Introduction

The teachers' pension grant provides funding to further education providers to cover increased employer contributions to the Teachers' Pension Scheme (TPS). The funding for this commenced in the 2019 to 2020 academic year, this guidance covers the arrangements up to the 2021 to 2022 academic year.

Eligibility

The following types of further education (FE) institutions participate in the TPS:

- general FE colleges
- sixth-form colleges
- designated institutions (including the new designated institutions that form part of higher education (HE) provider group structures)
- special post-16 institutions

These providers will receive extra funding for increased employer contributions in each academic year covered by this grant if they receive Education and Skills Funding Agency (ESFA) funding for the same period.

We will treat colleges converting to academies before the start of the payment period as an academy, and they should refer to the [guidance for schools](#). We will treat those converting during a payment period as an academy from the next appropriate payment point.

Local authorities

Local authorities should have [applied](#) to the Department for Education for 2019 to 2020 and 2020 to 2021 for extra funding for TPS costs related to their adult community learning providers through a separate process to cover all of their centrally employed staff covered by the TPS. This is due to the significant variation in local authority approaches to employing teachers centrally. We will confirm the arrangements for local authorities for 2021 to 2022 in due course.

Calculating and making payments

2019 to 2020 academic year

We used the 2017 to 2018 financial year audited payments made by providers to Capita for TPS with uplifts of 2.6% a year to reflect average increases in earnings since then to calculate funding. This covers the difference between expenditure at the current rate and estimated expenditure at the new, higher rate.

The calculation gave the figure that would apply if the change was in place for a full 12 month period. The extra funding for 2019 to 2020 academic year covered 11 months because the new employer contribution rate came into effect in September 2019.

We made 2 separate payments:

- September 2019, covering 7 months
- April 2020, covering 4 months

Where colleges had merged since 2017, we combined the payments made and associated them with the new institution.

2020 to 2021 academic year

We used the 2018 to 2019 financial year audited payments made by providers to Capita for TPS to calculate funding.

We calculated the difference between the TPS payments at the old and new rates (16.4% and 23.6% respectively) and applied uplifts of 3.1% and 3.0% to reflect average increases in earnings in 2019 and 2020 respectively. The calculation gave the additional funding that would apply for a full 12-month period. The funding is provided in 2 separate payments:

- September 2020 for the 8-month period from August 2020 to March 2021. The amount will be 8/12 of the full year figure and was communicated in February or March 2020
- April 2021 for the 4-month period from April to July 2021. This second payment was confirmed following the autumn 2020 spending review and we aim to confirm the amounts to institutions by the end of February 2021. The April 2021 payment will be calculated pro rata to the September 2020 payments, so will normally be half of the September amount

Where colleges have merged since 2018, we combine the payments made and associate them with the new institution.

Institutions that receive 16 to 19 ESFA funding receive confirmation of the payment amounts alongside their 16 to 19 funding allocation for academic year 2020 to 2021. We communicate funding amounts for all other institutions by email. Note that TPS funding is not age specific.

2021 to 2022 academic year

We will pay the FE teachers' pension scheme employer contribution grant for the full academic year 2021 to 2022 (August 2021 to July 2022). We will confirm the approach to calculating the payments for that year and the allocations for individual institutions in due course.
