1. Introduction

The apprenticeship service will allow employers to choose and pay for the apprenticeship training that they want and will support the uptake of apprenticeships. The service is designed for employers, with information coming from a range of different sources, including training providers.

A key part of the apprenticeship service will be an online search facility for employers to find suitable apprenticeship standards or frameworks by pathway and to identify approved training providers who can deliver that training.

In this document where we use the term 'you', we mean training providers who wish to deliver apprenticeship training.

This guide is designed to help you write content about your organisation and the apprenticeships to be displayed in the apprenticeship service.

For technical information about apprenticeship data and how you can submit it, please refer to the [apprenticeship data: course directory provider portal user guide](#). If you need help with accessing the course directory provider portal and submitting your apprenticeship data, please email the [course directory support desk](#) or call 0844 8115073.

1.1 Who should use this guide?

You should use this guide if you are responsible for, or produce, content about apprenticeships on behalf of your organisation to be displayed in the apprenticeship service.

This may include colleagues in the following areas:

- marketing
- communications
- online/website content
- business development

You should read this document **before** you provide information about your apprenticeships through the course directory provider portal.

The information you submit will be displayed on the apprenticeship service once you have been **accepted as a main provider** onto the Register of Apprenticeship Training Providers (RoATP) and the information you have added has **passed** quality assurance. We will quality assure your information against this guidance document and contact you to let you know the results. We may ask you to make some changes if your information does not comply.

If you are already on the RoATP and you make any changes to your apprenticeship information, it will be displayed in the apprenticeship service the following day. Once published, you can check how your content looks and make further changes if you need to.

Only add apprenticeships that you currently deliver.

1.2 How will my details be presented?

The screen shot on page three of this document is an example of how your information will be presented in the apprenticeship service. This guide provides information to help you complete the sections highlighted below.

This is a brief description of your organisation written for employers. It should be accurate, clear and concise and should be relevant to all of your apprenticeships.

This section gives you the opportunity to tell employers about your organisation. You should include information that will help employers understand more about your organisation and why they might want to choose you to deliver their apprenticeship training.

Employers who want to find out more will be able to contact you directly, so use this section to highlight the key information.

Ensure that the content is written for an **employer audience** and not for individuals or potential apprentices. Use the first-person plural pronoun to describe your apprenticeship offer, for example, ‘we provide’ and ‘our service’.

Please make sure you enter sufficient detail, for example, not just a website address or that you are a higher education provider. If you want to include claims about your organisation, they must be clearly evidenced and current, for example: ‘Voted best training provider 2016 by Birmingham Chamber of Commerce’. You should not include information already displayed to employers such as FE Choices or achievement rates data.

You are responsible for updating information where it becomes out of date or is no longer relevant.

You can use this section to tell employers about:

- what type of training provider you are
- how long you have been providing apprenticeship training
- any particular sectors your organisation is associated with – for example: ‘we are transport specialists’
- particular specialisms, if applicable, to all of your apprenticeships
- your broad, geographical coverage

Make sure you **don’t**:

- make unverifiable claims – for example: ‘we are the best in the country’
- give specific apprenticeship training details – for example: ‘level 4 business administration’
- use the term ‘standard’ or ‘framework’; use ‘apprenticeship’ instead
- use the term ‘learner’ or ‘student’; use ‘apprentice’ instead
- use the term ‘course’; use ‘apprenticeship’ or ‘training’ instead
- name specific employers
- include Ofsted grades other than the main rating for the whole organisation
- include URL (http://) links: these will not work because they will not be in the correct format

You can use a maximum of 750 characters, (this includes spaces between words). Please refer to the screen shot in section 1.2 of this document to see an example.

Always check your spelling and grammar before submitting any information.

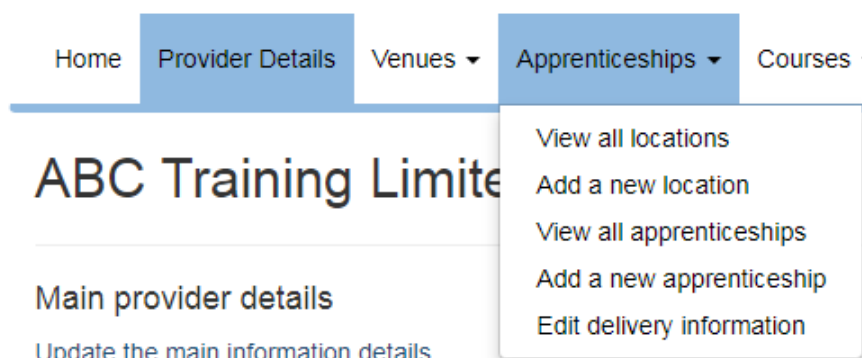

If you copy and paste text into the ‘Overview of your organisation for employers’ field it may affect the formatting, so you will need to check the information is displayed correctly in the live service.
