INTRODUCTION

This statistical publication provides details of the quality of childcare in England at 31 March 2005.

This has been published in conjunction with *"Early Years: Firm Foundations"* and, for the first time, regional and local authority level data relating to outcomes from Children Act Inspections are given in detail

CONTENT

Figures are presented for each national childcare type and are given at England, government office region and local authority level.

SOURCE

All data has been extracted from the Regulatory Support Application as at 06 April 2005.

FURTHER INFORMATION

The content of this publication has been limited to data that is considered robust and of general public interest. However, a variety of other data are held as part of our early years regulatory and inspection function. These include data relating to: outcomes of childcare applications; time taken to registration decisions; actions and conditions imposed at registration and inspection; Childcare and Nursery Education inspections against each of the five children outcomes. While these, and other, data have not been presented in this publication, much of this is available in the accompanying Local Authority Early Years Profiles on a Local Authority level. We will consider each request for additional information on an individual basis and will consider updates to the content of future publications every six months. We do, however, reserve the right to cost and charge for additional analyses that we cannot meet with available resource.
