[Annex F: assurance and audit process](#)

## What is an ITE bursary?

In the 2022 to 2023 academic year, we are making available a package of support to help further education (FE) providers attract high-quality individuals into the teaching profession in the FE sector in certain defined subject areas. This package includes FE initial teacher education (ITE) bursaries to support pre-service training of teachers in priority areas. This funding manual sets out the scope, eligibility criteria and application process for the FE ITE bursaries offer. These bursaries are for teaching in the FE sector only, and are distinct from the [school teacher training bursaries](#) also available.

From the 2022 to 2023 academic year, in-service grants (supporting the recruitment and training of English, maths and special educational needs and disabilities (SEND) teachers, previously offered alongside pre-service bursaries) will no longer be available under this scheme. Any information regarding the provision for in-service grants will be published on GOV.UK in due course.

The bursaries, available for the 2022 to 2023 academic year, are awarded to trainees based on their relevant qualifications or professional experience, and their intention to teach a designated priority subject in the FE sector. The bursary amount varies according to the subject in which they train to teach.

Bursary awards are fixed for the duration of the trainee's ITE programme, and are for programmes starting in or after September 2022, and finishing no later than

August 2023 (for full-time courses) or August 2024 (for part-time courses). Awards will be made from a finite funding pot on a first-come-first-served basis, as detailed in [bursary allocations](#). English bursary awards will be capped at 100 places in the 2022 to 2023 academic year, allowing for more of a focus on SEND and science, technology, engineering and mathematics (STEM) subjects.

## COVID-19: teaching expectation

FE ITE trainees are considered to be in the critical worker pipeline along with other key higher education students. Department advice for FE providers is available at [Actions for FE colleges and providers during the coronavirus pandemic](#). Our current advice confirms that a full curriculum should continue to be made available to trainees, including 100 hours of teaching practice and relevant observations, with the intention of completing their qualification on time. We continue to fully support the Education and Training Foundation's 'Additional guidance for qualifications in education and training' which was updated on 29 January 2021: [ETF ITE Qualification mitigations guidance](#).

## Bursaries available

ITE bursaries are available in the subjects in this table for courses starting in the 2022 to 2023 academic year. See [bursaries eligibility](#) for details of trainee requirements.

<b>Subject</b>	<b>Bursary</b>
Mathematics	£26,000
Science, including biology, chemistry, and/or physics	£26,000
Engineering (and/or manufacturing)	£26,000
Computing	£26,000
Special educational needs and disabilities (SEND)	£15,000
English (capped at 100 places)	£12,000

Funding will not be provided for any subjects that are not included in this list.

You must not make assumptions about the continuation, value or scope of ITE bursary awards in future years based on the information provided in this guidance.

We will publish information regarding the availability of any future training bursaries (beyond the 2022 to 2023 academic year) at the appropriate time.

## Bursary eligibility

For a trainee to be eligible to receive a bursary, you must make sure that the trainee meets the criteria set out here. These points should be read in conjunction with the corresponding sections of this manual, which give further guidance.

To be eligible, a trainee must:

- be eligible to receive student support
- have achieved a standard equivalent to GCSE grade 4 (C) or above in English and mathematics, and at least a level 3 qualification in their subject of training (or have appropriate professional experience)
- be taking a qualifying pre-service ITE course in England
- not already be in possession of a diploma in education and training (DET), DET-compliant qualification or equivalent
- not have already received a full FE ITE bursary award for a previous FE ITE programme or a full FE ITE grant for a previous qualification
- not already hold, or be eligible to receive, early years teacher status (EYTS), qualified teacher status (QTS), qualified teacher learning and skills (QTLS) status or advanced teacher status (ATS)
- not receive a salary or other payment for any teaching work associated with the FE ITE programme for which they are receiving the bursary
- not be simultaneously undertaking any other ITE course, training scheme or programme, that leads to a DET or DET-compliant qualification
- not be on an apprenticeship programme
- meet other related expectations, including intending to seek an FE teaching post in England after qualification

If any of these eligibility criteria cannot be met because of circumstances arising due to COVID-19, email: [FE.workforceincentives@education.gov.uk](mailto:FE.workforceincentives@education.gov.uk).

## Eligibility for UK student support

To receive an ITE bursary the trainee must meet one or more of the definitions for being an 'eligible' student to receive grants and loans towards tuition fees or living costs as set out in the [Education \(Student Support\) Regulations 2011](#), part two (eligibility).

FE ITE bursaries do not contain a disability aspect, and therefore being in receipt

of Disabled Students' Allowance (DSA) has no impact on eligibility for a bursary. Likewise, receipt of a bursary does not impact on eligibility to receive DSA.

The EU Withdrawal Agreement provides that current EU principles of equal treatment will continue to apply for those covered by the citizens' rights provisions in the Withdrawal Agreement. This means that EU nationals resident in the UK before the end of the transition period on 31 December 2020, and who qualify for pre-settled status or settled status under the EU Settlement Scheme, will continue to be eligible for home fee status and student financial support on broadly the same basis as previously, subject to meeting the usual residence requirements. Similar agreements have been signed with the European Economic Area (EEA) - European Free Trade Association (EFTA) states and Switzerland. For further information, read [Student finance eligibility](#).

Further guidance for EEA and Swiss citizens is available at [Studying in the UK: guidance for EU students](#).

For further information on these requirements, contact [Student Finance England](#).

Trainees from the Isle of Man, Jersey and Guernsey may not meet one of the definitions for eligibility. However, they may still be eligible for support from their respective home education departments and, where this is the case, they will still be eligible for an ITE bursary on the basis that they meet all other criteria.

International students can contact the [UK Council for International Student Affairs \(UKCISA\)](#) for advice on student support and other issues around studying in the UK.

## Qualifications

To be eligible to receive a bursary a trainee must have achieved a standard equivalent to:

- English GCSE grade 4 (C) or above
- Maths GCSE grade 4 (C) or above

The Department for Education (DfE) does not provide a list of qualifications that can be considered equivalent to the GCSE examinations in English and mathematics. When you look for evidence that a qualification is of a standard equivalent to GCSE grade 4, you should look at the content not only in terms of its level, but also in terms of its breadth.

It is the standard, not the certificate, that matters. Applicants who are otherwise suitable but have not successfully achieved a GCSE grade 4 may be given an opportunity to show that they can meet the required standard either by taking an equivalence test or by offering other evidence of attainment, which should demonstrate a similar level and breadth. You should consider making similar

arrangements for candidates who cannot provide original certificates as evidence.

Qualifications in key and functional skills at level 2 are not equivalent to GCSEs in terms of content. You should look for additional evidence of breadth of knowledge and understanding in applicants who have key and functional skills certificates but do not have GCSEs at grade 4 or above in English and mathematics. You should look for further evidence of a breadth of achievement in English where applicants have achieved a GCSE grade 4 or above in English literature only.

You should be confident that a trainee's subject qualification has the same level of breadth and depth that would be expected of a UK level 3 qualification. If the trainee does not hold a relevant level 3 qualification, you can use your discretion when considering the trainee's skills, knowledge and experience - including relevant professional experience - to determine whether their subject knowledge is sufficiently robust to allow them to complete an ITE programme successfully.

An ITE bursary award is dependent on the subject that a trainee trains to teach - not the subject of any other qualifications they hold.

### **Example:**

If a trainee with a degree in English and relevant sector experience trains to teach physics, they will be eligible for a £26,000 physics bursary. If they train to teach English, they will be eligible for a £12,000 English bursary.

This should not change your selection or recruitment process, including making judgements about the suitability of qualifications or professional experience to the subject of training.

Further information on making and recording qualification decisions is available in [Annex B: assessing UK academic qualifications](#).

## **Qualifying ITE courses**

To be eligible to receive a bursary, the trainee must be recruited to a qualifying pre-service ITE course in England, beginning in or after September 2022 and finishing no later than August 2023 (for full-time courses) or August 2024 (for part-time courses). We will accept applications on behalf of eligible trainees who were recruited onto in-scope courses before the bursaries were announced.

A qualifying course must lead, upon successful completion, to the award of a level 5 DET or a same or higher level DET-compliant qualification, with a specialisation in one of the subjects identified in [Annex A: list of subjects eligible for a bursary](#).

A small number of providers may call a part-time FE ITE course an 'in-service' course. To clarify if a trainee on such a titled course is not employed (they are studying pre-service before entering paid teaching employment), then this course title by itself would not make them ineligible for the bursary.

As set out in [COVID-19: teaching expectation](#), a full curriculum should continue to be made available to trainees, including 100 hours of teaching practice and relevant observations, with the intention of completing their qualification on time.

Courses that enable a trainee to be recommended for the award of EYTS, QTS, or a non-DET-compliant qualification, are not eligible for ITE bursary funding.

### **Combination courses**

The course content must be at least 50% of the bursary subject awarded.

#### **Example:**

A course with content of 50% or more in English and the remainder in drama would receive the English bursary.

A course with content of more than 50% drama would not be eligible for a bursary as there is no bursary award for this subject.

Courses with equal content of 2 subjects will be awarded the bursary for the subject which attracts the highest bursary rate.

## **Possession of a DET, DET-compliant qualification, or equivalent**

Individuals who hold a DET or DET-compliant qualification on the first day of their ITE course are not eligible for a training bursary. Separate continuing professional development may be appropriate for those who already hold these qualifications.

Information on qualifications which may be considered 'DET-compliant' is available from the [Student Finance England eligibility guidance](#) (from the 'Select a policy type' drop-down menu select '2021/22 guidance chapters' and then 'Guidance Chapter - Assessing Eligibility Guidance 2122').

## **Award of an FE ITE bursary or a grant for a previous qualification**

If an individual has already received a full FE ITE bursary award for a previous FE ITE programme or a full grant for a previous qualification, they are not eligible for another FE ITE bursary.

## **Possession of, or eligibility for, EYTS, QTS, ATS or QTLS status**

Individuals who hold, or are eligible to receive, EYTS, QTS, ATS or QTLS are not eligible for an ITE bursary.

## **Paid teaching work**

Trainees receiving bursary payments must not receive a salary or other payment for any teaching work associated with the FE ITE programme for which they are receiving the bursary.

## **Undertaking other ITE courses, training schemes or programmes that lead to a DET or DET-compliant qualification**

To be eligible for an ITE bursary, trainees must not simultaneously undertake any other:

- teacher training course, including teaching apprenticeships
- programme leading to a DET or DET-compliant qualification

## **Apprenticeship programme**

Individuals studying on apprenticeship training programmes are not eligible for an FE ITE bursary.

## **Trainee expectations**

We expect that trainees who accept a place with you and are eligible to receive a bursary will:

- inform you of any changes to their bank account details and address

- promptly inform you if they intend to withdraw from the course
- sign a declaration of understanding with you to the effect that they expect to seek an FE teaching post in England on successful completion of their course

You should also make it clear how you intend to pay the bursary to the trainee. [Bursary payments](#) contains more details on payment patterns.

## Bursary allocations

### General process

Bursaries are funded from a predefined pot of money, and the number that can be awarded will therefore be limited. It is possible that not every candidate who meets the eligibility criteria will be able to receive a bursary. It will depend on the total number of eligible applications received.

We welcome applications from everyone irrespective of background but, as ethnic minority groups are currently under-represented in the FE teaching workforce, we would encourage applications from members of these groups. Bursaries will be awarded based on applicants meeting the eligibility criteria set out in this manual and the availability of funding.

For the 2022 to 2023 academic year, funding for pre-service bursaries, will be allocated on a first-come-first-served basis, regardless of the trainee's choice of eligible subject specialism, with the exception of English bursaries which will be capped at 100 awards.

Once the available funding has been exhausted, we will retain details of anyone remaining on a waiting list in case any trainee withdraws before their course starts, and their bursary can be reallocated.

If a trainee who has been deemed eligible for a bursary withdraws, you must notify us immediately so we can consider reassigning the funding to another trainee. You must not assume that such funding can be retained or will be allocated to another trainee in your institution unless and until you have received explicit confirmation from us.

### How to apply for a bursary

You must determine whether a trainee and their specific course are eligible for a bursary prior to making an application.

The application form is available at [FE funding: initial teacher education \(ITE\) 2022 to 2023](#). Only applications made using this form will be considered and only the FE ITE provider can make the application. We do not accept applications from trainees.

You can make applications for trainees at any time, either on a case-by-case basis or in batches, ahead of a course starting, by emailing a completed application form to [FE.workforceincentives@education.gov.uk](mailto:FE.workforceincentives@education.gov.uk). The DfE requests that providers refrain from sending multiple application forms in a single day, due to the administrative burden that this causes.

You should wait to seek confirmation of whether a bursary can be awarded before informing trainees in writing. You should make sure that trainees are informed of whether they are eligible for a bursary in good time before the start of their ITE course. We cannot provide written confirmation to trainees.

Only one bursary is available per trainee. Prior to making an application, you must ensure that your trainees have not applied for a bursary from another FE ITE provider. We reserve the right to make further enquiries where necessary to ensure proper use of public funds.

## Bursary payments

You are responsible for the management and administration of bursary payments, including:

- assessment of eligibility
- awarding the bursary to the trainee
- notifying us in a timely manner if a trainee withdraws from their course

To be able to receive bursary funding for your trainees, you must complete and return a grant funding agreement (GFA). When you first request confirmation of bursary availability for specific trainees we will issue a GFA for your signature, which you must return as soon as possible. If you are not already registered with us as a recipient of grant funding, it is particularly important to return the signed GFA quickly as there is a lead-in time to process these. Failure to do this promptly may mean we are unable to release funding until after trainees have started their courses. You will be issued with a single GFA, regardless of the number of bursary applications made. No funding can be released for any applicant until we have received and accepted the signed GFA.

If you are a new ITE provider in the 2022 to 2023 academic year and have not previously received grant funding you will need to set up a DfE supply record to receive payments. You can do this at [Provide information about your banking and payments to DfE](#).

Details of other requirements, including around maintaining necessary evidence

and audit trails, are set out in [monitoring, assurance and data requirements](#).

## Trainee payments

You should make bursary payments to trainees throughout the academic year as detailed in [Annex D: value and timing for ITE bursary payments](#).

In a change from the bursary offer in academic years 2020 to 2021 and 2021 to 2022, payments for part-time trainees will be made to you over the lifetime of their course.

These payments are not taxable. However, as with student maintenance loans, they may be treated as capital income for the purposes of assessing income for trainees in receipt of state benefits. We advise you to refer trainees to their local benefits office to determine their eligibility for state benefits.

If a trainee is found to be ineligible for the bursary, we will recover any bursary payments made by you to them. You must make all reasonable efforts to recover bursary payments from your trainee.

## Payment eligibility

Trainees will typically be entitled to receive the first bursary payment if they are actively engaged on the ITE programme on the first day of the month following their start date.

### **Example:**

A trainee commencing their course in September 2022 will be entitled to their first payment if they are actively undertaking the programme on 1 October. They will be entitled to the second payment if they are on the programme on 1 November, and so on. This is regardless of your individual payment date.

Where a trainee successfully completes their course before the end of the academic year, you can choose to pay them the full balance of the bursary early at your discretion, but we will continue to make payments to you on the existing monthly cycle.

Training bursary funding must not be paid:

- as part of maternity or paternity pay arrangements

- during a period of unauthorised absence

In the event that a trainee is absent through sickness, you may only make one further payment following the first day of absence. After this, if the absence will continue into the next payment period, the absence should be treated as a period of deferral from the course, and so withdrawal from the bursary scheme, and payments must stop with immediate effect. See [withdrawals and deferrals](#) for more information.

These principles also apply for trainees who start their courses later in the academic year subject to their still completing no later than August 2023 (for full-time courses) or August 2024 (for part-time courses). For example, if a trainee commences their course in January 2023, they will be entitled to their first payment (subject to bursaries still being available) if they are actively completing the programme on 1 February.

Payments must not start before the trainee commences the course.

You must maintain an audit trail of all payments made to trainees and any decisions around payment structures.

We maintain the right to request this information at any time for assurance purposes.

## **Trainee engagement**

Trainees are entitled to receive bursary payments as long as they are actively engaged on the FE ITE programme. If you have valid concerns that a trainee is not engaging appropriately with the course, you have the discretion to withhold bursary payments until you are satisfied that engagement is at an acceptable level and you are confident the trainee will complete the course. Email us at [FE.workforceincentives@education.gov.uk](mailto:FE.workforceincentives@education.gov.uk) immediately if these circumstances apply.

## **Withdrawals and deferrals**

Eligible trainees who withdraw from a course will be entitled to payment for each month up to, and including, the month in which they formally withdraw. Trainees are not typically able to defer their study where this would mean they complete the course after the 2023 to 2024 academic year and continue to receive an ITE bursary on return, so must be treated as withdrawals for the purposes of bursary management. Contact us immediately if exceptional circumstances may apply.

**Example:**

If a trainee starts their programme in September 2022 and withdraws (directly or by deferring) in January 2023, they will be entitled to 4 payments in total as they were engaged on the course on:

- 1 October 2022
- 1 November 2022
- 1 December 2022
- 1 January 2023

Withdrawal information should reflect the dates given to Student Finance England for student support purposes.

In the event of withdrawal, you must:

- suspend all bursary payments to the trainee immediately
- make sure that their records are updated, detailing the formal withdrawal date, by emailing us at [FE.workforceincentives@education.gov.uk](mailto:FE.workforceincentives@education.gov.uk)

We will recover any overpayments made to you after the trainee has withdrawn and will not reimburse you for any payments made to trainees in error.

We expect you to recover any bursary overpayments from trainees.

## **Suspended trainees**

Trainees who are suspended from their course pending investigation may continue to receive their bursary payments. If a decision is reached to terminate the trainee's programme, you must notify us immediately so we can stop payments straightaway. If you make any payments in error, these should be recovered from the trainee.

# **Monitoring, assurance and data requirements**

## **Monitoring and assurance**

We have a responsibility to make sure that public funds and assets generated from applicable ITE places are properly managed in line with your grant funding agreement.

You will be required to demonstrate that you have administered all bursary funding in accordance with your grant funding agreements, including:

- selecting and recruiting the highest-quality candidates to programmes of ITE
- designing and delivering high-quality programmes of ITE
- rigorously assessing trainees against all of the relevant [FE professional standards for teachers and trainers](#)
- assuring the quality of trainee placements undertaken and mentoring received
- demonstrating propriety and adequate controls in your financial management and comply with relevant financial reporting or governance requirements
- complying with our data requirements and requests as stipulated in all our guidance
- passing on 100% of the training bursary funding issued to you under your grant funding agreement to the trainee

You must hold full records of all trainees in receipt of bursaries, including evidence of trainees' academic qualifications achieved (or other evidence of attainment) prior to starting their ITE.

Trainees must hold the highest eligible qualification on which their assessment was based. In most cases trainees must have obtained the relevant qualifications prior to starting the course. We reserve the right to request evidence of qualification (or delay) at any point during the academic year from you, for the purpose of quality monitoring and funding assurance. This may include copies of original documentation provided by trainees, including qualification certificates.

We also expect to see evidence of:

- payments you have made to trainees
- evidence of trainee attendance

It is advisable that you keep records for 3 years after the cohort has finished.

We require rigorous assurance of all bursary payments, including your accounting officer verifying the data sets. A sample 'Annex G' will be included in your GFA, which demonstrates the breadth of this requirement, with more detailed guidance regarding the Annex G process to be provided at the end of the 2022 to 2023 academic year (annual certification of expenditure arrangements).

We will also review the allocated ITE bursary funding that you receive and reconcile this amount with the trainee records submitted. Funding will be adjusted to meet the actual amount required. Where funding that you have received is more than the amount that you were entitled to, we will recover the excess by invoicing you or offsetting this amount against any future payments.

Remember to make sure that all trainee records submitted to us are complete. This includes amending the records of trainees who:

- withdraw (directly or by deferring) from their ITE course
- start later in the 2022 to 2023 academic year

We reserve the right to delay or withhold payments if data is inaccurate or incomplete.

We will carry out a reconciliation exercise between the bursaries allocated and the actual trainee records as confirmed by our data collection exercises during and after the period of training. In the event of any variances, we reserve the right to ask you for explanations of the variances and to seek further information. We will not reimburse you for any bursaries paid to ineligible trainees.

You will be asked to complete an Annex G in accordance with published guidance, containing:

- income
- expenditure
- trainee data

This has to be independently audited and countersigned by the accounting officer (see [Annex F: assurance and audit process](#)).

We will use this information to reconcile the funding that you have received with your declared expenditure, taking into account the effect of withdrawn trainees.

We will issue more detailed guidance regarding Annex G at the end of the 2022 to 2023 academic year so that you are able to comply with the grant funding agreement requirements.

## Data requirements and reporting

You must submit relevant trainee-level data to us, at specific times before, during and after the course, including:

- individual and course data
- applications
- recruitment and employment outcomes

[Annex E: ITE provider bursary funding cycle](#) sets out the key timeline, and we will provide further details of requirements if you receive confirmation of bursary availability for your trainees.

Failure to comply with requests for data may be taken into account when we consider further requests for any future funding.

When submitting information to us you must comply with General Data Protection Regulation (GDPR) requirements. For more information, see [General Data Protection Regulation \(GDPR\)](#).

If you have any queries regarding the submission of trainee-level data, email us at: [FE.workforceincentives@education.gov.uk](mailto:FE.workforceincentives@education.gov.uk).

## **General Data Protection Regulation (GDPR)**

As bursaries will be dispensed under grant funding from the DfE, you must ensure that you are aware of your obligations under the GDPR. This is on the basis that, for the purposes of grant funding and the terms of funding between the DfE and your organisation, you are data controller in respect of any personal data you will process as part of the activity you undertake. You will therefore be bound by responsibilities as data controller under data protection legislation.

Should the DfE require you to process personal data, then the DfE will issue written instructions to you in connection with such processing.

For further information, read [How DfE share personal data](#).

## **Annex A: list of subjects eligible for a bursary**

We will provide bursaries for the following ITE programmes:

- computing
- engineering (and/or manufacturing)
- English (capped at 100 awards in the 2022 to 2023 academic year)
- mathematics
- science (including biology, chemistry and/or physics)
- special educational needs and disabilities (SEND)

Funding will not be provided for any subjects that are not included in this list.

## **Annex B: assessing UK academic qualifications**

You must make sure that those responsible for making decisions on bursary eligibility are familiar with, or have access to, advice on the range of qualifications

generally regarded as equivalent to GCSE grade 4 (C) or above and level 3 in the UK. This may include:

- overseas qualifications
- professional or vocational qualifications
- qualifications no longer available but held by mature applicants

You should be aware of the range of qualifications awarded by UK institutions. In all cases, you are responsible for deciding whether an individual's highest relevant qualification meets the bursary eligibility criteria. This includes determining whether a particular qualification demonstrates the breadth and type of academic engagement that would be expected.

Where the trainee does not hold a formal qualification in the subject to be taught, you will need to assess whether the skills, knowledge and experience that they possess in the relevant subject or specialism is sufficient for them to meet the requirements of the training programme.

You must keep an audit trail of how you assess equivalency. In determining equivalency, you may:

- use internal colleagues, such as those in the relevant subject department
- consult external organisations, such as the awarding body of the equivalent qualification or the professional body representing a particular professional domain
- conduct a review of the course content or transcripts of the other qualification

We reserve the right to request this information for assurance purposes and to ensure the robustness of your processes.

Where providers lack the institutional experience to assess the validity of academic qualifications, they should refer to the [Frameworks for HE qualifications of UK degree-awarding bodies](#).

## **Annex C: assessing overseas qualifications**

### **Overseas qualification equivalency**

When selecting trainees with overseas qualifications, you should make sure that they comply with the ITE bursary requirements. A statement of comparability can be obtained from the [UK National Information Centre for the recognition and evaluation of international qualifications and skills \(UK ENIC\)](#), which confirms

whether or not the trainee's qualification is comparable to a UK qualification.

You must hold full records of all trainees in receipt of bursaries, including any qualifications or training they referenced in their application which was achieved before starting their ITE.

Decisions on eligibility must be based solely on the content of the qualification itself and must not include any unrelated additional qualifications. Where an individual does not hold at least a level 3 qualification in the subject of training, you must make a professional assessment to determine eligibility. This should include taking into account the skills, knowledge and experience that an applicant has and the extent to which these will stand the applicant in good stead in order to meet the requirements of the ITE programme.

We reserve the right to request these details from you at any point during the academic year for the purpose of monitoring the robustness of your processes.

This may include:

- copies of original documentation provided by trainees, including qualification certificates
- correspondence related to the decision making process, for example, advice from internal colleagues or external organisations such as awarding bodies

## **Annex D: value and timing of trainee bursary payments**

### **Payments for full-time courses**

Bursary awards should typically be paid in a minimum of 10 equal monthly instalments over the duration of the course, as shown in the table. However, you may choose to amend the payment profile, at your discretion, for example to make an enhanced final payment, to help with retention.

<b>Bursary award</b>	<b>Value of monthly instalments (for 10 month payment structure)</b>
£12,000	£1,200
£15,000	£1,500
£26,000	£2,600

You should not make any payments to the trainee until funding is released. Any payments prior to all eligibility criteria being met are made at the provider's sole risk. The DfE will not reimburse such payments if the trainee is unable to meet the eligibility criteria in full.

## Payments for part-time courses

In a change from the bursary offer in academic years 2020 to 2021 and 2021 to 2022, you will receive 50% of the funding for part-time trainees in the first year of their course (2022 to 2023 academic year) and 50% of the funding in the second year of the course (2023 to 2024 academic year).

You should make sure that the bursary payments broadly reflect the proportion of the course that the trainee has completed at any point. This will typically be in 20 equal monthly instalments over the duration of the course, as shown in the table. However, you may choose to amend the payment profile, at your discretion, for example to make an enhanced final payment, to help with retention.

<b>Bursary award</b>	<b>Value of monthly instalments (for 20 month payment structure for part-time trainees)</b>
£12,000	£600
£15,000	£750
£26,000	£1,300

## Annex E: ITE provider bursary funding cycle

### Key dates in the bursary funding cycle

#### From January 2022

You will need to submit trainee and course data when seeking confirmation of bursary availability, ahead of receiving any confirmation. After this you will receive your grant funding agreement (GFA), which you should sign and return to us as soon as possible after receipt, to allow for prompt processing.

If you are a new FE provider in the 2022 to 2023 academic year and have not

previously received grant funding, you will need to set up a DfE supply record to receive payments. You can do this at [Provide information about your banking and payments to DfE](#).

GFAs must be approved by us and your payment details must be on our system before August 2022 to ensure payments can be made from September.

You must notify us immediately if any trainee subsequently withdraws from their course. We will incorporate this into our bursary model and confirm the process for recovering unallocated funding.

### **August 2022**

We will write to you about funding amounts for September 2022 to January 2023 based on your trainee data.

### **September 2022**

The first payment will be made if you have a GFA in place, based on your trainee data.

### **October 2022**

The second payment will be made if you have a GFA in place, based on your trainee data.

### **November 2022**

The third payment will be made if you have a GFA in place, based on your trainee data.

In November we will ask you to confirm trainee records using a form which will be provided, so we can incorporate this into our grants model. If you fail to reply by the given deadline, future payments will be suspended.

### **December 2022**

The fourth payment will be made if you have a GFA in place, based on your trainee data.

### **January 2023**

We will write to you about funding amounts from January 2023 based on your trainee data.

### **January to July 2023**

The remaining payments will be made each month if you have a GFA in place, based on your trainee data. In March and July we will again ask you to confirm trainee records using a form which will be provided, so we can incorporate this into our grant model. If you fail to reply by the given deadline, future payments will be suspended.

### **August 2023 to July 2024**

The above process will be repeated for those providers with part-time trainees remaining on the programme.

### **December 2023**

You will need to provide retention-related data on former trainees alongside your Annex G return. This activity will be repeated in December 2024 for those providers with part-time trainees.

## **Annex F: assurance and audit process**

### **Key events in the bursary funding cycle**

#### **November 2022 to July 2023**

We will ask you to confirm all trainee records in November, March and July.

#### **September to December 2023**

We will send Annex G documents to you at the end of the academic year. We will pre-populate this with the amount of funding you have received. The completed document will help you to provide us with the necessary assurance for both the amount received and the purpose for which it was used. Further guidance on this process will be sent to you at the same time.

These should be returned by 31 December 2023.

#### **January to March 2024**

Recoveries and reimbursements will be completed through appropriate methods, such as invoices.

As noted in Annex E, the above process will be repeated from September 2024 to March 2025 for those providers with part-time trainees.
