Version history

Version	Change history	Author / date
1.0	All dates updated 1.2.1 – Adopted form care – added 4.10 – Free school meals - updated 4.13 – Adopted from care – added 4.15 – Pupil SEN provision - updated 4.16 – Home information module - added	Phil Dent September 2014
1.1	4.2 – Unique learner number – ULNs are required for all pupils aged 14 or over. Whilst this was contained in Version 1.0, it was not marked as a change	Phil Dent September 2014
1.2	2.6 – Generating the AP census (local authorities) – link updated	Phil Dent November 2014

1. Introduction

1.1 Purpose of this document

This document is provided for use by local authorities and providers of alternative provision (AP), so that relevant staff:

- understand the rationale behind and purpose of the AP census (section 1)
- are able to populate their systems with the required data ([section 2](#))
- are able to keep their data up to date during the year and
- are able to complete the AP census return during 2015 ([section 4](#))

It is envisaged that this document will be used as a handbook for data collected and retained by both providers and local authorities for use throughout the year, rather than just as guidance on census day.

This document is published on the department's [website](#).

local authorities may choose to use it directly with their providers or adapt it to suit their local needs as appropriate. Software suppliers and developers of in-house systems may also find it a useful reference document.

1.2 Changes from alternative provision census 2014

1.2.1 New data items

Adopted from care

This data item (100549) will identify those children on roll on census day who were looked after immediately before adoption or prior to being subject of a residence or special guardianship order. See [paragraph 4.13](#) below for further details.

1.3 Who is in the scope of the alternative provision census?

The census of pupils in alternative provision is a local authority census that requires the return of individual pupil records. The census covers pupils attending a school not maintained by an local authority for whom the authority is paying full tuition fees, or educated otherwise than in schools and pupil referral units, under arrangements made (and funded) by the authority.

To be included within the AP census, pupils should be aged between 2 (as at 31 December 2014) and 18 (at 31 August 2014) ie those pupils born between 01/09/1995 and 31/12/2012.

Pupils should **NOT** be included in the AP census if they are included in one of the following census:

- the school census for maintained nursery, primary, secondary, all-through schools (including academies and free schools) and maintained, non-maintained and hospital special schools, and PRUs (including AP academies and AP free schools) in England
- the annual school census for maintained general hospital schools
- the early years census

Pupils at non-maintained special schools may, however, also be in the scope of the AP census if they are local authority funded (see [paragraph 1.3.3](#) for details).

However, some pupils may legitimately appear on the AP census and also on the schools census (for maintained nursery, primary, secondary and special schools, including hospital special schools). For example, some pupils' main source of education could be in AP, but they could also be registered at a maintained school that has not arranged the AP. In this case, the local authority is taking responsibility for the pupil's education and to reflect this, the pupil will be recorded on the AP census. The pupil is however registered at the school and so in order to avoid double counting, such pupils should also be recorded at the mainstream school or PRU (including AP academy or AP free school) as having a registration status of 'S' - current subsidiary (dual registration). The pupil will be funded through the dedicated schools grant by way of the high needs block and not the school census registration

Importantly, those pupils registered at a maintained school where the school is responsible for the pupil's education and as part of this has arranged some alternative provision, for example home tuition or attending a FE college, should **NOT** be included in the AP return.

They should only be recorded on the school census, with a registration status of 'C' - current (single registration at this school).

Broadly speaking, for the purposes of this census, 'alternative provision' includes the following provision:

- independent school
- hospital
- non-maintained special school
- not a school

with full details provided below in paragraphs 1.3.1 to 1.3.4.

1.3.1 Independent schools

Includes schools in England and Wales for whom the local authority is paying full or part tuition fees. This will include pupils attending independent schools within an authority and pupils attending those in another authority's area for whom the full cost of tuition is paid for by the authority wholly or in conjunction with the health authority.

'Imported' pupils should **NOT** be included: ie those pupils attending an independent school in an authority's area for whom another authority is paying tuition fees.

1.3.2 Hospital

Refers to children who are in hospital but which is not a hospital school. Those pupils attending 'hospital' in another authority's area but for which the local authority is paying tuition fees should be included. These are sometimes known as 'exported' pupils.

'Imported' pupils (those attending an establishment in the local authority but for whom another authority is paying the fees) should **NOT** be included in the return.

1.3.3 Non-maintained special schools

Includes those pupils attending such establishments in the local authority or another authority's area for whom the local authority is paying full or part tuition fees. This will include those pupils for whom the full cost of tuition is paid for by the local authority wholly or in conjunction with the health authority.

Pupils attending an establishment in the local authority for whom another authority is paying the fees should **NOT** be included in the return.

1.3.4 Not a school

This covers those pupils being educated otherwise than at school or a hospital. This includes groups such as those educated in community homes or units (including pupils in independent residential homes - located either inside or outside the local authority's geographical boundary - where education is provided on site and for whom the local authority is wholly responsible for their educational provision) and where the pupil is not registered as attending a maintained school.

Pupils taught at home only includes those pupils who are receiving local authority funding and also those arrangements made for the education of pupils in travellers' families other than those who are on roll at a school on census day.

Also included are pupils of compulsory school age, not registered at a school, who are being educated at FE colleges and for whom the local authority are financially responsible, and asylum seekers of compulsory school age attending FE colleges or with voluntary sector providers.

Children whose parents have decided to educate them at home are NOT included in the return, unless the local authority is providing significant support to enable the child to

attend a college of further education or another alternative provider, or to support their special educational needs.

[Appendix 3](#) gives guidance on different groups of children and whether they should, or should not, be counted as 'alternative provision'.

1.4 Rationale behind the alternative provision census

The following factors are the business drivers behind the alternative provision census:

- the department currently collects individual level data on pupils in mainstream schools through the school census. Analysis of individual pupil records supports the drive to raise standards, provides accurate targeting of funding and assists the monitoring and development of policy. For example: information about pupils with special educational needs (SEN); pupils who require SEN support; those pupils who are eligible to receive free school meals; and pupil's ethnicity are used to monitor the government's social inclusion policy
- the introduction of the dedicated schools grant requires that accountability for expenditure in this area be demonstrated. Individual level data produces better-quality data and thereby increases confidence that expenditure is being targeted properly and improves the evidence base for formulation and delivery of other policies
- discussions have been held with policy colleagues within the department to determine the data items that ought to be collected. The intention is to ensure that only those items that are essential, and likely to be held by most settings or local authorities, should be included
- the data collected and transmitted are as defined in the common basic data set (CBDS) database

1.5 Statutory basis of the census

The submission of the AP census returns, including a named set of pupil records, is a statutory requirement on alternative provision providers under the [Education \(Information about Children in Alternative Provision\) \(England\) Regulations 2007](#).

Putting the AP census on a statutory basis:

- means that providers do not need to obtain parental or pupil consent to the provision of information
- ensures providers are protected from any legal challenge that they are breaching a duty of confidence to pupils, and
- ensures that returns are completed by providers

1.6 Structure of the AP census

The 2015 alternative provision census will mainly consist of pupil level data. The individual data items are listed in [section 3](#).

1.7 Key concepts

1.7.1 Data quality

In order to properly account for pupils in the AP sector, it is important that the data collected by providers and local authorities, for onward transmission to the department, is both accurate and complete.

In [section 3](#) there is a complete list of data items that are required by the census, together with an explanation of each of them. For instance, it is important that a pupil's correct and full name is recorded and not just a shortened version. Where providers of data adhere to this requirement, it will help ensure that duplicate records are quickly identified and thereby aid the speed of the process by which funding is allocated to providers.

1.7.2 Ethnicity

All pupils aged 5 and over as at the previous 31 August should have an ethnic category assigned to them. Where the information has not yet been collected then this needs to be recorded as 'not obtained'. If the parent or pupil has refused to give the information then 'refused' should be assigned. Ethnicity must not be recorded as the local authority / provider perceives the pupil. This is really important from a data protection point of view. Information on the ethnicity of recipients of AP will be used to monitor inclusion strategies and other government and local initiatives.

There is a list of recognised and acceptable ethnic descriptions and codes in [Appendix 1](#). The codeset reflects categories used in the 2001 national population census.

1.7.3 Duplicate records

The nature of AP means that pupils can be offered a 'package' that includes provision from more than one provider. The co-ordination of these pupil records by the LA prior to submission of the return will greatly diminish the double counting of such pupils.

Local authorities are asked to make every effort to avoid duplicate records being submitted. Where duplicate records are discovered during or after the process to allocate funding, discussions will need to take place between the providers concerned and the local authorities involved in order to clarify where the funding for the particular pupil is to be allocated.

2. Completing the census

This section provides guidance on creating a census return. It covers census dates and the steps that will need to be taken on or around each census day.

2.1 Census dates

Every local authority in England is expected to complete an individual pupil level census return. The AP census will take place on **Thursday 15 January 2015**.

The deadline for the 2015 census return to reach the DfE is **Friday 6 March 2015**. Local authorities will want to liaise closely in the weeks running up to the census date to ensure that all appropriate pupils are included and that accurate data is supplied from all providers by the deadline.

2.2 Steps in census generation

- local authority contact liaises with all providers of alternative provision to ensure local authority records of pupils are complete and accurate
- any discrepancies will be resolved between the local authority and the provider
- local authority produces the census return according to the business and technical specification (available on the department's website)
- local authority uploads the return to COLLECT (see glossary at appendix 3)
- further validation takes place in COLLECT and errors resolved before finally submitting the return to DfE via COLLECT no later than Friday 6 March 2015

2.3 Providing the data

Local authorities and providers should ensure that all the data items described in [section 4](#) are readily available and accurately recorded via electronic means eg bespoke MIS or spreadsheet. Providers and local authorities should agree a process for this to take place.

Local authorities should make sure that their data reflects the pupils receiving AP on census day.

2.4 Local authority inputting and validation

Census data is used:

- for funding purposes
- by the department's policy divisions
- by other government departments

- by local authorities
- by schools
- by external agencies, and
- by educational researchers

Accuracy of data is therefore paramount. local authority software may already contain aids to the cleansing of data eg address validation, pupils with more than one registered base, which will help identify and correct errors and inconsistencies in the data prior to creating the census return.

This will substantially reduce the number of validation errors in the return and, thereby, any effort required to resolve such issues.

2.5 Resolving conflicts

Errors and inconsistencies in the data should be resolved between the local authority and the provider before the full return for the local authority is created. Local authorities should advise their providers of the means by which this process will be undertaken.

2.6 Generating the AP census (local authorities)

These completion notes should be read in conjunction with the business and technical specification which is available on the department's [website](#).

For the AP individual level return, local authorities will need to export data from the spreadsheet or database used to record the information and load it into the DfE COLLECT system.

The business and technical specification outlines the requirement for an AP file. The file must contain data as outlined in the specification in respect of content, structure, and format.

The department can only accept data that conforms to the XML structure as per the specification. If the data is organised in any other way then it will not load. In these circumstances the data will need to be reformatted in such a way as to bring it in line with the specification.

The department has provided a data entry spreadsheet which enables the input of file header and individual pupil record information. On completion of entry of the data the file can then be converted to XML format, via the spreadsheet, to allow for uploading to COLLECT. The data entry spreadsheet is available on request from the department's service desk, by completing a [data collection service request form](#).

2.7 Sending the census to DfE

The local authority will submit the required data to the department via the COLLECT website via the following steps:

1. Log onto the secure website from 15 January 2015.
2. Upload the file.

Successfully loaded data is automatically validated by the COLLECT system.

After validation is complete the local authority will be able to view its data return, observe the validation outcomes and decide if there is any further action required in response to the validations. For example, the local authority may need to query something and return to COLLECT to make a change to the data. The local authority may wish to run a report from COLLECT or export the validated data set so it can be used in another system. Ultimately, the local authority will need to submit the data so that the department can consider it to be finalised.

The above is a brief outline of the process. Prior to the data collection the local authority will be able to access detailed COLLECT guidance documentation. Availability of this guidance will be announced in the alternative provision census 'early warning' and 'final readiness' news bulletins and published on the department's [website](#).

3. Preparation – data items required

3.1 Introduction

[Section 4](#) provides information of all data items that are required for the census.

Most of the data items collected in the AP census are those which the local authority and the provider would be expected to hold for their own purposes. The majority of items should therefore be kept up to date as part of normal business processes.

3.2 Data to be collected in the alternative provision census

The AP census collects individual items of data about pupils who attend AP education.

The data items are fully described in the business specification and its associated tables which can be found on the department's [website](#).

Additionally, code sets for individual data items are given in [appendix 1](#).

LAs are encouraged to study these data items well before the full census to ensure data will be available in the correct format.

3.3 Pupils not attached to any school

There are children who are unattached (either temporarily or permanently) to any maintained school in its area, but for whom the local authority has responsibility. These include:

- children receiving AP
- permanently excluded pupils not yet assigned to a new school but are receiving an education provision
- home educated pupils eg those requiring SEN support or undertaking FE courses
- SEN pupils attending a non-maintained school

In many cases pupils will have already been allocated a UPN¹ (especially if moving to the AP sector from a maintained school).

¹ The unique pupil number (UPN) is a number that identifies each pupil in England uniquely. A UPN is allocated to each pupil according to a nationally specified formula on first entry to school (or perhaps in some cases earlier), and is intended to remain with the pupil throughout their school career regardless of any change in school or local authority (LA).

Where, exceptionally, a pupil has not previously been in a maintained school or other establishment and hence does not have a UPN then one should be allocated using the national formula with a 'dummy' school number in the range 3950-3999.

It may be appropriate to use different dummy school numbers for each type of pre-school or unattached pupil, but the precise choice of numbers can be at the local authority's discretion - provided all numbers are in the 3950-3999 range. It is essential however that the authority has a single point of control for the allocation of UPNs to all types of pre-school or unattached pupil to ensure that no two pupils are allocated the same UPN. Further details about UPNs and their allocation can be found on the department's [website](#).

3.4 Data protection & security

Data held on pupils (in any medium, including within a MIS) is classified as personal data. Such data must be managed in accordance with the requirements of the Data Protection Act 1998 and all staff that can access personal data should be aware of their responsibilities under the Act.

As part of their work on reducing burdens on schools and local authorities, the DfE has devised a slimmed down version of the Privacy Notice and this is available on the department's [website](#).

Local authorities need to ensure that any providers that they engage are aware of this privacy notice and how/when to issue it.

Providers should check with their local authority AP census co-ordinator if there is any doubt about whose responsibility it is to issue the privacy notice.

4. Pupil / child level

This section lists in detail the data required for the 2015 alternative provision census:

4.1 Unique pupil number (UPN)

A Unique Pupil Number (UPN) is allocated to each pupil in a maintained school in England. It is an identifier for use in the educational context during a pupil's school career only and is subject to Data Protection restrictions.

4.2 Unique learner number (ULN)

A Unique Learner Number (ULN) is required for all students in alternative provision aged 14 and over on census day.

ULNs are assigned to students over the age of 14 in publicly funded education and training and the ULN became mandatory for use in English schools from January 2014. They are allocated and managed by the [Learning Records Service](#) (LRS) and will remain with the individual for their lifetime. If a student does not already have a ULN assigned to them, local authorities can sign the learning provider agreement which will provide LAs with access the LRS system which will enable them to issue and manage ULNs **only** for pupils receiving alternative provision and who are not associated with a school having a UKPRN and access of its own to system. These users will need to complete an [Organisation Registration form](#) to nominate a super user for the system.

It is important that if a ULN has been assigned to a student it is included in the AP census return.

4.3 Pupil / child surname

Full legal surname, as the local authority believes it to be (local authorities are not necessarily expected to have verified this from a birth certificate or other legal document).

4.4 Pupil / child forename

Full given first name of the child (not common contractions).

4.5 Pupil/child middle name(s)

In full, not shortened or familiar versions; if pupil has no middle name(s) then this field must be left blank.

4.6 Pupil / child preferred surname

The surname (as written) most commonly used in the local authority.

4.7 Date of birth

Date of birth of pupil/child in the format CCYY-MM-DD.

4.8 Gender

Gender of pupil (see codeset in [appendix 1](#))

In exceptional circumstances the local authority / provider may be unsure as to which gender should be recorded for a particular pupil. The advice from the department is to record the gender according to the wishes of the pupil and/or parent.

4.9 Ethnicity

Pupil/child ethnic code (see codeset in [appendix 1](#)). An ethnicity code is only required if the pupil is aged 5 years and over.

4.10 Free school meal eligibility start date and end date

Note: Known free school meals will be used by the department in determining the pupil premium allocations for schools and, as such, it is essential that this data item is correctly recorded on the AP census.

(a) Data collected

Each of the census collections will require the inclusion of any periods of FSM eligibility since the previous census for those pupils on roll on census day. The following three data items will be used to collect this information:

- FSM eligibility start date
- FSM eligibility end date

Country of UK (this will be system generated and will not require any data entry by schools)

These data items will be collected for pupils within the scope of the collections on roll on census day and with any periods of FSM eligibility since the last census ie those with:

- a) an FSM eligibility start date on or before the current census day and no FSM eligibility end date (eligibility on-going on census day); or
- b) an FSM eligibility end date from the first day after the previous census and on or before the current census day

In respect of b) for the 2015 AP census returns the FSM eligibility end dates are as follows between 17 January 2014 and 15 January 2015 inclusive

Multiple FSM eligibility start and end dates falling within the period should be returned where applicable.

For example, if a pupil had been eligible for FSM from 1 April 2014 until 31 October 2014 and then became eligible again from 1 December 2014 then the following would be returned in the 2015 AP census:

For the first period of eligibility:

FSM eligibility start date of 01/04/2014 and FSM eligibility end date of 31/10/2014 and

For the second period of eligibility:

FSM eligibility start date of 01/12/2014 and no FSM eligibility end date

Pupils should only be recorded as FSM eligible if they meet the FSM eligibility criteria (ie in respect to family income) and make a claim. Pupils who are **only** in receipt of a free school lunch due to a universal entitlement - such as the infant pupil universal entitlement – should **not** be recorded as FSM eligible and therefore will not be eligible to receive pupil premium.

(b) Pupil premium funding

The provision of additional funding to schools via the deprivation pupil premium is directed to those pupils from deprived backgrounds and is based on their eligibility for free school meals (FSM).

Only pupils aged 4 and above in Reception to Year 11 (or aged 4 to 15 where national curriculum year groups do not apply) are eligible for pupil premium funding. Pupils attending nursery schools or non-maintained special schools are not eligible for the pupil premium.

The terms under which the payment of pupil premium operates are set out in the pupil premium conditions of grant which are available on the department's [website](#).

The provision of additional funding through the pupil premium only covers FSM eligibility in England. Any periods of FSM eligibility in any other country do not count when determining a pupil's eligibility for the pupil premium.

Each period of FSM eligibility will have a system generated Country of UK code attached to enable the department to ensure that those pupils who have only experienced periods of FSM eligibility outside of England do not attract the pupil premium.

For periods of eligibility when a pupil was on roll at a school in England the Country of UK code will be 'ENG'. Pupils who were on roll at a school in Wales, Scotland or Northern Ireland will have been assigned a code of 'WLS', 'SCT' or 'NIR' respectively.

(c) Eligibility for free school meals

Free school meal eligibility periods will be used by the department in determining the pupil premium allocations for schools and, as such, it is essential that this information is correctly recorded on the AP census.

Periods of FSM eligibility for pupils should be recorded ONLY if a claim for free school meals has been made by them or on their behalf and either

- the relevant local authority / school have confirmed that they are entitled to free school meals; or
- the relevant local authority / school have seen the necessary documentation (eg a TC602 Tax Credit Award Notice) that shows that they are entitled to free school meals

Conversely, if pupils are in receipt of a free school meal but there is confirmation that they are no longer eligible and entitlement will be revoked then the period of eligibility should be ended (with the recording of an appropriate FSM eligibility end date).

[The Education \(School Lunches\) \(Prescribed Requirements\) \(England\) Order 2003](#) sets out an additional requirement for children who have not attained compulsory school age but receive education. These children must be registered pupils and be 'receiving education both before and after the lunch period' before being eligible for free school meals.

Children whose parents are in receipt of one of the following are entitled to receive free school meals:

- Income support (IS)
- Income based job seekers allowance (IBJSA)
- An income-related employment and support allowance
- Support under part VI of the Immigration and Asylum Act 1999
- Child tax credit (provided they are not entitled to working tax credit) as approved by Her Majesty's Revenue and Customs*
- Guarantee element of state pension credit

* A parent is entitled to the working tax credit run-on payment for a further four weeks after they stop qualifying for working tax credit. Their children are entitled to free school meals for the period that they are in receipt of this payment.

Children who receive IS or IBJSA in their own right are also entitled to receive free school meals.

It is not necessary for individual schools / local authorities. As to calculate a family's annual taxable income. The HM Revenue and Customs (HMRC) will perform this income calculation and it is this figure that should be used to determine free school meal

entitlement. Each time a tax credit award is calculated, the HMRC will automatically issue a tax credit award notice (TC602) to the applicant. The award notice will set out the annual income and key family details. This notice includes details of all the information that is required to assess a child's free school meal eligibility (under the 'tax credit' category) and it is strongly suggested that this document is used to make that assessment. Similarly, it is strongly suggested that the pension credit award notice (issued automatically by the pension service to all those in receipt of pension credits) is used to assess a child's free school meal eligibility under the 'guarantee state pension credit' category.

See the frequently asked questions on the pupil premium page of the department's [website](#) for further information.

(d) FSM eligibility checking service

The FSM eligibility checking service (ECS) streamlines the FSM eligibility checking process for both local authorities and parents. The ECS allows local authorities to electronically check in a single application all the relevant data held by three government departments (DWP, Home Office and HMRC) in order to confirm pupils' FSM eligibility. Rather than providing paper evidence (eg TC602) of being in receipt of the relevant benefit, parents simply need to provide their NI number, date of birth and surname. Local authorities are then able to undertake an eligibility check in real time via their on-line link to the system.

The ECS is only accessible by local authorities, who use it on behalf of their schools to check pupils' entitlement to free meals. Academies are not able to access the ECS themselves and may not have easy access even when the local authority in which they are based is using it. Some academies have made arrangements with an local authority (often for a fee) for them to check eligibility via the ECS on their behalf. The service available, and its cost, varies between local authorities.

Some local authorities also provide a web-based service which enables parents to check their own eligibility via the ECS. Parents of pupils attending academies can use, [myfreeschoolmeals](#), to check if their children are eligible for free school meals.

4.11 School lunches taken

This data item indicates whether a pupil has **taken** a 'school lunch' on census day; where 'school lunch' is defined as food made available by the school for consumption by the pupil as his/her midday meal on a school day.

This data item will be collected from all school types in each census from the 2014 autumn census onwards for the following pupils only:

- all pupils on roll on census day in reception (ie NCYearActual = 'R')
- all pupils on roll on census day in year 1 (ie NCYearActual = '1')

- all pupils on roll on census day in year 2 (ie NCYearActual = '2')
- all pupils on roll on census day aged 4 to 6 not following the national curriculum in reception (NCYearActual = 'X' AND pupil born between 1 September 2007 and 31 August 2010 inclusive)

Data collected via this new data item will be used to inform the allocation of funding following the introduction of universal infant meal funding from September 2014.

Although a single census figure will initially be used for funding purposes in the first year; in future years, an average of figures from the last 3 termly census returns will be used. It is recognised that schools will experience some fluctuations in pupil take-up due to pupil migration, absence etc but it is expected that a pattern of meal take-up will be established fairly quickly. Schools will be expected to monitor any changing take-up and manage this appropriately within their existing budget.

As it is expected that meal take up under the universal infant meals policy will be high, it is recommended that this field should be defaulted to TRUE within school systems, to minimise the burden of data entry by schools.

4.12 Service children in education indicator

The service children indicator will be used by the department in determining the pupil premium allocations for schools and also to assist with identifying both the impact that being a service child has on the education of a pupil and the impact that catering for large numbers of service children has on individual schools. In the light of the above, it is essential that this data item is correctly recorded on the school census.

Please note that data on individual pupils is not being shared with the Ministry of Defence.

The service children indicator recorded on the school census indicates if a child has a parent or parents who is/are service personnel serving in regular HM Forces military units of all forces; or in the armed forces of another nation and stationed in England; and exercising parental care and responsibility.

Please note that the Territorial Army are not classed as the regular armed forces and, as such, these pupils should not be considered service children on the school census.

The service children indicator is only relevant to children whose parents are designated as personal category 1 or 2 which are shown on the [GOV.UK website](#). However, all parents will be aware of their personal category. From the above link you will see the following definitions:

Personal category 1 (PStat Cat 1)

Those in PStat Cat 1 will meet one of the following qualifying criteria:

- a) a legally married member of the armed forces, who lives with their spouse, or who would do so but for the exigencies of the armed forces
- b) a member of the armed forces, who is registered in a civil partnership in accordance with the civil partnership act 2004; or is in a civil partnership under an overseas scheme recognised under that act; and who lives with their registered civil partner; or who would do so but for the exigencies of the armed forces

Personal category 2 (PStat Cat 2)

Those in PStat Cat 2 will be a member of the armed forces who has parental responsibility within the terms of the children act 1989 for a child(ren) and who satisfies all of the following conditions:

- a) can properly be regarded as the centre and prime mover in the life of the child(ren)
- b) provides a home where they normally live with the child(ren) except where unable to do so for reasons attributable to their service in the armed forces
- c) provides, where the child(ren) is unable to care for itself, a child carer who can look after the child(ren) during their absences attributable to their service in the armed forces. The child carer must not be the other natural parent of the child(ren). The other natural parent should normally only have staying access to the child(ren) for an aggregate of 56 days in any 12 month period. Staying access greater than this may render the service person ineligible for PStat Cat2 (these restrictions on access do not apply while on recognised unaccompanied duty)
- d) accepts financial responsibility for the child(ren)

Valid codes are 'Yes', 'No' and 'Refused' with an additional code of 'Unknown' to be held by the school to indicate no response given or other reason for no information.

4.13 Adopted from care

This data item <AdoptedFromCare> (100549) will identify those children on roll on census day who were looked after immediately before adoption or prior to being subject of a residence/child arrangements order or special guardianship order. It will be up to those who have parental responsibility (adoptive parents, special guardians and carers) to decide if they wish local authority / provider to know whether such children have been adopted, or are under a special guardianship order or a residence / child arrangements order. The local authority / provider will be able to record the information using the following codeset; only one of the values will apply to each pupil:

D00239	Adopted from care
N	Not declared
A	Ceased to be looked after through adoption
G	Ceased to be looked after through a special guardianship order (SGO)
R	Ceased to be looked after through a residence order (RO)
C	Ceased to be looked after through a child arrangement order(CAO)

The default value will be N, not declared.

A [template letter](#) is available for local authorities to adapt and send out to their providers to help assist with the identification and allocation of the pupil premium to pupils in alternative provision who have left care under an adoption, special guardianship or residential/ child arrangements order.

4.14 Type of alternative provision

Type of alternative provision, for example independent school, hospital etc (see codeset in [appendix 1](#)).

4.15 SEN provision

Schools currently record pupil SEN provision according to the SEN code of practice 2001. A new code of practice came into effect from September 2014 which will remove the requirement for separate 'school action or early years action' and 'school action plus or early years action plus' categories – these are replaced by a single 'SEN support' category. The Children and Families Bill will replace 'SEN statements' with 'education, health and care plans'.

The changes to 'SEN provision' for the 2014 to 2015 academic year are listed below:

- new code 'K' - SEN support code from September 2014
- remove 'school action or early years action' and 'school action plus or early years action plus' for the 2015 spring census onwards
- new code 'E' - education, health and care (EHC) plan from September 2014

During the transitional period schools will be able to record pupils as having either 'S' - statement or 'E' - EHC plan. Schools may have some pupils with statements and some who have already moved to EHC plans but no individual pupil can have both.

The department expects that schools will review their current cohort of pupils in the 'SA' or 'SA+' categories from September as they normally do (ie at least termly or as new pupils enter the school). Any new, newly identified or reviewed pupils **must** be recorded under the SEN support category, rather than as 'SA' or 'SA+'

The department expects the conversion to be completed by the January census for **most** pupils on the assumption that most schools conduct reviews of SEN pupils within a term.

However it is recognised that this may not be the case for all schools and a transitional period to the end of the spring 2015 term is provided to allow all conversions to be completed.

This data item will be collected in the census collections for all pupils on roll on census day. SEN provision at the time of any exclusion will also be collected in all school census collections (see codeset in [appendix 1](#)).

4.16 Home information module

All data items should be maintained on an event driven basis and will show the pupil's current address only.

Schools are able to provide the department with their addresses in whichever format their data is currently held within their MIS - either SAON, PAON, post town etc (BS7666 address), or address line 1-5. Postcode should be provided with either format. Schools should not worry if these field names do not mean anything to them - no change is needed to the way in which address information is currently held within their MIS to complete the census returns.

Where the BS7666 format is used then the SAON and street must be provided and at least one of town, locality, administrative area or post town.

The expectation is that schools will be able to provide a valid home address for the great majority of their pupils (including boarding pupils). Boarding pupils from abroad should be recorded with their "home" address as the address where they reside during term time, which may be the school's address (If a second address is an overseas address, validation errors on the postcode can be ignored). Where a child has multiple addresses (ie where the child lives with both parents at different stages of the week) both addresses should be supplied.

Whilst every effort must be made to obtain these pupil details, the department understands that in extreme circumstances this is not always possible. In such extreme cases, these fields can be left blank or a partial address can be supplied and the validation errors ignored.

4.16.1 SAON

SAON, the secondary addressable object name, refers to the flat, apartment name or number or other sub-division of a dwelling.

4.16.2 PAON

PAON, the primary addressable object name, refers to the dwelling name and/or number.

4.16.3 Street

The street name or description. Validation will result in a query where there is a dwelling name/number but no street. If the address legitimately has no street, the query can be ignored.

4.16.4 Locality

The locality name refers to a neighbourhood, suburb, district, village, estate, settlement, or parish that may form part of a town, or stand in its own right within the context of an administrative area. Where an industrial estate contains streets it is defined as a locality in its own right.

4.16.5 Town

The town name refers to a city or town that is not an administrative area, a suburb of an administrative area that does not form part of another town or a London district.

4.16.6 Administrative area

The administrative area is a geographic area that may be the highest level local administrative area, which may be a county or a unitary authority, an island or island group or London.

4.16.7 Post town

The post office usually assigns these based on sorting office.

4.16.8 Postcode

The code allocated by the post office to identify a group of postal delivery points.

Or

4.16.9 Address line 1

First line of address.

4.16.10 Address line 2

Second line of address.

4.16.11 Address line 3

Third line of address.

4.16.12 Address line 4

Fourth line of address.

4.16.13 Address line 5

Fifth line of address.

NB. Regarding addresses above, **only one format is required**. Care should be taken not to mix the two formats.

Where the BS7666 format is used then the SAON and street must be provided and at least one of town, locality, administrative area or post town. In addition, the postcode must be provided.

For a line address, the minimum of postcode and **one address line** must be provided. However, up to a maximum of five lines are available for the address, if required.

5. Further information

For further advice on the completion of any part of the AP census return, local authorities should contact the DfE service desk by completing a ['Data collection service request form'](#).

Appendix 1 – codesets for data items

Gender

Gender	
0	Not known (gender has not been recorded). Also covers gender of unborn child.
1	Male
2	Female
9	Not specified (indeterminate; unable to be classified as either male or female)

Ethnicity

Main category	Code	Description
White	WBRI	White – British
White	WIRI	White – Irish
White	WIRT	Traveller of Irish heritage
White	WOTH	Any other white background
White	WROM	Gypsy/Roma
Mixed	MWBC	White and Black Caribbean
Mixed	MWBA	White and Black African
Mixed	MWAS	White and Asian
Mixed	MOTH	Any other mixed background
Asian or Asian British	AIND	Indian
Asian or Asian British	APKN	Pakistani
Asian or Asian British	ABAN	Bangladeshi
Asian or Asian British	AOTH	Any other Asian background
Black or Black British	BCRB	Black Caribbean
Black or Black British	BAFT	Black – African
Other Ethnic Groups	CHNE	Chinese
Other Ethnic Groups	OOTh	Any other ethnic group
Refused	REFU	Refused
Information not yet obtained	NOBT	Information not yet obtained

Pupil SEN provision

SEN provision	
N	No special educational need
A	School action or early years action
P	School action plus or early years action plus
S	Statement
E	Education, health and care plan
K	SEN support

Alternative provision type

Alternative provision type	
HSP	Hospital
IND	Independent school
NMS	Non-maintained special school
NOT	Not a school

Appendix 2 - guidance on groups to include as 'alternative provision'

The following list shows the types of provision that should, and should not, be included as alternative provision (AP) on the census return.

The underlying principle of the AP census is that it should cover pupils resident in the local authority receiving education with an alternative provider (ie a provider not covered by the other collections - school census, early years census and SLASC).

The local authority will be financially responsible for the education of such pupils either from the schools budget or the schools budget with contributions from the wider local authority budget (eg other part of the children's services budget), health authority or another local authority and where the alternative provider is situated either within or outside the local authority area.

If there are any pupils accessing alternative provision who are not covered by this guidance but who meet the underlying principle of the AP collection then the DfE service desk should be contacted immediately by completing the [Data collection service request form](#) to discuss whether they should be entered on the AP return or not.

Definitions of pupils counted as alternative provision

Type of pupil	Include?	Category
Children who are electively home educated by their parents and do not receive local authority support to attend a college of further education or another alternative provider and/or to support their special educational needs.*	No	Not applicable
Children who are electively home educated by their parents and are receiving significant financial support by the local authority to attend a college of further education or other alternative provider and/or in support of the child's special educational needs.**	Yes	Not a school (NOT)
Pupil receiving home tuition for whom the local authority is financially responsible, including those requiring SEN support.	Yes	Not a school (NOT)
Pupil attending a designated hospital school.	No	Not applicable - included in school census
Pupil receiving tuition whilst in hospital. ***	Yes	Hospital (HSP)

Type of pupil	Include?	Category
Pupil in local authority -maintained general hospital school.	No	Not applicable - included in SLASC collection
Pupil of compulsory school age not registered at a school, being educated at FE Colleges and for whom the local authority is financially responsible. Asylum seekers of compulsory school age attending FE colleges or with voluntary sector providers.	Yes	Not a school (NOT)
Pupil with an education, health and care plan or SEN not yet assessed at an independent school for whom the local authority pays the fees. ****	Yes	Independent (IND)
Pupil with an education, health and care plan or SEN not yet assessed at an independent boarding school for whom the local authority pays the educational element of the fees (****) whether or not the boarding costs are met elsewhere (****).	Yes	Independent (IND)
Pupil attending a special school not maintained by the local authority or another authority for whom the local authority pays the fees.	Yes	Non-maintained special school (NMS)
<p>Pupil not receiving education during the census week eg:</p> <ul style="list-style-type: none"> ▪ looked after child awaiting a placement at one of the local authority maintained schools at the time of the census ▪ pupil with education health and care plan living in the local authority in the process of being placed into a school but not present on census date ▪ permanently excluded pupil at time of census not allocated to another school, PRU or alternative provider ▪ child awaiting a placement in an AP setting 	No	Not applicable
Pupil not in the local authority but part funded by the LA as a goodwill gesture.	No	Not applicable
Pupil held in unit for their own safety, where the local authority is paying for the education, although the unit is in another authority.	Yes	Not a school (NOT)

Type of pupil	Include?	Category
Pupil held at a detention centre funded by the Home Office.	No	Not applicable
Pupil not on a school roll elsewhere and held at a detention centre where the local authority is fully financially responsible for the pupil.	Yes	Not a school (NOT)
Pupil for whom the local authority is paying for education in any of the alternative providers covered above but taking place outside England ('exported pupils').	Yes	Not a school (NOT)
Pupil accessing alternative provision in the local authority for whom another authority is fully financially responsible for their education ('imported pupils').	No	Not applicable - Included in the home local authority's return

* Where parents choose to educate their child otherwise than at school at their own expense, then the whole of the provision is at their expense. This includes any additional support or provision that may be required to meet their child's needs, except in circumstances in which local authorities elect to provide support.

**Existing arrangements in which local authorities can draw down funding where they provide significant support for home educated children with special educational needs or to enable a home educated child to attend a college of further education or another alternative provider. Such funding is at the local authority's discretion.

*** The pupil should only be entered if they are not on-roll at a maintained school or other institution covered by school census, early years' census or SLASC.

**** The reference to 'fees' is to those cases where an local authority pays the fees for the educational element of a pupil's schooling. It does not apply to the payment of costs such as boarding. A child placed in an independent boarding school, may be included on the AP return, provided the local authority (either from the schools budget, or from the schools budget with contributions from the social services budget) covers the full cost of the education element ie the day fees element (usually the published day fee) less any bursaries awarded by the school specifically in respect of education provision; **or** contributes to the education costs an amount equivalent to the cost of placing the pupil in a maintained school in the authority.

Appendix 3 - glossary

CBDS	Common basic data set. A set of data definitions that DfE, partners, LAs, and software suppliers use for consistency of data storage and ease of transfer. There are CBDS levels for pupil, school, local authority and school workforce. Each CBDS level contains a number of modules, for example for staff details, for contracts or qualifications. Latest CBDS definitions can be found on the department's website at: Common basic data set (CBDS) database .
COLLECT	COLLECT is a web based data collection tool made available by DfE which facilitates the data collection process and enables the transfer of census data between schools, local authorities and the department. It supports the management of the collection process, with various reports that monitor the quality and completeness of the return. Validation checking and error reporting is also built into COLLECT.
CSV	A comma separated value (CSV) format data file is a text file consisting of a number of text records. Text values are separated by a comma and can optionally be enclosed in double quotes. It is more fully described in the context of the alternative provision census in the business specification.
Dedicated schools grant	The dedicated schools grant (DSG) is the mechanism by which all funding for education services is distributed to local authorities.
Department for Education website	All documentation relating to the 2015 alternative provision census can be found on the department's website .
Privacy notice	Data controllers (those who collect and hold data) have to provide 'data subjects' (individuals who are the subject of personal data) with details of who they are, the purposes for which they process the personal data, and any other information that is necessary to make the processing of the personal data fair, including any third parties to whom the data may be passed on. This is referred to as a 'privacy notice'.
MIS	Management information system(s) - propriety software system(s) used by schools to collect, validate, store, and analyse a range of pupil, school, and workforce data.
SEN	Special educational needs - the list of acceptable codes is in Appendix 1. Assessment of a pupil as having SEN should only be carried out by a qualified teacher.
XML	XML is the extensible mark-up language. It improves the functionality of the web by letting you identify your information in a more accurate, flexible, and adaptable way. XML contains a header followed by a repeating group of data. It is more fully described in the context of the alternative provision census in the business specification. Government interoperability framework encourages the use of XML for data.
