

## Workplace learning qualification success rates 2013/2014

### Success rate and minimum standards example report layouts

Date of issue 13 November 2014

---

#### Purpose of document

1. This document provides example report layouts for the 2013/14 workplace learning qualification success rate reports. The document also contains the format of the data files that will accompany the reports.

#### Overview of the report contents

2. The 2013/14 workplace learning qualification success rate reports will be output in four separate .pdf files.
  - Report file 1 will contain qualification success rate reports based on the overall success rate measure, including qualification aim level information and a subcontractor report, reports 1 - 12.
  - Report file 2 will contain overall classroom learning and workplace learning minimum standards reports based on the overall success rate measure, reports 13 and 14.
  - Report file 3 will contain qualification success rate reports based on the timely success rate measure, including qualification aim level information and a subcontractor report, reports 15 - 25.
  - Report file 4 will contain qualification success rate information for the Large Employer Outcome Pilot, reports 26.
3. Two Microsoft Excel data files will accompany the reports.
  - Data file 1 will contain details of each learning aim included in the success rate calculations. This file is the same format as the classroom learning file except that the classroom learning file has an additional field at the end of the record. This is to allow providers and software developers to produce a merged classroom learning and workplace learning file, if desired.
  - Data file 2 will contain details of each learning aim that has been excluded from the success rate calculations, and the reason for exclusion. This file is the same format as the

#### Skills Funding Agency

Cheylesmore House, Quinton Road, Coventry, CV1 2WT  
T 0845 377 5000 [www.skillsfundingagency.bis.gov.uk](http://www.skillsfundingagency.bis.gov.uk)

A partner organisation of the Department for Business, Innovation & Skills

classroom learning file. This is to allow providers and software developers to produce a merged classroom learning and workplace learning file, if desired. Not all exclusions on the file are applicable to workplace learning.

### Points to note about the report layouts

4. The reports contain dummy data and the values in total lines are not the sum of the individual lines.
5. The reports do not show all the possible levels that could be output. Often some levels have been omitted so that the report example fits onto a single page.
6. A report will not be output if there is no data for the provider, For example, the subcontractor report (report 12) is not produced if the provider has no subcontracted provision.
7. Minimum standards reporting is incorporated into the qualification success rate reports. Report 13 shows where the success rate of a learning aim falls below the minimum standard tolerance. Report 14 shows whether amount of under-performing provision in a qualification type group is below the minimum standards threshold. The minimum standards thresholds and tolerances will be published at a later date.
8. Minimum standards will be determined for classroom learning and workplace learning combined and will use the overall success rate measure.
9. Where the 'Total Percentage Leavers Below MS Threshold' cell in the headline report is coloured red this indicates that the total classroom learning and workplace learning 'Percentage Leavers Below MS Threshold' is greater than the minimum standards tolerance.
10. Where the 'Total Leavers' and 'Total Success Rate' cells in a report are coloured red this indicates that the total classroom learning and workplace learning qualification success rate is below the minimum standards threshold.
11. The definition of qualification type is published in the workplace learning qualification success rate dataset production specification document (where it is called Qualification\_Size). The qualification types, and the composition of each qualification type group, is shown in report 14.
12. Suppression and rounding is applied to provider group and national values to protect the possible identification of individuals and to control the rigour of the statistics reported.
  - a) If the number of leavers is less than 30 the value is replaced with a dash (-)
  - b) The number of leavers values are rounded to the nearest 10
  - c) When calculating the success rate, if the number of leavers is less than 5 then the success rate is replaced with a dash (-)

# Qualification Success Rate Reports

## for the Overall Qualification Success Rate

### Reports:

1. Headline Performance
2. Qualification Success Rates by Qualification Type and Level
3. Qualification Success Rates by Sector Subject Area
4. Qualification Success Rates by Level
5. Qualification Success Rates for Stand Alone Full Level 2 or Full Level 3 Qualifications
6. Qualification Success Rates by Ethnicity
7. Qualification Success Rates by Gender
8. Qualification Success Rates by Learning Difficulties/Disabilities
9. Qualification Success Rates by Disability
10. Qualification Success Rates by Learning Difficulty
11. Qualification Success Rates for Learning Aims
12. Subcontractor Qualification Success Rates

The data relating to the National Qualification Success Rate is for the internal use of the provider only. This data cannot be published or shared outside the provider until after the publication of the Statistical First Release in January 2015

Level 2	60040415	Award in Supporting Individuals with Learning Disabilities (QCF)	Leavers	34	45	190		
			Success Rate	72.7%	76.8%	56.2%		

etc... for each qualification type, level, map code and learning aim reference.

The map code heading and map code totals are only output when a learning aim has a map code. Map codes apply mainly to A Levels, AS Levels, A2 Levels, GCSE and functional skills.

The map code heading and map code totals are output even if the map code only has one learning aim.

The data is output in the sequence of sector subject area tier 1, sector subject area tier 2, qualification type, level, map code, learning aim reference.

A learning aim reference is only output if the provider has leavers for the learning aim for 2013/14.

The success rate value for 2013/14 is coloured orange if the success rate of the learning aim falls below the minimum standard tolerance for the qualification type.

<b>Map Code</b>	<b>B1420210</b>	<b>Award in Functional Skills (QCF)</b>	<b>Leavers</b>	<b>34</b>	<b>45</b>	<b>190</b>		
<b>Total</b>			<b>Success Rate</b>	<b>72.7%</b>	<b>76.8%</b>	<b>56.2%</b>		
<b>Award</b>								
Level 2	50102539	Award in Mental Health Awareness (QCF)	Leavers	145	172	73		
			Success Rate	84.1%	77.1%	88.1%		
Level 2	60040415	Award in Supporting Individuals with Learning Disabilities (QCF)	Leavers	34	45	190		
			Success Rate	72.7%	76.8%	56.2%		

etc... for each qualification type, level, map code and learning aim reference.

The map code heading and map code totals are only output when a learning aim has a map code. Map codes apply mainly to A Levels, AS Levels, A2 Levels, GCSE and functional skills.

The map code heading and map code totals are output even if the map code only has one learning aim.

The data is output in the sequence of qualification type, level, map code, learning aim reference.

A learning aim reference is only output if the provider has leavers for the learning aim for 2013/14.
