for Education

A guide to new mainstream free school revenue funding 2014 to 2015

Updated February 2015

Introduction

1. **This 14/15 guide has been updated in February 2015 to reflect known changes to some funding rates for the 2015/16 academic year. These include changes to education services grant and post-opening grant rates. The new free schools finance template including the per-pupil general annual grant rates for 2015/16 will be available in April 2015, when a further update to this guidance will be issued. It is important to note that all funding rates can be subject to change.**

2. This guide sets out how the revenue funding for new free schools will be calculated and paid based upon funding rates for the 2014/15 academic year. Free schools are funded at an equivalent level to the maintained schools and academies in the same local authority area.

The following funding will be available in 2014/15 to mainstream free schools upon opening . Each is described in more detail below:

- local pre-16 formula funding;
- national 16-19 formula funding;
- pupil premium;
- education services grant;
- business rates grant;
- high-needs funding; and
- post-opening grant .

3. This guide does not cover:

- funding for non-mainstream free schools (e.g. special or alternative provision free schools for which separate guides are available);
- funding for 16-19 free schools, for which a separate guide is available;
- free schools open before September 2014 (who will be receiving updates on future funding arrangements from EFA alongside other academies);
- local and national funding rates for 2015/16, which will be available in early 2015;
- any initial funding which may be provided by the department to help free school proposers to develop their projects before the opening of the school (e.g. project development grant);
- capital funding, which will depend on the circumstances of individual free schools (and within this heading is included any ongoing annual costs of leasing premises); and
- VAT – open academies and free schools do not receive a separate grant to cover these costs, but may be able to claim back any VAT paid in respect of their non-commercial activity, directly from HMRC via their VAT scheme upon opening.

Financial planning

4. Free schools will want to be planning their expenditure to ensure that it is affordable within the funding provided. This should be an on-going process with financial plans updated as plans for the school are more fully developed, staff are appointed, site plans are developed and other costs are more firmly established. Financial plans should also be updated as further details of funding arrangements are confirmed and reviewed regularly to ensure they reflect the likely number of pupils based on the number of applications. In doing this, free schools will want to make sure they are aware of how the funding provided changed from September 2014, and then in the future, from 2015.

5. The department will need assurance that free schools are on-course to be financially viable on opening. In particular, free schools will be asked to share their current financial plans with the department before entering into a funding agreement (this should include a version modelled around the lowest viable number of pupils for year 1) in June / July during the year within which they will open in order for draft funding allocation packs to be issued. Projects should be ready to submit their plans at these points with evidence to underpin their pupil number assumptions which must be realistic and achievable. The department will want to see that as far as possible the plans reflect the school's income based on the best estimates of available grants, the school's outgoings and the likely number of pupils. The plans should show that the school will not go into deficit at any point.

6. Plans should be based on the most up-to-date available estimates of grant funding. The free schools financial template, available [here](#) on GOV.UK, will calculate your indicative funding using the up-to-date funding rates. The template includes pre- and post-16 ready-reckoners which show the breakdown of funding based upon estimated pupil numbers and characteristics.

Annual revenue funding for free schools

7. Except where stated below, the funding for each free school will be calculated and paid by the Education Funding Agency (EFA). Pre- and post-16 funding will be paid monthly on the first working day of the month in equal instalments.

Local formula funding (pre-16)

8. Most of the annual revenue funding for pre-16 provision within mainstream free schools is based on the local funding formula applied to all schools in the relevant local authority, including maintained schools and academies. The local formula will be a simple and transparent formula, agreed by a local schools forum (a body predominantly made up of representatives of local schools – which must include academies where they exist in the local authority). The formula can only incorporate the following elements (it need not incorporate them all, but those in bold are mandatory):

- **a basic local funding unit for each pupil aged 5-15 attending the school;**
- **deprivation measured by rate of uptake of free school meals and/or IDACI;**
- looked-after children;
- prior attainment;
- pupils with English as an additional language;
- pupil mobility (the number of pupils entering the school at non-standard entry points);
- a lump sum of up to £175,000;
- existing sixth-form commitments;
- split sites;
- exceptional funding factors
- Private Finance Initiative contracts;
- sparsity;
- in Buckinghamshire, Essex, Hertfordshire, Kent and West Sussex only an additional factor is allowed for schools on the London fringe;

Funding protection for local formula funding

9. As the new local formulas are introduced, interim protection for existing schools ensures that their funding is not reduced unexpectedly by a large amount. This takes the form of a per-pupil funding protection which limits the difference in the pupil-led factors (excluding looked after children and mobility and all institution-led factors such as lump sum) to a reduction of 1.5%.

10. The same arrangements will apply for the 2015/16 academic year.

National 16-19 formula funding

11. Most of the annual revenue funding for 16-19 provision in mainstream free schools will be based on the national formula applied to all 16-19 places, including maintained

schools and academies. Schools will be asked to submit a short business case early in the new year before opening providing evidence to support their assumptions about the characteristics to be reflected in the formula. This will inform the final per-pupil funding level.

12. Funding is based on a national 16-19 funding formula:

$$\begin{aligned}
 & [\text{Student numbers} \\
 & \quad \times \\
 & \text{National funding rate per pupil} \\
 & \quad \times \\
 & \text{Retention factor} \\
 & \quad \times \\
 & \text{Programme-cost weighting} \\
 & \quad + \\
 & \text{Disadvantage funding}] \\
 & \quad \times \\
 & \text{Area cost}
 \end{aligned}$$

13. Normally these factors are based on data from two years prior to the allocation year, however, for new institutions they are based upon the business case submitted. EFA will review these business cases prior to opening, usually from February to March. **If no business case is submitted the factors will be based on averages appropriate to the institution at either national or local authority level.**

14. Pupils are categorised into funding bands based on the number of planned hours per pupil. Each funding band is assigned a national funding rate. The bands and funding rates per pupil for 2014/15 are:

Band	Annual timetabled hours	National funding rate per pupil for 2014/15
Full-time	540+	£4,000
4	450 to 539	£3,300
3	360 to 449	£2,700
2	280 to 359	£2,133
1	Up to 279	£4,000 per FTE

15. For new free schools it will be assumed that all pupils are full-time, unless we are informed otherwise, and therefore attract the national funding rate of £4,000 per pupil. It is important to note that all funding can be subject to change.

16. The retention factor will reduce funding if the pupil does not complete their programme of study for the academic year. **For new free schools the national average will be used (0.979 in 2014/15).**

17. The programme-cost weighting recognises that some programmes are more costly to deliver than others. All academic and some vocational programmes are weighted at the base rate of 1. Other vocational programmes are weighted higher than 1, dependent on the sector subject area assigned to the programme's core aim. **For new free schools the national average will be used (1.011 in 2014/15) unless they can justify a different amount** due to the specific programme(s) of study offered, which must be agreed by the EFA prior to opening via the business case exercise.

18. The disadvantage funding is made up of two blocks:

- Block 1 recognises the costs associated with engaging, recruiting and retaining young people from disadvantaged backgrounds (based on IMD 2010). **For new free schools the local authority average will be used, unless they can justify a different amount** in the business case; and
- Block 2 is funding to support young people who have not achieved a GCSE grade C in maths and/or English at the end of year 11. **For new free schools the national average will be used (0.240 in 2014/15) unless they can justify a different amount** in the business case.

19. An area cost uplift will be applied to reflect the higher costs of learning in some areas of the county. This uplift applies to all elements of the formula.

20. Additional funding is then added in respect of:

- **high-needs students:** for 2014/15 this is £6,000 for each student as identified by local authority commissioned places; and
- **student support (bursary) funding:** for new free schools it is assumed that 36% of students will be eligible for student support funding. For 2014/15 this is a standard rate of £292 per student.

21. More information on 16-19 funding is available on GOV.UK [here](#)

Pupil premium

22. An additional national pupil premium is payable for each pupil attending the school in years from reception to year 11 who is known to have been eligible for free school meals at some time in the last six years (£1,300 for primary and £935 for secondary in 2014/15. **The primary rate will rise to £1,320 in 2015/16**). There is also a pupil premium for children of service parents (£300 in 2014/15). A single pupil premium funding payment is made in April each year.

23. A pupil premium of £1,900 for each looked-after child is paid to the local authority, which is expected to pass this amount to the child's school. The local authority will agree a payment schedule for this amount and will stop payment if the child leaves the school (paying the remainder to the child's new school).

24. More information on the pupil premium is available [here](#).

Education services grant

25. Free schools will receive the education services grant (ESG) for all pupils aged 5-15, and for pupils aged 16-19 as long as they are at a school that also provides for younger age groups (pupils in post-16 only institutions do not attract ESG). This compensates for the education services that maintained schools receive free of charge from their local authority. The per-pupil rate for mainstream schools in 2014/15 is £140. **In 2015/16, the rate will be £87 per pupil.**

26. More information on funding for educational services is available [here](#).

Nurseries

27. Although free schools do not receive funding under the free school programme for nursery places, those that intend to provide nursery places will receive the ESG of £140 per FTE nursery place in 2014/15 and £87 per place in 2015/16.

28. To receive funding for nursery places, free schools should register with their local authority, who may provide funding for the free entitlement of up to 15 hours per week for three and four-year-olds, and some two-year-olds. Free schools may also charge for nursery places but should note there are strict guidelines for charging for additional nursery provision.

Risk protection

29. From 2014/15, free schools are able to opt in to a voluntary risk protection arrangement provided by the government. The scheme will be provided in the first year at the rate of £25 per pupil. Free schools receive an allowance for insurance of £25 as part of the general annual grant (GAG).. It is important to note that free schools do not have to enter the scheme and are free to make their own arrangements: however there will be no additional funding provided should extra costs be incurred. The latest information can be found [here](#).

Business rates grant

30. Free schools will receive a grant to cover the actual cost of business rates (at the 80% discounted charitable rate).

SEN/AP commissioner top-up funding (high-needs)

31. Mainstream free schools will receive additional funding from the local authority for pupils aged 5 to 19 with high needs where the local authority have commissioned the place. Schools will be expected to fund the first £6,000 of additional educational costs which are over and above standard teaching and learning for each high-needs pupil from their own budget.

Universal infant free school meals

32. For 2014/15, all children in Reception, Y1 and Y2 are entitled to free school meals. This will be funded at a per-pupil cost of £2.30 per day for newly-eligible pupils, i.e. who would not otherwise have been eligible for free school meals. In their year of opening, free schools will initially be funded based on the estimates of the pupil numbers used to issue their indicative funding letter. They will receive payment on 1 September. Adjustments to reflect actual pupil numbers will be made in January, based upon data from the October schools' census. Arrangements for 2015/16 will be confirmed later in 2015.

Post-opening grant

33. Free schools are provided with a post-opening grant to reflect the additional costs in establishing a new publicly-funded school which cannot be met through the general annual grant (GAG). The post-opening grant provides funding in two elements as the free school grows: non-staffing resources, paid on a per-pupil basis; and a leadership grant. These titles reflect the basis on which the funding is calculated, but the grant can be spent on any legitimate purpose of the school.

34. The first element (resources) is paid each year that the school builds up to capacity for each new pupil expected to be on roll. It is paid at the following rates:

- £250 for each new mainstream pupil in the primary phase (years R to 6); and
- £500 for each new mainstream pupil in the secondary and 16-19 phases (years 7 to 13).

35. The second element (leadership) is paid annually based on the number of year-groups that the school will ultimately have that do not yet have pupils. The amount paid to mainstream schools with pupils aged 5-15 each year depends on how many year-groups (cohorts) are empty, and is set out in the table below.

Empty cohorts	6	5	4	3	2	1	Maximum
Primary	£80,500	£67,500	£54,000	£40,500	£27,000	£13,500	£283,000
Secondary (regardless of whether the school plans to have a sixth form)			£125,000	£93,500	£62,500	£31,000	£312,000
All-through (regardless of whether the school plans to have a sixth form)	£125,000	£93,500	£62,500	£54,000	£40,500	£27,000	£402,500

36. Independent schools becoming free schools are not usually eligible for the post-opening grant.

Financial accountability

The Academies' Financial Handbook

37. The Academies' Financial Handbook is available on GOV.UK [here](#) . The handbook, together with the funding agreement, sets out the financial management and governance requirements for academy trusts.

38. You must comply with the handbook throughout the pre-opening period and once open. This is outlined within the grant agreements underlying any funding you receive from the department and/or EFA. Non-compliance with the handbook is considered a breach of contract and may trigger various sanctions.

39. The handbook includes requirements in relation to financial oversight, financial planning, internal control, financial monitoring and management and proper and regular use of public funds as well as a number of other specific matters. The handbook also sets out the audit requirements for academy trusts.

40. The handbook is aimed at trustees, accounting officers (principals and chief executives), principal finance officers (finance directors and business managers), clerks to the board of trustees, local governing bodies of multi-academy trusts and auditors.

41. The handbook clearly articulates that the accounting officer is personally responsible to Parliament, and to the accounting officer of the EFA, for the resources under their control. This personal responsibility extends to ensuring regularity, propriety and value for money. The accounting officer also has responsibilities for keeping proper financial records and accounts, and for the management of opportunities and risks.

Audited financial statements

42. The Academies Accounts Direction is available on GOV.UK [here](#). The Accounts Direction sets out the elements to be included in the academy trust accounts and the accounting treatments required. It also provides a model format for the accounts to aid consistency between trusts.

43. Accounting periods must run to 31 August each year in line with trusts' memorandum and articles of association and the funding agreement. Trusts must inform Companies House of their accounting reference date of 31 August.

44. Trusts must submit audited accounts (and the auditor's management letter) for each accounting period to EFA by 31 December each year. The only exceptions are as follows:

- i) **You have not signed your funding agreement by the accounting reference date of 31 August** – prior to signing the funding agreement, the trust does not fall within the scope of the Accounts Direction. Instead, accounts should be prepared and filed in accordance with company law.

- ii) **You are able to extend your accounting period** – under company law, first accounting periods may be extended to a maximum of 18 months. Free schools are typically not able to take advantage of this exception as the period from incorporation to 31 August is typically longer than 18 months.
- iii) **Your trust is dormant through the accounting period** – if there are no transactions to report during the period, trusts may prepare dormant accounts which do not need to be audited. Trusts can rarely take advantage of this exception as there will be pre-opening income and expenditure once project development grants are provided.

45. The timetable for submission and publication of accounts, including how accounts are submitted, is set out in detail in the Accounts Direction. Key deadlines are given below:

- **By 31 December** – Trust to send audited accounts and auditor's management letter to EFA.
- **By 31 January** – Trust to publish accounts on their website.
- **By 31 May (i.e. within nine months of the end of the accounting period)** – Trust to file accounts with Companies House. This is with the exception that where a trust is preparing accounts for its first period after incorporation and is preparing them for a period of greater than 12 months, accounts must be filed within 21 months of incorporation, or within three months of the end of the accounting period, whichever is later. Further information can be found [here](#).

Other financial returns

46. Trusts must also submit the following financial returns to the EFA once open:

- **Budget forecast return** – submitted to the EFA in the autumn term in the first year only, and by 31 July in every year including the first year;
- **Academies accounts return** – submitted to EFA by 28 June in the first year only, and by 31 January in every other year;
- **[Financial management and governance self-evaluation](#)** – submitted to EFA within four months of opening; and
- **Value for money statement** – submitted to EFA by 31 December in every year excluding the first year.

47. Trusts are responsible for keeping up to date with the latest deadlines. More information is available on GOV.UK [here](#).

48. You can also keep up to date through the EFA e-bulletin – you can sign up [here](#).
