement (whether with the LA, an agency or with another source) to a contract. It will be possible to track such a staff member’s career progression through their contract history and the origin information will provide details of what they did before they joined the LA.

Origin information *must* be provided for all teacher and teaching assistant contracts that started from 1 September 2009. However, it is not expected that this information will be collected for contracts that started before then and the field should be left blank.

Please ensure that the origin data is returned for all contracts starting since 1 September 2009. This data is used in analysis of newly qualified teachers and of staff returning to the profession and this analysis will only be reliable if the origin data is returned accurately.

4.2.7 Destination (Destination codeset)

The codeset is at a high level and indicates the destination of teachers and teaching assistants on the completion of their contract. Examples include remaining in the same LA – primary school, move to another LA – primary school, non-education employment – public sector, retirement – normal age.

This information should be captured once a teacher or teaching assistant has given notice that they wish to terminate their contract or service agreement. Arrangements should be made via normal procedures, such as an exit interview, to obtain this information. There may be cases where this information cannot be obtained and provision is made for this within the codeset: “Not known” should be selected. If there is a change of contract within the same LA, eg for a promotion from deputy head to head, “Not Applicable – Change of Contract” should be selected from the codeset.

Destination information *must* be provided for all teachers and teaching assistants that left during the previous academic year, ie from 1 September 2013.

Please ensure that the Destination data is returned for all relevant contracts.

4.2.8 Pay Scale (Pay scale codeset)

For all staff in regular service the relevant pay scale should be selected. For non-teachers this will be either “**National Joint Council (Local Government Services)**” or “**Other**”. For teachers this will depend on their post and whether or not they have crossed the threshold to the upper pay scale.

Where pay scale is provided establishments are asked to take care that the correct scale is returned. Leadership Pay Scale should only be used for staff in leadership positions – not for classroom teachers.

Due to the ending of nationally standardised pay scales schools and local authorities are asked to supply Base Pay for all staff, whether or not Pay Scale is also provided.

General advice on teachers’ pay and conditions is available from the department’s [website](#).

4.2.9 Regional Pay Spine (Regional spine codeset)

For teachers the regional pay spine should be selected: Inner London, Outer London, London Fringe or Rest of England & Wales.

4.2.10 Spine Point (Spine point codeset)

The spine point should be selected from the codeset where applicable. This item is no longer mandatory.

Please note that the introduction of more flexible pay arrangements means that accurate pay information can only be obtained if schools and local authorities supply Base Pay for all staff whether or not Spine Point and Regional Pay Spine are provided.

4.2.11 Category of Additional Payment (Additional payment type codeset)

For teachers and teaching assistants any additional payments a staff member receives as part of their contract should be recorded. More than one additional payment can be recorded. The category of any additional payments should be selected, examples include: special educational needs allowances, teaching and learning responsibility payments and, for support staff, London weightings.

The fixed term TLR3 payments should be recorded as the ‘Teaching and Learning Responsibility Payments’ additional payment type.

Care should be taken in recording the categories. In previous collections some LAs appear to have recorded the additional payment categories incorrectly.

Benefits in kind should not be included.

Out of School Learning Activity (OSLA) payments should be treated as any other additional payment amounts, ie include if the associated contract is active on the Census Date and the payment was made during the previous academic year.

Additional payments should include all payments earned since the previous census reference date, ie all additional payments from 8/11/2013 to 6/11/2014.

4.2.12 Additional Payment Amount

For each additional payment, the annual actual amount paid should be given. Any one-off payments should show the amount received in full. If two people share an allowance equally, then the amount for each person would be half of the allowance, ie what they actually received.

Additional payments should include all payments earned since the previous census reference date, ie all additional payments from 8/11/2013 to 6/11/2014.

4.2.13 Base Pay

Introduction of more flexible pay structures in schools has made base pay more important. Base pay has therefore been made mandatory for all staff not paid by daily rates (that is, all centrally employed staff), even if pay scale, regional pay spine and spine point are provided.

Base pay should reflect the annual salary of a member of staff as at the Census day. *It should not include any additional payments or allowances.* The pay of part-time or term time only staff should not be adjusted upwards to the pay of a full-time equivalent member of staff. It should also not be adjusted downwards for a member of staff that started working part way through the year. If any elements of the salary are safeguarded these should also be reflected in the base pay.

Validation rule 4545 has been altered to flag up any base pay figure below £730. This is based on a calculation of the minimum wage for apprentices working one day a week and it is not expected that any member of staff would be paid less than this and still meet the criteria for inclusion in the census.

Some examples of how base pay should be recorded are given below:

Example 1: a member of staff works full time throughout the year and earns a salary of £30,000 plus additional payments of £2,000. Base pay = £30,000.

Example 2: two members of staff job share the post described in Example 1, each working 0.5 FTE throughout the year and share the additional payments of £2,000 between them. Base pay for each of the job sharers = £15,000.

Example 3: a member of staff takes up the post described in Example 1 in June 2010 on a full time basis. Base pay = £30,000.

4.2.14 Safeguarded Salary (true/false)

This data item indicates if any element of a teacher's salary is subject to safeguarding. For further information about safeguarding see the Local Government Employer's - [website](#).

4.2.15 Hours worked per week

NB: Several returns in previous years had very low levels of hours worked per week. While there may be cases where hours worked per week are very low the department asks all LAs to ensure that hours worked per week are recorded accurately. Contracts have been returned with no hours worked per week and the department's helpdesk has had to contact schools in the past to determine if these contracts should be removed from the return. Please note that the hours data required in the census is the number of hours worked in a normal week. Staff members who have been employed for more than 28 days should be recorded as working the number of hours worked in a normal week.

Please note that hours are recorded as decimal figures, not as hours and minutes, ie 27.5 means 27 and a half hours.

The number of hours worked in a normal week is required for each member of staff.

Depending on the HR/payroll system, the hours worked per week **may be recorded against post or role, but not both**. If a member of staff has more than one role, and the software allows the hours worked to be recorded against each role, then the hours should be assigned to the roles roughly according to the time spent on them, eg a teacher could spend 27.5 hours per week in a role as a classroom teacher and 5 hours per week as head of year.

For teachers, the hours worked per week can be recorded in one of the following two ways:

- based on the *directed hours worked per week*. Directed hours are the average hours per week for which a classroom teacher is required to attend school. This includes assembly but excludes lunch breaks. A full-time teacher is usually considered to work 32.5 directed hours per week, and the weekly directed hours of part-time teachers should be calculated on a pro rata basis. For example, a teacher working two days a week would work 13 directed hours per week
- based on the *proportion of the school timetable week (STTW) worked*. Typically the full STTW will be about 25 hours for teachers. The weekly STTW hours worked for a part-time teacher should be calculated on a pro rata basis. For example, a teacher working two days a week would work 10 STTW hours.

For teachers, you may find the following ready-reckoner helpful for converting contracted FTE to directed or STTW hours per week:

FTE ratio	Directed hours per week	STTW hours per week
0.1	3.25	2.5
0.2	6.5	5
0.3	9.75	7.5
0.4	13	10
0.5	16.25	12.5
0.6	19.5	15
0.7	22.75	17.5
0.8	26	20
0.9	29.25	22.5
1.0	32.5	25

For teaching assistants, typically, the hours worked per week will be around 37 hours.

It is important that the hours worked per week and the FTE hours per week are entered on the same basis for a particular contract, as they will be combined to calculate the FTE ratio.

4.2.16 FTE Hours per week

Please note that hours are recorded as decimal figures, not as hours and minutes, ie 27.5 means 27 and a half hours.

This data item is the number of hours per week that would be worked for a post or role to be full-time. **For teachers** these can be based on directed or STTW hours per week as described above. **For teaching assistants** the FTE hours per week are likely to be around 37 hours.

The important thing is that the hours worked per week and the FTE hours per week are recorded on the same basis for a particular contract, so they can be combined to calculate the FTE ratio. Examples are shown below:

Hours per week	FTE hours per week	FTE ratio
16.25 (directed hours basis)	32.5 (directed hours basis)	0.5
12.5 (STTW hours)	25 (STTW hours)	0.5

For staff employed full time it is essential that the hours worked per week equal or exceed the FTE hours. If the hours worked per week are even slightly less than the FTE hours the staff member will be counted as part time.

4.2.17 Weeks per year

This data item records the number of weeks per year for which a member of staff is paid, including any paid holiday. Where payment for contracted hours is spread over the whole year, it is the contracted hours in weeks that need to be entered. *For example, if someone is on a term-time only contract for 37 weeks per year but receives their pay in twelve monthly instalments, it is 37 weeks not 52 that should be entered.*

This information is important for calculating and performing analysis on pro rata salaries.

4.3 Qualification module

Information is required on the type and subject specialism(s) of certain qualifications held by all teachers and by support staff in regular service.

For all **teachers**, the following information is required:

- their **initial teacher training qualification** eg PGCE, BEd, Certificate in Education
- for those with a PGCE, information on **prior degrees**
- for those without QTS or those trained overseas, **all qualifications relevant to their engagement as a teacher**
- any **subsequent qualifications** gained relevant to their job as a teacher that appear in the list below

Please note that information is required on previous degrees as well as on PGCEs.

For **support staff**, information about their degree or any other qualifications listed below should be provided.

Qualifications have been categorised according to the National Qualifications Framework (NQF) and the following which are graded at NQF level 4 or above (ie those higher than A level) should be included:

- Post-graduate Certificate in Education (PGCE)
- BEd or other first degree combined with teacher qualifications
- Certificate in Education or equivalent
- Doctorate, eg PhD
- Master's Degree, eg MSc, MEd
- Postgraduate certificates and diplomas
- Other first degree (ie not BEd or other first degree combined with teacher qualifications) such as BA and BSc
- Graduate certificates and diplomas
- Diplomas of higher education and further education
- Foundation degrees
- Higher national diplomas
- Certificates of higher education
- Non-UK teaching qualification

The National College for Teaching and Leadership holds information about the first degree and initial teacher training qualification of some teachers and will share this information with the department. However, the agency does not hold information on any additional qualifications gained nor on the qualifications of those teachers who qualified some time ago. To gain a complete picture of the qualifications held by teachers, the department requires the gaps to be filled in the National College for Teaching and Leadership's data. Schools, or LAs if they are providing the data, will need to do one of the following:

(a) **Either** check the qualifications held by the National College for Teaching and Leadership for their qualified teachers, instructors and overseas trained teachers via their [website](#), and provide any qualifications not held by the National College for Teaching and Leadership. If your establishment has not already registered for this service please e-mail employer.access@education.gsi.gov.uk with the following information:

- Full name of the establishment

- Contact address of the establishment
- Establishment DfE number
- E-mail address of the Head teacher or Principal and their full name.
- Please contact the National College for Teaching and Leadership in good time as it may take several working days to register for the service;

(b) **Or** gather and record all the qualifications information on all their teachers and submit it to the department.

Information on the following qualifications does not need to be provided as the department will obtain it direct from the National College for School Leadership: National Professional Qualification for Headship (NPQH) and Certificate/Diploma for School Business Management (CSBM/DSBM).

	Teachers	Teaching Assistants	Other support staff
<i>Qualification module</i>			
Qualification code	√	√	√
Subject Code 1	√	√	√
Subject Code 2	√ (if applicable)	√ (if applicable)	√ (if applicable)
Class of Degree	√ (mandatory where Date of Arrival is equal to or greater than 1 August 2013)	#	#

√ Mandatory data item for this type of staff

Optional data item for this type of staff

4.3.1 Qualification code (Qualification codeset)

This indicates the **type** of qualification awarded. All relevant qualifications graded at NQF level 4 or above (ie those higher than A level) should be included. The full codeset for this item is listed below:

Code	Qualifications this should be used for
PGCE	Post-graduate Initial Teacher Training Qualification (ie PGCE)
MAST	Master's Degree, eg MSc, MEd or other level 7 qualifications such as postgraduate certificates and diplomas

DOCT	Doctorate, eg PhD, or other level 8 qualification
BEDO	BEd or other first degree combined with teacher qualifications
FRST	Other first degree (ie not BEd or other first degree combined with teacher qualifications) such as BA and BSc, or other level 6 qualification such as graduate certificates and diplomas
CTED	Certificate in Education or equivalent
NQF4	Any other qualification at NQF level 4 or 5, eg level 4 NVQ, diplomas of higher education and further education, foundation degrees and higher national diplomas, and certificates of higher education.
NNUK	Non-UK teaching qualification

4.3.2 Subject Code 1 and 2 (Degree Subject codeset)

Each qualification should have either one or two subject specialisms associated with it and these should be recorded using the JACS (Joint Academic Coding System) codes which have a hierarchical structure. LAs may return either the level specified in the Subject Codes or, if their systems allow and they wish to do so, the more detailed JACS codes.

The complete list of Subject Codes and the more detailed JACS codes associated with each of them is published on the department's [website](#). LAs may wish to use this document to identify appropriate Subject Code(s) for qualifications.

An extract from this document is shown below. Q300 English Studies is the Subject Code, highlighted in yellow. The more detailed JACS codes associated with Q300 follow underneath. A BA in English Language could be recorded, and returned in the school workforce census, as the more detailed JACS code Q310 English Language, if systems allow this to be done, or if not the Subject Code Q300 English Studies. Note in this example Subject Code 2 would be left blank.

Code	Description
Q300	English Studies
Q310	English Language
Q320	English Literature
Q321	English Literature by period
Q322	English Literature by author
Q323	English Literature by topic
Q330	English as a second language
Q340	English Literature written as a second language
Q390	English studies not elsewhere classified

For qualifications with 2 subject specialisms attached to them, eg a BSc in Mathematics and Statistics, Subject Codes 1 and 2 would need to be filled in. In this example G100 (Mathematics) would be recorded for Subject Code 1 and G300 (Statistics) for Subject Code 2.

The JACS codeset represents the courses on offer currently and may not match those available in the past. Therefore there will be some cases where it is not possible to find an exact match between the qualifications of a staff member and one of the JACS codes. To accommodate these cases extra subjects (Z101 – *Science*; Z102 - *Applied Science*; Z103 – *Citizenship*; Z104 - *Design & Technology*; Z105 – *Geography*; Z106 - *Manufacturing* and Z107 - *Modern Languages*) have been added to the CBDS codeset to represent subject areas commonly taught in schools. If a member of staff has a qualification which does not match one of the JACS codes then these extra codes may be used if they provide a close match to the qualification in question. If it is not possible to find an appropriate JACS code or corresponding Subject Code then schools and LAs should leave the Subject Codes blank rather than try to assign a “best fit”.

A set of five SEN qualification areas has been added to the subject codeset in CBDS. Staff who have qualifications relevant to teaching SEN pupils will be able to use these subjects to record that fact, and SENCOs are expected to have the relevant qualifications. The SEN qualification areas are Z201 - *SEN – SENCO*; Z202 - *SEN – Sensory impairments*; Z203 - *SEN – Severe Learning Difficulties*; Z204 - *SEN – Profound and Multiple Learning Difficulties*; Z205 - *SEN – other*.

The SENCO qualification must be recorded where present for any SENCOs

For more information about the JACS codeset visit the HESA (Higher Education Statistics Agency) [website](#).

4.3.3 Class of Degree

Schools are asked to provide ‘Class of Degree’ for all newly employed teachers, ie all teachers with a ‘Date of Arrival in School’ from 1 August 2013. This information is only mandatory where the Qualification Code is returned as ‘FRST’ (first degree or equivalent) or ‘BEDO’ (Bachelor of Education).

If data is held on degrees of teachers employed before 1 August 2013 or for degrees other than those outlined above this data may be returned to the department as part of the school workforce return.

5. Local authority level

LA Level information is collected in one module – Educational Psychologists. This is Census specific data and may not necessarily be generated by software in LAs. These data items need to reflect the position on the Census day and so schools will need to collect them on 7 November and manually enter them into their systems.

5.1 Educational psychologists module

LA level (headcount) rather than school workforce level (individual) data is required for educational psychologists that

- have a current contract, for 28 days or more, with the LA on the Census day or
- are employed at the LA for 28 days or more via a current service agreement with another LA or agency on the Census day.

5.1.1 Number of full-time educational psychologists

LAs should return the number of full-time educational psychologists in regular service at the LA on the Census day.

5.1.2 Number of part-time educational psychologists

LAs should return the number of part-time educational psychologists in regular service at the LA on the Census day. Each part-time educational psychologist should be counted as one member of staff, regardless of the hours that they work.

5.1.3 FTE of part-time educational psychologists

LAs should return the total FTE for all the part-time educational psychologists.

For example, if there are three part-time educational psychologists with FTEs of 0.2, 0.3 and 0.4, then the FTE of part-time educational psychologists would be $0.2 + 0.3 + 0.4 = 0.9$.

6. Codesets – school workforce level

The following codesets are taken from the Common Basic Data Set (CBDS) which is published on the department's [website](#). **Some codes may be available in the CBDS but are not expected to be returned in the school workforce census. These codes appear at the bottom of the tables with explanatory notes.** The CBDS is updated as and when necessary and so these codesets may be subject to change.

Gender	
0	Not Known (gender has not been recorded).
1	Male
2	Female
9	Not Specified (indeterminate; unable to be classified as either male or female)

Ethnicity	
WBRI	White - British
WIRI	White - Irish
WOTH	Any Other White Background
MWBC	White and Black Caribbean
MWBA	White and Black African
MWAS	White and Asian
MOTH	Any Other Mixed background
AIND	Indian
APKN	Pakistani
ABAN	Bangladeshi
AOTH	Any Other Asian Background
BCRB	Black Caribbean
BAFR	Black - African
BOTH	Any Other Black Background
CHNE	Chinese
OOTH	Any Other Ethnic Group
REFU	Refused
NOBT	Information Not Yet Obtained

The following two codes should not be used for the school workforce census. The codes are available in the CBDS for use in relation to pupil ethnicity in the School Census – use WOTH instead

WIRT	Traveller of Irish Heritage
WROM	Gypsy / Roma

Disability	
YES	Yes
NO	No
NOBT	Information not obtained
REFU	Refused

QTS Route	
ACEG	Annual College Exit - Graduate course
ACEP	Annual College Exit - Post graduate course
OTTP	Overseas Trained Teacher Programme
OTTN	Overseas Trained Teacher, not yet on Programme
RTPR	Registered Teacher programme
GTPR	Graduate Teacher Programme
TFST	Teach First programme
RECG	Mutual Recognition from NI, Scotland or the EU
FLEX	Flexible Routes
SCD	School Direct
SCDS	School Direct (Salaried)

Contract Type	
PRM	Permanent
FXT	Fixed Term
TMP	Temporary
SLA	Service Agreement with Local Authority
SAG	Service Agreement with Agency
SOT	Service Agreement with other source

Post	
EXH	Executive Head Teacher
HDT	Head Teacher
DHT	Deputy Head
AHT	Assistant Head
TCM	Classroom Teacher, main pay range
TCU	Classroom Teacher, upper pay range
LDP	Leading Practitioner
SUP	Support Staff
AVT	Advisory Teacher
TAS	Teaching Assistant

Role	
ADMC	Administrator / Clerk
ADVT	Advisory Teacher (unattached)
ARTD	Art &/or Design Technician
ASHT	Assistant Head
ATTN	Attendance Officer
BEHM	Behaviour Manager/Specialist
BILN	Bilingual Support Assistant
BURS	Bursar
BUSS	Business Manager
CADV	Careers Advisor
CARE	Childcare Officer
CART	Creative Arts Specialist
CATR	Other Catering Staff
CLNR	Cleaner
COOK	Cook
COVR	Cover Supervisor
CTKR	Caretaker
CXPA	Connexions Personal Adviser
DATA	Data Manager / Analyst

Role	
DPHT	Deputy Head
EDWO	Education Welfare Officer
ESCT	Escort
EXAM	Examinations Officer
EXHT	Executive Head Teacher
EXTS	Extended Schools Manager/Support
FINC	Finance Officer
HDHO	Head of House
HDPT	Head of Department
HDTR	Head Teacher
HDYR	Head of Year
HLTA	Higher Level Teaching Assistant
HSLO	Home-School Liaison Officer
ICTM	ICT Network Manager
ICTT	ICT Technician
INST	Instructor (including sports coach)
INVG	Exam Invigilator
LANG	Language Support
LIBR	Librarian
LITR	Literacy Worker
LMEN	Learning Mentor
LRNM	Learning Manager
LSEN	Learning Support Assistant (for SEN pupils)
MIDA	Midday Assistant
MIDS	Midday Supervisor
MINS	Minority Ethnic Support
MISC	Miscellaneous Teaching Service for the LA
MUSC	Music tuition (include peripatetic)
MUSS	Music Specialist
NASS	Nursery Officer/Assistant
NNSE	Nursery Nurse
NURS	Nurse

Role	
OADM	Other School Admin
OCSU	Other Central Support Staff
OICT	Other ICT Support Staff
OMAN	Office Manager
OPRE	Other Premises Staff
OPSU	Other Pupil Support
OPWE	Other Pupil Welfare
OTEC	Other Technician
PAHT	Personal Assistant to Head Teacher
PAST	Pastoral Support
PERI	Peripatetic Teacher (unattached)
PREM	Premises Manager
RECP	Receptionist
RPRG	Reprographics Technician
SENC	SEN Co-ordinator
SPLY	LA Supply Pool
SSEC	School Secretary
STCH	Science Technician
TASS	Teaching Assistant
TCHR	Classroom Teacher
THER	Therapist
TMIS	Teacher: engaged to teach in miscellaneous establishments
TNON	Teacher: engaged for non-school education
TPRU	Teacher: engaged to teach in a Pupil Referral Unit
TRAV	Traveller Support
TTCH	Technology Technician
WELF	Welfare Assistant
The following code should not be used for the school workforce census (role is out of scope).	
EPSY	Educational Psychologist

Origin	
1STIMM	First employment in teaching - immediately after training
1STAFT	First employment in teaching - not immediately after training
1STEBR	First employment in teaching - employment based teacher training
TCHLEA	Teaching post within the LA sector (school or central staff) in England or Wales
TCH6TH	Teaching post within a Sixth form college in England or Wales
TCHIND	Teaching post within an independent school in England or Wales
TCHFHE	Teaching post within a University, FE/HE college in England or Wales
OTHEDU	Other education post in England or Wales
TCHSNI	Teaching post in Scotland or Northern Ireland
OTHSNI	Other education post in Scotland or Northern Ireland
TCHFOR	Teaching post outside the UK
OTHFOR	Other education post outside the UK
EMPPUB	Non-education employment - public sector
EMPSLF	Non-education employment - self-employment
EMPOTH	Non-education employment - other employment
UNEMPL	Unemployed and seeking work
FAMBRK	Break for family reasons
OTHBRK	Other break
OTHERR	Other
NOTKNW	Not known
NOTAPP	Not Applicable - change of contract

Destination	
LEAPRM	Remaining in the same LA - primary school
LEASEC	Remaining in the same LA - secondary school
LEAOTH	Remaining in the same LA - other (including central staff)
OTHPRM	Move to another LA - primary school
OTHSEC	Move to another LA - secondary school
OTHOTH	Move to another LA - other (including central staff)
LEASIX	Sixth form college - same LA area
OTHSIX	Sixth form college - other LA area

Destination	
INDEPN	Independent school
FHEHUK	University, FE/HE college in UK
NONUKP	Education post outside UK
PUBSEC	Non-education employment - public sector
SELFMP	Non-education employment - self-employment
OTHERE	Non-education employment - other employment
RETAGE	Retirement - normal age
RETILL	Retirement - ill-health
RETPRM	Retirement - premature
MATFAM	Maternity/Paternity/Break for family reasons
OTHERR	Other
NTKNWN	Not known
DECESD	Deceased
NAPPCH	Not Applicable - Change of Contract

Pay Scale	
LD	Leadership
TE	Teachers Main
TU	Teachers Upper
LP	Leading Practitioners
UT	Unqualified Teachers
SO	Soulbury
NJ	National Joint Council (Local Government Services)
OT	Other

Regional Spine	
LI	Inner London
LO	Outer London
LF	London Fringe
EW	Rest of England & Wales
