Data Sources

The statistics published in this release relate to applications for 24+ Advanced Learning Loans for Level 3+ provision starting in the 2014/15 academic year.

The data used to produce this monthly report are sourced from the Student Loans Company (SLC) application database. It should be noted that the data refer to all received applications for 24+ Loans (both unprocessed and processed, but excluding those ineligible, cancelled, deleted and in data entry) and are subject to change. Therefore, application figures are not necessarily indicative of actual learner starts.

The data used in this report are sourced from an operational database that is updated on an ongoing basis, and therefore month to month application figures may fluctuate due to further processing of received applications. This may sometimes result in total application figures from launch in a particular table category increasing more or less than would be expected based on the previous month's submitted applications, or even decreasing from one month to the next.

Other Related Statistics

On Wednesday 25th March 2015 the Department for Business, Innovation and Skills published the Further Education and Skills Statistical First Release, which contains figures relating to learners participating in FE in the first six months of the 2014/15 academic year who were funded through the 24+ Advanced Learning Loans system.
