## 1. Action: submit your college financial plans by Wednesday 31 July 2019 via IDAMS

Further education and sixth-form colleges must submit their financial plans and other supporting documentation to ESFA by Wednesday 31 July 2019.

We have changed submission arrangements for 2019 and colleges should now submit their documents online via IDAMS (Identity and Access Management System).

Further details are set out on the [college financial planning handbook webpage](#).

The rejected application will not count towards providers' allowance of 2 applications in 12 months.

If you have any queries please contact [RoATP.MAILBOX@education.gov.uk](mailto:RoATP.MAILBOX@education.gov.uk).

### 3. Information: list of further providers selected to deliver T Levels

We have now published the [list of further providers who have been selected to deliver T Levels from academic year 2021 to 2022](#) on GOV.UK.

The Department for Education (DfE) have also published the [funding consultation response](#) which outlines how T Levels will be funded and the additional support being provided for 2020 T Level providers.

## **4. Information: recording accurate data on the individualised learner record (ILR)**

We have identified through qualification achievement rates (QARs), cases where providers have not accurately recorded the ILR for:

- breaks in learning in apprenticeships
- late reporting of withdrawn learners. This is where learners are either being withdrawn in-year or across funding years, where the withdrawal date is also within the qualifying period
- withdrawal reasons

We systematically interrogate ILR data to identify data discrepancies, including these. We will report to you, and where necessary, challenge you on your data accuracy as you submit ILR data.

We will take action where appropriate; which could involve funding recovery, applying conditions to your contracts or termination in the most serious cases.

It is vital that the ILR data is accurate. Inaccurate data affects regulators and customers who use this data to make judgements on the quality of provision, in addition to funding and QARs.

## **5. Information: qualification achievement rate (QAR) – in-year data release for 2018 to 2019**

We will release QAR data at the end of June 2019.

This in-year QAR release will provide indicative apprenticeship and education and training QARs, based on the 2018 to 2019 ILR R10 data. Providers can use this data internally to identify and resolve potential data issues prior to the ILR R14 hard close on Thursday 17 October 2019.

We urge you to review your data now to check that it is accurate as we cannot correct your data after the R14 submission. We have supplied information about

the common data issues and funding monitoring reports that can help you review your data.

We will publish this data on [the Hub](#) and dashboard through the [View Your Education Data portal](#). The 2017 to 2018 QAR data will continue to be available until final QAR 2019 to 2020 data is published.

Following feedback, we will release an additional in-year QAR at the end of August, using the R12 ILR submission.

We will release provisional QAR data for 2018 to 2019 to individual providers in January 2020, and then publish final QAR data in March 2020.

You can find further details on our [QAR webpage](#).

## **6. Information: qualification achievement rate (QAR) technical specification documents and in-year guidance for 2018 to 2019**

We have published the [following documents for QAR 2018 to 2019](#):

- the QAR technical specification documents
- in-year guidance document

You should read these documents alongside the [business rules](#), which explain the methodology for calculating QARs for 2018 to 2019.

## **7. Information: minimum standards 2018 to 2019**

We have published the [minimum standards for 2018 to 2019](#). This document confirms:

- we have published the apprenticeship minimum standards for 2018 to 2019 as the final application of this policy
- this document confirms that the apprenticeship threshold remains at 62% for the 2018 to 2019 data
- the document also reminds providers that there are no minimum standards thresholds for 19+ education and training or 16 to 18 minimum standards for the 2018 to 2019 data or beyond

# 8. Information: change in payment dates from August 2019

We are changing the date on which we make payments from August 2019.

We are combining the adult payment dates into one and will pay the following funding streams on the 14th working day of the month:
