Welsh Government

Introduction

1. Since 2011 Higher Education Research Capital (HERC) has been provided to qualifying institutions in Wales. This circular advises institutions of allocations for 2022-23 and provides guidance on the associated reporting and monitoring requirements.

Background

2. The Department for Business, Energy, and Industrial Strategy (BEIS) has confirmed that it will provide HERC funding to the four UK HE funding bodies¹ in 2022-23. BEIS will provide support of £3,328,863 in Wales which will be matched by a contribution from the Welsh Government (WG) resulting in a total fund of £6,657,726. HEFCW will administer HERC funding and ensure that reporting and monitoring arrangements meet the requirements of all funding partners.

Use of funding

3. The funding provided can only be used as capital and is exclusively to support the development of the physical infrastructure associated with research. Research includes 'scientific research' (meaning research and development in any of the sciences including social sciences or technology (*section 6(1) of the Science and Technology Act 1965*)) and arts and humanities research.
4. In determining the use of their allocations institutions should consider the requirements of the Welsh Government's [Programme for Government](#), and the ambitions identified in the [UK Innovation Strategy](#), [UKRI's strategy](#), and, when published, the Welsh Government's Innovation Strategy. Thought should also be given to how funding is used to support the ambitions and goals of the [Well-being of Future Generations \(Wales\) Act 2015](#).

Allocations

5. Funding has historically been allocated via two separate methods for BEIS and WG:
 - i) The BEIS element of funding is allocated pro-rata to Research Council income. As per BEIS' Memorandum of Understanding with HEFCW and WG, funding should focus on maintaining excellent departments with critical mass to compete globally and the expertise to work closely with business, charities and public services. Allocations are calculated using the latest three years of Research Council income data.
 - ii) The Welsh Government element of the grant is allocated pro-rata to a combination of latest recurrent Quality Research (QR) allocation plus other research income reported by the provider to the HESA finance record.

¹ HEFCW; Scottish Funding Council; Department for the Economy (Northern Ireland); Research England.

6. Due to the late approval of HEFCW budgets the QR allocation for 2022/23 will not be published until late July 2022. Following discussions with qualifying institutions the decision was taken to use the QR allocation from 2021/22 within the funding formula for HERC for 2022-23. This is a relatively minor change and has enabled HEFCW to prioritise finalising the allocations which are published in this circular.

Funding Threshold

7. In order to meet the BEIS requirement that the fund supports excellence and builds critical mass the formula places a minimum threshold of £100k. Only institutions who are above this threshold will receive allocations in 2022-23.
8. Funding allocations for qualifying institutions in 2022-23 can be found at **Annex A**.

Monitoring arrangements

9. Institutions submitted details of future HERC funding priorities for 2022-23 in February 2022. Confirmation of these investments, and potential future plans in 2023-24 should be provided by completing and submitting the pro-forma at **Annex B**:
 - Part 1 of the pro-forma should report on the confirmed use of funding in 2022-23, including total costs of large scale investments where HERC funding has been a contribution.
 - Part 2 of the pro-forma should be used to report on spending priorities for 2023-24 based on the assumption further HERC funding is made available.
 - **Annex B** must be returned to HEFCW by no later than **15 February 2023**.
10. In order to confirm HERC has been spent in full qualifying institutions are asked to submit the Confirmation of Expenditure pro-forma at **Annex C** by **28 April 2023**. Institutions should ensure it is clear whether any unspent funding is committed and if so, the date by which it will be spent in full. Unspent funding which is uncommitted can be reclaimed by HEFCW.
11. The information submitted by institutions in these reports will form the basis of HEFCW reporting requirements for Welsh Government in February 2023 and BEIS in May 2023. Failure to provide adequate project and expenditure detail could delay future confirmation of funding allocations from partners, or indicate a potential lack of impact for HERC investment in Wales which could diminish the argument for continued funding.

Payment arrangements

12. As noted in **Annex A** funding will be distributed via two equal payments in August 2022 and January 2023.

Further information / responses to

13. For further information, contact Emma Morris (029 2085 9664; emma.morris@hefcw.ac.uk).

Assessing the impact of our policies

14. We will carry out an impact assessment screening to help safeguard against discrimination and promote equality. We will also consider the impact of policies on the Welsh language, and Welsh language provision within the HE sector in Wales and potential impacts towards the goals set out in the Well-Being of Future Generations (Wales) Act 2015 including our Well-Being Objectives. Contact equality@hefcw.ac.uk for more information about impact assessments.

Higher Education Research Capital – Funding Allocations 2022-23

	BEIS Allocation	WG Allocation	Total
University of South Wales	£37,203	£117,661	£154,864
Aberystwyth University	£335,517	£310,851	£646,369
Bangor University	£198,917	£383,764	£582,681
Cardiff University	£1,856,654	£1,692,103	£3,548,757
Swansea University	£900,572	£824,484	£1,725,056
Total	£3,328,863	£3,328,863	£6,657,726

Payment Profile 2022-23

Institution	Aug-22	Jan-23
University of South Wales	£77,432	£77,432
Aberystwyth University	£323,184	£323,185
Bangor University	£291,341	£291,340
Cardiff University	£1,774,378	£1,774,378
Swansea University	£862,528	£862,528
Total	£3,328,863	£3,328,863

Notes:

1. In 2022-23 institutions must meet a minimum £100k threshold when the formula is applied to qualify for standard HERC funds.
2. BEIS funding is allocated pro-rata using the latest three years of Research Council Income (2018/19 – 2020/21).
3. WG funding is allocated pro-rata to QR allocations for 2021/22, plus other research income reported by the provider to the HESA finance record in 2020/21.
