### Introduction

This is the second edition of "Education and Training Statistics for the United Kingdom" and again provides an integrated overview of statistics on education and training in the UK. It largely follows the format of last years volume, however there have been one or two changes to note:

- Table 3.6 is a new table showing students from overseas in further and higher education in the UK by the top 50 countries (a similar table last appeared in the 1996 edition of "Education Statistics for the UK").
- Table 3.22 is a new table showing participants in job-related training in the last *thirteen* weeks.
- Table 4.6 reflects the revised National Learning Targets for England, 2002.
- The international chapter (Chapter 7) contains a
  wide selection of tables based on the OECD
  puiblication "Education at a Glance 1998". Analyses
  from the Continuing Vocational Training Survey
  (CVTS) shown in the 1997 volume have not been
  repeated this year as the survey has yet to be re-run.

### **Regional Analyses**

Where regional analyses are given they are on the basis of Government Office Regions (GORs). These have been the primary classification for the presentation of regional statistics since April 1997. Prior to this date, regional statistics for England were presented on the basis of Standard Statistical Regions (SSRs). A description of the differences is contained in the Office for National Statistics publication "Regional Trends 33". Further details of this publication can be found at Annex B.

#### **Contributions**

The efforts of the statistical teams in DfEE, Welsh Office, Scottish Office Education and Industry Department and Department of Education Northern Ireland, who have contributed data for the volume, are greatly appreciated. In DfEE the team responsible for bringing all the data together and producing the 1998 volume were Ian Maguire, Dave Walton, John Canlin, Suzanne Rogerson, Lisa Smith, Rob Burton and Harj Guram.

# CHAPTER 1 TITLE PAGE GOES HERE

### **CHAPTER 1: EXPENDITURE**

### **Key Facts**

- Net expenditure by public authorities directly on nursery and primary schools in 1996-97 was £10.2 billion, and on secondary schools was £9.8 billion. (Table 1.1)
- Net expenditure by public authorities on education in 1996-97 was (provisionally) some £37.0 billion, representing 4.8 per cent of the Gross Domestic Product. (Table 1.2)
- In 1997-97 provisional unit costs/units of public funding per full-time equivalent pupil/student in England were:

### LEA maintained schools;

£1,730 in pre-primary/primary schools £2,330 in secondary schools £9,630 in special schools

£2,920 in Further Education Funding Council (FEFC) provision

£4,790 in Higher Education Funding Council (HEFC) provision (**Table 1.3**)

### **CHAPTER 1: EXPENDITURE - LIST OF TABLES**

- **1.1** Net education and related expenditure by type of service, 1996/97
- **1.2** Summary of net education and related expenditure time series
- 1.3 Unit costs/units of public funding in real terms per full-time equivalent pupil and student in schools, further and higher education (England) – time series

### **EXPENDITURE**

Net education and related expenditure(1) by type of service

**United Kingdom**

<sup>(1)</sup> Revised.

<sup>(2)</sup> Provisional. Includes 1995–96 expenditure for Wales and, for England, 1995–96 Central Government expenditure for schools, 'other education expenditure' and all 'related' expenditure.

<sup>(3)</sup> Including loan charge expenditure up to 1991–92, excluded from 1992–93 as not available on a UK basis.

<sup>(4)</sup> Source: Office for National Statistics.

<sup>(5)</sup> Current and capital VAT.

<sup>(6)</sup> Excludes additional adjustment to allow for capital consumption made for National Accounts purposes amounting to £1,082m in 1996–97.

<sup>(7)</sup> Excludes loan charges.

<sup>(8)</sup> Previously Gross National Product (GNP) at market prices was shown, however this series is no longer collected.

<sup>(9)</sup> Includes adjustments to remove the distortion caused by the abolition of domestic rates.

<sup>(10)</sup> At 1996-97 prices.

## 1.3

Source: Department for Education and Employment Further Education Student Record; FEFC End Year Student Enrolment Statistics; Department of Environment survey RO1 on local authority spending; Universities Statistical Record; Higher Education Funding Council for England

- (1) Net institutional expenditure for LEA maintained schools, current expenditure on Grant maintained schools, expenditure on further and higher education institutions and corresponding pupil/student FIEs have not been calculated on the same basis and therefore the unit costs and units of funding for thse sectors are not directly comparable.
- (2) Cash figures adjusted to 1996–97 levels using the March 1998 GDP deflators at market prices, adjusted to remove the distortion caused by the abolition of domestic rates.
- (3) Excluding Adult Education Centres (AECs), except as indicated in footnote 12.
- (4) Provisional.
- (5) From 1993—94 excludes sixth form colleges.
- (6) Rounded to nearest £10.
- (7) Includes Annual Maintenance Grant and Special Purpose Grants.
- (8) Form 7 pupil numbers at January of each year. Because schools transferred to the GM sector at different times through the year the January count is the best estimate of pupil numbers in GM schools in a given financial year and therefore no adjustment for financial years has been made to January pupil numbers.
- 9) PCFC sector was introduced in 1989–90. Total PCFC recurrent grant and tuition fee income for publicly funded home and EC students.
- (10) Total University Grants Committee/University Funding Council recurrent grant and tuition fee income for publicly funded home and EC students.
- (11) From 1993—94 the FEFC was established to provide for students studying in further education sector colleges. The government funding per funded FTE student series is not comparable with the LEA spending per FTE student series. It comprises the Department's recurrent and capital funding to the FEFC (including unning costs) but with a small adjustment for the provision of pension rights for part time staff, and is confined to funded provision and funded students only. These figures have therefore been calculated on a different basis to those in 1996 Training Statistics Table D.10, when capital funding was excluded from the series. 1997—98 cash figures have been updated since publication in Table 2.3 in the DFEE and OFSTED Departmental Report to include additional funding on IT, summer schools and widening participation.
- (12) FEFC funded provision in FE colleges, WEA establishments, AECs, certain schools and includes some 29,000 students on FEFC funded non-prescribed HE courses in sector colleges and external institutions each year.
- (13) The unit cost per FTE student for HEFCE are based on the latest full-time student numbers (excluding mainstreamed continuing education students) and higher education grants (including the Teacher Training Agency grant from 1995–96 and the dual support research funds transfer from 1992–93) for both recurrent and capital purposes and tuition fees paid through local education authorities.
- (14) In 1989–90 to 1992-93 higher education grant was paid via the UFC and the PCFC.
- (15) The unit costs per FTE student for FEFC exclude running costs.

# CHAPTER 2 TITLE PAGE GOES HERE

### **CHAPTER 2: SCHOOLS**

### **Key Facts**

- There were almost 10 million full-time and part-time pupils in 33.7 thousand schools in 1997/98, compared with 9.6 million pupils and 35.6 thousand schools in 1985/86. (Tables 2.1, 2.2, 2.3)
- There were 282 thousand full and part-time pupils with Special Educational Needs (SEN) in 1997/98, representing 2.8% of all pupils, with 96% of SEN pupils being in maintained schools. (Table 2.4)
- There were 498 thousand full-time school teachers in 1996/97 compared to 529 thousand in 1985/86. Conversely, part-time teachers have increased from 18 thousand to 46 thousand over the same period. Full-time further and higher education lecturers have increased from 124 thousand in 1985/86 to 133 thousand in 1995/96 (a rise of 7%). (Table 2.5)
- The average number of pupils per school in maintained schools in 1997/98 was 66 for nursery, 232 for primary and 844 for secondary. (Table 2.6)
- The average class size in primary schools in the United Kingdom in 1997/98 was 27.3 pupils. The average class size in secondary schools in Great Britain was 21.6 pupils. (Table 2.7)
- The average class size of one teacher classes in primary and secondary schools in England in 1997/98 was 27.7 pupils and 21.7 pupils respectively. Excluding sixth form classes, the average class size for secondary schools was 23.7. (**Table 2.7**)
- The average pupil/teacher ratio in nursery schools in 1997/98 was 20.7. In primary schools the pupil/teacher ratio was 23.1 and in secondary schools it was 16.4. The average pupil/teacher ratio for all schools was 18.3 compared to 17.5 in 1985/86.

  ( Table 2.8 )

### **CHAPTER 2: SCHOOLS – LIST OF TABLES**

- 2.1 Number of schools or departments by type and establishments of further and higher education time series
- **2.2** Full-time and part-time pupils by age, gender and school type, 1997/98
- **2.3** Full-time and part-time pupils by gender and school type time series
- **2.4** Full-time and part-time pupils with Special Educational Needs (SEN), by type of school,1997/98
- **2.5** Teachers and lecturers by type of establishment, gender and graduate status time series
- **2.6** Schools and pupils by size of school or department, by school type, 1997/98
- **2.7** Average class size by Government Office Region (Great Britain) time series
- **2.8** Pupil/teacher ratios by type of school and Government Office Region time series

<sup>(1)</sup> Revised to include 1996/97 schools and FE colleges data for Wales.
(2) Provisional. Schools data for Wales and further education colleges data for England are for 1996/97.
(3) From 1993/94 excludes sixth form colleges in England and Wales which were reclassified as further education colleges on 1 April 1993.
(4) From 1993/94 includes former polytechnics and colleges which became universities as a result of the Further and Higher Education Act 1992.
(5) Includes Evening Centres for Scotland.
(6) Due to changes in data collection, Scotlish Evening Centre numbers are not available.
(7) Schools in Scotland with more than one department have been counted once for each department e.g. a school with nursery, primary and secondary departments has been counted 3 times.
(8) Excludes Preparatory Departments in Grammar Schools.

### **SCHOOLS**

## 2.2

Full-time and part-time pupils by age, gender and school type, 1997/98(1)

<sup>(1)</sup> Provisional. Data for Wales are for 1996/97.

<sup>(2)</sup> Grant-aided schools in Northern Ireland.

<sup>(2)</sup> Iront-auded schools in Northern Ireland.
(3) Includes reception pupils in primary classes and, in Northern Ireland, pupils in preparatory departments of grammar schools.
(4) England and Wales only.
(5) Age 2-4 includes pupils less than 2 years of age in England.
(6) 1 July for Northern Ireland and 31 December for Scotland.
(7) Includes the so-called rising five's (i.e. those pupils who became 5 during the autumn term).
(8) Includes pupils in special units in Scotland, whose age is unknown; an estimate has been made for gender.

<sup>(1)</sup> For Scotland, pupils with a Record of Needs.

<sup>(2)</sup> Provisional. Data for Wales are for 1996/97.

<sup>(3)</sup> Incidence of pupils — the number of pupils with statements within each school type expressed as a proportion of the total number of pupils on roll in each school type.

<sup>(4)</sup> Grant-Aided schools in Northern Ireland.

<sup>(5)</sup> Placement of pupils — the number of pupils with statements within each school type expressed as a proportion of the number of pupils with statements in all schools.

<sup>(6)</sup> Includes nursery classes (except for Scotland, where they are included with Nursery schools) and reception classes.

<sup>(7)</sup> UK totals are slight undercounts.

<sup>(8)</sup> England figures exclude dually registered pupils.

<sup>(9)</sup> Including general and hospital special schools.

<sup>(1)</sup> School size on a pupil headcount basis.

<sup>(2)</sup> Schools in Scotland with more than one department have been counted once for each department e.g. a school with nursery, primary and secondary departments has been counted 3 times.

<sup>(3)</sup> Provisional. Data for Wales are for 1996/97.

<sup>(4)</sup> Includes grant maintained schools.

<sup>(5)</sup> Includes 25 preparatory departments attached to Grammar Schools in Northern Ireland.

<sup>(6)</sup> Includes Voluntary Grammar Schools previously recorded as non-maintained in Northern Ireland.

<sup>(7)</sup> Includes City Technology Colleges.

<sup>(8)</sup> In Northern Ireland, independent schools only.

<sup>(9)</sup> Includes pupils in nursery classes in primary schools in Scotland.

<sup>(10)</sup> Includes pupils in nursery classes and reception classes, except for Scotland — see footnote (9).

## 2.6

**CONTINUED** SCHOOLS

Schools, and pupils by size of school(1) or department(2), by school type, 1997/98(3)

<sup>(1)</sup> Maintained schools only.

<sup>(2)</sup> Includes classes where more than one teacher may be present.
(3) Figures throughout the table exclude sixth form colleges in England and Wales, which were reclassified as further education colleges from 1 April 1993.
(4) Figures in [brackets] are for pupils aged mainly under 16 (ie exluding sixth forms).
(5) Data for Scotland are for 1997/98, since figures are collected every two years.

<sup>(6)</sup> Data for Wales are for 1996/97.

<sup>(7)</sup> United Kingdom.
(8) Excludes preparatory departments attached to Grammar schools.

<sup>(1)</sup> Qualified teachers only for all countries.

<sup>(2)</sup> Includes full-time equivalents of part-time pupils and teachers.

<sup>(3)</sup> Includes grant-maintained schools from 1990/91.

<sup>(4)</sup> Includes preparatory departments attached to grammar schools in Northern Ireland.

<sup>(5)</sup> From 1993/94 excludes sixth form colleges in England and Wales which were reclassified as further education colleges from 1 April 1993.
(6) Includes voluntary grammar schools in Northern Ireland from 1990/91, formerly allocated to the non-maintained sector.

 <sup>(7)</sup> Pupil Referral Units refer to England only.
 (8) Figures for Scotland relate to 1984/85. The number of nursery pupils in non-maintained mainstream schools are based on a headcount of nursery pupils.

<sup>(9)</sup> Revised to include 1996/97 data for Wales.

<sup>(10)</sup> Data for Wales are for 1996/97.

## CHAPTER 3 TITLE PAGE GOES HERE

### CHAPTER 3: POST-COMPULSORY EDUCATION AND TRAINING Key Facts

### (A) PARTICIPATION RATES

- 74 % of 16 to 18 year olds were in education and training in England in January 1998 compared to 66% in 1991. (**Table 3.1**)
- Excluding the overlap between Education and Government Supported Training (GST), of the 74 % of 16 to 18 year olds in education and training in England in January 1998, 21% were in schools, 36% in further education, 7% in higher education and 10% were involved in GST. (Table 3.2)
- In Spring 1998 almost 14% of people of working age had received job-related training in the last four weeks. Employees are more likely to receive job-related training than the self-employed, the unemployed or the economically inactive. (**Table 3.3**)

### (B) STUDENTS AND STARTERS

- The number of students in further and higher education in the United Kingdom in the academic year 1997/98 was 4.4 million, of which 2.3 million were part time. Of the 4.4 million students in further and higher education, 0.3 million were on postgraduate courses, 1 million were undertaking first degrees, 0.5 million were on other undergraduate courses and 2.5 million were on further education courses. (Table 3.5)
- In 1997/98 22,800 students from Greece were in fulltime further and higher education in the UK, the highest of any overseas country. (**Table 3.6**)
- There were almost 3 million new entrants to further and higher education in the academic year 1997/98 of whom 1.7 million were part time. (**Table 3.9**)

### TEC Delivered Government-Supported Training Programmes

### (i) Work based training for young people (WBTYP)

### Modern Apprenticeships (MAs)

- There were 86,600 new starts on Modern
   Apprenticeship schemes (MAs) in England and
   Wales in 1997-98, compared to 75,400 in 1996–97
   which itself was a substantial increase on
   recruitment figures for 1995–96 of 28,400. (Table
   3.10)
- The overall number in training on MAs has increased by 44% over the past 12 months and represents over two fifths of work-based training for young people participants. (Table 3.8)

### Other Training (OT)

• There were 198,800 new starts on Other Training (OT) programmes in England and Wales in 1997–98, a fall from the 268,100 new starts recruited in 1995–96 and 256,900 in 1996–97. (**Table 3.10**)

- The proportion of females joining OT has increased gradually over recent years to a point where there are now almost as many females as males joining the programme. The proportion of ethnic minority starts has remained steady at around 6–8%. (**Table 3.11**)
- The proportion of starts on OT with a disability was 6% in 1996–97, and 1997–98, but the proportion identified as having literacy or numeracy needs rose from 7% to 8% in the same time period. (**Table 3.11**)

#### (ii) Work-based training for adults (WBTA)

- As at March 1998, there were 44,400 people on the Work based training for adults programme in England and Wales, compared to 57,100 in March 1997 and 124,900 in March 1991. (Table 3.8)
- There were 191,900 new starts on Work-based training for adults in England and Wales in 1997–98 compared to 256,900 in 1996–97 and significantly lower than recruitment in 1990–91. This long term fall in starts reflects the decline in unemployment over that period. (**Table 3.10**)
- The proportion of starts from ethnic minority groups rose from 13% in 1996–97 to 15% in 1997–98. 20% of those who joined WBTA programmes in 1997–98 had disabilities, a substantial increase from 11% in 1990–91. (**Table 3.12**)
- 21% of 1997–98 WBTA starts had been unemployed for more than 3 years before joining, compared with 18% of starts in the previous 12 months. (**Table 3.12**)

### (C) JOB RELATED TRAINING

- Employees in the South East region were more likely to receive job-related training than employees in any other region. Employees in Northern Ireland were the least likely to receive training. (Table 3.13)
- In terms of ethnic origin, Black employees were most likely to receive job-related training while those of Indian, Pakistani and Bangladeshi origin were least likely. (Table 3.14)
- People with higher levels of qualifications were more likely to receive job-related training than those with low or no qualifications. (Table 3.14)
- In Spring 1998, 15.6% of employees received jobrelated training; 8.6% received off-the-job; 4.3% onthe-job and 2.7% received both types of training. (Table 3.15)
- Employees in public administration, education and health were most likely to receive job-related

training, while employees in agriculture, forestry and fishing were least likely; 22.4% compared to 9.8%. (**Table 3.16**)

- Much of the job-related training received by employees was of short duration. In Spring 1998, 36.9% of the training received lasted for less than one week. (Table 3.19)
- The economically inactive tend to receive training of a longer duration than that received by employees.
   (Table 3.19)
- A Further Education college or university is the most common location for off-the-job training. The employer's premises is the next most likely place for employees off-the-job training. (Table 3.20)
- On average, young employees, aged 16–24, spent more hours on job-related training in the last week than older employees. Male employees spent more hours in training than female employees. (**Table 3.21**)
- Between Spring 1995 and Spring 1998 both the number and proportion of people receiving jobrelated training during the previous 13 weeks has increased significantly; from 5.5 million and 25.6% in Spring 1995 to 6.4 million and 28.0% in Spring 1998. (Table 3.22)

### CHAPTER 3: POST-COMPULSORY EDUCATION AND TRAINING – LIST OF TABLES

### (A) PARTICIPATION RATES

- **3.1** Educational activities of 16–18 year olds (England) time series
- **3.2** Educational activities of 16–18 year olds (England), 1997/98
- **3.3** Participation in job-related training in the last four weeks time series
- **3.4** Participation in job-related training in the last four weeks by economic activity and age, 1998

### **(B) STUDENTS AND STARTERS**

- **3.5** Students in further and higher education by type of course, mode of study, gender and subject group, 1997/98
- 3.6 Full-time students from overseas in further and higher education, by type of course, gender and country, 1997/98 and time series
- **3.7** Students in further and higher education by level, mode of study, gender and age, 1997/98
- 3.8 Participants in TEC Delivered Government-Supported Training programmes by region (England and Wales) – time series
- **3.9** New entrants to further and higher education by level, mode of study, gender and age, 1997/98
- **3.10** Starts in TEC Delivered Government-Supported Training programmes by region (England and Wales) time series
- **3.11** Work-based training for young people: characteristics of starts (England and Wales) time series
- **3.12** Work-based training for adults: characteristics of starts (England and Wales) time series

### (C) JOB RELATED TRAINING

- **3.13** Participation in job-related training in the last four weeks by economic activity and region, 1998
- **3.14** Participation in job-related training the last four weeks by economic activity and a range of personal characteristics, 1998
- 3.15 Participation by employees in job-related training in the last four weeks by type of training and a range of personal characteristics, 1998
- **3.16** Participation by employees in job-related training in the last four weeks by a range of economic characteristics, 1998

- **3.17** Participation by employees in job-related training in the last four weeks by type of training and a range of economic characteristics, 1998
- **3.18** Participation by employees in job-related training in the last four weeks by region and a range of personal characteristics, 1998
- **3.19** Length of job-related training, 1998
- 3.20 Location of off-the-job training, 1998
- **3.21** Hours spent on job-related training in the last week, 1998
- **3.22** Participation by employees in job-related training in the last thirteen weeks by a range of personal and economic characteristics time series

Please note that numbers of further and higher education institutions and numbers of further and higher education lecturers are shown in the 'SCHOOLS' chapter in Tables 2.1 and 2.5 respectively.

Source: Labour Force Survey, Spring of each year(10)

- (1) Job-related training includes both on and off-the-job training.
- (2) Working age is defined as males aged 16-64 and females aged 16-59.
- (3) Expressed as a percentage of the total number of people in each group.
   (4) Due to a change in the LFS questionnaire, data from Summer 1994 onwards are not comparable with earlier figures.
- (5) Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
- (6) The split into employees and self-employed is based on respondents' own assessment of their employment status.
- (7) Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
- (8) Unemployed according to the International Labour Office (ILO) definition.
- (9) Economically inactive are those who are neither in employment nor ILO unemployed.
- (10) Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

#### POST COMPULSORY EDUCATION AND TRAINING: PARTICIPATION RATES

Participation in job-related training(1) in the last four weeks by economic activity and age, 1998

United Kingdom: People of working age(2)

Sources: Department for Education and Employment; Welsh Office; Scottish Office Education and Industry Department; Department of Education, Northern Ireland

<sup>(1)</sup> Students on Open University courses shown as a total in 1996 volume and earlier, have been allocated to subject groups.
(2) Full-time includes sandwich, and for Scotland, short full-time. Part-time comprises both day and evening, including block release (except for Scotland) and open/distance learning.
(3) Figures are for students on courses at a particular point during the year. Therefore students starting courses after this date will not be counted.
(4) Provisional. Includes 1996/97 further education institution data for England and Wales.

<sup>(5)</sup> Figures are not directly comparable with similar figures in the 1996 volume and earlier since those refer to enrolments rather than headcounts.

(6) Due to a change in reporting practice in 1997/98, most Open University students were recorded as 'Other Undergraduate', whereas in previous years most were recorded as 'First Degree'.

 <sup>(7)</sup> Students in Scotland and Northern Ireland on in-service teacher training courses are included in Education.
 (8) Includes further education institutions in England and Wales which are not available by the standard subject groups shown, or, for higher education students, by level but excludes approximately 177,00 students in further education in England whose mode of study is unknown. External institutions and specialist designated colleges are also excluded.
 (9) Numbers in grouped countries do not sum to overall student numbers due to overlaps. Breakdown excludes further education institution data for Wales.

### **CONTINUED POST COMPULSORY EDUCATION AND TRAINING: STUDENTS AND STARTERS**

Students in further and higher(1) education by type of course, mode of study(2), gender and subject group, 1997/98(3,4,5)

**United Kingdom** 

(ii) of which Overseas Students

Source: Department for Education and Employment, Welsh Office, Scottish Office Education and Industry Department. Department of Education, Northern Ireland

Due to different sources used, data will not agree with those shown in table 3.5(ii).
 Includes 1996/97 data for further education institutions for Wales and 1995/96 data for further education institutions for England.
 Includes higher education in further education institutions in England which are not available by qualification level.
 Data are for 1981/82
 From 1990/91 Gibraltar is included in both EC and commonwealth figures. Numbers in grouped countries do not sum to overall student numbers due to overlap.
 Estimated.

#### POST COMPULSORY EDUCATION AND TRAINING: STUDENTS AND STARTERS

Students in further and higher(1) education by level, mode of study(2), gender and age(3), 1997/98(4,5,6)

Sources: Department for Education and Employment; Welsh Office; Scottish Office Education and Industry Department and Department of Education, Northern Ireland

<sup>(1)</sup> Includes Open University students.

<sup>(2)</sup> Full-time includes sandwich, and for Scotland, short full-time. Part-time comprises both day and evening, including block release (except for Scotland) and open/distance learning.

<sup>(3)</sup> Ages as at 31 August 1997 (1 July for Northern Ireland and 31 December for Scotland).

<sup>(4)</sup> Figures are for students on courses at a particular point during the year. Therefore students starting courses after this date will not be counted.

<sup>(5)</sup> Provisional. Includes 1996/97 further education institution data for England and Wales.

<sup>(6)</sup> Figures are not directly comparable with similar figures in the 1996 volume and earlier since those refer to enrolments rather than headcounts.

<sup>(7)</sup> Due to a change in reporting practice in 1997/98, most Open University students were recorded as 'Other Undergraduate', whereas in previous years most were recorded as 'First Degree'.

<sup>(8)</sup> Data are not available by level for higher education students in further education institutions in England and are included in total higher education columns only.

<sup>(9)</sup> Excludes approximately 177,000 students in further education institutions in England since the information cannot be broken down in this way. External institutions and specialist designated colleges are also excluded.

Sources: TEC Management Information; The Welsh Office.

<sup>(1)</sup> Includes Modern Apprenticeships, National Traineeships & Other Training.

For 1991, Eastern figures were included with East Midlands.
 The England figure may not be sum of the regional figures shown due to rounding.
 National Traineeships were introduced in England & Wales in September 1997, but recruitment was minimal. 1997–98 figures for Wales are not available.

 <sup>(5)</sup> Other Training includes Youth Credits & Youth Training.
 (6) Prior to April 1993 Training for Work was Employment Training/Employment Action. 1996—97 in-training figures for TfW included Pre-Vocational Pilots. From April 1997 onwards Pre-Vocational Training became part of mainstream work-based training for adults.

Sources: Department of Education and Employment; Welsh Office; Scottish Office Education and Industry Department, Department of Education, Northern Ireland

- (1) Full-time includes sandwich, and for Scotland, short full-time. Part-time comprises both day and evening, including block release (except for Scotland) and open/distance learning.
- (2) Ages as at 31 August 1997 (1 July for Northern Ireland and 31 December for Scotland).
- (3) Provisional. Includes 1996/97 further education institution data for England and Wales.
- (4) Figures are not directly comparable with similar figures in the 1996 volume and earlier since those refer to first year enrolments rather than new entrants and headcounts.
- (5) Due to a change in reporting practice in 1997/98, most Open University students were recorded as 'Other Undergraduate', whereas in previous years most were recorded as 'First Degree'.
- (6) Higher education in further education institutions data for England are not available by level of study but are included in 'Total higher education' column.
- (7) Excludes approximately 177,000 students in further education institutions in England since the information cannot be broken down in this way. External institutions and specialist designated colleges are also excluded.
- (8) Includes Open University first year enrolments, for which age or level of study breakdowns are not available.

Sources: TEC Management Information; The Welsh Office.

From 1995–96, figures for work-based training do not equate the sum of the starts on Modern Apprenticeships, National Traineeships and Other Training because they exclude conversions between programmes whereas the figures for individual programmes include conversions from other programmes.
 Includes Modern Apprenticeships, National Traineeships & Other Training.
 For 1991, Eastern figures were included with East Midlands.
 The England figure may not be the sum of the regional figures shown due to rounding.
 National Traineeships were introduced in England & Wales in September 1997, but recruitment was minimal. 1997—98 figures for Wales are not available.
 Other Training includes Youth Credits & Youth Training.
 Prior to April 1993 Training for Work was Employment Training/Employment Action. 1996—97 starts figures for TfW included Pre-Vocational Pilots. From April 1997 onwards Pre-Vocational Training became part of mainstream work-based training for adults.

<sup>(1)</sup> Starts up to and including March 1993 were on Employment Training. Starts after that were on Training for Work, which superseded Employment Training and Employment Action. Differences in the coverage of the programme and its eligibility rules account for much of the change since March 1993.

<sup>(2)</sup> Prior to April 1993 Training for Work was Employment Training/Employment Action. 1996—97 starts figures for TfW include Pre-Vocational Pilots. From April 1997 onwards Pre-Vocational Training became part of mainstream work-based training for adults.

Source: Labour Force Survey, Spring 1998(10)

<sup>(1)</sup> Job-related training includes both on and off-the-job training.
(2) Government Office regions in England and each UK country.

<sup>(3)</sup> Working age is defined as males aged 16-64 and females 16-59.

<sup>(4)</sup> Expressed as a percentage of the total number of people in each group.

 <sup>(5)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
 (6) The split into employees and self-employed is based on respondents' own assessment of their employment status.

<sup>(7)</sup> Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.

<sup>(8)</sup> Unemployed according to the International Labour Office (ILO) definition.

<sup>(9)</sup> Economically inactive are those who are neither in employment nor ILO unemployed.

<sup>(10)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

Source: Labour Force Survey, Spring 1998(10)

<sup>(1)</sup> Job-related training includes both on and off-the-job training.

<sup>(2)</sup> Working age is defined as males aged 16–64 and females aged 16–59.

<sup>(3)</sup> Expressed as a percentage of the total number of people in each group.

<sup>(4)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.

<sup>(5)</sup> The split into employees and self-employed is based on respondents' own assessment of their employment status.

<sup>(6)</sup> Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.

<sup>(7)</sup> Unemployed according to the International Labour Office (ILO) definition.

<sup>(8)</sup> Economically inactive are those who are neither in employment nor ILO unemployed.

<sup>(9)</sup> Government Office regions in England and each UK country.

<sup>(10)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

#### POST COMPULSORY EDUCATION AND TRAINING: JOB-RELATED TRAINING

Participation by employees(1) in job-related training(2) in the last four weeks by type of training and a range of personal characteristics, 1998

United Kingdom: Employees(1) of working age(3)

Thousands and percentages(4)

Source: Labour Force Survey, Spring 1998(7)

Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
 Job-related training includes both on and off-the-job training.
 Working age is defined as males aged 16-64 and females aged 16-59.

<sup>(4)</sup> Expressed as a percentage of the total number of people in each group.

<sup>(5)</sup> Government Office regions in England and each UK country.

<sup>(6)</sup> Due to a change in the LFS questionnaire, data from Summer 1994 onwards are not comparable with earlier figures.

<sup>(7)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts.

#### POST COMPULSORY EDUCATION AND TRAINING: JOB-RELATED TRAINING

### 3.16

Participation by employees(1) in job-related training(2) in the last four weeks by a range of economic characteristics, 1998

United Kingdom: Employees(1) of working age(3)

<sup>(1)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.

<sup>(2)</sup> Job-related training includes both on and off-the-job training.

<sup>(3)</sup> Working age is defined as males aged 16-64 and females aged 16-59.

<sup>(4)</sup> Expressed as a percentage of the total number of people in each group.

<sup>(5)</sup> The split between employees working full-time and part-time is based on respondents' own assessment.

<sup>(6)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

Source: Labour Force Survey, Spring 1998(6)

<sup>(1)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
(2) Job-related training includes both on and off-the-job training.

 <sup>(3)</sup> Government Office regions in England and each UK country.
 (4) Working age is defined as males aged 16–64 and females aged 16–59.

<sup>(5)</sup> Expressed as a percentage of the total number of people in each group.

<sup>(6)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

### CONTINUED POST COMPULSORY EDUCATION AND TRAINING: JOB-RELATED TRAINING

Participation by employees(1) in job-related training(2) in the last four weeks by region(3) and a range of personal characteristics, 1998

United Kingdom: Employees(1) of working age(4)

Thousands and percentages(5)

Source: Labour Force Survey, Spring 1998(12)

<sup>(1)</sup> Job-related training includes both on and off-the-job training.
(2) Working age is defined as males aged 16—64 and females aged 16—59.
(3) Expressed as a percentage of those in the group who received training in the last four weeks.
(4) The total length of the course was recorded not just the part completed. For people engaged on day or block release, the total length of training is given. For people who dropped out of a course the time spent on the course, not the total length is recorded.
(5) People of working age who received on a roff-the-job training in the last four weeks.
(6) Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
(7) The split into employees and self-employed is based on respondents' own assessment of their employment status.
(8) Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
(9) Unemployed according to the International Labour Office (ILO) definition.
(10) Economically inactive are those who are neither in employment nor ILO unemployed.
(11) Government Office regions in England and each UK country.
(12) Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

<sup>(1)</sup> Job-related training includes both on and off-the-job training.
(2) Working age is defined as males aged 16—64 and fernales aged 16—59.
(3) Expressed as a percentage of those in the group who received training in the last week.
(4) Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.
(5) The split into employees and self-employed is based on respondents' own assessment of their employment status.
(6) Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.
(7) Unemployed according to the International Labour Office (ILO) definition.
(8) Economically inactive are those who are neither in employment nor ILO unemployed.
(9) Government Office regions in England and each UK country.
(10) Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

#### POST COMPULSORY EDUCATION AND TRAINING: JOB-RELATED TRAINING

Participation by employees(1) in job-related training(2) in the last thirteen weeks by a range of personal and economic characteristics — time series

United Kingdom: Employees(1) of working age(3)

Source: Labour Force Survey(6), Spring 1995, 1998

<sup>(1)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.

<sup>(2)</sup> Job-related training includes both on and off-the-job training.

<sup>(3)</sup> Working age is defined as males aged 16-64 and females aged 16-59.

<sup>(4)</sup> Expressed as a percentage of the total number of people in each group.

 $<sup>(5) \ \ \</sup>text{The split between employees working full-time and part-time is based on respondents' own assessment.}$ 

<sup>(6)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

# CHAPTER 4 TITLE PAGE GOES HERE

#### **CHAPTER 4: QUALIFICATIONS**

#### **Key Facts**

#### GCE, GCSE & SCE qualifications

- In 1996/97, 219,000 students in the United Kingdom obtained 2 or more passes at GCE A level or equivalent. At GCSE or SCE (Scottish Certificate of Education) (S Grade) level
  - 333,000 students gained 5 or more passes at grades A\*-C/1-3
  - 359,000 students gained 1-4 passes at grades A\*-C/1-3
  - 240,000 students gained no passes at grades A\*-C/1-3 but gained at least one grade D-G
  - 53,000 students gained no graded results (**Table 4.1**)
- Over 5.6 million entries were made for GCSE/SCE (S grade) examinations in schools in Great Britain in 1996/97. 53% of all entries achieved passes at grade A\*-C. (Table 4.2)
- A total of 914,100 entries were made for GCE A level / SCE (H grade) examinations in Great Britain in 1996/97. 57% of all entries achieved grades A–C. (Table 4.3)

#### Subject Choice

• Most frequently studied subjects at GCE A level/ SCE (H grade) were English (English 68,100, English Literature 59,000), Mathematics (87,500), Social Studies (76,500), General Studies (73,500), Biological Sciences (66,000), Chemistry (52,300) and Modern Languages (52,000). (**Table 4.3**)

#### **Vocational Awards**

 There has been an increase of over 90% in the numbers of NVQs awarded between 1993/94 and 1996/97 and awards of GNVQs have risen almost five fold over the same period. (Table 4.4)

#### National Learning Targets for England, 2002

- By 1998 progress towards the targets was:
  - 65% of 11-year-olds reaching the expected standard for their age in literacy
  - 59% of 11-year-olds reaching the standard in numeracy
  - 46% of 16-year-olds gaining at least five good GCSE passes
  - 93% of 16-year-olds gaining at least one exam
  - 72% of 19-year-olds with a "level 2" qualification
  - 50% of 21-year-olds with a "level 3" qualification

- 42% of adults with a "level 3" qualification
- 25% of adults with a "level 4" qualification (**Table 4.6**)

#### **Higher Education Qualifications**

• A total of 456,200 higher education qualifications were awarded in the United Kingdom in 1996/97. Of these 87,300 were sub-degree qualifications, 258,200 were first degrees, 10,200 were PhD or equivalent and 100,500 were at Masters / other postgraduate level. (Table 4.7)

#### **Highest Qualification Held**

- Attainment levels vary by Government Office region with London having a higher proportion of better qualified people (i.e. equivalent to NVQ level 4 & 5) than other UK regions. (Table 4.8)
- Attainment levels vary greatly by economic activity with 26% of unemployed people having no qualifications compared to 12% of employees. (Table 4.8)
- 92% of employees in professional occupations have qualifications at A level and above compared with 59% of managers and administrators and only 19% of plant and machine operatives. (Table 4.8)
- 39% of the workforce are qualified to NVQ level 3 equivalent and above and 21% of the workforce are qualified to NVQ level 4 equivalent and above, while 18% have no qualification (a decrease of 4 percentage points since 1996). (**Table 4.8**)

#### People Working Towards a Qualification

- The proportion of Other Training leavers in England and Wales gaining any full or part qualification was 53% for leavers in Jan 1997 to Dec 1997, 3 percentage points higher than the previous 12 months. The proportion who gained a full qualification, has risen by the same amount. (Table 4.5)
- The proportions of Work-based Training for Adults leavers in England and Wales gaining qualifications are the same for the 12 months to December 1997 as they were for the year earlier. 44% had gained a full or part qualification and 38% had gained a full qualification. (Table 4.5)
- Around 15% of all people of working age are studying towards a qualification. Young people aged 16–24 are far more likely to be working towards a qualification than people in any other age group. (Table 4.9)
- Members of non-white ethnic groups are far more likely to be studying towards a qualification than people of white ethnic origin; 23.0% compared to 14.8%. (**Table 4.9**)

#### **CHAPTER 4: QUALIFICATIONS - LIST OF TABLES**

- **4.1** GCE A level, GCSE and SCE (Scottish Certificate of Education) qualifications obtained by pupils and students of any age time series
- **4.2** GCSE/SCE (S grade) entries and achievements in Great Britain, for all ages in all schools by subject and gender by the end of 1996/97
- 4.3 GCE A level/SCE H grade entries and achievements in Great Britain, for all ages in all Schools and Further Education Sector Colleges by subject and gender, 1996/97
- **4.4** Full vocational awards by gender, type of qualification and equivalent level time series
- **4.5** Other Training and Work-based training for adults: Qualifications of Leavers and Completers (England and Wales) time series
- **4.6** National Learning Targets for England, 2002 time series
- **4.7** Students obtaining higher education qualifications by type of course, gender and subject group, 1996/97
- 4.8 Highest qualification held by people of working age by gender, age, ethnicity, region, economic activity and for employees of working age, by occupation, 1998
- **4.9** People currently working towards a qualification, 1998

GCE, GCSE and SCE qualifications obtained by pupils and students of any age - time series

Source: National Information System for Vocational Qualifications/Qualifications & Curriculum Authority (QCA)

<sup>(1)</sup> Due to change in methodology these figures are not directly comparable to those in previous volumes.

<sup>(2)</sup> Based on all awards where the gender of the candidate is identified. Because of the limited data available, this table may not be representative of the gender split for all vocational awards. Percentages shown for Males and Females should not, therefore, be used with estimated total numbers to obtain estimates of numbers of types of qualifications by gender.

<sup>(3)</sup> Academic years from October to September.

<sup>(4)</sup> Awards are excluded if the centre or qualification was not identified.

<sup>(5)</sup> Numbers may not add to column totals due to rounding.

<sup>(6)</sup> Other Vocational Qualifications made by City & Guilds, RSA, Edexcel and Scottish Qualifications Agency (SQA) only, not UK estimates. For other vocational qualifications, notional NVQ levels are allocated by QCA as part of the NISVQ project.

Sources: Other Training and Work based training for adults follow-up surveys

<sup>(1)</sup> Other Training (shown as Youth Training (YT) in the 1997 volume and which includes Youth Credits) forms part of Work-based training for young people (along with Modern Apprenticeships (MA) and National Trainieships (NTr)).

(2) From April 1995 the definition of Other Training leavers changed, no longer counting those making planned transfers from one training provider to another as leavers. Many of these transferring trainies

will not have gained a job or qualification or completed their training. Therefore the change in definition will increase slightly the proportions with jobs and qualifications and those completing their training. The way that data on qualifications gained are collected was changed from August 1991 on. The effect appears to have been to decrease the proportion recorded as gaining full qualifications, but to increase by a similar amount the proportion gaining part qualifications. Data for 1990—91 and 1991—92 leavers are not strictly comparable with those for later years.

(3) Work-based training for adults (WBTA) superseded Employment Training (ET) and Employment Action (EA) in April 1993. The figures in this table for leavers from April 1993 onwards include all those who joined EA before 29 March 1993, and left after that date. This will have the effect of reducing the proportions going into a job or gaining qualifications for leavers from April 1993 onwards.

Figures for 1990—1993 are for ET.

<sup>(4)</sup> Information on levels of qualifications is not available for 1990–91 leavers and is not published for WBTA leavers.
(5) Leavers to September 1990 surveyed three months after leaving. Leavers in October and November 1990 surveyed in June 1991. Leavers from December 1990 surveyed six months after leaving.

Source: Department for Education and Employment; Labour Force Survey, Spring Quarter of each year

- (1) There is a further 'learning participation' target for adults, and targets for organisations which are not included in this table.
- (2) Due to changes in the coverage of the Labour Force Survey, 1991 figures are not directly comparable to later years.
- (3) The expected standard = level 4 or above in the national tests set for 11-year-olds in English and mathematics.
- (4) 5 higher grade GCSEs = GCSEs at grades  $A^*$ —C, or the equivalent of.
- (5) 1 GCSE = any GCSE grade  $A^*$ —G, or the equivalent of.
- (6) Level 2 = 5 GCSEs at grades A\*-C, an NVQ level 2, an Intermediate GNVQ or the equivalent of.
- (7) Level 3 = 2 A levels, an NVQ level 3, an Advanced GNVQ or the equivalent of.
- $(8) \quad \text{Adults consist of males aged } 18-64 \text{ and females aged } 18-59, \text{ who are in employment or actively seeking employment.}$
- (9) Level 4 = NVQ level 4, i.e. having a degree or higher level vocational qualification.

Labour Force Survey, Spring Quarters(11)

Working age is defined as males aged 16–64 and females aged 16–59.
 Includes Higher degrees and other qualifications at Level 5.
 Includes First degree, Other degree and sub-degree higher education qualifications such as teaching and nursing certificates, HNC/HNDs, other HE diplomas and other qualifications at Level 4.
 Vocational qualifications include those with RSA Advanced Diploma, BTEC Nationals, ONC/ONDs, City and Guilds Advanced Craft or trade apprenticeships and other professional or vocational qualifications at level 3. Academic qualifications include those with Advanced GNVQs, more than one GCE A level or SCE Highers/Scottish Certificates of Sixth Year

Vocational qualifications include those with BTEC general certificates, YT certificates, other RSA qualifications, other City and Guilds or other professional or vocational qualifications at Level 2.

Academic qualifications include those with BTEC general certificates, YT certificates, other RSA qualifications, other City and Guilds or other professional or vocational qualifications at Level 2.

Academic qualifications include those with BTEC general certificates, YT certificates, other RSA qualifications, other City and Guilds or other professional or vocational qualifications at Level 1.

<sup>(7)</sup> Usual region of residence.

<sup>(7)</sup> Usual region or residence.
(8) The split into employees and self employed is based on respondents own assessment of their employment status.
(9) Unemployed according to the International Labour Office (ILO) definition.
(10) People who are neither in employment nor ILO unemployed.
(11) Users of these data should read the LFS entry Annex A, as it contains important information about the LFS and the concepts and definitions used.

Source: Labour Force Survey, Spring 1998(10)

<sup>(1)</sup> Only those of working age; males aged 16–64 and females aged 16–59.

(2) For those who are working towards more than one qualification the highest is recorded.

(3) Expressed as a percentage of those in the group working towards a qualification.

(4) Expressed as a percentage of the total number of people in the group.

(5) Employees are those in employment excluding the self-employed, unpoid family workers and those on government employment and training programmes.

(6) The split into employee and self-employed is based on respondents' own assessment of their employment status

(7) Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.

(8) Unemployment according to the International Labour Office (ILO) definition.

(9) People who are neither in employment nor ILO unemployed.

(10) Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

## CHAPTER 5 TITLE PAGE GOES HERE

#### **CHAPTER 5: DESTINATIONS**

#### **Key Facts**

- Although the number of school leavers in England fell slightly in 1997, the proportion of school leavers continuing their education remained at 68%, 7 percentage points higher than in 1991 (61%). In Scotland the proportion increased to 47% and in Northern Ireland the proportion fell slightly to 66%. 1997 data for Wales were not available. (**Table 5.1**)
- On Other Training, 76% of those who completed their training in the period January to December 1997 went into a job, compared to 66% for all leavers in the same time period. (**Table 5.2**)
- The proportion of Work-based training for Adults leavers in a job has increased steadily over the years. Although the proportion for the twelve months to January 1998 at 45% is 2 percentage points higher than a year earlier, the latest monthly figures are lower than a year earlier. The proportion in a positive outcome has followed a similar trend, and for the latest year is 5 percentage points above the proportion in a job. (Table 5.2)
- 79,700 first degree graduates from the academic year 1996/97 went into permanent employment in the UK. 34,200 went into temporary UK employment and 6,700 were employed overseas. 12,400 graduates were believed to be unemployed and 36,900 graduates continued their education/training. (Table 5.3)

#### **CHAPTER 5: DESTINATIONS - LIST OF TABLES**

- **5.1** Destination of school leavers by country time series
- 5.2 Other Training and Work-based Training for Adults, destinations of leavers and completers, by occupation – time series
- **5.3** First destinations of first degree graduates by gender and subject group, 1996/97

# 5.1

Source: School Leavers Destinations Surveys; Careers Service Activity Survey

<sup>(1)</sup> Figures may not sum to 100% due to rounding.

<sup>(2)</sup> Includes revised data for England.

<sup>(3)</sup> Data for Wales are for 1996.

<sup>(4)</sup> Including those who have employed status on Youth Training (YT), those using Youth Credits and those on Modern Apprenticeships.

<sup>(5)</sup> Those who failed to let the Careers Service or school know what they were doing, and who failed to respond to at least two attempts at follow-up by the Careers Office.

<sup>(6)</sup> These figures cannot be directly compared with those for England and Wales as they cover the destinations of pupils from classes S4, S5 and S6 who left school. during or at the end of the years academic session. England and Wales figures relate to destinations of year 11 pupils leaving secondary school.

Sources: Other Training and Work based training for adults follow-up surveys

<sup>(1)</sup> Other Training (shown as Youth Training (YT) in the 1997 volume and which includes Youth Credits) forms part of Work-based training for young people (along with Modern Apprenticeships (MA)

Other Ironing (shown as Youth Ironing (Y1) in the 1997 volume and which includes Youth Credits) forms part of Work-based training for young people (along with Modern Apprenticeships (MA) and National Traineeships (NTr)).
 From April 1995 the definition of Other Training leavers changed, no longer counting those making planned transfers from one training provider to another as leavers. Many of these transferring trainees will not have gained a job or qualification or completed their training. Therefore the change in definition will increase slightly the proportions with jobs and qualifications and those completing their training. The way that dato on qualifications agained are collected was changed from August 1991 on. The effect appears to have been to decrease the proportion recorded as gaining full qualifications, but to increase by a similar amount the proportion gaining part qualifications. Data for 1990–91 and 1991–92 leavers are not strictly comparable with those for later years.
 Work-based training for adults (WBTA) superseded Employment Training (ET) and Employment Action (EA) in April 1993. The figures in this table for leavers from April 1993 onwards include all those who joined EA before 29 March 1993, and left after that date. This will have the effect of reducing the proportions going into a job or gaining qualifications for leavers from April 1993 onwards. Figures for 1990–1993 are for ET.
 In a positive outcome – in a job full-time education or other TEC-Delivered Government Supported Training.

<sup>(4)</sup> In a positive outcome = in a job, full-time education or other TEC-Delivered Government Supported Training.

 <sup>(4)</sup> In a positive outcome = in a log, for-limit execution or other face-between overinnent supported infilling.
 (5) For Other Training, those whose response to the question, Did you leave your last Training Programme before you were due to finish? was No. For WBTA, those who responded positively to the question When you left the Training Programme, had you completed the training that was agreed between you and the organiser of your training. Note that many of those who did not complete their training nevertheless went into a job after leaving.
 (6) Leavers to September 1990 surveyed three months after leaving. Leavers in October and November 1990 surveyed in June 1991. Leavers from December 1990 surveyed six months after leaving.

<sup>(1)</sup> The categorisation of destination of graduates reflects that collected since 1994/95 by HESA. Consequently direct comparisons with earlier years cannot be made.

<sup>(2)</sup> Higher education institutions only.

<sup>(3)</sup> Destinations from the academic year 1996/97.

Includes the self-employed.
 Further education/training in the United Kingdom or overseas.

<sup>(6)</sup> Includes overseas students leaving the United Kingdom and other students seeking employment.

## CHAPTER 6 TITLE PAGE GOES HERE

#### **CHAPTER 6: POPULATION**

#### **Key Facts**

- UK population aged 2 and over at January 1998 was 57.6 million (28.3 million males and 29.3 million females). (**Table 6.1**)
- UK working age population at Spring 1998 was 35.8 million, of which 22.9 million were Employees, 3.1 million were Self employed, 1.7 million were ILO Unemployed and 7.9 million were Economically Inactive. (Table 6.1)
- UK population aged 2 and over increased by 4.2 per cent between 1986 (55.3 million) and 1998 (57.6 million). Over the same period the working age population increased by 4.0 per cent, from 34.4 million to 35.8 million. (**Table 6.2**)
- Of people of working age, between 1986 and 1998, Employees increased by almost 10 per cent (20.8 million to 22.9 million), Self employed increased by 15 per cent (2.7 million to 3.1 million), Economically inactive increased by 3.3 per cent (7.6 million to 7.9 million), while ILO unemployed decreased by 40 per cent from 2.9 million to 1.7 million. (**Table 6.2**)

#### **CHAPTER 6: POPULATION – LIST OF TABLES**

Sources: Department for Education and Employment; Labour Force Survey (10); Office for National Statistics; Government Actuary's Department

<sup>(1)</sup> Estimated and projected numbers based on demographic data provided by the Office for National Statistics and Surveys and the Government Actuary's Department.

<sup>(2)</sup> Age at 31 August 1997.

<sup>(3)</sup> Males and Females may not sum to All totals due to rounding.

<sup>(4)</sup> Working age is defined as males aged 16-64 and females 16-59.

<sup>(5)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.

<sup>(6)</sup> The split into employees and self-employed is based on respondents' own assessment of their employment status.

<sup>(7)</sup> Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.

 $<sup>\</sup>hbox{(8) Unemployed according to the International Labour Office (ILO) definition.}\\$ 

<sup>(9)</sup> Economically inactive are those who are neither in employment nor ILO unemployed.

<sup>(10)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

<sup>(1)</sup> Estimated and projected numbers based on demographic data provided by the Office for National Statistics and Surveys and the Government Actuary's Department.

<sup>(2)</sup> Age at 31 August of the previous year.

<sup>(3)</sup> Population figures have been revised to include more recent estimates and projections than those shown in the 1997 volume.

<sup>(4)</sup> Working age is defined as males aged 16-64 and females 16-59.

<sup>(5)</sup> Employees are those in employment excluding the self-employed, unpaid family workers and those on government employment and training programmes.

<sup>(6)</sup> The split into employees and self-employed is based on respondents' own assessment of their employment status.

<sup>(7)</sup> Self-employed are those in employment excluding employees, unpaid family workers and those on government employment and training programmes.

<sup>(8)</sup> Unemployed according to the International Labour Office (ILO) definition.

<sup>(9)</sup> Economically inactive are those who are neither in employment nor ILO unemployed.

<sup>(10)</sup> Users of these data should read the LFS entry in Annex A, as it contains important information about the LFS and the concepts and definitions used.

## CHAPTER 7 TITLE PAGE GOES HERE

#### **CHAPTER 7: INTERNATIONAL COMPARISONS**

#### Introduction

International comparisons of the functioning of education and training systems can help countries to identify their strengths and weaknesses and evaluate their performance against their main competitors. Governments are increasingly looking towards these comparisons as they develop and monitor education and training policies.

The United Kingdom participate in the continuing development of international comparisons of education and training. With help from the Welsh Office, Scottish Office Education and Industry Department and the Department of Education Northern Ireland, DfEE supply detailed statistics on education and training in the UK, drawn from this volume and other sources, to the Organisation for Economic Co-operation and Development (OECD), the Statistical Office of the European Union (EUROSTAT) and the United Nations Educational, Scientific and Cultural Organisation (UNESCO).

Based on information supplied by various countries to the international bodies, and the results of international studies, a range of 'indicators' is now available, seeking to compare different aspects of countries' education and training systems and their respective performance.

The comparative tables shown here draw from OECD's "Education at a Glance" (1998 Edition). The latest edition has been extended to show trends in international comparisons. Following the "World Education Indicators" (WEI) project, comparisons are now available for a wider range of countries than before.

It is important to note however that international comparisons of education and training are very difficult and should therefore be treated with caution. In addition, some knowledge of the underlying systems in different countries is extremely useful in interpreting the data.

To ensure comparability, most educational activity in different countries has been assigned to 7 internationally-agreed "ISCED" (International Standard Classification of Education) levels of education. The best comparisons are based on such internationally agreed definitions and procedures, backed up by controls to ensure that these are met by each country. Despite these efforts, there may still be comparability problems which persist – some of the more important ones are noted below:

#### Notes:

Classifying education

 Despite the framework for classifying education programmes offered by ISCED, difficulties remain in comparing levels of education. Countries' underlying systems are such that they interpret the levels of education differently e.g. the United States' sub-

- degree higher education figures may include some courses similar to further education in the UK. The UK are participating in a revision of ISCED, attempting to address any inconsistencies between countries.
- Coverage of what is considered to be "education" may vary, especially at the pre-compulsory and postcompulsory level e.g. early childhood provision, apprenticeships etc.

#### Expenditure on education

- Where institutions cover more than one of the education levels (e.g. "lower" (age 11-13) and "upper" (age 14+) secondary school education in the UK), estimates are often required to assign expenditure figures between levels.
- The range of public and private provision varies considerably between countries. In Japan and the United States, private expenditure on educational institutions is as much as one-third of that from public sources.
- Public expenditure on education, as a percentage of GDP, is influenced by a number of factors. An obvious one is the proportion of the population of school age, which can vary widely between different countries.
- Expenditure coverage, especially at the HE level, differs according to the extent to which countries include elements such as private expenditure and research and development.

#### Participation in education

- Many of the measures shown are on the basis of headcounts, no distinction being possible between full-time and part-time study. Some countries do not even recognise the concept of part-time study, although many of their students would be classified as "part-time" in the UK.
- When comparing expected years of schooling in different countries, the length of the school year and the quality of education offered is not necessarily the same.
- Students who enter non-university higher education programmes may also enter university-level programmes later in their lives. First-time entry rates for each level of higher education cannot be added together to obtain total higher education entrance rates because of the possible doublecounting of entrants.
- The reasons why adults in some countries are so much less likely than others to participate in university-level education are varied. One important factor may be the extensive provision of vocational education and apprenticeships in continental Europe, likely to have reduced the

perceived need to enrol in formal university-level studies as preparation for work.

#### Teachers

 A clear definition of a "teacher", especially in higher education, has not been well established in international data collections. Some countries include professional staff such as guidance counsellors and school psychologists in their "teacher" counts.

#### **Key Facts**

- Public expenditure on all levels of education in the UK was 5.2 per cent of Gross Domestic Product in 1995, about average for OECD countries. This was higher than in Germany (4.8 per cent) and Japan (3.6 per cent) but lower than all of the Scandinavian countries. (Table 7.1)
- The proportion of current expenditure on primary and secondary education devoted to teachers salaries is comparatively low in the UK of the OECD countries, it is only lower in Iceland and the Czech Republic. Conversely, "other recurrent" expenditure, on education equipment and materials, is relatively high. (Table 7.1)
- Expenditure per pupil in early childhood education is well above average in the UK, higher only in Finland. Expenditure per primary and secondary school pupil and higher education student are all slightly below the OECD mean. Expenditure at all these levels is higher in Germany and the United States. In common with 10 other countries (including Germany), in the UK, only expenditure on students in public (and government-dependent private) institutions is included. (Table 7.2)
- Expenditure per student at the earlier levels of education (early childhood and primary) has increased in real terms since 1990 in the UK, but expenditure per secondary student is slightly lower. Expenditure per higher education student has fallen sharply. (Table 7.2)
- Over 90 per cent of the population are enrolled in education in the UK, between the ages of 4 and 15. Some other countries do not start compulsory education until later, but have compulsory schooling to age 18. About a half of UK 2 to 4 year olds participated in education in 1996, similar to Germany and Japan. Although compulsory schooling does not begin until age 6 in Belgium and France, virtually all 3, 4 and 5 year olds participated in education in 1996. (Table 7.3)
- Expected years of (full-time and part-time) primary and secondary education for 5 year olds in the UK slightly increased between 1990 and 1996, to 14.9 years. Expected years of education only fell in Canada. (Table 7.3)
- The ratio of students to teaching staff in the UK is above the OECD country mean at all levels of education. (Table 7.4)
- Annual statutory teacher's starting salaries in upper secondary education in 1996 ranged from around £500 in Turkey to over £30,000 in Switzerland. They were very high in Germany (£22,000) compared with the UK (£13,000). (Table 7.5)

- In every country apart from Turkey, the majority of primary school teachers are women. Women are generally in the majority in secondary education – 57 per cent of secondary school teachers in the UK are women. There are far fewer women teachers in Japan. (Table 7.5)
- The UK's 16 year old participation rate (82 per cent) is below average for OECD countries, and well behind Germany (97 per cent) and France (96 per cent). At age 18, our participation rate (55 per cent) is further behind Germany (85 per cent) and France (84 per cent). (**Table 7.6**)
- The UK's new entrant rate to university-level education (41 per cent) is high by international standards. Due to the relative shortness of courses in the UK, however, expected years of higher education are about average for OECD countries. (Table 7.7)
- UK drop-out rates are among the lowest of all countries, and the UK has the highest first degree graduation rate in the EU. Of all OECD countries, only Australia and the United States have higher first degree graduation rates, and these are only slightly higher than the UK figure. (Table 7.7)
- The median graduation age from first university degree programmes in the UK (22.0 years) is relatively low. In Scandinavian countries, where entry to university education typically occurs at a later age, the median graduation age is at least 25 years old. (Table 7.8)

- A half of first and second university-level qualifications in the UK are awarded to women, similar to most other OECD countries. Women are still under-represented, however, in Japan (32 per cent of first degree and 17 per cent of second degree qualifications). (Table 7.8)
- 40 per cent of the UK population aged 25 to 64 participated in job-related education in 1994/95 the highest for countries participating in the International Adult Literacy Survey. However, the average duration of training per participant was relatively low. (Table 7.9)
- In all countries, those adults who are employed were more likely to have participated in education and training than the unemployed. 72 per cent of adult education and training courses in the UK received at least partial funding from employers a higher proportion than any other country participating in the International Adult Literacy Survey. (Table 7.10)
- The International Adult Literacy Survey concluded that between 1 in 4 and 1 in 5 adults in the UK have "poor" (level 1) basic skills. Our performance was quite polarised, with both a large proportion of people at the highest and at the lowest literacy levels. Twice the proportion of UK adults had level 1 or 2 skills compared with Sweden, who performed best of the 12 countries for whom results are so far available. (Table 7.11)

#### **CHAPTER 7: INTERNATIONAL COMPARISONS - LIST OF TABLES**

- **7.1** Expenditure on education, as a percentage of GDP and by resource category 1995
- **7.2** Expenditure on education, per student per year 1990 and 1995
- **7.3** Participation in compulsory education 1990 and 1996
- **7.4** Ratio of students to teaching staff 1996
- **7.5** School teaching staff 1996
- **7.6** Participation in education of 16 to 18 year olds 1996
- **7.7** Higher education: entry, participation, drop-out and graduation rates 1996
- **7.8** Higher education: age and gender distribution 1996
- **7.9** Rates of participation in adult education and training, by age and type of training 1994/95
- **7.10** Rates of participation in adult education and training by 25–64 year olds by employment status; sources of funding 1994/95
- **7.11** Adult literacy: Results of the International Adult Literacy Survey (IALS) 1994/95

x Data included in another column.

<sup>1.</sup> Net Entry Rate is calculated by dividing the number of new university-level entrants in a specified age group by the total population for that age group.

<sup>2.</sup> Calculated as the sum of the net enrolment rates (full-time and part-time) in higher education for each single year of age from age 17 onwards, divided by 100.

<sup>3.</sup> Calculated using a variety of methods agreed between member states and validated by OECD.

<sup>4.</sup> Annual flow of students qualifying, divided by the average population of the theoretical graduation age group.

<sup>5.</sup> Includes Technical and Further Education (TAFE) enrolments, some of which are classified as below HE level.

<sup>6.</sup> Includes advanced students in special training schools (SENSHUs) some of whose courses may be below sub-degree level.

<sup>7.</sup> Excludes private HE.

Higher education graduates: Age and gender distribution 1996

<sup>(1) &</sup>quot;Document literacy" refers to the knowledge and skills required to locate and use information contained in various formats such as job applications, payroll forms, transportation timetables, maps, tables and graphics

<sup>(2)</sup> Respondents ranked on scale 1 (lowest level) to 4/5 (highest level).

### **ANNEX A**

### **SOURCES OF EDUCATION AND TRAINING STATISTICS**

This section gives details of the current major sources of education and training statistics used in this publication. Previous editions of "Education Statistics for the United Kingdom" and "Training Statistics" give earlier sources used.

# **List of Sources**

- 1 Further Education Statistics
- 2 Higher Education Statistics Agency (HESA)
- 3 Labour Force Survey (LFS)
- 4 Public Examinations: GCSE/GNVQ, GCE and Scottish Certificate of Education (SCE)
- 5 School Leavers Destinations
- 6 Schools Statistics
- 7 TEC-Delivered Government Supported Training:
  - TEC Management Information
  - Work-based Training for Young People: starts / leavers and follow-up surveys
  - Work-based Training for Adults: starts / leavers and follow-up surveys
- 8 Vocational Qualifications

### 1 FURTHER EDUCATION STATISTICS

Statistical information on further education students in England and Wales are produced by the respective Further Education Funding Councils. In Scotland data are provided by the SOEID funded and Local Authority funded FE colleges. Data for Northern Ireland are provided by institutes of further education. Data for FE students in higher education institutions in the UK are provided by the Higher Education Statistics Agency (HESA).

### 2 HIGHER EDUCATION STATISTICS AGENCY (HESA)

From academic year 1994/95 onwards, analogous information for HE students within UK HE institutions was collected by the Higher Education Statistics Agency (HESA). This Agency also collates information on examination results and first destinations supplied by larger FE colleges to the Further Education Funding Council (FEFC) in England, and Education Departments in Wales, Scotland and Northern Ireland in respect of higher education students.

### 3 LABOUR FORCE SURVEY (LFS)

Please note that in the LFS tables some separate analyses will not sum to base figures shown because of unpaid family workers, those on government-supported training and employment programmes, or those who did not answer, who are excluded from the separate analyses (see below for details).

The Labour Force Survey (LFS) was first carried out in the United Kingdom in 1973, as part of the UK's obligations as members of the European Economic Community, and was repeated every two years until 1983. Between 1984 and 1991, the survey was carried out annually, with results published relating to the March to May quarter.

From spring (March to May) 1992 the survey was carried out in Great Britain on a quarterly basis. In Northern Ireland the LFS was conducted in spring 1992 and spring 1993, and was then carried out quarterly from winter (December to February) 1994-95. So for about the last four years, there has been a quarterly survey covering the whole of the UK. The International Labour Organisation (ILO) – an agency of the United Nations – agrees the concepts and definitions used in the LFS.

The survey is based on a random sample throughout the whole of the United Kingdom. Every three months almost 65 thousand households are contacted and information is collected about the personal circumstances and work of everyone living in these households. As well as these private households, the

survey covers two groups of people living in a type of accommodation called *communal establishments*. These two groups are students in halls of residence (whose parents usually answer the survey questions on the students' behalf) and people living in NHS accommodation (which used to be called nurses' homes). The survey does not sample people living in other forms of accommodation – for example, army camps, local authority homes, or hospitals.

The results of each survey are processed, 'grossed', to provide estimates that cover the whole population. This allows us to say that there are about 27 million people in employment, even though the sample itself has only identified about 70 thousand employed people.

## **Concepts and Definitions**

### **All People**

This group includes everyone of working age (Males aged 16-64 and Females aged 16-59) and comprises; employees, the self-employed, those on government supported programmes, unpaid family workers, the ILO unemployed and the economically inactive.

**Economically active** – people aged 16 and over who are either in employment (did some paid work in the reference week) or ILO unemployed.

**Employees** / **Self-employed** – the division between employees and self-employed is based on survey respondents' own assessment of their employment status.

Full-time / part-time – the classification of employees, self-employed, those on government work-related training programmes and unpaid family workers in their main job and as full-time or part-time is on the basis of self-assessment. People on Government-supported training and employment programmes who are at college in the survey reference week are classified, by convention, as part-time.

**Temporary employees** – in the LFS these are defined as those employees who say that their main job is non-permanent in one of the following ways: fixed period contract; agency temping; casual work; seasonal work; other temporary work.

Government-supported training and employment programmes – This group comprises all people aged 16 and over participating in one of the Government's employment and training programmes administered by Training and Enterprise Councils in England and Wales, local enterprise companies in Scotland, or the Training and Employment Agency in Northern Ireland. This group of people has been excluded from the separate economic analyses in the tables as the LFS generally undercounts the numbers involved. Administrative sources provide much more reliable information about

this group (see separate source number 7). **Unpaid Family Workers** – The group comprises persons doing unpaid work for a business they own or for a business that a relative owns. This group of people has been excluded from the separate economic analyses as it is relatively small (around 100,000) and when disaggregated many of the estimates fall below the publication threshold of 10,000.

**ILO unemployment** – the International Labour Office (ILO) measure of unemployment refers to people without a job who were available to start work in the two weeks following their LFS interview and who had either looked for work in the four weeks prior to interview or were waiting to start a job they had already obtained.

**Economically inactive** – people who are neither in employment nor unemployed on the ILO measure. This group includes, for example, all those who were looking after a home or retired (as well as those aged under 16).

**Industry** – the classification of respondents' industry of employment is based on the Standard Industrial Classification 1992: SIC(92).

Occupation – the classification of respondents' occupations are based on the Standard Occupational Classification (SOC), introduced in 1991.

# 4 PUBLIC EXAMINATIONS: GCSE/GNVQ, GCE A LEVEL AND SCOTTISH CERTIFICATE OF EDUCATION (SCE)

The source of this data in England is the volume 'Public Examinations: GCSE/GNVQ and GCE. The majority of tables were produced from the data provided by the GCSE and GCE examining boards and groups. GCSE and GCE data for Wales are also produced from data supplied by similar examining boards. The GCSE and GCE data for Northern Ireland are derived from the School Performance Survey and the Further Education Leavers Survey. In Scotland pupils study for the SCE Standard grade (a two-year course leading to examinations at the end of the fourth year of secondary schooling) and Higher grade, which requires at least a further year of secondary schooling. The data source is the Scottish Qualifications Authority (formerly Scottish Examination Board).

### **5 SCHOOL LEAVERS DESTINATIONS**

From 1996, information on the early destinations of year 11 pupils in England, has been collected via the Careers Service Activity Survey. This replaced the former School

Leavers Destination Survey, which collected information on the destinations of year 11 pupils in England and Wales. It provides data about the choices of around half a million young people finishing compulsory education each year. Similar information is available for Wales, Scotland and Northern Ireland.

#### 6 SCHOOLS STATISTICS

The Department for Education and Employment carries out an annual Census of schools in England on the third Thursday in January. Data are collected on the number of schools by type; number of pupils by age and sex; number of admissions; pupils' school meal arrangements; number of teaching and non-teaching staff; course of study followed by pupils aged 16 and over; number of classes as taught and number of pupils with statements of special educational needs. Data collected each January becomes available towards the end of the same calendar year.

Corresponding annual schools census counts are also carried out in January for pupils in Wales, September for pupils in Scotland and October for pupils in Northern Ireland.

# 7 TEC-DELIVERED GOVERNMENT SUPPORTED TRAINING

The main TEC-delivered Government Supported Training programmes are Modern Apprenticeships, National Traineeships, Other Training for Young People and Work-based Training for Adults. All of these programmes are funded in England by the Department for Education and Employment, and delivered through the network of Training and Enterprise Councils (TECs). The TECs themselves work with local and national training providers and employers. Because the programmes delivered in Wales are virtually identical, the information collected is also consistent with that for England.

The statistics come from three sources. Numbers joining and participating in the programmes come from aggregate management information returns which are provided by TECs as part of their contract with the DfEE, (Welsh Office in Wales). Information on characteristics of trainees (age, sex, ethnic origin etc.) comes from starts certificates, which TECs are required to complete for each individual joining a programme. Six months¹ after leaving the programme each trainee² is sent a postal questionnaire asking for information on whether they completed their training, usefulness of the training, their current activity and what

- <sup>1</sup> In the past, follow-up surveys have been carried out 3 months after leaving up to December 1990 leavers for Employment Training, up to September 1990 leavers for Youth Training.
- <sup>2</sup> Apart from those known to have ceased training as a result of serious injury or death.

qualifications they gained. While the questionnaires have changed several times since their introduction, the core questions have been consistent.

Further details of the programmes and data sources can be obtained from the Statistical First Releases (SFRs) (formerly known as Press Notices) (PNs) shown in section 3. (iii) of Annex B.

### 8 VOCATIONAL QUALIFICATIONS

Information on awards of vocational qualifications comes from two sources: figures on NVQ (National Vocational Qualifications) awards are provided by QCA (the Qualifications Curriculum Authority); the number of SVQ (Scottish Vocational Qualifications), GNVQ/GSVQ (Generalised National Vocational Qualifications and Generalised Scottish Vocational Qualifications), and estimates of other VQs awards are provided by the NISVQ (National Information System for Vocational Qualifications). All estimates of proportions of vocational qualifications awarded by gender are provided by the NISVQ.

#### ANNEX B

# UNITED KINGDOM EDUCATION AND TRAINING STATISTICS: OTHER REFERENCE MATERIAL

### 1 GENERAL

- 1.1 Various summaries of education and training statistics for all four parts of the United Kingdom are contained in the Annual Abstract of Statistics, Regional Trends and Social Trends publications prepared by the Office for National Statistics. Some education statistics also appear in the Digest of Welsh Statistics, the Scottish Abstract of Statistics and the Annual Abstract of Statistics, Northern Ireland.
- **1.2** Each of the home education departments also publish statistics in a variety of press notices, bulletins and statistical volumes. Details of those published by or in conjunction with the Department for Education and Employment are given in Section 3.

# 2 OFFICE FOR NATIONAL STATISTICS (ONS) PUBLICATIONS

The Office for National Statistics publishes a quarterly journal entitled *Statistical News* (price £52.50 pa, or £14 per issue) which contains short articles and notes on the latest developments in all fields of government statistics, including education and training.

Social Trends is produced annually, No 28 1998 (£39.50. ISBN 0 11 620987 9) being the current edition. This publication brings together some of the more significant statistical series relating to social polices and conditions and presents a series of articles, followed by tables and charts. One chapter concentrates on education and training.

Regional Trends is also published annually, No 33 1998 (£39.50. ISBN 0 11 621021 4) being the current edition. This publication brings together detailed information highlighting regional variations in the United Kingdom and covering a wide range of social, demographic and economic topics. One chapter concentrates on education and training.

Guide to Official Statistics 1996 Edition (£35.95 ISBN 0 11 620606 3) sets out to give the user a broad indication of the range of government statistics available and, if so, the publication in which they appear. The next edition of the Guide is expected around April/May 1999.

Labour Market Trends (incorporating the Employment Gazette) has 70-plus pages of labour market statistical tables. It also contains regular analytical articles using Labour Force Survey data and every month includes an LFS Help Line feature which presents information

frequently requested by users of the LFS. The annual subscription including postage is £70 (£98.50 overseas).

Social Focus on Women and Men 1998 (£30.00 ISBN 0 11 621069 9) is the sixth in a series of publications which paint a picture of different group of people in contemporary society. The others are on children, ethnic minorities, women, families and the unemployed.

# 3 DEPARTMENT FOR EDUCATION AND EMPLOYMENT (DIEE) RELATED PUBLICATIONS

### (i) Education and Training reports

A number of important education and training reports of recent years contain statistical tables and results of special surveys and are set out below. Previous editions of this publication include a list of pre-1997 reports:

National Pupil Absence Tables 1997. DfEE, 1997.

Separate Tables: statistics on women and men in education, training and employment. DfEE, 1997.

Skill Needs in Great Britain and Northern Ireland 1997. IFF Research Ltd for DfEE, 1998.

School and College Performance Tables 1998:16-18 Age Group. DfEE, 1998.

**Secondary School Performance Tables 1998.** DfEE, 1998.

Autumn package of Pupil Performance Information; contains Key Stage results, GCSE / GNVQs. DfEE 1998. Also on DfEE website http://www.dfee.gov.uk/

National Adult Learning Survey 1997. DfEE 1998. Result of a survey commissioned by the DfEE into the involvement in taught learning and self-directed learning of 5,653 adults. A summary is available.

### (ii) Annual Volumes

Education Statistics for England or England and Wales are published by the Department for Education and Employment as follows in various annual volumes of tabulations:

### **Schools in England 1997**

Gives information on numbers of schools by type and size, numbers of pupils by age and type of school; pupil:teacher ratios; class sizes; courses of study and school meals.

# Public Examinations, GCSE / GNVQ and GCE in England 1997

Gives information on candidates for the GCSE / GNVQ and GCE examinations and the results attained in

individual subjects for school pupils and further education students.

#### **Further Education statistics**

From 1994/95 statistical information on further education students has been collected and published by the Further Education Funding Council for England (FEFC), Cheylesmore House, Quinton Road, Coventry CV1 2WT.

The FEFC also produces three Press Notices annually on FE students; in April, July and December.

#### Teachers, England and Wales 1998

The 'Teachers, England and Wales' volume is split into distinct sections, each relating to an aspect of the professional career of teachers; from initial teacher training through entering the profession to retirement.

There are tables showing detailed information on age, sex, initial teacher training, qualifications, pay and vacancies in schools in England and Wales. There are some new tables in this years volume including an age breakdown of teachers in service, an average salary analysis of teachers by grade, age, sex and sector and several tables showing details of qualifications of secondary school teachers.

Additional information is included on the further education sector and, separately, the higher education sector, excluding old universities.

### Student Support, England and Wales 1996/97

This volume provides information on awards by Local Education Authorities to students domiciled in England and Wales for the academic year 1996/97.

Information is provided by both mandatory and discretionary awards to students in higher and further education; on the award of educational maintenance allowances; and on awards for postgraduate students. Details are also given on loans made to students in the United Kingdom administered by the Student Loans Company: on access funds administered by education institutions and on career development loans in Great Britain administered by banking institutions. Also included are some time series tables.

### Higher Education Statistics for the UK 1996/97

The purpose of the volume is to present an overview of all aspects of higher education in the UK. It is unique in drawing together the basic figures not only on student enrolments in higher education institutions (HEIs) but also on qualifications obtained, staff, finance, applicants, and student support. In addition, the volume now contains summary statistics on higher education study in further education colleges. A further feature of the volume is the inclusion of separate data for England, Scotland, Wales and Northern Ireland some of which has not been published previously.

### (iii) Statistical Bulletins and Statistical First Releases

A number of Statistical Bulletins and Statistical First Releases (SFRs) (formerly known as Press notices) (PNs) are also released throughout the year. Those issued between October 1997 and October 1998, cover the following topics:

#### S
