

Keys to learning in literacy and mathematics

**Do you have an ICT suite, a bank of laptops, stand-alone computers?
Do you want to extend teachers' use of ICT to children's use?**

PHOTO REDACTED DUE TO THIRD PARTY RIGHTS OR OTHER LEGAL ISSUES

This DVD supports teachers in making links between their own use of ICT to support teaching and children's use of ICT to support their learning. It is designed to be used by leadership teams to support professional development for all staff. The materials support the use of ICT in learning and teaching within the renewed Frameworks for teaching literacy and mathematics.

Keys to learning covers 7 areas of literacy and mathematics commonly identified as priorities:

- Early reading
- Calculation
- Reading on screen
- Problem solving
- Shape and space
- Writing Key Stage 1
- Writing Key Stage 2

The DVD contains a wide variety of resources designed to support practitioners in making effective use of ICT, including:

- Professional Development Meeting outlines
- Spreadsheet workbooks
- Interactive teaching programmes
- Lesson outlines and teaching sequences
- Interactive whiteboard files
- Interactive texts and templates
- Video clips
- Support materials for reading and writing

The DVD also includes skills tutorials to support the use of spreadsheets, interactive texts and ITPs, and can be searched by year group, topic or type of resource.

To order Keys to learning in literacy and mathematics, telephone 0845 60 222 60 quoting order reference 00225-2006PCK-EN. Available September 2006.
